PARLIAMENTARY DEBATES

(HANSARD)

SIXTH SERIES—VOLUME 470 (Part 2)

HOUSE OF COMMONS

OFFICIAL REPORT

THIRD SESSION OF THE FIFTY-FOURTH PARLIAMENT
OF THE UNITED KINGDOM OF GREAT BRITAIN
AND NORTHERN IRELAND,
FIFTY-SIXTH YEAR OF THE REIGN OF
HER MAJESTY QUEEN ELIZABETH II

SESSION 2007–2008

COMPRISING PERIOD
7 January 2008—25 January 2008

HER MAJESTY'S GOVERNMENT

MEMBERS OF THE CABINET

(Formed by the Rt. Hon. Gordon Brown, MP, June 2007)

Prime Minister, First Lord of the Treasury and Minister for the Civil Service—The Rt. Hon. Gordon Brown, MP
Chancellor of the Exchequer—The Rt. Hon. Alistair Darling, MP
Secretary of State for Foreign and Commonwealth Affairs—The Rt. Hon. David Miliband, MP
Secretary of State for Justice and Lord Chancellor—The Rt. Hon. Jack Straw, MP
Secretary of State for the Home Department—The Rt. Hon. Jacqui Smith, MP
Secretary of State for Defence and Secretary of State for Scotland—The Rt. Hon. Des Browne, MP
Secretary of State for Health—The Rt. Hon. Alan Johnson, MP
Secretary of State for Environment, Food and Rural Affairs—The Rt. Hon. Hilary Benn, MP
Secretary of State for International Development—The Rt. Hon. Douglas Alexander, MP
Secretary of State for Business, Enterprise and Regulatory Reform—The Rt. Hon. John Hutton, MP
Leader of the House of Commons, Lord Privy Seal and Minister for Women and Equality—The Rt. Hon. Harriet Harman, QC, MP
Secretary of State for Work and Pensions and Secretary of State for Wales—The Rt. Hon. Peter Hain, MP
Secretary of State for Transport—The Rt. Hon. Ruth Kelly, MP
Secretary of State for Communities and Local Government—The Rt. Hon. Hazel Blears, MP
Parliamentary Secretary to the Treasury—The Rt. Hon. Geoffrey Hoon, MP
Secretary of State for Children, Schools and Families—The Rt. Hon. Ed Balls, MP
Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster—The Rt. Hon. Edward Miliband, MP
Secretary of State for Culture, Media and Sport—The Rt. Hon. James Purnell, MP
Secretary of State for Northern Ireland—The Rt. Hon. Shaun Woodward, MP
Leader of the House of Lords and Lord President of the Council—The Rt. Hon. The Baroness Ashton of Upholland
Chief Secretary to the Treasury—The Rt. Hon. Andy Burnham, MP
Secretary of State for Innovation, Universities and Skills—The Rt. Hon. John Denham, MP
Captain of the Honourable Corps of Gentleman-at-Arms—The Rt. Hon. The Lord Grocott

DEPARTMENTS OF STATE AND MINISTERS

Business, Enterprise and Regulatory Reform—

Secretary of State—The Rt. Hon. John Hutton, MP

Ministers of State—
Minister for Competitiveness—The Rt. Hon. Stephen Timms, Esq, MP
Minister for Trade Promotion and Investment—The Lord Jones of Birmingham
Minister for Employment Relations and Postal Affairs—Pat McFadden, Esq, MP
Minister for Energy—Malcolm Wicks, MP

Parliamentary Under-Secretary of State—
Gareth Thomas, Esq, MP

Cabinet Office—

Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster—The Rt. Hon. Edward Miliband, MP

Minister of State—
Minister for the Olympics and London (Paymaster General)—The Rt. Hon. Tessa Jowell, MP*

Parliamentary Secretaries—
Phil Hope, MP
Gillian Merron, MP (Minister for the East Midlands)*

Children, Schools and Families—

Secretary of State—The Rt. Hon. Ed Balls, MP

Ministers of State—
Minister for Schools and Learners—Jim Knight, MP
Minister for Children, Young People and Families (Minister for the North West)—The Rt. Hon. Beverley Hughes, MP*

Parliamentary Under-Secretaries of State—
Kevin Brennan, MP
The Lord Adonis

Communities and Local Government

SECRETARY OF STATE—The Rt. Hon. Hazel Blears, MP

MINISTERS OF STATE—
Minister for Housing—The Rt. Hon. Yvette Cooper, MP
Minister for Local Government—John Healey, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Baroness Andrews, OBE
Parmjit Dhanda, Esq, MP
Iain Wright, Esq, MP

Culture, Media and Sport

SECRETARY OF STATE—The Rt. Hon. James Purnell, MP

MINISTER OF STATE—
The Rt. Hon. Margaret Hodge, MP, MBE

PARLIAMENTARY UNDER-SECRETARY OF STATE—
Gerry Sutcliffe, Esq, MP

Defence

SECRETARY OF STATE—The Rt. Hon. Des Browne, MP

MINISTERS OF STATE—
Minister for the Armed Forces—The Rt. Hon. Bob Ainsworth, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Rt. Hon. The Baroness Taylor of Bolton
Derek Twigg, MP

Environment, Food and Rural Affairs

SECRETARY OF STATE—The Rt. Hon. Hilary Benn, MP

MINISTERS OF STATE—
Minister for Sustainable Food and Farming and Animal Health—The Rt. Hon. The Lord Rooker
Minister for the Environment—Phil Woolas, Esq, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Joan Ruddock, MP
Jonathan Shaw, MP (Minister for the South East)*

Foreign and Commonwealth Affairs

SECRETARY OF STATE—The Rt. Hon. David Miliband, MP

MINISTERS OF STATE—
Minister for Europe—Jim Murphy, Esq, MP
Minister for the Middle East—Dr. Kim Howells, MP
The Rt. Hon. The Lord Malloch-Brown, KCMG
The Lord Jones of Birmingham

PARLIAMENTARY UNDER-SECRETARY OF STATE—
Meg Munn, MP

Government Equalities Office

MINISTER FOR WOMEN AND EQUALITY—The Rt. Hon. Harriet Harman, QC, MP

MINISTER FOR EQUALITY—Barbara Follett, MP*

Health

SECRETARY OF STATE—The Rt. Hon. Alan Johnson, MP

MINISTERS OF STATE—
The Rt. Hon. Dawn Primarolo, MP
Ben Bradshaw, Esq, MP (Minister for the South West)*

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Lord Darzi of Denham, KBE
Ann Keen, MP
Ivan Lewis, Esq, MP

Home Office

SECRETARY OF STATE—The Rt. Hon. Jacqui Smith, MP

MINISTERS OF STATE—
Minister for Security, Counter-Terrorism, Crime and Policing—The Rt. Hon. Tony McNulty, Esq, MP
Minister for Borders and Immigration—Liam Byrne, Esq, MP (Minister for the West Midlands)*

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Vernon Coaker, Esq, MP
Admiral The Lord West of Spithead, GCB DSC
Meg Hillier, MP

Innovation, Universities and Skills

SECRETARY OF STATE—The Rt. Hon. John Denham, MP

MINISTERS OF STATE—
Minister for Lifelong Learning, Further and Higher Education—Bill Rammell, MP
Minister for Science and Innovation—Ian Pearson, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
David Lammy, Esq, MP
The Lord Triesman

International Development

SECRETARY OF STATE—The Rt. Hon. Douglas Alexander, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Gareth Thomas, Esq, MP
The Baroness Vadera
Shahid Malik, Esq, MP

Justice

SECRETARY OF STATE—The Rt. Hon. Jack Straw, MP

MINISTERS OF STATE—
The Rt. Hon. David Hanson, Esq, MP
Michael Wills, Esq, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Lord Hunt of Kings Heath, OBE
Bridget Prentice, MP
Maria Eagle, MP

Law Officers' Department

ATTORNEY-GENERAL—The Rt. Hon. The Baroness Scotland of Asthal, QC

SOLICITOR-GENERAL—Vera Baird, QC, MP

ADVOCATE-GENERAL FOR SCOTLAND—The Lord Davidson of Glen Cova, QC

Leader of the House of Commons

LEADER OF THE HOUSE OF COMMONS, LORD PRIVY SEAL AND MINISTER FOR WOMEN AND EQUALITY—The Rt. Hon. Harriet Harman, QC, MP

DEPUTY LEADER OF THE HOUSE OF COMMONS—Helen Goodman, MP

Northern Ireland

SECRETARY OF STATE—The Rt. Hon. Shaun Woodward, MP

MINISTER OF STATE—
Paul Goggins, MP

Privy Council Office

LORD PRESIDENT OF THE COUNCIL AND LEADER OF THE HOUSE OF LORDS—The Rt. Hon. The Baroness Ashton of Upholland

Scotland Office

SECRETARY OF STATE—The Rt. Hon. Des Browne, MP

MINISTER OF STATE—
David Cairns, MP

Transport

SECRETARY OF STATE—The Rt. Hon. Ruth Kelly, MP

MINISTER OF STATE—
The Rt. Hon. Rosie Winterton, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Jim Fitzpatrick, MP
Tom Harris, Esq, MP

Treasury

PRIME MINISTER, FIRST LORD OF THE TREASURY AND MINISTER FOR THE CIVIL SERVICE—The Rt. Hon. Gordon Brown, MP

CHANCELLOR OF THE EXCHEQUER—The Rt. Hon. Alistair Darling, MP

CHIEF SECRETARY—The Rt. Hon. Andy Burnham, MP

FINANCIAL SECRETARY—The Rt. Hon. Jane Kennedy, MP

EXCHEQUER SECRETARY—Angela Eagle, MP

ECONOMIC SECRETARY—Kitty Ussher, MP

PARLIAMENTARY SECRETARY—The Rt. Hon. Geoffrey Hoon, MP

LORDS COMMISSIONERS—
Frank Roy, Esq, MP
Steve McCabe, MP
Alan Campbell, Esq, MP
Dave Watts, Esq, MP
Claire Ward, MP

ASSISTANT WHIPS—
Siobhain McDonagh, MP
Michael Foster, Esq, MP
Tony Cunningham, MP
Alison Seabeck, MP
Ms Diana R. Johnson, MP
Mark Tami, MP
Sadiq Khan, Esq, MP
Bob Blizzard, Esq, MPs
Tom Watson, Esq, MP
Wayne David, Esq, MP

Wales Office

SECRETARY OF STATE—The Rt. Hon. Peter Hain, MP

PARLIAMENTARY UNDER-SECRETARY OF STATE—
Huw Irranca-Davies, MP

Work and Pensions

SECRETARY OF STATE—The Rt. Hon. Peter Hain, MP

MINISTERS OF STATE—
Minister for Pensions Reform—Mike O'Brien, Esq, QC, MP
Minister for Employment and Welfare Reform (Minister for Yorkshire and the Humber)—Caroline Flint, MP*

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Anne McGuire, MP
James Plaskitt, Esq, MP
The Lord McKenzie of Luton
Barbara Follett, MP (Minister for the East of England and Minister for Equality)*

Her Majesty's Household

LORD CHAMBERLAIN—The Rt. Hon. The Earl Peel, GCVO, DL

LORD STEWARD—The Duke of Abercorn, KG

MASTER OF THE HORSE—The Lord Vestey

TREASURER—The Rt. Hon. Nicholas Brown, MP (Minister for the North East of England)*

COMPTROLLER—The Rt. Hon. Thomas McAvoy, MP

VICE-CHAMBERLAIN—Liz Blackman, MP

CAPTAIN OF THE HONOURABLE CORPS OF GENTLEMAN-AT-ARMS—The Rt. Hon. The Lord Grocott

CAPTAIN OF THE QUEEN'S BODYGUARD OF THE YEOMAN OF THE GUARD—The Rt. Hon. The Lord Davies of Oldham

LORDS IN WAITING—The Lord Bassam of Brighton, The Lord Truscott, The Lord Bach

BARONESSES IN WAITING—The Baroness Farrington of Ribbleton, The Baroness Crawley, The Baroness Royall of Blaisdon, The Baroness Morgan of Drefelin

**Regional Ministers. Full list:*

Ministers for the English Regions
Ben Bradshaw, Esq, MP (Minister for the South West)
The Rt. Hon. Nicholas Brown, MP (Minister for the North East of England)
Liam Byrne, Esq, MP (Minister for the West Midlands)
Caroline Flint, MP (Minister for Yorkshire and the Humber)
Barbara Follett, MP (Minister for the East of England)
The Rt. Hon. Beverley Hughes, MP (Minister for the North West)
The Rt. Hon. Tessa Jowell, MP (Minister for the Olympics and London)
Gillian Merron, MP (Minister for the East Midlands)
Jonathan Shaw, MP (Minister for the South East)

SECOND CHURCH ESTATES COMMISSIONER, REPRESENTING CHURCH COMMISSIONERS—Sir Stuart Bell, MP

HOUSE OF COMMONS

THE SPEAKER – The Rt Hon. Michael J. Martin, MP

CHAIRMAN OF WAYS AND MEANS – The Rt. Hon. Sir Alan Haselhurst, MP

FIRST DEPUTY CHAIRMAN OF WAYS AND MEANS – Mrs. Sylvia Heal, MP

SECOND DEPUTY CHAIRMAN OF WAYS AND MEANS – Sir Michael Lord, MP

CHAIRMEN'S PANEL

David Amess, Janet Anderson, Peter Atkinson, Hugh Bayley, Anne Begg, Joe Benton, John Bercow, Sir John Butterfill, Martin Caton, Christopher Chope, Derek Conway, Frank Cook, John Cummings, Janet Dean, Roger Gale, Mike Hancock, Jim Hood, Joan Humble, Eric Illsley, Martyn Jones, Dr. William McCrea, David Marshall, Eric Martlew, Edward O'Hara, Bill Olner, Greg Pope, David Taylor, Mike Weir, Hywel Williams, David Wilshire, Ann Winterton, Sir Nicholas Winterton

HOUSE OF COMMONS COMMISSION

The Rt. Hon. The Speaker (Chairman), Sir Stuart Bell, MP, The Rt. Hon. Harriet Harman, QC, MP, Nick Harvey, MP, The Rt. Hon. David Maclean, MP, The Rt. Hon. Mrs. Theresa May, MP

SECRETARY OF THE COMMISSION – Andrew Kennon

ASSISTANT SECRETARY – Jenny McCullough

ADMINISTRATION ESTIMATE AUDIT COMMITTEE

The Rt. Hon. Mrs. Theresa May, MP (Chairman), Nick Harvey, MP, Sir Thomas Legg, KCB, QC, David Taylor, FCA

SECRETARY OF THE AUDIT COMMITTEE – Tracey Garratty

MANAGEMENT BOARD

Malcolm Jack, PhD (Chief Executive), Douglas Millar, CB (Director General, Chamber and Committee Services), John Pullinger (Director General, Information Services), Andrew Walker (Director General, Resources), Sue Harrison (Director General, Facilities) (Temporary), Joan Miller (Director of Parliamentary ICT) (External Member)

SECRETARY OF THE MANAGEMENT BOARD – Philippa Helme

SPEAKER'S SECRETARY – Angus Sinclair

SPEAKER'S COUNSEL – John Vaux

SPEAKER'S CHAPLAIN – Rev. Canon Robert Wright

MEDICAL ADVISER TO THE SPEAKER – Dr. Ron Zeegen, OBE, FRCP, MRCS, DObst, RCOG

PARLIAMENTARY COMMISSIONER FOR STANDARDS – John Lyon, CB

PARLIAMENTARY SECURITY CO-ORDINATOR – Peter Mason

Written Ministerial Statements

Monday 7 January 2008

COMMUNITIES AND LOCAL GOVERNMENT

'Call In' Directions

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Iain Wright): I am today publishing a consultation "Review of 'Call In' Directions" which sets out proposals aimed at reducing the number of planning applications automatically referred to Government for consideration of whether they should be 'called in' for ministerial decision. In 2006-07, less than 5 per cent. of applications referred were ultimately called in, and we consider that there are some unnecessary burdens placed on local planning authorities and Government offices under the current regime.

It will, of course, still be open to individuals or organisations to request that any application be considered for 'call in' by approaching the regional Government office in the first instance.

The consultation documentation and further details about how to respond are available on the Department's website at:

http://www.communities.gov.uk/corporate/publications/consultations/

Copies of the consultation document have been placed in the Libraries of both Houses.

CULTURE, MEDIA AND SPORT

Cultural Property (Armed Conflicts) Bill

The Minister of State, Department for Culture, Media and Sport (Margaret Hodge): Today I am publishing and laying before Parliament a draft of the Cultural Property (Armed Conflicts) Bill for pre-legislative scrutiny. The Bill will help to ensure the security of the nation's most important cultural property in the event of armed conflict and will send a signal to the international community that the UK takes seriously its obligations under international humanitarian law to respect and safeguard the cultural property of other nations.

The Bill is required to enable the UK to ratify the 1954 Hague convention for the Protection of Cultural Property in the Event of Armed Conflict (The Hague Convention) and accede to its two protocols (1954 and 1999). The convention, adopted following the massive destruction that took place during the second world war, provides a system to protect cultural property from the effects of international and domestic armed conflict. Parties to the convention are required to respect cultural property situated within the territory of other parties by not attacking it, and to respect cultural property within their own territory by not using it for purposes which are likely to expose it to destruction or damage in the event of armed conflict.

The Government welcome any comments on the draft Bill. Copies of the Bill will be available to Members from the Vote Office.

DEFENCE

Iraq (Reserve Forces)

The Minister for the Armed Forces (Mr. Bob Ainsworth): With the expiry of the call-out order made last January, I am reporting that a new order has been made under section 54 of the Reserve Forces Act 1996 so that reservists may continue to be called out into service to support operations in Iraq. The new order is valid for 12 months.

Some 270 reservists are currently mobilised and deployed to support operations in Iraq. We are very appreciative of the continuing support and commitment shown by both reservists and their employers.

INTERNATIONAL DEVELOPMENT

Crown Agents Holding and Realisations Board

The Secretary of State for International Development (Mr. Douglas Alexander): The Crown Agents Holding and Realisations Board (CAHRB) was established by the Crown Agents Act 1979 to separate the assets and liabilities of the realisation account dealing with the 1974 losses of the unincorporated Crown Agents from the business of the newly incorporated Crown Agents for Overseas Governments and Administrations (which since 1996 has been successfully operating under the Crown Agents Foundation).

I thank the chairman of CAHRB, David Probert, CBE and Peter Berry the former chief executive and chairman of Crown Agents for carrying on the work of CAHRB in recent years.

CAHRB's 2006 accounts were reported to the House of Commons by the National Audit Office on 13 June 2007. The summary of the realisation account in these accounts shows that CAHRB has recovered and repaid £38 million of the £175 million which was provided by the Government against the losses incurred in 1974 by the unincorporated Crown Agents.

There are now no further significant realisations likely to be made. I have therefore concluded, with the agreement of CAHRB, that the responsibilities of the board for realising assets and discharging liabilities have been substantially completed and that there is no longer a need to have a statutory body for this work. I therefore propose to make an order under the Crown Agents Act 1979 to wind up CAHRB as at 31 March 2008; the few remaining assets and liabilities will transfer to DFID. Once accounts for the final accounting year have been compiled and audited the board will be dissolved.

JUSTICE

Court Fees (Public Law Family Proceedings)

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): On 19 December 2007, the Ministry of Justice published a Consultation Paper, which sets out proposals to increase court fees paid by public authorities in child care and adoption proceedings to reflect the full cost of the process.

The Consultation Paper sets out the need to transfer responsibility for meeting the full cost of these court proceedings from Her Majesty's Courts Service to the authorities that initiate the cases. This reflects the Government's general fee-charging policy, which is intended to provide greater visibility, of and accountability for, the cost of providing services.

Specifically, the proposals in the consultation would:

Increase fees for child care proceedings to reflect the average cost of over £4,000, and introduce a simple incremental payment system so less complex cases requiring fewer hearings would pay less;

Increase adoption fees paid by public authorities to reflect the full cost of around £400.

These proposals will only affect fees paid by public bodies and not individuals. Applications by parents in care and adoption proceedings will remain unchanged.

Copies of the Consultation Paper have been placed in the Libraries of both Houses and can be obtained free on the Ministry's website at the following web address: www.justice.gov.uk/publications/consultations.htm

The closing date for consultation is 11 March 2008.

Written Ministerial Statements

Tuesday 8 January 2008

COMMUNITIES AND LOCAL GOVERNMENT

Compulsory Purchase (Inquiries Procedure) Rules 2007

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Iain Wright): The Government have today laid in Parliament the Compulsory Purchase (Inquiries Procedure) Rules 2007. These rules replace the existing two sets of rules for inquiries into ministerial and non-ministerial compulsory purchase orders, which date from 1994 and 1990 respectively.

The main reason for the new rules is to take account of changes to the procedure and new terminology introduced by part 8 of the Planning and Compulsory Purchase Act 2004. These include introducing a longer deadline at key points in the inquiries to ensure that appropriate time is given to those wishing to put forward objections to the compulsory purchase order.

The rules were also drafted to build on the Government's commitment, given in 2002, to combine both sets of rules and also to reflect current practice as adopted in procedure rules prepared more recently for other types of inquiries, such as those for planning inquiries.

The Council on Tribunals, which was consulted on the draft rules as part of a public consultation exercise and specifically on the final draft, is content.

DEFENCE

Bosnia and Northern Ireland (Commemoration Services)

The Parliamentary Under-Secretary of State for Defence (Derek Twigg): I am pleased to provide further details of events being organised by the Ministry of Defence later this year which will commemorate the contribution made by members of the armed forces in operations in Bosnia-Herzegovina and Northern Ireland over many years.

On Thursday 22 May 2008 a commemorative service is to be held at the new armed forces memorial located in the national memorial arboretum in Staffordshire. This service will honour the personnel who lost their lives or were injured and the many thousands who served throughout the 15-year deployment in Bosnia. It will also allow time for reflection on the United Kingdom's contribution to a more stable and secure environment within Bosnia-Herzegovina which was made possible by the outstanding efforts and dedication of our armed forces.

The second event that I would like to announce is a service to mark the end of Operation Banner in Northern Ireland. This event will take place on Wednesday 10 September 2008 at St. Paul's Cathedral, London and will honour those personnel who lost their lives or were injured in Northern Ireland and the over 300,000 personnel who served in the province since 1969. The resilience they displayed over such a long period of time under extremely difficult circumstances greatly contributed to the peace that now exists.

We hope that both of these events will be attended by many veterans and families with a close association with them. Further details, including how to apply for tickets, will be announced via the media in the next few months.

Princess Royal Barracks (Deepcut)

The Minister for the Armed Forces (Mr. Bob Ainsworth): This statement is to inform the House of our intention to release the Princess Royal Barracks (PRB), Deepcut for disposal as part of ongoing work to optimise the defence training estate. The adjacent training areas and service family accommodation will be retained for use by Ministry of Defence.

The PRB Deepcut site is the principal location for Army logistics training in the Defence College of Logistics and Personnel Administration (DCLPA), and is the home of director, the Royal Logistics Corps (DRLC).

In October, the Under-Secretary of State for Defence, my hon. Friend the Member for Halton (Derek Twigg), updated the House on the way forward for the defence training review (DTR). The statement announced that we were continuing to consider a range of options for package 2, which aims to provide training for logistics and personnel administration, police and guarding, security, languages, intelligence and photography. The conclusion of the part of that work related to the wider rationalisation of the estate, taking into account our focus on improving accommodation and training facilities, is that it would be in the best interests for defence to release the site for alternative civilian use and to re-provide the training facilities elsewhere. It has been judged that the site could be suitable for residential development and make a significant contribution to the Government's housing strategy. It is, therefore, our intention to submit the Deepcut site for inclusion in Surrey Heath borough council's core strategy.

The closure of Deepcut in the future will not lessen our commitment to maintaining the improvements already achieved to improve the care and welfare of trainees; and to continue to address the areas where performance can be improved. We will not forget the four young soldiers—Sean Benton, Cheryl James, Geoff Gray and James Collinson—who died at Deepcut. In seeking to improve the environment in which our people are trained we are continuing to meet the recommendations made by those such as the adult learning inspectorate and Nicholas Blake QC.

A key factor in informing our decisions will also be the impact on and our ability to manage sensitively the implications for our people. We continue to consult fully with trades unions and staff. While we have narrowed

the range of options where future relocation may take place, this work will not be concluded until February. No moves are anticipated before 2013.

A further update will be provided later this year.

FOREIGN AND COMMONWEALTH OFFICE

Gibraltar (Mixed Competence Conventions)

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): I wish to make a statement to the House on the issue of mixed competence conventions. As my right hon. Friend the Member for Ashfield (Mr. Hoon) the then Minister for Europe, reported to this House in April 2007, the outstanding issue blocking the ratification of a number of mixed competence conventions by the EU was the arrangements for communicating with competent authorities in Gibraltar which Spain had questioned.

I am delighted that, with the agreement of the Government of Gibraltar and in the spirit of ongoing co-operation, we have now concluded a set of arrangements with Spain which will allow the EU to move ahead and ratify all such instruments. Among the conventions covered are the 1996 Hague Convention on the Protection of Children and the 2001 Cape Town Convention on International Interests in Mobile Equipment and its protocol on aircraft.

In future under the 'Agreed arrangements relating to Gibraltar authorities in the context of mixed agreements' a system of 'post-boxing' will apply for communications between Spanish and Gibraltar authorities but not for communications between the authorities of other states and Gibraltar. The same arrangements will also apply for communications between Gibraltar and Spain in the context of the 'Agreed arrangements relating to Gibraltar authorities in the context of certain international treaties'.

I am placing copies of the two exchanges of letters in the Library of the House.

JUSTICE

National Offender Management Service Information Technology

The Minister of State, Ministry of Justice (Mr. David Hanson): I wish to provide the House with an update on the findings of the strategic review process of the NOMIS programme that I commissioned in August.

The House will be aware that the NOMIS programme was suspended when it was identified that there was not sufficient funding for the programme to continue as specified. An immediate moratorium on further development work was imposed while the strategic review identified recommendations for the future direction of the programme and the Ministry of Justice internal auditors carried out a review of the programme. Their findings were taken into account as part of the review and will be integrated into the revised structure of the programme.

Following the comprehensive review, which included close consultation with representatives from the Prison Service and probation areas, I have now agreed the strategic direction of the programme.

My objectives for the programme remain to:

Enable improved business continuity by replacing ailing legacy case management and offender assessment applications in public prisons and probation.

Enable more efficient and effective operational management of offenders.

Support offender management processes and thereby reduce reoffending and enhance public protection.

Provide supplier neutral information to support Commissioners.

Provide improved management information to enable improved performance.

The recommendations of the review are that:

HM Prison Service is to receive a version of C-NOMIS, which will replace the existing case management system (LIDS). Three public sector prisons already use the live system. From recent analysis it is clear that the system will drive significant efficiencies when rolled out across the service.

Arrangements will be made to allow sharing of information between prisons and probation areas through a new mechanism 'data share' which will give read only access to core case information to support offender management.

Improvements will be made to OASys and the system will be re-developed as a single national system across probation and prisons.

Delius, a case management system already in use by some probation areas, is to be implemented where existing NPS case management systems are in urgent need of replacement.

C-NOMIS will not therefore be deployed to the National Probation Service.

We will consider options to address a range of issues associated with CRAMS (the case management system currently in use in most probation areas) including obsolete software and hardware, and compliance with the requirements of the Disability Discrimination Act.

We will take account of the current strategic reviews of offender management and offender assessment.

I have agreed these carefully costed measures on the recommendation of the governance boards of the National Offender Management Service and Ministry of Justice. We will continue to scrutinise the value for money provided by each business case as they develop.

This has been a successful review, delivering a reformed programme that is now set to provide real operational improvements for practitioners in managing offenders alongside other reforms across the Criminal Justice System.

Written Ministerial Statements

Wednesday 9 January 2008

CHILDREN, SCHOOLS AND FAMILIES

Primary Curriculum Review

The Secretary of State for Children, Schools and Families (Ed Balls): The children's plan announced that Sir Jim Rose had been appointed to lead an independent review of the primary curriculum. I have today written to Sir Jim Rose setting out the remit for the review. Sir Jim Rose will begin his review immediately and provide a report and recommendations by March 2009 so that agreed changes to the curriculum can be implemented by September 2010.

The primary curriculum must ensure that pupils build on prior learning in the early years foundation stage (EYFS) to develop the essential literacy, numeracy and personal skills they need in order to learn and develop, and to ensure they are able to make a smooth and seamless transition into later learning. It must provide all pupils with a broad and balanced entitlement to learning which encourages creativity and inspires in them a commitment to learning that will last a lifetime.

This will be a fundamental review of the primary curriculum. In addition to reviewing the existing subjects and programmes of study Sir Jim Rose's review will also consider and make recommendations on how to:

best introduce languages as a compulsory subject in key stage 2 as recommended by Lord Dearing's languages review;

best introduce pupils to a broad range of subjects during primary education without overcrowding the curriculum or overburdening schools;

provide greater continuity between the early years foundation stage and key stage 1, and between key stage 2 and key stage 3;

introduce greater flexibility to help schools narrow the attainment gap between disadvantaged pupils and their peers;

improve outcomes for summer-born children and consider whether it would be appropriate to allow greater flexibility in start dates;

develop a framework of the personal development skills which all pupils should expect to develop through their schooling.

I am placing in the Library a copy of my letter to Sir Jim Rose detailing the remit for the review of the primary curriculum.

HEALTH

"Clean, Safe Care"

The Secretary of State for Health (Alan Johnson): A comprehensive strategy to tackle healthcare associated infections (HCAIs) and improve cleanliness in the NHS has been published today by the Department and placed in the Library. Copies are available to hon. Members from the Vote Office and the document can be accessed online at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_081650

The strategy "Clean, Safe Care" draws together recent initiatives to tackle HCAIs and improve cleanliness and details new areas where the National Health Service should invest the Government funding of £270 million per year by 2010-11. This investment was announced in October 2007 as part of the comprehensive spending review settlement to support infection control and cleanliness in the NHS.

Patients have a right to clean and safe treatment wherever and whenever they are treated by the NHS. As set out in the NHS operating framework for 2008-09, improving cleanliness and reducing healthcare associated infections is one of the NHS's top priorities. It must be an essential element of every procedure in the NHS so that patients have the confidence they need in the care they receive.

This strategy sets out where there are national expectations and requirements—such as the new national target for clostridium difficile or the requirement for every hospital to have undergone a deep clean by March 2008. It also guides NHS organisations and staff as to the actions and investment that will be most effective in continuing to tackle infection and improve cleanliness in their local area.

As well as recently announced initiatives, the strategy outlines some further areas that NHS organisations need to consider when developing their local plans. These include investing in specialist staff such as infection control nurses, pharmacists and isolation nurses, and promoting innovations through a range of programmes designed to accelerate the development and uptake of new technologies. The strategy also outlines stringent new requirements on NHS foundation trust applicants meaning that only top performers on HCAIs will now be considered, and explains how the new national contract, published in December 2007, will allow primary care trusts to fine NHS trusts that are not hitting local targets on clostridium difficile improvement. The Department is also ensuring that NHS trusts have the resources for further investment by including an element to tackle infection in the national tariff uplift.

WORK AND PENSIONS

Child Maintenance and Enforcement Commission

The Secretary of State for Work and Pensions (Mr. Peter Hain): I am pleased to announce the appointment of Stephen Geraghty—the current chief executive of the Child Support Agency—as the commissioner designate of the new Child Maintenance and Enforcement Commission as from 1 January 2008. I believe his appointment—alongside that of Janet Paraskeva as the chair designate—will give the Commission an experienced and committed leadership well equipped for the vital task of tackling child poverty.

Subject to the passage of the Child Maintenance and Other Payments Bill, the Child Maintenance and Enforcement Commission will have responsibility for the future child maintenance system. The Commission's key objective will be to get more money to more families, helping to lift more children out of poverty.

Written Ministerial Statements

Thursday 10 January 2008

TREASURY

HMRC Review (Powers, Deterrents and Safeguards)

The Financial Secretary to the Treasury (Jane Kennedy): HM Revenue and Customs (HMRC) is today announcing that it will begin the process of working with interested parties on the development of a taxpayers charter, which will set out both taxpayer rights and responsibilities in a single accessible document. This announcement is made alongside the publication of "Modernising Powers, Deterrents and Safeguards: Safeguards for Taxpayers: Summary of Responses" and reflects the Government's commitment to ensuring that the tax system is useable and accessible for all taxpayers.

The ongoing HMRC Review of Powers, Deterrents and Safeguards is working to align and modernise the powers and taxpayer safeguards that HMRC inherited. It will provide greater consistency across all taxes and a modern framework of law and practice that will make HMRC more efficient and effective. HMRC has today published three further Modernising Powers, Deterrents and Safeguards consultation documents:

Penalties Reform: The Next Stage;

A New Approach to Compliance Checks: Responses to Consultation and Proposals; and;

Repayments and Debt: Responses to Consultation and Proposals.

These documents have been deposited in the Libraries of both Houses and are available on the HMRC website.

COMMUNITIES AND LOCAL GOVERNMENT

Homes and Communities Agency

The Minister for Housing (Yvette Cooper): I undertook during oral evidence for the Committee stage of the Housing and Regeneration Bill on 13 December 2007 to confirm the delivery responsibilities of the Homes and Communities Agency.

The Homes and Communities Agency will for the first time, bring together land and money to deliver decent, affordable housing and regenerate our communities by creating places where people choose to live. It will play a key role advising Ministers on turning our ambition to deliver 3 million new homes by 2020 into a reality.

Establishing the agency will enable a range of existing regeneration and housing delivery programmes to be brought together under the auspices of a single delivery focused agency. This will give local authorities a clear strategic partner to work with on housing and regeneration work in their area, and will enable better and more effective use of a range of assets, resources and funding streams to respond to the particular housing and regeneration problems in different communities.

Taking account of the role of the agency and consultation responses to "Delivering Housing and Regeneration: Communities England and the Future of Social Housing Regulation", we have concluded that the agency, reporting to Ministers, will therefore take on the following roles:

Regeneration programmes from English Partnerships, including remediation of brownfield land, facilitating the provision of homes for key workers, the National Coalfields programme and developing its strategic sites programme to facilitate the delivery of increasing numbers of new homes;

Provision of new affordable housing, currently provided through social housing grant from the Housing Corporation;

Delivery responsibilities for the decent homes programmes for the social housing sector from the Department for Communities and Local Government (CLG) including Arms Length Management Organisations (ALMOs), Large Scale Voluntary Transfers (LSVT), Housing Private Finance Initiative (PFI) and PFI for new supply. This will enable the agency to work closely with local authorities to join up delivery of decent homes with the wider regeneration of communities. Ministers will continue to make final decisions on stock transfers and the establishment of ALMOs;

Transferring programme management responsibility from CLG on housing market renewal facilitating the joining up with other agency programmes, allowing it to work with local authorities to develop multifaceted regeneration programmes that deliver community as well as housing market renewal;

The agency will take on the housing and regeneration delivery functions of CLG in support of the main existing growth areas, including Milton Keynes-South Midlands, London-Stanstead-Cambridge-Peterborough, and Ashford.

Fulfilling its objective of becoming the "Best Delivery Partner" for local authorities, it will also work with local authorities to develop support for new and emerging growth points and will become Government's main source of advice on the delivery of housing growth. Responsibility for selecting and assessing growth areas will remain with CLG and with Ministers;

Similarly the agency will take on housing and regeneration delivery functions from CLG in the Thames Gateway, including driving forward the implementation of the Thames Gateway delivery plan published in November. The Gateway is the single largest regeneration project in Europe and will provide 160,000 new homes and 225,000 jobs by 2016—making a key contribution to the delivery of the agency's objectives. The agency will make use of its unrivalled expertise in housing and regeneration and to work with local councils on delivery across the Gateway. Its role will include the management of CLG's £500million Thames Gateway programme for 2009-11.

Additionally, the Academy for Sustainable Communities will transfer to the agency, as will delivery responsibilities for the following programmes, currently undertaken by CLG:

Mixed Communities

Capital Investment on Homelessness Hostels and Specialist Supported Housing

National Land-Use Database of Previously Developed Land.

This will help provide an holistic approach to housing and regeneration and enable the department to focus on the provision of strategic policy advice and managing cross-Whitehall relationships.

A full summary of responses to the consultation "Delivering Housing and Regeneration: Communities England and the Future of Social Housing Regulation", and the Government's response, can be found on the CLG website. Copies are also being placed in the Libraries of both Houses.

DEFENCE

Air Surveillance and Control System Basing Study

The Minister for the Armed Forces (Mr. Bob Ainsworth): I am taking this opportunity to provide the House with interim details of the Air Surveillance and Control System (ASACS) Basing Study that commenced in September 2006.

As a result of the Air Combat Service Support Units (ACSSU) and Minor Unit Basing Study, the decision was made to draw down RAF Boulmer by 2012 and relocate some of the ASACS units to RAF Scampton. Following the Communication Hub relocation in 2006 to RAF Leeming instead of RAF Scampton the decision regarding the future basing of ASACS units needed to be reconsidered. This included the proposed future location of all ASACS elements currently based at RAF Boulmer, RAF Kirton-in-Lindsey and RAF Scampton.

During the course of the ASACS Basing Study it became clear that the retention of RAF Boulmer as a core site for the ASACS Hub was the best option in financial and operational terms. Therefore, I have decided that, subject to TU consultation, RAF Boulmer should not draw down in 2012 and should instead remain the ASACS Hub. Service and civilian personnel at RAF Boulmer will be briefed on the progress of the study.

This decision only refers to RAF Boulmer's future within the ASACS Basing Study. The final outcome of the study, which will include the basing of the remaining ASACS satellite units at RAF Scampton and RAF Kirton-in-Lindsey, is expected shortly.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

"Consultation on Managing Radioactive Waste Safely"

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): I am today publishing the "Summary and Analysis of Responses to the Consultation on Managing Radioactive Waste Safely; A Framework for Implementing Geological Disposal". The consultation commenced on 25 June 2007 and closed on 2 November 2007.

The Government view is that the consultation responses indicate support for managing higher activity radioactive waste in the long term through geological disposal, as recommended as the best available option by the independent Committee on Radioactive Waste Management (CoRWM) in July 2006. As set out in their response to CoRWM's recommendations in October 2006, the Government continue to see geological disposal as the way forward for the long-term management of higher activity radioactive waste.

Furthermore, the responses indicated support for the approach proposed in the consultation document for securing implementation of such disposal, including how a voluntarism or partnership approach and site screening and assessment criteria might be used to identify a facility site.

The Government also acknowledge, in line with CoRWM's recommendations, that the geological disposal implementation programme needs to be coupled with safe and secure interim storage and that there will be a programme of ongoing research and development for this waste management programme, for which the Nuclear Decommissioning Authority (NDA) will have primary responsibility.

The consultation responses also provided a number of comments on more detailed aspects of carrying forward the geological disposal implementation programme. All consultation comments will be considered in developing the details of the next stages of implementation. These will be set out in a White Paper to be published later this year.

Copies of the summary and analysis of responses will be placed in the Libraries of both Houses, and are available on Defra's website at:

www.defra.gov.uk/corporate/consult/radwaste-framework/index.htm

HOME DEPARTMENT

The Forensic Science Regulator and the Forensic Science Advisory Council

The Parliamentary Under-Secretary of State for the Home Department (Meg Hillier): On 12 July last year I announced the arrangements we had put in hand to establish the post of Forensic Science Regulator to advise the Government and the Criminal Justice System on quality standards in the provision of forensic science; and to set up a Forensic Science Advisory Council to support and advise the regulator.

I am pleased to announce that the regulator has been appointed following an open competition. He is Mr Andrew Rennison, who is currently Director of Intelligence at the Gambling Commission. Mr Rennison will take up the post on 11 February. In the meantime, the role will continue to be filled by a senior official in the Home Office.

I am also pleased to report that the Forensic Science Advisory Council has been established and is operating in support of the interim regulator. The membership of the council is as follows:

Adrian Cory, Interim Regulator (Chair) [1]

Dr Michael Goldstein, Chairman of the Council for the Registration of Forensic Practitioners

Dr Jane Beaumont, Director of Accreditation, UKAS

Stan Brown, CEO Forensic Science Northern Ireland

Roger Coe-Salazar, CPS Chief Crown Prosecutor, Kent

ACC Paul Crowther, British Transport Police

Ms Julie Goulding, lay member

His Honour Judge Andrew Goymer

Mohammed Khamisa QC

Professor Julie Mennell, Chair, UK Forensic Science Education Group

Tom Nelson, Director of Forensic Services, Scottish Police Services Authority

Dr Basil Purdue, President-elect, British Association in Forensic Medicine

Brian Rankin, President, Forensic Science Society

Dr Sheila Willis, Chair, Forensic Science Providers' Group

[1] Andrew Rennison from 11 February 2008

CABINET OFFICE

Families at Risk Review

The Minister for the Cabinet Office (Edward Miliband): Today we are publishing "Think Family: Improving the Life Chances of Families at Risk". This forms the next stage of the "Families at Risk Review" led by the Social Exclusion Task Force and follows on from the publication of "Reaching Out: Think Family" in June 2007.

"Think Family" argues that excellent children's services, and excellent adults' services, are not enough in isolation. To transform life chances and break the cycle of disadvantage, services must go further. Today's report builds on the review's earlier analytical work by setting out a vision of an integrated system that 'thinks family' at every level. The goal is to extend the logic of integration behind "Every Child Matters" beyond children's services to include adults' services and promote collaboration and co-ordination around the needs of the family.

There are four key principles that underpin a system that 'thinks family'. First, there is no 'wrong door' to effective support and contact with any service opens a door into a system of joined up support. Secondly, services take a 'whole family' approach, responding to clients as family members and supporting parental responsibilities. Thirdly, professionals start with a family's strengths and build on a family's capacity to take responsibility for their own lives. Fourthly, the system provides support tailored to need.

The system design is based upon findings from extensive research and consultation with practitioners, local policy makers and families themselves. To take this vision forward DCSF has launched an invitation to local authorities to apply to become one of the £13 million Family Pathfinders set out in "Think Family" and the "Children's Plan". The Family Pathfinders will improve service delivery to families at risk through change at all levels of the system; from strategy and governance through to the delivery of front line services. The pathfinders will build on the learning from innovative family-based services such as the Family Intervention Projects. Working alongside the network of local authorities involved in the "Narrowing the Gap" project, these pathfinders will help to generate learning about how local areas can transform outcomes by 'thinking family'. An additional £3 million will be made available over the next three years for extended Family Pathfinders which will also look in depth at how better forms of support can be built around families in which children are taking on caring responsibilities.

The Family Pathfinders will sit at the heart of a wider process of learning shared between central and local government, practitioners and families themselves to help drive change in every local area.

Copies of the report have been placed in the Library for the reference of Members and are available in the Vote Office.

The report is also available on the Cabinet Office website at: www.cabinetoffice.gov.uk/social_exclusion_task_force

TRANSPORT

Renewable Transport Fuel Obligation

The Parliamentary Under-Secretary of State for Transport (Jim Fitzpatrick): I have today published the Government's recommendation to the Office of the Renewable Fuels Agency (RFA) on how the carbon and sustainability reporting mechanism should operate under the RTFO scheme, which will be introduced in April 2008 pursuant to the Renewable Transport Fuel Obligations Order 2007. This follows a public consultation published on 21 June 2007: "Carbon and Sustainability Reporting Within the Renewable Transport Fuel Obligation, Requirements and Guidance, Draft Government Recommendation to RTFO Administrator". I have also published today a summary of responses to the consultation. Copies of these documents have been placed in the Library of both Houses.

The Government are committed to ensuring that the biofuels that are supplied under the RTFO are sustainable and deliver genuine greenhouse gas savings. This reporting mechanism will provide a strong incentive to road transport fuel suppliers to source sustainable biofuels, and is an essential first step towards the development and introduction of mandatory carbon and sustainability standards.

I can confirm that, in the light of the comments received during the consultation exercise, the Government are setting the following targets for key aspects of the biofuel reporting scheme to illustrate the level of performance expected from all road transport fuel suppliers:

Annual target	*2008-9*	*2009-10*	*2010-11*
Percentage of feedstock meeting a qualifying environmental standard	30%	50%	80%
Annual average greenhouse gas saving of biofuel supplied	40%	45%	50%
Data reporting on sustainability characteristics	50%	70%	90%

The Government announced on 21 June 2007 their aim of rewarding biofuels according to their carbon savings from 2010-11 onwards, subject to a number of very important provisos. I can confirm today that the Government will aim to design such a scheme so that it delivers a level of carbon savings consistent with the greenhouse gas saving target for 2010-11. We will consult in due course on this matter.

The Government will keep all of these targets under review in the light of suppliers' performance in meeting them and other developments.

The Government's recommendation to the RFA includes a number of detailed changes that have been made in the light of the responses to the consultation. The key changes are set out in the summary of responses document.

Further developments in this area will be affected by the forthcoming EU Directives on Renewable Energy and Fuel Quality. The UK will continue to work closely with the European Commission and other member states to ensure that a robust sustainability framework for biofuels underpins both EU and UK biofuel targets.

It is expected that the RFA will consider the Government's recommendation and publish the final reporting requirements shortly.

Further information is available from the Departmental website at:

http://www.dft.gov.uk/roads/RTFO

Written Ministerial Statements

Monday 14 January 2008

TREASURY

National Insurance Contributions Bill

The Financial Secretary to the Treasury (Jane Kennedy): To assist further consideration of the National Insurance Contributions Bill, which was introduced to the House of Commons on 12 November, Her Majesty's Revenue and Customs is today publishing draft regulations amending the Social Security (Contributions) Regulations 2001 insofar as they apply to Great Britain in respect of:

The prescribed equivalents of the Upper Accrual Point (UAP)

The new End of Year reporting requirements for employers

Copies of the draft regulations have been placed in the Library of the House and the Vote Office, and will also be available on the HMRC website.

COMMUNITIES AND LOCAL GOVERNMENT

Disabled Facilities Grant

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Iain Wright): The Government are today announcing the allocation of an additional £11.5 million to the Disabled Facilities Grant programme for 2007-08. The programme has proved to be highly successful with funding to local authorities more than doubling from £57 million in 1997 to £138 million now. These additional funds for the current year will help assist local authorities in meeting existing demand for the provision of adaptations. A table detailing the additional funds provided to individual authorities has been placed in the Libraries of both Houses.

Local authorities must provide some of the finance for Disabled Facilities Grant from their own resources which brings total public sector spending on this programme to in excess of £200 million per annum.

The Disabled Facilities Grant programme helps approximately 35,000 disabled and older people each year to live as comfortably and independently as possible in their homes through the provision of adaptations. The Disabled Facilities Grant programme provides mandatory grants for housing adaptations available to both disabled and older people including improving access to a home and to the basic facilities within a home such as the provision of ramps, door widening and stair lifts.

I will be making a further statement on the future funding of Disabled Facilities Grant and announcing a package of changes to improve delivery of the programme shortly as part of the cross-departmental review of Disabled Facilities Grant.

DEFENCE

Combat Aircraft Capability Enhancements

The Minister for the Armed Forces (Mr. Bob Ainsworth): The Harrier GR9 and the Tornado GR4 are both currently providing invaluable support to our forces in Iraq and Afghanistan. We have signed two contracts on 21 December 2007, appointing BAES as the Prime Contractor, which will deliver further significant capability upgrades to both the Harrier GR9 and the Tornado GR4. Under the programmes, both aircraft will receive improved secure communications and tactical data links, and the Paveway IV precision-guided bomb will be integrated on to Tornado. These upgrades will enhance the ability of these aircraft to support future operations by improving survivability, increasing situational awareness and lowering the risk of fratricide and collateral damage. The combined value of the programmes, through life, is £548 million.

The Ministry of Defence and BAES are committed to working together on these programmes to provide outstanding military capability that will deliver real benefits to operational capability.

FOREIGN AND COMMONWEALTH OFFICE

FCO Services (Trading Fund Status)

The Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Meg Munn): My right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs, with the agreement of HM Treasury, has determined that it would be in the best interests of the Foreign and Commonwealth Office and the taxpayer if FCO Services, currently an executive agency, were to become a Government trading fund on 1 April 2008. Accordingly, I have laid before the House a draft statutory instrument for affirmative resolution.

In reaching his decision, my right hon. Friend has conducted a public consultation exercise and prepared an impact assessment. I have placed a copy of the analysis of responses to the consultation exercise, and a copy of the impact assessment in the Library of the House.

Written Ministerial Statements

Tuesday 15 January 2008

CHILDREN, SCHOOLS AND FAMILIES

School Teachers' Review Body

The Secretary of State for Children, Schools and Families (Ed Balls): Part 1 of the 17th report of the School Teachers' Review Body (STRB) is being published today, covering a range of matters referred to them in March 2007. I am grateful for the thorough attention the STRB has given to these matters. Copies of the report and of my detailed response to it are available in the Vote Office, the Printed Paper Office, both Libraries of the House and at www.teachernet.gov.uk/pay.

The STRB has made recommendations for values of pay scales, spines and allowances, including leadership group pay covering three years from September 2008 to August 2010. They have recommended a 2.45 per cent. increase from September 2008 and have made recommendations that would give teachers further increases of 2.3 per cent. from September 2009 and 2010.

I very much welcome the framework of predictability that these three-year recommendations will give, which will assist long-term strategic decision-making by local authorities and schools. The multi-year figures and processes proposed by the STRB provide an approach which is in accordance with the Government's stated policy on public sector pay, which is for awards that are consistent with the achievement of the CPI inflation target of 2 per cent., are affordable, represent value for money for taxpayers and reflect the labour market position of workforces.

As regards schools in England, the 2.1 per cent. minimum funding guarantee which was announced in the school funding settlement on 12 November 2007 is based on a cautious and realistic assessment of the wide range of cost pressures schools will face both from pay and non-pay. I am therefore confident that these figures will be manageable over the next three year period.

I propose therefore to accept the STRB's recommendation of a 2.45 per cent. award payable from September 2008, and to accept the figures of 2.3 per cent. from September 2009 and September 2010 which they have indicated in their report. Consistent with their report, I propose to set the STRB a remit in the course of 2008 to enable them to ensure that the increases they have proposed for 2009 and 2010 continue to be appropriate in the light of latest recruitment and retention data, and wider economic and labour market conditions. I should however make clear that it is my firm view at this stage that the increases set out in the recommendations in relation to 2009-2011 are the right ones. There would need to be clear evidence of a significant and material change in these factors to justify any change to these figures. The STRB would also need to take into account the fact that schools' budgets will have been set assuming the current figures.

The STRB's recommendations also include enhancements to the salaries of some categories of teacher in inner and outer London and that there should be a review over a longer timescale of the current regional pay bands. I also propose to accept these recommendations.

The review body has also made some recommendations on the unqualified teachers' pay scale. These are detailed and technical matters on which I would like to take the views of consultees before proposing how these matters should be resolved. My detailed response contains further information on both these issues.

COMMUNITIES AND LOCAL GOVERNMENT

Regional Spatial Strategy (West Midlands)

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Parmjit Dhanda): My right hon. Friend the Secretary of State for Communities and Local Government is today publishing the phase 1 revision to the Regional Spatial Strategy (RSS) for the West Midlands. It follows the public examination in January 2007 and the proposed changes published in September.

The majority of the consultation responses were supportive of the proposed changes and the Secretary of State is therefore pleased to confirm them with some minor amendments. The final revision includes:

new policies to define broad areas for regeneration and growth in the Black Country,

a new policy which replaces Dudley with Brierley Hill and Merry Hill as a strategic centre,

a new policy to emphasise the importance of transforming the environment, and

revisions to the transport priorities to reflect the current status of transport proposals in the Black Country.

Baroness Andrews has today written to the WMRA with the final phase 1 revision together with a summary of responses and schedule of changes.

Copies of the relevant documents are available on the internet, in the Libraries of both Houses, and have been provided for all of the Region's MPs, MEPs and local authorities.

The more extensive phase 2 revision to the West Midlands RSS is also underway. This covers revisions to housing and employment policies and the draft submission from the West Midlands Regional Assembly is currently being consulted on.

DEFENCE

Armed Forces Compensation Scheme

The Parliamentary Under-Secretary of State for Defence (Derek Twigg): We previously announced on 11 October 2007, [Official Report, column 42WS] the outcome, subject to consultation, of a review of the multiple injury lump sum element of the Armed Forces and Reserve Forces Compensation Scheme. The purpose of the review was to ensure that the scheme's intent of focusing benefit on the most seriously injured was being delivered. The consultation has now concluded and I

am pleased to confirm that the rule will be amended so that, in future, those who qualify for 100 per cent. of the Guaranteed Income Payment (GIP), who are by definition the most seriously injured, will receive 100 per cent. of the sums payable of all injuries sustained in a single incident, up to a maximum of £285,000. Those who do not qualify for 100 per cent. GIP payments will continue to have the current discounting rule applied to their multiple injuries. This does not affect injuries sustained in separate incidents as these are already paid at the full tariff value of the injury.

The new rule applies to those whose injuries are sustained on or after the legislation comes into force. For those cases whose multiple injuries were sustained between 6 April 2005 (the start of the scheme) and the date the new rule comes into force, and who qualify for 100 per cent. GIP will, exceptionally, have an additional benefit paid to bring them to the same level as those who have the new rule applied.

The AFCS is still relatively new. While a full review of the scheme will be undertaken after five years of operation, we will continue to monitor the scheme in order to identify areas where evidence supports the need for further changes before then. The amendments to the legislation will be laid before Parliament on Wednesday 16 January to put the new rule in place on 8 February. Those service personnel whose claims have already been processed and are entitled to the additional payment will receive their extra money as soon as possible thereafter.

Mild Traumatic Brain Injury

The Parliamentary Under-Secretary of State for Defence (Derek Twigg): In the light of parliamentary and public interest in traumatic brain injuries (TBI) arising in current conflicts, I am pleased to report the status of work being conducted on this topic by the Defence Medical Services.

TBI are seen in both military and civilian populations, occurring when the skull and brain are exposed to acute changes in velocity such as road traffic accidents and contact sports, as well as exposure to blasts and other concussions to the head. Severe and moderate cases are generally readily identifiable to medical practitioners and will be managed by established clinical and rehabilitation programmes. The Defence Medical Services already routinely screens all personnel with multiple injuries admitted to MOD's main rehabilitation centre at Headley Court for symptoms and signs of brain injury, and where necessary special investigations are undertaken to identify the nature and degree of any structural damage to the brain.

However, mild traumatic brain injury (MTBI) can be less easy to recognise and diagnose. It may result from relatively minor head injuries, and symptoms can be both wide-ranging and delayed in their onset, as well as being similar to those of other recognised disorders such as post-concussion syndrome and post-traumatic stress disorder (PTSD).

Recognising the need for further research, the MOD's surgeon general initiated a project in June 2007 to investigate the historical, clinical and laboratory context of MTBI and make recommendations concerning future management, clinical care, education and research. The project team consulted widely with clinical and research experts within the military and civilian sectors both in the UK and overseas, principally the US.

The project noted that civilian evidence suggests 80 per cent. of TBI is mild and 80 per cent of cases will be symptom-free within three months of exposure. The project concluded that there was no evidence to suggest that the operational capability of the UK's armed forces was being affected by MTBI. The Royal Centre for Defence Medicine (RCDM) has identified 585 cases of casualties with traumatic brain injury (whether mild, moderate or severe) out of some 36,000 total attendances for any medical condition to deployed UK operational emergency departments between early 2003 and November 2007 the majority of which would be for minor ailments with no requirement for admission or, in many cases, further treatment. This represents 1.6 per cent. of all medical presentations during the period, and 0.5 per cent. of the deployed UK military population.

The project has provided a baseline for further work that is already in hand. A four-level protocol is being established by staff at Headley Court for the diagnosis and treatment of MTBI cases. Guidance has been promulgated to all defence general practitioners advising them about MTBI and the treatment options available. Education material has been developed, aimed at all personnel on deployed operations, and an assessment questionnaire is being introduced to help medical staff identify MTBI cases at the time of injury and to enhance surveillance and research.

Research is also continuing into such areas as identification and diagnosis of MTBI cases, and also their prevention. Throughout our research we are in touch with United States developments, and collaborating with its researchers as appropriate.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Avian Influenza (Dorset)

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): Between 27 December and 4 January three mute swans were found in a swannery and its vicinity near Chesil Beach; preliminary reports suggest that two of the swans were still alive when located but were euthanised due to injuries and poor condition. The third was already dead. Two were found through regular patrols by the swannery's staff as part of Defra's routine dead wild bird surveillance programme, and a third was found by a member of the public.

Targeted surveillance for avian influenza in wild birds is in place throughout the UK and focuses on species that are most likely to spread the disease and on high risk areas where there is a greater abundance of poultry and waterfowl. More than 6,000 birds were tested last year alone. The numbers of birds tested is in part dependent on the numbers of birds found dead by regular patrols of certain wetland reserves or reported by the public. There have been over 2,000 patrols

undertaken since the start of this migration period in September and October at over 200 sites. The number of dead birds can be lower during a milder year. No cuts have been made to active patrolling or testing and in some areas patrolling has been increased due to national and international avian influenza incidents.

In the case of the swans found in Dorset, there was no immediate cause to suspect disease, and as the cases did not appear unusual given mortality rates among the local swan population, the swannery held the carcasses until Monday 7 January, when they first reported them to Defra. The Meat and Livestock Commission (MLC), which is Defra's contracted collection agent for the wild bird surveillance programme, then collected the carcasses and delivered them on the same day to the local regional laboratory of the Veterinary Laboratories Agency (VLA), at Starcross in Exeter. There, post mortem examinations and sample collections were carried out prior to courier dispatch of the samples for Avian Influenza testing at the VLA in Weybridge, Surrey, which is the World Animal Health Organisation (OIE) reference laboratory for avian influenza. This was conducted as part of routine surveillance, and the collection, storage and transportation of the samples to the laboratory, and their testing, were entirely consistent with international standards.

On the evening of Wednesday 9 January, preliminary results indicated the presence of H5N1, but not the pathogenicity. The VLA immediately informed Defra which sought expert ornithological advice on the following day about the restrictions that might be needed. At lunchtime on 10 January, following further laboratory tests, the Acting Chief Veterinary Officer was able to confirm that highly pathogenic H5N1 avian influenza had been found in the three swans.

Wild bird control and monitoring areas were immediately put in place around the swannery. The boundary of the control area has been set to meet EU requirements for a 3 km minimum radius, and encompasses an appropriate area around Chesil Beach and Portland Bill. The boundary of the monitoring area meets the minimum requirement for a 10 km radius and an appropriate area around the wild bird control area. The boundaries were determined following advice from expert ornithologists who took into consideration the location of local bird reserves and the presence of wild bird populations. This advice also gives us some confidence that birds in this area have not moved widely and therefore there is no scientific justification for requiring birds to be housed, or bird gatherings to be banned, in the rest of the country outside the wild bird monitoring area.

Inside these areas, no poultry or other captive bird movements from premises are permitted, all birds must be housed or otherwise isolated from contact with wild birds, no wild birds may be hunted, and all bird gatherings are banned. Biosecurity measures apply on premises where poultry or captive birds are kept. We are currently working with industry to determine the availability of licences for movements from premises and for hunting of wild birds.

Soon after confirmation, Defra, using the poultry register, sent a text message to all those who had registered a mobile phone number with the register. Two messages were sent; one to keepers in the control and monitoring areas, and one to all those in England and Wales. Known keepers registered on Animal Health's database—excluding those who had already received a message via the poultry register—were also sent a voicemail message.

On 11 January, information packs were posted to all known poultry premises in the control and monitoring areas. These packs have also been distributed by Animal Health vets during surveillance visits in the field.

One member of the public and 11 reserve staff have been assessed for possible risk to their health by the Health Protection Agency (HPA), seven of whom have been given precautionary courses of antiviral drugs because of their close contact with infected or potentially infected birds. None of these people is ill. Vaccination with seasonal human influenza vaccines has also been administered to this group of people. The HPA advise that the risk to the general public is very low.

While surveillance and testing continue, no evidence of disease has been found in domestic poultry or other captive birds. There will be no culling of wild birds because such action might disperse birds further creating a risk of disease spread. While our policy on vaccination is kept under continuous review, experts advise us that it would not assist disease control in this case.

A full epidemiological investigation is under way to determine the source of infection. The strain of the virus identified is very similar to that causing the cases confirmed in the Czech Republic, Romania and Poland mid to late last year. It is less similar to that found in East Anglia in November. We are also carrying out increased surveillance in the area to look for any further carcasses of wild birds for testing, in addition to our routine collection and testing of certain species of dead wild birds in areas of the rest of the country with higher wild bird and poultry density. All premises in the control area with domestic poultry are being visited by Animal Health staff to look for presence of disease. We are making a rapid assessment of the risk to captive birds and poultry in the wider area so that we can consider whether we need to further enhance surveillance of wild and captive birds, and advise local poultry keepers about preventative measures they should take.

Trade in poultry and poultry products to other EU member states from outside the control and monitoring areas can carry on largely unaffected. Exports of poultry and poultry products to non-EU countries are already very limited because, following the H5N1 outbreak in Suffolk in November last year, the UK is currently not officially free from avian influenza according to the OIE—the World Organisation for Animal Health. As these new cases have been found in wild birds our intention to regain our "officially free" status later this year is not affected.

I wish to stress as before that avian influenza is largely a disease of birds. The virus does not easily cross from birds to infect humans; in almost all instances, such transmission requires extremely close contact with infected birds, particularly faeces. The fact that disease has been found in wild birds rather than poultry makes no difference to the human health risk.

I would also like to take this opportunity to thank all those in Defra, Animal Health, other partners and especially the relevant local authorities for their usual professional and rapid response.

FOREIGN AND COMMONWEALTH OFFICE

British Council Operations (Russia)

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): I made clear in my Written Ministerial Statement on 12 December, and again in oral questions on 8 January, that the Russian Government's threatened action against the British Council in Russia was illegal, and that the British Council intended to remain open and operational in St Petersburg and Yekaterinburg. The British Council has done so.

I regret to inform the House that, on 14 January, the Russian authorities informed the British Ambassador in Moscow that Russia intends to take a series of administrative measures against the British Council. These include tax measures against the British Council in St Petersburg and visa restrictions against British Council staff in St Petersburg and Yekaterinburg. Russia has further stated that it may take further action against the British Council in Moscow, including visa restrictions against UK diplomatic staff. Such threats can only make matters worse. It is not in the interests of either the UK or Russia for flourishing cultural, educational and scientific links to be held hostage to unrelated issues in this way.

As the Government have repeatedly made clear to the Russian authorities, the British Council's activities in St Petersburg, Yekaterinburg and across Russia are fully compliant both with Russian and international law, under the Vienna conventions. Its presence and activities are also specifically sanctioned by a 1994 UK-Russia Agreement on Co-operation in Education, Science and Culture, signed by Russia.

The Government will consider these latest actions by Russia carefully and will continue to engage with our international partners on them. We will respond to the Russian Government shortly.

I will continue to keep the House informed of developments.

JUSTICE

Appointment to the Youth Justice Board

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): I am today announcing with my right hon. Friend, the Secretary of State for Children, Schools and Families, the appointment of Frances Done CBE as Chair of the Youth Justice Board. The appointment will be for three years from 1 February 2008 to 1 February 2011.

The Youth Justice Board for England and Wales is an executive non-departmental public body established under the Crime and Disorder Act 1998 to monitor the operation and performance of the youth justice system and to identify and disseminate good practice to prevent offending by children and young people. The board is also responsible for commissioning services for young people under 18 who are sentenced and remanded to secure facilities.

TRANSPORT

Transport Innovation Fund Pump-Priming and Development Funding

The Minister of State, Department for Transport (Ms Rosie Winterton): In July 2005 in a written statement to the House, local authorities were invited to bid for £18 million of "pump-priming" development funding to bring forward packages of schemes that combined better local public transport with hard demand management measures, such as road pricing. In November 2005 and May 2006 my predecessors announced that we were awarding pump-priming for the Transport Innovation Fund (TIF) to ten areas.

In December 2007 we invited local authorities developing TIF proposals to bid for a small amount of remaining funding available in the current financial year. This funding was targeted at those areas that have formally submitted proposals and are providing further information to support the assessment by the DfT and in parallel are developing elements of the proposal while waiting for a programme entry decision, or those that have submitted an outline proposal for a TIF package for which there is a political commitment to working up and submitting a business case during 2008-09.

I am today announcing funding for three areas. We are making up to £1 million available to Cambridgeshire, up to £1·5 million to Greater Manchester, and up to £675,000 to the West of England Partnership (covering Bristol City council, Bath and North East Somerset council, North Somerset council and South Gloucestershire councils).

This award means that these areas can continue to take forward proposals for improved public transport including local road pricing schemes.

I should be clear that receipt of this pump-priming funding is no guarantee that an authority will be successful in bidding for the main Transport Innovation Fund. We are, however, committed to working closely with the successful authorities to deliver the work programmes set out in their pump-priming bids and to support future decisions on the main Transport Innovation Fund.

We will also work with other local authorities developing proposals for improved local transport and demand management and this decision does not affect their ability to bid for substantive TIF funding in the future.

Manchester and Stansted Airport

The Secretary of State for Transport (Ruth Kelly): I am today publishing my decisions on whether Manchester and Stansted airports should remain designated for the purposes of price control under Section 40 of the Airports Act 1986. My decisions follow advice from the independent aviation regulator, the Civil Aviation Authority (CAA), on these airports and two public consultations. My Department's analysis has also been peer reviewed by Professor Martin Cave, Director of the Centre for Management Under Regulation, at Warwick Business School, whose comments I am publishing alongside my decisions. My predecessor previously consulted on and

announced new criteria for deciding whether an airport should be designated or not.

At Manchester, having carefully considered the responses from the consultation, I have concluded that Manchester airport does not have, and is not likely to acquire substantial market power. Therefore I intend to de-designate Manchester airport, and will introduce the necessary legislative changes.

At Stansted, the decision is more finely balanced. After careful consideration, I have concluded that Stansted meets all of the criteria for designation, and should continue to be designated.

The airports in the south-east are now operating at almost full capacity. This is bad for passengers in terms of delays, congestion, lack of choice, and it is also damaging to the UK's productivity and growth. This is why we support a second runway at Stansted and are consulting on adding capacity at Heathrow, whilst satisfying strict local environmental conditions on noise and air quality. I am therefore asking the CAA to continue to protect passengers by setting price caps at Stansted until new capacity is delivered, or until further evidence emerges from the ongoing Competition Commission review.

In making my decision on Stansted, I am aware of the comments made by a number of the respondents on the costs of the current approach to price controls at Stansted. The structure of price controls is a matter for the regulator, but my decision is not intended to constrain the CAA from adopting other approaches which meet their statutory duties while avoiding some of the costs of the current system that respondents have identified.

I have today published on my Department's website, decision letters setting out in full the rationale for my decisions, and Professor Cave's peer review comments. Copies of these documents have been placed in the Libraries of the House.

Written Ministerial Statements

Wednesday 16 January 2008

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Environment Council

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): I represented the UK at the Environment Council in Brussels on 20 December 2007.

Political agreement was reached on draft legislation to include airlines in the EU's carbon emission trading scheme (EU ETS). The overall package ensures an environmentally effective scheme, most notably by ensuring that the emissions cap has been set at the average of 2004-6 emissions, in line with UK ambition. The package agreed at Council also includes: a 2012 start date in one phase; 10 per cent. auctioning for 2012, with the figure for 2013 onwards to be decided as part of the review of the EU ETS; and a de minimis clause that applies only to commercial air transport operators. The UK supports the agreement reached.

The Council was unable to reach political agreement on a presidency compromise amending a Commission proposal for a soil framework directive. Several member states (including the UK) did not consider that the changes went far enough to resolve outstanding concerns, notably in relation to provisions on contaminated land and soil sealing, or to bring the proposals into line with the principles of better regulation and subsidiarity. The UK nevertheless made it clear that it remained supportive of the aims of the Commission's thematic strategy for the protection of soil and of the need for all member states to take action to improve efforts to preserve this vital natural resource.

The Council unanimously adopted conclusions on environment and health.

HEALTH

Organ Donation Taskforce

The Parliamentary Under-Secretary of State for Health (Ann Keen): The organ donation taskforce has today presented a report making a number of recommendations to increase organ donation rates in the UK. The recommendations largely concentrate on the infrastructure required in order to enable the UK to maximise its potential for organ donation rates. The taskforce believes that if implemented in full, a 50 per cent. increase in donation rates is achievable over five years.

The Government accept the recommendations and look forward to working with stakeholders as part of the implementation process. The taskforce report has been placed in the Library and copies are available for hon. Members in the Vote Office.

LEADER OF THE HOUSE

Senior Salaries Review Body (Report on Parliamentary Pay, Pensions and Allowances 2007)

The Leader of the House of Commons (Ms Harriet Harman): The 2007 Senior Salaries Review Body (SSRB) Triennial Review of Parliamentary Pay, Pensions and Allowances was published today. The Government have considered the SSRB report and will today table motions that will be debated in the House on 24 January. The Commons will debate and vote on resolutions to express their views. Final implementation of any opinion on pay is dependent on the Common's agreement to an additional resolution.

This debate and decision will take place in the context of the current public sector pay policy. MPs and Ministers are paid by the public purse. The Government have committed to ensuring that public sector pay awards remain consistent with the continued achievement of the inflation target of 2 per cent. The Government believe that the principles that apply to public sector pay deals should also apply to MPs to entrench economic stability by holding down inflationary expectations and helping to maintain the economic stability we have seen over the past decade.

This statement sets out a summary of the Government's position, which proposes that changes to MPs' pay and pensions are consistent with the outcomes sought elsewhere in the public sector.

The Government believe that there should be a clear, transparent and independent mechanism for setting the pay and pension of MPs. It is inappropriate that MPs should vote on their own pay and pensions. The Government therefore intend to examine options that find objective criteria for determining the appropriate comparator used for MPs' pay awards within a framework that does not require MPs to vote in future years, and accordingly has asked Sir John Baker, CBE—the retiring chair of SSRB—to conduct a review and make proposals on options for consideration. It would be a significant constitutional reform for MPs to be explicitly removed from the process of voting on and determining their own pay and pensions. In some other countries, elected representatives' pay and pensions are determined entirely independently of the legislature. We hope to draw on this international experience so as to find a suitable mechanism that will work within our parliamentary system. We intend this work to be completed so that the House can resolve it before the summer recess.

The Government are tabling a motion in relation to MPs' pay for the year 2007-08 and seeking the House's support for Sir John Baker's review. There will be separate motions on pensions and allowances.

HOUSE OF COMMONS

MPs' Pay

The position on MPs' pay is as follows:

Financial Year	*SSRB recommendation*
2007-08	Increase from £60,277 to £61,820: In addition to 0.66% already in payment, 1.9% backdated to 1 April 2007, paid. Total in-year cost = 2.56% Year-on-year increase = 2.56%
2008-09	Link to the increase in base pay of senior civil servants plus £650
2009-10	Link to the increase in base pay of senior civil servants plus £650
2010-11	Link to the increase in base pay of senior civil servants plus £650

The Government believe the SSRB recommendation on pay for 2007-08 should be staged, with 0.84 per cent. increase backdated to 1 April 2007 and a further 1.06 per cent. backdated to 1 November 2007. This would give a 1.9 per cent. increase across the year 2007-08 and a final salary of £61,820.

With respect to pay for future years, the Government consider that MPs' pay in the future, including 2008-09, should be determined by a mechanism that is independent of MPs' votes and therefore do not propose taking forward the SSRB recommendations pending Sir John Baker's review of both the appropriate comparator and mechanism for determining MPs' pay.

SSRB has also recommended increasing the London supplement from £2,812 to £3,500, backdated to 1 April 2007. The Government do not accept this proposal.

Ministers' salaries

Ministers' pay is set under the Ministerial and Other Salaries Act 1975. SSRB recommends that the salaries for the Prime Minister, Ministers and other office holders in the Commons should increase more than the salary of MPs. The Government do not accept the proposal and believe that Ministerial salaries should increase at the same rate as MPs.

Severance pay

SSRB makes recommendations to change severance pay for Ministers who leave office. The recommendations are that Ministers or other office holders who are reappointed to a salaried Government or parliamentary post within three months of leaving office should keep a pro rata severance payment and the balance repaid. SSRB recommends abolishing the age bar of 65 that currently applies to severance payments.

Select Committee Chairs supplements

SSRB recommends that the salary supplements paid to chairs of Select and Public Bill Committees should be increased by the same percentage as the overall increase in MPs' salary. The Government accept this principle and propose that the supplements be increased in line with the increases in MPs' salaries.

Pensions

In respect of pensions, the SSRB has proposed the introduction of an optional 1/60th accrual rate. The Government accept this proposal in principle and are prepared to introduce it when the change can be made as part of a cost-neutral package.

SSRB makes a number of recommendations aimed at limiting the cost to the taxpayer of Parliamentary pensions. These include the 50:50 sharing between Members and the Exchequer of future increases or decreases in pension cost pressures, and restricting the underlying Exchequer contribution to the scheme, other than in respect of the deficit identified at the last valuation, to a maximum of 20 per cent. of payroll. The SSRB also recommends that there should be a review of parliamentary pension provision if the costs are rising significantly such that the 20 per cent. cap on the Exchequer contribution is likely to be breached. These recommendations are consistent with the approach being taken in public service pension schemes generally and the Government accept them. The Government propose that the detail of the arrangements should be worked up in consultation with the trustees of the parliamentary pension scheme so that it can be taken into account by the Government Actuary in his 2008 valuation of the scheme.

The SSRB recommendations on MPs' pensions apply also to Ministers' pensions and the Government position on these is as set out above.

SSRB recommends that future holders of the offices of Prime Minister, Lord Chancellor and Commons Speaker are covered by the parliamentary pension and severance arrangements that apply to Secretaries of State rather than the pension arrangements that apply now. The Government accept this recommendation with respect to Prime Ministers and Lord Chancellors. The Government do not propose to implement this recommendation with respect to future Commons Speakers, as they consider the position of Speaker to be substantially different from that of a Prime Minister or Lord Chancellor.

Allowances

SSRB recommends that the staffing allowance ceiling should be altered to allow an increase from the equivalent of 3.0 to up to 3.5 full-time, or equivalent, members of staff recognising that the amount of case work for many MPs has increased. The Government accept this proposal.

The SSRB makes several recommendations on changes to parliamentary allowances including those on:

Staffing expenditure;

expenditure on offices;

communication expenditure;

expenditure on travel;

compensation for leaving office and;

a range of other matters

Given the detailed nature of the proposals, the Government propose that they should be referred to the Members Estimate Committee to examine in light of observations by the Advisory Panel on Members' Allowances.

HOUSE OF LORDS

The SSRB proposes that increases in pay for Lords Ministers are aligned with that of increases in Commons Ministers' pay in accordance with current practice. The Government accept this recommendation. It is proposed that Lords Ministers' pay will be increased by 1.95 per cent. for 2007-08 in line with the proposed increase in

MPs' pay, and that from 1 April 2008, increases in Lords Ministers' pay will be made via the same mechanism as for MPs and other Ministers.

Recommendations on MPs' pensions will also apply to Lords Ministers' pensions—the Government's position is as for Ministers within the Commons. The age bar that currently applies for severance pay will also be abolished for Lords Ministers as for Ministers within the Commons.

Additionally, the Government agree with the proposal to continue the existing salary arrangements for the Leader of the Opposition, Opposition Chief Whip, Chairman of Committees and Deputy Chairman of Committees. Related to this, the Government accept the SSRB recommendation that seeks to peg the salary of the Lord Speaker on a "mark time" basis pending the next review of parliamentary pay or reform of House of Lords.

Until recently the Lord Chancellor was head of the judiciary as well as Speaker of the House of Lords, and is entitled in legislation to a salary £2,500 higher than the Lord Chief Justice. Given the post no longer now has those functions, the SSRB recommends that where the post of Lord Chancellor is held by someone who also holds another ministerial post, that person should receive only the salary for the ministerial post. The Government accept this recommendation.

The SSRB made three recommendations on Lords allowances: on the extension of the spouses', civil partners' and children's travel entitlement to include a named partner; for reviews of the definition of parliamentary business for the purpose of the subsistence allowance; and for a review of IT support for Members. These recommendations should be considered in the first instance by the House Committee.

Written Ministerial Statements

Thursday 17 January 2008

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Avian Influenza (Dorset)

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): Further to my written statement on 15 January 2008, *Official Report*, column 24WS, I would like to provide a brief update on the latest developments in the avian influenza cases in Dorset. On 16 January, a fourth mute swan, collected on 11 January as part of wild bird surveillance from the same area, tested positive for highly pathogenic H5N1 avian influenza. This is not unexpected, and our enhanced surveillance of wild birds in the area is continuing, including active patrols to look for dead wild birds.

We will also be carrying out sampling of live swans in the swannery in order to investigate whether any others are infected. In addition, we will be carrying out sampling of other species of wild bird, by testing their droppings, for evidence of virus within the area of the swannery.

Winter Flood Risk

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): Members will be aware of the significant rainfall in recent days and that as a result there has been some flooding and others areas are at potential flood risk. In the light of this, and of the events of last summer, I wanted to take the opportunity to report on the position to the House.

Heavy rain is not unusual at this time of year and the quantity we have seen in recent days has not been exceptional. However, we have experienced several bands of often intense rain falling on catchments that are now saturated. This has caused the rainfall to reach rivers more quickly than normal and those rivers have tended to rise rapidly in response.

As at 10:45 this morning, the Environment Agency had 58 flood warnings and 114 flood watches in place in England and Wales. While significant numbers of flood warnings and watches have been in place for several days, and recognising how disruptive and distressing flooding is to those affected and especially for people who were flooded last summer, the impact has been relatively limited. Government offices for the regions have had reports that around 100 properties have flooded in the past week across England, including in Gloucestershire, several locations across southern England and the midlands and in the north-west.

There may well be further flooding given that more rain is forecast over the coming days and as rivers continue to rise. However, the flooding to date is on a much smaller scale than that experienced last summer.

The Environment Agency and local organisations are doing all they can to minimise the impact of flooding in areas currently at risk. This includes using temporary and demountable defences, and sandbags to increase protection where necessary. High volume pumps are in place to reduce water levels, where this is feasible.

Winter rainfall is not, of course, exceptional, and we would expect natural river flood plains to be inundated at this time of year. There are limits to what can be done to keep water out of these areas without making the situation worse elsewhere. River levels remain high and we should remain vigilant.

People have been taking action to protect themselves and to otherwise reduce the losses they might suffer from flooding. They have been putting their own defences in place and moving belongings out of harm's way. I would also like to highlight the importance of people being good neighbours when flooding threatens or occurs. This is something that Sir Michael Pitt emphasised in his interim report on last summer's floods. In my written statement of 17 December 2007, *Official Report*, column 89WS, I said that the Government agreed with all of his urgent recommendations; action to implement them is now proceeding. I also set out in that statement the measures that we have already put in place since last summer.

If people are concerned about flooding they should visit the Environment Agency's website or telephone their Floodline on: 0845 988 1188.

I shall of course keep the House informed of any significant developments.

HEALTH

Health-care Associated Infections

The Secretary of State for Health (Alan Johnson): "Clean, Safe Care: Reducing Infections and Saving Lives", published on 9 January, set out a comprehensive strategy to tackle health-care associated infections and improve cleanliness in the NHS. This included a full range of measures from ensuring good hand hygiene, to prudent antibiotic prescribing and more specialist staff such as infection control nurses. Deep cleaning is an important part of this range of measures to improve cleanliness and tackle infections.

Further to the written ministerial statement given on 22 November 2007, *Official Report*, column 145 WS, that detailed the £57.5 million of funding for a comprehensive programme of deep cleaning every trust in England, Strategic Health Authorities (SHAs) have today published further information on the implementation of the deep clean of the NHS. Information provided by the SHAs shows that, as of today, out of 328 trusts, 263 trusts have started their deep clean and that the remaining 65 trusts all have agreed plans in place for local deep cleans which will take place over the coming weeks, with the aim of completion by 31 March 2008. Further information is available from SHAs.

The details and timetable of each trust's deep clean plan will vary according to local need and the configuration of local services. For example, a recently built hospital

may not require as intensive a programme of deep cleaning as an older hospital and trusts will have organised their programmes in order to minimise disruption to services and inconvenience to patients.

I will provide confirmation to the House once the £57.5 million programme of deep cleaning has been completed. Following completion of the deep clean of the NHS, the Department will work with SHAs to draw up detailed examples of where a deep clean has had a demonstrable effect in improving patient care and will disseminate these across the NHS.

PRIME MINISTER

Cabinet Committees

The Prime Minister (Mr. Gordon Brown): Today I am publishing an updated Cabinet Committee list. Two new Cabinet Committees have been created, one on health and well-being and one on Africa. I have placed a copy of the new list of Cabinet Committees, their full membership and terms of reference in the Libraries of both Houses. The details are also available on the Cabinet Office website.

Written Ministerial Statements

Monday 21 January 2008

TREASURY

ECOFIN

The Chancellor of the Exchequer (Mr. Alistair Darling): The Economic and Financial Affairs Council will be held in Brussels on 22 January 2008. The items on the agenda are as follows:

PRESIDENCY WORK PROGRAMME

Slovenia took up the Presidency of the European Council on 1 January 2008 and will present its proposed work programme for the Economic and Financial Affairs Council. This discussion will be a televised public debate, in line with transparency arrangements agreed at the European Council in June 2006.

INTRODUCTION OF THE EURO IN CYPRUS AND MALTA

Ministers will exchange views on the introduction of the euro in Cyprus and Malta on 1 January 2008.

PREPARATION OF THE EUROPEAN COUNCIL (13-14 MARCH 2008)

i) The next three-year cycle: Strategic report, Broad Economic Policy Guidelines, 2008-10, Country-Specific Integrated Recommendations, and the Community Lisbon Programme.

Ministers will hold an orientation debate on a range of documents related to the Lisbon Strategy for Growth and Jobs, the first of which will be the Commission's recently published "strategic report" analysing the last three years of the strategy. The other documents focus on recommendations for the next three-year cycle, including proposals for Broad Economic Policy Guidelines, Country-Specific Recommendations and the Community Lisbon Programme. This discussion will inform the further work of the Economic Policy Committee (EPC) and Economic and Finance Committee (EFC) on these documents. March ECOFIN will then prepare a report on these documents for the spring European Council.

ii) Single Market Review

ECOFIN will agree conclusions on the Single Market Review, which will be transmitted to the European Council in March. The Single Market Review was published by the European Commission on 20 November, and is largely in line with UK thinking on the need for a market-based, flexible, and outward facing single market policy.

iii) Contribution to the Spring European Council Conclusions: Key Issues Paper

Ministers will hold an orientation debate on the broad themes of a Key Issues Paper on economic reform issues which will form ECOFIN's contribution to the spring European Council on these issues. This meeting will inform the drafting of the paper, which will continue through the Economic Policy Committee (EPC) and Economic and Finance Committee (EFC). Ministers will adopt a final version of this paper at the February ECOFIN.

SINGLE EURO PAYMENTS AREA

Ministers will be invited to agree a set of conclusions on the Single Euro Payments Area (SEPA), an initiative led by the EU banking industry to develop pan-European payment schemes.

HEALTH

Correction to Written Answer

The Parliamentary Under-Secretary of State for Health (Mr. Ivan Lewis): I regret that the answer given to the hon. Member for Aylesbury (Mr. Lidington) on 17 December, *Official Report*, column 1196W, about the number of deaths in custody at Broadmoor hospital was incorrect.

The correct information is as follows.

The information is not held centrally. However, Broadmoor hospital has supplied the following data in the attached table:

Deaths in Broadmoor since 1997 from West London Mental Health NHS Trust

Year	*Number of suicides (suspected or with inquest verdict)*	*Other deaths (natural causes)*	*Total deaths*
1997	1	5	6
1998	2	1	3
1999	6	6	12
2000	1	3	4
2001	0	2	2
2002	2	4	6
2003	0	1	1
2004	0	[1]4	4
2005	3	2	5
2006	0	3	3
2007 (to 30/11/07)	3	2	5

[1]This includes one homicide.

INNOVATION, UNIVERSITIES AND SKILLS

Physics Review

The Secretary of State for Innovation, Universities and Skills (Mr. John Denham): Today I am publishing the "Terms of Reference for the Review of Physics". I asked Research Councils UK (RCUK) to commission as part of the science budget allocations announced on 11 December. I have placed copies in the House Library.

The Science and Innovation Investment Framework 2004-14 sets out the Government's commitment to nurturing key disciplines. The Research Councils, Funding Councils, and National Academies have made significant progress. It is important that all key disciplines remain strong and vibrant. Research priorities will change over time, and in line with the Haldane principle it is for Research Councils to set these, but it is important that Government are confident that the combined decisions of the Research

Councils properly underpin the health of key disciplines. This is important both for the future of research and, more widely, to ensure a flow of talented individuals into Science, Technology, Engineering and Maths (STEM) subjects at University.

As a next step, I asked Ian Diamond, as chair of RCUK, to organise a series of reviews on the health of key research disciplines in the UK. I announced that the first of these reviews would be on physics, and would be led by Professor Bill Wakeham, Vice-Chancellor, the University of Southampton.

I am pleased to announce that RCUK has now agreed terms of reference for the review. These are:

RCUK will, as part of its continuing oversight of health of disciplines, commission a cross-Council review of actions that might be taken to ensure the continued health of physics research and postgraduate training in the UK, as the first in a series of such reviews.

The review will:

Consider the priorities for investment across physics as a whole, taking account of the need both to maintain the health of discipline, and to strengthen its wider, including economic, impact in the future;

Identify the contribution physics makes to other areas of research and explore how these contributions can be enhanced, with the view to strengthening the health of the UK research base as a whole;

Identify options for strengthening research leadership, and enhancing the opportunities in physics for young researchers;

With resources coming from more than one funding organisation, examine ways to improve the coherence of the UK Physics programme.

Examine the provision of physics-based facilities, their application across the science base, and appropriate means of sustaining their operation;

Comment on any other issues that have implications for the health of physics in the UK.

The review will make recommendations that will inform the medium term funding of physics across the science base. It will report to RCUK during 2008. RCUK will then submit specific recommendations to the Secretary of State for Innovation, Universities and Skills. The names of the other members of the review will be announced shortly.

JUSTICE

Administration and Enforcement Restriction Orders

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): In response to an undertaking given to the Commons Committee considering the Tribunals Courts and Enforcement Act (TCEA) 2007, on 16 January I published the consultation paper "Administration and Enforcement Restriction Orders: Setting the Parameters".

This is a formal consultation exercise undertaken by Her Majesty's Courts Service to seek views on the secondary legislation required to establish the constraints and limits that will set out the parameters of the Administration and Enforcement Restriction Order schemes introduced in the TCEA 2007.

The Administration Order scheme is reformed and the Enforcement Restriction Order introduced by the Act. Both are part of a package of measures designed to improve and extend the range of options available to assist the over-indebted.

The consultation document includes proposals covering debts that could be excluded from the schemes, the definition of debts that may be exempt from restrictions on legal action and the proposed total debt limit on Administration Orders.

The consultation document also includes proposals covering the minimum amount of surplus income (the difference between income from all sources and allowed justifiable expenditure) and the amount of money debtors should be able to pay before they are permitted to enter the Administration Order scheme. It also seeks views on how often debtors should update information on financial circumstances as well as the amount of notice that should be given before assets above a fixed value are disposed of.

Copies of the consultation paper have been placed in the Libraries of both Houses and are also available on the internet at http://www.justice.gov.uk/docs/cp0108.pdf

I will make a further statement regarding the response shortly after the consultation period ends.

Written Ministerial Statements

Tuesday 22 January 2008

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Severn Tidal Power Feasibility Study

The Secretary of State for Business, Enterprise and Regulatory Reform (Mr. John Hutton): In September last year I announced Government's commitment to study the feasibility of generating electricity from the tidal range of the Severn estuary, which—as the recent report of the Sustainable Development Commission confirmed—has the potential to generate some 5 per cent. of UK electricity from a renewable indigenous resource. I am publishing today the terms of reference for the study. These are:

"Building on the work of the Sustainable Development Commission and earlier studies, the feasibility study will:

assess in broad terms the costs, benefits and impact of a project to generate power from the tidal range of the Severn estuary, including environmental, social, regional, economic, and energy market impacts;

identify a single preferred tidal range project (which may be a single technology/location or a combination of these) from the number of options that have been proposed;

consider what measures the Government could put in place to bring forward a project that fulfils regulatory requirements, and the steps that are necessary to achieve this;

decide, in the context of the Government's energy and climate change goals and the alternative options for achieving these, and after public consultation, whether the Government could support a tidal power project in the Severn estuary and on what terms.

The work will be carried out by a cross-Whitehall team led from the Department for Business, Enterprise and Regulatory Reform, including representatives of the Welsh Assembly Government and the South West Regional Development Agency, taking external advice as necessary and engaging stakeholders and the wider public. The study is expected to last roughly two years.

The study will look at the range of options for power generation from the Severn estuary tidal range, including barrages, lagoons and other technologies. It will include a strategic environmental assessment of plans for generating electricity from the Severn estuary tidal range to ensure a detailed understanding of its environmental resource, recognising the nature conservation significance of the estuary.

The feasibility study team will report to the Secretary of State for Business, Enterprise and Regulatory Reform supported by ministers from DCLG, DEFRA, DfT, Treasury, Wales Office, the Welsh Assembly Government and the Minister for the South West.

If the outcome of the feasibility study is a decision to proceed, extensive and detailed further work would be needed to plan and implement a tidal power project, and secure the regulatory consents that would be required".

A high level workplan showing the different strands of work and their timing is annexed at the end of this statement. These terms of reference and the workplan will be published on the BERR website.

I will be hosting a parliamentary forum for all interested MPs and Peers on 20 February—details of this will be deposited in the Libraries of both Houses nearer the time. Further details of external engagement plans will also be published on the BERR website shortly.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture and Fisheries Council (December 2007)

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): I represented the United Kingdom at the December 2007 Agriculture and Fisheries Council in Brussels. The Scottish Cabinet Secretary for Rural Affairs and Environment, Richard Lochhead, and the Northern Irish Minister for Agriculture and Rural Development, Michelle Gildernew, also attended.

The Council adopted by qualified majority, a regulation on the definition, description and labelling of spirit drinks. I voted in favour of this regulation but drew attention to the need to resolve a technical problem resulting from the omission of the term "cider brandy" from among permitted product descriptions in the new regulation.

The Council reached unanimous political agreement on a presidency compromise text on Total Allowable Catches (TACs) and quotas and related management measures for certain fish stocks for 2008. I voted in favour of the package on the basis that it represented a suitable balance between ensuring the long-term sustainability of the stocks in question, while at the same time, maintaining the economic viability of the respective UK and EU fishing fleets.

The Council also reached political agreement on a presidency compromise proposal to reform the EU wine sector. I voted in favour as the reform satisfied our main negotiating objectives, in particular the phasing out of restrictions on vineyard planting, including a derogation that will allow the continued development of the small UK wine production sector; the phasing out of EU schemes for disposing of surplus wine and wine products; satisfactory rules on wine making practices, in particular on enrichment; and provision for clearer, simpler labelling of EU wines. In addition it was important that the reform package did not result in an increase in the recent level of expenditure on wine.

The Council reached unanimous political agreement on a package of proposals on food improvement agents. The package of proposals simplifies and updates existing EU legislation on food additives and flavourings, introduces new controls on food enzymes and establishes a common procedure for authorising additives, flavourings and enzymes for use in food.

The Council reached political agreement on a common position following its first reading of a proposal establishing the sustainable use of pesticides and also took note of the state of play of discussions on proposals covering the marketing of plant protection products.

The Council also adopted by qualified majority a proposal establishing the date for application of electronic identification in sheep and goats born after 31 December 2007, with the UK voting in favour. The UK supported by Germany, Ireland and the Slovak Republic, submitted a written statement calling on the Commission to revisit its impact assessment before 31 December 2009.

The Agriculture Commissioner presented the Commission's report on the dairy market situation sector and a proposal to increase milk quotas by 2 per cent.

Under any other business, the Council took note without discussion of updates provided by the Commission on avian influenza, and on the Fisheries Partnership Agreement between the EU and Mauritania. The Council also took note without discussion of a presidency progress report on the negotiations on a proposal laying down Community procedures for the establishment of residue limits of pharmacologically active substances in foodstuffs of animal origin.

Sweden supported by a few member states, expressed concerns following European Court of Justice's ruling concerning the eligibility criteria for the bovine slaughter premium and asked the Commission to consider how to re-establish the status quo. The Agriculture Commissioners said that the Commission could not bring forward a new proposal side-stepping the jurisprudence of the European Court of Justice.

The Netherlands, supported by the UK, Denmark and Finland, called on the Commission to develop additional legislative options on illegal timber, to implement the Forest Law Enforcement, Governance and Trade (FLEGT) Action Plan.

France supported by a few member states, called for an EU strategy for the industrial use of renewable raw materials, to build upon the existing biomass action.

Germany expressed concerns with the Commission's failure to adopt a Community plan of action to conserve shark stocks within EU waters. The Commission responded that they had just launched a consultation among member states, with a view to introducing such a plan by the end of 2008.

Winter Flood Risk (Update)

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): Further to my statement on 17 January I would like to update the House on the current winter flooding.

As at 12.45 today, there are in place 1 severe flood warning, 65 flood warnings and 126 flood watches. Significant rainfall in recent days, on already saturated catchments and flood plains, has caused river levels to rise sharply, including on the River Severn, the Rivers Yarrow and Darwen in Lancashire and the Rivers Colne, Calder and Aire in West Yorkshire. Reports are still coming in of the number of properties flooded from rivers and surface water but current indications are that this is of the order of 500. Some businesses have been affected and there have been a number of school closures, often because of transport problems rather than flooding of the school itself. Roads (including some motorways and trunk roads) and railways have been hit in the affected areas leading to delays. Before travelling, people are encouraged to check the weather forecast and travel information provided by local and national media, and if planning to use public transport, to check with the relevant transport operator. There have been no significant problems so far for essential services including water and power supplies.

The severe flood warning that remains is on the River Severn around Bewdley. However, with further heavy rain forecast for the north-west tomorrow, and as rivers continue to react to recent rainfall, further severe flood warnings cannot be ruled out. However, forecast rainfall totals in the days thereafter are less than over the past week and the overall situation is likely to ease. However, the Environment Agency continues to work closely with local authorities, fire and rescue services, the police and others, and all remain on high alert in at-risk areas. The House should be aware that catchments are saturated and floodplain storage is full in many areas making rivers very sensitive to further rainfall. The risk of further flooding therefore remains high in some areas.

The House will sympathise greatly with all those people whose homes have been flooded and will understand the anxiety of people who may be affected, especially those who were flooded last summer. For the country as a whole, the flooding we have seen in the past week equates approximately to the type of event we would expect to see every three to four years. While river levels have been very high in some areas, overall the flooding so far has been much less than last summer.

We urge people to remain vigilant and to keep away from flood waters, for their own safety. People should also have their electrics checked when returning to flooded homes. We also ask everyone to be good neighbours, especially where elderly or vulnerable people live nearby. Anyone concerned about flooding should call the Environment Agency's floodline on: 0845 988 1188, or look at their website: www.environment-agency.gov.uk which gives the most up to date information and also offers advice on how to prepare for the possibility of floods.

I shall, of course, keep the House informed of any significant developments.

WORK AND PENSIONS

Child Maintenance and Other Payments Bill

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): The Child Maintenance and Other Payments Bill currently before Parliament provides for a non-departmental public body, the Child Maintenance and Enforcement Commission, to administer the statutory scheme of child maintenance in place of the Child Support Agency. The Commission will require a robust financial and human resources system, which will be created through modification of the system in use by the Department for Work and Pensions. In order to

avoid delay in the establishment of the Commission, certain modifications to this system need to be made in advance of the Bill receiving Royal Assent. The cost of these modifications is estimated at £1,012,000, which will be met through repayable cash advances from the Contingencies Fund pending parliamentary approval of the Bill and of subsequent supply estimates.

Pension Service/Disability and Carers Service

The Secretary of State for Work and Pensions (Mr. Peter Hain): The extent to which two of my Department's agencies—The Pension Service and the Disability and Carers Service—have a shared set of customers has been increasing over time to the point where, currently, more than half of all of the customers of the Disability and Carers Service are now over pension age and thus customers of both agencies. Current trends in longevity mean that this proportion will continue to increase in the future.

Against this background it has become increasingly evident that the separate management of the two agencies is no longer the best means of providing a more integrated and seamless service to their customers. Accordingly we have decided to establish, as from the beginning of 2008-09, a single agency, under a single chief executive, to take responsibility for the work of the two organisations.

The two existing organisations—The Pension Service and the Disability and Carers Service—will continue to operate under their existing names and their customers will continue to receive services from them as they do now. But, over time, the new agency will help us to provide a more cohesive service to its customers that will aim to meet more of their needs in a joined-up and seamless way.

The creation of the new agency will not change the way that DWP and DCS in particular, delivers services to its working age customers.

Written Ministerial Statements

Wednesday 23 January 2008

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Renewable Energy

The Secretary of State for Business, Enterprise and Regulatory Reform (Mr. John Hutton): I am publishing today the Government's plans for developing a strategy to increase renewable energy use in the UK.

The European Commission today published its proposal for a directive on renewable energy.

The draft directive provides the framework for achieving the EU's agreed target of securing 20 per cent. of all its energy from renewable sources by 2020. In particular, it proposes contributions from the UK and other member states towards this goal. As part of the 20 per cent. renewable energy target, each member state is required to achieve a 10 per cent. share for renewable energy in road transport fuels, so long as sustainability conditions are met. Several other important proposals to meet EU climate and energy objectives have also been published today: there are also proposals for the future of the EU Emissions Trading Scheme (ETS); member state targets for greenhouse gas emissions; and a Commission Communication and draft directive on Carbon Capture and Storage.

The Government welcome the Commission's proposals as a good starting point for discussion in the Council. The Commission has proposed that 15 per cent. of all the UK's energy—covering the electricity, heat, and transport sectors—should come from renewables by 2020. This would be a very challenging target, as our existing share is less than 2 per cent. and lower than that of most other member states.

The UK is completely committed to meeting our share which will be decided, along with other member states' shares, in negotiations over the coming months. Renewables will play an increasingly important part in meeting our energy and climate change objectives, alongside other low carbon technologies and our policies to increase energy efficiency. A successful EU Emissions Trading Scheme will be vital in meeting these objectives.

It is essential that there is an overall sustainable approach to meeting biofuels and other renewable energy targets—domestically and in the EU. These targets must not be allowed to trigger the unsustainable cultivation of biomass and biofuels. We shall we pressing for robust consideration of the sustainability impacts of how member states meet their targets.

We are already putting in place measures to increase renewable energy supplies, notably:

The strengthening of the renewables obligation on electricity suppliers under the Energy Bill now before Parliament; as a result, we expect to see the electricity generated by RO eligible renewable sources triple between now and 2015.

The introduction, from April, of the renewable transport fuel obligation, which will require suppliers to include 5 per cent. of renewables in their fuel mix by 2010-11. We intend to increase the level after 2010-11 but only if sustainability and other criteria are met.

However, further measures will be necessary. I published yesterday the terms of reference for the Severn tidal power feasibility study, which I announced in September last year. We will shortly publish a call for evidence on heat. I plan a public consultation in the summer on the options for meeting our share of the EU 2020 renewable energy target. And we will publish our renewable energy strategy in the spring of next year, once the EU directive is passed and the UK's contribution is decided.

Cost-effectiveness will be a key consideration in assessing further measures, in the interests of consumers and the wider economy. Close inter-departmental co-operation will be necessary in working up the options. And where the options touch on devolved matters, we will work together with the devolved Administrations.

A paper on the UK renewable energy strategy and the EU renewable energy directive has been deposited in the Libraries of both Houses and published on the BERR website. This includes further details of our plans for developing a more ambitious renewable energy strategy.

FOREIGN AND COMMONWEALTH OFFICE

New Strategic Framework

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): Since taking office in June, my ministerial team has been working with Foreign and Commonwealth Office staff, other Whitehall Departments and other stakeholders to bring a sharper and more strategic focus to the work of the FCO. I should like to inform the House of the outcome.

We considered the wider context in which the FCO, and the UK, are now operating: the changes driven by globalisation; the interdependence of foreign and domestic policy; the growing diversity of international actors; and hence the need for a modern Foreign Ministry to be constantly reassessing where and how it can make the most valuable contribution.

Based on this assessment, I have approved a new Strategic Framework to guide the work of the FCO in future. This has three elements, reflecting the three main roles of the FCO:

i) *Providing a flexible global network serving the Government as a whole.*

In addition to delivering our new policy goals and essential services, our posts abroad will continue to support the rest of Whitehall in delivering Home Departments' own international priorities.

ii) *Delivering essential services to the British public and business:*

Our worldwide consular operation which provides assistance to UK citizens living, working or travelling abroad; UK Trade and Investment, which works to help UK businesses and exporters and attract inward investment to the UK; and our worldwide visa operation, currently carried out by UKvisas, which will be incorporated into the new UK Border Agency later this year.

iii) *Shaping and delivering HMG's foreign policy*:

We have identified four new policy priorities on which the FCO will focus, on which I briefed the House on 8 January: countering terrorism and proliferation; reducing and preventing conflict; promoting a low carbon, high growth global economy; and developing effective international institutions, especially the UN and EU.

I intend to put more of the FCO's overall resources into these new priorities: a closer alignment of resources and priorities will enable the FCO to deliver better for Britain and HMG.

So we will be increasing substantially the overall level of resources the FCO puts into counter-terrorism and counter-proliferation; climate change; Afghanistan and other conflict regions; and key international institutions. All these areas will receive additional staff and money.

We have also decided that we should adapt the FCO's overseas network of posts to align it more closely with our own priorities and those of HMG as a whole. So we will be shifting a proportion of our diplomatic staff from Europe and the Americas to Asia, the Middle East and other parts of the world, while continuing to sustain our global flexibility and reach.

As I told the House on 8 January, we will continue to manage the FCO's overseas network to reflect changing demands and challenges. We will ensure that our resources are aligned with our priorities and that the UK has a cost-effective and flexible network of overseas representation around the world.

In order to put more resources into these new priority areas and to sharpen our strategic focus, it is necessary to reduce the resources the FCO puts into certain other issues, notably where other Whitehall Departments in London are better placed to direct HMG's international priorities, in particular in the areas of sustainable development, science and innovation, and crime and drugs.

Our ambassadors will however remain heavily engaged on all these issues in those countries where they are of particular importance to Britain: for example, the fight against drugs in Colombia and against crime in Jamaica. Our posts overseas will continue to operate as a base for all Whitehall Departments on which they can put their own staff and resources to deliver their own priorities in the countries concerned. Our ambassadors will continue to offer advice to Departments and their local representatives, and act locally on their behalf wherever needed.

This new Strategic Framework will replace the FCO's ten existing Strategic Priorities. This is in line with the view expressed by the Foreign Affairs Committee in their response to our 2006-07 departmental White Paper that "ten strategic priorities is too many" and that they should be "simplified and reduced in number". We will be taking forward the detailed planning and implementation over the next few months, inside the FCO and with other Government Departments.

I believe that every organisation, including every Government Department, should regularly reassess its own aims and priorities. Successful organisations stay focused on the biggest issues on which they can make the biggest difference, and they regularly readjust that focus as circumstances and priorities change. That is what we have sought to do for the FCO through this new Strategic Framework.

HEALTH

Human Fertilisation and Embryology Bill

The Minister of State, Department of Health (Dawn Primarolo): I am placing in the library a copy of a letter sent to the Delegated Powers and Regulatory Reform Committee in response to the report from the Committee published on 22 November 2007 in relation to the Human Fertilisation and Embryology Bill.

JUSTICE

Her Majesty's Courts Service

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): The Lord Chief Justice and I are today issuing the following joint statement:

We have been exploring the most appropriate arrangements for the future operation of HMCS following the creation of the Ministry of Justice. Following an open and constructive consideration of a number of possible models, we have agreed the main principles of a partnership between the Lord Chancellor and Lord Chief Justice in relation to the governance, financing and operation of HMCS. We hope that the steps necessary to launch a new model for HMCS, based on these principles, will be complete early in the new financial year.

The courts are by their nature a shared endeavour between the judiciary, who are responsible for the judicial function to deliver justice independently, and the Government, who have overall responsibility for the justice system within the framework and resources set by Parliament. Within this overall structure the Lord Chancellor and the Lord Chief Justice have specific, but different, roles. These were described in part in the Concordat finalised in January 2004 between our predecessors as Lord Chancellor and Lord Chief Justice.

Our recent discussions have built upon this work.

The new arrangements for HMCS will structurally embed the spirit and principle of partnership that already exists. The detailed structure of the partnership and its governance will be set out in a framework document for HMCS, which will be laid before both Houses when it is finalised, together with the consequential amendments to the Concordat.

While we shall not be intervening in the day-to-day operational decision-making of HMCS, we will jointly agree:

the aims and objectives for HMCS; and

the priorities for, and division of, funding within HMCS.

The main principles of this new and unique partnership (which will take the form of an agency) are that:

The leadership and broad direction of HMCS will be in the hands of a new board of 11 members that will hold HMCS (the chief executive and the executive team) to account for the delivery of the jointly agreed aims and objectives. It will be chaired by an independent non-executive chair who will be neither a judge nor a civil servant and who will have a key role to facilitate the working of the partnership;

The other members of the board will be three judicial representatives, a representative of the Ministry of Justice, two non-executive directors and four executive directors (the chief executive of HMCS, its finance director and two others);

The chief executive will have day-to-day responsibility for the running of HMCS. He will be the HMCS accounting officer, via the permanent secretary. The chief executive will work under the general direction set by the board and will be held by it to account for the delivery of the efficient and effective operation of the courts in accordance with the framework document, the budget and plans we shall have agreed;

A joint duty for all HMCS staff to the Lord Chancellor and the Lord Chief Justice for the effective and efficient operation of the courts; the staff will continue to be line-managed within HMCS;

An open and transparent means of settling the budget for HMCS that includes greater judicial engagement in the resourcing of the courts through the HMCS board. The process will include:

the HMCS board having responsibilities for considering and approving HMCS resource bids and for developing the budget and plans for the operation of the courts; and

greater clarity in the role of the Lord Chief Justice when representing the views of the judiciary on the provision and allocation of resources that will enable him to communicate the views of the judiciary to the Chancellor of the Exchequer, as well as the Lord Chancellor, when the Government are settling spending review negotiations.

A clearer relationship between HMCS and the judiciary, reflecting the new partnership model, operating not only at the centre but also at regional, area, and local level;

A joint examination of how we can improve performance and efficiency across all aspects of the operation of the courts, including the contribution the judiciary may properly make to that while respecting their independence as a body and in respect of individual decisions;

Specific provision will be made in the framework document for arrangements in relation to the court estate, IT, HR and policy issues.

We will be working out the detail of these new arrangements over the coming weeks, that will be reflected in the recruitment of the appointments necessary to launch the new partnership.

LEADER OF THE HOUSE

Baker Review

The Leader of the House of Commons (Ms Harriet Harman): I announced in my written ministerial statement on Wednesday 16 January 2008, *Official Report*, column 32WS, volume 470, that the Prime Minister had asked Sir John Baker CBE to undertake a review of the mechanism for determining the pay and pensions for Members of Parliament which does not involve MPs voting on their own pay and pensions; and to report to him by May 2008. The terms of reference are as follows:

Review of the mechanism for determining the pay and pensions for Members of Parliament.

to examine options and make recommendations for a mechanism for independently determining the pay and pensions of Members of Parliament which does not involve MPs voting on their own pay; the appropriate comparator; and the frequency with which reviews of the use of the comparator take place;

to ensure that the independent mechanism takes account of the Government's policy on public sector pay and its target for inflation and;

to have regard to the need for any independent mechanism to maintain the support and trust of the public and Members of Parliament.

The review should seek to:

examine comparable international mechanisms and the resulting experience;

address the constitutional framework alongside legal and legislative considerations;

consider the range of evidence that should be considered by the recommended independent mechanism in determining an appropriate comparator;

consider the membership and remit of any independent body that may be part of the pay setting process;

give due consideration to consistency with other public service wage setting mechanisms and wage settlements across the public service and;

outline a recommended timetable for transition to any new system.

Written Ministerial Statements

Thursday 24 January 2008

BUSINESS, ENTERPRISE AND REGULATORY REFORM

(Regulatory) Impact Assessments

The Minister for Employment Relations and Postal Affairs (Mr. Pat McFadden): The Government is committed to ensuring that regulations are necessary, give effective protection, balance cost and risk, are fair and command public confidence.

In accordance with this, we require Departments to produce and publish (regulatory) impact assessments for all regulatory proposals likely to have an impact on business, charities or voluntary bodies and the public sector.

I have today presented to Parliament a Command Paper listing impact assessments published between 1 January and 30 June 2007. This is the twenty-seventh Command Paper.

Copies have been placed in the Library for the reference of Members and will be available in the Vote Office.

COMMUNITIES AND LOCAL GOVERNMENT

Local Government Finance Settlement (England) 2008-09 to 2010-11

The Minister for Local Government (John Healey): I am today laying before the House the Local Government Finance Report (England) 2008-09. This report confirms the amounts of revenue support grant (RSG) and non-domestic rates (NDR) to be paid to local authorities in 2008-09, and the basis of their distribution. Alongside my oral statement, *Official Report*, column 981-83, a draft of this report was laid before the House and issued for consultation on 6 December 2007.

I am also publishing proposals for formula grant allocations in 2009-10 and 2010-11. This is the first full three-year settlement for local government in England. In line with the Government's policy on three-year settlements, it is not intended that the 2009-10 and 2010-11 settlement proposals will be changed from those published today, other than in exceptional circumstances. Nevertheless, separate consultation exercises will be carried out on the local government finance reports for the second and third years of the three-year settlement, late in 2008 and 2009 respectively—in line with the usual settlement timetable.

The Department received a total of 323 representations within the consultation deadlines from the Local Government Association and London Councils, and from local authorities, local authority groups and hon. Members. Ministers also met to discuss the provisional settlement with delegations from individual local authorities, including police and fire and rescue authorities and from the Local Government Association, London Councils, and special interest groups representing the different types of local authority in England.

Having considered the representations from all those who have commented on the provisional settlement, I have decided broadly to confirm my proposals on the basis of distribution for 2008-09 as regards the financial year beginning 1 April 2008. This is a tight settlement but it is fair and it is affordable for local government. It delivers an increase in formula grant to every local authority in each of the next three years.

The final figures published today for the 2008-09 settlement reflect the more accurate data that have become available since we published our proposals, and also appropriate minor data corrections to reflect errors discovered by the Department or notified to us by local authorities. They also include an adjustment for public law family fees to reflect the policy change by Her Majesty's Court Service to full cost recovery for proceedings under the Children's Act.

This year's settlement represents a real terms increase in funding for local government for the 11th year running and my announcement today means that by 2010-11 local government will have received 13 years real terms increases. This will allow authorities to continue to deliver effective services at an affordable cost. We worked closely with local government in the spending review 2007, to examine the spending pressures and the scope for efficiencies. The increase in total Government grant for local services since 1997 is 45 per cent. in real terms by the end of the spending review period covered by this three-year settlement.

We expect local authorities to free up a further 3 per cent. a year through efficiency gains, which will mean £1.5 billion net cash releasing savings next year and a total of £4.9 billion by 2010-11, to help local authorities manage service and council tax pressures. Government are providing an additional £150 million funding to support local authorities to achieve this value for money ambition as part of £384 million over three years to support local government improvement and efficiency.

Given this substantial investment in local government, there is no excuse for excessive council tax increases. We expect the average council tax increase in England in 2008 to be substantially below 5 per cent. We will not hesitate to use our capping powers as necessary to protect council tax payers from excessive increases.

I am sending copies of these reports to all local authorities in England, and making available full supporting information on the Department for Communities and Local Government website at: http://www.local.communities.gov.uk/finance/0809/grant.htm.

Copies of the reports and related tables showing each authority's allocation of formula grant and other supporting material have been placed in the Library of the House of Commons and are available in the Vote Office.

HOME DEPARTMENT

Police Grant (England and Wales)

The Minister for Security, Counter-Terrorism, Crime and Policing (Mr. Tony McNulty): I have today placed in the Library a copy of the Police Grant Report (England and Wales) 2008-09 (HC 265). The report sets out my right hon. Friend, the Home Secretary's determination for 2008-09 of the aggregate amount of grants that she proposes to pay under section 46(2) of the Police Act 1996, and the amount to be paid to the Greater London Authority for the Metropolitan Police Authority.

General police grant allocations which include Home Office police grant and DCLG revenue support grant for each police authority for 2008-09 are set out in the table.

General police grant allocations for English and Welsh police authorities 2008-09:

Police Authority	*Adjusted 2007-08 Formula Allocation*[1] *£m*	*2008-09 Allocation*[1] *£m*	*Change on 2007-08 Formula Allocation* *%*
English Shire Forces

Notes:

[1] Rounded to the nearest £100,000. Grant as calculated under the Local Government Finance Report (England) and Local Government Finance Report (No.2) 2008-09 Final Settlement—Police Authorities (Wales). Table includes the effects of floors and scaling.

[2] Figures for the City of London relate to Home Office Grant only as calculated in the Police Grant Report (England and Wales). Revenue Support Grant is allocated to the Common Council of the City of London as a whole in respect of all its functions. The city is grouped with education authorities for the purposes of floors.

[3] Welsh figures include Home Office floor funding.

INTERNATIONAL DEVELOPMENT

Latin America (Development)

The Secretary of State for International Development (Mr. Douglas Alexander): To address better persistent poverty in Latin America, I have decided to increase DFID's financial support to the region and change the way the support is provided. Financial support provided by DFID will increase by 15 per cent. and will be provided through civil society organisations and international institutions.

Civil society organisations are at the front line of tackling the social exclusion and inequality responsible for persistent poverty in Latin America. Channelling more support through NGOs will help address these important issues.

The World Bank and European Commission will continue to be important regional development agencies, together providing over $4 billion to Latin America. Our finance and influence in the Bank and EC will continue to be central to our support to the region.

DFID's total funding for Latin America will increase from £84 million in 2007-08 to £97 million in 2010-11. This will include:

an increase in funding for UK NGOs working in Latin America, from £7 million to £12 million per year;

£5 million per year for new research on climate change and ecosystems in Latin America;

£1 million per year to share lessons from the Latin American development experience with other developing countries around the world;

increases in our support to Latin America through the World Bank and European Commission, from £65 million to £73 million per year in total; and

we will continue to provide about 20 per cent. of the funding for the EC's programmes to help farmers diversify out of coca in Colombia and Peru, the two biggest coca-producing countries. The EC is also developing a coca diversification programme for Bolivia.

As Nicaragua becomes a middle-income country in 2008, we will maintain our programme at £4 million per year, switching funding for the Government to providing support through other channels, including civil society.

We will maintain our office in Brazil, with a focus on climate change and Brazil's role in global development. At the same time, we will close our offices in Nicaragua and Bolivia, which will not be needed to deliver our new regional programme.

We will continue to strengthen and monitor the operations of the World Bank, Inter-American Development Bank and EC in Latin America through our representatives in Washington and Brussels and staff in the UK.

JUSTICE

Review of Voting Systems

The Minister of State, Ministry of Justice (Mr. Michael Wills): The Government have today laid before Parliament the "Review of Voting Systems: The Experience of New Voting Systems in the United Kingdom since 1997" (Cm 7304).

This report delivers the Labour 2005 manifesto commitment to review the experience of the newly introduced voting systems for the Scottish Parliament, the Northern Ireland and Welsh Assemblies, the European Parliament, and the London Mayor and Assembly, to inform the ongoing debate about the voting system in the House of Commons.

Since 1997 the Government have embarked upon a major programme of constitutional change: devolving power away from Westminster, enshrining fundamental rights in the Human Rights Act, introducing freedom of information and completing the first stages of reform to the House of Lords. New voting systems were introduced when the Scottish Parliament, Welsh Assembly and Northern Ireland Assembly were established in 1998. In addition, a new voting system was introduced for elections to the European Parliament in 1999, and for elections to the Greater London Assembly and the London Mayoralty established that year.

Our constitutional arrangements have never been fixed, nor should they be. A strength of the British constitution is that it evolves to ensure that it continues to meet the needs of our democracy.

To that end the Government established the Jenkins Commission to report on a suitable voting system for the House of Commons. In 1998 Jenkins proposed a completely new voting system for Westminster called the "Alternative Vote Plus". At the time the then Home Secretary, now my right hon. Friend the Lord Chancellor and Secretary of State for Justice, stated:

"we need to see how the new elections systems settle down in Scotland, Wales, London and the European Parliament... a great deal of constitutional change is under way, and the British people would not thank us for moving too quickly without thinking carefully about how changes fit into the whole"

5 November 1998, *Official Report*, volume 318, column 1038. This view was widely supported across the House of Commons.

The Government therefore decided to review and assess how the new voting systems would perform, and then consider the implications for Westminster.

The new voting systems introduced since 1997 have now been in place for some time and provide experience of up to three elections in Wales, Scotland, and Northern Ireland, and two elections for the European Parliament, London Mayor and London Assembly. We therefore have a wealth of practical experience from within the United Kingdom upon which to draw.

This review provides a summary of the experiences of the new voting systems introduced over the past decade and on that basis sets out the advantages and disadvantages associated with each. It uses a range of commonly accepted criteria for assessing the experience of the new voting systems. These include the degree of proportionality under different systems, the impact on voters in terms of the choices available, voter turnout rates, the impact on political campaigning, social representation, Government formation and Administration of elections under different systems.

The experiences of some other countries, including New Zealand, the Republic of Ireland, Germany and the Netherlands, which have similar systems to those introduced within the United Kingdom, is also examined. In addition the review refers to the findings of other studies into voting systems within the United Kingdom.

The review is intended to inform the ongoing debate about the voting system in Westminster but does not make any recommendations.

It remains the Government's strong view that since the voting system for Westminster Commons elections could fundamentally change the way parliamentary democracy operates, any proposed changes would need to be endorsed by a referendum.

At this point, it would be premature to seek to reform the electoral system for the Commons while the voting system for a reformed and substantially or fully elected House of Lords is still to be determined. Reform of the electoral system for the Lords to a wholly or 80 per cent. elected chamber was supported by the House of Commons free vote in March 2007 and the Government are committed to formulating a comprehensive package of Lords reform, including developing detailed proposals for a wholly or mainly elected second chamber. Good progress is being made on the cross-party talks on Lords reform and the Government intend to publish a White Paper in the first part of 2008 reflecting the outcome of these discussions.

This review will be available on the Ministry of Justice website at: http://www.justice.gov.uk/publications/voting-systems-review.htm and Governance of Britain website at: http://governance.justice.gov.uk for interested parties, as well as through the Stationery Office (TSO).

TRANSPORT

Blue Badge Parking Scheme (Consultation)

The Minister of State, Department for Transport (Ms Rosie Winterton): I have today announced the publication of a consultation document looking at a number of ways of making the blue badge scheme more secure and ensure it continues to benefit those who need it. We are consulting on the eligibility criteria for the scheme together with better ways of administering and enforcing the scheme in order to cut down on levels of abuse.

I have also announced today the publication of revised local authority guidance for England and the launch of a new £500,000 Blue Badge Centres of Excellence Fund, to promote best practice and improve consistency on the administration and enforcement of the scheme.

Blue Badge Scheme

The Disabled Person's Parking Badge Scheme ("The Blue Badge Scheme") was introduced in 1971 to provide parking close to essential amenities and services for people with severe mobility problems.

The scheme is designed to help severely disabled people to travel independently, as either a driver or a passenger, by allowing them to park close to their destination.

Consultation Document

In May 2007 an independent consultant, Rob Smith, was commissioned to conduct a review of the blue badge scheme.

The final report has been published today and is available on the DfT website at: www.dtf.gov.uk/transportforyou/access/bluebadge and addresses the following issues:

Eligibility (who should qualify for the scheme?)

Concessions (which concessions should apply?)

Better administration (how can the scheme be more consistently administered and enforced?) and;

Choice and alternatives within the scheme

We are now consulting on a number of issues that arose from the report. The Department's draft response to the review, that is included as part of the consultation document published today, reflects our preliminary thinking and is designed to help us to modernise the scheme within the context of current transport policy; making it more consistently administered, tougher on fraud and easier to understand. The Department will be working closely with stakeholders, including disabled groups, throughout the consultation period.

The consultation document includes proposals to:

Extend the reach of the scheme, for example, ensuring more parents of severely disabled children are eligible for a badge;

Give parking attendants the power to confiscate on the spot blue badges that have been stolen, forged or are being fraudulently used;

Improve the security of the badge design to prevent forgeries;

Create a system of national data sharing, to help identify blue badge cheats;

Launch a public awareness campaign to increase understanding of the scheme.

The consultation also asks if individual local authorities should be given the opportunity to run aspects of the scheme in a way that responds to local circumstances.

The final date for responses to be received by the DfT is 17 April 2008. The full consultation document is available on the DfT website at: www.dft.gov.uk/consultations

The results of the consultation exercise will aid us in the publication of a comprehensive "Blue Badge Reform Strategy" in spring 2008.

Revised local authority guidance and Blue Badge Centres of Excellence Fund

Revised local authority guidance for England has been published today and is intended to improve assessment and enforcement of the scheme, in order to promote fairness and prevent fraud and abuse.

The revised guidance, that is available on the DfT website at: www.dft.gov.uk/transportforyou/access/bluebadge showcases good practice in administering and enforcing the Scheme.

The DfT are now looking to appoint a number of local authorities to act as centres of excellence in relation to the scheme. £500,000 has been made available to fund a small set of English local authorities to improve their services and share their good practice with neighbouring authorities in the 2008-09 financial year.

Copies of the consultation document, and other related documents, have been placed in the Libraries of both Houses and are also available on the Department's website at: www.dft.gov.uk. Further copies of the consultation document can also be obtained from the Vote Office.

Written Ministerial Statements

Friday 25 January 2008

DEFENCE

Iraq: Aitken Report/Mr. Baha Mousa

The Secretary of State for Defence (Des Browne): In February 2005, the then Defence Secretary, my right hon. Friend the Member for Ashfield (Mr. Hoon), undertook to publish the findings of the review instigated by General Sir Mike Jackson into the cases of deliberate abuse of Iraqi citizens in 2003 and 2004. I am pleased to announce that the report, entitled "The Aitken Report: An Investigation into Cases of Deliberate Abuse and Unlawful Killing in Iraq in 2003 and 2004" is today being released in full.

The report by Brigadier Aitken is critical in places, and rightly so; only the highest standards are acceptable to the Army and to the Ministry of Defence as a whole.

Since the events that Brigadier Aitken has examined in his report, the Army has already done a great deal to improve its procedures. I am satisfied that the Army is doing everything possible to ensure that its personnel do not repeat the appalling acts that were perpetrated in these cases. I believe that Brigadier Aitken has demonstrated this in his report, but we must not be complacent.

The report makes three broad recommendations:

The Army needs to ensure that it learns and implements lessons from the disciplinary process in the same way that it does for wider operational issues;

The Army needs to find better ways to inculcate its core values of selfless commitment, courage, discipline, loyalty, integrity, and respect for others and its standards of behaviour and discipline, into the everyday lives of its personnel;

The Army must educate itself to ensure that they are using administrative action correctly.

The report is part of a continuing process of review, investigation and continuous professional development for the Army. It details the work that has already been completed, or is in progress, to ensure such acts as are examined by the report are not repeated. This work includes enhancements to training packages for both routine and specific training, and the implementation of a standard operating procedure for use in Operation Telic, which includes the treatment of detainees and prisoners.

I am proud to acknowledge that the vast majority of our personnel who have served in Iraq have conducted themselves to the highest standards of behaviour—some displaying extraordinary qualities of courage, self-discipline, integrity and selfless commitment far and above what might reasonably have been expected under the circumstances they faced.

One of the cases of abuse examined by Brigadier Aitken and referred to in his report is that of Mr. Baha Mousa. In September 2003, an Iraqi civilian, Mr. Baha Mousa, lost his life while in British military custody. He and eight other Iraqis had been subjected to varying degrees of abuse. I should like to take this opportunity to also update the House on recent developments in this case.

Last year, the court-martial of seven British Army officers and soldiers concluded. That trial resulted in the conviction of one individual, who had pleaded guilty to the inhuman treatment of prisoners; the other defendants were acquitted.

Following the trial, and in line with normal procedures, the Royal Military Police (Special Investigation Branch) reviewed the case to establish if there was any new evidence (including evidence from the trial) and any further lines of criminal inquiry into the death of Mr. Mousa and ill-treatment of other Iraqi nationals. They reported their findings to the Army Prosecuting Authority, who, in turn, having considered the report, consulted the Attorney-General.

The criminal review concluded that no further criminal lines of inquiry could be pursued on the basis of the existing evidence. This does not mean that a further investigation will not be instigated should new evidence be made available. Those individuals who were under investigation, and Mr. Mousa's family, have been informed that no further disciplinary action will be taken based on the current evidence. The Army's chain of command is now considering whether individuals should face administrative action.

The next step is to consider what form any future inquiry into these appalling incidents should take. I have agreed to receive representations from the legal representatives for Mr. Mousa's family, and I will make a further statement when a decision has been made. The conclusions of Brigadier Aitken's work and the subsequent actions already carried out by the Army will then be taken into account in this process.

FOREIGN AND COMMONWEALTH OFFICE

General Affairs and External Relations Council

The Minister for Europe (Mr. Jim Murphy): The General Affairs and External Relations Council (GAERC) will be held on 28 January in Brussels. My right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs will represent the UK.

The agenda items are as follows:

EXTERNAL RELATIONS

Western Balkans

The Government expect discussion of the Western Balkans to focus on Serbia and Kosovo. The Council is likely to discuss the forthcoming second round of presidential elections in Serbia, including ways the EU can best take forward Serbia's European perspective. The Government are committed to a tangible EU future for Serbia but, at the same time, committed to full co-operation with the International Criminal Tribunal for the former Yugoslavia as a requirement for progress. On Kosovo, EU leaders agreed in December that the Union should play a leading role in implementing a settlement on Kosovo's final status.

The Council is likely to discuss ways to take forward that commitment. The Government believe the status quo in Kosovo is unsustainable and are working for a rapid resolution of status in co-ordination with international partners.

Middle East

The Government expect the Council to discuss latest developments in Gaza and southern Israel, as well as highlighting their support for the political process and welcoming the contributions made at the Paris donors' conference in December, which raised over $7.4 billion over three years in support of Palestinian development.

The Government will support conclusions at the Council welcoming recent bilateral negotiations, maintaining continued support for the political process through the framework of the EU action strategy and expressing the EU's serious concern about the humanitarian situation and continued violence in Gaza. The Government also want conclusions to encourage the parties to adhere to their roadmap commitments, particularly on Israeli settlement activity and on Palestinian security; and to welcome the achievements of the Paris donors' conference.

The Government are committed to supporting the process initiated at Annapolis, which has put the Israelis and Palestinians on a path to real negotiations in 2008, which the Government hope will lead to a final settlement of two states living side by side in peace and security. Israeli security is absolutely fundamental to a just solution: and Palestinian hardship can only be tackled through a political process that creates an economically and socially viable Palestinian state.

The Government expect the Council to adopt conclusions on Lebanon in light of the ongoing political crisis and the recent spate of violence. Lebanon has been without a Head of State since President Lahoud's term of office expired on 23 November 2007 amid ongoing divisions between the Government and the opposition over who should succeed him. The Government will support EU endorsement of the latest Arab League diplomatic initiative to help resolve the crisis and call on all parties to engage.

Sudan/Darfur, Chad/Central African Republic

The UN envoy for Darfur, Jan Eliasson, will brief the Council on latest developments in the political process in Darfur. The Government will support conclusions welcoming the return of the SPLM to the Government of National Unity in Sudan, while noting the importance of timely and thorough planning for the elections in 2009. The Government will also want the Council conclusions to call on all parties to facilitate the prompt establishment of an effective African Union-UN peacekeeping force, UNAMID, noting in particular the continued lack of full co-operation by the Government of Sudan.

The Government hope that the Council conclusions will in addition express concern about the tensions between Chad and Sudan, call on both sides to refrain from any further escalatory action and support calls for an internal political process in Chad to end the armed conflict. The Government expect the Council to launch the EU military mission to Chad and the Central African Republic, which will contribute to the protection of refugees, facilitation of humanitarian assistance and the work of the UN. The Government welcome and fully support EU engagement and messages on these issues.

Kenya

The Government expect the Council to discuss the latest situation in Kenya and agree conclusions expressing concern about the humanitarian situation following questions raised in reports by a number of independent observers over the results of the presidential elections in December.

The Government will support a clear condemnation of the violence in the conclusions, which should also urge Kenya's political leaders to work together to agree a political solution to the crisis while expressing strong support for the efforts of the African Union and the mission led by Kofi Annan to assist Kenya's politicians in achieving this goal. The Government also expect the Council to discuss what further action the EU could take to support efforts to find a political solution. The Government welcome this opportunity for discussion given the seriousness of the crisis in Kenya.

Pakistan

The Government expect the Council to discuss the current political situation in Pakistan with a particular focus on upcoming elections and the steps the EU can take to support the Government of Pakistan towards delivering free and fair elections, including through an EU election observation mission.

Iran

The Government expect the High Representative for the Common Foreign and Security Policy to brief the Council on next steps following Iran's failure to comply with United Nations Security Council Resolutions 1737 and 1747. The Government fully support the strengthening of EU sanctions and will be pressing partners to take a firm stand on this issue, following the adoption of a new UN Security Council Resolution.

WALES

Planning Bill

The Secretary of State for Wales (Mr. Paul Murphy): I am pleased to inform the House that an explanatory memorandum explaining the proposals for the use of framework powers in the Planning Bill is available today. Copies of which can be found in the Vote Office and at: www.walesoffice.gov.uk.

Petitions

Monday 7 January 2008

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Post Office Closures (Bidborough)

The Petition of customers of Bidborough Post Office and local residents of Bidborough and surrounding villages,

Declares that the Government must keep Bidborough Post Office open.

The Petitioners therefore request that the House of Commons accept this petition and call upon the Government and the Post Office to overturn their decision to close Bidborough Post Office.

And the Petitioners remain, etc.—*[Presented by Greg Clark, Official Report,* 13 November 2007; Vol. 467, c. 645 .] [P000053]

Observations from the Secretary of State for Business, Enterprise and Regulatory Reform:

The Government fully recognises the important social and economic role of post offices, particularly in rural and deprived urban communities. That is why it is determined to maintain a national post office network allowing people to have reasonable access across the whole country and has put in place a new policy and financial framework to achieve this. The Government has been investing substantial sums in the post office network, totalling £2 billion since 1999. That has, for example, paid for a computer link-up for every post office as well as support for non-commercial branches since 2003.

In its response to the consultation on the Post Office network the Government announced back in May confirmation of its decision to extend funding of up to £1.7 billion to 2011, including provision of £150 million Social Network Payment to support the post office network up to 2011. The Government strategy includes provision for 2,500 compensated closures and 500 new Outreach services.

The 500 new and innovative Outreach locations, operated in partnership with other local services such as in pubs, village halls, churches or in mobile post offices, will mitigate closures, primarily in smaller and more remote communities. Nevertheless, to ensure sustainability, there will need to be up to 2,500 compensated post office closures within the defined access criteria.

Post Office Limited is responsible for implementing the network change programme at a local level. It is developing a rolling programme of some 50 local consultations on detailed area plans, based on groups of Parliamentary constituencies.

Post Office Ltd develops its proposals with the participation of sub-postmasters, local authorities and the consumer watchdog, Postwatch, and takes into account the numeric access criteria set out by Government as well as local factors affecting ease of access, such as local geography: rivers, mountains etc when drawing up its implementation plans. POL is also required to consider the availability of public transport and alternative access to key post office services, local demographics and the impact on the local economy. Local consultations provide the opportunity to raise any specific concerns over particular proposals.

The consultation period for the Kent area finished on 12 November and in announcing its final decisions on 6 December Post Office Ltd confirmed that the Bidborough Post Office will close. Post Office Ltd published their decision in an Area Plan Decision Booklet for Kent available on their website at: www.postoffice.co.uk/networkchange.

The Government does not have a role in proposals or decisions for individual post offices and final decisions on which post offices will close are taken by Post Office Ltd.

Post Office Closures (Nottingham)

The Petition of Rebecca Anderson on behalf of the customers of Carrington Post Office, Nottingham,

Declares that the selection criteria of Post Office branches that are proposed for closure have not taken into account the economic and social impact these closures will affect. This has resulted in one of the top 25 performing branches in the Nottingham area being proposed for closure. Each proposed branch should be comprehensively and accurately assessed. The Petitioners have evidence that this has not been done so far.

The Petitioners therefore request that the House of Commons urge the Government to review the restructuring process with Post Office Ltd: with a view to protecting commercially viable branches from being closed; and further urge the Government to ask Post Office Ltd. to enter in public meetings where these are requested by the local communities.

And the Petitioners remain, etc.—*[Presented by Mr. John Heppell, Official Report,* 14 November 2007; Vol. 467, c. 791 .] [P000050]

Observations from the Secretary of State for Business, Enterprise and Regulatory Reform:

The Government fully recognises the important social and economic role of post offices, particularly in rural and deprived urban communities. That is why it is determined to maintain a national post office network allowing people to have reasonable access across the whole country and has put in place a new policy and financial framework to achieve this. The Government has been investing substantial sums in the post office network, totalling £2 billion since 1999. That has, for example, paid for a computer link-up for every post office as well as support for non-commercial branches since 2003.

In its response to the consultation on the Post Office network the Government announced back in May confirmation of its decision to extend funding of up to £1.7 billion to 2011, including provision of £150 million Social Network Payment to support the post office network up to 2011. The Government strategy includes provision for 2,500 compensated closures and 500 new Outreach services.

The 500 new and innovative Outreach locations, operated in partnership with other local services such as in pubs, village halls, churches or in mobile post offices, will mitigate closures, primarily in smaller and

more remote communities. Nevertheless, to ensure sustainability, there will need to be up to 2,500 compensated post office closures within the defined access criteria.

Post Office Limited is responsible for implementing the network change programme at a local level. It is developing a rolling programme of some 50 local consultations on detailed area plans, based on groups of Parliamentary constituencies.

Post Office Ltd develops its proposals with the participation of sub-postmasters, local authorities and the consumer watchdog, Postwatch, and takes into account the numeric access criteria set out by Government as well as local factors affecting ease of access, such as local geography: rivers, mountains etc when drawing up its implementation plans. POL is also required to consider the availability of public transport and alternative access to key post office services, local demographics and the impact on the local economy. Local consultations provide the opportunity to raise any specific concerns over particular proposals.

Around 75% of sub post offices are unprofitable for Post Office Ltd because the payments they make to sub postmasters, taken together with the associated network support costs, are higher than the revenues generated for Post Office Ltd by those offices. Offices can therefore be profitable to sub postmasters, particularly when any associated retail business is also taken into account, but still be loss making for Post Office Ltd. In order to restructure the network in a balanced way and meet the access criteria, some busy offices which make losses for Post Office Ltd but have alternative branches nearby will have to be closed.

The consultation period for the East Midlands area finished on 12 November and in announcing its final decisions on 11 December Post Office Ltd confirmed that the Carrington Post Office will close. Post Office Ltd published their decision in an Area Plan Decision Booklet for East Midlands available on their website at: www.postoffice.co.uk/networkchange.

The Government does not have a role in proposals or decisions for individual post offices and final decisions on which post offices will close are taken by Post Office Ltd.

Post Office Closures (St John's Road)

The Petition of customers of St John's Road Post Office and local residents of St John's Road and surrounding villages,

Declares that the Government must keep St John's Road Post Office open

The Petitioners therefore request that the House of Commons accept this petition and call upon the Government and the Post Office to overturn their decision to close St John's Road Post Office.

And the Petitioners remain, etc.—*[Presented by Greg Clark, Official Report,* 13 November 2007; Vol. 467, c. 644.] [P000054]

Observations from the Secretary of State for Business, Enterprise and Regulatory Reform:

The Government fully recognises the important social and economic role of post offices, particularly in rural and deprived urban communities. That is why it is determined to maintain a national post office network allowing people to have reasonable access across the whole country and has put in place a new policy and financial framework to achieve this. The Government has been investing substantial sums in the post office network, totalling £2 billion since 1999. That has, for example, paid for a computer link-up for every post office as well as support for non-commercial branches since 2003.

In its response to the consultation on the Post Office network the Government announced back in May confirmation of its decision to extend funding of up to £1.7 billion to 2011, including provision of £150 million Social Network Payment to support the post office network up to 2011. The Government strategy includes provision for 2,500 compensated closures and 500 new Outreach services.

The 500 new and innovative Outreach locations, operated in partnership with other local services such as in pubs, village halls, churches or in mobile post offices, will mitigate closures, primarily in smaller and more remote communities. Nevertheless, to ensure sustainability, there will need to be up to 2,500 compensated post office closures within the defined access criteria.

Post Office Limited is responsible for implementing the network change programme at a local level. It is developing a rolling programme of some 50 local consultations on detailed area plans, based on groups of Parliamentary constituencies.

Post Office Ltd develops its proposals with the participation of sub-postmasters, local authorities and the consumer watchdog, Postwatch, and takes into account the numeric access criteria set out by Government as well as local factors affecting ease of access, such as local geography: rivers, mountains etc when drawing up its implementation plans. POL is also required to consider the availability of public transport and alternative access to key post office services, local demographics and the impact on the local economy. Local consultations provide the opportunity to raise any specific concerns over particular proposals.

The consultation period for the Kent area finished on 12 November and in announcing its final decisions on 6 December Post Office Ltd confirmed that the St John's Road Post Office will close. Post Office Ltd published their decision in an Area Plan Decision Booklet for Kent available on their website at: www.postoffice.co.uk/networkchange.

The Government does not have a role in proposals or decisions for individual post offices and final decisions on which post offices will close are taken by Post Office Ltd.

Post Office Closures (Thanet)

The Petition of Cllrs. Stephen Broadhurst, Michael Jarvis and Edwin Watt-Ruffell who represent the residents of Dane Valley, Thanet,

Declares that the proposed reduction in the number of Post Offices serving our communities will be socially damaging and is unwelcome.

The Petitioners therefore request that the House of Commons call upon the Government, as the major shareholder in Post Office Ltd., to withdraw the current proposals and review the funding of the Post Office network.

And the Petitioners remain, etc.—*[Presented by Mr. Roger Gale, Official Report,* 13 November 2007; Vol. 467, c. 643.] [P000052]

Observations from the Secretary of State for Business, Enterprise and Regulatory Reform:

The Government fully recognises the important social and economic role of post offices, particularly in rural and deprived urban communities. That is why it is determined to maintain a national post office network allowing people to have reasonable access across the whole country and has put in place a new policy and financial framework to achieve this. The Government has been investing substantial sums in the post office network, totalling £2 billion since 1999. That has, for example, paid for a computer link-up for every post office as well as support for non-commercial branches since 2003. It has decided to extend that support to 2011 with the provision of up to another £1.7 billion additional funding.

Post Office Limited is responsible for implementing the network change programme at a local level. It is developing a rolling programme of some 50 local consultations on detailed area plans, based on groups of Parliamentary constituencies.

Post Office Ltd develops its proposals with the participation of sub-postmasters, local authorities and the consumer watchdog, Postwatch, and takes into account the numeric access criteria set out by Government as well as local factors affecting ease of access, such as local geography: rivers, mountains etc when drawing up its implementation plans. POL is also required to consider the availability of public transport and alternative access to key post office services, local demographics and the impact on the local economy. Local consultations provide the opportunity to raise any specific concerns over particular proposals.

The consultation period for the Kent area finished on 12 November and Post Office Ltd published their decision in an Area Plan Decision Booklet for Kent available on their website at: www.postoffice.co.uk/networkchange

The Government does not have a role in proposals or decisions for individual post offices and final decisions on which post offices will close are taken by Post Office Ltd in light of the responses received to the area consultations.

Post Office Closures (Shipley)

The Petition of the residents of the Shipley constituency and the surrounding area.

Declares that the Petitioners are extremely concerned at the threat of closures and the removal of public services to the post offices in the Shipley constituency and believe that this is a pressing public service priority within the Bradford district.

The Petitioners therefore request that the House of Commons calls upon the Government to recognise the importance of the post office to the local community and to other businesses in the Shipley constituency and to ensure that the Post Office honour their promise to maintain sufficient post offices and services in the Shipley constituency.

And the Petitioners remain, etc.—*[Presented by Philip Davies, Official Report,* 19 November 2007; Vol. 467, c. 1071.] [P000058]

Observations from the Secretary of State for Business, Enterprise and Regulatory Reform:

The Government fully recognises the important social and economic role of post offices, particularly in rural and deprived urban communities. That is why it is determined to maintain a national post office network allowing people to have reasonable access across the whole country and has put in place a new policy and financial framework to achieve this. The Government has been investing substantial sums in the post office network, totalling £2 billion since 1999. That has, for example, paid for a computer link-up for every post office as well as support for non-commercial branches since 2003.

In its response to the consultation on the Post Office network the Government announced back in May confirmation of its decision to extend funding of up to £1.7 billion to 2011, including provision of £150 million Social Network Payment to support the post office network up to 2011. The Government strategy includes provision for 2,500 compensated closures and 500 new Outreach services.

The 500 new and innovative Outreach locations, operated in partnership with other local services such as in pubs, village halls, churches or in mobile post offices, will mitigate closures, primarily in smaller and more remote communities. Nevertheless, to ensure sustainability, there will need to be up to 2,500 compensated post office closures within the defined access criteria.

Post Office Limited is responsible for implementing the network change programme at a local level. It is developing a rolling programme of some 50 local consultations on detailed area plans, based on groups of Parliamentary constituencies.

Post Office Limited develops its proposals with the participation of sub-postmasters, local authorities and the consumer watchdog, Postwatch, and takes into account the numeric access criteria set out by Government as well as local factors affecting ease of access, such as local geography: rivers, mountains etc when drawing up its implementation plans. POL is also required to consider the availability of public transport and alternative access to key post office services, local demographics and the impact on the local economy. Local consultations provide the opportunity to raise any specific concerns over particular proposals.

The consultation period for the Shipley constituency area (West Yorkshire) commences May 2008 and Post Office Ltd have confirmed that they will carefully consider the comments in the petition as part of the consultation process.

The Government does not have a role in proposals or decisions for individual post offices and final decisions on which post offices will close are taken by Post Office Ltd.

Post Office Closures (Boat of Garten)

The Petition of the Community Council and residents of Boat of Garten and vicinity, Inverness-shire, Scotland.

Declares that the Petitioners are concerned for the future of their local Post Office in Boat of Garten and the damaging economic and social effects that any closure would have on their community. Further declares that the Boat of Garten Post Office is widely

supported by local residents, businesses and visitors to the Cairngorms National Park and that public transport is insufficient to allow vulnerable residents access to any other Post Office.

The Petitioners therefore request that the House of Commons urges the Government to ensure that Boat of Garten Post Office is retained before irreparable damage is done to the well-being, sustainability and *cohesion of our community*.

And the Petitioners remain, etc. *[Presented by Danny Alexander, Official Report,* 13 November 2007; Vol. 467, c. 644.] [P000055]

Observations from the Secretary of State for Business, Enterprise and Regulatory Reform:

The Government fully recognises the important social and economic role of post offices, particularly in rural and deprived urban communities. That is why it is determined to maintain a national post office network allowing people to have reasonable access across the whole country and has put in place a new policy and financial framework to achieve this. The Government has been investing substantial sums in the post office network, totalling £2 billion since 1999. That has, for example, paid for a computer link-up for every post office as well as support for non-commercial branches since 2003. It has decided to extend that support to 2011 with the provision of up to another £1 billion additional funding.

In its response to the consultation on the Post Office network the Government announced back in May confirmation of its decision to extend funding of up to £1.7 billion to 2011, including provision of £150 million Social Network Payment to support the post office network up to 2011. The Government strategy includes provision for 2,500 compensated closures and 500 new Outreach services.

The 500 new and innovative Outreach locations, operated in partnership with other local services such as in pubs, village halls, churches or in mobile post offices, will mitigate closures, primarily in smaller and more remote communities. Nevertheless, to ensure sustainability, there will need to be up to 2,500 compensated post office closures within the defined access criteria.

Post Office Limited (POL) is responsible for implementing the network change programme at a local level. It is developing a rolling programme of some 50 local consultations on detailed area plans, based on groups of Parliamentary constituencies. The first area plans went out to local consultation on 2 October this year and these plans will continue to be rolled out at regular intervals until next July with the whole programme scheduled to take around 15 months to complete. The consultation period for the Highlands of Scotland will commence 8 January 2008 and is expected to conclude 18 February 2008.

POL develops its proposals with the participation of sub-postmasters, local authorities and the consumer watchdog, Postwatch, and takes into account the numeric access criteria set out by Government as well as local factors affecting ease of access, such as local geography: rivers, mountains etc when drawing up its implementation plans. POL is also required to consider the availability of public transport and alternative access to key post office services, local demographics and the impact on the local economy. Local consultations provide the opportunity to raise any specific concerns over particular proposals.

The Government does not have a role in proposals or decisions for individual post offices and final decisions on which post offices will close are taken by POL in light of the responses received to the area consultations.

TRANSPORT

Boston Bypass (Lincolnshire)

The Petition of people of Boston and the Boston Bypass Pressure Group,

Declares that they are dissatisfied with the short-term road strategy proposed by Lincolnshire County council for Boston and want a major road scheme to allow traffic to flow around, and have access to, the town centre, to ease the appalling congestion and prevent damaging economic and environmental impacts upon Boston.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Transport to give recognition to the needs of the failing road infrastructure of Boston and South East Lincolnshire; and further urges the Government to make Boston a special case for investment to improve the social, environmental and economic conditions of the town.

And the Petitioners remain, etc. *[Presented by Mark Simmonds, Official Report,* 12 December 2007; Vol. 469, c. 430.] [P000075]

Observations from the Secretary of State for Transport:

It is for Lincolnshire County Council, as the local highway authority, to determine priorities for local transport investment and to make bids for funding through the Regional Funding Allocation (RFA) process for major transport schemes i.e. the regional statement of priorities for transport investment.

In July 2005, the Government asked each English region to submit advice about how the anticipated funding available for major transport schemes should be allocated over the next ten years. This involved each region determining the relative priorities of its proposed transport schemes in the light of an anticipated regional budget. Throughout, Lincolnshire County Council was fully engaged in this process. A proposed Bypass for Boston was not put forward for assessment by the Council as part of the process and did not, therefore, receive priority for funding in the East Midlands advice submitted to the Government in January 2006 which was accepted by the Government in July 2006. A bypass of Boston does not therefore feature as a scheme to be delivered before 2015/16.

As part of the Government's response to the regions in July 2006, Ministers have stated that they expect to hold a further round of the regional funding process in the next three years. This will provide a further opportunity for supporters of a bypass for Boston to make sure the case for a scheme is heard within the region.

WORK AND PENSIONS

Carers' Allowance

The Petition of those concerned about carer's allowance,

Declares that Carer's Allowance needs to be reformed to make it a fair and just benefit for all carers. In particular that the rules which prevent Carer's Allowance being paid to those receiving an equivalent amount of retirement pension or incapacity benefit should be ended. Further that the earnings rule be changed to a sliding scale, so that carers do not suddenly lose all of their Carer's Allowance when they earn more than a given amount.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Health to reform the Carer's Allowance to make it a fair and just benefit for all.

And the Petitioners remain, etc. *[Presented by Mr. David Clelland, Official Report,* 5 December 2007; Vol. 468, c. 932.] [P000074]

Observations from the Secretary of State for Work and Pensions:

People have signed this petition because they wish to see Carer's Allowance reformed. In particular, they are calling for the abolition of the overlapping benefits rule and for the current earnings rule to be replaced by a sliding scale arrangement.

The Government's commitment is clear. We fully appreciate the vital role which carers fulfil, and will continue to support them through a range of measures. We are also looking at what more we might do to help them.

To this end, we are currently undertaking a comprehensive Review of the Prime Minister's 1999 National Carers Strategy. The Review is being led by an inter-departmental steering group which includes representatives from several Government departments and from the main national organisations representing carers. The work is being carried out by four task forces which are looking at Incomes, Employment, Health and Social Care, and Equalities. The Incomes task force is conducting a detailed examination of all aspects of the financial support currently being provided to carers. The future of Carer's Allowance, including its eligibility conditions, is being considered as part of this Review.

The Review will be published in Spring 2008.

DEFENCE

Support for Armed Forces

The Petition of residents of Castle Point and others,

Declares that members of HM Armed Forces in Iraq and Afghanistan are fighting and dying, and that they lack basic equipment to do their job and there is insufficient appreciation and support from the Government for them and their families, particularly when they return from active service, and, in welcoming the provision of limited free postage, feel that the Government should go much further to give help and recognition.

The Petitioners therefore request that the House of Commons urges the Government to adopt more generous policies for serving and returning members of HM Armed Forces, and to give them priority in housing, in recognition of the contribution made by these brave men and women.

And the Petitioners remain, etc.—*[Presented by Bob Spink, Official Report,* 21 November 2007; Vol. 467, c. 1307 .] [P000065]

Observations from the Secretary of State for Defence:

I am heartened by the recognition by the residents of Castle Point for the commitment, bravery and professionalism of our armed forces in all their operations. They will further recognise the enormous contribution made by Service families to the effectiveness of those forces and the debt owed by the nation to veterans. I would like to add that we announced on 13 December that the Government has commissioned an independent study into how the British public can better express its support and gratitude for the nation's armed forces.

On provision of equipment, the Ministry of Defence (MOD) takes all the measures possible to ensure that the equipment issued to the armed forces is both right for the job and right for them. Its quality and versatility is higher than it has ever been, and we continually work to improve its range and reliability. The Equipment Programme is designed to deliver the long-term core capabilities our forces need, complemented by the Urgent Operational Requirement (UOR) process which provides the speed and flexibility needed to adapt and respond to specific operational environments and emerging threats. Over £1.5 billion of Force Protection UORs have been approved for Afghanistan and Iraq since 2003 in response to the specific conditions and changing threat.

The welfare of personnel and their families is core to MOD business, and there are comprehensive measures in place to ensure that we give the best possible support to all concerned. The highest priority is placed on supporting the families of those who have given their lives or have been injured in the service of their country, and robust procedures ensure that all concerned receive the help they require to come to terms with injury, or life without loved ones. Turning to the wider MOD Deployment Welfare Package, this is an extensive and integrated programme of welfare provision that includes: unlimited free Forces Aerogramme letter post, Electronic Aerogrammes (where available) and a free postal packet service, welfare telephones including satellite telephones in forward locations (30 minutes free calls per person per week to anywhere in the world) are also available, as is free e-mail and Internet access. Back home, concessionary travel allowances are provided for families to enable them to keep in touch with immediate relatives. On return from an operational tour, a leave of 20 working days for a six month deployment is provided. A tax-free 'Operational Allowance' of £2,320 for a six month deployment is also payable.

On housing, personnel and their families deserve decent accommodation and we are committed to providing this. There is no quick fix and a legacy of decades of under-funding along with the size of the living accommodation estate means that tackling all shortcomings will take time. We plan to spend over £8 billion on accommodation over the next 10 years. Separately, Service personnel are encouraged to prepare for their return to civilian life by purchasing their own homes, and MOD has initiatives to assist. In areas where housing is more costly - such as London, MOD has negotiated Key Worker status. MOD also provides a Joint Service Housing Advice Office which offers advice and information in sourcing accommodation. The Government is amending housing legislation to ensure that Service personnel leaving the Services are placed on an equal footing with civilians when applying for social housing. Currently, under housing legislation, former Service personnel cannot establish a local connection with the area in which they have worked or lived while serving with the Armed Forces for the purposes of establishing priority for social housing. However, the Housing and Regeneration Bill which is currently before Parliament will rectify this and ensure that Servicemen and women looking for social housing are treated fairly.

HEALTH

Community Hospital (Braintree)

The Petition of the people of Braintree,

Declares that a new community hospital on the site of the former St. Michaels hospital in Braintree is a vital part of a renewed community hospital network which is needed to deliver improved local care. Further declares that the continuing delays in approving a new community hospital for the people of Braintree, together with an ongoing programme of cuts and closures to viable and valued community hospitals, is at odds with the commitment made in the Health White Paper "Our Health, Our Care, Our Say".

The Petitioners therefore request that the House of Commons shall urge the Department of Health to remove any remaining barriers to the construction of a community hospital for the people of Braintree.

And the Petitioners remain, etc.—*[Presented by Mr. Brooks Newmark, Official Report,* 4 December 2007; Vol. 468, c. 804 .] [P000049]

Observations from the Secretary of State for Health:

The issues raised in the petition are complex as the potential for a new community hospital to replace the existing St. Michaels hospital in Braintree is linked to the proposals for an Independent Sector Treatment Centre (ISTC) in Essex.

The plans for the ISTC are at a critical stage, the outcome of the negotiations will need formal approval of a business case by Department of Health officials. If the ISTC is approved it may dictate what the PCT can do with regards to the St. Michaels hospital site.

Tuesday 15 January 2008

PRESENTED PETITION

Prisoner Rights

The Petition of James Ryan Strudwick,

Declares that he has exhausted all the systems of complaints available to him to satisfactorily resolve this complaint.

The Petitioner therefore requests that the House of Commons urges the Ministry of Justice to amend "Prison Service Order 4400" to include nieces and nephews in accordance with Article 8 of the Human Rights Act as per the case won by: Boyle V UK 1994, 19 E.H.R.R 179 Op Comm. and end the deprivation of family building relationships.

And the Petitioner remains, etc. [P000106]

HEALTH

Carers Grant

The Petition of the Alzheimer's Society (South Buckinghamshire Branch) and residents of Chesham and Amersham and others,

Declares that carers and former carers having greatly appreciated Carers Grant that has enabled them to take breaks from caring for those closest to them and that this benefit has helped them to care for those that they love in their own homes.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Health to ensure that this valuable benefit continues to be made available through the Alzheimer's Society and other organisations in the voluntary sector.

And the Petitioners remain, etc.—*[Presented by Mrs. Cheryl Gillan, Official Report,* 13 December 2007; Vol. 469, c. 3P.] [P000085]

Observations from the Secretary of State for Health:

The Government has long recognised the valuable role played by carers and that caring can have a negative effect on a person's health and well-being. This is why we introduced the carers grant in 1999 in recognition of the support carers need for breaks and services. The grant has now provided over £1 billion in support for carers and we have recently announced that monies that councils can use to support carers will continue throughout the next spending review period.

From April 2008, the carers grant will be paid as part of the new area based grant. We have recently announced that the contribution in 2008/09 for carer support will increase to £224 million. It will rise to £240 million in 2009/10 and £256 million in 2010/11. This contribution is intended to enable local authorities to continue to develop innovative and personalised outcomes reflecting the needs of their local carer population.

These sums include £25 million each year in recognition of the need to ensure councils have the means to provide emergency cover when carers are suddenly unable to care. This was first paid as a separate sum in October 2007.

It is for each local council to ensure that they determine how best to spend the grant in order to deliver local and national priorities in their area. Councils are able to commission local service providers, including those in the voluntary sector, to deliver the services which are needed.

We announced a new deal for carers earlier this year, which has a number of strands including the payment of additional monies to help councils arrange emergency cover for carers. Firstly, we are developing a carers' helpline, which will provide access to the information so needed by carers. Secondly, we are establishing an Expert Carers' Programme, which will provide training to carers to empower and enable them. Thirdly, we are reviewing the 1999 National Carers Strategy, which we plan to publish in the spring of 2008. This revised document will provide us with the blueprint for carers support in the future. Finally, we are establishing a Standing Commission on Carers, which will ensure the voice of carers is central to the development of Government policy and look at how carers will be affected by the long-term issues. Membership of the Commission will be announced in due course.

Petition

Thursday 17 January 2008

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Dangerous Dogs Act (Amendment)

The Petition of Courtney's Campaign,

Declares that Courtney Walker's face was changed beyond recognition by an unprovoked vicious attack by a Bull Mastiff Dog.

The Petitioners therefore request that the House of Commons legislate to amend the Dangerous Dogs Act 1991 so that it can also be applied to a dog dangerously out of control on private property on which it is permitted to be, if that dog does injure a person when out of control.

And the Petitioners remain, etc.—*[Presented by Andrew Gwynne, Official Report,* 10 January 2007; Vol. 455, c. 404 .] [P000110]

Observations from the Secretary of State for Environment, Food and Rural Affairs:

Section 3 of the Dangerous Dogs Act 1991 (as amended 1997) gives protection to the public from a dog which is dangerously out of control in a public place, or in a private place where it has no right to be.

A dog is regarded as being dangerously out of control in a public place on any occasion on which there are grounds for reasonable apprehension that it will injure a person, whether or not it actually does so.

I know that some feel that the law relating to dog attacks in the home should be strengthened. Having considered the existing legislation in light of recent tragic events I am not convinced that changing the existing law would help those who either enforce the law or administer justice, or reduce the number of attacks that take place in domestic places. The reason the 1991 Act did not extend to private property was because of the possibility of intruders being able to prosecute dog owners where the dog may have acted in defence of the owner.

The Dogs Act 1871 applies to areas where a dog may be permitted to be, including in and around a private house. Any person can make a complaint under the 1871 Act to a magistrates courts that a dog is dangerous. The strength of the Dogs Act 1871 is that, as the civil standard of proof applies, an order may be made by the court on the balance of probabilities that a dog is dangerous.

In addition, where an attack has taken place on private premises it may be possible for a person who has been attacked by a dog to initiate civil proceedings to claim damages on the basis that the person owning or controlling the dog was negligent. Where a person has been invited onto premises by the occupier then that occupier may become liable for any injury suffered by the visitor under the Occupiers' Liability Act 1957. This duty generally covers the state of the premises, but has been held to extend to cover damage caused by animals present on those premises. The Animals Act 1971 also provides that in certain circumstances the keeper of an animal is liable for any damage it causes, if he knew it was likely to cause such damage or injury unrestrained.

Nevertheless it is an area that I and my officials will keep under close review and if necessary make changes to the law if we think that this will reduce these very distressing incidents.

Petition

Monday 21 January 2008

TRANSPORT

Rail Services (Kettering)

The Humble Petition of Mr. Christopher Croome of Kettering Rail Users and others,

Sheweth

That East Midlands Trains, part of The Stagecoach group, proposes, in December 2008, to cut, from present levels, the number of weekday passenger trains from Kettering to London by 5%, the number of weekday passenger trains from London to Kettering by 18% and the number of weekday passenger trains from London to Kettering by 30% in the evening peak, whilst halving the main passenger rail service northbound from Kettering.

Wherefore your Petitioners pray that your Honourable House urges Her Majesty's Department of Transport to call upon East Midlands Trains in its proposed timetable to reinstate these services together with fast and semi-fast services to and from London and a far more frequent service northbound so as to restore Kettering's inter-city rail service and provide the Borough of Kettering with the rail service it needs to serve a rapidly expanding population.

And your Petitioners, as in duty bound, will ever pray, &c.—*[Presented by Mr. Philip Hollobone, Official Report,* 17 December 2007; Vol. 469, c.674.] [P000090]

Observations from the Secretary of State for Transport:

The new East Midlands Trains franchise came into operation on 11 November 2007. As set out in the department's Press Release of 22 June 2007, the new franchise will deliver:

Additional off-peak services on the Midland Mainline

9% increase in peak capacity into and out of London St Pancras

New East Midlands Parkway station to be serviced by 2 trains an hour

Reductions in journey time Sheffield, Derby and London

Improved performance

Matlock and Derby services extended to Nottingham

£5 million investment in station improvements

During October 2007, East Midlands Trains consulted widely on their proposals for the December 2008 timetable. Having taken due consideration of responses to that consultation, they will carry out a bidding process with Network Rail. The new Franchise Agreement specifies a minimum level of service on all routes and East Midlands Trains must certify to the Department that in bidding for the December 2008 timetable it is compliant with the level of service we have specified.

Overall the proposed new December 2008 timetable will deliver an increase in capacity on the Midland mainline with East Midlands Trains planning to run five trains per hour between London and the East Midlands / South Yorkshire for most of the day, Monday to Saturdays, an increase from the four per hour which run today. The changes to the mainline services that affect Kettering are a result of a number of factors, and supported by consultation responses and train passenger loading data.

Long distance passenger demand on the whole Midland Mainline route is strong and current growth is expected to continue. Without service pattern changes, commuters from intermediate stations such as Kettering will find themselves trying to join full trains with little prospect of finding a seat—especially in the morning peak. The solution is to create a distinct London to Kettering service. With trains starting in Kettering, this will provide significantly more commuter seats while simultaneously facilitating fewer stops in the long distance trains, improving journey times between Sheffield and London by up to 12 minutes. A consequence of the provision of this increased capacity is pressure on East Midlands Trains rolling stock fleet, and track capacity on the main line. Having noticed the low patronage of the current Northbound services from Kettering, where seats provided were significantly in excess of demand, this mismatch has been rectified through a reduction in service frequency that better matches demand. In summary, while the frequency of service to Kettering will reduce, the capacity provided is being significantly increased, providing a better quality journey for all users of the services on the route.

Written Answers to Questions

Monday 7 January 2008

SCOTLAND

Christmas

Malcolm Bruce: To ask the Secretary of State for Scotland whether it is his Department's policy to use *(a)* incandescent light bulbs and *(b)* LED lights for festive decorations on departmental premises. [173495]

David Cairns: The information is as follows:

(a) The Scotland Office is included in the environmental management policy and programme for the Ministry of Justice and is implementing the Government's UK sustainable action plan, issued on 5 March 2007. This includes the ongoing changeover from general lighting bulbs to energy saving bulbs wherever possible.

(b) No specific requirements have been set for decorative Christmas lights.

Malcolm Bruce: To ask the Secretary of State for Scotland what his Department's policy is on the selection of *(a)* real and *(b)* artificial Christmas trees for his Department's festive decorations; and how real trees are disposed of. [173520]

David Cairns: The Scotland Office purchases a real Christmas tree, via an MoJ procurement contract, from a sustainable source and it is collected and recycled as green waste.

Departmental Minimum Wage

Jon Trickett: To ask the Secretary of State for Scotland how many London-based staff are employed by his Department on the national minimum wage. [175968]

David Cairns: All the staff in the Scotland Office are on loan from other Government Departments and the office reimburses those Departments for the costs involved. We do not hold payroll information on the national minimum wage as it applies to such staff.

Departmental Ministerial Policy Advisers

Mr. Hancock: To ask the Secretary of State for Scotland how much his Department spent on special advisers in 2006-07; how much has been allocated for 2007-08; and if he will make a statement. [173278]

David Cairns: I refer the hon. Member to the answer I gave to the hon. Member for Fareham (Mr. Hoban) on 5 December 2007, *Official Report*, column 1216W.

Members' Correspondence

Mr. Harper: To ask the Secretary of State for Scotland how many letters his Department received from hon. Members and Peers in each session of Parliament since 1997. [174925]

David Cairns: The Cabinet Office, on an annual basis, publishes a report to Parliament on the performance of Departments in replying to Members/Peers correspondence. Information relating to 2007 will be published as soon as it has been collated. The report for 2006 was published on 28 March 2007, *Official Report*, columns 101-04WS. Reports for earlier years are available in the Library of the House.

WALES

Barnett Formula

Mrs. Moon: To ask the Secretary of State for Wales what assessment has been made of the Barnett consequentials arising from the Children's Plan for *(a)* Wales and *(b)* the Bridgend constituency, broken down by funding area. [175236]

Mr. Hain: The funding for the Children's Plan announced by the Department for Children, Schools and Families (DCFS) in December 2007, formed part of their comprehensive spending review (CSR 2007) settlement. Barnett Consequentials formed part of the settlement for the Welsh Assembly Government.

It is for the Welsh Assembly Government to determine the allocation of the block budget reflecting their priorities and policies.

Mrs. Moon: To ask the Secretary of State for Wales what recent discussions he has had with the First Minister in Wales on the £20 million Barnett consequential payment from support for disabled children and their families; and whether funding from this payment has been allocated in Bridgend constituency. [175274]

Mr. Hain: I meet regularly with the First Minister and discuss a wide range of topics including the Welsh Budget.

It is for the Welsh Assembly Government to determine the allocation of the block budget reflecting their priorities and policies.

Departmental Minimum Wage

Jon Trickett: To ask the Secretary of State for Wales how many London-based staff are employed by his Department on the national minimum wage. [175970]

Mr. Hain: None.

Departmental Redundancies

Mr. Hoban: To ask the Secretary of State for Wales what the cost was of redundancies in his Department in the 12 months preceding *(a)* 30 June 2004, *(b)* 30 June 2005 and *(c)* 30 June 2006. [175478]

Mr. Hain: Nil.

Regulation

Mrs. May: To ask the Secretary of State for Wales for which regulators and inspectorates his Department has had responsibility in each year since 1997; what the budget was of each such body in each year; and what the cost to the public purse was of any restructuring of each such body in each year. [175311]

Mr. Hain: None.

HOUSE OF COMMONS COMMISSION

Energy Efficiency

Mr. Winnick: To ask the hon. Member for North Devon, representing the House of Commons Commission if the Commission will take steps to ensure that *(a)* heating is not kept on in offices within the Parliamentary Estate at weekends and on other occasions when it is not likely the rooms are being used and *(b)* radiators are turned off at weekends and times when they are not used; and if he will make a statement. [174323]

Nick Harvey: All buildings on the parliamentary estate are under the control of a Building Management System (BMS), together with heating time scheduling to automatically turn on the heating prior to the time office areas are usually occupied and turn it off when the areas are vacated at the end of the day. The BMS is monitored by the Parliamentary Works Services staff around the clock.

Mr. Winnick: To ask the hon. Member for North Devon, representing the House of Commons Commission how much was spent on heating on the Parliamentary Estate in each of the last four years. [174327]

Nick Harvey: It is not possible to determine how much was spent just on heating on the parliamentary estate in each of the last four years. Most of the buildings are heated by natural gas boilers which are not metered separately; most of the gas meters also record the gas used in hot water generation and in some buildings, kitchens, as well as in heating. The heating costs of a small number of buildings are included in the leasing charges and therefore they are not known.

The amounts spent on gas on the parliamentary estate in each of the last four years are given in the following table:

	£
2003-04	455,554
2004-05	380,627
2005-06	584,069
2006-07	793,760

The increase in gas expenditure in the last two years is mainly due to significant increases in the unit price of gas in those years.

Portcullis House: Fires

Norman Baker: To ask the hon. Member for North Devon, representing the House of Commons Commission how many times the occupants of Portcullis House were directed to leave the building due to fire in 2007; on how many such occasions a fire had occurred; what the seat of the fire was in each case where fire occurred; and what steps were taken on each occasion to *(a)* identify the person or persons responsible and *(b)* minimise the likelihood of reoccurrence. [175740]

Nick Harvey: Since 1 January 2007 there have been 13 evacuations from Portcullis House. Three were actual fires. After each fire a full fire investigation was carried out by the Fire Safety Manager.

TRANSPORT

Aircraft: Noise

Mr. Boris Johnson: To ask the Secretary of State for Transport (1) what estimates she has made of the likely mean *(a)* nitrogen dioxide and *(b)* aircraft noise levels in each London borough under each of the proposed third runway scenarios in (i) 2015, (ii) 2020 and (iii) 2030; and what equivalent estimates she has made if levels of nitrogen dioxide emissions and noise from aircraft remain at average 2007 levels; [171791]

(2) what the mean *(a)* nitrogen dioxide, *(b)* PM10 and *(c)* aircraft noise levels were in each London borough in (i) 2000 and (ii) the last year for which figures are available. [171792]

Jim Fitzpatrick: The consultation document "Adding Capacity at Heathrow Airport" and supporting technical reports include data and contours for NO_2, PM_{10} and noise in the Heathrow area for 2002 (the base year for comparative purposes) and future airport development scenarios for 2015, 2020 and 2030.

Comprehensive information on air quality for each London borough is available via the London Air Quality Network

(www.londonair.org.uk/london/asp/default.asp?la_id=&showbulletins=&width=1024)

and is updated daily.

Mrs. Villiers: To ask the Secretary of State for Transport what the reasons were for the time taken to publish her Department's Attitudes to Noise from Aviation Sources report. [170691]

Jim Fitzpatrick: This was an especially challenging study given that it was not only reviewing attitudes of people to aircraft noise, but additionally was attempting ground breaking work by using specialist techniques to examine what monetary value should be put on such annoyance.

The study took longer to complete than originally envisaged primarily to accommodate additional pilot studies—as recommended by independent experts—designed to reinforce the methodology underpinning the main phase of the social survey.

The results of the study were announced just as soon as the extensive independent peer review process was completed.

Mrs. Villiers: To ask the Secretary of State for Transport if she will take steps to provide for independent verification of whether aircraft noise limits are being exceeded at UK airports. [170698]

Jim Fitzpatrick: The issue of independent monitoring of breaches of aircraft noise limits is a matter for individual airports as part of their day-to-day operational business.

I am aware of a number of cases where airports ensure that there is independent consideration of their noise and track keeping systems either by being certified to the ISO 14001 environmental management standard or having environmental policy and management systems subject to regular independent audit. In their environmental guidance manual for airports the Airport Operators Association acknowledge that the demonstration of a good environmental management system through externally certified management system can enable the airport to secure better relationships with customers, investors and the local community.

In the "Future of Air Transport" White Paper we said that our preference remains that local solutions should be devised for local problems wherever possible, and we expect airport master plans to describe the package of measures that an airport operator intends to apply to deal with local noise problems. We look to individual airport noise and track keeping groups and consultative committees to monitor airport operations such as track-keeping, noise mapping and observance of Continuous Descent Approach (CDA).

Cars: Exhaust Emissions

Mr. Boris Johnson: To ask the Secretary of State for Transport if she will estimate the number of cars in *(a)* London and *(b)* South East England which have carbon dioxide emissions (i) under 120g/km and meeting the Euro 4 standard for air quality, (ii) under 120g/km and not meeting the Euro 4 standard for air quality, (iii) between 120 and 225g/km and (iv) above 225g/km in each of the last five years. [172591]

Jim Fitzpatrick: Information on the number of vehicles meeting the Euro 4 standard is not held centrally.

The number of licensed cars over the last five years in London and South East England with carbon dioxide emissions between 120 and 225 g/km and above 225 g/km were as follows:

Thousand

	London		*South East England (excluding London)*	
	120-225 g/km	*Above 225 g/km*	*120-225 g/km*	*Above 225 g/km*
2002	366		733	
2003	532		1,095	
2004	594	117	1,253	181
2005	749	141	1,556	215
2006	902	161	1,840	244

Notes:

1. CO_2 emissions data are unavailable for vehicles registered before 1 March 2001. In addition, CO_2 data are also unavailable for a small number of vehicles registered after this date.
2. CO_2 emissions data in the above 225 g/km group are not held separately for 2002 and 2003.
3. Data regarding the number of vehicles meeting the Euro 4 standard are not held centrally.

Cumbrian Coastal Rail Service

Mr. Jamie Reed: To ask the Secretary of State for Transport how many passengers used the Cumbrian coastal rail service between Barrow-in-Furness and Carlisle in each year since 1997. [176645]

Mr. Tom Harris: The Department for Transport does not hold this information. The Office of Rail Regulation (ORR) does however publish regional passenger flows in the National Rail Trends Yearbook editions, which are available in the House Library or from their website at www.rail-reg.gov.uk

Departmental Conditions of Employment

Mr. Hayes: To ask the Secretary of State for Transport how many and what proportion of her Department's staff are employed within each salary band; what the title and role of each position within each salary band is; and for each salary band what the *(a)* bonus structure, *(b)* retirement provision, *(c)* expenses provision, *(d)* total expenses incurred in each of the last 10 years, *(e)* average age of employee, *(f)* number of (i) women and (ii) men and *(g)* ethnic composition is. [171410]

Jim Fitzpatrick: The current staffing figures for the Department are in the following table.

Level	*Male*	*Female*	*Total*
SCS Level	148	49	197
Grades 6/7	905	297	1,792
All other grades	10,180	7,140	17,320
Total	11,233	7,486	18,719

The default retirement age in the Department is 65, with an option to retire at 60. Staff may continue working after 65 subject to there being an annual business case to remain in service.

Further analysis of the composition of the Department's workforce is included in the Civil Service statistics collected by ONS from the Annual Civil Service Employment Survey (formerly mandate) and the latest published statistics are for the year to 30 September 2006. These can be found in Table H at:

http://www.statistics.gov.uk/downloads/theme_labour/2006CivilServiceStatistics.pdf

A further breakdown of the information requested can be provided only at disproportionate cost.

Departmental Illegal Immigrants

Damian Green: To ask the Secretary of State for Transport how many illegal immigrants were discovered working for her Department and its agencies in the last year for which figures are available. [170482]

Jim Fitzpatrick: There are no cases of which we are aware of illegal immigrants who have been discovered working for the Department for Transport and its agencies in the last year.

Departmental Training

Mr. Hayes: To ask the Secretary of State for Transport how many staff aged between 16 and 18 were employed by her Department and its predecessors *(a)* directly and *(b)* through an employment agency in each of the last 10 years; what proportion of these were given time off work to undertake some form of training; and what proportion were provided with some form of training (i) wholly and (ii) partially funded by her Department. [171278]

Jim Fitzpatrick: Generally, nearly all 16 to 18 year-olds employed directly will be given time-off to undertake training and this is funded. However, the detailed breakdown requested can be provided only at disproportionate cost.

Galileo

Mr. Jenkin: To ask the Secretary of State for Transport whether the EU Lisbon treaty, once implemented, will have an effect on the EU's Galileo programme. [175587]

Ms Rosie Winterton: No.

Mr. Jenkin: To ask the Secretary of State for Transport what the treaty basis is for the EU's Galileo programme; and if she will make a statement. [175588]

Ms Rosie Winterton: The objectives of the Galileo programme derive from Article 156 of the treaty establishing the European Community.

Galileo: Finance

Mr. Austin Mitchell: To ask the Secretary of State for Transport how much the UK *(a)* has spent and *(b)* is expected to spend on the Galileo satellite navigation project. [175526]

Ms Rosie Winterton: The technical development of Galileo is a joint project of the European Commission and the European Space Agency (ESA). Approximately €1.6 billion has been committed to the development phase of the system.

European Finance and Transport Ministers have recently agreed a way forward for the funding of Galileo over the 2007-13 financial perspective. Ministers have acknowledged the Commission's estimate, based on a public procurement, of €3.4 billion over the period to 2013 for deployment and initial operation of the system, and have agreed that it should represent a ceiling on expenditure within this financial perspective. It is intended that the deployment and initial operation of Galileo will be taken forward as an EU only programme funded through the EC Budget.

The UK's directly committed costs as an ESA member state for the ESA element of the design and development phase of the programme is €142 million. As EU member states contribute to the EC Budget as a whole rather than to individual spending programmes within it there is no specific UK contribution to the EC Budget funded element of the development and subsequent deployment costs for Galileo.

There has been no political discussion of potential funding commitments for the public sector beyond 2013.

Heathrow Airport: Railways

Mrs. Villiers: To ask the Secretary of State for Transport what estimate she has made of the number of flights into and out of Heathrow which were to destinations where there is a viable rail alternative in the latest period for which figures are available. [170714]

Jim Fitzpatrick: There is no definition of what constitutes a viable rail alternative to flying. However, according to CAA statistics for 2006 there were 58,915 domestic flights to or from Heathrow carrying just under 6 million passengers. There were 28,550 flights to or from Paris and Brussels, with 2.7 million passengers.

Public Transport

Mr. Jamie Reed: To ask the Secretary of State for Transport how much was made available to support rural public transport in Cumbria in each year since 1997. [176730]

Ms Rosie Winterton: We have supported the provision of bus services in rural areas by means of rural bus subsidy grant (RBSG), a grant paid to local transport authorities according to numbers living in rural areas. RBSG allocations to Cumbria county council since the grant's introduction in 1998 are shown in the following table.

	£ *Allocation*
1998-99	957,384
1999-2000	957,384
2000-01	957,384
2001-02	1,222,506
2002-03	1,399,254
2003-04	1,428,712
2004-05	1,471,573
2005-06	1,529,273
2006-07	1,566,783
2007-08	1,604,293
Total	13,094,545

In addition, we have encouraged the development of innovative solutions to meeting rural transport needs by means of Rural Bus Challenge (RBC) competitions held from 1998 to 2003. RBC awards to Cumbria county council are shown in the following table.

	£ *Award*
1999-2000	722,000
2000-01	800,000
2001-02	542,300
2002-03	805,573
2003-04	482,594
Total	3,352,467

Local authorities also support rural public transport from their own resources, including revenue support grant from central government.

Rail funding is not split on a county by county basis and therefore we cannot provide a specific figure for rail support for Cumbria.

Public Transport: Concessions

Mr. Todd: To ask the Secretary of State for Transport if she will extend the national concessionary fare scheme to community transport services. [176942]

Ms Rosie Winterton: Those community transport services operated under section 22 of the Transport Act 1985 which are fully available to the public will be eligible. The inclusion of all community transport services would have to be fully funded and careful consideration would have to be given to the impacts on the sector and rural bus services. The Government have a strong track record in extending concessionary travel. However its current priority is to focus on the successful implementation of the national concession in 2008. Local authorities will retain the flexibility to include community transport in their local schemes to reflect local needs and circumstances.

Railways: Standards

Mr. Hancock: To ask the Secretary of State for Transport pursuant to her answer of 11 December 2007, *Official Report*, column 430W, on railways: standards, how many hits there have been on the website; and if she will place a copy of the study in the Library. [176886]

Mr. Tom Harris: This information is held by Stagecoach South Western Trains who can be contacted at the following address:

Stagecoach South Western Trains Limited
Customer Service Centre
Overline House
Blechynden Terrace
Southampton
Hampshire
SO15 1AL

Refuse Collection Vehicles

Mr. Pickles: To ask the Secretary of State for Transport whether the new tachograph regulations will apply to local authorities' refuse collection vehicles. [176394]

Jim Fitzpatrick: Vehicles used in connection with door-to-door household refuse collection and disposal are exempt from the EU drivers' hours and tachograph rules provided they are operated by, or under contract to, a public authority.

In the Department's opinion, such operations would involve the primary collection of waste from household or commercial premises, including the collection of street cleansing waste, where the transport activity remains subsidiary to the collection. The waste collected from commercial premises must be similar to or of the same kind as that collected from households, it must be collected in the same way (i.e. door-to-door), it must not be subject to any special collection regime or special rules, and must be collected using the same vehicles.

Such operations might involve longer aggregate journeys where there are a number of stops, particularly in rural areas, but such journeys should not normally exceed a radius of 50 kilometres from the place where a vehicle is normally based.

Road Traffic

Andrew Rosindell: To ask the Secretary of State for Transport what the projected traffic numbers are on the M25 approaches to the Dartford Crossing from Essex. [176789]

Mr. Tom Harris: The projected traffic numbers on the M25 approaches to the Dartford Crossing from Essex for the financial year 2007-08 are 26,576,414 vehicles.

Roads

Mr. Gerald Howarth: To ask the Secretary of State for Transport when the lane restrictions on the M3 at its junction with the M25 came into force; what works were undertaken requiring the restrictions; when those works were completed; for what purpose cameras were installed west of the junction; and when she expects to lift the lane restrictions. [175609]

Mr. Tom Harris: The trial layout of lane restrictions at Junction 12 of M25 came into force on 5 March 2007.

The lane restrictions were put in place to improve the flow of traffic from the M25 onto the M3 by re-allocating the available road space more accurately to reflect actual traffic flow. Traffic on the M3 has been restricted to a single lane through this junction to allow two dedicated lanes for traffic joining from the M25.

The trial was initially implemented for a period of four weeks to confirm the effective operation of the layout. As the trial layout has proved to be effective it has been retained.

Throughout the new layout a speed limit of 50 mph has been implemented and managed by Surrey Safety Camera Partnership to act as a safety deterrent while the trial is in place.

An announcement will be made shortly as to whether this scheme is to be made permanent or if lane restrictions are to be removed.

Mr. Jamie Reed: To ask the Secretary of State for Transport what estimate her Department has made of the likely levels of road usage on the A595 between Greenodd and Whitehaven by *(a)* private vehicles and *(b)* freight traffic in each of the next three years. [176732]

Mr. Tom Harris: The Department has made no specific estimates of road usage, either private or goods vehicles, on this stretch of road for the forthcoming three years. Forecasts of traffic at a regional level are

made using the Department's National Transport Model (NTM) and these are published on the Department's web site:

http://www.dft.gov.uk/pgr/roads/roadpricing/researchtrafficcongestion.

The latest forecasts for Northwest Region, which were published in October 2007, indicate that traffic growth on rural A roads between the years 2003 to 2010 will be 9 per cent. for cars, 17 per cent. for light goods vehicles and 2 per cent. for heavy goods vehicles.

Roads: Accidents

Mr. Jamie Reed: To ask the Secretary of State for Transport how many road accidents resulting in a fatality in Copeland involved *(a)* drivers under 25 years of age and *(b)* drivers within 12 months of passing their driving test in the last five years. [176643]

Jim Fitzpatrick: The number of reported fatal road accidents involving drivers aged under 25 in Copeland in each of the last five years is as follows:

	Number of fatal accidents
2002	2
2003	1
2004	2
2005	0
2006	1

Information on the length of time that drivers involved in personal injury road accidents have held a driving licence is not available.

Roads: Children

Mr. Leech: To ask the Secretary of State for Transport what assessment she has made of the merits of roadside pedestrian training schemes for children. [175813]

Jim Fitzpatrick: We funded the £9 million Kerbcraft child pedestrian training research project in 64 English local authorities. The project provided training for five to seven-year-olds in three important road-crossing skills. The project was fully evaluated; we have disseminated interim evaluation results which show that trained children made statistically significant improvements to key behaviours, compared to untrained children. We will disseminate best practice to all local authorities.

Mr. Leech: To ask the Secretary of State for Transport if she will extend roadside pedestrian training schemes for children on a national basis. [175814]

Jim Fitzpatrick: Local authority road safety officers (RSOs) have the responsibility of supporting and co-ordinating road safety education, training and publicity; it is for them to consider how best to meet their local needs.

DfT will disseminate good practice in roadside child pedestrian training schemes to local authorities and educators, based on, but not exclusive to, the Kerbcraft child pedestrian training scheme as it was piloted and evaluated in England and Scotland between 2001 and 2007.

Roads: Lorries

Mr. Lancaster: To ask the Secretary of State for Transport what steps she is taking to reduce congestion caused by heavy goods vehicles on roads. [175635]

Jim Fitzpatrick: To reduce congestion the Department provides direct grant funding to support the use of rail and water freight where appropriate. This year these mode-shift programmes are expected to remove 1.1 million lorry journeys from the roads. The Government also promote efficiency within the road sector through the Freight Best Practice and other programmes.

Roads: Repairs and Maintenance

Mrs. Villiers: To ask the Secretary of State for Transport how many community groups she has met to discuss road improvements since her appointment; how many road improvement schemes she has visited since her appointment; and which representatives of road haulage businesses she has met since her appointment. [168683]

Ms Rosie Winterton: As part of routine business Ministers will meet a wide range of organisations including Members of Parliament, local authorities and community organisations in relation to road improvement schemes. In addition, during visits to regions, Ministers will also see a number of road schemes that have been completed or which are being promoted by the Highways Agency and local highway authorities.

Ministers have over recent months met a number of community groups, MPs and local councillors to discuss road improvement schemes, across England.

Mr. Jamie Reed: To ask the Secretary of State for Transport (1) how much was spent on *(a)* road building and *(b)* road maintenance in Copeland in each year since 1997; [176641]

(2) how much was made available to support road improvement schemes in *(a)* Cumbria and *(b)* Copeland constituency in each year since 1997. [176731]

Ms Rosie Winterton: Since 1997, the Department has contributed funding as set in the following table to the following Highways Agency major road schemes on the trunk road network in Cumbria.

A595 Parton to Lilyhall Improvement Scheme;

A590 High and Low Newton Bypass;

M6 Carlisle to Guardsmill Extension;

A66 Stainburn and Great Clifton Bypass; and

A66 Temple Sowerby Bypass and Improvement to Winderwath.

Highways Agency funding

	Cost (£ million)
1997-98	0
1998-99	0
1999-2000	0
2000-01	2.2
2001-02	5.3
2002-03	9.0
2003-04	2.8
2004-05	3.8
2005-06	10.7
2006-07	65.4
2007-08	94.3

Cumbria county council as local highway authority is responsible for local transport in Cumbria including the Copeland constituency. The council is currently promoting the Carlisle Northern Development Route which will be partly funded through the Government's private finance initiative with a departmental contribution of £142.8 million towards the total cost.

The following table shows the funding through the Local Transport capital settlement that has been allocated to Cumbria county council since 1997. It is for Cumbria to determine how allocations are spent, having regard to its Local Transport Plan.

£ million

	2000-01	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
Capital Highway Maintenance	5.5	9.2	9.8	11.1	13.0	14.7	15.5	18.8
Integrated Block Allocation	2.3	6.0	7.2	5.8	5.7	5.7	5.3	5.3

Prior to 2000-01, the Government funding support for local transport investment by Cumbria county council (including for major schemes and major maintenance) totalled £3.748 million in 1997-98, £2.384 million in 1998-99 and £5.311 million in 1999-2000.

The following table sets out the total reported revenue and capital spend both by Cumbria county council and Copeland district council on road maintenance in each year between 1997-98 and 2006-07.

£ million

Cumbria council	*Area of spend*	*1997-98*	*1998-99*	*1999-2000*	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*
Total Reported Revenue Spend	Cumbria	16.4	16.9	17.6	16.0	16.8	18.1	12.1	15.3	14.6	13.4
	Copeland	0.037	0.054	0.032	0.029	0	0	0	0	0	0
Total Reported Capital Spend	Cumbria	n/a	2.4	5.2	2.3	4.4	11.7	10.3	12.3	15.6	13.5
	Copeland	n/a	0	0	0	0	0	0	0	0	0

n/a = Not available.

Roads: Safety

Mr. Leech: To ask the Secretary of State for Transport what assessment she has made of UK road safety measures against EU member state benchmarks; and if she will make a statement. [175822]

Jim Fitzpatrick: We keep abreast of developments in road safety best practice across the EU (and indeed, the world) on a continual basis, and maintain regular dialogue with our international counterparts. In addition we produce statistics showing how the UK compares with other countries, including other EU member states, as part of the yearly report Road Casualties Great Britain.

The UK is one of the safest countries in the EU in terms of overall casualties. In 2005 there were 5.5 road deaths per hundred thousand population, which is the fourth lowest in the EU; or 4.9 road deaths per billion passenger-kilometres, which is the second lowest in the EU.

Roads: Tolls

Mr. Spellar: To ask the Secretary of State for Transport what the cost has been to date of the consultancy contracts for road pricing policy; and how much is committed for future costs. [176896]

Ms Rosie Winterton: Since the then Secretary of State, the right hon. Member for Edinburgh, South-West (Mr. Darling) committed in 2004 to lead a national debate on the practicality of road pricing as a highly-effective response to rising congestion, the Department has spent some £6.5 million on consultancy contracts including professional advice on possible technical designs,

system architecture and cost modelling. Another £1.0 million is currently contractually committed through to the end of 2007-08.

Although further consultancy expenditure on road pricing policy is envisaged in 2008-09 and beyond, the amount will depend on our requirements, yet to be determined, and no further expenditure is contractually committed.

South West Trains

Mr. Hancock: To ask the Secretary of State for Transport by how many *(a)* Class 442 and *(b)* Class 444 units South West Trains has reduced its main line express rolling stock fleet since the renewal of the franchise; and what percentage of the fleet the reduction represents. [176779]

Mr. Tom Harris: 24 Class 442 units were taken off lease before the start of the Stagecoach South Western Trains (SSWT) Franchise that commenced in February 2007. The class 442s represented 7 per cent. of the total South West Trains (SWT) fleet under the previous franchise. No Class 442s ran in service under Stagecoach South Western Trains.

45 Class 444 units are on lease to Stagecoach South Western Trains and no class 444s have been cut from mainline express services.

Mr. Hancock: To ask the Secretary of State for Transport if she will make it her policy to require South West Trains to put Class 442 back in service in the interests of passenger comfort. [176780]

Mr. Tom Harris: No.

Speed Limits

Andrew Rosindell: To ask the Secretary of State for Transport what the average speed is of London bound traffic on the M25 during the morning and evening peak hours between junctions 26 and 30. [176786]

Mr. Tom Harris: The average speed of traffic on the M25 from Junction 26 to 30 is set out in the following table.

Junctions	*Peak*	*Average speed (mph)*
26-30	Morning	57
	Evening	48
30-26	Morning	52
	Evening	54

The data are for weekdays only, for the hours of 7:00 to 10:00 (inclusive) and 16:00 to 19:00 (inclusive).

Sustainable Development: Finance

Mr. Pickles: To ask the Secretary of State for Transport how much funding her Department has provided to the Sustainability of Land Use and Transport in Outer Neighbourhoods Project. [176395]

Ms Rosie Winterton: The Department's overall expected financial contribution to the above project amounts to £136,495, of which £35,000 was funded by ODPM in 2004. To date £120,221 has been spent.

Trains

Mr. Hancock: To ask the Secretary of State for Transport what recent assessment she has made of the reliability of Reading's Class 458 train coach units; and if she will make a statement. [176781]

Mr. Tom Harris: The miles per casualty (moving annual average) in the period prior to the start of Stagecoach South Western Trains 07/11 (January 2007) for the Class 458s was 14,817 with six units in service.

The miles per casualty (moving annual average) in the latest period available 08/04 (June/July 2007) for the Class 458s was 14,613 with 30 units in service.

This demonstrates that the reliability of the units remains steady despite there being more trains diagrams in service and undertaking more mileage.

DEFENCE

Afghanistan: Frontiers

Dr. Fox: To ask the Secretary of State for Defence whether all NATO member states with forces serving in Afghanistan recognise the same international border between Afghanistan and Pakistan for military operations. [175452]

Des Browne: All contributing nations to the ISAF mission in Afghanistan agree to be bound by the definition of the joint area of operations contained within the operational plan. Consequently the international border between Afghanistan and Pakistan is viewed consistently by all these nations.

Afghanistan: NATO

Mr. Bone: To ask the Secretary of State for Defence how many NATO personnel are serving in Afghanistan; and what percentage are of *(a)* British, *(b)* American and *(c)* other nationality. [175012]

Des Browne: There are currently around 42,000 troops in Afghanistan as part of ISAF. British forces deployed in Afghanistan currently number approximately 7,800. We do not comment on the numbers of deployed troops from other nations, which are matters for the countries concerned; however they are listed with periodic updates on the ISAF website at:

www.nato.int/isaf/index.html

Afghanistan: Peacekeeping Operation

Mr. Carswell: To ask the Secretary of State for Defence what the earliest date is by which the Future Lynx could be available in Afghanistan. [172536]

Des Browne: I refer the hon. Member to the answer given to him by the then Minister of State for the Armed Forces on 14 May 2007, *Official Report*, column 515W.

James Duddridge: To ask the Secretary of State for Defence in what roles the Army employs native Pashtun speakers. [176083]

Des Browne: The vast majority of locally engaged civilians are employed as interpreters. However, local nationals are also employed in the following roles:

Assistant Chef
Barber
EFI Shop Assistant
EFI Stock Controller
Guards
Kitchen Hands
Labour General Duties
Mechanics
Tailors
Welders
Cleaners
Clerks

While we require our interpreters to speak Pashto, there is no such requirement on locally engaged civilians in other roles.

Mr. Keith Simpson: To ask the Secretary of State for Defence whether his Department has conducted any review of the procedures governing to operations of private security companies in Afghanistan since 2001. [164351]

Des Browne *[holding answer 15 November 2007]:* The MOD operates according to the cross-government 'Guidance on Contacts with Private Military and Security Companies', as published by the Foreign and Commonwealth Office in February 2007. The MOD currently is reviewing the application of this guidance within Defence. The MOD has not carried out any reviews into the procedures governing to operations of private security companies in Afghanistan. Currently, the MOD does not employ any private security companies in Afghanistan.

Dr. Fox: To ask the Secretary of State for Defence what outreach programmes are being carried out by British forces in Kandahar province. [174477]

Des Browne: UK forces carry out a range of outreach projects around the Kandahar airfield that are designed to improve local infrastructure and public health. These vary in size and scope and include the provision of blankets to villages and escorting medical and dental personnel to local villages. Further activity, such as painting of mosques, installation of water pumps and drainage and irrigation projects are planned up until the end of March 2008.

Dr. Fox: To ask the Secretary of State for Defence what assessment he has made of the small arms threat to aircraft in *(a)* Helmand and *(b)* Kandahar province. [174487]

Des Browne: We constantly assess the threat to our aircraft operating in Afghanistan and utilise tactics, techniques and procedures suitable for the threat. I am withholding further information as its release would, or would be likely to, prejudice the capability, effectiveness or security of our armed forces.

Dr. Fox: To ask the Secretary of State for Defence what the *(a)* planned and *(b)* actual Apache flying hours were per month in (i) Afghanistan and (ii) Iraq in 2007. [174494]

Mr. Bob Ainsworth: I am withholding the information relating to Afghanistan as its disclosure would, or would be likely to, prejudice the capability, effectiveness or security of the armed forces. The UK does not have any Apache helicopters deployed in Iraq.

Dr. Fox: To ask the Secretary of State for Defence what plans there are to send Vector armoured vehicles to Afghanistan; what the Vector's capabilities are; and if he will make a statement. [174499]

Des Browne: The Vector vehicle has provided a light protected patrol vehicle capability in Afghanistan since April 2007.

Mr. Laws: To ask the Secretary of State for Defence how many helicopters of each type were deployed in Afghanistan in each month since 1 January 2002; what additional deployment of *(a)* Sea Kings and *(b)* other helicopters is planned for 2008; and if he will make a statement. [175443]

Mr. Bob Ainsworth: Information on the type of helicopters deployed each month prior to January 2006 is not held centrally. I am withholding the number of helicopters deployed as its release would, or would be likely to, prejudice the capability, effectiveness or security of the armed forces. The following table sets out, by month, the helicopter types deployed in-Theatre from January 2006 to December 2007.

	Chinook	*Lynx*	*Apache*	*Sea King*
January 2006	Yes	No	No	No
February 2006	Yes	No	No	No
March 2006	Yes	No	No	No
April 2006	Yes	No	No	No
May 2006	Yes	Yes	Yes	No
June 2006	Yes	Yes	Yes	No
July 2006	Yes	Yes	Yes	No
August 2006	Yes	Yes	Yes	No
September 2006	Yes	Yes	Yes	No
October 2006	Yes	Yes	Yes	No
November 2006	Yes	Yes	Yes	No
December 2006	Yes	Yes	Yes	No

	Chinook	Lynx	Apache	Sea King
January 2007	Yes	Yes	Yes	No
February 2007	Yes	Yes	Yes	No
March 2007	Yes	Yes	Yes	No
April 2007	Yes	Yes	Yes	No
May 2007	Yes	Yes	Yes	No
June 2007	Yes	Yes	Yes	No
July 2007	Yes	Yes	Yes	No
August 2007	Yes	Yes	Yes	No
September 2007	Yes	Yes	Yes	No
October 2007	Yes	Yes	Yes	No
November 2007	Yes	Yes	Yes	Yes
December 2007	Yes	Yes	Yes	Yes

Dr. Fox: To ask the Secretary of State for Defence whether his Department uses *(a)* civilian and *(b)* military personnel during the take-off and landing phase of unmanned aerial vehicles operations in Afghanistan. [175447]

Mr. Bob Ainsworth: The Ministry of Defence uses both civilian contractors and military personnel during the take-off and landing phase of unmanned aerial vehicles; however, the vast majority of operators are military. Once airborne, all operational mission activity is conducted by military personnel.

Dr. Fox: To ask the Secretary of State for Defence pursuant to the statement by the Prime Minister of 12 December 2007, *Official Report*, column 304, on Afghanistan, what capabilities Sea King helicopters would have in Afghanistan. [175458]

Des Browne: The Sea Kings will be operating as a support helicopter able to carry troops and equipment and will be tasked accordingly.

Dr. Fox: To ask the Secretary of State for Defence pursuant to the statement by the Prime Minister of 12 December 2007, *Official Report*, column 304, on Afghanistan, what plans his Department has to recruit and deploy specialists who speak Afghan languages and understand tribal dynamics. [175460]

Des Browne: The MOD is already using specialist linguists in support of its operations in Afghanistan and we expect to increase the number deployed over the coming months. In addition to specialist linguists, considerable use is made of local employed civilians in a linguist role.

Dr. Fox: To ask the Secretary of State for Defence pursuant to the Statement by the Prime Minister of 12 December 2007, *Official Report*, column 304, on Afghanistan, how many of his Department's personnel serve in the collocated headquarters. [175466]

Des Browne: I refer the hon. Member to the answer I gave on 13 December 2007, *Official Report*, column 777W.

Patrick Mercer: To ask the Secretary of State for Defence by whom each soldier killed during the 1st Battalion The Worcestershire and Sherwood Foresters Regiment/2nd Battalion The Mercian Regiments' recent operational tour in Helmand Province was replaced in the order of battle. [175622]

Mr. Bob Ainsworth: I will write to the hon. Member.

Airborne Manned Surveillance

Dr. Fox: To ask the Secretary of State for Defence what the status is of the Airborne Manned Surveillance urgent operational requirements; and if he will make a statement. [174485]

Mr. Bob Ainsworth: There have been a significant number of urgent operational requirements relating to surveillance capabilities for manned airborne platforms. Some are in service delivering capability on operations. Others are in progress.

I am withholding further information as its release would, or would be likely to, prejudice the capability, effectiveness or security of our armed forces.

Aircraft Carriers: Finance

Dr. Fox: To ask the Secretary of State for Defence what the estimated cost to his Department is of extending the out-of-service date of *(a)* HMS Illustrious and *(b)* HMS Ark Royal caused by the delay of the in-service dates of the CVF Carriers from 2012 and 2015 to 2014 and 2016. [169346]

Mr. Bob Ainsworth: There has been no delay to the future aircraft carriers' in-service dates of 2014 and 2016 as announced on 25 July 2007, *Official Report*, column 865 and no subsequent changes to the out of service dates of the current carriers. These out of service dates have been adjusted as planning assumptions for the introduction of the new aircraft carriers have been developed. There have been no significant extra costs associated with these adjustments.

Aircraft Carriers: Procurement

Dr. Julian Lewis: To ask the Secretary of State for Defence what the current status is of the order for two future aircraft carriers; and if he will make a statement. [137888]

Des Browne *[holding answer 17 December 2007]:* As I announced on 25 July 2007, *Official Report*, column 865, we have committed to placing an order for two future carriers. Contracts will be placed with the industrial participants in the Aircraft Carrier Alliance delivering the project, when the joint venture between BAE Systems and VT Group has completed the necessary approvals to allow it to receive a contract. This process is nearing completion.

Animal Experiments

Mr. Hancock: To ask the Secretary of State for Defence what his timetable is for concluding the review into hyperbaric experiments excluding the use of *(a)* goats and *(b)* any other animals; and which alternative methods are being considered. [175990]

Mr. Bob Ainsworth: The team of experts has now concluded its stage of the review and its recommendations are to be considered. I will write to the hon. Member when the whole process has concluded.

Armed Forces: Deployment

Patrick Mercer: To ask the Secretary of State for Defence pursuant to the answer of 10 December 2007, *Official Report*, column 394W, on armed forces: deployment, from which units the 200 regular army reinforcements came; and how many of them have been operationally deployed in the last six months. [174765]

Mr. Bob Ainsworth *[holding answer 4th December 2007]:* The Regular Army reinforcements required by the 2nd Battalion The Yorkshire Regiment to provide the particular skill sets and rank structure required in its role as the Operational Mentoring and Liaison Team came primarily from other units in 52 Infantry Brigade.

Units within the brigade have not deployed on an operational tour at either unit or sub-unit level in the last six months. The trawl process used by the Army prevents individuals from deploying on operations within six months of a previous deployment, unless the individual is a volunteer or there is a pressing operational requirement.

Armed Forces: Finance

Mr. Gerald Howarth: To ask the Secretary of State for Defence how much in near cash terms was spent on service retention in each financial year since 2002-03. [176278]

Derek Twigg: The cost of Financial Retention Initiatives (additions to basic pay for groups or trades with particular shortages) and Commitment Bonuses (cash payments at particular times throughout the career progression of personnel to encourage a continuance of service) is shown in the following table.

Financial year	*£ million*
2002-03	44.3
2003-04	63.7
2004-05	73.9
2005-06	58.2
2006-07	74.1

Many disparate activities within the Services could be considered as measures to improve retention, from the improvement of accommodation to the implementation of welfare lines or services. Information about these activities could be provided only at disproportionate cost.

Armed Forces: Health Services

Richard Younger-Ross: To ask the Secretary of State for Defence (1) by what means he monitors whether servicemen and women discharged with combat stress receive continuing treatment from the NHS; [172885]

(2) what arrangement his Department has in place for the transfer of the medical care of discharged service men and women to the NHS. [172893]

Derek Twigg: The Ministry of Defence is committed to doing all it reasonably can to ensure successful transition to civilian life. On discharge, all ex-service personnel are provided with a medical summary record, and this can be presented at the GP's surgery when they register with a civilian doctor. If the doctor has a requirement for the full medical record, we will provide this upon request.

For the vast majority of service personnel these procedures are sufficient to ensure a seamless transition to the NHS. However, for those who are medically discharged with significant ongoing physical or mental health conditions, the care is formally handed over to appropriate medical staff by MOD specialists as the patient is medically discharged.

In the case of physical illness or injury, social work teams at the Defence Medical Rehabilitation Centre or the single service welfare organisations ensure this seamless transfer. For those with ongoing mental illness, the specific Defence Medical Services mental health team who have been caring for that individual will begin a liaison with appropriate civilian healthcare providers (e.g. general practitioner civil mental health team) to ensure that transfer of care and patient history takes place. Additionally, we have specific mental health social workers who manage the individual's wider resettlement issues, liaising with relevant civil agencies such as local housing authorities, financial authorities, service welfare and charitable organisations. These MOD mental health social workers ensure that the individual's transfer into the civilian environment is as smooth as possible.

Since the beginning of 2007, we have also put in place arrangements for the Department's Veterans Welfare Service to monitor those discharged with a seriously disabling injury; this covers cases of both physical and psychological injury. While this monitoring is primarily focused on welfare matters, the service will also identify sources of medical assistance where appropriate. In cases where there is a mental health issue, this could include if appropriate a NHS/MOD Mental Health Pilot team, the Medical Assessment Programme at St. Thomas' Hospital London, or the charity Combat Stress.

Richard Younger-Ross: To ask the Secretary of State for Defence what the cost to his Department of health provision for service men and women in the *(a)* Army, *(b)* Royal Navy and *(c)* Royal Air Force was in 2006-07. [172894]

Derek Twigg: The information is not held in the format requested.

The Defence Medical Services (DMS) are headed jointly by the Deputy Chief of Defence Staff (Health) (DCDS(H) and the Surgeon General (SG). They oversee the work of three separate organisations:

(a) Defence Medical Services Directorate Headquarters (DMSD HQ);

(b) Defence Medical Education and Training Agency (DMETA);

(c) Defence Dental Services (DDS).

DCDS(H) and SG also produce medical policy for the three single services. However, the Royal Navy (RN), Army and Royal Air Force (RAF) Medical Services are responsible for delivering primary healthcare to their respective service commanders in chief and for providing the requisite medical support on operations.

The overall expenditure for the DCDS(Health) organisation for the financial year 2006-07 was £268 million. The organisational structure of the DMS in its entirety means that comprehensive primary care and operational costs cannot be provided without disproportionate effort as they are disaggregated and embedded in individual military units' budgets.

Armed Forces: Housing

Mr. Baron: To ask the Secretary of State for Defence what proportion of *(a)* single and *(b)* family defence estate accommodation is classed as (i) category 1, (ii) category 2, (iii) category 3 and (iv) category 4; what criteria he uses for deciding whether accommodation is sub-standard; and what assessment he has made of the findings of the Public Accounts Committee report on managing the defence estate. [175298]

Derek Twigg *[holding answer 18 December 2007]:* Service Families Accommodation (SFA) and Single Living Accommodation (SLA) is assessed by Grade for Charge, while most SFA is also assessed by Standard for Condition. Grade for Charge takes account of an assessment of the physical condition of the accommodation and other factors such as location and closeness to amenities.

As at 30 June 2007, our worldwide SLA stock of some 165,500 bed spaces was at the following Grade for Charge.

	Number
Grade 1	38,100
Grade 2	19,000
Grade 3	28,200
Grade 4	80,200

At 1 April 2007, the worldwide SFA stock of some 70,193 properties is at the following Grade for Charge.

	Number
Grade 1	12,430
Grade 2	26,447
Grade 3	22,209
Grade 4	8,720
Below Grade 4	387

Of the 70,193, some 55,548 have also been assessed by Standard for Condition (SfC). These are broken down as follows:

	Number
S1fC	30,223
S2fC	19,016
S3fC	3,954
S4fC	2,355

All occupied accommodation is considered of a habitable standard. The Department currently expects to publish its response to the Public Accounts Committee report on managing the defence estate in February 2008.

Armed Forces: Influenza

Dr. Murrison: To ask the Secretary of State for Defence if he will make it his policy to ensure that sufficient quantities of *(a)* influenza vaccines, *(b)* anti-virals and *(c)* face-masks are held by armed forces operating in (i) Iraq, (ii) Afghanistan and (iii) elsewhere in the world for them to cope with a potential influenza pandemic; and if he will make a statement. [172797]

Derek Twigg: The best method to prevent infection with influenza is by prior immunisation with an appropriate vaccine. The Department of Health (DH) has purchased a quantity of the H5N1 Avian Flu vaccine, which could be offered to key occupational groups when the risk of a pandemic increases as it may give a degree of protection should the pandemic strain be a variant of H5N1. Supplies of this vaccine are being held by the DH on behalf of the MOD and in the event of an outbreak will be deployed by MOD in accordance with DH guidelines.

When an influenza virus is already circulating, therapeutic antiviral agents can help to lessen the severity of illness, reduce deaths and contain spread. The National Institute for Health and Clinical Excellence recommends that during an influenza pandemic, patients with a flu-like illness should be treated with zanamivir ("Relenza") or oseltamivir ("Tamiflu"). The DH has arranged for an appropriate stockpile quantity of Tamiflu to be purchased, which is also being held centrally, and includes an allocation for MOD. For armed forces personnel employed at one of MOD's Permanent Joint Overseas Bases (PJOBs), stockpiles of the Tamiflu antiviral have been pre-positioned within the PJOB logistics chain for rapid deployment if necessary. For those on operational deployment in Iraq, Afghanistan or elsewhere, supplies are held by Permanent Joint Headquarters, and will be deployed to theatre as required.

Supplies of face-masks are already held in-theatre and will be used with other appropriate preventative measures in the event of a pandemic outbreak of influenza.

Armed Forces: Leave

Mark Pritchard: To ask the Secretary of State for Defence whether he plans to reduce leave entitlement during operational tours. [175320]

Mr. Bob Ainsworth: Armed forces personnel take rest and recuperation (R and R) while on operational tours. R and R is not leave. There are no plans to change the amount of R and R for which personnel are eligible.

Armed Forces: Legal Opinion

Harry Cohen: To ask the Secretary of State for Defence whether armed forces chiefs receive allowances for the commissioning of legal advice. [172005]

Des Browne: There are no allowances payable to service personnel for the commissioning of legal advice.

Harry Cohen: To ask the Secretary of State for Defence what legal advice is available to armed forces chiefs for official purposes; and whether such advice was sought before the invasion of Iraq in 2003. [172006]

Des Browne: Internal legal advice is available to armed forces chiefs from the legal branches of their respective services and from the MOD's Director General Legal Services as appropriate. Any such advice is subject to legal professional privilege.

Armed Forces: Personnel Management

Norman Lamb: To ask the Secretary of State for Defence pursuant to the answer of 23 October 2007, *Official Report*, column 173W, on armed forces: personnel management, how many underpayments there were to Royal Air Force personnel between 1 January 2007 and 30 September 2007 classified by category of error; how many of these underpayments have now been corrected; and what changes have been made to the *(a)* payment system and *(b)* departmental processes following these errors. [174135]

Derek Twigg: From 1 January 2007 to 30 September 2007, other than a Change of Rank (see serial number 6 in the following table), there were no Joint Personnel Administrative system errors which affected RAF basic pay. During this period 1.83 million payments were made. Details of the Royal Air Force underpayments are given in the following table:

Serial	*Type of Error*	*Service*	*Number*	*Action taken*
	January			
1	Substitution Pay	RN and RAF[1]	620	Error corrected. Supplementary payroll run, payments one day late into bank. Average underpayment value of £150 per person.
	March			
2	Flying Pay for Reserve Band Pilot Officers, Navigators and Observers	RN and RAF[1]	54	Data and records manually correct and payments made. Average underpayment value of £170 per person.
	June			
3	Incorrect Statutory Maternity Pay (SMP)	All[1]	90	Error corrected. SMP now being processed correctly. Individuals underpaid by 4 days salary per month.
4	Reservists' Home to Duty Travel (HDT) allowance	All[1]	10,752	Error corrected. All outstanding payments made in September. Average value distance related, typically £20 to £30 per person.
	September			
5	Non-Commissioned Officer Flying Pay	RAF	12	Error corrected. Refunds of Flying Pay paid in October. Underpayment typically 12 per cent. of that month's salary.
6	Change of Rank	RAF	666	Records manually corrected. Automated process refined. All records corrected for October's pay run. Underpayment of promotion uplift, typically 5 per cent. of basic pay.

[1] The numbers of Royal Air Force personnel affected by these issues could be provided only at disproportionate cost. Service personnel who have been underpaid can request cash advances from their units.

Service personnel who have been underpaid can request cash advances from their units.

Armed Forces: Weapons

Dr. Fox: To ask the Secretary of State for Defence which less-than-lethal weapons and non-lethal weapons are available for use by armed forces personnel; how many personnel are qualified for those weapons in each branch of the forces; and how much training is required annually to maintain that qualification. [173721]

Mr. Bob Ainsworth: The only non-lethal weapons used by our armed forces are the L104 and L67 baton guns. Information on the number of personnel trained in the use of these weapons is not held centrally and could be provided only at disproportionate cost. Neither of these weapons is permanently held by units; they are issued to meet the requirements of specific theatres of operation.

When these weapons are required, nominated personnel will receive appropriate training in their use prior to deployment. Those personnel trained in handling such weapons, who are required to maintain their proficiency, will need to pass a weapons handling test every six months and take part in an annual weapons assessment shoot as is the case for any weapon.

In addition to baton rounds, these weapons can also be used to fire a CS gas grenade, the L96A1, for law enforcement operations at the discretion of unit commanders in theatre. The necessary instruction is delivered during unit pre-deployment training.

Armoured Fighting Vehicles

Ann Winterton: To ask the Secretary of State for Defence whether the Supercat vehicle is classed as a *(a)* protected, *(b)* unprotected or *(c)* patrol vehicle. [175210]

Mr. Bob Ainsworth: We have a number of Supacat-based vehicles, used for specialist roles. The most numerous are the All Terrain Mobility Platform (ATMP), and the Mobility-Weapon Mount Installation Kit (M-WMIK) which will enter service shortly.

The ATMP does not have a specific classification. It was procured as a lightweight load carrying vehicle used by airborne and airmobile units.

The M-WMIK, like all WMIK vehicles, is designed as a carrier for medium support weapons, providing high levels of terrain accessibility, situational awareness and firepower. It complements the use of Protected Patrol Vehicles.

Armoured Fighting Vehicles: Afghanistan

Ann Winterton: To ask the Secretary of State for Defence pursuant to the answer of 6 December 2007, *Official Report*, column 1402W, on armoured fighting vehicles: Afghanistan, whether the 170 Vector vehicles are in addition to the 160 previously ordered. [173963]

Mr. Bob Ainsworth: We have ordered over 170 Vector vehicles in all, comprising a small number of specialist ambulances in addition to the original order.

Army's Total Fleet Requirement 2007

Dr. Fox: To ask the Secretary of State for Defence if he will place in the Library a copy of the Army's Total Fleet Requirement 2007. [174482]

Mr. Bob Ainsworth: I will arrange for a copy of the most recently endorsed Army's Total Fleet Requirement, from 2006, to be placed in the Library of the House.

AWE Burghfield

Mr. Hancock: To ask the Secretary of State for Defence what operational restrictions have been imposed at AWE Burghfield following the report from the Nuclear Installations Inspectorate. [172494]

Mr. Bob Ainsworth: The Nuclear Installations Inspectorate (NII) now requires AWE plc to seek prior authorisation for assembly/disassembly work. Such activities have always been allowed to proceed, with no impact on operations at AWE Burghfield, which remains fully operational and safe.

It is emphasised that, if NII believed a particular operation were unsafe, it would not allow it to take place, and has appropriate regulatory powers at its disposal to cease operations. AWE Burghfield remains operational as the NII is satisfied that all appropriate licence conditions are being met by AWE plc.

Mr. Hancock: To ask the Secretary of State for Defence why AWE Burghfield did not meet the deadline of 27 September to address the shortfalls identified as a result of its periodic review of safety. [172496]

Mr. Bob Ainsworth: Some of the issues identified by AWE plc as a result of its periodic review of safety required the procurement of specialist equipment where the acquisition time was such that the equipment could not be brought into service by the deadline of 27 September. Consequently, the Nuclear Installations Inspectorate (NII) has agreed a new programme of work with AWE plc. It is important to note that NII is satisfied that appropriate progress is being made at AWE Burghfield to address the findings of the periodic review of safety.

Mr. Hancock: To ask the Secretary of State for Defence what safety care shortfalls were identified by the Nuclear Installations Inspectorate at AWE Burghfield. [172497]

Mr. Bob Ainsworth: The safety case issues in question were identified not by the Nuclear Installations Inspectorate (NII), but by AWE plc in its own periodic review of safety. These were associated primarily with risk assessment techniques and the clarity of audit trails. A revised safety case addressing these issues was adopted in September 2007 and NII is satisfied that appropriate progress is being made at AWE Burghfield to address the findings of the periodic review of safety.

Mr. Hancock: To ask the Secretary of State for Defence what responses he has made to the letter from the Nuclear Installations Inspectorate dated 9th May, Annex 1, with particular reference to its conclusions on the safety of continuing to operate at AWE Burghfield; and if he will make a statement. [172498]

Mr. Bob Ainsworth: The letter from the Nuclear Installations Inspectorate (NII) was to AWE plc and not MOD. MOD officials work very closely with both the AWE nuclear site licensee, AWE plc, and the external regulator, the NII The latter is satisfied that operations at AWE Burghfield are safe and the Department's internal nuclear safety regulator supports this position. No useful purpose could therefore be served by the intervention of the Secretary of State for Defence in matters which are essentially for AWE plc to address with the NII.

AWE Management

Nick Harvey: To ask the Secretary of State for Defence what the *(a)* name, *(b)* function, *(c)* estimated cost and *(d)* projected in-service date is of each of the 23 new build projects in the Atomic Weapons Establishment Site Development Context Plan 2005-15. [170844]

Des Browne: The 23 projects included in each of the functions in the Atomic Weapons Establishment Site Development Context Plan 2005-15 are listed in the following table. Where applicable, the names of projects are indicated where they have been finalised. The function of each project correlates with the headings in the plan. Costs not shown are being withheld as their disclosure would, or would be likely to, prejudice commercial interests. Projected in-service dates are shown in five-year bandings in order to avoid prejudice to national security and/or defence interests.

These facilities are required to support the UK's current warhead in-service. Decisions on whether and how we may need to refurbish or replace this warhead are likely to be necessary in the next Parliament.

Name of project	*Cost (£m)*[1]	*Function*
Projected in-service period 2007-10		
Orion Laser	183	Testing/research
IT server buildings (two projects)	30	Computer/ communications
New office accommodation Phase 1	71	Office and business support accommodation
New office accommodation Phase 2	—	Office and business support accommodation
New office accommodation Phase 3	—	Office and business support accommodation
Modular accommodation five buildings	25	Office and business support accommodation
Car park	0.1	Office and business support
Car park	—	Office and business support
Landscaping	—	Environmental
Projected in-service period 2011-15		
Small components interim	—	Manufacturing/ production
High explosives climatic trials	—	Manufacturing/ production
Warhead assembly/disassembly	—	Manufacturing/ production
Systems engineering	—	Manufacturing/ production
Hydrodynamics	—	Testing/research
High performance computer	—	Computing/ communications
High explosives fabrication	—	Manufacturing/ production
Chemical processing	—	Manufacturing/ production
Landscaping	—	Environmental
Projected in-service period 2016-20		
Uranium components	—	Manufacturing/ production
High explosives assembly for trials	—	Testing/research
Small components	—	Testing/research
Laboratory	—	Testing/research

[1] 2007-08 prices.

Ballistic Missile Defence

Norman Baker: To ask the Secretary of State for Defence what requests he has received from the United States administration to use RAF Menwith Hill as part of the US Missile Defense System since 1st January 2001; and if he will place copies of those requests in the Library. [173866]

Des Browne: The US administration's request for missile warning data being routed through RAF Menwith Hill for use in the US missile defense system was received in a classified letter dated 29 June 2007. It is not the practice of the Government to make public the details of correspondence with foreign governments as this would, or would be likely to, prejudice international relations.

Mr. Moore: To ask the Secretary of State for Defence if he will place in the Library a copy of the letter he received on 29 June 2007 from the United States requesting the use of RAF Menwith Hill as part of the US Ballistic Missile Defence programme. [175472]

Des Browne: It is not the practice of the Government to make public the details of classified correspondence with foreign governments as this would, or would be likely to, prejudice international relations.

Bombs

Mr. Oaten: To ask the Secretary of State for Defence what definition the Government uses of *(a)* smart and *(b)* dumb cluster munitions; what munitions it will ban in accordance with the Oslo process; and if he will consider banning all forms of cluster munitions. [170146]

Mr. Bob Ainsworth *[holding answer 3 December 2007]:* I refer the hon. Member to the answer the Minister of State, Foreign and Commonwealth Office (Dr. Howells) gave on 4 December 2007, *Official Report*, column 1131W.

Contracts

Mr. Gerald Howarth: To ask the Secretary of State for Defence what the average rate of increase of indices used in variation of price formulae for fixed price contracts was in each financial year since 1997-98. [176282]

Mr. Bob Ainsworth: The information requested is not held centrally and could be provide only at disproportionate cost.

Corporate Hospitality

David Taylor: To ask the Secretary of State for Defence which members of *(a)* the Defence Council, *(b)* the Defence Management Board, *(c)* Defence Equipment and Support, *(d)* Defence Estates, *(e)* Science, Innovation and Technology TLB and *(f)* Central TLB attended the reception hosted by defence equipment manufacturers at the Automobile Club in London on Tuesday 18 September 2007. [175951]

Mr. Bob Ainsworth: The information requested is not held centrally and could be provided only at disproportionate cost.

Defence Analytical Services Agency: Forecasts

Mr. Gerald Howarth: To ask the Secretary of State for Defence (1) if he will place in the Library copies of each of the Defence Analytical Service Agency's quarterly 'what if' fuel price forecasts issued since 2001-02; [176287]

(2) if he will place in the Library copies of each annual review of the Defence Analytical Service Agency's 'what if' fuel price forecast model issued since 2001-02. [176288]

Mr. Bob Ainsworth: Details of these forecasts are not available for this period as the Defence Analytical Services Agency does not routinely retain this information.

Defence Analytical Services Agency: Publications

Mr. Gerald Howarth: To ask the Secretary of State for Defence which statistical publications have been produced by the Defence Analytical Services Agency since 1997. [176286]

Derek Twigg: The external statistical publications produced by the Defence Analytical Services Agency are available on the DASA website at:

http://www.dasa.mod.uk

Information in some instances goes back as far as 2001 or 2000. UK Defence Statistics, the annual statistical compendium of the Ministry of Defence is available on the website back to 1997.

Prior to the establishment of the website, the following titles were published in printed form:

TSP01 - Strength, Intake and Outflow of UK Regular Forces (Monthly)

TSP02 - UK Armed Forces Full Time Strengths and Requirements (Quarterly)

TSP03 - UK Armed Forces Trained Strengths and Requirements (Monthly)

TSP04 - Quarterly Press Release

TSP05 - Trained Outflow to Civil Life (Quarterly)

TSP06 - Global Location of UK Regular Forces[1] (Quarterly)

TSP07 - Reserve Forces (Annual)

TSP08 - Age Distribution (Annual)

TSP09 - Rank Structure of UK Regular Forces (Quarterly)

TSP10 - UK Regular Forces Stationed Location (Quarterly)

TSP11 - Marital Status by Paid Rank (Annual)

TSP13 - UK Regular Forces servicemen age on entry[2] (Annual)

TSP15 - UK Service Personnel on loan to other countries[2] (Quarterly)

TSP16 - UK Regular Forces disciplinary convictions[2] (Annual)

TSP19 - Intake to and Outflow from UK Regular Forces (Annual)

TSP20 - Male Regular Forces outflow by rank[2] (Annual)

TSP22 - UK Regular Forces comparative statistics[2] (Annual)

TSP24 - Strength of uniformed medical staff[2] (Annual)

CPS01 - Civilian Personnel Statistics (Quarterly)

CPS02 - Regional analysis of resignations for admin and science group staff[1] (Quarterly)

[1] TSP06 was merged into TSP10 from January 2007.

[2] Publication discontinued.

Defence Analytical Services Agency: Standards

Mr. Gerald Howarth: To ask the Secretary of State for Defence if he will place in the Library copies of all extant Defence Analytical Services Agency service level agreements. [176285]

Mr. Bob Ainsworth: Yes, copies of Defence Analytical Services Agency (DASA) extant service level agreements (SLA) are being collated. I will arrange to place copies in the Library of the House when this work is complete.

Defence Equipment and Support Organisation: Private Sector

Annette Brooke: To ask the Secretary of State for Defence how many secondees from the private sector are working within the Defence Equipment and Support Organisation at Abbey Wood. [173409]

Mr. Bob Ainsworth *[holding answer 11 December 2007]:* As at 1 December 2007 there were 79 non-MOD employees working at MOD Abbey Wood. The number of these who were secondees from the private sector within Defence Equipment and Support is not recorded separately.

Defence Equipment and Support: Cost Effectiveness

Mr. Carswell: To ask the Secretary of State for Defence (1) in what ways Defence Equipment and Support encourages competition in the supply chain in order to ensure value for money; [174787]

(2) in what ways the Defence Suppliers Service encourages competition in the supply chain to ensure better value for money. [175272]

Mr. Bob Ainsworth: The Department seeks effective competition at the prime and sub-contract level, using the Defence Contracts Bulletin and, where appropriate, the Official Journal of the European Union to publicise future requirements including competitive sub-contract opportunities.

The Ministry of Defence is currently reviewing its policy in relation to supply networks. One of the aims of the policy is to address the issue of competition and value for money in the supply chain.

Defence Equipment: Procurement

Mr. Hancock: To ask the Secretary of State for Defence how much has been spent on the programmes for *(a)* Type-45 destroyers, *(b)* Astute submarines, *(c)* MARS and *(d)* CVF; and what is expected to be spent on each project in each of the next seven years. [172144]

Mr. Bob Ainsworth: Expenditure up to 31 March 2007 for the Type 45 Destroyer and the Astute submarine programmes was reported on 30 November 2007 in the National Audit Office's Major Projects Report 2007 and is reproduced in the following table:

Programme	*£ million*
Type 45	3,477
Astute	2,539

Expenditure up to 31 March 2007 for the Military Afloat Reach and Sustainability (MARS) and CVF programmes is shown in the following table:

Programme	*£ million*
MARS	10.5
CVF	374.9

Detailed spending plans are kept under review.

Defence Estates: Charities

Ann Winterton: To ask the Secretary of State for Defence (1) whether his Department charges charitable organisations for public liability insurance for events held on departmental property; [171348]

(2) what arrangements are made for public liability insurance for events organised by charitable organisations held on his Department's property; [171349]

(3) if he will make it his policy not to charge charitable organisations for events held on departmental property; [171351]

(4) whether his Department charges charitable organisations for events held on departmental property; and if he will make a statement. [171346]

Derek Twigg: Under Government Finance Accounting Regulations (Managing Public Money), there are no special arrangements for the treatment of charities, whether service or other. The fact that a charity is to be the main beneficiary of a good or service is not in itself sufficient justification to introduce a special charging regime or to set charges aside. There is the opportunity for abatement of full costs and this decision is on a case-by-case basis taking account of any special circumstances that may apply.

All privately-run events on departmental property, whether charitable or other are required to be covered by public liability insurance. This requirement is passed on to the organiser who is responsible for ensuring that appropriate cover is in place. Where commercial insurance is either not available or only at disproportionate cost, then organisers are charged under a Departmental Insurance Scheme.

Defence Manufacturers Association

Mr. Carswell: To ask the Secretary of State for Defence what guidelines his Department issues to staff at *(a)* his Department, *(b)* Defence Equipment and Support staff and *(c)* members of the armed forces on attending events organised by the Defence Manufacturers' Association. [174785]

Mr. Bob Ainsworth: The MOD Statement of Civilian and Service Personnel Policy Annex: Gifts, Rewards and Hospitality issued by the People, Pay and Pensions Agency, provides Departmental guidance to all MOD Civilian staff and Service personnel on the rules governing the way in which individuals should react to offers of gifts, hospitality or other considerations from private companies and defence contractors that have a contractual relationship with the MOD. This will include the Defence Manufacturers Association and associated member companies.

Defence Equipment and Support (D E and S) have issued additional separate guidelines to all D E and S officials on attendance at external events and conferences.

Defence Suppliers Service

Mr. Carswell: To ask the Secretary of State for Defence whether the Defence Suppliers' Service maintains a list of preferred suppliers. [174783]

Mr. Bob Ainsworth: No.

Defence: Finance

Dr. Fox: To ask the Secretary of State for Defence (1) what recent discussions he has had with HM Treasury on payments for urgent operational requirements; [174493]

(2) whether urgent operational requirements are paid for from the Treasury Reserve; [174500]

(3) pursuant to his statement of 12 November 2007 that the defence budget will receive an additional £200 million in 2010-11, *Official Report*, column 500, what the revised *(a)* near cash resource departmental expenditure limit (DEL), *(b)* non-cash resource DEL and *(c)* capital DEL is. [174554]

Mr. Bob Ainsworth: The first £100 million of the additional £200 million in the defence budget for 2010-11 was included in the MOD's capital departmental expenditure limits (DEL) announced in the comprehensive spending review. HM Treasury has agreed that a further £100 million will be added to the defence budget in 2010-11, which will bring the capital DEL funding to £8,971 million in 2010-11. There will be no change to the near cash or the non-cash resource DEL.

Defence Ministers have frequent discussions with colleagues from HM Treasury on a range of issues.

Urgent operational requirements are, and will continue to be, paid up front in full from the Treasury Reserve. We have agreed a new overall funding arrangement with HM Treasury for the funding of UORs for the comprehensive spending review period

as I set out in my statement to the House on 12 November 2007, *Official Report*, column 500. This arrangement is designed to be cost neutral to defence.

Defence: ICT

Mr. Steen: To ask the Secretary of State for Defence what assessment he has made of the merits of switching to the Defence Information Infrastructure version F computer system from the Defence Information Infrastructure version C; and if he will make a statement. [175017]

Derek Twigg *[holding answer 17 December 2007]:* The long-term aim of the MOD is to implement a single information infrastructure across Defence; the Defence Information Infrastructure Future (DII(F)). The Defence Information Infrastructure Convergence (DII(C)) project was implemented at specific sites to bridge the gap between ageing legacy systems in MOD, which were going out of service, and DII(F) being available.

DII(F) is being rolled out now to become the primary information infrastructure across the MOD and is replacing many ageing legacy systems and DII(C) as planned. DII(F) will provide common core infrastructure services which meet the security, technical and interoperability demands of the MOD jointly across the business and battle space and will provide access to the applications required to support and enable the delivery of MOD's outputs.

Mr. Steen: To ask the Secretary of State for Defence what the estimated cost is of changing from Defence Information Infrastructure version F to Defence Information Infrastructure version C; and how many officials worked on making the change. [175018]

Derek Twigg *[holding answer 17 December 2007]:* Defence Information Infrastructure Convergence (DII(C)) was a precursor infrastructure to Defence Information Infrastructure Future (DII(F)) and was only implemented for a subset of the eventual DII(F) user community. DII(C) was implemented at specific sites to bridge the gap between the ageing legacy systems in MOD going out of service and DII(F) being available. DII(C) will eventually be subsumed by DII(F).

Defence: Lobbying

Mr. Carswell: To ask the Secretary of State for Defence what guidance is in place for *(a)* his officials and *(b)* officials at (i) the Defence Suppliers Service and (ii) Defence Equipment and Support Organisation on meetings with lobbyists employed by defence contractors. [174788]

Mr. Bob Ainsworth: No specific guidance is issued to MOD officials regarding the meeting of lobbyists employed by defence contractors. However, all MOD Crown servants (including members of the armed forces) are expected to conduct themselves at meetings with representatives of defence contractors in accordance with MOD policy on the acceptance of gifts, rewards and hospitality and the civil service code.

Defence: Procurement

Mr. Gerald Howarth: To ask the Secretary of State for Defence if he will list for each of the last four years the principal items of military equipment acquired under the Urgent Operational Requirements procedures which have been transferred to his Department's budget; when they were so transferred; and what proportion of Urgent Operational Requirements acquired equipment in the 2007-08 financial year he expects to be charged to his Department's budget in 2007-08. [164657]

Mr. Bob Ainsworth: When there is an enduring requirement for Urgent Operational Requirement (UOR) equipment, it is brought into the core defence programme. This is usually at the end of the operation. Continuing operations in Iraq and Afghanistan mean that we have not yet brought a significant number of UORs into core.

UORs brought into core have only been recorded centrally by MOD since 2005. Principal UORs taken into core since 2005 include enhanced armour and environment modifications for Challenger II; AS90 environmental enhancement to operate in extreme hot, dry conditions; tactical Global Positioning Systems; Helmet Mounted Night Vision Systems; and additional weapons stocks.

We have not yet taken decisions on UORs to be brought into our core programme in the current financial year as the planning round has not yet concluded.

Mr. Hancock: To ask the Secretary of State for Defence how much was spent on spare parts for equipment by *(a)* the Army, *(b)* the Royal Navy and *(c)* the Royal Air Force in each of the last five financial years. [174238]

Mr. Bob Ainsworth: The total defence equipment and support (DE&S) expenditure on capital spares additions in each of the last four financial years (to the nearest £ million) is provided in the following table. Individual capital account codes did not exist within the Department's financial systems prior to Financial Year 2003-04. Previous information for Financial Year 2002-03 could be provided only at disproportionate cost.

	£ million
2003-04	581
2004-05	439
2005-06	385
2006-07	409

The breakdown by Front Line Command for Financial Years 2005-06 and 2006-07 is given in the following table. Information broken down for Financial Years 2003-04 and 2004-05 (to the required accuracy) could be provided only at disproportionate cost.

Service	2005-06	£ million 2006-07
Army	82	109
Royal Navy	45	55
Royal Air Force	248	228
Joint service/others	10	17
Total	385	409

It should be noted that these figures do not include any expenditure for non-balance sheet low value spare parts for equipment.

Mr. Carswell: To ask the Secretary of State for Defence what criteria have to be fulfilled for a would-be defence supplier to become a prime contractor; and how a decision on the matter is made. [175041]

Mr. Bob Ainsworth: In response to business need, the Department assesses any potential supplier's eligibility against a number of standard objective criteria including capability, quality, financial and legal status, organisation, and supply chain management. The potential supplier is also assessed against project-specific criteria pertinent to the particular requirement.

Departmental Assets

Chris Ruane: To ask the Secretary of State for Defence what total value of *(a)* land and *(b)* facilities is surplus to his Department's foreseeable purposes in Northern Ireland; and what plans he has to dispose of such assets. [176656]

Derek Twigg: The Ministry of Defence keeps its estate, including that in Northern Ireland, under constant review to meet present and planned future requirements. Land and property that is no longer required is disposed of as quickly as possible.

It is the Department's normal policy to dispose of such surplus assets at market value in accordance with the guidance set out in "Managing Public Money".

Sites are disposed of by means of a competitive process in order to ensure best value for defence. Therefore, it would not be appropriate to release expected receipts as it might impact on future negotiations with potential purchasers.

A list of all sites currently in disposal is available in the Library of the House.

Chris Ruane: To ask the Secretary of State for Defence what the total value of *(a)* land and *(b)* facilities gifted, donated or loaned to local community initiatives by his Department was in each region of the UK in each of the last 10 years. [176657]

Derek Twigg: The gifting of land and facilities over £100,000 (£250,000 since 1 April 2005) requires the approval of HM Treasury and Parliament. Details of gifts below that level are not held centrally. Since 1997 the following value of gifts of land and facilities, in support of local community initiatives, have been reported in the departmental accounts following approval by Parliament:

	£ million
Northern Ireland	
2002-03	6.4
2003-04	13.0
South East	
2005-06	0.35

The MOD does not loan facilities for local community initiatives except in so far as these constitute welfare facilities for the armed forces. Any land and facilities that are surplus to defence requirements are disposed of in accordance with "Managing Public Money" issued by HM Treasury.

Chris Ruane: To ask the Secretary of State for Defence what total value of his Department's *(a)* land and *(b)* buildings was sold in each region of the UK in each of the last 10 years. [176658]

Derek Twigg: This Department does not keep a separate record of the value raised from the sale of land and buildings in each region of the UK and such a breakdown could be provided only at disproportionate cost. However, the total accrued disposal receipts for each year since 1998-99 (the earliest year available) were as follows:

Financial year	£ million
1998-99	59
1999-2000	301
2000-01	225
2001-02	185
2002-03	279
2003-04	207
2004-05	212
2005-06	258
2006-07	394

These figures are taken from the Defence Estates annual reports and accounts, copies of which are available in the Library of the House.

Chris Ruane: To ask the Secretary of State for Defence what mechanism exists for liaison between his Department and the Northern Ireland Office when considering disposal of departmental *(a)* land and *(b)* buildings in Northern Ireland. [176659]

Mr. Bob Ainsworth: The Ministry of Defence (MOD) is required to obtain market value when disposing of surplus assets. In Northern Ireland all surplus MOD assets are advised to the Office of the First Minister and Deputy First Minister (OFM/DFM) at the earliest opportunity. OFM/DFM circulates details to Northern Ireland Government Departments.

We have also committed to adhere to the "clearing house" process used by Northern Ireland Government Departments under which details of surplus MOD assets are circulated to Northern Ireland Government Departments and agencies. This process is managed by the Central Advisory Unit (CAU) of Land and Property Services. Northern Ireland Government Departments and agencies may register interest through the CAU who notifies MOD accordingly.

Chris Ruane: To ask the Secretary of State for Defence what account is taken of community cohesion when considering the disposal of departmental *(a)* land and *(b)* buildings in Northern Ireland. [176660]

Derek Twigg: The Ministry of Defence is required to obtain market value when disposing of surplus assets, and follows procedures laid down in "Managing Public Money" and particular processes applicable to Northern Ireland. The Department works closely with the Northern Ireland Office when disposing of surplus assets to allow other Northern Ireland Government Departments and agencies to express an interest. We also work closely with the local authorities and other key stakeholders when considering its disposal strategy and the most appropriate alternative use, taking into account the requirements of the local community. This will often include an assessment of development and regeneration opportunities through the preparation of a planning brief or outline planning application which can be taken forward by prospective purchasers.

Chris Ruane: To ask the Secretary of State for Defence if he will consider gifting his Department's land and facilities to local communities to promote inter-community cohesion initiatives. [176812]

Derek Twigg: Land and facilities that are surplus to defence requirements are disposed of in accordance with HM Treasury's "Managing Public Money" guidance. Any gifting with a value in excess of £250,000 requires both Treasury and parliamentary approval.

Departmental Carbon Emissions

Chris Huhne: To ask the Secretary of State for Defence (1) how many air miles were travelled by Ministers in his Department in each year since 2000; and what estimate he has made of the total amount of carbon dioxide emissions produced as a result; [172228]

(2) how many air miles were travelled by *(a)* the Secretary of State and *(b)* other Ministers in his Department on short haul flights over the last 12 months; and what estimate he has made of the total amount of carbon dioxide emissions produced as a result of these flights. [172455]

Derek Twigg: Since 1999 the Government have published a list of all overseas travel by Cabinet Ministers costing over £500. Information for the last financial year was published on 25 July 2007. Details for the current financial year will be published as soon as possible after the end of the financial year. From next year, the list will include details of overseas visits undertaken by all Ministers. All ministerial travel is undertaken in accordance with the Ministerial Code.

All central Government ministerial and official air travel has been offset from 1 April 2006. Departmental aviation emissions are calculated on an annual basis and subsequently offset through payments to a central fund. The fund purchases certified emissions reductions credits from energy efficiency and renewable energy projects with sustainable development benefits, located in developing countries.

In addition, offsetting the flights of Department for Environment, Food and Rural Affairs, the Foreign and Commonwealth Office, the Department for International Development, and the Prime Minister has been backdated to 1 April 2005.

A list of Government Carbon Offsetting Fund members, their emission figures and what activities they have offset through the fund is available online at:

http://www.defra.gov.uk/environment/climatechange/uk/carbonoffset/government.htm

Departmental Coordination

Mr. Spellar: To ask the Secretary of State for Defence pursuant to the answer of 27 November 2007, *Official Report*, column 309W, on Departmental Coordination, on what date his Department was consulted by the Foreign and Commonwealth Office. [176152]

Des Browne: I refer my right hon. Friend to my answer of 11 December 2007, *Official Report*, column 395W.

Departmental Equality

Philip Davies: To ask the Secretary of State for Defence how much has been spent by his Department *(a)* in total and *(b)* on staff costs on promoting equality and diversity in each of the last three years for which figures are available; and how many people are employed by his Department for this purpose. [173843]

Derek Twigg: The information requested is not held centrally and could be provided only at disproportionate cost.

Departmental Expenditure Limits

Dr. Fox: To ask the Secretary of State for Defence pursuant to the Winter Supplementary Estimates (HC 29), for what reasons he plans to transfer £70 million from voted capital departmental expenditure limit to non-voted near cash resource departmental expenditure limit; and if he will make a statement. [175445]

Derek Twigg: The transfer of £70 million from voted capital departmental expenditure limit to non-voted near cash resource departmental expenditure limit relates to a planned increase in the cash release of provisions. Under arrangements agreed in the 2004 spending review, increases in the cash release of provisions (which score as non-voted DEL) are offset against voted near cash provision.

Departmental Finance

Mr. Gerald Howarth: To ask the Secretary of State for Defence (1) if he will break down his Department's RfR1 near cash resource expenditure by *(a)* value and *(b)* standard industrial classification for each financial year since 2001-02; [176293]

(2) if he will break down his Department's RfR1 capital expenditure by *(a)* value and *(b)* standard industrial classification for each financial year since 2001-02. [176294]

Mr. Bob Ainsworth: Estimates of aggregate MOD cash expenditure in UK industry and commerce, by standard industrial classification (SIC), are published in the annual United Kingdom Defence Statistics, copies of which are available in the Library of the House. This analysis, however, is not fully compatible with the Treasury RfR framework, as it measures only cash expenditure and excludes non-cash costs such as depreciation; it includes both capital and resource expenditure; and it does not cover expenditure overseas incurred by the Department. It is likely also to include expenditure which may be claimed under RfR2 (Conflict Prevention). Identification of RfR1 near cash expenditure by SIC could be provided only at disproportionate cost.

Departmental Freedom of Information

Mr. Spring: To ask the Secretary of State for Defence how many and what proportion of the Freedom of Information requests his Department has received in the last 12 months were answered with *(a)* the information requested, *(b)* a refusal and *(c)* a partial disclosure (i) within 20 working days and (ii) after more than 20 working days. [175321]

Derek Twigg: The Ministry of Defence received 3,103 Freedom of Information requests in the period from October 2006 to September 2007, the most recent 12-month period for which statistics are available. Of these requests, 2,571, 83 per cent., were answered within 20 working days. 532 requests (17 per cent.) required longer than 20 working days to answer. However, in 148 of these cases (5 per cent. of the total received), the delay was authorised by a legitimate extension of the 20-working day time limit, permitted under the Freedom of Information Act; the Department, therefore, answered 88 per cent. of requests for information 'in-time'.

Of the total requests for information received, 2,639 were deemed 'resolvable', i.e. it was possible to make a substantive decision on the release of the information sought, as distinct from those cases where the Department does not hold the information requested, or where the request is withdrawn or altered by the applicant. 1,810 (69 per cent.) of these resolvable requests were answered in full with all the information requested, 354 (13 per cent.) requests were refused in full; while 224 (8 per cent.) requests were answered by partial disclosure of the information requested. The remaining 10 per cent. of requests had not received a response at the time these statistics were collected, which is done by quarterly report.

Status of FOI requests by number and percentage for the period October 2006 to September 2007

Status	*Number*	*Percentage*
Information released	[1]1,810	69
Refusal	354	13
Partial release	224	8
Within 20 working days	2,571	83
>20 working days	[2]532	17
'In-time'	2,719	88

[1] Of 2,639 resolvable requests.
[2] 148 permitted extension.

Departmental Ministerial Policy Advisers

Mr. Hoban: To ask the Secretary of State for Defence what the office costs for his Department's special advisers for 2007-08 are expected to be, including costs of support staff; and how many full-time equivalent civil servants work in support of such special advisers. [164929]

Derek Twigg: One civil servant is employed at the Ministry of Defence to provide dedicated support of a non-political nature to the special advisers in accordance with the Code of Conduct for Special Advisers. The pay band for the post range between £24,700 and £33,250 per annum.

Mr. Hancock: To ask the Secretary of State for Defence how much his Department spent on special advisors in 2006-07; how much has been allocated for 2007-08; and if he will make a statement. [172819]

Derek Twigg: I refer the hon. Member to the written ministerial statement made by my right hon. Friend the Prime Minister on 22 November 2007, *Official Report*, columns 147-50WS.

Departmental Pay

David T.C. Davies: To ask the Secretary of State for Defence how many Departmental employees were paid *(a)* over £60,000 and *(b)* over £100,000 per annum, inclusive of bonuses, in the most recent financial year for which figures are available. [173102]

Derek Twigg: The numbers of civilian staff in the Ministry of Defence and its Agencies who received taxable pay (including salary, allowances and bonuses) of over £100,000 in financial year 2006-07 was some 70; the number who received over £60,000 was some 1,175. The nearest equivalent figures for members of the armed forces relates to salary levels including bonuses and specialist pay in the current year, where some 550 armed forces personnel receive salaries in excess of £100,000, and some 6,100 receive salaries in excess of £60,000.

Departmental Public Expenditure

Dr. Fox: To ask the Secretary of State for Defence what the total expenditure in near cash terms was in each financial year since 2000-01 as listed in his Department's resource account code hierarchy. [175446]

Mr. Bob Ainsworth: I will write to the hon. Member and place a copy of my letter in the Library of the House.

Ex-servicemen: Military Decorations

Tom Brake: To ask the Secretary of State for Defence how many people in each London constituency have received the veterans' badge in each of the last three years. [175369]

Derek Twigg: The information is not held in the format requested and can be provided only at disproportionate costs. However, we have identified from our records that a total number 3,612 badges have been issued to residents in the London area.

Hazardous Substances: Fort Halstead

Mr. Fallon: To ask the Secretary of State for Defence what arrangements are in place for the removal and transport of hazardous materials from Fort Halstead in Kent; what such materials have been removed from the site in the last five years; and if he will make a statement. [175557]

Mr. Bob Ainsworth: The Fort Halstead site is owned by QinetiQ but leased to the Defence Science and Technology Laboratory (Dstl), who have a 90-year lease. The transportation of hazardous material from the site is managed by the Dstl Facilities Management Provider, Serco.

Over the last five years the hazardous materials transported have included sealed radioactive materials, explosives and a variety of toxic or harmful chemicals. All of these materials have been transported following detailed risk assessments and in accordance with UK legislation, e.g. the use of controlled waste administrators and pre-qualified licensed carriers, and have been moved only to approved/licensed sites. In addition to this, as a duty of care, both Dstl and Serco have conducted sample audits of the process.

Helicopters

Dr. Fox: To ask the Secretary of State for Defence what the *(a)* planned and *(b)* actual average flying hours for each helicopter type in the (i) Army, (ii) Royal Navy and (iii) Royal Air Force was in each month of 2007. [175449]

Mr. Bob Ainsworth: Total planned and actual flying hours for each helicopter type in each of the three services from January to November 2007 are shown in the following tables:

Army Air Corps

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov
Apache AH1											
Planned hours	801	901	901	1,119	1,259	1,259	1,259	839	1,398	1,259	1,119

Planned hours	900	900	900	900	900	900	900	900	900	900	900
Total flown	753	757	839	915	835	802	907	843	835	742	NYA

NYA = not yet available.
[1] Includes the first of the newly procured Merlin Mk 3 from November 2007.

Planned hours show the funded annual flying task for each aircraft type as agreed in annually agreed customer supplier agreements (CSA) between the Front Line Commands and Defence Equipment and Support. Actual hours flown includes both those flown in the UK for training as well as those deployed on operations. Hours flown in excess of the CSA on operations are funded by the Conflict Prevention Fund.

There is no requirement to hold data on average flying hours. CSA calculations are based on the total amount of flying hours that can be supported by the integrated project teams for a given aircraft type and are not broken down by individual airframe.

Helicopters: Procurement

Mr. Carswell: To ask the Secretary of State for Defence what the estimated average cost is of each of the Future Lynx helicopters to be delivered under the contract with the Finmeccanica group. [172588]

Mr. Bob Ainsworth: The value of the contract placed with Finmeccanica is approximately £1 billion (excluding VAT). This cost is for the development and manufacture of 70 aircraft.

Helicopters: Training

Dr. Fox: To ask the Secretary of State for Defence how many training exercises were conducted by Apache and Chinook helicopter crews in each of the last five years; and what the *(a)* location and *(b)* type was of each. [174495]

Mr. Bob Ainsworth: The number of collective training exercises supported by both Apache and Chinook helicopter crews was seven in 2005, 13 in 2006 and 18 in 2007. Records are not held for collective training exercises conducted prior to 2005. The location and type of each exercise are shown in the following table. The number of collective training exercises supported by Chinook only and Apache only will take longer to collate. I will write to the hon. Member when this information is available. Aircrew training flights are too numerous to quantify.

	Exercise details	*Location*
2005	Exercise Iron Storm - 3 (UK) Division live firing Exercise.	UK wide.
2005	Qualified Helicopter Training Instructor Flying Phase - Air Crew Training Exercise.	Scotland.
2005 3 times	Exercise Bowman Vanguard - Fleet Collective Training Exercise	UK wide.
2005	Exercise Bowman Ord - Fleet Exercise part of HMS Ocean sea trials.	Sea trials.
2005	Exercise Argonaut - Fleet Collective training Exercise.	UK Wide.

	Exercise details	*Location*
2006	Exercise Herrick Eagle - 16 Brigade Herrick 4 Mission Rehearsal Exercise.	Salisbury Plain Training Area and Sennybridge Training Area.
2006	Exercise Southern Raider - 3 Commando Brigade Mission Rehearsal Exercise	Salisbury Plain Training Area and Sennybridge Training Area.
2006 5 times	OPTAG (Operational Training and Advisory Group) confirmation Exercises 3 Commando Brigade units Herrick 5 Pre Deployment Training.	Stanford Training Area.
2006	Exercise Iron Storm - 3 (UK) Division Capstone Combat Services Support Exercise for Engineer Regiments' Herrick 5 Pre Deployment Training.	UK Wide.
2006 5 times	OPTAG confirmation Exercises - 12 Division units Herrick 6 Pre Deployment Training.	Stanford Training Area.
2007	Exercise Desert Dragon - 12 Division Herrick 6 Mission Rehearsal Exercise	Salisbury Plain Training Area and Sennybridge Training Area.
2007	Exercise Pashtun Ace - 12 Division Close Combat Attack concentration as part of Herrick 6 Pre Deployment Training.	Otterburn Training Area.
2007 4 times	Ex Druid's Dance - 52 Brigade Herrick 7 Pre Deployment Training.	Sennybridge Training Area.
2007 5 times	OPTAG Confirmation Exercises - 52 Brigade units Herrick 7 Pre Deployment Training.	Stanford Training Area
2007	Exercise Desert Dragon - 52 Brigade Herrick 7 Mission Rehearsal Exercise.	Salisbury Plain Training Area and Sennybridge Training Area.
2007	Exercise Eagle's Eye - 16 Brigade Airborne Task Force validation Exercise.	Salisbury Plain Training Area.
2007 5 times	OPTAG Confirmation Exercises - 16 Brigade units Herrick 8 Pre Deployment.	Training on Stanford Training Area.

Influenza: Disease Control

Dr. Murrison: To ask the Secretary of State for Defence what documents dealing with contingency arrangements for an influenza pandemic have been *(a)* prepared by and *(b)* commissioned by his Department since 1 March 2005; and if he will make a statement. [175797]

Derek Twigg: Since October 2005 the MOD has been developing a generic Pan Defence Pandemic Flu Planning Framework document. This brings together activities which, for the most part, will be undertaken by Departmental operational commands and business units. In June 2006 the Business Continuity Policy team developed a generic influenza exercise scenario with the aid of the Health Protection Agency (HPA). Additionally, the Defence Medical Services Department (DMSD) has issued periodic policy guidance to the Single Services, designed to inform defence medical professionals, beginning in October 2005 when "Preparing for an Influenza Pandemic in UK" was issued. In January 2006 DMSD produced "Use of Influenza Vaccines and Anti-virals in the event of an Influenza Pandemic", and, in February 2007, "Pandemic Influenza – Infection Control Guidelines for Military Settings" was issued, produced by DMSD in collaboration with the HPA.

No external flu pandemic studies or reports have been commissioned.

Iran: Sequestration of Assets

Mr. Hancock: To ask the Secretary of State for Defence if the Government will take steps to sequester assets of the government of Iran in the UK to the value of the British military equipment which was seized in *(a)* 2004 and *(b)* 2007; and if he will make a statement. [176065]

Des Browne: We will continue to pursue diplomatic means for the return of the boats and equipment seized by Iran in 2004 and 2007.

Iraq Conflict: Legal Opinion

Harry Cohen: To ask the Secretary of State for Defence pursuant to the answer of 3 December 2007, *Official Report*, column 840W, on Iraq conflict: legal opinion, whether such advice was commissioned using resources from the public purse. [172004]

Des Browne: No private legal advice was sought prior to the invasion of Iraq by any of the then armed forces Chiefs of Staff.

Iraq: Peacekeeping Operations

Mr. Moore: To ask the Secretary of State for Defence pursuant to the answer of 19 November 2007, *Official Report*, column 481W, on Iraq: peacekeeping operations, what the estimated cost of providing medical services to employees of private military and security companies under Government contract in *(a)* Iraq and *(b)* Afghanistan was in each of the last five years; what estimate he has made of the cost of procuring such services from the private sector; and if he will make a statement. [168453]

Des Browne *[holding answer 28 November 2007]:* In the last five years, the Ministry of Defence has contracted only two private military security companies both in 2007, one in Iraq and one in Afghanistan. Available records do not show any routine or emergency treatment having been provided

to employees of these companies. In order to confirm this categorically a trawl of all medical records would have to be undertaken, which would require a level of effort generating disproportionate cost to the benefit of the information provided.

There has been no estimate done on the cost of procuring such services for PMSCs from the private sector.

Dr. Fox: To ask the Secretary of State for Defence how many convoy escort missions were conducted by British forces along Military Supply Route Tampa in Britain's area of operations in each month in 2007. [173732]

Des Browne: The Military Supply Route Tampa is one of numerous routes that British forces can use to conduct convoy missions.

I am withholding further information as its disclosure would, or would be likely to, prejudice the capability, effectiveness or security of our armed forces.

Legal Costs

Dr. Fox: To ask the Secretary of State for Defence how much his Department spent, in near cash terms, on *(a)* legal fees, *(b)* legal fees incurred in relation to land acquisition/disposal and *(c)* legal fees incurred in relation to compensation payments, as listed in his Department's resource account code hierarchy, in each financial year since 2000-01. [169347]

Mr. Bob Ainsworth: The total resource costs of the expenditure items are set out in the following table.

£ million

Financial year	*Legal fees*	*Legal fees—land acquisition and disposal*	*Legal fees—compensation payments*
2000-01	38.7	0.9	28.9
2001-02	1.4	1.0	0.4
2002-03	2.0	1.5	[1]—
2003-04	3.0	0.4	[1]—
2004-05	5.2	1.0	1.6
2005-06	21.1	0.8	3.9
2006-07	7.7	8.4	7.6

[1] While the overall Operating Cost Statement (OCS) was correct, the balance relating to this resource account code in 2002-03 and 2003-04 incorrectly excluded expenditure to be offset by the utilisation of provisions resulting in an erroneous credit balance. (An estimate of the expense for the legal fee obligation is taken through the OCS in the year the obligation arises and held as a provision. When the obligation becomes a liability and the provision is utilised, a charge is made to the OCS and the provision is used to offset the expense in the OCS). The detailed data required to restate the correct expenditure for this specific resource accounting code have been archived and the restatement can be undertaken only at disproportionate cost.

Near cash expenditure is not separately identified in the final resource accounts or the centrally held supporting records. Total resource costs have therefore been provided; however it is unlikely that there are any non cash costs attributed to the expenditure items which would result in the near cash expenditure being different from the resource expenditure. The creation of legal provisions is attributed to a different resource account code to those listed in the question.

Members: Correspondence

Mr. Harper: To ask the Secretary of State for Defence how many letters his Department received from hon. Members and Peers in each session of Parliament since 1997. [174936]

Derek Twigg: The Cabinet Office, on an annual basis, publishes a report to Parliament on the performance of Departments in replying to Members/Peers correspondence. Information relating to 2007 will be published as soon as it has been collated. The report for 2006 was published on 28 March 2007, *Official Report*, columns 101-04WS. Reports for earlier years are available in the Library of the House.

Mercian Regiment

Patrick Mercer: To ask the Secretary of State for Defence what the peace establishment was of the 2nd Battalion the Mercian Regiment before its deployment to Afghanistan; what the strength was of the Battalion; how many reinforcements to the Battalion were received from *(a)* the regular Army, *(b)* the Territorial Army and *(c)* the regular Army Reserves; how many of all ranks were (i) left behind on recruitment duties, (ii) physically unfit to deploy and (iii) left behind in barracks to form a rear party; and what the Battalion's battle casualty replacement policy was. [175390]

Mr. Bob Ainsworth *[holding answer 18 December 2007]:* Prior to deploying to Afghanistan in March 2007, the peace time establishment of the 2nd Battalion Mercian Regiment was 559; the battalion's strength was 466; it received additional reinforcements of 58 Regular Army and 17 Territorial Army Personnel; and no reinforcements from the Regular Army Reserves. Two individuals remained on recruitment duties and 75 soldiers remained in barracks to form the rear party, 37 of whom were unfit to deploy.

The policy on battle casualty replacement was to utilise appropriately trained deployable personnel, who would be received into the unit's rear party. In order to rectify a deficiency arising in a specific skill, replacements would be requested from other units in theatre or if necessary an individual would be deployed forward from the United Kingdom or British forces in Germany.

Military Aircraft

Mr. Ellwood: To ask the Secretary of State for Defence what contribution he expects the purchase of a sixth C-17 Globe Master to make to his Department's heavy lift strategy. [172560]

Mr. Bob Ainsworth *[holding answer 10 December 2007]:* The sixth C-17 will deliver a significant increase in our ability to transport personnel and equipment, including large cargo, over strategic distances, particularly in support of our current operations in Iraq and Afghanistan.

Military Aircraft: Helicopters

Mr. Keetch: To ask the Secretary of State for Defence how many accidents have taken place involving *(a)* Puma, *(b)* Merlin, *(c)* Chinook and *(d)* Sea King RAF helicopters since 2001; how many British service personnel were killed or wounded as a result in each case; and whether (i) equipment failure and (ii) pilot error were contributory factors in each case. [171010]

Mr. Bob Ainsworth: Accidents involving the requested types of helicopter, in which the aircraft suffered category 4 (major damage, repairable off-site) and category 5 (write-off) since 2001 are given in the following table:

Date	*Aircraft*	*Location*	*Injured*	*Killed*
9 April 2001	Puma XW200	Kosovo	1	2
16 August 2001	Sea King XZ599	RAF St. Mawgan	2	
21 January 2002	Puma XW214	Ballykelly, NI	1	
16 March 2002	Puma[2] XW227	Jonesborough, NI	[1]3	
19 July 2004	Puma XW221	Basra, Iraq	2	1
10 April 2006	Chinook[1] ZA654	Afghanistan		
1 April 2007	(Puma[1] XW211	Iraq		2
1 April 2007	Puma[1] XW218	Iraq	9	3
8 August 2007	Puma[2] ZA934	Catterick, N. Yorkshire	2	2
20 November 2007	Puma[2] ZA938	Iraq		

[1] These accidents are still under investigation.
[2] In addition, there was one civilian passenger injured in this incident.

There have been no accidents involving Merlin helicopters since 2001.

Where the cause has been determined, none of the accidents has been attributed to major equipment failure.

Military Bases: Carbon Emissions

Jon Trickett: To ask the Secretary of State for Defence what estimate he has made of the total cost incurred by military bases in the UK in relation to the EU Emissions Trading Scheme. [175983]

Derek Twigg: On 12 July 2007, I placed in the Library of the House a table detailing the Ministry of Defence (MOD) costs for 2005 of participating in the first year of Phase 1 of the EU European Emissions Trading Scheme (ETS).

The table details MOD sites registered in the scheme, the number of free allowances, actual carbon dioxide emissions, scheme administration costs and additional allowance costs.

Details of the cost to MOD of the second year of Phase 1 of the scheme, are currently being compiled and a table will be placed in the Library of the House when this is complete.

Phase 2 of the EU ETS will commence on the 1 January 2008. As details have yet to be made available for the operation of the scheme it is not currently possible to compile a meaningful estimate of the likely cost to MOD of participating in Phase 2.

Minimum Wage

Jon Trickett: To ask the Secretary of State for Defence how many London-based staff are employed by his Department on the national minimum wage. [175980]

Derek Twigg: None.

Ministerial Duties

Mr. Bone: To ask the Secretary of State for Defence what average percentage of his working week has been taken up by his duties as Secretary of State for Defence. [169993]

Des Browne *[holding answer 3 December 2007]:* I refer the hon. Member to the oral answer I gave to the hon. Member for Blaby (Mr. Robathan) on 3 December 2007, *Official Report*, columns 557-60.

Ministerial Policy Advisers

Mr. Hancock: To ask the Secretary of State for Defence if he will place in the Library a copy of the job descriptions of his special advisers. [172303]

Des Browne: I refer the hon. Member to the written ministerial statement made by my right hon. Friend the Prime Minister on 22 November 2007, *Official Report*, columns 147-50WS.

National Identity Register

Mr. Philip Hammond: To ask the Secretary of State for Defence what plans his Department has to make use of data on the national identity register when it is established; and what the estimated cost to his Department of that use is. [174039]

Derek Twigg: The MOD will be working with the Home Office prior to the introduction of the national identity scheme to establish how identity information held on the proposed national identity register might be used to provide easier access to MOD's services for our customers. It is too early in the process to establish the detailed costs and benefits.

Nimrod Aircraft

Mr. George Howarth: To ask the Secretary of State for Defence when he expects the review into the Nimrod conducted by Mr. Charles Haddon-Cave QC to be published. [176269]

Des Browne: I have nothing to add to the written ministerial statement I made in the House on 13 December 2007, *Official Report*, column 50WS. It is too early to speculate on a possible timescale for publication.

Nuclear Submarines

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the answer of 13th December 2007, *Official Report*, column 778W, on nuclear submarines, what safeguards are in place to prevent UK submarine commanders launching a nuclear attack on their own initiative; and if he will make a statement. [175623]

Des Browne: There are a number of technological and procedural safeguards built into the UK's nuclear deterrent to prevent an unauthorised launch of its Trident missiles. Any launch of a Trident missile would require a large proportion of the submarine's crew to act in concert. I am withholding further details as its disclosure would, or would be likely to prejudice the capability, effectiveness or security of the armed forces.

Nuclear Submarines: Decommissioning

Mr. Salmond: To ask the Secretary of State for Defence what estimate he has made of the cost of the decommissioning of the Vanguard Class submarines; and if he will make a statement. [169442]

Mr. Bob Ainsworth: Nuclear decommissioning costs are the subject of current work within the Department. When this work is complete, I will write to the hon. Member and place a copy of my letter in the Library of the House.

Nuclear Weapons: Finance

Mr. Jenkin: To ask the Secretary of State for Defence how much he plans to spend on a replacement for the UK strategic nuclear deterrent in each year of procurement; and whether this spending is included in the overall allocation for his Department announced as part of the conclusions of the 2007 Comprehensive Spending Review. [175589]

Des Browne: I refer the hon. Member to the answer I gave on 30 October 2007, *Official Report*, columns 1357-58W, to the hon. Member for North Devon (Nick Harvey) and chapter D8 of the Comprehensive Spending Review White Paper (CM 7227).

Spending plans for 2011-12 and beyond will be set as part of the Government's spending review process.

Official Engagements

Dr. Fox: To ask the Secretary of State for Defence what his official engagements were between 1 and 21 November 2007. [169459]

Des Browne: My official engagements as Secretary of State for Defence and Secretary of State for Scotland, throughout the period 1 November to 21 November, included various meetings in London and Scotland, including with ministerial colleagues and officials from the MOD and Scotland Office.

On Thursday 1 and Friday 2 November I was overseas visiting Service personnel serving in Iraq. On Monday 5 November I met with the HBOS in Scotland. On Tuesday 6 November I attended the State Opening of Parliament. On Wednesday 7 November I hosted the French Defence Minister for bilateral discussions in London. On Thursday 8 November I attended the British Torch of Remembrance ceremony at Westminster Abbey and met with National Grid. On Friday 9 November I visited Diageo with my hon. Friend the Member for Ochil and South Perthshire (Gordon Banks). On Saturday 10 November I attended the Royal British Legion Festival of Remembrance 2007 event and, on Sunday 11 November, I attended the Remembrance Ceremony at the Cenotaph. On Monday 12 November I met EU ambassadors in London, hosted by the Portuguese ambassador, before attending the Defence debate in the House of Commons. On Tuesday 13 November I met separately with the National Farmers Union Scotland and Scottish Financial Enterprise. On Wednesday 14 November I attended a Sailor, Soldier, Airmen and Families Association reception. On Thursday 15 November I hosted the Romanian Defence Minister for bilateral discussions in London. On Friday 16 November I hosted a reception in Edinburgh for Polish National Day. On Sunday 18 and Monday 19 November I was in Brussels attending a meeting of EU Defence Ministers. On Tuesday 20 November I met with The Crown Prince of Bahrain.

Dr. Fox: To ask the Secretary of State for Defence (1) what his official engagements were from 22 to 28 November; [170828]

(2) what his official engagements were from 22 November to 10 December. [173719]

Des Browne: Throughout the period 22 November to 10 December, I had various meetings in London and Scotland, including with ministerial colleagues and officials from the MOD and Scotland Office. On 22 November, I had a meeting with the Columbian Defence Minister and a meeting with the Turkish Chief of Defence Staff. On 23 November, I addressed the State of the City Economy Conference in Glasgow. On 28 November, I answered oral questions for the Scotland Office in the House of Commons. On 29 November, I attended a reception to mark the home coming of 12 Brigade from Iraq. On 1 December, I visited the Longannet Power Station in Alloa and participated in the Scottish Interfaith Week Come and Play the Diversity Game event in Edinburgh. On 3 December, I answered oral Defence questions in the House of Commons. On 4 December, I met with service families about the Board of Inquiry findings into the crash of the RAF Nimrod XV230 before attending the House to make a statement about the same. On 6 December, I gave oral evidence to the AFPRB and in the evening I attended a Sailor, Soldier, Airmen and Families Association carol service at the Guards' Chapel, Wellington Barracks. On 8 December, I met with representatives from the services charity "Forward Edge Battle Area". Between 7 and 10 December, I was overseas visiting service personnel in Afghanistan.

Operating Costs

Mr. Gerald Howarth: To ask the Secretary of State for Defence if he will place in the Library a copy of his Department's RfR 1 operating cost statement (level 4 view) for each financial year since 2001-02. [176283]

Mr. Bob Ainsworth: The Departmental Operating Cost Statement (OCS) is a consolidation of OCSs by Top Level Budget (TLB) and includes Request for Resources (RfR) 1, 2 and 3.

RfR 1 and 2 data are not held centrally at level 4 (Resource Account Code). Extraction of the RfR 2 data from the consolidated OCS, to produce an OCS for RfR 1 at level 4 could be undertaken only at disproportionate cost.

An OCS in the summarised format produced for the Department Resource Accounts for RfR 1 can be produced for the period 2001-02 to 2006-07 and I shall place a copy in the Library of the House.

Mr. Gerald Howarth: To ask the Secretary of State for Defence if he will place in the Library a copy of his Department's RfR 1 balance sheet (level 4 view) for each financial year since 2001-02. [176284]

Mr. Bob Ainsworth: The departmental balance sheet is a consolidation of balance sheets by top level budget and includes request for resources (RfR) 1, 2 and 3. Balances at the year end are not identified by individual RfR and construction of a balance sheet for RfR1 from source data could be provided only at disproportionate cost.

Operational Readiness Force

Dr. Fox: To ask the Secretary of State for Defence which units form the UK's commitment to the Operational Readiness Force (ORF) for KFOR; whether they are fully equipped; whether the ORF is deployed; and when the next ORF will take over from the current ORF. [170804]

Mr. Bob Ainsworth *[holding answer 4 December 2007]:* The UK element of NATO's Operational Reserve Force (ORF) is currently a battalion from the 2 Royal Ghurkhas Rifles. Subsequently the UK ORF will consist of a battalion from 1 Welsh Guards and then followed by a battalion from 2 Rifles. The UK ORF battalion is prepared and positioned in the UK and will take over as the highest ready (four days notice for the lead element) battalion in support of NATO responsibilities in the Balkans from 1 January 2008 until 30 June 2008. The battalion is fully equipped for the potential tasks required of it.

Phantom Clocking

Mr. Donohoe: To ask the Secretary of State for Defence what estimate he has made of the costs to his Department of phantom-clocking in each year since 1997. [175294]

Derek Twigg: The term "phantom clocking" is taken to mean the abuse by employees, of time recording equipment at their place of work. This information is not held centrally and could be provided only at disproportionate cost.

Princess Mary's Hospital

Philip Davies: To ask the Secretary of State for Defence how many patients have been treated at the Princess Mary's Hospital in RAF Akrotiri in the last 12 months; what the hospital's establishment is; how many staff are working at the hospital; and whether the hospital is fully equipped. [173970]

Derek Twigg: The number of patients treated at the Princess Mary's Hospital at RAF Akrotiri from 1 December 2006-30 November 2007 was 12,848, including both in-patients and out-patients. The total staff establishment is for 161 personnel, made up of both military and civilians, and present manning stands at 147. The current staffing level has not prevented the hospital from carrying out its required tasks, and it is also equipped for the clinical services it is required to provide.

Recruitment

Mr. Gerald Howarth: To ask the Secretary of State for Defence how much in near cash terms was spent on civilian recruitment in each financial year since 2002-03. [176281]

Des Browne: The information requested is not held centrally and could be provided only at disproportionate cost.

Redundancy Pay

Mr. Gerald Howarth: To ask the Secretary of State for Defence how much in near cash terms was paid out in severance payments in each financial year since 2002-03. [176280]

Derek Twigg: The amounts paid out in near cash terms for redundancy and severance payments in each financial year from 2002-03 are set out in the following table:

Financial year	*£ million*
2002-03	81
2003-04	106
2004-05	92
2005-06	130
2006-07	221

Amounts paid are in respect of payments directly charged to the operating cost statement and the cash utilisation of provisions, for both military and civilian personnel.

Reserve Forces: Wales

Mrs. Gillan: To ask the Secretary of State for Defence what plans he has to allow recruitment to the Parachute Regiment Reserve in Wales. [176266]

Derek Twigg: The 4th Battalion the Parachute Regiment constitutes the Parachute Regiment Reserve. The Battalion Headquarters is based in Pudsey, West Yorkshire, with sub-unit and detachment locations in Glasgow, London, Edinburgh, Croydon and Newcastle-upon-Tyne. There are no plans to create a detachment in Wales.

Recruits to the regiment are welcome from any location, although anyone joining the regiment would need to travel to one of the unit locations in order to conduct administration and training.

Royal Fleet Auxiliary: Contracts

Norman Baker: To ask the Secretary of State for Defence what contracts have been entered into by the Royal Fleet Auxiliary Support Integrated Project Team since 2004; and what the value was of each contract. [175648]

Mr. Bob Ainsworth: Since 2004, numerous contracts have been entered into by the Royal Fleet Auxiliary Support Integrated Project Team and I will write to the hon. Member with details.

Royal Fleet Auxiliary: Manpower

Norman Baker: To ask the Secretary of State for Defence how many people work in the Royal Fleet Auxiliary Support Integrated Project Team; and how many of them are *(a)* serving armed forces personnel, *(b)* civil servants, *(c)* external consultants and *(d)* others. [175649]

Mr. Bob Ainsworth: The Royal Fleet Auxiliary (RFA) Support Integrated Project Team (IPT) currently employs 75 personnel. Of these, 32 are civilian RFA Officers, 38 are civil servants, one is an external consultant and there are four posts filled on a temporary basis by non-civil servants, for example, agency staff. There are no serving armed forces personnel employed within the IPT.

Territorial Army: Military Decorations

Bob Russell: To ask the Secretary of State for Defence pursuant to the answer of 27 November 2007, *Official Report*, column 314W, on Territorial Army: military decorations, what guidance he has issued to regional commanders on exercising their discretion to allow members of the Territorial Army to wear medals on Combat Soldier 95 working dress at Remembrance Parades and on other ceremonial occasions. [175429]

Derek Twigg: Guidance on dress is given in Army Dress Regulations, which are widely available. These allow regional commanders to authorise the wear of medals for specific parades on combat dress. No additional guidance is necessary.

It remains the Army's intention that parade uniform (number 1 or number 2 dress) be worn for most scheduled public events. Number 2 dress is available to the TA for specific parades, and remains the uniform for general wear on Remembrance day.

Type 45 Destroyers: Procurement

Dr. Julian Lewis: To ask the Secretary of State for Defence whether he has changed his plans in respect of the number of Type 45 destroyers to be ordered; and when a decision will be made about ships seven and eight. [137886]

Mr. Bob Ainsworth *[holding answer 17 December 2007]:* We currently have a contract for six Type 45 destroyers and a decision has yet to be made on a further order. The decision and its timing will be based on a range of factors including requirements, affordability, value for money and the wider context of the Defence Industrial Strategy.

United Kingdom Hydrographic Office

Nick Harvey: To ask the Secretary of State for Defence why there was no call for evidence as part of the early stages of the departmental review of the United Kingdom Hydrographic Office. [176702]

Derek Twigg: The study was announced through the Defence website on 9 February 2007. The study team identified and consulted relevant authorities and bodies in assessing options. A number of industry bodies also provided input.

Warships: Deployment

Dr. Julian Lewis: To ask the Secretary of State for Defence what studies have been undertaken of deployment schedules for *(a)* aircraft carriers, *(b)* assault vessels, *(c)* destroyers, *(d)* frigates and other *(e)* warships and *(f)* auxiliary vessels with a view to keeping them tied up in port. [137889]

Mr. Bob Ainsworth *[holding answer 17 December 2007]:* Deployment plans for all Royal Navy ships and Royal Fleet Auxiliary vessels are kept under continuous review in the light of operational demands and maintenance requirements. In addition, a range of options relating to ship readiness states and activity levels are considered in the Department's annual planning rounds. No decisions have yet been taken in the current planning round concerning specific deployment schedules.

NORTHERN IRELAND

Aviation

Chris Huhne: To ask the Secretary of State for Northern Ireland how many air miles were travelled by Ministers in his Department in each year since 2000; and what estimate he has made of the total amount of carbon dioxide emissions produced as a result. [172236]

Mr. Woodward: Since April 2006 emissions from central Government ministerial and official air travel has been offset through the Government Carbon Offsetting Fund. Departmental aviation emissions are calculated on an annual basis and subsequently offset through payments to the fund. The fund purchases certified emissions reduction credits from energy efficiency and renewable energy projects with sustainable development benefits, located in developing countries.

The DEFRA website provides a comprehensive list of Government Carbon Offsetting Fund members, their emission figures and what activities they have offset through the fund, available at:

http://www.defra.gov.uk/environment/climatechange/uk/carbonoffset/government.htm

Figures for air miles and the resulting emissions from ministerial air travel are not collated separately from our overall figures and could be provided only at disproportionate cost.

All ministerial travel is undertaken in accordance with the Ministerial Code and Travel by Ministers, copies of which are available in the Library of the House.

Since 1999, the Government have published on an annual basis a list of all overseas visits by Cabinet Ministers costing in excess of £500. Copies of the lists are available in the Library of the House.

Chris Huhne: To ask the Secretary of State for Northern Ireland how many miles he and other Ministers in his Department travelled on short haul flights in the last 12 months; and what estimate he has made of the total amount of carbon emissions produced as a result of these flights. [172566]

Mr. Woodward: Ministers in the NIO make regular short haul flights between London and Belfast to enable them to take forward departmental business in both Northern Ireland and meet their commitments at Westminster.

Since April 2006 emissions from central Government ministerial and official air travel has been offset through the Government Carbon Offsetting Fund. Departmental aviation emissions are calculated on an annual basis and subsequently offset through payments to the fund. The fund purchases certified emissions reduction credits from energy efficiency and renewable energy projects with sustainable development benefits, located in developing countries.

The DEFRA website provides a comprehensive list of Government Carbon Offsetting Fund members, their emission figures and what activities they have offset through the fund, available at:

http://www.defra.gov.uk/environment/climatechange/uk/carbonoffset/government.htm

Figures for air miles and the resulting emissions from ministerial air travel are not collated separately from our overall figures and could be provided only at disproportionate cost.

All ministerial travel is undertaken in accordance with the Ministerial Code and Travel by Ministers, copies of which are available in the Library of the House.

Since 1999, the Government have published on an annual basis a list of all overseas visits by Cabinet Ministers costing in excess of £500. Copies of the lists are available in the Library of the House.

Christmas

Malcolm Bruce: To ask the Secretary of State for Northern Ireland whether it is his Department's policy to use (*a*) incandescent light bulbs and (*b*) LED lights for festive decorations on departmental premises. [173496]

Mr. Woodward: A limited amount of Christmas decorations are put up each year by staff in departmental buildings. Where these decorations include festive lights these will generally have been bought in previous years and are re-used for the sake of economy. The Department does not have a policy on the type of light bulbs used in festive decorations.

Malcolm Bruce: To ask the Secretary of State for Northern Ireland what his Department's policy is on the selection of (*a*) real and (*b*) artificial Christmas trees for his Department's festive decorations; and how real trees are disposed of. [173522]

Mr. Woodward: A limited amount of Christmas decorations, including trees, are put up each year by staff in departmental buildings. For reasons of economy the trees are generally artificial and can be reused over a number of years. In two departmental buildings where real trees are used, the trees are sourced from sustainable tree farms, and are recycled after use.

Civil Disorder: Belfast

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many persons were (*a*) arrested for and (*b*) charged with riotous behaviour arising from civil disturbances in Belfast city centre on the evening of 20 November. [170485]

Paul Goggins: PSNI has advised that no persons were arrested or charged with riotous behaviour during the disorder in Belfast City Centre on 20 November 2007. However, three persons were arrested for other public order related offences arising from this incident. One person was released without charge and the two others were released pending report to the Public Prosecution Service.

The incident involved crowds of youths, aged on average between 12 and 16 years, both male and female. The number of youths and children attending the event was significantly larger than in any previous year. This may have contributed to the cause of this incident, which was dealt with quickly and effectively by the police.

Departmental Manpower

Tom Brake: To ask the Secretary of State for Northern Ireland how many and what proportion of posts in his Department have been recategorised from back office to frontline posts as classified by the Gershon efficiency review in each year since 2004. [172259]

Mr. Woodward: The Northern Ireland Office is committed to achieving work force reductions of 1,446 posts by the end of 2007-08. This is a net target and no posts will be reallocated to the frontline as part of it.

Departmental Procurement

Mr. Philip Hammond: To ask the Secretary of State for Northern Ireland whether the standard terms and conditions of purchase used by his Department in the procurement of goods and services from the private sector prohibit the assignment of debt. [172431]

Mr. Woodward: NIO Procurement Unit standard terms and conditions do not contain an express provision prohibiting the assignment of debt. However, there is a provision which states that the contractor shall not transfer or assign the contract or part thereof and shall not sub-contract any part of the provision of the services without the prior written consent of the Department.

Motor Vehicles: Theft

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many vehicles were stolen in Northern Ireland in each of the last 10 years; how many persons were (*a*) charged with and (*b*) convicted of vehicle theft in each year; and what steps he is taking to reduce the incidence of car theft. [170495]

Paul Goggins: The Policing Board and the PSNI have made tackling vehicle crime a key priority, and have achieved a 65 per cent. reduction in the number of recorded incidents in the period covered by the following table.

In 1998-99 the Home Office introduced revised counting rules for recording crime. As crime figures produced from 1998-99 onwards should be regarded as a new statistical series, figures for 1997-98 are not comparable and have therefore not been provided.

Vehicle crime control strategies focus on the main areas of prevention, intelligence, enforcement and reassurance. This results in a variety of tactical responses including targeted high visibility patrolling, enforcement of bail conditions for known offenders, development of community watch programmes, pro-active operations and media awareness campaigns. This list is not exhaustive as strategies are applied in line with the needs and priorities of the local policing area.

	Number of recorded incidents of theft or unauthorised taking of motor vehicles	*Number cleared by means of charge or summons*
1998-99	9,715	976
1999-2000	10,196	993
2000-01	10,806	907
2001-02	11,635	757
2002-03[1]	8,410	711
2003-04	5,369	638
2004-05	4,456	618
2005-06	3,721	560
2006-07	3,418	595

[1] From 1 April 2002 most attempted thefts/ unauthorised taking of motor vehicles are recorded as vehicle interference due to a change in the Home Office Counting Rules.

The following table displays the number of convictions for theft of a vehicle by offence during the calendar years 1996-2005. 2005 is the last year for which data are available[1].

[1] Data are collated on the principal offence rule; so only the most serious offence with which an offender is charged is included.

	Theft of vehicle	*Taking a motor vehicle without owner's consent*	*Aggravated vehicle taking*[1]	*Total*
1996	11	416	0	427
1997	9	453	0	462
1998	18	401	0	419
1999	2	294	0	296
2000	8	328	0	336
2001	9	348	0	357
2002	3	300	0	303
2003	3	351	0	354
2004	5	354	0	359
2005	3	303	4	310

[1] Data include the offences of 'aggravated vehicle taking causing injury', 'aggravated vehicle taking in which vehicle is driven dangerously' and 'aggravated vehicle taking causing damage to the vehicle'.

Rape

Lady Hermon: To ask the Secretary of State for Northern Ireland how many (*a*) reports, (*b*) charges and (*c*) convictions for rape there were in Northern Ireland in each of the last five years. [170460]

Paul Goggins: The following table shows the number of rape offences (including attempted rape) reported and cleared by the police by means of charge or summons from 2001-02 to 2006-07.

	Reported	*Number cleared by means of a charge or summons*
2002-03	357	46
2003-04	395	82
2004-05	380	67
2005-06	391	64
2006-07	457	54

The following table shows the number of people convicted of rape in the calendar years 2001-05, the last year for which data are available.

	Number of persons convicted of rape
2001	12
2002	8
2003	8
2004	15
2005	4

The Government are committed to improving the rates of successful prosecution in rape cases. Specialist police units, staffed by highly skilled personnel, are dedicated to enhancing the service to victims of rape and sexual assault. Both PSNI and the Public Prosecution Service are seeking to develop models of best investigative practice so that more cases can achieve the evidential threshold for prosecution. Government are also currently consulting on draft legislation which would provide enhanced levels of public protection, including the introduction of robust new sentences for dealing with dangerous sexual and violent offenders.

The Northern Ireland Office and the Department of Health and Social and Personal Services have also jointly developed, and consulted on, a draft regional strategy for addressing sexual violence in Northern Ireland which will specifically examine the factors which contribute to the attrition rate in relation to sexual offences. The strategy is scheduled to be published in early 2008. As part of that process we have already made significant progress, in partnership with the medical profession and voluntary sector, in developing proposals for a sexual assault referral centre (SARC) in Northern Ireland.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Wastes

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of the effect on farmers in Westmorland and Lonsdale constituency of the costs associated with meeting the slurry storage requirements under the proposals for nitrate vulnerable zones. [176735]

Mr. Woolas: The regulatory impact assessment (RIA)[1], which was circulated with the consultation document on the implementation of the Nitrates Directive in England, provides details of my Department's assessment of the potential cost to farmers of the proposed measures under the revised Action Programme options. The RIA includes an assessment of costs associated with meeting the slurry storage requirements.

I am currently considering the consultation responses received.

[1] Available via http://www.defra.gov.uk/corporate/consult/waterpollution-nitrates/partialria-nitrates.pdf

Biodiversity

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of his Department's ability to meet its target under the EU commitment to halt biodiversity loss by 2010; and if he will make a statement. [170430]

Joan Ruddock: It is important to stress that this commitment is not for my Department to achieve alone. DEFRA continues to work in partnership with the devolved administrations, other Government Departments, country agencies and non-Government agencies to meet this important target.

It is too early to say whether the target will be met, but some very significant progress has been made. For example, 77 per cent. of England's Sites of Special Scientific Interest are in favourable or recovering condition compared with 50 per cent. in 2000. In June this year, assessments against a suite of 18 indicators were published on behalf of the UK Biodiversity Partnership. The publication 'Biodiversity Indicators in Your Pocket' showed that in all 12 areas where data were available, the situation was either stable or improving.

We have been active in shaping the European and global frameworks for assessing the 2010 targets, and have developed our own reporting framework to fit with these.

Birds: Conservation

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs how many convictions there were for offences involving illegal theft of protected bird species from the wild in each year since 1997; and if he will make a statement. [168924]

Joan Ruddock: The number of convictions for offences relating to the protection of bird species in each year since 1997 are shown in the following table:

Number of defendants found guilty of part of section 1 of the Wildlife and Countryside Act 1981, England and Wales, 1997 to 2006[1,2]

	Number
1997	28
1998	20
1999	20
2000	15
2001	17
2002	11
2003	20
2004	52
2005	24
2006	87

[1] These data are on the principal offence basis.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

The figures include convictions for the illegal killing, taking and injuring of wild birds, disturbing the dependent young of birds listed in schedule 1 of the Wildlife and Countryside Act 1981, and the possession of live and dead wild birds. It is not possible to identify separately convictions for illegal taking.

Carbon Emissions: Heathrow Airport

Ms Abbott: To ask the Secretary of State for Environment, Food and Rural Affairs whether the planned extension of Heathrow airport will contribute towards his Department's emission reduction targets; and if he will make a statement. [174814]

Mr. Woolas: Government emissions reduction targets currently exclude international aviation emissions as there is no agreed way of allocating responsibility for these to individual countries.

However under the current proposal to include aviation in the EU ETS, emissions from the aviation sector would be capped at the level of average 2004-06 emissions, and carbon allowances would only be issued up to the level of this cap. Emissions over this cap will be covered either through mitigation within the sector or through the purchase of reductions that can be produced more cheaply and easily by other sectors. This would be the case regardless of whether this growth in emissions was from new airport capacity, the provision of new routes or extra services on existing routes. This approach means that growth in aviation (including Heathrow expansion) would be sustainable.

Flood Control

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made on the introduction of a flood risk management innovation fund. [171157]

Mr. Woolas: A £1.5 million fund has been set aside to support innovative flood risk management solutions. An open competition was launched in November 2005 and the six successful projects were announced in January 2007. These are being funded to:

develop an educational tool to improve public understanding of the difficult decisions that are sometimes required in the management of our coasts thereby assisting implementation of more sustainable long term management policies;

investigate the contribution of land management practices to flood management in the Staffordshire Washlands catchment of the Rivers Trent, Sow and Penk;

work with the farming community to provide tools to landowners to assist with adaptation to change on the Essex coast;

demonstrate and help communicate the benefits of floodplain woodland for flood management;

develop an innovative and sustainable community-based adaptation programme for the coast at Slapton in South Devon;

demonstrate the benefits of integrating flood mitigation and environmental approaches such as sustainability, zero carbon and zero waste within urban developments.

The projects are being undertaken by a variety of public and private organisations and further details are on the DEFRA website.

Floods: River Derwent

Mr. Todd: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects the fluvial study of the lower Derwent to be published: [173448]

Mr. Woolas: A public consultation is planned for the draft lower Derwent strategy during the summer of 2008. The final strategy is expected to be published in the spring or summer of 2009, depending on the issues raised during the consultation.

However, more detailed hydraulic modelling for Derby is planned for the next financial year. If the preliminary results of this model are different from the information the Environment Agency currently has on the predicted flood risk, publication of the draft strategy will be delayed until the agency is confident that the results of the model accurately predict river levels. This could delay publication of the draft strategy by up to a year.

Fly Tipping: North East Region

Mr. Kemp: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government have taken to reduce incidents of fly-tipping in the North East; and if he will make a statement. [173564]

Joan Ruddock: Tackling fly-tipping and wider waste crime is a priority for the Government. Our Waste Strategy for England, published in May 2007, makes clear that initiatives to boost waste prevention and recycling should be supported by fly-tipping strategies aimed at tackling the illegal dumping of waste.

The Strategy includes the Government's Illegal Waste Activity Action Plan, which sets out what action is being taken and proposed in this area. This includes:

(i) Reviewing the controls in place to deal with the management and carriage of waste. The review aims to reduce levels of fly-tipping by making it easier for businesses to understand and comply with the regulations and make them easier for local authorities to use.

(ii) Developing legislation that will give local authorities and the Environment Agency the powers to stop, search and instantly seize vehicles being used to commit fly-tipping offences.

(iii) Introducing mandatory Site Waste Management Plans for construction and demolition projects above a certain value.

(iv) Funding the Environment Agency's targeted campaigns to disseminate good practice to businesses and raise awareness of good waste management practices.

(v) Delivering Flycapture Enforcement, a training programme aimed at local authority officers and their legal teams to increase knowledge of the relevant legislation and develop skills in effective enforcement and prosecution of fly-tippers.

(vi) Work with stakeholders to consider how the Flycapture database can be enhanced or improved to help local authorities implement fly-tipping interventions.

DEFRA has also funded Environmental Campaigns (Encams) to deliver a programme of work on local environmental quality and fly-tipping issues in partnership with Government Offices. This work will support the poorest performing local authorities in each region through a combination of data analysis, best practice sharing and targeted seminars. It will also promote the introduction of fly-tipping targets within local area agreements.

In addition, DEFRA funded the Jill Dando Institute of Crime Science to produce research on fly-tipping—"Fly-tipping: Causes, Incentives and Solutions". This included good practice guidance on crime prevention techniques, including surveillance, and has been distributed to all local authorities in England.

Inland Waterways: Freight

Jo Swinson: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he has taken to incorporate provision for water-borne freight into his Department's climate change agreements. [176094]

Mr. Woolas: It is very unlikely that climate change agreements (CCAs) would be relevant to the water-borne freight sector. CCAs provide for a reduction in the climate change levy (CCL) when operators meet challenging energy efficiency targets. However, CCL is not charged on every kind of fuel: it only applies to commodities specified in schedule 6 of the Finance Act 2000 as taxable commodities (including electricity, gas of a kind supplied by a gas utility, liquid petroleum gas and solid fuels). Furthermore, where a taxable commodity is used in a ship operating in international waters it may be

eligible for exemption from CCL. Also, in order to qualify, the operator would have to engage in an eligible process, which is defined as either a process regulated under part A of the Pollution Prevention and Control (England and Wales) Regulations 2000 or meet specific energy intensity criteria. Water-borne freight is unlikely to meet either of these criteria.

Nitrate Sensitive Areas

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of the effect upon residents and visitors in nitrate vulnerable zones of the proposals to ban slurry-spreading over winter. [176734]

Mr. Woolas: The partial regulatory impact assessment (RIA), published in support of the consultation on the implementation of the Nitrates Directive in England, provides details of my Department's assessment of the impact, in terms of costs and benefits, of all of the proposed amendments to Action Programme measures that apply in nitrate-vulnerable zones (NVZs) in England, and how this impact would vary depending on the extent of NVZ designation.

Renewable Energy

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate his Department has made of the contribution the UK will make by 2020 to the EU target of 20 per cent. of energy to be derived from renewable sources. [173744]

Malcolm Wicks *[holding answer 17 December 2007]:* I have been asked to reply.

On the basis of measures set out in the Energy White Paper, we expect approximately 5 per cent. of the UK's energy to come from renewable sources by 2020. Agreement has not yet been reached on the contribution that each member state will make toward the EU's 2020 target.

Reptiles: Imports

Mr. Morley: To ask the Secretary of State for Environment, Food and Rural Affairs if he will list imported reptiles by *(a)* wild caught, *(b)* captive bred and *(c)* ranched CITES listed categories imported into the EU in 2006. [172698]

Joan Ruddock: The number of:

(a) wild caught CITES listed reptiles imported into the EU in 2006 was 57,194;

(b) captive bred CITES listed reptiles imported into the EU in 2006 was 188,924;

(c) ranched CITES listed reptiles imported into the EU in 2006 was 68,764.

This leaves 95,059 reptiles from other sources of which by far the largest proportion was those where the World Conservation Monitoring Centre (WCMC) database shows no source code.

The UK does not hold records on imports of non-CITES species into the EU.

Sustainable Development: Heathrow Airport

Justine Greening: To ask the Secretary of State for Environment, Food and Rural Affairs whether *(a)* Ministers and *(b)* staff were invited to participate in the project for the sustainable development of Heathrow; whether they participated; and if he will make a statement. [176958]

Mr. Woolas: Both Ministers and officials in DEFRA engage regularly with colleagues at the Department for Transport on matters relating to Heathrow which affect DEFRA lead policy responsibilities: notably on air quality, noise and climate change impacts.

Thames and Severn Canal

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department is taking to help residents whose property has been affected by the proposed Thames and Severn canal scheme. [172703]

Mr. Woolas: This is a matter for the local authority (LA). LA development plan policies for this canal seek to protect its line while allowing for piecemeal restoration. There are no specific proposals for full restoration at present. Once a planning application has been made, local authorities have set procedures for handling individuals or businesses affected by it.

Waste Disposal: Finance

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs what his latest estimate is of the funding for the Business Resource Efficiency and Waste (BREW) programme in each of the next three financial years; what funding the BREW programme has had in 2007-08; and what funding was provided in each of the last two financial years. [173767]

Joan Ruddock: The Business Resource Efficiency and Waste (BREW) programme was set up to give £284 million additional landfill taxes back to business over three years (from April 2005 to March 2008) through funding for resource efficiency and waste projects. Funding allocated for each of the last three years is as follows:

	£ million
2005-06	33
2006-07	100.7
2007-08	125

Subsequent funding of the BREW programme will be subject to future spending decisions, which will be carefully balanced with other departmental priorities in tackling waste and climate change.

Waste Disposal: Greater London

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs how much the Business Resource Efficiency and Waste Programme's campaign on waste crime in London cost; how long the campaign lasted; how many incidents of fly-tipping

there were in each London borough targeted by the campaign in each month since 12 months before the campaign began; what the total cost of clean-up of fly tipping was in that period in each borough; what assessment he has made of the campaign's effectiveness; and whether he plans to extend the *(a)* duration and *(b)* geographic reach of the campaign. [173783]

Joan Ruddock: The campaign funded by the Business Resource Efficiency and Waste (BREW) programme is targeting waste crime across 16 local authorities in the South and East of London and North Kent. The campaign began in August 2006 and is due to close in December 2007 at a cost of £265,000.

The analysis of the campaign is currently taking place, including the impact on both the numbers of fly-tips recorded and the ongoing awareness of businesses to waste crime.

The BREW programme was set up to give £284 million additional landfill taxes back to business over three years (from April 2005 to March 2008) through funding for resource efficiency and waste projects. Future funding of the BREW programme will be subject to future spending decisions, which will be carefully balanced in line with departmental priorities.

I have arranged for the statistics requested to be placed in the Library of the House. The figures show the incident numbers and estimated clearance costs for each month from 12 months before the London and Kent BREW campaign started, until March 2007.

Incident numbers and clearance costs have been obtained from local authority entries to Flycapture, the national fly-tipping database. Clearance costs are estimates based on a national average cost assigned to each size of fly-tip.

Data for 2007-08 are not yet available.

Waste Management: Regional Development Agencies

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs whether he plans to bring forward proposals for regional development agency waste performance targets. [174311]

Joan Ruddock: The Government do not intend to set Regional Development Agencies (RDAs) detailed targets on waste performance. The Report of the Review of Sub-National Economic Development and Regeneration made clear that in future, RDAs will play a more strategic role within the regions. In meeting their overall objective of regional economic growth, they will be required to adhere to the cross-cutting principle of sustainable development, setting out in their Corporate Plans how they intend to apply this to all their business to achieve their growth objective.

Waste Management: Standards

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what the *(a)* targets for and *(b)* outputs of each organisation in the business resource efficiency and waste partnership were for (i) 2005-06 and (ii) 2006-07. [175406]

Joan Ruddock *[holding answer 18 December 2007]*: The Business Resource Efficiency and Waste Programme (BREW) was established in order to return £284 million of landfill tax back to business between 2005 and 2008. It provides this through a range of free advice and support aimed at increasing business resource efficiency and reducing the amounts of waste sent unnecessarily to landfill. While work is under way to plan for the goals in any future programme, there were no specific targets set for 2005-07.

The aggregated 2005-06 short-term outputs for the delivery bodies are shown in the following table. These show the impact of £18.5 million of the total £33 million funding for that year. Some savings will result from these interventions in future years, which are not counted here.

Metric	*In-year result*
Virgin raw material savings	682,000 tonnes
Carbon savings	320,000 tonnes of carbon dioxide
Water savings	5,630,000 cubic metres
Waste diverted from landfill	675,000 tonnes
Hazardous waste savings	120,000 tonnes
Cost savings to business	£88 million
Increased sales	£14.7 million

DEFRA has not yet released individual delivery body results for 2005-06. These include some selected long term results, which are not included in the table. Similarly, work is currently under way to verify BREW Programme results for 2006-07. I will deposit both sets of results in the House Library when they are available.

WORK AND PENSIONS

Occupational Pensions

14. **Ann Winterton:** To ask the Secretary of State for Work and Pensions what steps he is taking to provide further assistance to people who have lost their occupational pensions. [175879]

Mr. Mike O'Brien: My announcement of 17 December extended the FAS to guarantee members of qualifying schemes 90 per cent. of their accrued pension at the date of commencement of wind-up, revalued to their retirement date, but subject to a cap of £26,000 a year.

22. **Lynda Waltho:** To ask the Secretary of State for Work and Pensions what plans he has to increase access to occupational pensions for those on low incomes. [175887]

Lyn Brown: To ask the Secretary of State for Work and Pensions what plans he has to assist low income employees to gain access to occupational pensions. [175872]

Mr. Mike O'Brien: The Pensions Bill, having its Second Reading today, would introduce a new simple, low cost personal accounts pension scheme to give those currently without access to a good quality pension scheme—in particular, low to moderate earners—the opportunity to save.

Independent Living

16. **Tony Baldry:** To ask the Secretary of State for Work and Pensions what steps the Government are taking to assist disabled people to live independently. [175881]

Mrs. McGuire: The Government will shortly be publishing a five year cross-Government strategy for independent living. The strategy will set out a five year plan for making progress on the Government's aim that all disabled people (including older disabled people) should be able to live autonomous lives, and to have the same choice, freedom, dignity and control over their lives as non-disabled people.

Pensioners: East Anglia

17. **Mr. Bellingham:** To ask the Secretary of State for Work and Pensions when he next plans to meet pensioner groups from East Anglia to discuss payments of pensions and related benefits. [175882]

Mr. Mike O'Brien: In advance of introduction of the Pensions Bill we have been engaging with stakeholders to discuss pensions reforms, and continue to do so. Currently there are no plans to meet pensioner groups from East Anglia.

Financial Assistance Scheme

18. **Angela Watkinson:** To ask the Secretary of State for Work and Pensions what assessment he has made of the effectiveness of the Financial Assistance Scheme. [175883]

Mr. Mike O'Brien: A review was carried out this year by Mercers Human Resource Consulting which reported in August that the process of gathering data to operate the Financial Assistance Scheme (FAS) is fit for purpose and is managed in a satisfactory manner.

They also concluded that delays in obtaining high enough quality data are often caused by trustees' administrators and insurance firms rather than FAS operational unit processes. Regulatory changes agreed on 11 December will mitigate these delays.

Housing Benefit

19. **Mrs. Humble:** To ask the Secretary of State for Work and Pensions what steps his Department plans to take to improve the administration of housing benefit by local authorities. [175884]

Mr. Plaskitt: Administration has improved significantly. The average processing time on a new claim has dropped from 56 days four years ago, to 33 in 2006-07. The improvement is even more marked in what were previously the worst performing authorities.

We are continually taking steps to simplify the system to make it easier for local authorities to administer the scheme.

Barriers to Employment

20. **Ms Buck:** To ask the Secretary of State for Work and Pensions what assessment he has made of the barriers to employment facing families in temporary accommodation. [175885]

Mr. Plaskitt: Working on reducing barriers to employment is central to the Department's programme of welfare reform. In relation to those in temporary accommodation we support the intentions of the Working Futures pilot being carried out by the Greater London Authority and the East Thames Group.

We believe that the pilot will help inform future housing benefit policy, including our proposals for a new regime for temporary accommodation from April 2009.

Incapacity Benefits

21. **Robert Neill:** To ask the Secretary of State for Work and Pensions what recent estimate he has made of the number of long-term claimants of incapacity benefit. [175886]

Caroline Flint: In May 2007 the number of working age people claiming incapacity benefit for more than five years was 1.5 million.

Claimant numbers more than trebled between the late 1970s and mid 1990s but new claims to incapacity benefits have dropped by more than a third since the mid 1990s and the caseload is at its lowest for almost eight years.

Child Support Agency

23. **Derek Wyatt:** To ask the Secretary of State for Work and Pensions what progress has been made in replacing the Child Support Agency; and if he will make a statement. [175888]

Mr. Plaskitt: The first concrete steps have been taken in creating the Child Maintenance and Enforcement Commission with the appointment of the chair designate, Janet Paraskeva, which was announced on 15 November.

Subject to parliamentary approval, the Commission will become operational and take responsibility for the child maintenance system in 2008.

Provision for Retirement

24. **Mr. MacNeil:** To ask the Secretary of State for Work and Pensions what estimate he has made of the number of people not saving for retirement; and what steps his Department is taking in response. [175889]

Mr. Mike O'Brien: DWP estimates suggest that approximately 7,000,000 people are currently not saving enough to meet their retirement aspirations.

The Pensions Bill, having its Second Reading today, would introduce a requirement on all employers to automatically enrol workers who are eligible into a qualifying workplace pension scheme and to contribute to that scheme. Our estimates indicate this would result in between 6,000,000 and 9,000,000 people newly participating or saving more in workplace pensions.

Lone Parents

Chris Bryant: To ask the Secretary of State for Work and Pensions what steps his Department has taken to support lone parents in finding work; and what plans he has for further assistance. [175878]

Caroline Flint: The New Deal for lone parents has supported over half a million people into work.

Our recent document "Ready for Work" sets out how we will expect more lone parents with school age children to actively find work along with a package of measures to provide lone parents with the skills, confidence and financial support to both find and stay in work.

Voluntary Organisations

Mr. Hollobone: To ask the Secretary of State for Work and Pensions what assessment he has made of the role played by voluntary organisations in securing benefits for individuals. [175890]

Caroline Flint: Intermediaries play a valuable role in helping some of our customers to claim benefits, whether by providing them with advice or information, helping them complete claim forms, helping them communicate with us, or advocating on their behalf.

Pensions: Financial Assistance Scheme

Jenny Willott: To ask the Secretary of State for Work and Pensions when his Department plans to publish the final report on the Financial Assistance Scheme: Review of Assets; and if he will make a statement. [175519]

Mr. Mike O'Brien: I refer the hon. Member to the statement I made to the House on 17 December 2007.

PRIME MINISTER

Departmental Labour Turnover

Mr. Philip Hammond: To ask the Prime Minister what the percentage turnover of staff was in his Office in *(a)* the last 12-month period and *(b)* the last 24-month period for which figures are available. [169026]

The Prime Minister: I refer the hon. Member to the answer given to him by my hon. Friend the Parliamentary Secretary to the Cabinet Office (Gillian Merron) on 5 December 2007, *Official Report*, column 1343W.

Departmental Manpower

Mr. Harper: To ask the Prime Minister how many staff work in his Office's parliamentary branch; and what proportion of their time is spent on dealing with *(a)* Parliamentary Questions and *(b)* correspondence from hon. Members and Peers. [174967]

The Prime Minister: There are currently three people in my parliamentary team. They deal with all my parliamentary business, including correspondence and questions from hon. Members and peers.

Departmental Procurement

Mr. Philip Hammond: To ask the Prime Minister whether the standard terms and conditions of purchase used by his Office in the procurement of goods and services from the private sector prohibit the assignment of debt. [172432]

The Prime Minister: I refer the hon. Member to the answer given to him by my hon. Friend the Parliamentary Secretary to the Cabinet Office (Gillian Merron) today.

Departmental Secondment

Mrs. May: To ask the Prime Minister how many secondments of staff were made *(a)* to and *(b)* from his Office in each year since 1997; which organisations' staff were seconded (i) to and (ii) from; how many staff were seconded in each year; for how long each secondment lasted; and what the cost was of each secondment in each year. [167237]

The Prime Minister: I refer the hon. Member to the answer given to him by my hon. Friend the Parliamentary Secretary to the Cabinet Office (Gillian Merron) on 5 December 2007, *Official Report*, column 1343W.

Local Government

Mr. Pickles: To ask the Prime Minister whether he has had meetings in the last 30 days with *(a)* the Secretary of State for Communities and Local Government and *(b)* the Boundary Committee to discuss local government restructuring in (i) Ipswich and (ii) across the rest of England. [176500]

The Prime Minister: I have regular meetings and discussions with ministerial colleagues and others on a wide range of subjects.

Ministers: National Lottery

Mr. Hunt: To ask the Prime Minister how many complaints there have been of breaches of section 4.8 of the Ministerial Code of Practice, on ministerial support for National Lottery bids, in the last 12 months. [175993]

The Prime Minister: A revised "Ministerial Code" was published on 3 July 2007, copies of which are in the Libraries of the House. Guidance on ministerial support for individual applications for lottery funding is set out in section 6 of the Code. Section 1 sets out the process for handling alleged breaches of the "Ministerial Code".

OLYMPICS

Olympic Games 2012

Mr. Dodds: To ask the Minister for the Olympics what assessment she has made of the likely impact of the 2012 Olympic Games on UK economic growth over the next five years; and if she will make a statement. [174908]

Tessa Jowell: We expect that the 2012 games will have a positive impact on UK economic growth over the next five years.

The 2012 games provide a wide range of opportunities for business growth across the UK, both in terms of direct games related contracts, but also in terms of delivering fitter more innovative businesses able to compete for wider procurement opportunities. Economic growth will also be boosted by the job creation arising from the games, strategies to drive up the skills base, not just in East London but across the UK, and a reduction in worklessness. The games also provide an opportunity to increase inward investment into the UK. Our aim is to ensure these benefits will be spread around the whole of the UK, not concentrated in London.

The forthcoming Legacy Action Plan will set out the programmes that are being developed to boost the contribution of the games to the UK economic growth rate.

Mr. Dodds: To ask the Minister for the Olympics what levels of EU funding will be available in relation to the 2012 Olympics. [174911]

Tessa Jowell: The £9.325 million public sector funding provision for the Olympics announced on 15 March 2007, further details of which I gave in my statement on 10 December, does not include any funding from the EU.

Olympic Games 2012: Finance

Hugh Robertson: To ask the Minister for the Olympics what recent assessment she has made of the adequacy of the existing contingency fund within the Olympic budget; and if she will make a statement. [174021]

Tessa Jowell *[holding answer 13 December 2007]:* I refer the hon. Member to my written statement of 10 December 2007, *Official Report*, column 9WS; and also to the response I provided to the hon. Member for Maldon and East Chelmsford (Mr. Whittingdale) on 10 December 2007, *Official Report*, column 19.

As I said in my written statement,

"the programme-wide risks, and other risks outside the ODA's control, have been assessed and quantified and the contingency available has been confirmed as sufficient to cover such risks."

Olympic Review Group

Mr. Hoban: To ask the Minister for the Olympics (1) what the date was of each meeting of the Cost Review Group at which updates to financial estimates were made after 25 April 2006; [173737]

(2) what the date was of each meeting of the Cost Review Group at which updates to financial estimates were made before 26 January 2006. [173740]

Tessa Jowell: I refer the hon. Member to my answer to him of 14 June 2007, *Official Report*, column 1178W; which clarifies the dates of the meetings of the Cost Review Group, which were held between 26 January and 25 April 2006.

Mr. Hoban: To ask the Minister for the Olympics (1) in what form financial estimates were presented to the meeting of the Cost Review Group of *(a)* 26 January and *(b)* 25 April 2006; [173738]

(2) what material was used at the meetings of the Cost Review Groups of 26 January 2006 and 25 April 2006 to discuss financial estimates; [173741]

(3) if she will place copies in the Library of the written financial estimates presented to the meetings of the Cost Review Group of 26 January 2006 and 25 April 2006. [173743]

Tessa Jowell: Meetings of the Cost Review Group were held between 26 January 2006 and 25 April 2006. Throughout this period, the group considered financial estimates in the form of oral presentations and updates. There were no formal papers tabled but oral presentations were delivered using written notes and material to support agenda discussions.

The Cost Review Group presented the savings they identified in the form of oral presentations and updates to financial estimates. The savings identified were incorporated into the Olympic Park Masterplan announced on 7 June 2006, and continuing work on the development of the funding package which I announced to the House on 15 March.

Mr. Hoban: To ask the Minister for the Olympics what records have been retained of the meetings of the Cost Review Groups of 26 January 2006 and 25 April 2006. [173739]

Tessa Jowell: Agendas for the Cost Review Group meetings of 26 January 2006 and 25 April 2006 are available in the House Library.

Minutes taken of the Cost Review Group meetings of 26 January 2006 and 25 April 2006 have been retained. These will not be placed in the House Library as they are being used to inform the development of our ongoing policy for managing the Olympic project.

INNOVATION, UNIVERSITIES AND SKILLS

Apprentices: Construction

Mr. Spellar: To ask the Secretary of State for Innovation, Universities and Skills how many apprentices were registered in each construction trade in the last year for which figures are available. [170202]

Mr. Lammy: Apprentice numbers have been published today by the Learning and Skills Council (LSC) in the Statistical First Release Further

Education, Work Based Learning, Train to Gain and Adult and Community Learning—Learner Numbers in England—2006/07.

We will provide a response on the number of apprentices in each construction trade in the new year when data will be available for the further analysis required.

Sign Language: Education

Mr. Jenkin: To ask the Secretary of State for Innovation, Universities and Skills how many *(a)* lip reading and *(b)* sign language courses are offered by each local authority in England; and what the average cost is for participants. [175547]

Mr. Lammy: The information requested is not readily available and can be provided only at a disproportionate cost.

Students: Engineering

Mr. Jenkins: To ask the Secretary of State for Innovation, Universities and Skills how many and what percentage of people who took up engineering courses were *(a)* male and *(b)* female in each of the last 10 years. [173257]

Bill Rammell: The latest available information is given in the table. Figures for 2006/07 will be available in January 2008.

A new classification for recording subject of study was introduced in 2002/03 and so figures from 2002/03 onwards are not comparable to earlier years.

Latest figures from the Universities and Colleges Admissions Service (UCAS) show that the number of accepted applicants to undergraduate engineering courses in 2007/08 has risen by 4 per cent. following the fall in 2006/07, and is now near to the level of 2005/06.

Entrants to engineering and technology undergraduate courses, by gender, English higher education institutions[1], academic years 1996/97 to 2005/06

	Number			Of which	
Academic year	*Female*	*Male*	*Total*	*Female (%)*	*Male (%)*
1996/97	4,565	29,245	33,810	13.5	86.5
1997/98	4,525	29,725	34,250	13.2	86.8
1998/99	4,330	27,805	32,135	13.5	86.5
1999/2000[2]	4,445	26,070	30,520	14.6	85.4
2000/01	4,605	25,345	29,950	15.4	84.6
2001/02	4,180	25,605	29,785	14.0	86.0
2002/03[2]	4,055	23,870	27,930	14.5	85.5
2003/04	4,095	22,615	26,715	15.3	84.7
2004/05	4,235	24,400	28,635	14.8	85.2
2005/06	4,275	24,435	28,710	14.9	85.1

[1] Students from the Open university are excluded from the analysis.
[2] In 2002/03 the methodology for recording subject of study was changed on the student record. Aside from the introduction of a new coding frame, JACS (previously a system called HESACODE was used), students were apportioned between their subjects of study rather than being assigned on a headcount basis to their major subject. As such, comparisons between figures for 2001/02 and earlier and for 2002/03 onwards cannot be made.

Notes:
1. Figures are on a snapshot basis as at 1 December excluding those writing up, on sabbatical or dormant.
2. Figures are rounded to the nearest 5.

Source:
Higher Education Statistics Agency (HESA) student record.

Students: Grants

Mr. Allen: To ask the Secretary of State for Innovation, Universities and Skills (1) with reference to his written statement of 11 October 2007, *Official Report*, column 39WS, on higher education students' loans, grants and fees, if he will list the 100 constituencies which have the highest number of eligible students entitled to a *(a)* full maintenance grant and *(b)* partial maintenance grant; and if he will make a statement; [166624]

(2) which 20 constituencies have the *(a)* largest proportion of families who qualify for a full university grant, *(b)* largest (i) proportion and (ii) number of families qualifying for a full or partial university grant and *(c)* lowest proportion of young people attending university. [167155]

Bill Rammell: Question 166624 refers to the higher education maintenance grant, which will be worth up to £2,835 in academic year 2008-09. Information on the numbers of students in each parliamentary constituency who will be eligible for a full or partial grant in 2008-09 is not available. However, information on grants in 2006-07 show which areas have higher proportions of students receiving full and partial grants. The available data on grants at local authority level are given in the following table; this information is not available at constituency level. The family income threshold for full maintenance grant of £2,700 in 2006-07 was £17,500, with a partial grant available to students with a family income of up to £37,425. In 2008-09 the thresholds will be raised to £25,000 for a full grant and £60,005 for a partial grant. This very large increase in the thresholds mean that 2006-07 figures can not be used as an indication of 2008-09 full and partial grant proportions.

The main measure for tracking progress on increasing participation is currently the Higher Education Initial Participation Rate (HEIPR). This is the sum of the HE initial participation rates for individual ages between 17 and 30 inclusive. The

latest available figure is 42.8 per cent. for 2005-06. The 2005-06 figure for the young 17-20 age group is 34.0 per cent. The HEIPR is not disaggregated below national level.

UK Centre for Medical Research and Innovation

Mrs. Villiers: To ask the Secretary of State for Innovation, Universities and Skills (1) if he will place in the Library copies of the contracts relating to the sale of the British Library site on which it is proposed to establish the UK Centre for Medical Research and Innovation; [174371]

(2) what the value is of the British Library site on which it is proposed to establish the UK Centre for Medical Research and Innovation. [174372]

Ian Pearson: The UKCMRI consortium have acquired Brill Place as the site for the proposed centre for £85 million through a competitive exercise run by the Department for Culture, Media and Sport. The contracts for the sale of the land to the consortium are being finalised between the parties. I will not be able to place copies of the contracts in the Libraries as they will be commercial in confidence between parties.

Vocational Training: Complaints

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills how many formal complaints have been received by his Department about skills brokers. [174369]

Mr. Lammy: No formal complaints have been received by this Department about skills brokers. Employer satisfaction with brokerage remains high with 86 per cent. of employers being very satisfied with the service they received.

DUCHY OF LANCASTER

Catering

Mr. Pickles: To ask the Chancellor of the Duchy of Lancaster what the expenditure by the Deputy Prime Minister's Office on food and drink was in 2006-07. [176508]

Gillian Merron: In financial year 2006-07 expenditure by the Deputy Prime Minister's Office on food and drink was £6,984.94.

All DPMO expenditure on official hospitality was made in accordance with published departmental guidance on financial procedures and propriety, based on principles set out in "Government Accounting" and the Treasury handbook on "Regularity and Propriety".

Communication: Finance

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster what the annual Number 10 digital communications budget is, broken down by main headings. [173193]

Gillian Merron: I refer the hon. Member to the answer given by the Prime Minister to the hon. Member for Lewes (Norman Baker) on 17 October, 2007 *Official Report*, columns 1134-35W.

Departmental Procurement

Mr. Philip Hammond: To ask the Chancellor of the Duchy of Lancaster whether the standard terms and conditions of purchase used by his Department in procurement of goods and services from the private sector prohibits the assignment of debt. [172351]

Gillian Merron: The Cabinet Office's standard terms and conditions are based on the model terms and conditions issued by the Office of Government Commerce for contracting authorities in central civil Government. Although these do not specifically prohibit the assignment of debt, they do require the contractor to obtain Cabinet Office prior approval to assign debt.

Departmental Public Expenditure

Mr. Letwin: To ask the Chancellor of the Duchy of Lancaster pursuant to the Winter Supplementary Estimates (HC 29), if he will break down his Department's (*a*) main estimate and (*b*) winter supplementary estimate provision by subhead in (i) near cash and (ii) non-cash terms. [174996]

Gillian Merron: The Department's estimate provision in "Part II: Subhead detail" is broken down as follows:

(*a*) *Main estimate*

(*i*) *Near cash*

£219.882 million near cash is included in Cabinet Office administration resource provision of £264.636 million at row A, column 1.

£4.422 million near cash is included in Office of the Third Sector resource provision of £4.518 million at row B, column 1.

£0.869 million near cash is included in Social Exclusion Task Force resource provision of £0.880 million at row C, column 1.

Amounts in all other columns reported in "Part II: Sub head detail" are near cash.

(*ii*) *Non-Cash*

Total non-cash of £44.861 million is reported as follows:

£44.754 million non-cash is included in Cabinet Office administration resource provision at row A, column 1.

£0.096 million non-cash is included in Office of the Third Sector resource provision at row B, column 1.

£0.011 million non-cash is included in Social Exclusion Task Force resource provision at row C, column 1.

There are no non-cash amounts reported on all other rows and columns in "Part II-Subhead detail".

(*b*) *Winter Supplementary Estimate*

(*i*) *Near Cash*

£202.342 million near cash is included in Cabinet Office administration resource provision of £247.350 million at row A, column 1.

£3.658 million near cash is included in Office of the Third Sector resource provision of £3.754 million at row B, column 1.

£0.869 million near cash is included in Social Exclusion Task Force resource provision of £0.880 million at row C, column 1.

Amounts in all other columns reported in "Part II: Subhead detail" are near cash.

(*ii*) *Non-Cash*

Total non-cash of £45.115 million is reported as follows:

£45.008 million non-cash is included in Cabinet Office administration resource provision at row A, column 1.

£0.096 million non-cash is included in Office of the Third Sector resource provisiqn at row B, column 1.

£0.011 million non-cash is included in Social Exclusion Task Force resource provision at row C, column 1.

There are no non-cash amounts reported on all other rows and columns in "Part II: Subhead detail".

Departmental Publicity

Mr. Philip Hammond: To ask the Chancellor of the Duchy of Lancaster how much his Department and its agencies spent on managing their corporate identities in the last 12 month period for which figures are available. [167354]

Gillian Merron: In the period from 1 November 2006 to 31 October 2007 the Cabinet Office spent an estimated £52,000 on developing and implementing a more cohesive corporate identity, following changes to the Department's remit and the findings of its capability review. This figure includes the cost of sub-brands for the Office of the Third Sector and the Social Exclusion Taskforce, both of which joined Cabinet Office during 2006.

Departmental Recycling

Mr. Pickles: To ask the Chancellor of the Duchy of Lancaster what recycling scheme is in operation in each building operated by the Cabinet Office. [176513]

Gillian Merron: Recycling facilities are provided in our central London offices for the disposal of paper, cardboard, cans, tins, rigid plastic containers and batteries. An aerosol recycling bin is provided in the staff gym. Glass, CDs and DVDs, mobile phones, fluorescent tubes, toner cartridges and furniture are collected and held in secure locations before being sent for recycling. Waste cooking oil is supplied to the bio-diesel market or for technical use. We have installed wormeries in those buildings where we have restaurants to allow us to compost some food waste. Similar recycling schemes are in operation at our Basingstoke and York offices.

Licensing

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster which buildings for which his Department is responsible have premises licences under the Licensing Act 2003. [175167]

Gillian Merron: The Cabinet Office has a premises licence for the Emergency Planning college.

Minimum Wage

Jon Trickett: To ask the Chancellor of the Duchy of Lancaster how many London-based staff are employed by his Department on the national minimum wage? [175976]

Gillian Merron: As at 31 November 2007 the Cabinet Office had no London-based staff on the minimum wage.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan

Dr. Fox: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the statement by the Prime Minister of 12 December 2007, *Official Report*, column 304, on Afghanistan, what plans his Department has to recruit and deploy specialists who speak Afghan languages and understand tribal dynamics. [175461]

Dr. Howells: Officials are examining a variety of options for recruiting and deploying such specialists, particularly in support of the government of Afghanistan's work on reconciliation.

Dr. Fox: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the statement by the Prime Minister of 12 December 2007, *Official Report*, column 304, on Afghanistan, how many of his Department's personnel serve in the collocated headquarters. [175465]

Mr. Jim Murphy: The UK employs a broad range of staff in support of the government of Afghanistan to help develop a stable and secure Afghanistan. Over 100 civilian staff in Kabul and over 30 staff in the southern provinces of Helmand and Kandahar are employed from across the Government, including the Foreign and Commonwealth Office, Department for International Development and the Afghanistan Drugs Inter-Departmental Unit. Their roles include work in governance, reconstruction and development, and counter narcotics. The work of Task Force Helmand and of the Provincial Reconstruction Team in Lashkar Gah are co-ordinated through the combined civil-military Helmand Executive Group.

Afghanistan: Frontiers

Dr. Fox: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the United Kingdom recognises the 1893 Durand Line as the international border between Afghanistan and Pakistan; and if he will make a statement. [175450]

Dr. Howells *[holding answer 7 January 2008]*: We regard the treaties establishing the Durand Line as an international border as valid. However, it has a complicated history and there are sensitivities in the region surrounding its status. It is therefore for the sovereign parties concerned to determine their territorial border and any related disputes.

Chernobyl: Children

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent *(a)* discussions he has held with and *(b)* representations he has received from (i) ministerial colleagues, (ii) the Belarus ambassador and (iii) charities on Chernobyl-affected children being able to enter the UK; and if he will make a statement. [174198]

Dr. Howells: We appreciate the important work being undertaken by United Kingdom charities to provide respite care and medical treatment for children affected by the Chernobyl disaster. We have held no recent discussions with the Belarus ambassador to London in respect of Chernobyl children. We have, however, recently received correspondence from hon. Members and Peers, from the Belarus ambassador to London, and from charities concerning the visa processes for visits to the United Kingdom by Chernobyl-affected children. UKvisas continues to work with the Chernobyl charities with regard to the visa procedures and the collection of biometrics from visa applicants.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs how many Chernobyl-affected children received visas to visit the UK in 2007 *(a)* prior to 31 August and *(b)* since 1 September; what his assessment is of the reasons for any difference; and if he will make a statement. [174199]

Mr. Jim Murphy: 3,167 gratis visas were issued to Chernobyl-affected children prior to 31 August 2007, while 111 visas have been issued in the subsequent period to 13 December 2007. The autumn is, historically, a slow period for such applications, 292 such visas being issued in the final four months of 2006. The Chernobyl charities advise that the Christmas holiday period is a busy period and UKvisas anticipated an upsurge in applications at this time. Application rates during this period may have been further affected by the collection of biometric data in Minsk. Furthermore, one charity was, temporarily, asked not to submit applications while investigations concerning one of its former hosts were ongoing. This charity has now been advised that it may resume submission of such applications.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has held with *(a)* the Belarus ambassador to London and *(b)* directly with the Belarus Government on the establishment of a seasonal visa application centre in Gomel Oblast, Belarus. [174200]

Dr. Howells: We have held no recent discussions with the Belarus ambassador to London in respect of Chernobyl children. It was intended that a seasonal biometrics collection facility in Gomel Oblast specifically for children wishing to come to the UK for respite care would be offered. This would have been in addition to the service offered in our embassy in Minsk. However, the Government of Belarus would not allow the delivery of this visa service, including the collection of biometrics, through our commercial partnerships in the country and the embassy was compelled to adjust its plans. Correspondence with the Belarus embassy in London is ongoing. Given the lack of agreement with the Belarus authorities in respect to our commercial partnerships in Belarus, it has now been agreed that a seasonal mobile biometrics data collection service will operate on a pilot basis outside Minsk in the summer of 2008 for children in need of recuperative holidays. The pilot will involve the use of mobile biometric collection equipment in one or more regional locations between April and July. UKvisas are prepared to receive applications in Kiev, in Ukraine, where that proves to be more convenient.

Mr. Goodwill: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received from *(a)* charities and *(b)* others on the effects of changes to visa arrangements and charges on numbers of children able to visit the UK from the Chernobyl-affected parts of Belarus. [174576]

Dr. Howells: We appreciate the important work being undertaken by United Kingdom charities to provide respite care and medical treatment for children affected by the Chernobyl disaster. We have recently received correspondence from hon. Members and Peers, from the Belarus ambassador to London, and from charities, concerning the visa processes for visits to the United Kingdom by Chernobyl-affected children. UKvisas continues to work with the Chernobyl charities with regard to the visa procedures and the collection of biometrics from visa applicants. Up to 4,000 visas a year are issued to children travelling to the United Kingdom from Belarus under the auspices of the Chernobyl charities and these visas are all issued gratis. There are no plans to change this arrangement

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs with reference to the answer of 19 October 2007, *Official Report*, columns 1375-76W, on Chernobyl: children, at what level in Belarus the UK Government application was made; and how that refusal was conveyed. [174643]

Dr. Howells: The Deputy Head of Mission, Entry Clearance Officer and Regional Deputy Director of Visa Services at our embassy in Minsk held a meeting in June 2007 with the Deputy Head of the Consular Department and other officials of the Belarusian Ministry of Foreign Affairs (MFA). The embassy asked whether they could open Visa Application Centres (VACs) operated by their commercial partner in Belarus. The MFA said that if the embassy did open such premises they would be subject to frequent searches and/or closures by the Belarus authorities. The embassy therefore considered that they would not be able to protect the data of visa customers satisfactorily and decided not to open VACs in Belarus.

Given the lack of agreement with the Belarus authorities in respect of our commercial partner in Belarus, UKvisas and our embassy in Minsk have now agreed to invest additional resources in a seasonal mobile biometric pilot project in the summer of 2008 for Chernobyl children in need of recuperative holidays. The pilot will involve visits by embassy officials, with a mobile biometric kit, to the region where the largest number of such children live. UKvisas are also prepared to receive applications in Kiev, in Ukraine, where that proves to be more convenient.

Cyprus: Diplomatic Relations

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs what the duties and responsibilities are of the Government's Special Representative to Cyprus, the hon. Member for Enfield North. [171122]

Mr. Jim Murphy: My right hon. Friend the Member for Enfield, North (Joan Ryan), the UK's special representative to Cyprus, is responsible for developing and strengthening links between the Government and the British Cypriot community. Her role is to work with the Cypriot diaspora and explore how they can help to promote a settlement in Cyprus. She acts as an additional channel of communication between British Cypriots and Ministers, and maintains strong links with senior figures within Cyprus involved in issues such as the UN process and the UK/Cyprus bilateral relationship. In this capacity, and following her first official visit in October, she will visit Cyprus occasionally to reinforce these contacts and deepen further her knowledge of all relevant issues.

Defence: Private Sector

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will place in the Library a copy of the regulatory impact assessment carried out by his Department pursuant to the February 2002 Green Paper on Private Military Companies. [173686]

David Miliband: When the Government have reached a decision on the regulation of private military and security companies, the impact assessment will be published as part of any public consultation process. Copies will be made available in the Library of the House.

Departmental Pay

Mr. Philip Hammond: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department and its agencies spent on end-of-year bonus payments in each of the last five years. [171541]

Meg Munn: The Foreign and Commonwealth Office (FCO) paid the following amounts in bonuses to staff in the last five years.

	Total bonus payments (£)
2007	6,553,288
2006	5,989,100
2005	5,705,800
2004	5,567,100
2003	4,027,100

The FCO uses non-consolidated, non-pensionable, performance-related bonuses to encourage high performance. We pay annual bonuses to staff in the delegated grades (all except senior managers) based on appraisal evidence of annual performance. The highest individual bonus for these grades is £1,850 in 2007.

Bonus arrangements for staff in the senior management structure (SMS/senior civil service equivalent) follow a framework set for Whitehall Departments by the Cabinet Office. We use SMS bonuses to reward excellent performance and achievement during the year. The bonuses are based on a judgment by pay committees of what an individual has achieved in comparison with peers. Those who have delivered the best results, and shown real leadership in doing so, receive the biggest bonuses. Those who have delivered least receive nothing. Whitehall Departments were authorised to spend a sum equivalent to 7.6 per cent. of their SMS pay budget on non-consolidated bonuses for senior staff in 2007.

Diplomatic Service

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what changes have been made in the geographic distribution of British diplomatic posts overseas in the last 10 years; what policy objectives these changes reflect; and if he will make a statement. [174793]

David Miliband: The following changes have been made in the geographic distribution of British diplomatic posts, including embassies, high commissions, consulate-generals and consulates overseas in the last 10 years.

Americas: a net reduction of 12 posts (includes two posts due to shut in 2007-08);

Europe: a net reduction of three posts;

Asia and Pacific: a net reduction of four posts;

Africa: a net reduction of four posts;

Middle East and North Africa (including Iraq): a net gain of two posts;

Russia, South Caucasus and Central Asia: a net gain of two posts; and

South Asia and Afghanistan: a net gain of one post.

This answer does not include offices of lesser status such as trade offices, British commercial offices and business information centres.

Embassies

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 10 December 2007, *Official Report*, column 159W, on embassies, which countries no longer have a resident British Ambassador, Consul General or High Commissioner. [174843]

David Miliband: There is no resident British diplomatic representation in American Samoa, Andorra, Antigua and Barbuda, Bahamas, Benin, Burkina Faso, Burundi, Cape Verde, Central African Republic, Chad, Comoros, Congo (Republic of the), Djibouti, Dominica, East Timor, El Salvador, Equatorial Guinea, Gabon, Grenada, Guinea-Bissau, Honduras, Kiribati, Kyrgyzstan, Laos, Lesotho, Liberia, Liechtenstein, Madagascar, Maldives, Mali, Marshall Islands, Mauritania, Micronesia (Federated States of), Monaco, Nauru, Nicaragua, Niger, Palau, Paraguay, Saint Kitts and Nevis, Saint Vincent and the Grenadines, San Marino, Sao Tome and Principe, Somalia, Suriname, Swaziland, Togo, Tonga, Tuvalu and Vanuatu. Posts in Côte d'Ivoire and Haiti are temporarily closed for security reasons.

In countries where there is no British resident presence, an accredited ambassador resident in a neighbouring country represents the UK.

EU-Africa Lisbon Summit

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what waiving of EU sanctions was required in order to permit the attendance of a Zimbabwean delegation, including President Mugabe, at the EU-AU Summit in Lisbon; and if he will make a statement. [174180]

David Miliband: Article 4(5) of the EU Common Position (2004/161/Common Foreign and Security Policy) stipulates that an exemption to the restrictions on any one of the 131 persons on the EU visa ban list preventing them from travelling to the EU can be made when the meeting they attend is intergovernmental and includes a political dialogue that directly promotes democracy, human rights and the rule of law in Zimbabwe. The EU Africa summit in Lisbon included such a discussion.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what formal discussions of the human rights situation in Zimbabwe took place during the EU-AU summit in Lisbon; and what conclusions were reached. [174181]

David Miliband: Several discussions on the human rights situation in Zimbabwe were held during the EU/Africa summit. My noble Friend the right hon. Baroness Amos raised Zimbabwe and the appalling human rights situation caused by President Mugabe during her intervention on behalf of the UK. Other EU member states (Germany, the Netherlands, Denmark and Sweden) also raised the issue, specifically criticising the human rights situation in Zimbabwe. As high representative for the EU's Common Foreign and Security Policy, Javier Solana delivered a statement on behalf of the EU underlining member states' collective concern at the deteriorating human rights situation and condemning all acts of violent repression.

European Gendarmerie Force

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to raise at the European Council with colleagues from member states contributing to the European Gendarmerie Force the prospects for its future deployment; and if he will make a statement. [174807]

Mr. Jim Murphy: The European Gendarmerie Force (EGF) is not an EU proposal or agency. The primary purpose of the EGF is to assist in crisis management operations in post-conflict situations. The UK does not have a Gendarmerie style paramilitary police force and therefore does not participate in the EGF.

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will raise with colleagues at the European Council the conditions that will be applied to any use of the European Gendarmerie Force if placed at the disposal of the European Union, in relation to its *(a)* uniforms and emblems, *(b)* recruitment, *(c)* training and *(d)* weaponry; and if he will make a statement. [174808]

Mr. Jim Murphy: The primary purpose of the European Gendarmerie Force (EGF) is to assist in crisis management operations in post-conflict situations. The UK does not have a Gendarmerie style paramilitary police force and therefore does not participate in the EGF.

The EGF is not an EU proposal or agency. While it may be put at the disposal of the EU, it has been established outside of EU structures, and may equally be made available to the North Atlantic Treaty Organisation, the UN, the Organisation for Security and Co-operation in Europe, and other international organisations or an ad hoc coalition. It would be for each respective organisation or coalition and the requesting state to determine which conditions, if any, they thought most appropriate for the requested mission.

In addition, Article 16 of the Treaty Establishing the EGF states:

1. EUROGENDFOR Personnel shall wear their uniform in accordance with their respective national rules. The EGF Commander may establish specific procedures where appropriate.

2. EUROGENDFOR Personnel may possess, carry and transport arms, ammunitions, other weapon systems and explosives on the conditions that they are authorised to do so by their orders and that they do so in accordance with the laws of the Host State and the Receiving State.

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to those governments contributing to the European Gendarmerie Force that it should not be deployed on the territory of another member state of the European Union. [174809]

Mr. Jim Murphy: The European Gendarmerie Force (EGF) is not an EU proposal or agency. The primary purpose of the EGF is to assist in crisis management operations in post-conflict situations and it is therefore extremely unlikely to deploy in an EU country. Deployment of the force is a matter between the governments contributing to the EGF and the requesting state in need of assistance.

The UK does not have a Gendarmerie style paramilitary police force and therefore does not participate in the EGF.

Iran: Nuclear Power

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs when the next report of the Director-General on Iran's co-operation under the August 2007 Work Plan is due; and if he will make a statement. [174176]

David Miliband: We expect that the next report from the Director-General of the International Atomic Energy Agency (IAEA), Dr. Mohammed El Baradei, on Iran's co-operation with the agency under the Work Plan, will be released before the IAEA board in March 2008.

If Iran implements the Work Plan in full, it will be a step towards restoring trust in Iran's nuclear intentions. But addressing the outstanding issues is only one of the steps the international community requires Iran to take in order to restore confidence in its intentions. Iran needs to suspend enrichment, enrichment-related and reprocessing activities, as requested by the IAEA Board of Governors and required by UN Security Council Resolutions 1696, 1737, and 1747. Iran also needs to implement fully the additional protocol and additional measures that the IAEA has requested. Until Iran meets these obligations we will continue to follow the dual track strategy agreed with our partners in the "E3+3" (China, France, Germany, Russia and the United States), and to discuss further measures aimed at persuading Iran to fulfil all its international obligations.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the proliferation risk posed by Iran's heavy water nuclear research reactor at Arak; and when the reactor is expected to be operational. [174178]

David Miliband: We are concerned about the proliferation risk that would be posed if Iran completes construction of a heavy water reactor. This type of reactor is particularly well suited for producing plutonium, which could be reprocessed and used in a nuclear weapon. This is reflected by the demands in UN Security Council resolutions 1737 and 1747, which require that Iran suspends work on heavy water-related projects, including the construction of a research reactor moderated by heavy water. The International Atomic Energy Agency (IAEA) has repeatedly reported that construction of the reactor has nevertheless been continuing. The February 2006 IAEA Director-General's report noted the Iranians saying that the commissioning date for the reactor was likely to be postponed until 2011.

Iraq: Documents

Mr. Baron: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the differences between the draft Iraq dossier written by Mr. John Williams dated 9 September 2002 and Mr. John Scarlett's draft of 10 September 2002. [175522]

Dr. Howells *[holding answer 7 January 2008]:* As I told the House on 13 June 2007, *Official Report*, column 293WH, John Williams' draft was his personal attempt to explain the threat which Saddam Hussein and his regime posed. It was not specifically commissioned as part of the formal drafting process and was not used as the basis for the dossier the Government subsequently published.

Mr. Baron: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 26 July 2007, *Official Report*, columns 1470-1W, on Iraq: documents, whether the copy of the draft sent to Lord Hutton's inquiry was redacted. [175520]

Dr. Howells *[holding answer 7 January 2008]:* The copy of the John Williams draft sent to the Hutton inquiry was not redacted.

Mr. Baron: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 26 July 2007, *Official Report*, columns 1470-1W, on Iraq: documents, whether the Government requested the Hutton inquiry not to publish *(a)* all or *(b)* part of the draft Iraq dossier. [175521]

Dr. Howells *[holding answer 7 January 2008]*: As I told the House on 13 June 2007, *Official Report*, column 296WH, all decisions on which documents were published on the Hutton inquiry website were taken by Lord Hutton.

Languages

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs how many staff in his Department received language training in each of the last 10 years; and if he will make a statement. [172534]

David Miliband: At present the Foreign and Commonwealth Office has around 900 overseas jobs requiring specific levels of language skills, although this number will fluctuate to reflect business need. These posts will be filled by officers undergoing new training or using existing skills.

The level of language training has remained broadly constant over the past 10 years, at between 250 and 400 officers per year. This reflects the needs of the business at any one time and the availability of staff who already speak the relevant languages (e.g. at recruitment level, or from previous postings). The numbers of staff receiving full-time language training in the last three years was:

	Staff
2006-07	252
2005-06	386
2004-05	405

To provide specific information on how many staff have been trained in previous years would incur disproportionate cost.

Lisbon Treaty

Mr. Jenkin: To ask the Secretary of State for Foreign and Commonwealth Affairs when he proposes to deposit the UK's instruments of ratification of the Lisbon Treaty with the relevant body. [175586]

Mr. Jim Murphy *[holding answer 7 January 2008]*: The Government introduced a Bill to give effect to the EU Reform Treaty in UK law on 17 December.

As my right hon. Friend the Prime Minister said in his Post European Council statement of 17 December 2007, *Official Report*, column 598:

"We will ensure that there is sufficient time for debate on the Floor of the House, so that the Bill can be examined in the fullest detail and all points of view can be heard".

The Government will ratify the Treaty after the Bill has been approved by Parliament and received Royal Assent.

Middle East: Peace Negotiations

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what mechanism will be put in place to monitor the implementation of both sides of the performance-based road map to a permanent two-state solution, as set out in the Annapolis Joint Understanding of 27 November; and if he will make a statement. [172382]

David Miliband: At Annapolis the parties agreed to form a United States, Palestinian and Israeli mechanism led by the United States to follow up on the implementation of the Roadmap. We do not yet know what form the mechanism will take. The US, Israelis and Palestinians are still working out the details. The UK has consistently supported the principle of a mechanism as provided for in the Roadmap.

Organisation for Security and Cooperation in Europe: Finance

Mr. Evans: To ask the Secretary of State for Foreign and Commonwealth Affairs what the UK contribution has been to the budget of the Organisation for Security and Co-operation in Europe (OSCE) in every year since 1992; and what percentage of the OSCE's overall budget this has constituted. [172387]

Mr. Jim Murphy *[holding answer 7 January 2008]*: The contribution of each participating state to the Organisation for Security and Co-operation in Europe's (OSCE) unified budget is determined by a decision of the 56 participating states including the OSCE's Permanent Council. The United States of America makes the largest contribution, followed by Germany. The UK contribution to the unified budget is equal to that of France and Italy.

In the years 1992-2006 it was as follows:

	Amount (€)	*Percentage of overall OSCE unified budget for year*
1992	243,000	9.0
1993	261,000	9.0
1994	1,889,190	9.0
1995	2,128,500	9.0
1996	3,505,050	9.0
1997	4,281,120	9.0
1998	14,441,965	10.1
1999	14,590,100	10.0
2000	20,433,613	10.0
2001	19,901,891	10.2
2002	17,257,691	10.3
2003	16,933,565	10.2
2004	17,266,417	10.2
2005	16,474,408	10.6
2006	17,137,827	10.8

Russia: British Council

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Russian government against the closure of British Council offices in Russia. [175476]

Mr. Jim Murphy: I refer the hon. Member to the written ministerial statement made by my right hon. Friend the Foreign Secretary on 13 December 2007, *Official Report*, column 56WS, about Russia's threat to close the British Council's regional offices in Russia on 1 January 2008. The Government are urging the Russian authorities to reconsider their decision, which would be detrimental to the development of cultural links; severely affect the Russian population who benefit from the British Council's presence; and damage the Russian Government's reputation.

This is not just a bilateral issue. It strikes at the heart of the EU-Russia relationship, given the prominence of culture, education and science in the EU-Russia Partnership and Co-operation Agreement. As such, the Government have successfully engaged European partners to show support for the British Council. The president of the EU National Institutes for Culture wrote to the Minister of Culture for the Russian Federation on 12 December 2007, condemning Russia's threats and voicing strong concern for all national institutes for culture from EU countries working in Russia. On behalf of EU member states, he described the threat as a continuation of a series of obstacles which some of these institutes have to face and urged Russia to reconsider its decision.

My right hon. Friend the Foreign Secretary has committed to keeping the House fully informed of developments.

Serbia: Disabled

Mr. Harper: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of levels of observance of human rights of disabled people in Serbia; and if he will make a statement. [175015]

Mr. Jim Murphy: The conditions described in the report of Mental Disability Rights International are disturbing. While the Serbian authorities questioned the legitimacy of some of the reports, they also expressed their concern and promised prompt action. The Minister for Labour Employment and Social Policy, Mr. Rasim Ljajic, responded quickly by launching an investigation and promising to immediately improve the situation of children in special institutions. We welcome this swift response.

The Government are working on a number of projects in this area in Serbia, in conjunction with the Oxford Policy Management Team (a UK partner), to raise standards in the Serbian authorities. The projects aim to build the capacity of the Serbian authorities in a wide range of areas including: the co-ordination and implementation of social development strategy and social protection law; the supporting of standards, inspection and accreditation (including institutions); social innovation (including funding and long term planning); and dissemination of best practice throughout the system. In addition, our embassy in Belgrade is in touch with Save the Children in Serbia, who are also working alongside the Serbian authorities on alternatives to institutional care for children.

Sudan: Peacekeeping Operations

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to co-ordinate communication between the UN-African Union peacekeeping force in Darfur and the UN-EU Mission in the Central African Republic and Chad; and if he will make a statement. [173699]

Mr. Jim Murphy: The UK led on UN Security Council Resolution 1769 which mandated the UN-African Union mission in Darfur (UNAMID), and we co-sponsored Security Council Resolution 1778 establishing the UN-EU mission in Chad/Central African Republic (CAR). We ensured that Resolution 1778 called for the force in Chad/CAR to liaise closely with UNAMID to exchange information on potential threats to humanitarian activities. We continue to underline the importance of co-operation between the two missions in Security Council consultations and in our discussions with the UN Department of Peacekeeping Operations.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of whether the Government of Sudan is co-operating fully with efforts to deploy the UNAMIS force to Darfur; and if he will make a statement. [174179]

David Miliband: We have had a close dialogue over several months, at ministerial and official level, with the UN and other partners on deployment of the UN-African Union Mission in Darfur (UNAMID). UN Under-Secretary-General Guehenno, Head of the Department of Peacekeeping Operations (DPKO), told the UN Security Council on 27 November that the Government of Sudan was not co-operating on a range of issues over UNAMID deployment, including force composition, night flying rights, and the Status of Forces Agreement. Since then, representatives of the DPKO and the Government of Sudan have discussed these issues in Lisbon on 8 December, followed by further talks in Khartoum. We are awaiting further reports on progress that has come about as a result of those discussions.

I spoke with UN Secretary-General Ban Ki-moon on 7 December about the delays to UNAMID's deployment. In our contacts with the Government of Sudan, we are pressing them to co-operate fully with the DPKO and the African Union. We also continue to lobby other governments to support the deployment of UNAMID.

Mr. Sarwar: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has made recent representations to the Sudanese government to expedite the deployment of a joint UN-African Union peacekeeping force in Darfur. [175515]

Dr. Howells: We have pressed the Sudanese government to co-operate fully with the UN Department of Peacekeeping Operations (DPKO) over the deployment of the UN-African Union peacekeeping force for Darfur (UNAMID) in various contacts in the last two weeks.

On 27 November 2007, the UN Under-Secretary-General Guehenno, head of the DPKO, told the UN Security Council that the government of Sudan was not co-operating on a range of issues over UNAMID deployment. Since then, representatives of the DPKO and the government of Sudan discussed these issues in Lisbon on 8 December, followed by further talks in Khartoum. We are awaiting a report on the outcome of these discussions. We have made clear that the Sudanese government should fulfil its commitments and reach agreement with the UN on the remaining issues.

Turkey: Armenia

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Government of Turkey on the closure of its border with Armenia. [175499]

Mr. Jim Murphy: The Government have raised this issue at various levels with members of the Turkish Government and we continue to call for steps to be taken towards the normalisation of Turkey's relations with Armenia. Furthermore, we continue to encourage both the Governments of Armenia and Turkey to look to the future and build a better relationship between their countries.

In preparing for EU accession, Turkey must have demonstrated its commitment to good neighbourly relations and have undertaken to resolve outstanding border disputes.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the effect on the people of Armenia of the closure of its border with Turkey. [175500]

Mr. Jim Murphy: Turkey closed its border with Armenia in 1992 as a consequence of the conflict between Armenia and Azerbaijan over Nagorno Karabakh. The closure of the border has inevitably inhibited the economic development of Armenia by limiting trade prospects. An open border between Turkey and Armenia is desirable and would bring benefits for both countries. We hope that the political situation in the region develops in such a way as to allow this. We encourage the Governments of Armenia and Turkey to look to the future and build a better relationship between their countries. In the meantime, we will continue to work for peace, security and mutual understanding in the region.

INTERNATIONAL DEVELOPMENT

Afghanistan: Reconstruction

Dr. Fox: To ask the Secretary of State for International Development pursuant to the statement by the Prime Minister of 12 December 2007, *Official Report*, column 305, on Afghanistan, how much of the cost of the reconstruction programme announced for Musa Qala will be funded from the £450 million in development and stabilisation assistance to Afghanistan. [175480]

Dr. Howells: I have been asked to reply.

The £450 million in development and stabilisation assistance outlined in the statement to the House by my right hon. Friend the Prime Minister on 12 December 2007, *Official Report*, columns 303-07, is for the period 2009-12. The initial reconstruction programme for Musa Qala—estimated at £1.9 million—is being funded through Quick Impact Projects, which have a budget this financial year of £9 million.

Overseas Aid

Chris Ruane: To ask the Secretary of State for International Development what assessment his Department has made of the role of diaspora communities in the UK in helping to alleviate poverty in the developing world; and what steps his Department is taking to co-ordinate contributions from these communities. [175289]

Mr. Malik: DFID recognises the contribution that diaspora communities in the UK can make to poverty alleviation. This recognition is reflected in DFID's first White Paper, and more recently in its migration and development policy paper, "Moving out of poverty: Making Migration work for poor people".

To enhance this contribution we have engaged with diaspora communities in several ways. For example, we have consulted diaspora communities when developing country assistance plans and relevant policies. We have also facilitated the transfer of formal remittances by supporting the creation of the "sendmoneyhome.org" website and the creation of the UK remittances taskforce. These seek to reduce remittance transfer costs and tackle barriers to remittance flows from diaspora communities to their countries of origin.

Since 2003, DFID has sought to help diaspora organisations co-ordinate their contribution to international development by supporting the formation of the network organisation, Connections For Development (CfD) through a strategic grant agreement (SGA) - value approximately £980,000. CfD engages in the development of policy and country programmes, as well as building awareness and understanding of development in the UK.

In 2006 DFID announced a new volunteering initiative designed to engage diaspora communities in development. DFID will launch a new £3 million diaspora volunteering scheme in early 2008. The objective of the programme is to give people from these communities the opportunity to make a personal contribution to development and pass on their learning through a range of development awareness activities on return to the UK.

HEALTH

Ambulance Services: Hampshire

Mr. Hancock: To ask the Secretary of State for Health pursuant to his answer of 11 December 2007, *Official Report*, columns 493-94W, on ambulance services: Hampshire, how he monitors ambulance trusts' performance against response time targets; and if he will make a statement. [175409]

Mr. Bradshaw: National health service ambulance trusts are required to meet the following response times:

Category A (presenting conditions which may be immediately life threatening): calls should be responded to within eight minutes irrespective of location, in 75 per cent. of cases. A fully equipped ambulance should also attend incidents classified as category A within 19 minutes of a request being made for transport, 95 per cent. of the time.

Category B (presenting conditions which though serious are not immediately life threatening): calls should be responded to within 19 minutes in 95 per cent. of cases.

Response time data are collected by ambulance trusts and published annually. The latest statistical bulletin, Ambulance Services, England, 2006-07 was published in June 2007. A copy is available in the Library.

Since 1 October 2004 local NHS organisations have had responsibility for managing and monitoring the ways in which local services respond to Category C (presenting conditions which are not immediately serious or life threatening) calls.

Autism

Mr. Hancock: To ask the Secretary of State for Health (1) what guidance he has issued to NHS trusts on the minimum level of care which should be available to people with autism; [162507]

(2) what research his Department has *(a)* commissioned, and *(b)* evaluated on the level of NHS care available to people with autism in Portsmouth; and if he will make a statement. [162508]

Mr. Ivan Lewis: We have not issued any guidance to national health service trusts nor have we commissioned or evaluated any research on the level of care which should be available to people with autism in Portsmouth. "Better Services for People with an Autistic Spectrum Disorder: A Note Clarifying Current Government Policy and Describing Good Practice" (published on 16 November 2006) clarifies the nature and intent of existing Government policy as it relates to adults with an Autistic Spectrum Disorder (ASD). A copy is available in the Library. It is for NHS trusts to manage their priorities and decide how resources should be attributed, taking into consideration individual assessment of need.

Broadmoor Hospital: Suicide

Mr. Lidington: To ask the Secretary of State for Health how many deaths recorded as suicide there have been at Broadmoor Hospital in each year since 1997. [170343]

Mr. Ivan Lewis: This information is not held centrally. However, Broadmoor hospital has supplied the following data in the following table.

Deaths in Broadmoor since 1997 from West London Mental Health NHS Trust

	Number of suicides (suspected or with inquest verdict)	*Other deaths (natural causes)*	*Total deaths*
1997	1	5	6
1998	2	1	3
1999	6	6	12
2000	1	3	4
2001	0	2	2
2002	2	4	6
2003	0	1	1
2004	0	[1]4	4
2005	3	2	3
2006	0	3	3
2007[2]	3	2	5

[1] This includes one homicide.
[2] To 30 November 2007.

Cancer: Mortality Rate

Mr. Lansley: To ask the Secretary of State for Health further to the statement in paragraph 1.4 of his Department's Cancer Reform Strategy on the fall in cancer mortality in under 75s between 1996 and 2005, what the drop in cancer mortality in people under 75 years was in the equivalent period before 1996; and how many lives were saved by the reduction in cancer mortality over this period. [174778]

Ann Keen *[holding answer 17 December 2007]:* "Lives saved" is an assessment of the cumulative effect of year on year reductions to the numbers of deaths in a specific age group and from a specific cause of death. In this case, it relates to deaths from cancer at ages under 75. It is calculated by subtracting from the number of deaths that occurred in the first year of the period, the number of deaths registered in each subsequent year, and then totalling the differences.

The cancer mortality target rate is calculated using three-year moving averages. In order to make concise statements, the three-year periods are sometimes referred to by the middle year of the period. This convention has been used in the first bullet point in paragraph 1.4 of the Cancer Reform Strategy. From the baseline in 1995-96-97 to the most recent period, 2004-05-06, the cancer mortality rate in people aged under 75 in England has fallen by over 17 per cent.

Lives saved are calculated using single year data. The middle year of the baseline period, 1996, is used as the baseline. Using single year data, to the most recent period, 2006, there were approximately 60,000 lives saved, compared to 1996.

The equivalent period before 1996 is 1985 to 1995. From 1984-85-86 to 1993-94-95 cancer mortality in people under age 75 in England fell by almost 10 per cent. With 1985 as the baseline, this equates to approximately 35,000 lives saved between 1985 and 1995.

Cancer: Health Services

Mr. Lansley: To ask the Secretary of State for Health what plans he has to monitor the proposed extension of the 31-day waiting time standard to cover all cancer treatments as described in his Department's Cancer Reform Strategy. [175126]

Ann Keen: We will monitor national health service progress towards delivery of the extended cancer waiting times standards, and achievement of the standards by NHS organisations. The mechanism for monitoring progress is currently under consideration by a Department/NHS expert group.

Mr. Lansley: To ask the Secretary of State for Health when he intends to establish the national audit in primary care of all patients diagnosed with cancer as described in paragraph 3.61 of his Department's Cancer Reform Strategy. [175129]

Ann Keen: The national audit in primary care of patients newly diagnosed with cancer will be undertaken in collaboration with the Royal College of General Practitioners and the National Patient Safety

Agency. The National Cancer Director is working with those organisations to establish the details of the audit, and will then establish how soon the audit can begin.

Care Homes: Fees and Charges

Mr. Burstow: To ask the Secretary of State for Health (1) whether the consultation on the level of personal expenses allowance contained within the Charging for Residential Accommodation Guide consultation 2008 will follow Cabinet Office guidance regarding a minimum consultation period of 12 weeks; on what date the consultation period will commence; and if he will make a statement; [169942],

(2) over what period the consultation on the level of personal expenses allowance contained within the Charging for Residential Accommodation Guide consultation 2008 will occur; and on what date the consultation period will commence. [170028]

Mr. Ivan Lewis: The Department will undertake public consultation early in 2008 on the recommendations of a group of key stakeholders on changes to the Charging for Residential Accommodation Guide. This will include consultation on the stakeholders' recommendations on the level of the personal expenses allowance. The consultation will be in accordance with Cabinet Office guidance, allowing 12 weeks for comments to be submitted.

Children: Greater London

Mr. Stephen O'Brien: To ask the Secretary of State for Health what assessment he has made of the risks to the health of children in London from the level of performance of the Child Health Interim Application system. [171818]

Mr. Bradshaw: BT's provision of an interim child health system pending delivery of a long-term solution reduced the risks arising from the 10 primary care trusts (PCTs) concerned being left with no system following the decision by the previous commercial child health system supplier to withdraw its product from the market.

In the period following implementation of the Child Health Interim Application (CHIA) system, figures generated for the Health Protection Agency's Cover of Vaccination Evaluated Rapidly (COVER) reports indicated that the uptake of immunisations had dropped. However, there is no evidence of any causal relationship with the CHIA implementation.

To mitigate any risks arising from this drop, an immunisation uptake audit was undertaken across the 10 PCTs who were using CHIA in London. The initial findings from the audit show that a significant number of children who appeared in the system as unimmunised had actually received their immunisations. There were also a number of children who had not been immunised, but the audit revealed a number of reasons, unconnected with the computer system changes, why this was the case.

Each of the 10 PCTs is now undertaking an immunisation catch-up programme which aims to complete by March 2008.

Chiropody: Elderly

Mr. Randall: To ask the Secretary of State for Health what assessment he has made of levels of provision of chiropody services for older people in *(a)* Uxbridge constituency and *(b)* the London borough of Hillingdon; and if he will make a statement. [173848]

Mr. Bradshaw: It is the responsibility of primary care trusts to ensure that the services they commission meet the needs of the populations that they serve, including chiropody services.

Commission for Social Care Inspection: Surveys

Mr. David Anderson: To ask the Secretary of State for Health (1) if he will make a statement on the results of the Commission for Social Care Inspection's 2007 employee survey; [172113]

(2) what equality impact assessments have been carried out by the Commission for Social Care Inspection of *(a)* its estates strategy and *(b)* the restructuring and headcount reduction programme for 2007-08; what the main findings were of those assessments; and what steps have been taken by the Commission for Social Care Inspection management in response; [172114]

(3) how much and what proportion of the Commission for Social Care Inspection's payroll budget was spent on agency staff in the last 12 months; and what proportion of the Commission's spending on agency staff was accounted for by agency fees. [172117]

Mr. Ivan Lewis: We have been informed that the chief inspector of the Commission for Social Care Inspection has replied in writing to my hon. Friend. A copy of the reply has been placed in the Library

Departmental Christmas

Malcolm Bruce: To ask the Secretary of State for Health what his Department's policy is on the selection of *(a)* real and *(b)* artificial Christmas trees for his Department's festive decorations; and how real trees are disposed of. [173527]

Mr. Bradshaw: The Department purchases two real Christmas trees for its festive decorations. The sustainable supplier removes the trees from site and the trees are chipped and used as mulch.

Departmental Equality

Philip Davies: To ask the Secretary of State for Health how much has been spent by his Department *(a)* in total and *(b)* on staff costs on promoting equality and diversity in each of the last three years for which figures are available; and how many people are employed by his Department for this purpose. [173841]

Mr. Bradshaw: The Department has a continuing commitment to equality and diversity, which conforms to all statutory duties and supports the Cabinet Office Diversity 10 Point Plan. There is a small equality and diversity team, which is responsible for strategy and policy development. However, the delivery of the diversity agenda is mainstreamed across all functions

and roles—both in the Human Resources Branch and the wider organisation. Because considerations of equality and diversity have become, over the years, integral components of the business and hence a very wide range of staff activities it is not possible to separately identify and report on costs for those components without incurring disproportionate costs.

Departmental Land

Mr. Drew: To ask the Secretary of State for Health what land surplus to his Department's requirements it is *(a)* selling, *(b)* leasing and *(c)* intending to (i) sell and (ii) lease; and what the size and name of each relevant site is. [168853]

Mr. Bradshaw: The information in the following tables shows the detail of the more substantial properties in the ownership of the Secretary of State, that the Department is either selling or leasing or intending to sell or lease.

The following table shows the sites the Department is selling:

Property	*Area (hectares)*
Queen Elizabeth hospital, Hackney	0.63
332 High Road, Tottenham	0.10
Dog Kennel Wood, Maidstone	2.15
10 Woodside, Plymouth	0.05
22-38 Princes Road, Redhill	0.16
Land at South Elmsall, Wakefield	1.38
Land at Morton Banks, Keighley	2.33
Part Little Plumstead hospital, Norwich	24.71
Northern View, Bradford	2.89
Land at Victoria hospital, Worksop	0.44
Warwick Cottage, Melton Mowbray	0.1
30 Paul Road, Bodmin	0.05
35 Higher Kingston, Yeovil	0.05
Houses in Surrey	1.00
St James' Court, Balham	0.24

There are no sites which the Department is Leasing.

The following are sites that the Department is intending to sell:

Property	*Area (hectares)*
Land at Napsbury, St Albans	8.49
Part Park Prewett hospital, Basingstoke	1.66
Land at Woodside, Plymouth	0.11
Lakeview Close, Walsall	1.40
Part Royal Shrewsbury hospital, Shrewsbury	[1]
Part Harperbury hospital, Radlett	36.8
Land at Harwich hospital, Harwich	0.76
Harp Close Meadow, Sudbury	1.31
Primrose Lane, Huntington	0.72
Horton House, Epsom	0.44
White Hart, Harrogate	0.33
Hazel Court, Battersea	0.22
Eagle Cottage, Jarrow	0.05
63/65 Bardsley Drive, Farnham	0.05
Land at Crone Hills Health Centre, West Bromwich	0.05
Land at Wellington hospital, Telford	0.10
Garrett Lane, Wandsworth	0.05

[1] To be determined

There are no sites which the Department intends to lease.

Departmental Publicity

Mr. Philip Hammond: To ask the Secretary of State for Health if he will place in the Library a copy of the guidelines issued to staff maintaining his Department's and its agencies' corporate identity; and what the estimated annual cost is of *(a)* producing and *(b)* complying with such guidelines. [170233]

Mr. Bradshaw: A copy of the departmental and core NHS Identity Guidelines has been placed in the Library.

The Department's guidelines are also available via its website at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_4108132

The full range of NHS Identity Guidelines is available via the NHS Identity website at:

www.nhsidentity.nhs.uk/main.HTM

Over the last five years, the Department has spent an average of £291,885 per year managing the NHS and the Department's corporate identities.

This figure includes developing and producing guidelines, providing logo artwork to NHS organisations, supporting the Department, NHS and third parties in correctly applying the Department and NHS brands and protecting the Department and NHS brands from misuse.

NHS Purchasing and Supply Agency uses the Department and NHS Identity Guidelines so there are no additional guidelines to be placed in the Library and no annual costs involved in producing and developing guidelines.

A copy of the Medicines and Healthcare products Regulatory Agency's identity guidelines has been placed in the Library. These guidelines were produced several years ago and there is therefore no annual cost.

We are unable to identify how much staff time is spent on complying with the corporate guidelines without incurring disproportionate costs.

Drugs: Olympic Games 2012

Bob Spink: To ask the Secretary of State for Health what steps he is taking to ensure that members of teams competing in the 2012 Olympics *(a)* do not bring proscribed drugs or medicines into the UK prior to competition, *(b)* do not dispose of unused drugs or medicines on the UK market during competition and *(c)* remove all unused imported drugs and medicines from the UK on departure; and if he will make a statement. [175559]

Dawn Primarolo: The import and export of controlled drugs is prohibited under the Misuse of Drugs Act 1971, except under licence from the Home Office.

Medicines for human use are controlled in the United Kingdom by the 1968 Medicines Act and supporting regulations. Under the provisions of the Medicines Act, prescription-only medicines may be imported or exported to or from the UK by an individual for their personal use.

Any medicinal product which is brought into the UK by an individual for his or her own use or that of a member of his/her family is not 'placed on the market'. Accordingly, it is not subject to the controls of medicines legislation. Any onward sale or supply by an individual however, would place the product on the market and bring it within the scope of regulatory control. The Medicines Act contains provisions to enforce the legislative requirements. Offences are criminal and prosecutions may be brought through the criminal courts.

Health Services: Armed Forces

Richard Younger-Ross: To ask the Secretary of State for Health what continuing obligations his Department has for the medical care of servicemen and women injured in the course of service after they have been discharged; and if he will make a statement. [172892]

Mr. Bradshaw: The national health service is responsible for the health care of service personnel on leaving the armed forces provided the individual is entitled to residency in the United Kingdom. The Department provides funding to primary care trusts to meet this responsibility.

Health Services: Hertfordshire

Mr. Walker: To ask the Secretary of State for Health how much in financial savings made by Hertfordshire's acute trusts in (*a*) the 2007-08, (*b*) the 2005-06 and (*c*) the 2006-07 financial year; and what the savings were in each year in (i) monetary and (ii) percentage value of the budget. [162906]

Mr. Ivan Lewis: The information requested is not held centrally.

Health Services: North West Region

Mr. Hoyle: To ask the Secretary of State for Health how much his Department has spent on (*a*) the procurement process and (*b*) compensation payments for the nationally procured clinical assessment and treatment service in Cumbria and Lancashire to date; from which budget it was planned to meet further such expenditure; which budget will fund the locally procured service; and what further budget adjustments will be made as a consequence of the change from a nationally to a locally procured service. [175374]

Mr. Bradshaw: The total cost of the procurement of Phase 2 of the independent sector treatment centre (ISTC) programme at the end of October 2007 was approximately £84 million; this figure includes all assessment, scoping, procurement, and associated management, professional advisory and support costs. The ISTC programme comprises central resources which work across all schemes and the programme in general. These resources are not disaggregated by individual scheme.

To date, no compensation payments have been made in relation to the proposed Phase 2 clinical assessment, treatment and support scheme in Cumbria and Lancashire. The Department will work with preferred bidders in a systematic way to consider any compensation claims that may be brought on a case-by-case basis, with regard to withdrawn schemes. No specific funds are allocated for this, however the overall budget does include general contingencies for unforeseen events.

The local procurement of independent sector services is a matter for local national health service commissioners.

Health Services: Standards

Mr. Lansley: To ask the Secretary of State for Health on which dates the monthly meetings held between the 13 trusts that will be early achievers of his Department's 18-week target were held; and if he will place copies of the (*a*) agenda and (*b*) minutes of each meeting in the Library. [170190]

Mr. Bradshaw: Dates of the 18-week early achievers meetings are shown as follows. Copies of the agendas and meeting notes from these meetings have been placed in the Library. Some sections have been redacted as they either relate to the current formulation of Government policy or their disclosure would otherwise prejudice the effective conduct of public affairs.

22 February 2007
3 April 2007
1 May 2007
5 June 2007
17 July 2007
25 July 2007
7 August 2007
4 September 2007
2 October 2007
30 October 2007

Health: Children

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) what manual systems are being used by primary care trusts (PCTs) to support the Child Health Interim Applications (CHIA) system; and whether PCTs using the CHIA system are able to issue COVER reports; [171770]

(2) with reference to the answer of 8 January 2007, *Official Report*, column 24W, on the Child Health Interim Application, what software was provided to enable primary care trusts to generate COVER reports from the live system; and when it was provided; [171984]

(3) with reference to the answer of 25 July 2006, *Official Report*, column 1202W, on child health interim application (CHIA), for what reasons Connecting for Health and the London Strategic Health Authority have not produced reports from the raw data within CHIA for the COVER quarterly and annual returns. [171885]

Mr. Bradshaw: Since May 2006 reports have been produced for the Cover of Vaccination Evaluated Rapidly (COVER) quarterly and annual returns from an extract of the raw data taken directly from the child health interim application (CHIA). The data required to submit COVER returns, which is a primary care trust (PCT) responsibility, are provided to the PCTs which use the CHIA system by BT, the system supplier. The data are taken from the live system and therefore reflect the information stored on CHIA at the point the data are extracted. Each PCT will use different manual systems dependent on their current business processes.

While all parties recognise that this situation is not ideal, the PCTs have indicated that they are satisfied with this approach as an interim solution. On migration to the RiO system, PCTs will be able to generate reports themselves. All PCTs using CHIA are expected to migrate to RiO by the end of 2008.

Mr. Stephen O'Brien: To ask the Secretary of State for Health which primary care trusts (PCTs) in London use the Child Health Interim Applications system; and what other systems are used for the same purpose in each other London PCT. [171809]

Mr. Bradshaw: 22 of London's primary care trusts (PCTs) use a child health system delivered by the London programme for information technology (LPfIT). The following 10 PCTs use the child health interim application (CHIA) system: Barking and Dagenham, Camden, City and Hackney, Haringey, Havering, Islington, Newham, Redbridge, Tower Hamlets and Waltham Forrest.

The following PCTs use the child health functionality of CSE Servelec's RiO system, also delivered by LPfIT: Barnet; Ealing; Enfield; Greenwich; Hammersmith and Fulham; Hounslow; Lambeth; Lewisham, Richmond; Westminster; Southwark; Sutton and Merton.

Currently, the remaining PCTs in London use the following systems to support child health services: Bexley McKesson; Brent Continuum; Bromley Totalcare; Croydon EPEX (Ascribe); Harrow Health Solutions Wales Community Child Health 2000 System; Hillingdon Health Solutions Wales Community Child Health 2000 System; Kensington and Chelsea Continuum; Kingston McKesson child health; and Wandsworth Comwise.

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) for what reasons the Richs system was replaced by the Child Health Interim Application (CHIA) system; what functionality the CHIA system has that the Richs system did not; and what additional functionality the RiO system will have in comparison with to *(a)* the CHIA system and *(b)* the Richs system; [171811]

(2) for what reasons London primary care trusts were not able to move directly from the Richs system to the RiO system; [171813]

(3) what the status is of the Child Health Interim Application; and if he will make a statement. [172301]

Mr. Bradshaw: The child health interim application (CHIA) was introduced in response to a decision in early 2005 to withdraw support for the ageing Regional Interactive Child Health System (RICHS) from 10 primary care trusts (PCTs) in London taken by its commercial supplier. CHIA was delivered to these PCTs at short notice by BT, the London local service provider under the national programme for information technology, as an interim measure at the request of the local national health service. At the same time NHS Connecting for Health, PCTs and BT were working together on a longer-term solution. The PCTs chose CSE Servelec's RiO system to be their strategic system, and all CHIA trusts will eventually migrate to RiO, which began roll-out in London in 2006.

CHIA was always intended as a rapidly-produced like-for-like replacement for the RICHS system. There was no intention to provide an enhanced product.

PCTs have been heavily involved in the development of the strategic system including the specification of criteria deemed essential by the PCTs using CHIA. They identified the automatic making of appointments and scheduling, and an electronic link with Great Ormond Street's newborn blood spot screening programme, as vital components of the new system. These functions will be present when the first trusts migrate from CHIA to RiO early next year.

Unlike CHIA and RICHS, RiO is an evolving product with capacity for continuing development over time.

Mr. Stephen O'Brien: To ask the Secretary of State for Health which primary care trusts use manual processes alongside their child health applications; and what those processes are. [171825]

Mr. Bradshaw: The information is not held centrally and could be obtained only at disproportionate cost.

Healthcare Commission: Complaints

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many complaints the Healthcare Commission and its predecessor bodies received in each year since 1997. [175091]

Mr. Bradshaw *[holding answer 18 December 2007]*: The Healthcare Commission has had responsibility for the second, independent review, stage of the national health service complaints process since the end of July 2004.

Information about the number of complaints the Commission has received is set out as follows:

	Number
2004-05	[1]5,867
2005-06	7,644
2006-07	7,696
2007-08	[2]5,515

[1] Part year only
[2] To 14 December

The following information refers to cases processed at second stage by the NHS prior to July 2004, on cases requesting independent review, and cases referred to independent review panels:

	Requests	Referred to review panel
2002-03	3,600	450
2003-04	3,739	416

Not all requests would have been referred to an independent panel, but they would all have undergone some degree of second stage process in order to determine whether consideration by an independent review panel would be appropriate.

Information for earlier years is not available in the form requested.

Henderson Hospital: Closures

Lynne Jones: To ask the Secretary of State for Health what assessment he has made of the (*a*) services funded by the Henderson hospital and (*b*) proposals to provide those services via alternate means. [176860]

Mr. Ivan Lewis: The provision of health services, including mental health services, is a matter for the local national health service.

Home Care Services: Eastbourne

Mr. Waterson: To ask the Secretary of State for Health how many households received domiciliary care in Eastbourne in (*a*) 1987, (*b*) 1992, (*c*) 1997, (*d*) 2002 and (*e*) at the most recent date for which figures are available. [165313]

Mr. Ivan Lewis: The following table shows the number of households receiving home care during a sample week in September in East Sussex, which includes Eastbourne, for the years 1992, 1997, 2002 and 2006. Data for 1987 are not available. Separate data for Eastbourne are not collected centrally.

Number of households[1] receiving home care in East Sussex, England: survey week in September

	1992[2,3]	1997[3]	2002	2006
East Sussex[4]	5,950	6,300	2,490	2,560
Brighton and Hove	n/a	2,160	3,050	2,140
Total	5,950	8,450	5,540	4,700

n/a = Data not available.

[1] Households receiving home care purchased with a direct payment are excluded.

[2] First year of collection was 1992; therefore data may not be as robust as following years.

[3] Information on the number of households prior to 2000 included some double counting due to some households receiving home care from both the independent sector and from their local authority. From 2000 the collection was amended to remove the issue around double counting.

[4] The regional boundary of East Sussex changed in 1996 to not include Brighton and Hove within its area in subsequent years. Data for Brighton and Hove have been provided for consistent time series.

Source:
HH1 return.

Incontinence: Medical Equipment

Mr. Oaten: To ask the Secretary of State for Health whether dispensing contractors will be allowed to contract out a full dispensing service of appliances to other organisations under proposed amendments to the Regulatory Terms of Service of Pharmacy and Appliance Contractors in relation to dispensing items listed in Part IX of the Drug Tariff. [176932]

Mr. Ivan Lewis: Annex B of the consultation "Arrangements under Part IX of the Drug Tariff for the provision of stoma and incontinence appliances and related services to Primary Care. Revised Proposals" sets out a number of proposals relating to essential services provided by dispensing appliance contractors and pharmacy contractors.

One of these proposals states that both dispensing appliance and pharmacy contractors should if they cannot dispense the prescription item be able to pass a prescription form to another dispensing contractor with the patient's consent provided that they do not receive either a gift or a reward from the other dispensing contractor.

This does not preclude dispensing contractors working together in a commercial manner in order to provide a full dispensing service to patients in relation to Part IXA (catheter), Part IXB (incontinence related) or Part IXC (stoma) prescription items.

Independent Sector Procurement Forum

Harry Cohen: To ask the Secretary of State for Health what the role is of the independent sector procurement forum; what funds were allocated to it for 2007-08; who is on the forum; and what remuneration each member receives. [171395]

Mr. Bradshaw: The Independent Sector Procurement Forum will advise the Department on policies and practice in local procurement of clinical services. The forum, the membership of which is still being finalised, will draw on a range of expertise and experience. Forum members will not be paid but will be entitled to claim expenses in line with departmental guidance. Secretariat and any other costs of the forum will be met from existing resources for 2007-08.

Industrial Diseases

John Mann: To ask the Secretary of State for Health what assessment he has made of industrial disease prevalence in determining resource allocation in the NHS. [174655]

Mr. Bradshaw: There is no specific consideration made for industrial disease prevalence in determining resource allocations to primary care trusts (PCTs) but industrial disease will be picked up in the models of utilisation of health care in the additional need element of the formula.

A weighted capitation formula is used to determine PCTs' target shares of available resources, to enable them to commission similar levels of health services for populations in similar need.

The components of the formula are used to weight each PCT's 'crude' population according to their relative need (age, and additional need) for health care and the unavoidable geographical differences in the cost of providing health care (market forces factor).

The additional need element of the formula is intended to reflect the relative need for health care over and above that accounted for by age. The need weighting takes the form of indices from two broad service areas:

acute and maternity;

mental health.

The indices are based on models of utilisation of health care and comprise a number of socio-economic and health related variables. There are two different groups of variables included in these models:

standard variables derived from small area statistical modelling of utilisation, and

additional morbidity variables designed to capture some of the effect of unmet need where ethnic minority groups and low income groups do not receive healthcare services to the same level as that of others with similar health characteristics.

For further information on the weighted-capitation formula, please refer to 'Resource Allocation: Weighted Capitation Formula (Fifth edition)'. A copy is available in the Library, and can also be accessed at:

www.dh.gov.uk/allocations

Information Centre for Health and Social Care

Mr. Lansley: To ask the Secretary of State for Health when he expects the Information Centre for Health and Social Care to commence development of a dataset for urgent and emergency care, as described on page four of his Department's document Urgent care update: Key areas highlighted by the Direction of Travel consultation and other work; and which *(a)* organisations and *(b)* individuals he expects the Information Centre to consult on the matter. [175032]

Mr. Bradshaw: The Information Centre for health and social care (IC) are working towards developing a dataset for urgent and emergency care. The IC will follow their usual processes of wide engagement with relevant professional bodies, and may also include an open consultation period.

Living Wills

David T.C. Davies: To ask the Secretary of State for Health what guidance he has issued to members of the public on living wills; and what plans he has to revise such advice. [175732]

Mr. Ivan Lewis: The Mental Capacity Act 2005 sets out the statutory rules governing advance decisions to refuse treatment, which were sometimes previously known as 'living wills'. The Government issued the Mental Capacity Act Code of Practice in April 2007, which includes guidance on advance decisions, and a range of information booklets for the public and professionals, which summarise the provisions that relate to advance decisions. The Department has issued information on the transitional provisions for advance decisions to refuse life-sustaining treatment made before the Act came into force. The Code of Practice and other information will be updated as necessary.

Medical Records

Mr. Lansley: To ask the Secretary of State for Health when the full implementation of the Summary Care Record is expected to take place; and if he will make a statement. [175030]

Mr. Bradshaw: There are no current plans to implement the summary care record (SCR) beyond the existing early adopter programme. The Department is working with both the Summary Care Record Advisory Group and the independent evaluators based at University College London to ensure that all significant learning from the early adopters is taken into account as soon as it is available. The evaluation will draw from extensive fieldwork done to capture the views and experiences of general practitioners, practice managers, nurses, other national health service clinical and management staff, and patients. The results of the evaluation will be incorporated into future deployment plans for the SCR.

Medical Records: Databases

Jeremy Wright: To ask the Secretary of State for Health which categories of NHS staff working outside GP surgeries will have direct access to information in detailed care records created by clinicians working in a GP surgery; and which of those staff categories will be authorised to override patients' wishes expressed through sealed envelope software. [169022]

Mr. Bradshaw: Individuals from outside the general practitioner's practice will only be able to access a patient's detailed care record, where they are working within a local health community where patient records are managed through a shared detailed record system and where they have a smartcard and role profile that enables access to patient records and also have a legitimate relationship with the patient – for example, because they are providing healthcare or treatment in a different setting, or they have express consent from the patient for other reasons, such as clinical research, or there is a statutory basis or court order supporting disclosure.

Patients may also request that a flag within the system be set to prevent information being accessed by anyone outside of the practice without their express consent other than where there is a legal requirement to do so, or an overriding public interest such as serious crime.

A patient's wishes regarding a sealed envelope can only be overridden exceptionally by staff who have been specifically granted the ability to do so by their employing organisations as part of their assigned role profile. When they do override a seal they must record whether their action is justified by express patient consent, a legal requirement, or an overriding public interest, and this will subsequently be checked by the employing body.

Mental Health Services: Greater London

Lynne Featherstone: To ask the Secretary of State for Health what the Health Commission star rating is for each London mental health trust; and if he will make a statement. [176001]

Mr. Ivan Lewis: The star rating system is no longer used by the Healthcare Commission. The rating system is now shown through scores of 'weak', 'fair', 'good' and 'excellent'. The information requested can be found in the following table:

	2006-07	
Name of Trust	*Use of Resources*	*Quality of Services*
Barnet, Enfield and Haringey Mental Health Trust	Fair	Good
Camden and Islington Mental Health Trust	Good	Excellent
Central and North West London Mental Health Trust	Good	Excellent
East London and The City Mental Health Trust	Good	Excellent
North East London Mental Health Trust	Fair	Good
Oxleas NHS Foundation Trust	Excellent	Good
South London and Maudesly NHS Foundation Trust	Excellent	Good
South West London and St. George's Mental Health Trust	Fair	Fair
Tavistock and Portman NHS Foundation Trust	Good	Excellent
West London Mental Health NHS Trust	Good	Excellent

Lynne Featherstone: To ask the Secretary of State for Health how many people have been detained involuntarily for treatment under the Mental Health Act in each London mental health trust in each of the last five years; and if he will make a statement. [176029]

Mr. Ivan Lewis: The information requested has been placed in the Library.

Lynne Featherstone: To ask the Secretary of State for Health what the average waiting time was for talk therapies in each London mental health trust in the latest period for which figures are available; and if he will make a statement. [176030]

Mr. Ivan Lewis: Information relating to average waiting times for talking therapies is not held centrally. However, this can be obtained directly from the national health service trusts concerned.

Currently, there are no national waiting times targets for access to psychological therapies in primary care. Waiting times standards are being developed which will be tested in the new Pathfinder Sites for improving access to psychological therapies in 2007-08. These sites will test out proposed standards including appropriate access times for different stages of treatment as detailed in the National Institute for Health and Clinical Excellence Guidelines.

Lynne Featherstone: To ask the Secretary of State for Health what the average waiting time was for a first appointment with a mental health professional following referral by a GP in the last five years, broken down by London mental health trust; and if he will make a statement. [176031]

Mr. Ivan Lewis: The information is not available in the format requested. Waiting times can only be calculated back to 2005 as prior to this, data were only collected for waits over 13 weeks. The available information has been set out in the tables.

Waiting time data are collected for consultant led out-patient appointments, but recently more work is being done by multi-disciplinary teams. Therefore waiting lists have fallen for mental health specialties. Furthermore, as numbers are small, data for average waits cannot be calculated for all trusts.

Furthermore, in-patient psychiatric activity has fallen over time as we have established more than 700 new mental health teams providing community based care as an alternative to acute in-patient care.

Out-patient waiting list statistics for mental health specialties for London provider trusts

n/a = not applicable.

Notes:

1. Median waiting times are calculated from aggregate data, rather than patient level data, and therefore are only estimates of the position on average waits. In particular, specialties with low numbers waiting are prone to fluctuations in the median. This should be taken into account when interpreting the data.
2. Medians are provided for out-patients not seen with total of less than 50 because this population is too small for a statistically meaningful median to be calculated so a n/a shown in that case.

QM08NS

Mental Health Services: Standards

Mr. Jim Cunningham: To ask the Secretary of State for Health what steps the Government have taken to improve the quality of services for mental health patients since 1997. [175592]

Mr. Ivan Lewis: Mental health was identified as a key clinical priority in "Saving Lives: Our Healthier Nation", in 1998, which set out a target to reduce suicides by one fifth by 2010. This target is included in the Department's public service agreement.

We published the first ever National Service Framework (NSF) in England for adult mental health services in 1999. It laid down models of treatment and care which people would be entitled to expect in every part of the country and was a deliberate move to raise the profile of mental health. Since then, mental health services have been working to implement a radical programme of modernisation to improve access to effective treatment and care, raise standards and provide quicker and more convenient services.

The "NHS Plan" 2000, aimed to strengthen community care and in doing so, take pressure off acute beds. It provided an extra annual investment of over £300 million by 2003-04 to fast forward the NSF.

From 2001-02 to 2006-07, real terms investment in adult mental health services increased by 31 per cent. (or £1.2 billion)—that is £1.9 billion in cash terms. The

national health service spent over £5.1 billion on adult mental health services in 2006-07 compared to £3.9 billion in 2001-02.

Key targets were set for service delivery on early intervention, crisis resolution and assertive outreach services and, due to the NSF and increased funding, we now have over 700 new mental health teams working in the community.

During 2006-07, crisis and home treatment teams provided 95,000 episodes of home treatment against 84,000 in 2005-06 for people who would otherwise have been admitted to hospital.

The Government have allocated an extra £130 million in 2006-07 to provide more appropriate 'places of safety' for people detained under the Mental Health Act by the police.

We now have 55 per cent. more consultant psychiatrists, almost 70 per cent. more clinical psychologists and at least 20 per cent. more mental health nurses than we had in 1997.

Because of the NSF and increased funding, we now have over 700 new mental health teams working in the community (that includes assertive outreach, early intervention, crisis resolution teams).

A five-year action plan is in place to address inequalities in the experience Black and minority ethnic people have in accessing services.

We are also committed to expanding access to psychological therapies as a positive alternative to medication. By 2010-11, the NHS will spend £170 million per year on psychological therapies, with £33 million in 2008-09, £103 million in 2009-10 and £173 million in 2010-11. This investment will mean:

900,000 more people will be treated for depression and anxiety, many of whom will be completely cured;

450,000 achieving measurable recovery;

all GP practices will have access to psychological therapies as the programme rolls out; and

the average waiting time for psychological treatments will reduce from the current 18 months to a few weeks.

Mental Health Services: Suffolk

Mr. Spring: To ask the Secretary of State for Health how many dedicated beds were available for mental health patients in Suffolk in each year since 1997. [175235]

Mr. Ivan Lewis: Information is not available prior to 2005-06. Due to trust mergers and demergers, data are not comparable. The number of beds available at Suffolk Mental Health Partnership NHS Trust in 2005-06 was 205 and in 2006-07 it was 258.

The reduction in mental health bed numbers reflects the increasing provision by the national health service in England of treatment for patients with mental health conditions in primary care and community settings, without the need for hospital admissions.

Mental Health Services: Young People

John Battle: To ask the Secretary of State for Health how many under 18-year-olds were admitted to adult mental health wards in each year since 1997; and if he will make a statement. [174759]

Mr. Ivan Lewis: Information is not available in either the format or time frame requested. However, the number of bed days on adult psychiatric wards of patients aged 16 or 17 and those children under 16 is in the following table for the two years for which figures are available.

	2005-06	*2006-07*
Patients aged under 16	353	201
Patients age 16 or 17	29,306	19,988

Due to the statistical basis for collecting this information changing between the two years, the figures are not directly comparable.

The Mental Health Act 2007 contains a provision (section 31) that ensures that patients aged under 18 are treated in an environment in hospital, which is suitable having regard to their age (subject to their needs). The NHS operating framework which was published recently also reinforces this commitment.

The Government have made a commitment to commence this provision in England by April 2010. Capital funding of £31 million has been provided in 2007-08 for 17 projects specifically designed to help eliminate the inappropriate use of adult psychiatric wards for children and young people.

Midwives: Higher Education

Mr. Hancock: To ask the Secretary of State for Health how many midwifery academics there were in each year since 1997. [172148]

Ann Keen: Information on the number of midwifery academics in each year since 1997 is not held by this Department. The Department for Innovation, Universities and Skills holds data from the Higher Education Statistics Agency on the number of academic staff.

NHS Treatment Centres: Private Sector

Harry Cohen: To ask the Secretary of State for Health what assessment he has made of the performance of Independent Sector Treatment Centres (ISTCs); what mechanisms are in place to monitor the undertaking of operations paid for by primary care trusts; how many complaints he has received of ISTCs not carrying out paid for operations; and if he will make a statement. [171396]

Mr. Bradshaw: Around 839,000 national health service patients have been treated through the various independent sector treatment centre (ISTC) programmes to date.

The utilisation of ISTC contracts (the levels of update of services provided) is monitored by the Central Contracts Monitoring Unit of the Department's Commercial Directorate.

The Department works with sponsors and providers to ensure optimum utilisation of the contracts through the total contract period. This includes changing the case-mix to respond to local needs, and working with providers and primary care trusts to recover previous under-utilised activity where possible.

The Department does not routinely collect information on the number of complaints made in respect of ISTCs. However, the Department, the NHS and providers meet quarterly for a Joint Service Review to discuss a range of operational issues and to ensure that the services offered deliver a high-quality effective service to the NHS patients that they serve.

NHS: EU Emissions Trading Scheme

Jon Trickett: To ask the Secretary of State for Health what estimate he has made of the total cost incurred by hospital trusts in relation to the EU Emissions Trading Scheme. [175984]

Mr. Ivan Lewis: The information requested is not collected centrally.

NHS: ICT

Mr. Stephen O'Brien: To ask the Secretary of State for Health what data are being recorded under the RiO patient care records system. [172896]

Mr. Bradshaw: RiO is an information system designed for use across the community health sector. Data are recorded to support the key functions of providing secure access to patients' care records, to allocate, share and reassign cases, to record treatments, and to book appointments. As well as recording clinical information it provides clinical and administrative functionality to support care professionals, working in teams, with features such as diary, referral and caseload management, progress notes and care plans. Child health functionality includes the scheduling, recording and outcome of immunisations, health reviews and development checks, registration of birth details, screening tests and special needs.

RiO is the strategic community health information solution for London. Its features and functionality will continue to be developed with the input of national health service staff in London.

Mr. Stephen O'Brien: To ask the Secretary of State for Health how much *(a)* capital and *(b)* revenue expenditure there has been on the National Programme for IT and Connecting for Health in each year since the programme began; and how much (i) capital and (ii) revenue spending has been budgeted for each remaining year of the programme. [172897]

Mr. Bradshaw: The Department's NHS Connecting for Health Agency is responsible both for ensuring delivery of the information technology (IT) systems under the national programme for IT (NPfIT), and for maintaining the critical business systems previously provided to the national health service by the former NHS Information Authority. Information covering all the agency's responsibilities is in the tables.

£ million

	Actual expenditure			Forecast outturn
	2004-05	2005-06	2006-07	2007-08
Capital	360.0	429.0	589.0	826.0
Revenue	260.0	539.0	528.0	500.0

£ million

	Planned expenditure		
	2008-09	2009-10	2010-11
Capital	826.0	1,049.7	835.8
Revenue	703.5	786.9	785.9

Notes

1. All sums exclude capital charges.
2. The amounts include the original costs of NPfIT contracts, which have not changed, but also include new and additional requirements that have been added, supported by separate business cases and funding, as reported by the National Audit Office.
3. With the exception of planned revenue expenditure in 2008-09, figures for 2008-09 to 2010-11 are those used to inform the comprehensive spending review and are subject to revision in light of the evolving IT needs of the NHS.
4. Budgets for years beyond 2010-11 are dependent on the outcome of future spending reviews.

Peter Bottomley: To ask the Secretary of State for Health which hospital trusts have installed Cerner's Millennium system; on what date it was installed; which hospital trusts are expected to install the system and when; what the name is of the senior clinician on each hospital IT board; which Minister is responsible for the system roll out; what representations he has received from clinicians in hospitals using the system on their experience of using it; if he will ask a chief medical officer to consult clinicians using the system in *(a)* Kent, *(b)* Sussex, *(c)* Cheshire and *(d)* Buckinghamshire; and if he will update the figures provided previously in the answer of 23 July 2007, *Official Report*, columns 823-4W. [173426]

Mr. Bradshaw: Cerner is the chosen subcontractor of two of the local service providers (LSPs) under the national programme for information technology (NPfIT) for the provision of health care IT systems, Fujitsu in the south of England and BT in London.

Nine health communities have to date gone live with the Cerner Millennium system provided through the national programme. Each health community typically comprises an acute national health service trust and the associated primary care trust sites in its area. Details are provided in the following table.

Trust	Total users	Peak users	Average users	Go live date
Buckinghamshire Hospitals NHS Trust	880	700	450	25 September 2006
Milton Keynes General Hospital NHS Trust	2,000	980	420	24 February 2007
Nuffield Orthopaedic Centre NHS Trust	900	170	130	22 December 2005
Surrey and Sussex Healthcare NHS Trust	2,875	620	400	20 April 2007
Weston Area Health NHS Trust	1,700	1,400	450	29 July 2006
Winchester and Eastleigh Healthcare NHS Trust	1,820	980	360	10 February 2007
Worthing and Southlands Hospitals	3,750	300	180	29 September 2007

Trust	Total users	Peak users	Average users	Go live date
Barnet and Chase Farm NHS Trust	4,580	410	110	24 July 2007
Queen Mary's Sidcup NHS Trust	2,050	170	50	29 October 2007
Total	20,555	5,730	2,550	—

In addition two London NHS hospital trusts, the Homerton University Hospital NHS Foundation Trust, and Newham University Hospital Trust, had initiated procurements of the Millennium system before the national programme.

To date, some 2.7 million patient records have been entered in the systems currently in use.

Four further trusts are currently expected to go live with the existing release (release 0) of the Millennium system by the early part of 2008. These are Taunton and Somerset NHS Trust in 2007, and the Royal United Hospital Bath NHS Trust, the Royal West Sussex Hospital Trust, and Barts and the London NHS Trust in 2008. Thereafter, release 1 of the system will form the basis for other implementations across both LSP areas in 2008-09 and beyond. Specific go-live dates in each strategic health authority area will be determined by local agreement with the NHS bodies concerned.

All matters to do with the national programme fall within my portfolio of departmental responsibilities as the Minister of State.

Details of clinical representation on bodies responsible for overseeing local implementation of NPfIT systems are not held centrally.

While Ministers have not received any direct representations, we are aware that users in the early deployments expressed some concerns about the system's management and statutory reporting functionality, and some of its usability features, for example the number of key strokes required for certain functions. Action has been taken to address these concerns and to enhance these areas. This is making a positive impact. Many users who have become familiar with Millennium over time have expressed satisfaction with the system.

From the inception of the IT programme relevant and experienced clinicians have contributed to the effective identification of requirements, design and testing of all systems wherever across the NHS these are being delivered. This continues to be the case. NHS Connecting for Health has appointed a chief clinical officer to lead the clinical engagement and clinical contribution to the programme.

NHS: Inflation

Mr. Stephen O'Brien: To ask the Secretary of State for Health what the rate of *(a)* inflation and *(b)* wage inflation was in the NHS in each year since 1995. [164592]

Mr. Bradshaw: The following table reports, from 1995-96 to 2005-06, Hospital and Community Health Service (HCHS) wage inflation and total national health service inflation.

	HCHS Pay Inflation	Percentage Total NHS Inflation
1995-96	4.4	3.7
1996-97	3.3	2.9
1997-98	2.5	2.1
1998-99	4.9	3.9
1999-2000	6.9	4.6
2000-01	7.2	4.2
2001-02	8.3	4.8
2002-03	5.0	3.5
2003-04	7.3	4.9
2004-05	4.5	n/a
2005-06	4.7	n/a

Notes:
1. Wage inflation is measured using the HCHS pay cost index, which is a measure of the average paybill per head of those employed within the HCHS.
2. The total NHS inflation index is no longer available from 2004-05 as it relies on the General Medical Service (GMS)/Personal Medical Service data series, which has discontinued since the introduction of the new GMS contract in 2004-05.

NHS: Pay

Mr. Spring: To ask the Secretary of State for Health how many individuals in senior administrative roles in all NHS bodies in the East of England were paid *(a)* over £100,000 and *(b)* over £150,000 in (i) 1997 and (ii) 2007. [175273]

Mr. Ivan Lewis: The Department does not collect details on the pay of individuals across the whole national health service.

Very senior managers (chief executives and board level directors) in strategic and special health authorities, primary care trusts and ambulance trusts are paid under the "Pay Framework for very senior managers in strategic and special health authorities, primary care trusts and ambulance trusts", published in July 2006, a copy of which is available in the Library. This does not apply to other NHS trusts (acute, mental health, care and foundation trusts), but they are free to adopt the principles of the arrangements.

Under the Framework, senior executives are paid a spot rate salary (£55,838 to £196,704), with the provision of payments of recruitment and retention premia (of up to 30 per cent. of the spot rate salary) and additional duties (up to 10 per cent. of the spot rate salary) where appropriate.

NHS organisations are public bodies and as such, the pay of their senior executive teams is a matter of public record, published in their annual accounts.

NHS: Procurement

Mr. Stephen O'Brien: To ask the Secretary of State for Health what the terms of reference are of the joint Office of Government Commerce and NHS Purchasing Supply Review; when the review will be completed; and whether the results of the review will be published. [172920]

Mr. Bradshaw: The Office of Government Commerce's programme of Procurement Capability Reviews was announced for all Government Departments in January 2007 as a key enabler of the Transforming Government Procurement report.

The review of the Department is being coordinated for the Department by the commercial directorate and the NHS Purchasing and Supply Agency. The terms of reference will be agreed in early 2008. The intensive interview stage of the review is scheduled to begin in March 2008 and last three-four weeks. The review team's report on the Department will be published in the autumn.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what the result of the Strategic Review of Collaborative Procurement in the NHS was; and if he will publish the report of the review. [172921]

Mr. Bradshaw: The Strategic Review of Collaborative Procurement in the national health service is not yet complete. The Department will consult on its findings before making them available to interested parties shortly.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what expected NHS expenditure on medical supplies and equipment is for 2007-08; and if he will make a statement. [172923]

Mr. Bradshaw: The information is not available centrally in the exact format requested. Expenditure on clinical supplies and services is collected on an historical basis from strategic health authorities (SHAs), primary care trusts (PCTs) and national health service trusts. The latest year for which information is available is 2006-07 when the total expenditure on clinical supplies and services was £5,043,371,000. This figure contains the purchase of low value medical and surgical equipment but not items over £5,000. Information on the expenditure on medical equipment costing more than £5,000 is not available. Information for 2007-08 will be available next autumn.

The information is from the annual financial returns of SHAs, PCTs and NHS trusts. No information is available for NHS foundation trusts.

Primary Care Trusts

Mr. Lansley: To ask the Secretary of State for Health when he expects the support and development framework for primary care trusts, supporting his Department's proposals for world class commissioning, to be made available. [175098]

Mr. Bradshaw: It is planned that the support and development framework will begin to be made available from spring 2008. The support and development framework will be built upon and iterated during the year to reflect the changing needs of primary care trusts.

Private Finance Unit

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) which projects under the private finance initiative his Department's Private Finance Unit has categorised as having not established clear requirements before getting under way; [174489]

(2) which NHS buildings constructed under the private finance initiative his Department's Private Finance Unit assessed as not fitting *(a)* the departmental vision, *(b)* the needs of the NHS and *(c)* the needs of patients and the public. [175356]

Mr. Bradshaw: At all stages of the approval process for a private finance initiative (PFI) scheme, the business case must include clear evidence that the scheme supports all local and national service and clinical targets. Output specifications supplied to bidders by the trust explicitly state the scope of clinical services and functional content that they require from their new facility.

Clinicians and local commissioners must be represented on a trust's PFI project board and provide written endorsement of the level and type of services being provided in the final PFI proposals. This must be evidenced in the final full business case as a condition of formal approval by the relevant strategic health authority, the Department and for larger cases HM Treasury. Guidance also requires local people, staff and their representatives to be consulted on the proposals and to be able to respond.

Prosthetics: Ex-servicemen

Dr. Murrison: To ask the Secretary of State for Health (1) what provision is made for the continuing care of armed forces veterans with C-leg limb prostheses; [175344]

(2) what assessment he has made of the consistency of ongoing limb prosthetic services available to veterans on the NHS. [175345]

Mr. Ivan Lewis: No assessment of ongoing prosthetic services has been carried out centrally. It is for primary care trusts in partnership with local stakeholders to assess the needs of their local population and to commission services accordingly. This process provides the means for addressing local needs within the health community including the provision of prosthetic services for veterans.

Continuing national health service health care is provided over an extended period of time to meet physical or mental health needs that have arisen as a result of disability, an accident or illness. It is available to anyone who has been assessed as having a high level of need for ongoing health care.

Psychiatry

Andrew Selous: To ask the Secretary of State for Health what assessment his Department has made of Human Givens as a form of psychotherapy; whether Human Givens treatment may be provided by the NHS; and what clinical trials of the effectiveness of Human Givens his Department plans to consider. [174647]

Mr. Ivan Lewis: The Department has not assessed Human Givens as a form of psychotherapy and has no plans to do so at this time.

Psychiatry: Greater London

Lynne Featherstone: To ask the Secretary of State for Health how many psychiatrists were employed by each London mental health trust in each of the last five years for which figures are available; and if he will make a statement. [175999]

Mr. Ivan Lewis: The information requested can be found in the following table.

In-patient psychiatric activity has fallen over time as we have established more than 700 new mental health teams providing community based care as an alternative to acute in-patient care.

Hospital and Community Health Services: medical and dental staff working within the psychiatry group of specialties in London strategic health authority (SHA) area, showing mental heath trusts: As at 30 September each year

South West London & St. George's Mental Health NHS Trust	RQY	697	828	825	838	812
West London Mental Health NHS Trust	RKL	1,336	1,316	1,423	1,422	1,446

Notes:
1. Psychiatric nurses includes community psychiatric nurses.
2. More accurate validation processes in 2006 have resulted in the identification and removal of 9,858 duplicate non-medical staff records out of the total workforce figure of 1.3 million in 2006. Earlier years' figures could not be accurately validated in this way and so will be slightly inflated. The level of inflation in earlier years' figures is estimated to be less than 1 per cent. of total across all non-medical staff groups for headcount figures (and negligible for full-time equivalents). This should be taken into consideration when analysing trends over time.

Source:
The Information Centre for health and social care Non-Medical Workforce census.

Lynne Featherstone: To ask the Secretary of State for Health how many vacant psychiatric posts there are in each London mental health trust; and if he will make a statement. [176034]

Mr. Ivan Lewis: The information requested can be found in the following table.

In-patient psychiatric activity has fallen over time as we have established more than 700 new mental health teams providing community based care as an alternative to acute in-patient care.

The three month vacancy number for all qualified nurses and doctors (excluding doctors in training) working within the psychiatry group of specialties in London strategic health authority area, showing mental health trusts as 31 March 2007

			Three month vacancy numbers
		Qualified nurses	*Doctors (excluding doctors in training)*
London Strategic Health Authority Area		1	9
of which			
Barnet, Enfield And Haringey Mental Health NHS Trust	RRP	0	6
Camden and Islington Mental Health And Social Care Trust	TAF	0	0
Central And North West London Mental Health NHS Trust	RV3	0	0
East London And The City Mental Health NHS Trust	RWK	0	0
North East London Mental Health NHS Trust	RAT	0	0
Oxleas NHS Trust	RPG	0	0
South London and Maudsley NHS Trust	RV5	1	1
South West London and St. George's Mental Health NHS Trust	RQY	0	3
West London Mental Health NHS Trust	RKL	0	0

Notes:
1. Three month vacancies are vacancies which trusts are actively trying to fill, which had lasted for three months or more (whole time equivalents).
2. Vacancy numbers are rounded to the nearest whole number.
3. Psychiatric nurses are Community Psychiatric nurses and Other Psychiatric nurses.
4. Vacancy numbers are rounded to the nearest whole number.
5. Strategic health authority figures are based on trusts, and do not necessarily reflect the geographical provision of health care.

Source:
The Information Centre Medical and Dental and Non-Medical Workforce Census, Vacancies Survey.

Richard Granger

Mr. Stephen O'Brien: To ask the Secretary of State for Health what effect the resignation of Mr. Richard Granger had on the renegotiation of the Department's Connecting for Health contract with BT. [175348]

Mr. Bradshaw: The decision of the Director General of NHS Connecting for Health to step down from his role in the Department was unrelated to, and had no impact on, the recent resetting of contracts let under the national programme for information technology, including that with BT.

Sheep: Disease Control

Mr. Goodwill: To ask the Secretary of State for Health when he last reviewed scientific advice on the removal of specified risk material from sheep over 12 months old or with permanent incisors erupted; and what plans he has to change his policy on this matter. [175955]

Mr. Ivan Lewis: The Food Standards Agency keeps the possible human health risks from Transmissible Spongiform Encephalopathies (TSEs) in sheep and the specified risk material (SRM) controls under continual review. The Agency has advised that on the basis of the current scientific evidence they have no immediate plans to put forward to the European Commission any proposals to change the policy on the removal of SRM from sheep over 12 months of age. Controls on the removal of SRM are set out in Community regulations which are applicable in all member states. The European Commission published its TSE Road Map on the future of TSE controls in July 2005. This indicated that SRM controls, including in sheep, would be reviewed in the short-medium term (2005-09) in the light of scientific opinion.

Spinal Muscular Atrophy

Mr. Donohoe: To ask the Secretary of State for Health if he will ensure that electrically powered indoor and outdoor wheelchairs are made available to children with spinal muscular atrophy on the basis of clinical need. [175293]

Mr. Ivan Lewis: All national health service wheelchair services are funded out of general allocation funding to primary care trusts (PCTs). It is up to individual PCTs to set their own eligibility criteria for their service. Decisions about the type of wheelchair provided to an individual will be based on an individual assessment of their needs and the PCTs eligibility criteria. This includes wheelchairs for children with spinal muscular atrophy.

Vaccination: Children

Mr. Stephen O'Brien: To ask the Secretary of State for Health what mechanisms are used by GPs to identify children who are due for immunisation and who have not received it. [171808]

Mr. Bradshaw: There is a requirement under the new General Medical Services contract and the Primary Medical Services (Directed Enhanced Services) (England) Directions 2006, that the general practitioner:

> develops and maintains a register (its "Childhood Immunisation Scheme Register", which may comprise electronically tagged entries in a wider computer database) of all the children for whom the contractor has a contractual duty to provide childhood immunisation and pre-school booster services (who may already have been immunised, by the contractor or otherwise, or to whom the contractor has offered or needs to offer immunisations).

Mr. Stephen O'Brien: To ask the Secretary of State for Health what responsibility general practitioners have to inform parents and guardians that children are due for vaccination. [171817]

Mr. Bradshaw: There is a requirement under the new General Medical Services and Personal Medical Services contract and Primary Medical Services (Directed Enhanced Services) (England) Directions 2006 that the general practitioner:

> (i) develops a strategy for liaising with and informing parents or guardians of children on its Childhood Immunisation Scheme Register about its immunisation programme with the aim of improving uptake; and
>
> (ii) provides information on request to those parents or guardians about immunisation.

Waiting Lists

Mr. Horam: To ask the Secretary of State for Health what targets he has set for reducing waiting times between a patient being placed on a consultant's list and the operation taking place; and what his policy is on these matters. [175276]

Mr. Bradshaw *[holding answer 18 December 2007]:* The operational standard in place for the national health service is a maximum wait of 26 weeks for an operation from the time the decision to admit was made.

By December 2008, patients can expect to wait a maximum of 18 weeks from the time they are referred to a consultant to the start of their treatment, unless it is clinically appropriate for them to wait longer or they choose to do so. This includes time spent waiting for out-patient appointments and diagnostic tests as well as for any operation or other treatment if appropriate.

Walnuttree Hospital: Hospital Wards

Mr. Yeo: To ask the Secretary of State for Health how many wards at the Walnuttree hospital, Sudbury are not in use. [175582]

Mr. Ivan Lewis: The information requested is not held centrally. This is a matter for the national health service locally. However, hospital wards are regularly opened and closed to meet fluctuating demands.

West Hertfordshire Primary Care Trust: Heart Disease Nurses

Mike Penning: To ask the Secretary of State for Health how many heart failure nurses are *(a)* employed and *(b)* on maternity leave in West Hertfordshire Primary Care Trust; and if he will make a statement. [164105]

Mr. Ivan Lewis: The information requested is not held centrally.

JUSTICE

Association of Electoral Administrators

Mr. Pickles: To ask the Secretary of State for Justice if he will place in the Library a copy of the minutes of the recent meeting between his Department's officials and the Association of Electoral Administrators at which holding a general election in the autumn was discussed. [176763]

Bridget Prentice: My officials hold regular meetings on an ongoing basis with the Association of Electoral Administrators at which a range of electoral issues are discussed. Such a meeting, which was pre-planned, took place in September. Issues surrounding the administration of elections were discussed at the meeting along with a variety of other issues. These meetings are informal in nature and minutes are not taken.

Chelmsford Crown Court: Facilities

Mr. Amess: To ask the Secretary of State for Justice what facilities are available at Chelmsford Crown court for (*a*) defendants, (*b*) families of defendants and (*c*) victims of crime; what such facilities were available in (i) 1996, (ii) 1998, (iii) 2001, (iv) 2005 and (v) 2006; what plans he has to improve facilities; what recent representations he has received on this issue; and if he will make a statement. [174070]

Maria Eagle: Facilities available at Chelmsford Crown court are as follows:

(*a*) Since March 2006, there has been a dedicated suite available for defendants on bail.

(*b*) Rooms are not normally provided for families of defendants. However, where there are special circumstances, a lockable interview room is available and can be allocated for use by the families of defendants.

(*c*) Since 1996, there have been three rooms available for victims of crime; the normal witness assembly room plus two other dedicated rooms for vulnerable witnesses or families of murder victims.

Separately, during 2007, there have been representations on proposed new magistrates court buildings in Chelmsford both from a local Councillor and an MP.

There are currently no plans to improve facilities at the Crown court.

Chelmsford Prison

Mr. Burns: To ask the Secretary of State for Justice how many (*a*) adults and (*b*) young offenders there are in Chelmsford Prison. [174982]

Mr. Hanson: At the end of October 2007, there were an estimated 370 adult offenders (aged 21 and over) and 180 young adult offenders (aged 18 to 20) detained in Chelmsford prison. These figures exclude individuals on remand awaiting trial.

Information on the total number of prisoners in all prison establishments in England and Wales can be found at the website:

http://www.justice.gov.uk/docs/population-in-custody-oct07.pdf

These figures have been drawn from administrative IT systems, which, as with any large-scale recording system, are subject to possible errors with data entry and processing.

Christmas

Malcolm Bruce: To ask the Secretary of State for Justice whether it is his Department's policy to use (*a*) incandescent light bulbs and (*b*) LED lights for festive decorations on departmental premises. [173497]

Maria Eagle: The information is as follows:

Ministry of Justice Headquarters Estate:

The Corporate HQ Facilities M&E Contractor (ASEL) purchases lights for festive decoration across the CHQ Estate. The only festive lights ASEL have purchased are lights for the Christmas tree and there is currently no policy in place with regards to light bulb type. The overriding decision making process is governed by Health and Safety policy.

In respect of the delivery Agencies of the Ministry of Justice (including NOMS, HMPS, HMCS and tribunals), these are matters that are left to local management, who are best placed to judge what is most appropriate for local circumstances.

Malcolm Bruce: To ask the Secretary of State for Justice what his Department's policy is on the selection of (*a*) real and (*b*) artificial Christmas trees for his Department's festive decorations; and how real trees are disposed of. [173513]

Maria Eagle: There is currently no written policy in place for the selection of Christmas trees for the Corporate HQ Estate. However, the Corporate HQ Estate Christmas trees are sustainably sourced and recycled after use.

The Corporate HQ Facilities Team organise for MJ Ferguson to purchase the trees from www.pinesandneedles.com. The trees are recycled at Cringle Dock Waste Management, which comes under Western Riverside Waste Authority (www.wrwa.gov.uk). Cringle Dock Waste Management has a special section for Christmas tree recycling.

In respect of the delivery agencies of MoJ (including NOMS, HMPS, HMCS and tribunals), these are matters that are left to local management, who are best placed to judge what is most appropriate for local circumstances. They are, however, being advised to take advantage of the Woodland Trust's scheme for the sustainable disposal of Christmas trees.

Mr. Burns: To ask the Secretary of State for Justice how much his Department spent on (*a*) Christmas cards and (*b*) postage of Christmas cards in 2007. [176917]

Maria Eagle: This is the first year that an MoJ Christmas card has been produced by our print room. To date, 6,000 have been ordered at a cost of 34 pence each, totalling £2,040. These cards are not centrally funded, and each business area will cover the costs of the cards they have ordered from their stationery budgets.

It is not possible to ascertain the specific postage costs relating to these Christmas cards, as all postage is accounted for as a whole, rather than broken down into separate components.

The Department has a general policy where all post is sent out second class unless it is stated otherwise.

Constituencies

Mr. Pickles: To ask the Secretary of State for Justice what the timetable is for *(a)* interim reviews of parliamentary boundaries in particular parts of England and Wales and *(b)* the ratification of parliamentary boundaries for Northern Ireland constituencies. [176670]

Bridget Prentice: The decision to hold interim reviews of parliamentary constituencies in England and Wales, and the timing of such reviews, rests with the Boundary Commissions for England and Wales respectively, which are independent of Government. The Boundary Commissions for England and Wales will give notice of any interim reviews that they intend to carry out.

The Boundary Commission for England is currently conducting an interim review of certain constituencies in Northamptonshire and Somerset. Local inquiries have recently been held in relation to the constituencies that are the subject of the review, and the Assistant Commissioners who conducted the inquiries will now prepare their reports for consideration by the Boundary Commission. I understand that the Boundary Commission has decided to suspend the interim review it had previously announced in Northumberland and Wiltshire.

The Boundary Commission for Wales is currently carrying out an interim review of the parliamentary constituencies of Neath and Brecon and Radnorshire and I understand that it is expected to be completed shortly.

The Boundary Commissions, once they have completed an interim review, will submit a report of their recommendations to my right hon. Friend the Secretary of State for Justice and Lord Chancellor, who will lay the report before Parliament together with a draft Order to give effect to the new boundaries, having allowed a reasonable period for consideration of the report, and, in particular, any representations that may be made to my right hon. Friend the Secretary of State for Justice and Lord Chancellor in respect of specific recommendations. If agreed by Parliament, the report's recommendations will come into force at the next general election.

My right hon. Friend the Secretary of State for Northern Ireland proposes to lay the recent report of the Boundary Commission for Northern Ireland before Parliament at the earliest opportunity with a draft of an Order in Council giving effect without modifications to the recommendations contained in the report. Again, if agreed by Parliament, the report's recommendations will come into force at the next general election.

Courts: Buildings

Tom Brake: To ask the Secretary of State for Justice what plans he has to provide new court buildings in London; and if he will make a statement. [175360]

Maria Eagle: There are plans to provide new and renovated court buildings at four sites in the London region. Of these, the new Rolls Building in Fetter Lane, which will provide new court facilities for High Court work, the Supreme Court in Parliament Square and an extension to the Crown Court at Isleworth are in construction. A project to provide a new 10-courtroom magistrates court for the City of Westminster in Marylebone Road is in procurement.

Courts: Colchester

Bob Russell: To ask the Secretary of State for Justice what recent progress has been made on the private finance initiative project for a new courthouse in Colchester; and if he will make a statement. [175427]

Maria Eagle: Work to finalise the outline business case for the Essex magistrates courts scheme, of which Colchester is a part, is being progressed as one of the priorities within the court building programme. This involves the evaluation of procurement routes, including private finance initiative, to ensure the selected route represents best value for money for the taxpayer. The outline business case is due to be completed early in 2008 and submitted for approval to proceed by the end of the financial year.

Criminal Injuries Compensation Scheme

Mr. Frank Field: To ask the Secretary of State for Justice what proportion of successful claims from the Criminal Injuries Compensation Scheme have been awarded to *(a)* private and *(b)* public sector workers in each of the last 10 years. [176120]

Mr. Straw: The Criminal Injuries Compensation Authority (CICA) records the occupation of claimants, when provided, under 18 broad categories of occupational type e.g. professional/managerial, clerical, skilled worker, student, unemployed, miscellaneous etc. But it does not ask or record whether they work in the private or public sector, since this information is not necessary for the purposes of determining claims. It is not possible therefore for CICA to provide the information requested.

Crown Courts: Milton Keynes

Mr. Lancaster: To ask the Secretary of State for Justice what plans he has to establish a Crown court in Milton Keynes. [174581]

Maria Eagle: There are currently no plans to establish a Crown court in Milton Keynes. However, in June 2007, the then Lord Chancellor, Lord Falconer, announced a major investment in building six new courts, of which a Crown court at Aylesbury was one.

Data Protection

Mr. Pickles: To ask the Secretary of State for Justice what the terms of reference are of the review into the way that personal information is shared between and protected by the public and private sector. [176523]

Mr. Wills: The terms of reference for the independent data sharing review being led by Richard Thomas and Dr. Mark Walport are:

The review will consider whether there should be any changes to the way the Data Protection Act 1998 operates in the UK and the options for implementing any such changes. It will include recommendations on the powers and sanctions available to the regulator and courts in the legislation governing data sharing and data protection. It will also make recommendations on how data sharing policy should be developed in a way that ensures proper transparency, scrutiny and accountability. To inform its recommendations, the review panel will consult with:

(a) the devolved Administrations

(b) the European Commission

(c) the academic and legal community and the media

(d) representatives of the IT community and the private sector

(e) a representative sample of Government departments and agencies with an interest in data sharing and privacy

(f) other parties identified by the review team

The recommendations will seek to take account of technological advances and strike a balance that ensures appropriate privacy and other safeguards for individuals and society, while enabling sharing information to protect the public, increasing transparency, enhancing public service delivery as well as taking into account the need to minimise the burden on business.

Departmental Data Protection

Mr. Philip Hammond: To ask the Secretary of State for Justice what reviews have been undertaken of his Department's rules on data protection in the last two years; if he will place in the Library a copy of the report of the last review of his Department's compliance with data protection laws; and if *(a)* his Department and *(b)* his Department's agencies will undertake a review of their compliance with data protection laws. [168078]

Mr. Wills: I refer the hon. Member to the statement made by right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review. An interim progress report on the review was published on 17 December by the Cabinet Office through a written ministerial statement, column 98WS.

My Department is reviewing the way it handles data alongside the work being carried out by the Cabinet Secretary which will be published in due course.

Mr. Philip Hammond: To ask the Secretary of State for Justice on how many occasions in *(a)* his Department and *(b)* its agencies confidential data have been downloaded on to compact discs (i) without and (ii) with encryption in the last 12 month period for which figures are available; how many of those discs have been posted without using recorded or registered delivery; what procedures his Department has in place for the (A) transport, (B) exchange and (C) delivery of confidential or sensitive data; what records are kept of information held by his Department being sent outside the Department; what changes have been made to his Department's rules and procedures on data protection in the last two years; on how many occasions his Department's procedures and rules on data protection have been breached in the last five years; what those breaches were; what procedures his Department has in place on downloading confidential data on to computer discs before its transfer; what technical protections there are in his Department's computer systems to prevent access to information held on those systems which is not in accordance with departmental procedures; and if he will place in the Library a copy of each of his Department's rules and procedures on the protection of confidential data on individuals, businesses and other organisations. [168259]

Mr. Wills: I refer the hon. Member to the statement made by right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review. An interim progress report on the review was published on 17 December by the Cabinet Office through a written ministerial statement, column 98WS.

No information is available on the number of times that confidential data has been downloaded onto compact discs. Downloading, transport, exchange and delivery of sensitive data, and the recording of these actions, is governed by agreed procedures in line with HM Government standards. My Department's main information systems have been designed to operate at a level of security that covers the requirements for handling personal information.

There is no standard set of rules and procedures required for compliance with the Data Protection Act 1998. What is appropriate will depend on the circumstances and the nature of the personal data itself. Accordingly, data protection measures are specific to location, type and sensitivity of the data in question. There is no overarching set of rules and the Department follows HM Government procedures for assessing risks and establishing controls. Therefore the information requested is not held centrally and could be provided only at disproportionate cost.

The definition of 'breach' in data protection rules and procedures can be broad. Depending on their nature, breaches by Government Departments of the Data Protection Act can be dealt with by the information commissioner, the courts or by Departments at an informal local level. The information requested is not held centrally and could be provided only at disproportionate cost.

Mr. Philip Hammond: To ask the Secretary of State for Justice how many employees of each grade in his Department *(a)* have access to confidential or sensitive data and *(b)* are authorised to download such data to disk; how many of his Department's employees have undergone data protection training in the last 12 months; what the average length of time is that each employee of (i) his Department and (ii) his Department's agencies has spent on data protection training; how many investigations of employees of his Department for improperly accessing confidential information have taken place in the last 12 months; how many such investigations resulted in cases of disciplinary action; and what the circumstances of each of those cases were. [168279]

Mr. Wills: I refer the hon. Member to the statement made by right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review. An interim progress report on the review was published on 17 December by the Cabinet Office through a written ministerial statement, column 98WS.

Like all Government Departments, mine provides training to members of staff. It is included in induction for new staff and ad hoc training events where a specific need exists. The information requested on data protection training at (i) and (ii), and for parts *(a)* and *(b)* of this question is not held centrally and could be provided only at disproportionate cost.

There are no recorded instances of employees in my Department being investigated for improperly accessing confidential information in the last 12 months.

Keith Vaz: To ask the Secretary of State for Justice what procedures are in place in his Department to ensure that personal information relating to members of the public is *(a)* stored and *(b)* transported securely. [168471]

Mr. Wills: I refer my right hon. Friend to the statement made by right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review. An interim progress report on the review was published by the Cabinet Office through a written ministerial statement on 17 December 2007, *Official Report*, column 98WS.

Our new DISC contract, which covers the main HQ, court and tribunal systems, covers security requirements, referring to HMG standards and ISO 17799 (and updates to both) and includes operating procedures covering the carriage of bulky protectively marked assets.

Paper records, when no longer current, are stored in a secure archive. After no later than 30 years, they are reviewed and either transferred under controlled transport arrangements to the National Archive or destroyed.

Mr. Walker: To ask the Secretary of State for Justice whether his Department's information technology and data management systems are BS7799 compliant. [168743]

Mr. Wills: I refer the hon. Member to the statement made by right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review. An interim progress report on the review was published by the Cabinet Office through a written ministerial statement on 17 December 2007, *Official Report*, column 98WS.

All Government Departments are required to ensure that their information technology and data management systems meet the Government standard (known as HMG Infosec Standard 2) which is aligned to BS7799. All MoJ systems comply with the government standard, and are therefore BS7799 compliant.

Mr. Vara: To ask the Secretary of State for Justice on how many occasions the Information Commissioner was contacted by his Department to report breaches of data protection security in each of the last five years. [168815]

Mr. Wills: I refer the hon. Member to the statement made by right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review. An interim progress report on the review was published by the Cabinet Office through a written ministerial statement on 17 December 2007, *Official Report*, column 98WS.

My Department does not maintain a central record of breaches of data protection security reported to the Information Commissioner. However, in the last year, I can say that my Department has reported three potential breaches to his office.

The Information Commissioner's office does not keep records of referrals referenced by Department.

The information requested about the last five years is not held centrally and could be provided only at disproportionate cost.

Mr. Vara: To ask the Secretary of State for Justice how many breaches of data protection security there were in *(a)* his Department and *(b)* his Department's agencies in each of the last five years; and if he will provide details of each breach. [168839]

Mr. Wills: I refer the hon. Member to the statement made by right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review. An interim progress report on the review was published by the Cabinet Office through a written ministerial statement on 17 December 2007, *Official Report*, column 98WS.

Depending on their nature, breaches by my Department of the Data Protection Act 1998 can be dealt with by the Information Commissioner, the courts or by my Department at an informal local level. The information requested about the last five years is not held centrally and could be provided only at disproportionate cost.

However, in the last year, I can say that my Department has reported three potential breaches to the Information Commissioner's office.

Tom Brake: To ask the Secretary of State for Justice whether he proposes to review how his Department transports data; and whether his Department uses TNT to transport data. [169219]

Mr. Wills: I refer the hon. Member to the statement made by right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review. An interim progress report on the review was published by the Cabinet Office through a written ministerial statement on 17 December 2007, *Official Report*, column 98WS.

The review will include data transport arrangements.

We use TNT as the provider of an archive service for paper records. This is an MoD contract that provides a secure storage facility and is used by MoJ Headquarters, the courts, some tribunals and the prison service. After no later than 30 years, records are reviewed and either transferred under controlled arrangements to the National Archive or destroyed.

Business units select a delivery firm to take records to the Archive and there is a tight security control to ensure all records are accounted for. TNT are only involved in transport if business units have requested old records back or when they are being returned to our Records Management Service for review.

Jo Swinson: To ask the Secretary of State for Justice how many confirmed security breaches of databases controlled by his Department occurred in each of the last five years; whether the breach resulted from internal or external action in each case; how many records were compromised on each occasion; and what estimate was made of the total number of records accessible to the individuals concerned. [173710]

Mr. Wills: A small number of incidents have been investigated and no security breach involving loss of information from the Department was found to have occurred.

Departmental Employment Agencies

Mr. Hayes: To ask the Secretary of State for Justice how many staff aged between 16 and 18 were employed by his Department and its predecessor *(a)* directly and *(b)* through an employment agency in each of the last 10 years; what proportion of these were given time off work to undertake some form of training; and what proportion were provided with some form of training (i) wholly and (ii) partially funded by his Department. [171270]

Maria Eagle: There are no central figures available based on the age of staff undertaking training and figures could be obtained only at disproportionate cost. The Ministry of Justice promotes a range of further education and skills development for all our staff, irrespective of age, and is committed to equality of opportunity for all.

Departmental Parliamentary Questions

Mr. Harper: To ask the Secretary of State for Justice how many staff work in his Department's parliamentary branch; and what proportion of their time is spent on dealing with *(a)* parliamentary questions and *(b)* correspondence from hon. Members and peers. [174956]

Maria Eagle: Within the Ministry of Justice there are eight members of staff in the parliamentary branch of which four work solely on parliamentary questions. The correspondence from hon. Members and peers is dealt with by the Ministerial Correspondence Unit of which five work solely on their correspondence.

Departmental Postal Services

Mr. Hayes: To ask the Secretary of State for Justice how many items of post sent by his Department and its predecessor were reported missing by the intended recipient in each year since 1997. [171285]

Mr. Wills: I refer the hon. Member to the statement made by right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review. An interim progress report on the review was published on 17 December by the Cabinet Office through a written ministerial statement, column 98WS.

The Ministry of Justice and its predecessor have no record of any items of post having been reported missing since 1997.

Departmental Telephone Services

Julia Goldsworthy: To ask the Secretary of State for Justice which telephone contact centres are the responsibility of his Department; what mechanisms are in place to monitor their effectiveness; and how many people have been employed in each of those centres in each year since they were established. [166525]

Maria Eagle: The Ministry of Justice funds the following helpline and telephone contact centres, listed in the table, with staffing figures for the last two years:

	Last year (full-time equivalent)	*This year (full-time equivalent)*
Community Legal Advice (CLA)	100.5	179.4
National Debtline	62	88
Duty Solicitor Call Centre (DSCC) (headcount)	79	162
Criminal Defence Service Direct (CDS) (headcount)	40	46
National Mediation Helpline	5	5
Prisoners Abroad	4	4

	Last year (full-time equivalent)	This year (full-time equivalent)
NACRO Resettlement Helpline (National Association for the Care and Resettlement of Offenders)	5	5
Criminal Injuries Compensation Authority (CICA)	3.95	4.25
The National Archives	n/a	4.6
Sentence Calculation	2	2
Home Detention and Curfew and Release on Temporary Licence	2.25	2.25
Family Mediation Helpline	2	2
Victims Helpline	0.2	0.2
The Information Commissioners Office Helplines (ICO)[1]	[2]22	[2]22

n/a - not available at this time.
[1] The Ministry of Justice provides a grant in aid for the ICO's Freedom of Information (FOI) responsibilities. The ICO maintains two helplines (which cover their data protection and FOI responsibilities), of which they are responsible for monitoring the performance and effectiveness. Performance figures are passed on to the Ministry of Justice for information. It was not possible to accurately separate staff figures specifically for the helplines.
[2] approx.
Note
Information that is not available at this time will be provided in due course.

In addition to these, the Department will be funding the Prisoners' Families Helpline for 2008-09 and also plans to launch the Mubarak Trust Helpline as a pilot scheme in Feltham next year.

There are a variety of mechanisms in place across the Department with which Ministers monitor the telephone contact centres' effectiveness. For example, CLA is operated by the Legal Services Commission which is established by the Access to Justice Act 1999. Others are operated by their policy teams under service level agreements.

We are currently surveying high level information on helplines funded by all Government Departments (as a distinct subset of contact centres), for the purpose of exploring the scope for greater co-ordination. We intend to publish aggregate information on the data collated and analysed in spring 2008.

Julia Goldsworthy: To ask the Secretary of State for Justice what information his Department collects and monitors in relation to the telephone contact centres for which his Department is responsible. [166526]

Maria Eagle: At present, my Department collects a wide variety of information on the telephone contact centres it funds for the purpose of monitoring performance. Further information is given in answer to another question from the hon. Member.

The Ministry of Justice has recently launched an online survey for all publicly funded helplines across Government. This collects high level information such as annual cost, funding, staff numbers and pay, opening hours and co-ordination with other helplines. All helplines funded by the Department have completed the survey.

The Contact Council is also collecting more detailed information from all contact centres, measuring their performance and effectiveness against 26 set indicators.

These initiatives will result in increased standardisation in the information collected to monitor performance of telephone contact centres.

Julia Goldsworthy: To ask the Secretary of State for Justice how much each telephone contact centre for which his Department is responsible has *(a)* cost and *(b)* generated in income in each financial year since their establishment. [166527]

Maria Eagle: The following table shows the cost of each helpline and telephone contact centre that the Ministry of Justice funds for the latest available years in each case:

	2005-06	£ 2006-07
Community Legal Advice (CLA)	5,439,163	9,562,564
National Debtline	3,539,432	3,972,448
Duty Solicitor Call Centre (DSCC)	2,818,000	3,096,136
Criminal Defence Service Direct (CDS)	534,000	1,369,943
National Mediation Helpline	75 998	43,147
Prisoners Abroad	1,009,000	1,009,000
NACRO Resettlement Helpline (National Association for the Care and Resettlement of Offenders')	277,842	284,788
Criminal Injuries Compensation Authority	180,000	188,000
The National Archives	Not available at this time.	[2]40,388 (approx based on one quarter)
Sentence Calculation	[1]90,100	[1]90,100
Home Detention and Curfew and Release on Temporary Licence	[1]76,375	[1]76,375
Family Mediation Helpline	Not available at this time.	57,428
Victims Helpline	[1]3,325	[1]3,325
The Information Commissioners Office Helplines	[2]No direct information available	[2]No direct information available

[1] These costs relate to in-house telephone helplines and are therefore an estimate of staff costs.
[2] The Ministry of Justice provides a grant in aid for the ICO's Freedom of Information (FOI) responsibilities. The ICO maintains two helplines which cover the ICO's data protection and FOI responsibilities. It was not possible to separate cost figures specifically for the helplines.

The National Debtline and NACRO are the only telephone contact centres that have a generated income. The following table shows these figures:

	2005-06	£ 2006-07
National Debtline	323,548	592,432
NACRO Resettlement Helpline (National Association for the Care and Resettlement of Offenders)	23,727	5,724

Detention Centres: Children

Mr. Kidney: To ask the Secretary of State for Justice what the longest period is for which a child under 16 has been detained in *(a)* prison awaiting trial and *(b)* an immigration detention centre awaiting a decision on their asylum status in the last 10 years. [174156]

Mr. Hanson: The information requested is not held centrally and could be provided only by examining the time each child under 16 has spent on remand and in an immigration centre awaiting a decision on their asylum status at a disproportionate cost.

Domestic Violence

Mr. Jim Cunningham: To ask the Secretary of State for Justice what steps the Government has taken to increase conviction rates for domestic violence. [173715]

Mr. Coaker *[holding answer 13 December 2007]:* I have been asked to reply.

The National Delivery Plan for Domestic Violence has an objective to improve the criminal justice response to domestic violence. This objective includes actions to increase reporting, arrests and conviction rates for domestic violence. Specific actions undertaken to increase the conviction rates for domestic violence include:

The continued expansion of the Specialist Domestic Violence Court (SDVC) Programme. From April this year, 64 SDVCs are operational, with more planned which will bring the total to over 100.

Guidance and training is being rolled out to all police officers and Crown prosecutors to improve investigations and increase successful prosecutions for domestic violence.

Domestic Violence Co-ordinators have been identified in all police force and Crown Prosecution Service areas to co-ordinate individual agencies' responses to domestic violence.

Funding has been made available for Independent Domestic Violence Advisers, whose involvement with victims of domestic violence has been shown to reduce the number of victims unwilling to support a prosecution.

These steps are having a positive effect: successful prosecutions for domestic violence cases rose from 46 per cent. in a December 2003 'snapshot' to 65 per cent. during the whole of 2006-07, exceeding the target of 64 per cent. By September 2007, successful prosecutions had reached 68 per cent.

Driving Under the Influence

Mr. Jamie Reed: To ask the Secretary of State for Justice how many road accidents in Copeland resulted in prosecutions for driving under the influence of alcohol in each year since 1997. [176640]

Maria Eagle: Information on road accidents is a matter for the Department for Transport.

The information on prosecutions held centrally by my Department does not identify the circumstances of cases and therefore, in the case of drink driving offences, whether an accident was involved. The only case information captured for such prosecutions, apart from the court results for individual offences, is the age and gender of the defendant.

Elections

Mr. Pickles: To ask the Secretary of State for Justice what plans he has to undertake further electoral innovation pilot schemes in the 2008 *(a)* local and *(b)* Greater London Authority elections. [176668]

Mr. Wills: It is not intended to undertake electoral innovation pilot schemes in the 2008 *(a)* local and *(b)* Greater London Authority elections. However, the Government remain committed to exploring the use of technology to modernise aspects of the electoral process, including to make it more accessible.

Elections: Supermarkets

Mr. Pickles: To ask the Secretary of State for Justice what assessment has been made of the consequences for retail competition policy of voting pilots in supermarkets. [176516]

Mr. Wills: Advance voting in retail venues was piloted in Swindon borough council at the May 2007 local elections. They were also used by three local authorities at the May 2006 local elections. These were in the London borough of Lewisham, Rushmoor borough council and Shrewsbury and Atcham borough council.

Voting however has not taken place inside supermarkets although mobile polling stations for advance voting were located in two supermarket car parks in the 2006 Lewisham pilot.

No assessment will be made of the consequences for retail competition policy of voting pilots in supermarkets until there is an intention to extend such pilots more widely.

Electoral Systems

Mr. Laws: To ask the Secretary of State for Justice when he expects to publish the review of electoral systems; and if he will make a statement. [176697]

Mr. Wills: The Government have completed a review of the experience of the voting systems introduced in the United Kingdom since 1997 and are making the review ready for publication as soon as possible.

European Convention on Access to Official Documents

Mr. Maude: To ask the Secretary of State for Justice what differences there are between the requirements of the Council of Europe's draft European Convention on Access to Official Documents and the provisions of the Freedom of Information Act 2000 in relation to public authorities in the UK. [175172]

Mr. Wills: The Government welcome the work that has been carried out by the Group of Specialists on Access to Official Documents in drawing up a draft convention. The Government are keen that there should be a robust convention along the lines of the Freedom of Information Act. The draft convention lays down principles relating to access, whereas the Freedom of Information Act 2000 sets out the detailed provisions of the access regime in England, Wales and Northern Ireland. In relation to coverage of public authorities the scope of the convention is broadly the same as the Freedom of Information Act, where it will be open to parties to the convention to broaden the definition of "public authorities" beyond an obligatory minimum standard. The Government are currently seeking views on whether to use the powers under section 5 of the Freedom of Information Act and extend the coverage of the Act and if so, which organisations it should consider.

The Group of Specialists will meet again in February 2008 to develop a draft Explanatory Memorandum.

Fixed Penalties

Shona McIsaac: To ask the Secretary of State for Justice how many fixed penalty notices for disorder were issued by Humberside police in each year since their introduction, broken down by category. [176861]

Maria Eagle: Information on the number of penalty notices for disorder (PNDs) issued in Humberside, by offence, from 2004 to 2006 is provided in the following table. The PND scheme was extended to all 43 police forces in England and Wales in 2004.

Number of penalty notices for disorder (PNDs) issued to offenders ages 16 and over, Humberside police force area, 2004–06[1]

Offence description	*2004*	*2005*	*2006*
Higher tier offences			
Wasting police time	12	32	76
Misuse of public telecommunications system	5	2	22
Giving false alarm to fire and rescue authority	1	—	2
Causing harassment, alarm or distress	928	1,957	2,306
Throwing fireworks	2	5	14
Drunk and disorderly	604	679	1,003
Sale of alcohol to under 18[2]	2	45	48
Purchasing alcohol for under 18[2]	—	2	13
Purchasing alcohol for under 18 for consumption on premises	—	1	—
Delivery of alcohol to under 18[2]	—	1	4
Criminal Damage (under £500)[2]	16	182	719
Theft (retail under 200)[2]	14	329	1,221
Breach of fireworks curfew[3]	—	1	—
Possession of category 4 firework[3]	—	1	—
Possession by a person under 18 of adult firework[3]	—	3	1
Sale of alcohol to drunken person[4]	n/a	—	—
Supply of alcohol to person under 18	n/a	—	1
Lower tier offences			
Trespass on a railway	—	1	—
Throwing stones at a train/railway	2	—	—
Drunk in a highway	1	5	13
Consumption of alcohol in public place	7	8	30
Depositing and leaving litter	2	6	15
Consumption of alcohol by under 18 on licensed premises[2]	—	4	—
Allowing consumption of alcohol for under 18[2]	—	—	—
Buying alcohol by under 18[4]	n/a	1	2
Total	1,596	3,265	5,490

n/a= Not applicable.

[1] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[2] Offence added with effect from 1 November 2004.

[3] Offence added with effect from 11 October 2004.

[4] Offence added with effect from 4 April 2005.

Fraud: Elections

Mr. Pickles: To ask the Secretary of State for Justice what the timetable is for the full implementation of provisions on requiring signatures in polling stations. [176332]

Bridget Prentice: The Government have previously explained that they intend to bring forward primary legislation to provide a clear requirement for electors in polling stations to sign for their ballot paper, and for the ballot paper to be withheld should an elector refuse to sign. We will bring forward such legislation when parliamentary time allows.

Freedom of Information Act 2000

Mr. Pickles: To ask the Secretary of State for Justice what guidance his Department, or the former Department for Constitutional Affairs, provided on the

maximum amount of time a public authority can take to assess the public interest when responding to a validly constituted Freedom of Information request. [176671]

Mr. Wills: Guidance provided by my Department for Freedom of Information practitioners states that any additional time taken in responding to a request to assess the public interest must be "realistic and reasonable in the circumstances of the particular case". The guidance can be found in full in the Procedural guidance on our website:

http://www.foi.gov.uk/guidance/proguide/chap06.htm

Mr. Pickles: To ask the Secretary of State for Justice if he will use his powers to designate regional chambers as public authorities for the purposes of the Freedom of Information Act 2000. [176520]

Mr. Wills: The Government are currently consulting on extending the coverage of the Freedom of Information Act to those bodies that carry out the function of a public nature and to contractors who provide services which are a function of that public authority. This consultation paper can be found at http://www.justice.gov.uk/publications/cp2707.htm

This consultation will conclude on 1 February 2008. Following analysis of the responses, the Government will decide whether to make a section 5 order and, if so which bodies to consult about whether they, or organisations they represent, should be brought within the ambit of the Act. My Department will consider the case for regional chambers as part of the consultation process.

High Court: Birmingham

Mr. Grieve: To ask the Secretary of State for Justice when he expects to reply to the letter of 3 November from the hon. Member for Beaconsfield on a permanent high court in Birmingham. [174128]

Mr. Straw: I replied to the hon. Member on 10 December.

Hollesley Bay Prison: Prisoners Escape

Mr. Gummer: To ask the Secretary of State for Justice how long on average prisoners who have absconded from HM Prison Hollesley Bay in the last six years have been at large. [169095]

Maria Eagle: Statistics are not available for the year 2002-03. The figures in the following table relate to the average number of days from abscond to recapture of those determinate sentence prisoners who absconded from Hollesley Bay in each of the past five years up to the end of September 2007. Averages such as these can be heavily skewed by one or two prisoners remaining at large for long periods. For example in 2003-04, four absconds were caught the day they absconded, and in total 28 were recaptured within a month.

	Average time at large
2003-04	43
2004-05	50
2005-06	78
2006-07	67
2007-08 (end September)[1]	18

[1] Figures recorded for 2007-08 are provisional and subject to change.

Housing: Carbon Emissions

Mr. Pickles: To ask the Secretary of State for Justice what records the Land Registry keeps of the number and location of zero carbon homes. [176373]

Mr. Wills: Her Majesty's Land Registry does not hold any records relating to zero carbon rating homes. The strategy to make all new homes zero carbon by 2016 comes under the jurisdiction of the Department for Communities and Local Government. Her Majesty's Revenue and Customs may collate statistics relating to homes qualifying for zero carbon tax relief through the monitoring of stamp duty land tax, following the introduction of the Stamp Duty Land Tax (Zero-Carbon Homes Relief) Regulations on 7 December 2007.

Immigration

Nick Herbert: To ask the Secretary of State for Justice how much funding has been allocated to Lord Goldsmith's citizenship review. [175016]

Mr. Wills: The allocated funding for Lord Goldsmith's citizenship review is £200,000 excluding staff costs. Lord Goldsmith is not receiving any remuneration for undertaking this review.

Land Registry

Mr. Pickles: To ask the Secretary of State for Justice for what reasons the Land Registry is introducing new triggers to require compulsory land registration. [176518]

Mr. Wills: Section 5 of the Land Registration Act 2002 confers power on the Lord Chancellor, exercisable by statutory instrument, to prescribe additional events that trigger compulsory first registration of title to land. Land Registry has recently issued a consultation paper, on behalf of the Lord Chancellor, seeking views on the introduction of two new trigger events, aimed at making further progress towards a comprehensive land register. The events proposed are the appointment of a new trustee and the partition of land among trust beneficiaries. The consultation period runs from 19 November 2007 to 29 February 2008. No decision will be made about the introduction of new triggers until all responses to the consultation have been evaluated.

Mr. Pickles: To ask the Secretary of State for Justice what steps the Land Registry is taking to prevent the online register from being *(a)* abused and *(b)* accessed illegally. [176522]

Mr. Wills: Land Registry constantly keeps such matters under review and is continuously reviewing the security control and access restrictions in place for its

internal and external online systems. Land Registry withdrew access to documents available electronically via Land Registry Online on 5 November 2007 and believes this to be a positive step that will help to alleviate the risk of misuse. It would be inappropriate to give details of the specific measures Land Registry has in place to combat abuse and illegal access or those it is considering introducing. Land Registry does have in place a robust anti-fraud strategy and all measures in place are regularly reviewed and revised, with a view to strengthening the protection they provide. Land Registry is working with the police and other organisations to refine its strategy and to develop its expertise in this area.

Land Registry Direct

Mr. Pickles: To ask the Secretary of State for Justice whether *(a)* HM Revenue and Customs, *(b)* the Valuation Office Agency and *(c)* the Valuation and Lands Agency are business users of the Land Registry Direct service. [176331]

Mr. Wills: Her Majesty's Revenue and Customs and the Valuation Office Agency have business user accounts with Land Registry Direct. The Valuation and Lands Agency does not.

Legal Advice

Mr. Pickles: To ask the Secretary of State for Justice what plans he has to increase funding allocated to legal advice for travellers on planning issues. [176502]

Maria Eagle: The Legal Services Commission (LSC) has no plans to do so.

Legal Aid Scheme: ICT

Mr. Dunne: To ask the Secretary of State for Justice (1) what the value is of the IT contract for a new online reporting system for legal aid claims by solicitors; [175636]

(2) which company was awarded the contract to supply a new online reporting system for legal aid claims by solicitors; [175637]

(3) whether the online reporting system for legal aid claims by solicitors is operational. [175638]

Maria Eagle: I refer the hon. Member to the replies I gave to the hon. Member for North-West Norfolk (Mr. Bellingham) on 5 December 2007, *Official Report*, column 1260W.

Legal Aid: Hercules Aircraft

Mr. Hancock: To ask the Secretary of State for Justice (1) who informed the press that the Australian Government would be paying the legal expenses of Kellie Merritt at the forthcoming inquest into deaths of service personnel on the Hercules aircraft shot down in Iraq; [175285]

(2) if he will make it his policy to provide legal aid and assistance to the British families at the forthcoming inquest into the deaths of personnel on the Hercules aircraft shot down in Iraq. [175286]

Maria Eagle: Representation at inquests is outside of the usual scope of the legal aid scheme as set out in the Access to Justice Act 1999 and other documents laid before Parliament. However, it can be made available in exceptional circumstances. There are published criteria that help determine whether a case is exceptional. Applications for exceptional funding must first be made to the Legal Services Commission (LSC). The Ministry understands that applications, in relation to the inquests into the deaths of personnel on the Hercules XV179 shot down in Iraq in January 2005, are currently being considered by the LSC. Only where the LSC considers that the exceptional criteria are met will the applications be passed to the Ministry of Justice for final determination. The Government have not advised the press about any representation of other parties at those inquests.

Legal Services Commission

Mr. Pickles: To ask the Secretary of State for Justice what payments have been made by *(a)* his Department and its predecessor and *(b)* the Legal Services Commission to the Community Legal Partnership in each of the last four years. [176330]

Maria Eagle: The following table gives the payments made by the Legal Services Commission (LSC) to the Community Law Partnership. The LSC has no dealings with the Community Legal Partnership.

	£
2003-04	855,972
2004-05	786,335
2005-06	803,878
2006-07	1,049,085

Members' Correspondence

Mr. Harper: To ask the Secretary of State for Justice how many letters his Department and its predecessors received from hon. Members and Peers in each session of Parliament since 1997. [174931]

Bridget Prentice: The information, which is also available in the Library of the House, is listed as follows.

Calendar year	*Number of letters received from MPs/Peers*
1997	2,458
1998	2,672
1999	2,038
2000	1,844
2001	1,737
2002	2,577
2003	2,746
2004	3,516
2005	3,179
2006	3,524

The Cabinet Office, on an annual basis, publishes a report to Parliament on the performance of Departments in replying to Members' and Peers' correspondence. Information relating to 2007 will be published as soon as it has been collated.

Minimum Wage

Jon Trickett: To ask the Secretary of State for Justice how many London-based staff are employed by his Department on the national minimum wage. [175966]

Mr. Wills: No member of staff employed by the Ministry of Justice in London is paid on (or below) the national minimum wage.

Ministerial Duties: Public Sector

Mr. Pickles: To ask the Secretary of State for Justice which Minister has responsibility for public sector information. [176497]

Mr. Wills: I am the Minister responsible for the Office of Public Sector Information. The Department for Constitutional Affairs, the predecessor to the Ministry of Justice, took over responsibility for public sector information from the Cabinet Office on 31 October 2006.

New Hall Young Offenders Institution: Injuries

Dr. Vis: To ask the Secretary of State for Justice what injuries were incurred by girls held in New Hall Young Offenders Institution during control and restraint in each month in *(a)* 2006 and *(b)* 2007. [173467]

Maria Eagle: There were two control and restraint incidents at New Hall that led to injuries, as follows:

January 2006 - sore right wrist; and

February 2007 - mark on left hand side of face.

Offenders: Crimes of Violence

Nick Herbert: To ask the Secretary of State for Justice how many prisoners are serving indeterminate sentences for public protection for *(a)* sexual assault, *(b)* sexual assault against a child, *(c)* sexual activity with a child and *(d)* arson. [175083]

Mr. Hanson: A research study into prisoners received into prisons in England and Wales under Indeterminate Sentences for Public Protection (IPP) between April 2005 and March 2006, showed that *(a)* 13 offenders were given an IPP for sexual assault, *(b)* 14 offenders were given an IPP for sexual assault of a child under 13, *(c)* 14 offenders were given an IPP for sexual activity with a child and *(d)* 44 offenders were given an IPP for arson. These figures were published in chapter 11 of Offender Management Caseload Statistics 2005, a copy of which can be found in the House of Commons Library.

These figures have been drawn from administrative IT systems and data returns from prison establishments which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Personal Records: Data Protection

Mr. Hayes: To ask the Secretary of State for Justice what steps his Department has taken to protect the personal data on members of the public which it holds. [171415]

Mr. Wills: I refer the hon. Member to the statement made by right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review. An interim progress report on the review was published on 17 December by the Cabinet Office through a written ministerial statement, column 98WS.

The Ministry of Justice has procedures and guidance covering security, information security and data protection designed to identify and control the risk of the unauthorised release of personal data taking place. They include:

Ensuring our sites are physically secure and protected from unauthorised access;

Ensuring our employees are reliable through checks on background;

Providing guidance to staff on general security with separate guidance on IT security and data protection issues;

Procedures for assessing IT systems;

We also have systems for monitoring and checking compliance.

These policies and procedures extend to our contracted IT suppliers.

Political Parties: Finance

Mr. Tyrie: To ask the Secretary of State for Justice what meetings he has held on party funding with Mr. Peter Watt in the last 12 months. [174705]

Mr. Straw: In my capacity as Secretary of State for Justice I have not held any meetings in the last 12 months with Mr. Peter Watt on party funding.

I have furthermore met with Mr. Peter Watt several times in my capacity as one of my party's representatives at the cross party talks.

Mr. Maude: To ask the Secretary of State for Justice pursuant to the answers of 19 November 2007, *Official Report*, column 515W, on political parties: finance, if he will place in the Library copies of the Inter-Party Talks' minutes and background papers which are classed as held by his Department for the purposes of the Freedom of Information Act. [174818]

Mr. Straw: Some information, consisting of papers for the parties to the talks and minutes of the talks, was shared with the Ministry of Justice and is for the purposes of the Freedom of Information Act held by my Department. I am not releasing this information at this time because it was provided in confidence.

Mr. Maude: To ask the Secretary of State for Justice pursuant to the answer of 19 November 2007, *Official Report*, column 524W, on trade unions, whether the funding of political parties was discussed on any of the six occasions. [174819]

Mr. Straw: In my capacity as Secretary of State, I have not held any meetings with trade unions specifically to discuss the funding of political parties. I have furthermore had such meetings as one of my party's representatives on the cross party talks.

At the meetings referred to in my answer of 19 November 2007, *Official Report*, column 524W, a variety of topics were discussed. Party funding was not on the agenda for any of these meetings but my recollection is that I did touch on the issue informally with representatives of trade unions affiliated to the Labour party at one or other of these meetings, as they were breaking up, and without officials.

Mr. Maude: To ask the Secretary of State for Justice what meetings and discussions he has had with Sir Hayden Phillips and his representatives on electoral law on donations to political parties. [175191]

Mr. Straw: I have met with Sir Hayden Phillips several times in my capacity as one of my party's representatives at the cross party talks led by Sir Hayden and spoken to him on the telephone from time to time though the right hon. Gentleman will appreciate that as Sir Hayden's review was established by Her Majesty's Government, it is not possible to wholly separate its role from that of the Secretary of State. I have not however had any meetings with Sir Hayden in either capacity since June 2007 other than at the cross party talks.

Prison Service

Mr. Bellingham: To ask the Secretary of State for Justice how many temporary promotions have been authorised by the Deputy Director General of HM Prison Service in each of the years since he took the appointment as *(a)* Deputy Director General and *(b)* Director of Operations; what the reasons for approving each were; and if he will make a statement. [175201]

Mr. Hanson: The Director of Operations authorised the following temporary promotions as set out in the table. He has not authorised any temporary promotions as Deputy Director General.

Temporary promotions authorised by the Director of Operations

Date	*Number of temporary promotions*	*Reason*
November 2003	One	New post pending permanent recruitment
January 2006	Two	To cover maternity leave
October 2006	One	New post pending permanent recruitment

Mr. Hurd: To ask the Secretary of State for Justice if he will reinstate purposeful activity as a key performance indicator in the Prison Service. [176003]

Maria Eagle: There are no current plans to reinstate purposeful activity as a key performance indicator (KPI). Purposeful activity ceased to be a KPI in 2004-05 because Ministers agreed that KPIs introduced in respect of education, rehabilitation and resettlement, provide a much better demonstration of the efforts to equip prisoners to be less likely to offend on release. Purposeful activity remains an establishment key performance target and performance is regularly monitored by operational managers.

Mr. Bellingham: To ask the Secretary of State for Justice how many investigations by the prisons and probation ombudsman have been assisted by the lead investigator for the Tasker inquiry; and if he will make a statement. [175626]

Maria Eagle: The lead investigator for the Tasker inquiry has assisted in a total of 13 investigations by the prisons and probation ombudsman which were carried out during 2005 and 2006.

Mr. Bellingham: To ask the Secretary of State for Justice how many inquiries into deaths in custody by the prisons and probation ombudsman have been *(a)* led and *(b)* assisted by the lead investigator for the Tasker inquiry since the inquiry was established; and if he will make a statement. [175627]

Maria Eagle: Since the Tasker inquiry was established, its lead investigator has been employed to complete an investigation into one death in custody on behalf of the prisons and probation ombudsman. The investigation had been started by one of the ombudsman's investigative staff who had subsequently had to take long-term sick leave. Additionally, the lead investigator to the Tasker inquiry has been involved in follow up work to some other investigations which took place prior to the Tasker inquiry being established.

Mr. Bellingham: To ask the Secretary of State for Justice whether those conducting investigations for the prisons and probation ombudsman may also conduct investigations on behalf of HM Prison Service; and if he will make a statement. [175629]

Maria Eagle: Staff who are in the direct employment of the office of the prisons and probation ombudsman do not conduct investigations on behalf of HM Prison Service. A number of self-employed investigators are retained by the office and are occasionally called upon to carry out investigations in periods when staff resources are stretched. They are free to enter into other employment when they are not doing work for the office of the prisons and probation ombudsman.

Prison Service: Sick Leave

Mr. Bellingham: To ask the Secretary of State for Justice with reference to the answer of 16 May 2007, *Official Report*, column 787W, on prison service: sick leave, how many staff are currently off work sick in HM Prison Service with stress; how many staff were off work sick with stress for a period of *(a)* less than one week, *(b)* between one and two weeks, *(c)* between two weeks and a month, *(d)* between one and two months, *(e)* between two and three months, *(f)* between three and four months, *(g)* between four and five months, *(h)* between five and six months and *(i)* more than six months in the last two years; and if he will make a statement. [173720]

Maria Eagle: The information requested is as follows:

Public Sector Prison Service

At the latest date that figures are available (30 November 2007) there were 465 staff absent from the public sector Prison Service for reasons classified as 'Mental and Behavioural Disorders' - predominately stress related. Information on the number of cases of 'Mental and Behavioural' absences by length of absence over the last two complete years is shown in the following table. The information refers to all stress related absences, whether they were work-related or not. The average total workforce during this period was 48,817 and therefore the current number absent due to 'Mental and Behavioural Disorders' is less than 1 per cent. of total workforce.

Mental and behavioural absences in the public sector prison service by length: April 2005 to March 2007

Length of absence	*Cases*
< 1 week	1,243
1 to 2 weeks	732
2 weeks to 1 month	1,532
1 to 2 months	1,238
2 to 3 months	707
3 to 4 months	433
4 to 5 months	320
5 to 6 months	243
More than 6 months	551

Contracted Prisons

HMP and YOI Parc has reported that no staff are currently absent due to stress. No other contracted establishments have reported information on the number of current absentees.

Information from the contracted estate is contained in the following table.

Absences due to stress at contracted prisons over the past two years

Length of Absence	*Cases*[1]
< 1 week	9
1 to 2 weeks	8
2 weeks to 1 month	15
1 to 2 months	11
2 to 3 months	10
3 to 4 months	0
4 to 5 months	0
5 to 6 months	1
More than 6 months	8

[1] Information has been provided for four contracted prisons: Parc, Altcourse, Rye Hill and Wolds. No information has been supplied for: Ashfield, Bronzefield, Dovegate, Doncaster, Forest Bank, Lowdham Grange and Peterborough.

Prisoner Escapes

Tom Brake: To ask the Secretary of State for Justice how many prisoners absconded from each *(a)* prison and *(b)* young offender institution in London in each of the last 10 years; and if he will make a statement. [175359]

Mr. Hanson: The number of incidents of prisoners absconding from prisons in the London area in each of the last 10 years is shown in the following table. This information is also available for all prisons at the Prison Service website

www.hmprisonservice.gov.uk

The number of incidents of prisoners absconding from prisons in the London area between 1997-98 and 2006-07

Establishment	*1997-98*	*1998-99*	*1999-2000*	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*Total*
HMP Belmarsh	0	0	0	0	0	0	0	0	0	0	0
HMP Brixton	0	1	1	1	0	0	2	0	0	0	5
HMP Bronzefield	0	0	0	0	0	0	0	0	0	0	0

Total	3	2	1	4	3	4	5	1	0	0	23

Prisoners

Nick Herbert: To ask the Secretary of State for Justice what proportion of all released prisoners were reconvicted for further offences committed in the first 18 days after release in the last year for which data are available. [174907]

Mr. Hanson: Reoffending rates for 18 days following release from prison are not routinely calculated. Reoffending rates have historically been calculated over a two year period and the most recent figures for adults released from prison in England and Wales are shown in the table.

Two year reoffending rates of adults released from prison, based on the first quarter of each year

	Reoffending rate (percentage)
2000	64.8
2002	67.4
2003	65.8

	Reoffending rate (percentage)
2004	64.7

Reoffending rates by month of re-offence are illustrated in figure 3 of "Re-offending of Adults: results from the 2004 cohort" publication. This information is currently not available for prison discharges only. This publication be can be found online at

http://www.homeoffice.gov.uk/rds/pdfs07/hosb0607.pdf

Prisoners Transfers

Lady Hermon: To ask the Secretary of State for Justice pursuant to the answer of 5 December 2007, *Official Report*, columns 1259-60W, for what offences the 11 prisoners transferred to prisons in England and Wales from prisons in Northern Ireland since 2000 were serving sentences; and what the grounds for transfer were. [175770]

Mr. Hanson: The transfer of prisoners between UK jurisdictions is governed by schedule 1 to the Crime (Sentences) Act 1997. Each application is assessed on its individual merits, taking into consideration:

(i) the purpose for which the transfer is requested;

(ii) whether the prisoner was ordinarily resident in the jurisdiction to which transfer is sought prior to the imposition of the current sentence; or whether members of the prisoner's close family are resident in that jurisdiction and there are reasonable grounds for believing that the prisoner will receive regular visits from them; or whether the prisoner has demonstrated through preparations that he has made for his life following release from prison that he intends to reside in the receiving jurisdiction upon release and he is in the later stages of his sentence;

(iii) whether there are grounds for believing that the prisoner may disrupt or attempt to disrupt any prison establishment, or pose an unacceptable risk to security; and

(iv) any compelling or compassionate circumstances.

The application of each prisoner transferred from Northern Ireland since 2000 met one of the conditions for transfer set out.

Information on the offences committed by each of the prisoners is not centrally held. I will write to the hon. Member once the information is available.

Prisoners: Deportation

Damian Green: To ask the Secretary of State for Justice what assessment his Department has made of the number of foreign national prisoners who will qualify under the exemptions contained in the UK Borders Act 2007 from automatic deportation expressed as a percentage of foreign national prisoners in the prison and immigration removal estate. [163782]

Mr. Byrne: I have been asked to reply.

I am advised that based on our experience of deportations appeals and immigration cases currently subject to the non-suspensive appeals process, we are confident that most individuals subject to the new legislation will not fall within one of the exemptions.

Prisoners: Diets

Mr. Hurd: To ask the Secretary of State for Justice if he will eliminate fast and convenience foods from the diets of those in custody in *(a)* prisons and *(b)* young offenders' institutions; and if he will provide supplements aimed at improving behaviour, concentration and health into such diets. [176077]

Maria Eagle: The 2006 National Audit Office report HM Prison Service Serving Time: Prisoner Diet and Exercise noted that on the whole food offered to prisoners is in line with the Government's recommendations on healthy eating. Research into the effect on behaviour of nutritional supplements is planned to take place in two young offender institutions.

Prisoners: Drugs

Nia Griffith: To ask the Secretary of State for Justice how many people who have served jail sentences for drug related offences later re-offended in the latest period for which figures are available. [174739]

Mr. Hanson: Information is not available on re-offending by offenders released from prison having been convicted of drug offences. The most recently published adult re-offending figures ("Re-offending of Adults: Results from the 2004 Cohort") cover offenders released from prison and offenders commencing community sentences in England and Wales in the first quarter of 2004. Of those who were convicted of offences relating to the import, export, production or supply of drugs, 31.4 per cent. re-offended within two years. For drug possession and small scale supply offences this figure was 48.2 per cent.

These numbers relate to specific drugs offences only (including the possession and supply of drugs) and not to other offences (such as those involving acquisitive crime) which may be related to drugs issues of the offender.

Nia Griffith: To ask the Secretary of State for Justice (1) what proportion of those persons serving community service sentences are doing so for drug-related offences; [174741]

(2) how many people are serving community service sentences for drug-related offences. [174742]

Mr. Hanson: On 30 June 2007, there were 5,470 persons (rounded to nearest 10) being supervised by the probation service under community sentences given for drugs offences. This represents some 5 per cent. of all persons being supervised under community sentences on that date. These numbers relate to specific drugs offences only (including the possession and supply of drugs) and not to other offences (such as those involving acquisitive crime) which may be related to drugs issues of the offender.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Nia Griffith: To ask the Secretary of State for Justice (1) what proportion of those persons on remand are on remand for drug-related offences; [174743]

(2) how many people are on remand for drug-related offences; [174744]

(3) what proportion of those persons serving jail sentences are doing so for drug-related offences; [174745]

(4) how many people are serving jail sentences for drug-related offences. [174746]

Mr. Hanson: At the end of October 2007 there were 12,996 prisoners being held on remand in all prison establishments in England and Wales, of which 1,874 were for drug offences, or 14 per cent.

At the end of October 2007 there were 66,477 prisoners serving sentences in all prison establishments in England and Wales of which 10,526 were for drug offences, or 16 per cent..

This information is obtainable from the Population in Custody Monthly Tables at the website:

http://www.justice.gov.uk/docs/population-in-custody-oct07.pdf

These numbers relate to specific drugs offences only (including the possession and supply of drugs) and not to other offences (such as those involving acquisitive crime) which may be related to drugs issues of the offender.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Mr. Burns: To ask the Secretary of State for Justice what steps he is taking to combat the circulation and possession of illegal drugs in Chelmsford prison; and if he will make a statement. [174981]

Maria Eagle: HMP/YOI Chelmsford is taking many steps to tackle the supply of drugs including searching, perimeter security and close liaison with other agencies. It would not be appropriate for operational reasons to give details of the strategies currently in place.

Prisoners: Employment

Mr. Hurd: To ask the Secretary of State for Justice if he will introduce a key performance indicator target for prison establishments to provide a full working day for prisoners. [176004]

Maria Eagle: There are no plans to introduce a KPI to measure a full working day for prisoners. Currently, the Prison Service has KPIs for offending behaviour, drug treatment and employment and accommodation on release. These measures reflect the key work of the Prison Service in making prisoners less likely to reoffend.

Prisoners: Foreigners

Nick Herbert: To ask the Secretary of State for Justice how many prisoners serving indeterminate sentences for public protection for an offence of rape or attempted rape have a tariff of *(a)* under two years, *(b)* two years or more but less than four years and *(c)* four years or more. [175080]

Mr. Hanson: A research study into prisoners received into prisons in England and Wales under Indeterminate Sentences for Public Protection (IPP) between April 2005 and March 2006 found that 46 IPPs had been given for rape or attempted rape. Of these 46, two had a tariff of under two years; 21 had a tariff of two years to less than four years; and 20 had a four year plus tariff (tariff details were not provided for the remaining three).

These figures have been drawn from administrative IT systems and data returns from prison establishments which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisoners: Mentoring

Mr. Hurd: To ask the Secretary of State for Justice what plans the Government have to expand the role of mentoring in helping prisoners develop employable skills. [175467]

Mr. Hanson: In December 2006, the Government set out in the document 'Reducing Re-offending through Skills and Employment: Next Steps' their plans for improving the skills and employment outcomes for all offenders in custody and in the community. A key element of this plan involves engaging employers to work with offenders and ex-offenders. Many employers offer training programmes which not only teach vocational skills but also involve mentoring in order to develop softer skills and improve employability. These softer skills include job searching, CV preparation, interview techniques and customer service.

Mentoring is also a vital service offered by voluntary and community sector organisations. There are several projects running across the country where these organisations work in partnership with Probation Boards, the Prison Service and the regional government offices to remove barriers to employment for offenders, including via mentoring on release from custody.

The Government's aim is to facilitate the sharing of good practice and lessons learnt from all the above examples of mentoring to encourage further and wider use of the methods which are proven to work best in improving skills and employability of offenders.

Prisoners: Police Custody

Mr. Ruffley: To ask the Secretary of State for Justice how many prisoners were held in police cells in each police force area in each of the last five years; and at what estimated cost in each year. [172863][1]

Mr. Hanson: Prisoners are either held in police cells under Operation Safeguard or as ad-hoc "lockouts".

Operation Safeguard was used in 2006 and 2007. Table 1 shows the number of occasions on which prisoners have been held in police cells under Operation Safeguard in each police force area in England and Wales in 2006 and 2007. (One occasion is defined as one prisoner night spent in a police cell.)

Table 1: The number of occasions on which prisoners were held in police cells under Operation Safeguard

Police force area	2006	2007
Avon and Somerset	0	132
Bedfordshire	0	389
Cambridgeshire	212	1,157
Cheshire	103	4,038
Cleveland	0	4

1. *[Official Report, 20 February 2008, Vol. 472, c. 8MC.]*

Table 1: The number of occasions on which prisoners were held in police cells under Operation Safeguard

Police force area	*2006*	*2007*
Cumbria	0	318
Derbyshire	113	439
Devon and Cornwall	38	1,803
Dorset	71	355
Durham	42	1,090
Dyfed Powys	1	615
Essex	1,009	3,963
Gloucestershire	0	17
Greater Manchester	15	2,800
Gwent	0	839
Hampshire	65	1,384
Hertfordshire	40	1,170
Humberside	0	84
Kent	335	3,292
Lancashire	0	1,636
Leicestershire	0	2,689
Lincolnshire	168	1,446
Merseyside	196	165
Metropolitan	333	9,799
Norfolk	0	20
North Wales	14	1,619
North Yorkshire	0	39
Northamptonshire	219	1,187
Northumbria	0	1,113
Nottinghamshire	0	184
South Wales	81	1,254
South Yorkshire	0	935
Staffordshire	0	2
Suffolk	83	1,085
Surrey	0	107
Sussex	338	258
Thames Valley	433	2,627
Warwickshire	93	1,086
West Mercia	0	55
West Midlands	570	6,237
West Yorkshire	45	3,432
Wiltshire	0	89

The police forces involved in Operation Safeguard charge NOMS for the cost of making cells available to accommodate prisoners. As invoices are received in arrears and may be subject to variable costs dependent upon individual prisoner and other circumstances, cost per year by force cannot be accurately calculated. However, the average estimated cost of holding a prisoner in a police cell under Operation Safeguard is currently in the region of £385 per night.

Table 2 shows the total numbers of prisoners accommodated overnight in police cells as ad-hoc lockouts.

Ad-hoc lockout data are not available for individual police forces and are approximate due to diverse recording methods.

Table 2: The number of prisoners held in police cells as ad-hoc lockouts

	Number
2003	1,037
2004	682
2005	918

Table 2: The number of prisoners held in police cells as ad-hoc lockouts

	Number
2006	1,062
2007	126

The agreed basic charge for ad-hoc lockouts is £55 per prisoner per night. Police forces may invoice additional charges to cover weekend and bank holidays, medical charges and the need for additional staff. The average cost is therefore estimated to be £120 per prisoner per night.

Prisoners: Release

Mr. Ruffley: To ask the Secretary of State for Justice in how many cases the current residential address of a *(a)* former convicted prisoner and *(b)* foreign national former prisoner subject to supervision following release is not known. [176304]

Mr. Hanson: The information requested is not held centrally and could be obtained only at disproportionate cost as the data are retained in probation office files, and would have to be collated manually as there is no appropriate search function within the databases.

Prisons

Nick Herbert: To ask the Secretary of State for Justice how many existing prison places he plans to withdraw in each year until 2014. [176100]

Mr. Hanson: My right hon. Friend the Secretary of State for Justice and Lord Chancellor announced on 5 December 2007 in response to the review on prisons by Lord Carter an additional 10,500 prison places by 2014 including up to three large 'Titan' prisons, housing around 2,500 prisoners each.

The Carter Review proposed that this increase in capacity will allow the Government to close around 5,000 places in old, inefficient prisons by 2014. Decisions on and the timetable for which prisons should be closed or places removed from use will be made as the programme for these new prison places is developed.

In addition, there is a planned rolling programme of refurbishment of accommodation across the prison estate, which requires the temporary closure of prison places. This allows the critical maintenance of the estate to be undertaken whilst having no significant net change on the number of places in use.

Prisons: Education

Mr. Hurd: To ask the Secretary of State for Justice what progress has been made in expanding the programme of business-led training of prisoners provided by National Grid Transco. [175185]

Mr. Hanson: I welcome the work that National Grid is doing to train prisoners and get them into work on release and would support any moves by them to expand their Offender Employment Programme.

In December 2006, the Government set out in the document "Reducing Re-offending through Skills and

Employment: Next Steps" their plans for increasing employer involvement in the delivery of skills and employment programmes for all offenders in custody and in the community. I am encouraged by the ever increasing number of employers engaging with offenders and ex-offenders to improve their skills and employment outcomes.

Many of these employers, from the public, private and voluntary sectors, are members of our Employer Reference Group which was established in January 2006 to work with the Government and help shape policy on this important area. National Grid is a member of the Group and contributes to the development of employer engagement activities for improving the employment of offenders.

Mr. Hurd: To ask the Secretary of State for Justice how many prisoners have been released to take part in educational programmes in the community in 2007; and what plans he has to increase that number in future years. [175186]

Mr. Hanson: The latest available data on the numbers of releases on temporary licence for training and education relate to 2006, and are published in Offender Management Caseload Statistics (Tables 10.6 and 10.6a), a copy of which is available from the Library of the House and from the following website:

http://www.justice.gov.uk/publications/prisonandprobation.htm

Prisoners will only be released on temporary licence if they meet the eligibility criteria and pass a risk assessment. Governors have an overriding duty, when considering any release, to ensure that both public safety and public confidence in the system are maintained.

Data show that numbers of offenders released to take part in educational programmes continues to increase and we will support the Prison Service in maintaining this, subject to the abovementioned concerns being satisfied. It is one of the Government's key objectives to improve the skills and employment outcomes of (ex) offenders as set out in our "Reducing Re-Offending Through Skills and Employment: Next Steps" action plan.

Prisons: Exercise

Mr. Hurd: To ask the Secretary of State for Justice if he will increase the prison rules targets of one hour minimum exercise per week for adult prisoners and two hours minimum for young offenders. [176002]

Maria Eagle: There are no current plans to change the minimum exercise requirements contained within Prison and Young Offender Institution Rules. The minimum requirement is, on average, exceeded by both adult prisoners who accept the opportunity for exercise and young offenders (i.e. those in the 15 to 17 and 18 to 20 age groups).

Prisons: Food

Mr. Ruffley: To ask the Secretary of State for Justice what the cost is of the daily food allowance for prisoners in *(a)* prison cells and *(b)* police station cells; and when they were last changed. [176305]

Maria Eagle: The public sector Prison Service does not set a daily food allowance. Each governor sets a food budget based on the establishment's requirements. The average daily food cost per prisoner in public sector prisons for 2006-07 was £1.97. In establishments operated by the contracted sector this figure ranged from £2.10 to £3.07.

Under the terms of Operation Safeguard, police forces may be reimbursed for the costs of food, at around £12 for each prisoner over a 24 hour period.

Prisoners are also held as ad-hoc lockouts (i.e. when the designated prison's reception will be closed before their arrival time). Basic charges for holding a prisoner per night includes an element for providing meals.

Prisons: Therapeutic Residential Units

Dr. Vis: To ask the Secretary of State for Justice how much has been spent on prison-based therapeutic residential units in each of the last five years; and how many beds are in each prison-based unit. [173547]

Maria Eagle: The number of therapeutic community places in prisons is as follows:

Therapeutic Community Places

Prison	*Number*
Grendon	235
Dovegate	200
Blundeston	40
Gartree	23
Send[1]	40

[1] Women

It is not possible to separate out the costs of the therapy units at these prisons without incurring considerable and disproportionate cost.

Probation Service

Mr. Jim Cunningham: To ask the Secretary of State for Justice what plans he has for future levels of funding of the Probation Service. [175268]

Maria Eagle: Probation funding for the next three years, 2008-09 to 2010-11, is not yet confirmed by the Ministry of Justice. Provisional budget planning figures have recently been issued for probation boards' main grant only for 2008-09 which show an increase of over 2 per cent. for probation boards.

Mr. Gerrard: To ask the Secretary of State for Justice what was spent on central IT for the Probation Service in England and Wales for each financial year since 1997-98. [175384]

Maria Eagle: Expenditure on IT services managed centrally by the National Probation Directorate (NPD) and the National Offender Management Service (NOMS) is:

		£ million
	Resource	*Capital*
2006-07	37	0.8
2005-06	33	0.7
2004-05	46	0.5

	£million	
	Resource	*Capital*
2003-04	50	3.8
2002-03	30	9.5

The costs include the two centrally managed contracts to provide an IT infrastructure for the Probation Service. STEPS1 ran from 1 January 2002 until 31 December 2005; this was replaced by the OMNI contract which commenced on 1 January 2006 and associated replacement hardware and software. In addition other central IT costs are included[1].

The resource costs are mainly recharged to Probation boards.

For the period up to 31 December 2001 the National Probation Service Information System Strategy (NPSISS) framework enabling agreement (let in 1994) provided the core infrastructure and case management application; by the end of March 2001 49 of the then 54 probation areas were connected to the NPSISS network with the remaining areas existing via local arrangements. The full cost of the NPSISS programme over seven years to the end of 2001 was £118.038 million[2].

[1] Support and development of NFS legacy case management applications, GSI accreditation and half of the OASys and ViSOR costs (these jointly apply to the Prison Service) are included. NOMIS development costs are not included as NOMIS is not primarily a probation system.

[2] NAO report on NPSISS April 2001.

Probation Service: Expenditure

Mr. Drew: To ask the Secretary of State for Justice what the expenditure of the Probation Service in England and Wales was in *(a)* 2003-04, *(b)* 2004-05, *(c)* 2005-06 and *(d)* 2006-07 on (i) drug treatment and testing orders, (ii) work on multi-agency public protection arrangements, (iii) basic skills and (iv) victims. [173768]

Maria Eagle: Expenditure is not reported according to the categories requested. Probation boards meet the cost of managing and enforcing Drug Treatment and Testing Orders (DTTO) and Drug Rehabilitation Requirements (DRR) through their grant as they see fit to meet their statutory duties. The following table shows the total budget allocation to probation areas in England and Wales over the period in question:

Allocation to probation areas to fund DTTO/DRRs supervision and enforcement costs in England and full DTTO/DRR costs in Wales

	£ million
2003-04	24
2004-05	34
2005-06	39
2006-07	39

These figures include DTTO/DRR funding in Wales for the commissioning of drug treatment and testing directly from the treatment providers. In England, the treatment and testing components of the Drug Treatment and Testing Order (DTTO) and Drug Rehabilitation Requirement (DRR) are currently funded by a central contribution to the Department of Health Pooled Treatment Budget (PTB). The total contribution in 2003-04 was £29.7 million, rising to £42 million in each of the subsequent years, including 2006-07 as described in the following table below:

Amount paid to pooled treatment budget to fund DTTO/DRR treatment and testing in England

	£ million
2003-04	29.7
2004-05	42
2005-06	42
2006-07	42

The costs relating to basic skills and victims were not separately identified by probation boards before 2005-06 except in trial costing exercises in 2002-03 and 2003-04 when the data were not complete.

In both 2005-06 and 2006-07 probation boards spent £12.2 million on victims. In 2005-06, the only year in which data were available for basic skills, expenditure was £9.4 million. Expenditure on MAPPA is not identified separately.

Mrs. Gillan: To ask the Secretary of State for Justice how much was spent on accredited programmes for the Probation Service in England and Wales in each financial year since 2003-04. [173802]

Maria Eagle: Probation boards meet the cost of delivering accredited programmes through their grant as they see fit to meet their statutory duties. Probation boards' spend on accredited programmes is as follows:

	£ million
2005-06	77
2006-07	85
2007-08	86.5

There is no information relating to expenditure for years leading up to 2005.

Mrs. Gillan: To ask the Secretary of State for Justice how much was spent on central infrastructure, including IT, estates and approved premises, for the Probation Service in England and Wales in each year since 1997-98. [173803]

Mr. Gerrard: To ask the Secretary of State for Justice what was spent on local infrastructure, including IT and estates, for the Probation Service in England and Wales for each financial year since 1997-98. [175380]

Maria Eagle: The 42 local probation boards are supported by a range of services provided at the centre of the National Offender Management Service (NOMS) and to varying extent recharged to the probation boards. The main items of infrastructure are Estate Management and Facilities Management for probation properties (including Approved Premises) and IT services. The gross cost of these services is as follows:

	£ million	
	Resource	*Capital*
2006-07	148	11
2005-06	174	3

	Resource	£ million Capital
2004-05	130	27
2003-04	133	19

Notes:
1. Figures are not provided before 2003-04 as not all these services were managed centrally; expenditure was mainly met directly by local probation boards and figures are not held centrally.
2. There may be further related expenditure met locally by probation boards which is not separately identifiable. Other costs met centrally are not considered to be "infrastructure".
3. From 2005-06 due to a classification of expenditure change, certain property expenditure previously treated as Capital is now treated as Resource.
4. IT expenditure may vary year-on-year according to the amount of one-off costs such as hardware upgrade.

Procurement

Mr. Pickles: To ask the Secretary of State for Justice how many plastic bags his Department has procured, and at what cost, since it was created. [176673]

Mr. Wills: Information requested is not held centrally and could be obtained only by contacting each division of my Department at a disproportionate cost.

The Ministry of Justice encourage recycling initiatives of which there are many and an increasing number across the estate, to minimise the impact of plastic bags in waste. Our procurement policy is also to ensure that purchasing is environmentally focussed and that our suppliers have their own sustainable strategies. Key elements of our own policy are to keep consumption to a minimum, to use only recycled and recyclable products and materials wherever possible, and to encourage local management and facilities managers to operate effective recycling schemes.

Prosecutions: Easington

John Cummings: To ask the Secretary of State for Justice how many *(a)* convictions for and *(b)* prosecutions of drug-related offences took place in Easington constituency in each year since 2000. [172767]

Maria Eagle: The number of defendants found guilty at all courts and proceeded against for drug-related offences at Easington magistrates court and North Durham magistrates court for the years 2000 to 2006 can be found in the following table. In 2002, Easington magistrates court was amalgamated with Chester-le-street, Derwentside and Durham magistrates courts to make up North Durham magistrates court.

It is not possible to identify those offenders in the Easington constituency, as the data is not collected at this level of detail.

The number of defendants proceeded against and found guilty of drug offences in Easington magistrates court and North Durham magistrates court for the years 2000 to 2006[1,2,3,4]

	Easington magistrates court		North Durham magistrates court	
	Proceeded against	Found guilty	Proceeded against	Found guilty
2000	122	80	[5]	[5]
2001	151	147	[5]	[5]
2002	0	6	335	279
2003	[5]	[5]	314	288
2004	[5]	[5]	206	195
2005	[5]	[5]	242	221
2006	[5]	[5]	187	184

[1] These data are provided on the principal offence basis.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces and courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[3] It is not possible to identify those prosecutions or convictions for other offences, e.g. murder, or manslaughter, which were due to drug-related offences as the circumstances surrounding offences are not held centrally.
[4] The found guilty column may exceed those proceeded against, as it may be the case that the proceedings in the magistrates court took place in the preceding year and they were found guilty at the Crown court in the following year, or the defendants was found guilty for a different offence to the original offence proceeded against. It is also possible that some of those proceeded against were transferred to North Durham upon amalgamation of the four magistrates courts per caveat.
[5] In 2002 Easington magistrates court was amalgamated with the following three other magistrates courts to make up North Durham magistrates court: Chester le Street, Derwentside, and Durham.
Source:
Court proceedings database held by RDS Office for Criminal Justice Reform—Ministry of Justice.

Regulation

Mr. Maude: To ask the Secretary of State for Justice what assessment *(a)* officials in his Department and *(b)* the Hayden Phillips review have made of trends in the average level of spending in real terms at a local level by parliamentary candidates during the general election periods regulated by the Representation of the People Act. [175174]

Mr. Straw: No such assessment has been made by officials in my Department.

Sir Hayden Phillips' Review of the Funding of Political Parties considered spending levels by parties and candidates. His publications can be found at:

http://www.partyfundingreview.gov.uk/

Schools

Andrew Stunell: To ask the Secretary of State for Justice what percentage of school buildings approved by his Department were built to the Building Research Establishment Environmental Assessment Method *(a)* very good and *(b)* excellent standard in each of the last five years; and what the construction cost of those buildings was. [172284]

Maria Eagle: The Ministry of Justice has built or approved no schools. However, the Department has completed 38 projects within the last five years or are in the final stages of completion. 26 have been assessed under the BREEAM assessment model.

(a) 15 have been assessed as "Excellent" (58 per cent.)

2004—3 projects (12 per cent.)

2007—12 projects (46 per cent.)

(*b*) 11 have been assessed as "Very Good" (42 per cent.)

2003—1 project (4 per cent.)

2004—1 project (4 per cent.)

2005—1 project (4 per cent.)

2006—2 projects (7 per cent.)

2007—6 projects (23 per cent.)

(*c*) 12 projects have still to be assessed.

The capital costs of the work are not known for projects where it was the Landlord who met the Capital cost of the works or the project was procured by the Lead local authority prior to the Courts Act 2005 or the project was a PFI scheme. The capital cost of the 14 projects where costs are known amounts to £190.2 million.

Security Breaches

Mr. Evans: To ask the Secretary of State for Justice how many confirmed data security breaches there have been in his Department in the last 36 months; and what action was taken after each occurrence. [170248]

Mr. Wills: I refer the hon. Member to the statement made by right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review. An interim progress report on the review was published by the Cabinet Office through a written ministerial statement on 17 December 2007, *Official Report*, column 98WS.

A small number of incidents involving breach of our data security controls have been reported and investigated. Three of these have been reported to the Information Commissioner as potential breaches.

Except in exceptional cases, when it is in the public interest, it has been the policy of successive Governments not to comment on particular breaches of security.

Sentencing

Mr. Burns: To ask the Secretary of State for Justice how many young offenders have been given a custodial sentence in West Chelmsford constituency in each of the last five years. [174980]

Mr. Hanson: Numbers given immediate custody by criminal justice area are published in the Ministry of Justice statistical bulletin, 'Sentencing Statistics 2006'. The total number sentenced and the percentage given immediate custody for Essex can be found in Table 5.1.

http://www.justice.gov.uk/docs/sentencing-stats2006.pdf

Please note that these figures are for all ages and are not limited to young offenders.

The information is also in the table as follows.

Number of young offenders[1] sentenced to immediate custody at Chelmsford courts[2], 2002-06

Defendants

Court.	*2002*	*2003*	*2004*	*2005*	*2006*
Aged 10-17					
Chelmsford magistrates court	26	23	41	28	21
Chelmsford Crown court	12	7	12	14	9
Aged 18-20					
Chelmsford magistrates court	61	52	70	53	57
Chelmsford Crown court	75	81	76	97	98
Total for Chelmsford	174	163	199	192	185

[1] Young offenders are aged 18-20.

[2] Magistrates courts in Chelmsford and the Crown court if committed by magistrates in Chelmsford.

Note:

These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

RDS-NOMS, Ministry of Justice

Tribunals, Courts and Enforcement Act 2007

Mr. Pickles: To ask the Secretary of State for Justice what the timetable is for consultation on and implementation of Schedule 12 of the Tribunals, Courts and Enforcement Act 2007 in relation to the role of enforcement agents to secure payment of council tax. [176517]

Bridget Prentice: The enforcement law reforms contained within Schedule 12 of the Tribunals, Courts and Enforcement Act 2007 require underpinning rules and regulations. A scoping exercise has now commenced to determine the development of these. It is anticipated that this will be completed by May 2008 and the results will inform the timetable for consultation and implementation.

Voting Rights

Mr. Pickles: To ask the Secretary of State for Justice what pilots have taken place in relation to the use of personal identifiers for absent voting. [176521]

Mr. Wills: Two pilots have taken place in relation to the use of personal identifiers for absent voting in respect of postal voting. These were in the London borough of Newham and Stevenage borough council at the May 2006 local elections.

Personal identifiers in the form of codes allocated to electors have been used in all electronic voting pilots since 2002.

In 2007, electronic voting pilots also required identifiers to be provided by electors to administrators to further enhance security.

Mr. Pickles: To ask the Secretary of State for Justice what plans he has to consult on weekend voting in elections. [176666]

Mr. Wills: In July 2007 we published "The Governance of Britain" Green Paper which sets out our commitment to consult on the merits of moving the voting day for general and/or local elections from Thursday to the weekend.

Work is currently being undertaken to finalise the consultation process for weekend voting.

Mr. Pickles: To ask the Secretary of State for Justice what plans he has to extend the use of *(a)* e-counting and *(b)* remote electronic voting to future (i) local, (ii) European Parliament and (iii) general elections. [176667]

Mr. Wills: In the Governance of Britain Green Paper the Government sets out a long-term aim to investigate the potential benefits of remote electronic voting and to take advantage of emerging communication technologies to provide increased flexibility and choice in the way people vote.

In the immediate term we are reviewing the lessons learnt from previous e-voting and e-counting pilots. This will help to advise our future programme of work for electoral modernisation.

There are no plans in the short term to extend the use of e-voting and e-counting to (i) local, (ii) European Parliament and (iii) general elections.

Young Offenders

David Howarth: To ask the Secretary of State for Justice how many disposals were reported by youth offending teams in 2006-07, broken down by *(a)* pre-court, *(b)* first tier, *(c)* community and *(d)* custodial disposals. [175995]

Mr. Hanson: The YJB collates data from YOTs broken down by disposals. The data for 2006 will be published in the new year in the YJB's 2006-07 Annual Statistics document.

Susan Kramer: To ask the Secretary of State for Justice how many children aged *(a)* 10, *(b)* 11, *(c)* 12 and *(d)* 13 were brought before the juvenile courts in (i) 2004, (ii) 2005 and (iii) 2006 and (A) were convicted, (B) were not convicted, (C) received an absolute discharge and (D) received a conditional discharge. [175998]

Maria Eagle: The information requested on the number of children brought before the juvenile courts, and the outcomes of these hearings are provided in the following table.

Number of defendants aged 10-13 proceeded against, found guilty and not guilty at youth courts and the number sentenced to an absolute and conditional discharge, by individual age, England and Wales 2004-06[1,2]

Age	Proceeded against	Found guilty	Not guilty	Absolute discharge	Conditional discharge
2004					
10	259	168	91	18	5
11	934	638	296	36	42

[1] These data are provided on the principal offence basis

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Young Offenders: Crime

Tom Brake: To ask the Secretary of State for Justice how many *(a)* males and *(b)* females under 18 years old were convicted for: (i) vehicle crime, (ii) domestic burglary and (iii) robbery in each constituency in London in each of the last eight years. [175358]

Mr. Hanson: The information requested covering the offences of (i) burglary and aggravated burglary in a dwelling (ii) robbery and (iii) vehicle crime comprising (a) theft of a motor vehicle and (b) theft from a motor vehicle in Greater London is provided in the following table.

Information broken down to constituency level is not held by the Ministry of Justice.

Number of persons aged under 18 found guilty at all courts for selected offences in Greater London[1], 1999 to 2006[2, 3, 4]

Offence class	Sex	1999	2000	2001	2002	2003	2004	2005	2006
Burglary in a dwelling	Male	353	286	257	269	282	297	333	335
	Female	13	20	22	17	28	25	14	10
	Total	366	306	279	286	310	322	347	345

Court Proceedings Database—Office for Criminal Justice Reform.

Young Offenders: Sentencing

Mr. Ruffley: To ask the Secretary of State for Justice what the average number of days from arrest to sentence in cases involving persistent young offenders was at the most recent date for which figures are available for each police force area. [176039]

Maria Eagle: In 1996, the average time from arrest to sentence for persistent young offenders was 142 days. The Government pledged to halve the time to 71 days by March 2002 (changed to May 2002 by the 2001 manifesto). The pledge is a target that applies jointly to all Criminal Justice Agencies.

The average number of days from arrest to sentence (three month rolling average) for persistent young offenders in England and Wales for July to September 2007 was 62 days. The monthly performance for September 2007 was 60 days. Therefore the performance is better than the Government's pledge.

The information contained in the following table details the most recent arrest to sentence details for each Local Criminal Justice Board (LCJB). LCJBs are coterminous with police force areas with the exception of Metropolitan which cover both the Metropolitan and City of London forces.

Average number of days from arrest to sentence (three-month rolling averages) for persistent young offenders in England and Wales by Criminal Justice Area for February 2007 to September 2007

Area	February to April 2007	March to May 2007	April to June 2007	May to July 2007	June to August 2007	July to September 2007

Youth Justice Body

Mr. Pickles: To ask the Secretary of State for Justice how many performance indicators the Youth Justice Body has instructed local authorities to monitor as part of their local area agreements. [176669]

Mr. Hanson: There are six youth justice indicators in the national indicator set for Local Government. The six indicators are:

The rate of proven re-offending by young offenders;

Percentage of young people within the Youth Justice System receiving a conviction in court who are sentenced to custody;

Ethnic composition of offenders on Youth Justice System disposals;

Young offenders' engagement in suitable education, employment or training;

Young offenders' access to suitable accommodation;

The number of first time entrants to the Youth Justice System aged 10 to 17.

National indicators will be reported on by local authorities in England regardless of whether they are in a specific local area agreement (LAA). LAA's are agreed between local authorities and central Government.

CULTURE, MEDIA AND SPORT

Aviation

Chris Huhne: To ask the Secretary of State for Culture, Media and Sport (1) how many air miles were travelled by Ministers in his Department in each year since 2000; and what estimate he has made of the total amount of carbon dioxide emissions produced as a result: [172229]

(2) how many miles he and other Ministers in his Department travelled on short haul flights in the last 12 months; and what estimate he has made of the total amount of carbon dioxide emissions produced as a result of these flights. [172564]

Mr. Sutcliffe: Since 1999 the Government have published a list of all overseas travel by Cabinet Ministers costing over £500. Information for the last financial year was published on 25 July 2007. Details for the current financial year will be published as soon as possible after the end of the financial year. From next year, the list will include details of overseas visits undertaken by all Ministers. All ministerial travel is undertaken in accordance with the Ministerial Code.

All central Government ministerial and official air travel has been offset from 1 April 2006. Departmental aviation emissions are calculated on an annual basis and subsequently offset through payments to a central fund. The fund purchases certified emissions reductions credits from energy efficiency and renewable energy projects with sustainable development benefits, located in developing countries.

In addition, offsetting the flights of Department for Environment, Food and Rural Affairs, the Foreign and Commonwealth Office, the Department for International Development, and the Prime Minister has been backdated to 1 April 2005.

A list of Government Carbon Offsetting Fund members, their emission figures and what activities they have offset through the fund is available online at:

<http://www.defra.gov.uk/environment/climatechange/uk/carbonoffset/government.htm>

Mr. Hayes: To ask the Secretary of State for Culture, Media and Sport how much has been spent by his Department on international flights in each year since 1997. [174350]

Margaret Hodge: The Department's accounting system does not record travel information in the format and at the level of detail requested. The information can be obtained only at disproportionate cost.

Regarding Ministers' visits overseas, since 1999 the Government have published a list of all overseas visits by Cabinet Ministers costing over £500. Information for the last financial year was published on 25 July 2007. Details for the current financial year will be published as soon as possible after the end of the financial year. From next year, the list will include details of overseas visits undertaken by all Ministers. All ministerial travel is undertaken in accordance with the ministerial code.

Carbon Emissions

John McDonnell: To ask the Secretary of State for Culture, Media and Sport whether his Department has adopted the Carbon Trust's Carbon Management Programme. [176925]

Margaret Hodge: The Department has adopted the Carbon Trust's Carbon Management Programme to assist in establishing a baseline measurement of the carbon footprint of the departmental estate and that of our major non-departmental public bodies.

Christmas

Mr. Burns: To ask the Secretary of State for Culture, Media and Sport how much his Department spent on *(a)* Christmas cards and *(b)* postage of Christmas cards in 2007. [176905]

Mr. Sutcliffe: The total numbers of DCMS Christmas cards that each Minister intends to send this year are as follows:

	Cards
James Purnell, Secretary of State for Culture, Media and Sport	500
Margaret Hodge, Minister for Culture, Creative Industries and Tourism	450
Gerry Sutcliffe, Minister for Sport	150

This year the Department is producing a total of 3,400 Christmas cards (of which 1,100 are allocated to Ministers), costing a total of £2,284.

We cannot supply an accurate figure for postage costs as many of the cards will be distributed via internal contacts. However, standard procedure for DCMS is that they will be sent via second class post.

Club and Coaching Development Scheme

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the administrative costs to each of the national governing bodies of implementing the Club and Coaching Development Scheme sponsored by his Department. [176814]

Mr. Sutcliffe: Our non-departmental public body, Sport England has not made any estimate of the cost to governing bodies of implementing the Club and Coach programme. Costs will vary depending on the size and scope of each national governing body's programme and the extent of their existing staffing infrastructures. Sport England has invested £8.35 million of additional funding into a number of national governing bodies to provide them with extra capacity to help manage this new programme.

Computer Software

Mr. Pickles: To ask the Secretary of State for Culture, Media and Sport how many copies of Adobe Photoshop software were purchased by his Department in the last period for which figures are available. [176716]

Mr. Sutcliffe: My Department has six copies of Adobe Photoshop software.

Cultural Heritage: Textiles

Mr. Oaten: To ask the Secretary of State for Culture, Media and Sport what his policy is on the maintenance and preservation of collections of historic textiles in public ownership; and if he will make a statement. [175110]

Margaret Hodge *[holding answer 17 December 2007]:* The Victoria and Albert Museum houses the national collection of textiles and there are significant collections at other museums sponsored by the Department. The Government delegate responsibility for specific textile conservation policies to these and other public bodies with duties for the care and protection of cultural heritage.

The Institute of Conservation continues to support efforts to find a new home for the Textile Conservation Centre.

Departmental Databases

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many times databases containing personal information on members of the general public were transferred by his Department to other bodies or organisations *(a)* physically and *(b)* electronically in each year since 1997. [176816]

Mr. Sutcliffe: The information is as follows.

(a) None

(b) None

Departmental Marketing

Mr. Pickles: To ask the Secretary of State for Culture, Media and Sport how many branded plastic bags his Department has purchased in the last 24 months for which figures are available; and at what cost. [176714]

Mr. Sutcliffe: The Department has not purchased any branded plastic bags in the last 24 months.

Departmental Recycling

Mr. Hayes: To ask the Secretary of State for Culture, Media and Sport what (1) *(a)* volume and *(b)* percentage of its waste his Department recycled in each of the last five years; [172508]

(2) how much and what proportion of its waste his Department recycled in each of the last five years. [174436]

Mr. Sutcliffe: The Department does not hold records on recycling for the last five years.

DCMS introduced a new waste management system in January 2007 at its Cockspur street offices. The average monthly recycling rate is 59 per cent.

Departmental Sustainable Development

John McDonnell: To ask the Secretary of State for Culture, Media and Sport whether his Department is working towards an accredited certified environmental management system such as ISO 14001 or EMAS *(a)* for its whole estate and *(b)* in some of its buildings. [176927]

Margaret Hodge: The Department's environmental management system was accredited to ISO 14001 in June 2007. The EMS covers the Department's offices at Cockspur Street and Tottenham Court Road.

The Department's executive agency the Royal Parks, has an environmental management system accredited to ISO 14001 for all its estate.

Digital Broadcasting: Television

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport (1) when the Switchover Programme Group decided to change the digital switchover programme alert from Red to Amber; and if he will place in the Library the minutes of the meeting when the decision was taken; [173931]

(2) when he was informed that on 9 August 2007 Digital UK issued a red status alert for the overall digital switchover programme; whether the information relating to the alert was made public; and if he will notify Parliament if any such further alert is issued; [173933]

(3) what the criteria are for a red status alert to be issued for the digital switchover scheme; what the current alert status is; and if he will make a statement. [173934]

James Purnell: Red, amber, green status reporting is a valuable internal management tool for focusing efforts on key operational or strategic issues to ensure effective delivery of switchover. In this case red status reflected a concern about tight timescales for the delivery of the Digital Switchover Help Scheme in Whitehaven.

Digital UK informed me that the switchover programme was likely to move to red status at a meeting on 8 August 2007 and at the same time set out the steps that the programme was taking to resolve the issue. Given that this was essentially an operational issue and that plans to address it were being put in place, it was not at that stage an issue for widespread concern which necessitated informing Parliament.

At the next meeting of the Switchover Programme Group sufficient action had been taken and the group agreed to revert to amber status. The relevant extract from the minutes of this meeting is given as follows:

The Digital UK Programme Office issues a status alert if a move to 'red' needs to be brought to the attention of the Switchover Programme Group before their next scheduled monthly meeting. Quarterly progress reports on the switchover programme, including its red/amber/green status, are published on:

www.digitaltelevision.gov.uk

All such changes in status and the implications of them, including whether to inform Parliament, will be considered on an individual basis depending upon the severity of the issue.

The current status of the switchover programme is amber. The criteria used by the Digital Switchover Programme for awarding red, amber and green status are:

Green: Good progress towards all milestones and objectives; no cause for concern.

Amber: Some cause for concern: one or two milestones missed and indications are that this will recur. Issues may exist, but corrective action identified and being taken.

Red: Major cause for concern: several milestones missed or about to be missed endangering programme objectives. Further milestones will be missed unless proactive steps taken and sustained action supported by the programme or programme-critical issues exist with no clear course of corrective action identified.

Switchover Programme Group: Extract from minutes of meeting held on 19 September 2007

Alex Pumfrey returned to the reasons why the Copeland Help Scheme was originally placed on red status on 13 August: (i) the need for reassurance that there was sufficient delivery and installer capacity to meet demand, which Peter White had confirmed there was; (ii) the need for a forward plan of activity, which has been shared; and (iii) assurance from DSHS that people have been given sufficient time to respond. Peter White noted that among the groups eligible for free help, 43 per cent. had responded, which indicated that people had had sufficient time to respond if they wished, and that low response was more likely to be attributable to the deterrent effect of the £40 charge or take-up of satellite. On this basis the group agreed to move the Copeland Help Scheme from red to amber status.

Gambling

Sandra Osborne: To ask the Secretary of State for Culture, Media and Sport if he will place in the Library copies of the letters he has received since 1 September

2007 on (a) gaming machine stake and prize levels and (b) the number of gaming machines in use. [174516]

Mr. Sutcliffe: Since 1 September the Department has received more than 140 letters from hon. Members, writing on behalf of constituents, concerning gaming machine stakes and prizes and gaming machine numbers.

I am arranging for a copy of an anonymised example of a typical constituent's letter, and the Department's reply, to be placed in the Libraries of both Houses.

Mr. Anthony Wright: To ask the Secretary of State for Culture, Media and Sport whether he plans to review the (a) size and (b) remit of the Gambling Commission. [175597]

Mr. Sutcliffe: There are no immediate plans to review the size or focus of the Gambling Commission. The Gambling Commission is the new regulator for the gambling industry and became fully operational from 1 September 2007. The Commission is still in its first operational cycle and has developed strategic objectives for the first three years to deliver its statutory objectives as set out in the Gambling Act 2005. The Commission's initial Corporate Plan will be reviewed after 18 months in light of its first year's experience as the regulator. In particular the review will consider the developing methods for assessing the level of risk within the gambling industry and the resource effectiveness of the Gambling Commission's approach (including an annual review of licence fees).

Mr. Anthony Wright: To ask the Secretary of State for Culture, Media and Sport what representations he has received from (a) the Gambling Commission, (b) the Responsibility in Gambling Trust, (c) Gamcare and (d) trade associations on the likely effects on problem gambling of the introduction of the Gambling Act 2005 on 1 September 2007. [175598]

Mr. Sutcliffe: The implementation of the Gambling Act 2005 which came into force on 1 September 2007 has been the subject of extensive consultation with key stakeholders from industry and those with an interest in problem gambling.

Ministers and officials also continue to hold meetings with stakeholders including those listed in the question and which have included representations on a range of issues, including problem gambling.

The Gambling Commission has also recently launched a first consultation paper on the Review of Research, Education and Treatment for problem gambling and has invited views from a broad range of stakeholders.

Mr. Anthony Wright: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the economic effect of the Gambling Act 2005 on seaside arcades. [175599]

Mr. Sutcliffe: My Department is engaging in active and constructive dialogue with the British Amusement Catering Trade Association, the main trade body which represents the gaming machines and seaside arcades sector, and other trade bodies with an interest in the sector, such as the British Association of Leisure Parks, Piers and Attractions, to gain a full understanding of the current trading conditions in the gaming machine and seaside arcades sector.

I have made it clear to these organisations that I will be happy to consider any evidence they can provide in relation to the difficult trading conditions that some arcade operators say they are currently experiencing, and any proposals for remedial action.

However, the Government's principal priority remains to protect the public. We will need to be satisfied that any proposals put forward for remedial action by the industry do not have an adverse impact in terms of the licensing objectives of the Gambling Act 2005.

Mr. Anthony Wright: To ask the Secretary of State for Culture, Media and Sport what the average premises licence fees levied on (a) family entertainment centres and (b) adult gaming centres by local authorities was in 2006-07. [175600]

Mr. Sutcliffe: The average premises licences fees for (a) family entertainment centres and (b) adult gaming centres by local authorities are set out in the table. These data is calculated from fee data returns collected by my Department from 95 per cent. of licensing authorities. Full details of all premises licence fees are available on the DCMS website

www.culture.gov.uk.

£

Premises type	*Fast track application fee (for existing premises)*	*Average new application fee*	*Average annual fee*
Family entertainment centres	242	790	564
Adult gaming centres	243	796	717

Licensed Premises

Mr. Pickles: To ask the Secretary of State for Culture, Media and Sport how many different statutory notices licensed premises must display. [176719]

Mr. Sutcliffe: Under the Licensing Act 2003, a premises licence holder is required to display the most recent summary of the premises licence (or a certified copy of it) and a notice specifying the position held by the person who has custody of the premises licence itself (if that person is not the licence-holder). There are similar requirements for the holder of a club premises certificate. A person who gives a Temporary Event Notice (TEN) must display the TEN itself, or in lieu thereof, a notice identifying the person with custody of the TEN.

The holder of a premises licence or club premises certificate is therefore required to display a minimum of one, and a maximum of two notices under the 2003

Act. A person who gives a TEN is required to display at least one notice.

A premises licence holder may also need to display notices in order to comply with legislation other than licensing legislation. These include notices as regards prices of food and drink under the Weights and Measures Act 1985, notices concerning the prohibition of smoking under the Health Act 2006, notices concerning business names under the Business Names Act 1985 and notices under Health and Safety legislation.

Minimum Wage

Jon Trickett: To ask the Secretary of State for Culture, Media and Sport how many London-based staff are employed by his Department on the national minimum wage. [175979]

Mr. Sutcliffe: None.

Museums and Galleries

Dan Rogerson: To ask the Secretary of State for Culture, Media and Sport how many *(a)* publicly funded and *(b)* charitably funded (i) art galleries, (ii) museums and (iii) archives (A) closed and (B) opened in each local authority area in England in each of the last five years. [169008]

Margaret Hodge: I refer the hon. Member to the answer given to the hon. Member for Sutton and Cheam (Mr. Burstow) by my hon. Friend the Member for Tottenham (Mr. Lammy) on 26 April 2007, *Official Report*, column 1256W, in respect of museums and galleries sponsored by the Department. The only addition is the opening of the International Slavery Museum (August 2007), part of National Museums Liverpool.

The following Arts Council England funded galleries have opened in the past five years:

	Gallery	*Local authority*
2003	Permanent Gallery	Brighton and Hove City Council
2004	Apartment	Manchester City Council
2004	The Brindley	Halton District Council
2004	OVADA	Oxford City Council
2004	Study Gallery	Poole Borough Council
2005	Colony Gallery	Birmingham City Council
2005	De La Warr Pavilion	Rother District Council
2005	Mushroom Works	Newcastle City Council
2006	Town Hall Galleries	Ipswich Borough Council
2006	Workplace	Newcastle City Council
2007	Designed and Made	Newcastle City Council
2007	Exchange Gallery	Penwith Borough Council
2007	Picture This	Bristol City Council
2007	Plymouth University Levinsky Building	Plymouth City Council

The following Arts Council England funded galleries have closed in the past five years:

	Gallery	*Local authority*
2003	Basement	Liverpool City Council
2005	Craft Council Gallery	Islington Council
2006	Jump Ship Gallery	Liverpool City Council
2007	Gardner Arts Centre	Brighton and Hove City Council
2007	Norwich Gallery	Norwich City Council

Information on local authority, or charitably funded museums, galleries and archives is not held centrally.

Mr. Jim Cunningham: To ask the Secretary of State for Culture, Media and Sport what resources have been made available to museums in the West Midlands since 1997. [172185]

Margaret Hodge *[holding answer 17 December 2007]:* The following table shows spend on museums and galleries in the west midlands through the Museums, Libraries and Archives Council and its predecessor body:

	£
1997-98	435,181
1998-99	461,413
1999-2000	461,062
2000-01	540,328
2001-02	664,119
2002-03	926,112
2003-04	1,219,000
2004-05	4,264,535
2005-06	5,840,000
2006-07	6,141,168
2007-08	6,133,456
Total	27,086,374

The following table shows spend on regularly funded galleries in the west midlands by Arts Council England since 2002/03.

	£
2002-03	1,386,986
2003-04	1,427,589
2004-05	1,833,982
2005-06	1,819,820
2006-07	2,384,861
2007-08	2,445,594
Total	11,298,832

The following table shows the value of grants given by the DCMS/Wolfson Museums and Galleries Improvement Fund to institutions in the west midlands.

	£
2004-05	529,100
2005-06	845,000
2006-07	510,000
2007-08	209,000

Museums are a discretionary local authority service and their core funding is a matter for the 14 single tier and county councils and 24 district councils in the west midlands. The Chartered Institute of Public Finance

and Accountancy's (CIPFA) Statistical Information Service surveys local authority museums and the findings are available in its 'Leisure and Recreation Statistics Estimates' publication that is in the House Library.

Portable Antiquities Scheme

Mr. Dismore: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the likely effect on the reporting of treasure in England and Wales of the proposal by the Museums, Libraries and Archives Council to maintain the funding for the Portable Antiquities Scheme next year at its current level; and if he will make a statement. [175277]

Margaret Hodge: The Portable Antiquities Scheme (PAS) is funded by the Museums, Libraries and Archives Council (MLA) and so any decisions on its future funding will be taken by the MLA.

The PAS is of national importance and the MLA is committed to seeing it thrive and evolve. The MLA will continue to work with the British Museum and other stakeholders to build on the success the scheme has had in its goal of advancing archaeological knowledge—for finders, museums and, most importantly, the wider public.

The MLA believes the scheme fits with the wider Renaissance in the Regions agenda and intends to maintain current levels of support for 2008-09, while considering options for future funding in the context of wider priorities for museum collections and public participation.

Sports: Finance

Mr. Jenkins: To ask the Secretary of State for Culture, Media and Sport what the level of public funding for *(a)* sport and *(b)* women's sport has been in each of the last five years; and which sport received the most money per participant. [173458]

Mr. Sutcliffe: Exchequer and Lottery spending on sport in England in each of the last five years was:

£ million

	2002-03	2003-04	2004-05	2005-06	2006-07
Lottery	350	297	249	419	344
Exchequer	137	140	235	273	377
Total	487	437	484	692	721

The Exchequer figures show DCMS spending through UK Sport and Sport England, and DCSF spending on school sport through the Youth Sport Trust. The Lottery figures show spending through UK Sport, Sport England, the Big Lottery Fund and its predecessors (Community Fund and New Opportunities Fund).

It is not possible to provide total figures for investment into women's sport, or which sport received the most money per participant, as information is not held in this format.

We do have figures on programmes specifically targeted at women.

The Women's Sport and Fitness Foundation, which exists to promote physical activity as an integral part of life for women and girls, has received the following funding:

£

	2002-03	2003-04	2004-05	2005-06	2006-07
Core costs (Exchequer)	150,000	200,000	200,000	200,000	329,333
Project support (Exchequer)	—	—	—	—	[1]33,000
Project support (Lottery)	—	83,729	—	65,207	56,454
Total	150,000	283,729	200,000	265,207	418,787

[1] £20,000 to support work across the Sports Equity Alliance, not solely women's sport.

UK Sport has funded the following women's sport programmes:

£30,000 (£10,000 in 2006-07 and £20,000 in 2007-08) has been invested in the Women and Leadership Development Programme, established in partnership with the BOA and CCPR to address the lack of women in senior decision making sports positions.

£67,500 has been invested between 2004 and 2008 in international women's sport development projects.

Synchronised swimming, (£1,617,000 for April 2006 to March 2009) and rhythmic gymnastics (integrated into the overall British Gymnastics Beijing award of £9 million) which are both female only sports.

Since 2003, female athletes have received 39 to 41 per cent. of UK Sport World Class Performance Programme and World Class Pathway Programme awards.

Stonehenge: Visitors' Centre

Robert Key: To ask the Secretary of State for Culture, Media and Sport what the total cost has been to *(a)* his Department and its predecessors and *(b)* its agencies of (i) public enquiries, (ii) public consultations, (iii) public exhibitions, (iv) public information initiatives, (v) consultancy fees and (vi) all others costs incurred in connection with the proposed English Heritage Visitors' Centre at Stonehenge and the associated road improvement on the A303(T) since 1986. [173998]

Mrs. Villiers: To ask the Secretary of State for Culture, Media and Sport what the cost has been to *(a)* his Department and *(b)* English Heritage of preparatory work in connection with the Stonehenge Visitors' Centre. [174376]

Margaret Hodge *[holding answer 17 December 2007]:* English Heritage records for expenditure on the Stonehenge visitor centre proposals commence at 1990-91. A total of some £16 million has been spent on developing various schemes for a new visitor centre. This includes funds to purchase land for the proposed site, which can be used for other purposes, together with consultancy and project team costs associated

with the architectural, structural and environmental design of the centre including costs associated with public enquiries.

It is not possible to disaggregate costs in the manner requested but broadly the split of costs is as follows:

		£ million
1990-91 to 1997-98	Original feasibility study and proposals	4.2
1997-98 to 2002-03	Public private partnership scheme development	1.9
2000-01	Purchase of the Countess East site and Countess road properties	3.4
2000-01 to 2006-07	Countess East scheme	6.5

Additional staff costs have fallen to my Department but these are included in overall running costs and are not separately recorded.

The costs for the A303 Stonehenge improvement scheme were given in the answer to the hon. Member for Salisbury (Robert Key) the Parliamentary Under-Secretary of State for Transport, my hon. Friend the Member for Glasgow, South (Mr. Harris) on 18 December 2007, *Official Report*, column 1426W.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Carbon Sequestration

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what research he has *(a)* commissioned and *(b)* evaluated on the maturity and practicality of carbon capture and storage technologies; [174684]

(2) what research the Department has carried out on the cost of carbon capture and storage technology. [175430]

Malcolm Wicks: The Department has published two reports on carbon capture and storage: 'The Review of Carbon Capture and Storage in the UK' and 'The Carbon Abatement Technology (CAT) Strategy for Fossil Fuel Use', provide the results in these areas. Both reports can be found in the House of Commons Library and also on the BERR website at:

http://www.berr.gov.uk/energy/coal/cfft/co2capture/review.pdf

and

http://www.berr.gov.uk/energy/coal/cfft/cct/pub/catreportlinked.pdf.

The supporting analysis underpinning the carbon abatement technology strategy which can be found at

http://www.berr.gov.uk/energy/coal/cfft/cct/pub/pdfs/r301.pdf

provides the work to date on predicting the impact of deploying this technology. Further work on this area is planned as part of an update of the CAT strategy.

Additionally, Poyry Ltd carried out a study in June 2006 on the North sea CCS pipeline infrastructure. The study, commissioned by BERR, on behalf of the UK, Norway and the North sea basin task force, has now been completed and is also available on the BERR web site at:

http://www.berr.gov.uk/energy/sources/sustainable/carbon-abatement-tech/ccs/nsbtf/page42482.html

The Department also commissioned engineers PB Power to assess proposed CCS projects in the UK and to advise the Government on whether to support a CCS demonstration. This work is commercially confidential and is not in the public domain.

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether carbon capture and storage technology will be eligible for capital allowances. [175431]

Angela Eagle: I have been asked to reply.

HMT consulted on the barriers to carbon capture and storage (CCS) deployment in 2006 and the Government announced in the Energy review that the next logical step would be a full-scale demonstration project. A competition to design and build one of the first commercial CCS demonstration projects was launched by the Prime Minister on the 19 November.

Allowances and reliefs are kept under review and any changes are announced by the Chancellor as part of the budget process.

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether carbon capture and storage technology will be eligible for capital grants. [175432]

Malcolm Wicks: The Government have a £35 million programme for the demonstration of carbon abatement technologies, including carbon capture and storage (CCS). It is also possible that part of the funding for the CCS demonstration project will be in the form of capital grants.

Coal: Finance

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much Government funding the UK coal industry received annually since 1997; and what plans there are to continue such funding. [175434]

Malcolm Wicks: Grants paid to UK coal producers in each financial year from 1997-98 are shown in the following table. The UK coal industry has received support through the UK Coal Operating Aid Scheme (2000-02) and Coal Investment Aid ('CIA'—awards made in 2003 and 2004 for draw-down during 2003-08), both of which are closed. Details of both can been found on the BERR website. Two CIA awards have not yet been drawn down in full; any further qualifying expenditure must be incurred and defrayed by the end of 2008.

£ million

UK Coal Operating Aid						Coal Investment Aid				
1997-98	1998-99	1999-2000	2000-01	2001-02	2002-03	2003-04	2004-05	2005-06	2006-07	2007 to date
0	0	0	76.5	61.6	26.6	0.4	21.8	19.5	9.6	0.2

Fossil Fuelled Power Stations: Carbon Emissions

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate has been made of the level of effect on carbon emissions of construction of fossil fuel plants without operational carbon capture and storage technology. [175428]

Malcolm Wicks: The most recent BERR energy and emissions projections were published as a supporting document to the Energy White Paper of May 2007. In the central case projection, including policy measures, total power station emissions are projected to fall from 47MtC 2005 to around 36MtC in 2020.

Fuel Poverty: Lincolnshire

Shona McIsaac: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many households are classified as living in fuel-poverty in *(a)* North East Lincolnshire and *(b)* North Lincolnshire. [176870]

Malcolm Wicks: Regional estimates of fuel poverty are available only for England in 2003 and are taken from the Fuel Poverty Indicator (FPI) dataset (available online at http://www.fuelpovertyindicator.org.uk/). This estimates that there were 4,600 fuel-poor households in North East Lincolnshire and 4,300 in North Lincolnshire.

It is important to note that the FPI only predicts the level of poverty in individual areas. It cannot take into account local circumstances. As with all small area indicators, it is important to use local knowledge and data to complement the FPI when developing local fuel poverty programmes.

Gambling: Competition

Sandra Osborne: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what plans his Department has to assess the effects of the Gambling Act 2005 on competition in the gambling market. [174512]

Mr. Sutcliffe: I have been asked to reply.

A competition assessment of the Gambling Act 2005 was included in the Regulatory Impact Assessment which was published in April 2005 to accompany the Act. In addition, impact assessments were prepared where appropriate for each piece of secondary legislation required to implement the Act. These are published with the related explanatory memorandum on the Office for Public Sector Information website www.opsi.gov.uk <http://www.opsi.gov.uk>, and separately on the Department's website www.culture.gov.uk <http://www.culture.gov.uk>

Members: Correspondence

John Penrose: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he will reply to the letters of 4 July and 17 September 2007 from the hon. Member for Weston-Super-Mare on behalf of Mr. Gerald Evans of Weston-Super-Mare regarding Reusa-Can Ltd., which were transferred to his Department on 21 September 2007. [174203]

Malcolm Wicks: I replied to the hon. Member on the 2 October 2007.

My Private Office also sent a copy of the reply to the hon. Member on 12 November 2007.

Minimum Wage

Mr. Meacher: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what information his Department holds on statutory national minimum wages in *(a)* each EU member state, *(b)* the United States, *(c)* China, *(d)* India, *(e)* Russia and *(f)* Japan expressed in (i) local currency and (ii) sterling (purchasing power parity) in each case. [163075]

Mr. McFadden: An international comparison of minimum wage rates was published in Annex C of "Government Evidence to the Low Pay Commission on the Economic Effects of the National Minimum Wage" in November 2006. This is available from the BERR website at www.berr.gov.uk/employment/pay/national-minimum-wage/Evidence-Low_Pay-Commission/page21634.html. Copies are also available in the House Libraries. An updated international comparison will be provided in the Government's evidence to the Low Pay Commission for 2007 which will be published in December.

Statistics on OECD minimum wages in purchasing power parity terms can be found at www.oecd.org/document/63/0,3343,en_2825_495691_38939455_1_1_1_1,00. html. Statistics on EU minimum wages in purchasing power parity terms can be found at epp.eurostat.ec.europa.eu/cache/ITY_OFFPUB/KS-SF-07-071/EN/KS-SF-07-071-EN.PDF.

Nuclear Reactors: Flood Control

Norman Baker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what projections he has made of flood risk to each of Britain's nuclear power and waste processing plants over the next 100 years; and if he will make a statement. [173865]

Malcolm Wicks: The Health and Safety Executive requires flood defence plans for civil licensed nuclear sites to be periodically reviewed by site operators. These reviews are carried out against the current climate change impact projections.

Political Levy

Mr. Tyrie: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment *(a)* his Department and *(b)* the Certification Officer has made of the number of trade unions which affiliate more members to the Labour Party than they have members paying the political levy. [174706]

Mr. McFadden: Neither the Department nor the Certification Officer has made an assessment about the number of member trade unions affiliated to the Labour Party.

Post Offices

Bill Wiggin: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what discussions he has had with (*a*) the Post Office and (*b*) others on the timetable for the Network Change Programme consultation; what changes have been made following these discussions; and if he will make a statement. [170969]

Mr. McFadden: The timetable for the Network Change Programme was set out in July of this year. In line with the Cabinet Office guidelines on consultations during local elections POL have now agreed to suspend the process during the local election campaign. As a consequence of these changes, the start of consultations and announcements of decisions on plans which were previously scheduled for after 1 May 2008 are put back by four weeks on average.

It remains POL's intention to complete the Network Change Programme by the end of next year.

Radioactive Materials: Transport

Tom Brake: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent representations his Department has received on security provision in the event of (*a*) an accident and (*b*) a terrorist attack involving nuclear waste in transit in (i) an urban and (ii) a rural environment; and if he will make a statement. [169398]

Malcolm Wicks: The Government believe that the risks of transporting nuclear materials are very small and that there is an effective regulatory framework in place to ensure that these risks are minimised and sensibly managed by industry.

The Government set out their preliminary view on the future of nuclear power in the consultation document, published on 23 May 2007. The consultation ended on 10 October 2007 and the Government are currently carefully considering the responses received before they make the decision early this year.

Regional Development Agencies: Finance

Mr. Clifton-Brown: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what criteria were used to allocate the funding referred to in the answer of 23 October 2007, *Official Report*, column 195W, on regional development agencies' finance to each regional development agency; and what the reasons were for the variation between regional development agencies of their administrative costs as a percentage of their respective grants. [170632]

Mr. Timms: The regional development agencies' budgets for 2007-08 were allocated to the RDAs following the Spending Review 2004. Grant in aid was divided between the RDAs using a funding formula which takes into account the needs of the region (including skills, worklessness and productivity).

Once the overall budgets were set, the RDAs produced corporate plans in which they set out their requirements for pay and non-pay administration costs. Those plans were approved by Ministers.

Differences in the proportion of the total budget spent on administration by RDAs arise for a number of reasons. These include the different geographic size and population of the region, the different sizes of the RDAs' total budget and the different choices which the Agencies make in terms of whether they deliver particular objectives themselves or whether they operate through sub-regional partners.

Renewable Energy: Research

Mr. Burns: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much money has been allocated for research into renewable energies in each of the last five years. [174984]

Malcolm Wicks: I refer the hon. Member to the answer I gave the hon. Member for Morley and Rothwell (Colin Challen) on 24 May 2007, *Official Report*, columns 1448-449W.

Sakhalin Island: Pipelines

Mr. Laurence Robertson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what his policy is on underwriting the Sakhalin II oil and gas development; when he expects to make a decision on underwriting exploration; and how much he expects to underwrite. [171220]

Malcolm Wicks: ECGD will apply its normal underwriting policy and its business principles to consideration of support for this project taking into account its Case Impact Assessment Process. See www.ecgd.gov.uk

A decision on whether to support the project and on the amount of any such support will be made after ECGD has completed its financial, technical, environmental and other due diligence. This will take into consideration comments received on the project from other interested parties, including NGOs.

Social Security Benefits: Christmas

Paul Rowen: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what discussions he has had with ministerial colleagues in the Department for Work and Pensions on the timetable of pension and benefits payments in the period before Christmas 2007. [174870]

Mr. McFadden: None. However, I understand from Post Office Ltd. that it is confident that its horizon system has the capacity to cope with the number of transactions expected to take place on 24 December. State pensions for 1.4 million Post Office card account holders will be payable from 21 December giving those pensioners the choice of three days on which to draw their pensions and spreading the transaction volumes for sub-post offices and the Horizon system. Post Office Ltd. will monitor performance of its systems closely in the days preceding the holiday period and has comprehensive contingency plans in place.

Summertime

Mr. Yeo: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent research his Department has *(a)* commissioned, *(b)* undertaken and *(c)* evaluated on the effects of changing to daylight saving time in the UK. [175580]

Mr. McFadden: There are no plans to change the current summer time arrangements or to undertake additional research as the Government are not convinced that a change would be in the best interests of the UK.

Utilities: Complaints

Mr. Tom Clarke: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what steps Ofgem is taking to encourage improvements in consumer complaint-handling by energy suppliers; what discussions he has had with Ofgem on this; and if he will make a statement; [175738]

(2) if he will take steps to ensure that consumers have access to information on the performance of energy suppliers in handling complaints; and if he will make a statement. [175739]

Malcolm Wicks: Under the Consumers, Estate Agents and Redress Act 2007, Ofgem is required to make regulations that set standards of performance for complaint-handling standards for gas and electricity customers. Ofgem is currently consulting on proposals that meet this requirement. Among other things, Ofgem has proposed that companies provide information about the number of complaints they receive. Its consultation also seeks views on what other information—such as customer satisfaction or speed of resolution—might be provided by companies. My officials, and other interested parties, have been in discussion with Ofgem about this activity.

Utilities: Fees and Charges

Jenny Willott: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimates he has made of the average UK household *(a)* electricity and *(b)* gas bill in 2007-08; and if he will make a statement. [175534]

Malcolm Wicks: The Government do not produce forecasts of household fuel bills.

Historical annual average household gas and electricity bills are published in 'Quarterly Energy' available from the House of Commons Library.

Waste Heat Recovery

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what research his Department has carried out into mapping the potential for heat capture in the UK. [175421]

Malcolm Wicks: In the Energy White Paper we said that we would conduct further work into the policy options available to reduce the carbon impact of heat including the capture and use of surplus heat. This work is being led by the Office of Climate Change and officials from my Department along with other Departments.

As announced by my right hon. Friend the Prime Minister on the 19 November, a call for evidence on heat will be published in January 2008.

The OCC's Heat Project aims to improve the understanding of how heat can be cost-effectively decarbonised, including how heat can be supplied from renewable sources. This work is being taken forward under the four workstreams:

(i) Carbon Markets;

(ii) Renewable Heat;

(iii) Community Heating; and

(iv) Large Scale Heat.

BERR and other Government Departments have been working closely with the Office of Climate Change (OCC), providing input to their heat strategy.

My right hon. Friend the Prime Minister recently announced that the call for evidence would be jointly published in January 2008 by BERR, DEFRA and CLG.

Wind Power

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the cost of decommissioning a 2MW wind turbine, including the cost of removing concrete foundations, access roads and associated infrastructures, and restoring sites to their original condition; and what mechanisms are in place to ensure that such decommissioning is properly carried out. [175677]

Malcolm Wicks: No such estimate has been made. Decommissioning conditions are applied to onshore wind farm planning permissions to ensure restoration of the site to the satisfaction of the local authority once the planning permission lifetime has expired. It is common practice for developers to enter into agreements pursuant to section 106 of the Town and Country Planning Act 1990 to ensure funds are available for such decommissioning work.

CHILDREN, SCHOOLS AND FAMILIES

Academies

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what his latest long-term target for the number of academies is; and if he will make a statement. [174664]

Jim Knight: We are firmly committed to establishing 400 academies as first announced on 30 November 2006.

Academies: Admissions

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many pupils aged *(a)* three to 15, *(b)* 14 to 15 and *(c)* 16 to 19 there are expected to be in academy schools in each year between 2008-09 and 2010-11. [172552]

Jim Knight: The following table shows the estimated number of pupils aged *(a)* three to 15, *(b)* 14 to 15 and *(c)* 16 to 19 that are expected to be in academy schools in the following academic years 2008/09, 2009/10 and 2010/11.

These estimates are based on 200 academies being open by 2010; they are subject to change as we move towards opening 400 academies. This is consistent with the projections published in Department Annual Report 2007 and the submission of 16 May 2007.

Projected numbers of pupils[1] in academies

Thousand

	2009	*2010*	*2011*
At January at previous 31 August			
Aged 3-15	114	136	184
Aged 14-15	40	49	68
Aged 16-19	20	26	36

[1] Full-time equivalents, counting each part-time pupil as 0.5. The numbers have been rounded to the nearest one thousand.

Note:

Projections use 2006 School Census Data and are being updated in early 2008.

Academies: Disadvantaged

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the effectiveness of academies in targeting the most disadvantaged pupils. [166037]

Jim Knight: The academies programme targets areas of inadequate educational opportunity and attainment.

The National Foundation for Educational Research ("Admissions: who goes where? Messages from the statistics", published July 2006) found that academies tended to be situated in areas where the community populations included higher proportions of children eligible for free school meals (FSM); with special educational needs (SEN); of black or ethnic minority origin; and of lower key stage 2 (KS2) ability; and that academies admit higher proportions of pupils eligible for FSM and with SEN than the proportion living in the local postcode districts. Furthermore, they admit a lower proportion of pupils of higher KS2 ability compared to the proportion living within the local postcode districts.

There is a large body of evidence from independent reports and examination results that the academies programme is succeeding in raising aspirations and attainment in the communities they serve. The National Audit Office concluded that pupils' achievements in 2005 and 2006 indicated a strong trend in raising attainment, and that if this trend continues, the academies programme will meet its objective of raising attainment in deprived areas ("The Academies Programme", National Audit Office, February 2007, page 8). The Government agree with this assessment, which is why the Secretary of State in his statement to the House of 10 July 2007, *Official Report*, columns 1319-23, announced a series of measures to accelerate the academies programme, and the Department plans to open 50 new academies in each of the next three years on its way to opening at least 400 academies.

Academies: Standards

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what external assessments of the academies programme will be *(a)* completed and *(b)* published in the next 12 months; and if he will make a statement. [166028]

Jim Knight: In February 2003, PricewaterhouseCoopers LLP (PwC) was commissioned by the Department for Children, Schools and Families (DCSF) to conduct an independent five-year evaluation of the academies programme. The aim of the evaluation is to assess the overall effectiveness of the programme in terms of its contribution to educational standards, and to examine the impact of key features of academies including sponsorship, governance, leadership and buildings. The first four reports have already been published and the fifth and final report will be published in summer 2008.

Assessments: Standards

Mr. Laws: To ask the Secretary of State for Children, Schools and Families whether any *(a)* GCSE and *(b)* A-level examinations will be marked overseas in whole or in part in 2008; whether any have been in 2007; and if he will make a statement. [172762]

Jim Knight: This information is not collected centrally. The qualifications regulators require awarding bodies to ensure that all examiners and markers, irrespective of background or location, are trained and standardised in line with the requirements of the GCSE, GCE, GNVQ and AEA Code of Practice. The qualifications regulators monitor awarding bodies' compliance with this requirement.

In 2007 all examiners (individuals with subject expertise who are responsible for marking candidates' responses) were based in the UK. There are no plans to use examiners in other countries in 2008. Some clerical work such as the copy typing of one word hand-written answers, so that they could be read by computer, was carried out overseas in summer 2007.

Building Schools for the Future Programme: Fire Extinguishers

Mr. Drew: To ask the Secretary of State for Children, Schools and Families (1) what the Government's policy is on the inclusion of sprinkler systems within schools being rebuilt under Building Schools for the Future; and if he will make a statement; [174302]

(2) which schools *(a)* have been built; *(b)* are being built and *(c)* are planned for re-build under Building Schools for the Future in each local authority area; and whether each has included a sprinkler system. [174303]

Jim Knight: The Department announced its policy on sprinkler systems for schools in March 2007. The policy is that a risk assessment should be undertaken for new and refurbishment projects in all categories of state-funded schools including all BSF schools. To help local authorities and school designers to decide when sprinklers are needed, DCSF has produced a risk assessment tool and a cost benefit analysis tool. See www.teachernetgov.uk/fire and follow links to Sprinklers.

Our presumption is that new schools and some refurbished schools will have fire sprinklers installed, however this is not a compulsory measure. There may be cases where local authorities or other promoters of schools consider that sprinklers are not needed. If so, they will need to be able to demonstrate that such schools are very low risk and that sprinklers would not represent good value for money.

To date, seven schools have been built under the Building Schools for the Future programme, in Bristol, Solihull, Haringey, Sheffield, South Tyneside, Stoke and Sunderland; these include six 'early win' projects. We believe that the Bristol Brunel Academy is the only one fitted with a sprinkler system. This was a large new build project and the most suitable for a sprinkler installation. Five of the other six schools were refurbishment projects where it may not have been technically feasible to install sprinkler systems. It is also more expensive to install sprinklers in a refurbishment which means they do not always provide good value for money. These projects were all in the late design or construction stage when the new sprinkler policy was announced which would have made it more expensive and technically difficult to install sprinkler systems unless they were part of the original design.

We expect approximately 80 schools to be under construction in the current financial year in the following local authorities: Bradford, Bristol, Lewisham, Sheffield, Knowsley, Lancashire, Leeds, Leicester, Manchester, Newcastle, Solihull, Stoke, Sunderland, Waltham Forest, Lambeth, Durham and Kent.

Under Building Schools for the Future, we plan to rebuild, remodel or refurbish all secondary schools in England.

For projects that were either in a late stage of design or in construction when the new sprinkler policy was announced it is difficult to introduce a sprinkler system. However, for new projects and those still in an early stage of design we expect sprinklers to be included.

Children and Family Court Advisory and Support Service

Julie Morgan: To ask the Secretary of State for Children, Schools and Families (1) what estimate he has made of the number of times Children and Family Court Advisory and Support Service staff will be involved in early intervention or dispute resolution during 2007-08; and what estimate he has made of the likely cost of such involvement; [162333]

(2) how many section 7 cases were completed by the Children and Family Court Advisory and Support Service in each of the last five years; and what the cost of those cases was to the public purse in each year; [162332]

(3) whether any of the Children and Family Court Advisory and Support Service regions will be recruiting additional staff during 2007-08; [162296]

(4) whether he plans to recalculate workload measurements for Children and Family Court Advisory and Support Service staff. [162297]

Kevin Brennan: These are matters for the Children and Family Court Advisory and Support Service (CAFCASS). Anthony Douglas, the Chief Executive, will write to my hon. Friend with this information and a copy of his reply will be placed in the House Library.

Letter from Anthony Douglas, dated 3 December 2007:

I am writing to you in response to the four Parliamentary Questions that you tabled recently:

162333—To ask the Secretary of State for Children, Schools and Families, what estimate he has made of the number of times Children and Family Court Advisory and Support Service staff will be involved in early intervention or dispute resolution during 2007-08; and what estimate he has made of the likely cost of such involvement.

The table below shows an estimate of the Cafcass' Dispute Resolution scheme for the financial years 2002/03 to 2006/07. This has been calculated by multiplying the number of hours spent on Dispute Resolution in the year by the Unit Cost* for an hour of practitioner activity. Statistics do not currently fully capture all case related support activity and we plan a diary survey in the spring which will enable us to make more accurate calculations and calculate averages in respect of time taken on such work. Related activity in screening cases coming before the courts prior to embarking on Dispute Resolution is also not included in these figures but plays an important part in ensuring appropriate safeguards are in place.

Financial Year	*Total Dispute Resolution Hours*	*Unit Cost (£) per Hour* *	*Total Cost (£)*
2002/03	No DR scheme in place		
2003/04	No DR scheme in place		
2004/05	34,987	41	1,446,712
2005/06 (does not incl. Wales)	43,322	48	2,080,322
2006/07 (does not incl. Wales)	57,880	50	2,895,736

* Unit Costs are calculated at the end of each financial year dividing the total Direct** spend for the Organisation by the estimated number of hours spent on Public and Private Law cases completed in the year.
** Direct spend only includes costs directly linked to practice e.g. Staff Salary, Training, Travel & Subsistence. It does not include indirect costs e.g. Accommodation, Recruitment & Utilities.

162332—To ask the Secretary of State for Children, Schools and Families, how many section 7 cases were completed by the Children and Family Court Advisory and Support Service in each of the last five years; and what the cost of those cases was to the public purse in each year.

The table below shows an estimate of the cost of the Section 7 Reports for the financial years 2002/03 to 2006/07. This has been calculated by multiplying the number of S7 reports completed in the year by an average cost for an S7 Report, based on the Unit Costs*.

Financial Year	*Completed S7 Reports*	*Avg. Cost (£) per S7 Report*	*Total Cost (£)*
2002/03	32,268	1,029	33,190,865
2003/04	32,489	1,029	33,418,185
2004/05	30,054	1,029	30,913,544
2005/06 (does not incl. Wales)	25,478	1,265	32,232,473

Financial Year	Completed S7 Reports	Avg. Cost (£) per S7 Report	Total Cost (£)
2006/07 (does not incl. Wales)	21,545	1,252	26,975,848

* Unit Costs were calculated by dividing the total Direct** spend for the Organisation by the estimated number of hours spent on all the Public and Private Law cases completed in the year. This figure is then multiplied by the average time taken to complete a S7 Report (25 hours).

** Direct spend only includes costs directly linked to practice e.g. Staff Salary, Training, Travel & Subsistence. It does not include indirect costs e.g. Accommodation, Recruitment & Utilities.

162296—To ask the Secretary of State for Children, Schools and Families, whether any of the Children and Family Court Advisory and Support Service regions will be recruiting additional staff during 2007-08.

There are no plans to curtail recruitment for funded posts across the organisation. 58 vacancies have been advertised in the last 3 months and appointments are in progress. Workforce plans have been developed in all areas and recruitment will begin in accordance with these plans as vacancies occur.

162297—To ask the Secretary of State for Children, Schools and Families, whether he plans to recalculate workload measurements for Children and Family Court Advisory and Support Service staff.

Cafcass is currently reviewing allocation guidelines for family court advisors and recognises that changed working practices and the move to case planning as the basis for workload measurement as opposed to set formulas makes this a more complex process. A joint management and trade union working group is planning a diary survey in the spring, which will inform future workload planning.

A copy of this reply will be placed in the House Library.

Mr. Llwyd: To ask the Secretary of State for Children, Schools and Families (1) what representations he has received on the workload of service managers at the Children and Family Courts Advisory and Support Service; [167879]

(2) what assessment he has made of the workload of service managers of the Children and Family Courts Advisory and Support Service; [167878]

(3) who conducted the recent Children and Family Court Advisory and Support Service staff survey; by whom they were employed; and what remuneration they received; [167734]

(4) what assessment he has made of the effect of the implementation of the recommendations contained in the consultation Organising for Quality for service delivery and funding at the Children and Family Court Advisory and Support Service; [167735]

(5) what plans he has for Children and Family Court Advisory and Support Service pilot programmes arising from the consultation Organising for Quality in the next two years. [170314]

Kevin Brennan: These are matters for the Children and Family Court Advisory and Support Service (CAFCASS). Anthony Douglas, the chief executive, will write to the hon. Member with this information and a copy of his reply will be placed in the House Library.

Letter from Anthony Douglas, dated 11 December 2007:

I am writing to you in response to the four Parliamentary Questions that you tabled recently:

167734—To ask the Secretary of State for Children, Schools and Families, who conducted the recent Children and Family Court Advisory and Support Service staff survey; by whom they were employed; and what remuneration they received.

Cafcass conducted its first staff survey in December 2006 to provide the baseline data to understand staff perceptions on a range of issues. Many of these issues were then included in the Cafcass 2007-10 business plan. The staff survey was produced internally to provide value for money but with the responses directed to the University of Birmingham's department of Organisational Psychology to provide respondents with anonymity.

The following individuals and companies unconnected with Cafcass were involved in the staff survey:

Contributor	Payments (£)
Dr. Dirk Van Rooy (University of Birmingham)	No payment
Caroline Mollers (University of Birmingham)	510.00
Sue Rentoul Design	6,261.90
The Organisers	1,613.32

The following Cafcass employees were involved in the production of the staff survey: The Corporate Director of Strategy and Performance, Head of Communications, a Human Resources Manager, the Publications Editor and Communications Officer. A Family Court Adviser conducted the analysis of the data under the supervision of Dr Dirk Van Rooy of the University of Birmingham who provided Cafcass with a declaration of authenticity. The raw data was input from the individual returns by a student at Birmingham University.

167735—To ask the Secretary of State for Children, Schools and Families, what assessment he has made of the effect of the implementation of the recommendations contained in the consultation Organising for Quality for service delivery and finding at the Children and Family Court Advisory and Support Service.

170314—To ask the Secretary of State for Children, Schools and Families, what plans he has for Children and Family Court Advisory and Support Service pilot programmes arising from the consultation Organising for Quality in the next two years.

The consultation ended on 28 February 2007 and a full response was published. There are two strands to the programmes of work to take forward the Organising for Quality programme. The first of these is the introduction of new National Standards for Cafcass. These were introduced on 01 April 2007 and are supported by revised practice guidelines and a comprehensive training programme. The second strand is that of organisational structures aimed at further efficiencies and improved practice. The changes at the first line management level are being achieved through a refocusing of priorities and a narrowing of the roles and responsibilities of first line managers to focus on practice, performance and staff development.

The majority of the structural changes will be completed by April 2008 and a period of consolidation will then follow.

There were thirty-two key proposals in the Cafcass consultation paper Organising for Quality. Twenty-two are being taken forward either as part of the current Cafcass restructuring programme, or within the delivery of the 2007-10 Business Plan. Six proposals are being taken forward in a modified form. Only one proposal for a Practice Advice Line, is being piloted. Four proposals are not being proceeded with at all, following a review of all proposals we received in the light of the consultation responses.

167878—To ask the Secretary of State for Children, Schools and Families, what assessment he has made of the workload of service managers of the Children and Family Courts Advisory and Support Service.

Cafcass are in the process of negotiating significant changes to the Service Manager role to ensure both manageable and effective workloads. We intend to give Service Managers a reduced span of control and more business support to enable them to focus on practice, performance and staff development. These changes will be in place across most of the country by the start of the new financial year in April 2008.

167879 To ask the Secretary of State for Children, Schools and Families, what representations he has received about the workload of service managers at the Children and Family Courts Advisory and Support Service.

No specific additional representations were received from service managers, apart from those received on a number of previous occasions, both directly and via trade unions and professional associations. Cafcass accepted the core points being made some time ago, and resolution of them has needed to wait for the resources to become available. Over the last two years, we did increase our national establishment by 15 Service Managers, which has made a difference, but my intention is that we take further steps in April 2008 to reduce workloads.

A copy of this reply will be placed in the House Library.

Children: Disabled

Joan Walley: To ask the Secretary of State for Children, Schools and Families (1) what the waiting times are for disabled children in receipt of direct payments, who have been reassessed and are waiting for a change in care level, broken down by local authority area; [174529]

(2) what estimate he has made of how many disabled children are *(a)* eligible for and *(b)* receiving direct payments in each local authority area; [174562]

(3) what formula is used by the Government in defining levels of need in relation to disabled children's provision through direct payments; and if he will make a statement. [174561]

Jim Knight: There is no information collected on waiting times or eligibility for direct payments, nor any estimate made of these. However, data are collected on the number of disabled children aged 16-17, and the number of carers of disabled children, receiving direct payments at 31 March each year. The most recent data available are for 31 March 2006, and show that 649 children and 4,170 carers were receiving these payments in England. These data are also available by local authority, and have been placed in the House of Commons Library.

In terms of local government funding, the children's social care relative needs formula (RNF) is designed specifically to allocate funding for the provision of children's social care services in local authorities in England. The formula takes account of the resident children population aged 0 to 17, deprivation top-up, foster and area cost adjustments. However, there is no specific element of the formula which takes into account the use of direct payments. This is because direct payments are designed to be cost-neutral, providing equivalent cash payments made in lieu of social service provisions to individuals or families.

Children: Literacy

Miss McIntosh: To ask the Secretary of State for Children, Schools and Families what recent representations he has received on the reading ability of school children in England. [174281]

Jim Knight: The recently published Progress in International Reading Literacy Study (PIRLS) shows we have performed well compared to other countries. On average, pupils in England achieved significantly above the international mean.

More generally, improving standards of literacy is one of this Government's top priorities. We have seen dramatic improvements in the proportion of 11-year-olds achieving the target level 4 and above in reading. In 2007, 84 per cent. of pupils achieved this level—a rise of 17 percentage points compared to 1997. A third of 11-year-olds achieved the higher level 5 in reading, the standard expected of 14-year-olds.

Proportion of pupils achieving level 4+ in reading

	Level 4	*Level 5*
1997	67	20
1998	71	23
1999	78	31
2000	83	42
2001	82	42
2002	80	38
2003	81	42
2004	83	39
2005	84	43
2006	83	47
2007[1]	84	48

[1] Amended data.

Although these results are the best ever, we know that we can and must do more. We have a strong platform for securing further improvements. The Children's Plan, published on 11 December sets out that vision and our goals for achieving world-class standards.

Every primary school is now using the renewed Primary Framework which puts phonics at the heart of the teaching of reading. We are also introducing nationally the Every Child a Reader (ECAR) programme. By 2011 this programme will provide 30,000 six-year-olds who have difficulty reading with intensive one-to-one tuition each year. Results from the first year of the pilot, involving some of the most disadvantaged children, showed they made well over four times the normal rate of progress in reading as a result of the programme.

Corporate Hospitality

David Simpson: To ask the Secretary of State for Children, Schools and Families on how many occasions he has accepted corporate hospitality in the last 12 months. [171319]

Ed Balls: Chapter 7 of the Ministerial Code sets out the rules on the registration of hospitality.

Education Maintenance Allowance

Lynne Featherstone: To ask the Secretary of State for Children, Schools and Families (1) what the cost of the education maintenance allowance has been in each *(a)* London constituency, *(b)* London borough and *(c)* Government region since its introduction; and if he will make a statement; [162216]

(2) what percentage of applications for an education maintenance allowance have been successful in each *(a)* London constituency, *(b)* London borough and *(c)* Government office region; and if he will make a statement; [162213]

(3) what percentage of 16 to 19 year olds in each *(a)* London constituency, *(b)* London borough and *(c)*

Government region have received the (i) £10, (ii) £20 and (iii) £30 education maintenance allowance; and if he will make a statement; [162204]

(4) how many people in each *(a)* London constituency, *(b)* London borough and *(c)* Government region have applied for an education maintenance allowance; and if he will make a statement; [162202]

(5) what percentage of 16 to 19 year olds in each *(a)* London constituency, *(b)* London borough and *(c)* Government region have applied for an education maintenance allowance; and if he will make a statement; [162201]

(6) how many people in each *(a)* London constituency, *(b)* London borough and *(c)* Government region have received the (i) £10, (ii) £20 and (iii) £30 education maintenance allowance; and if he will make a statement. [162200]

Jim Knight: These are all matters for the Learning and Skills Council (LSC), who operate the education maintenance allowance (EMA) for the Department for Children, Schools and Families (DCSF) and hold the information about take-up and payments under the scheme. Mark Haysom, the Council's Chief Executive, will write to the hon. Gentleman with the information requested and a copy of his reply will be placed in the House Library.

Letter from Mark Haysom, dated 22 November 2007:

I am writing in response to your Parliamentary Questions that asked:

1. What the cost of the education maintenance allowance has been in each (a) London constituency, (b) London borough and (c) Government region since its introduction.

2. What percentage of applications for an education maintenance allowance have been successful in each (a) London constituency, (b) London borough and (c) Government office region.

3. What percentage of 16 to 19 year olds in each (a) London constituency, (b) London borough and (c) Government region have received the (i) £10, (ii) £20 and (iii) £30 education maintenance allowance.

4. How many people in each (a) London constituency, (b) London borough and (c) Government region have applied for an education maintenance allowance.

5. What percentage of 16 to 19 year olds in each (a) London constituency, (b) London borough and (c) Government region have applied for an education maintenance allowance.

6. How many people in each (a) London constituency, (b) London borough and (c) Government region have received the (i) £10, (ii) £20 and (iii) £30 education maintenance allowance.

Information on the number of young people who have applied, enrolled and received Education Maintenance Allowance (EMA) is available at national and Local Authority Level, but not at constituency level. EMA take-up is defined as young people who have received one or more EMA payments in the academic year.

We do not hold population data for 19 year olds so the figures shown in the tables below are based on 16-18 year old data.

Information on cost is only available at a national level. EMA payments to learners during academic year 2006/2007 totalled £483 million.

The following tables show the information requested which relates to EMA applications for London LSC area, London Local Authority area and LSC Regions during the academic year 2006/07.

Application data, LSC/local authority, 2006/07

	Number of young people who applied for an EMA	*Percentage of the 16 to 18-year-old population who applied for EMA*	*Percentage of applications received that were successful*
England	569,066	28.4	97.6
East Midlands	48,343	27.7	97.6
East of England	51,549	24.0	97.5
London	90,870	33.7	97.8
North East	34,628	33.8	97.4
North West	90,436	31.9	97.8
South East	68,986	21.2	97.5
South West	52,526	26.1	98.4
West Midlands	69,713	31.6	97.5
Yorkshire and the Humber	62,015	29.7	97.6

Application data, regional, 2006/07

	Number of young people who applied for an EMA	*Percentage of the 16 to 18-year-old population who applied for EMA*	*Percentage of applications received that were successful (NOE's issued)*
London Central	17,554	36.3	98.1
Camden	2,115	30.2	98.4

Hounslow	2,027	25.3	212	2.7	175	2.2

[1] No population data.

EMA take-up data showing the number of young people who have received one or more EMA payments during 2004/05, 2005/06, 2006/07 and to date in 2007/08 is now also available on the LSC website, at the following address:

http://www.lsc.gov.uk/providers/Data/statistics/learner/EMA_take_up.htm

Anne Main: To ask the Secretary of State for Children, Schools and Families (1) how much expenditure on education maintenance allowance (EMA) was provided to people in each local education authority in each year since the inception of the allowance; how many people of each *(a)* sex and *(b)* ethnic group have received EMA in each academic year since its inception; how many of those in receipt of EMA in each academic year went on to (i) study and (ii) complete a course at university; and what assessment has been made of those trends; [164381]

(2) what the administrative costs of the education maintenance allowance scheme were in each year since 1999-2000; and if he will make a statement. [164383]

Jim Knight: These are matters for the Learning and Skills Council (LSC), who operate the education maintenance allowance (EMA) for the Department for Children, Schools and Families (DCSF). Mark Haysom, the LSC's chief executive, will write to the hon. Lady and a copy of his reply will be placed in the House Library.

Letter from Mark Haysom, dated 22 November 2007:

I am writing in response to your Parliamentary Questions that asked:

1. How much expenditure on educational maintenance allowance (EMA) has been provided to people in each local education authority in each year since the inception of the allowance; how many people of each (a) sex and (b) ethnic group have received EMA in each academic year since its inception; how many of those in receipt of EMA in each academic year went on to (i) study and (ii) complete a course at university; and what assessment has been made of those figures.

2. What the administrative costs of the educational maintenance allowance scheme have been in each year since 1999-2000; and if he will make a statement.

Information relating to costs of EMA are only available at a national level. The following table shows the expenditure on EMA payments to learners by financial year since inception.

	EMA student payment costs (£)
1999-2000	10,560,000.00
2000-01	49,920,000.00
2001-02	104,600,000.00
2002-03	115,200,000.00
2003-04	136,300,000.00
2004-05	217,300,000.00
2005-06	363,100,000.00
2006-07	457,100,000.00

The following table shows the information requested which relates to the administration costs of EMA by financial year:

	EMA admin costs (£ million)
1999-2000	0.44
2000-01	2.08
2001-02	4.4
2002-03	4.8
2003-04	5.7
2004-05	42.7
2005-06	43.5
2006-07	45.8

Information on the number of young people who have received EMA payments each academic year is provided below, split by Gender and Ethnicity. This information is collected as part of the application process for EMA and is non-mandatory. The No Information Provided rows below detail where this section was left incomplete.

Gender	2004/05	2005/06	2006/07
Male	125,516	187,912	244,345
Female	144,764	218,215	270,178

Total	297,567	430,329	528,396

The first cohort of learners to be eligible to receive EMA following national roll-out will have recently progressed into higher education. The LSC is working with UCAS and HESA to analyse those learners who have progressed to higher education courses after completing further education with support from EMA. We are planning that the results of this work to be available in Summer 2008.

Helen Southworth: To ask the Secretary of State for Children, Schools and Families how many young people in *(a)* Warrington, South and *(b)* Warrington received the education maintenance allowance in each year since its establishment. [167071]

Jim Knight: This is a matter for the Learning and Skills Council (LSC), who operate the Education Maintenance Allowance (EMA) for the Department for Children, Schools and Families (DCSF) and hold the information about take-up and payments made under the scheme. Mark Haysom, the LSC's Chief Executive, will write to the hon. Lady with the information requested and a copy of his reply will be placed in the House Library.

Letter from Mark Haysom, dated 28 November 2007:

I am writing in response to your recent Parliamentary Question that asked: how many young people in *(a)* Warrington South and *(b)* Warrington received the education maintenance allowance in each year since its establishment.

Information on the number of young people who have applied, enrolled and received Education Maintenance Allowance (EMA) is available at Local Authority Level but not at local area level. EMA take-up is defined as young people who have received one or more EMA payments in the academic year.

EMA take-up for Warrington Local Authority area during each academic year since inception is as follows:

	Number
2004/05	726
2005/06	1,332
2006/07	1,685
2007/08	[1]1,497

[1] To 31 October 2007.

EMA take-up data showing the number of young people who have received one or more EMA payments during 2004/05, 2005/06, 2006/07 and to date in 2007/08 is now also available on the LSC website, at the following address:

http://www.lsc.gov.uk/providers/Data/statistics/learner/EMA_take_up.htm

Mr. Stewart Jackson: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the effects of education maintenance allowances on educational attainment; and if he will make a statement. [174551]

Jim Knight: The Learning and Skills Council (LSC) is responsible for the operation of the education maintenance allowance (EMA) scheme. An analysis of the impact of EMA on attainment was commissioned by the LSC and a copy of the results, with a summary of the key findings was placed in the House Library, on 3 December 2007.

Education Maintenance Allowance: Apprentices

Mr. Hayes: To ask the Secretary of State for Children, Schools and Families how many learners in programme-led apprenticeships have received an education maintenance allowance. [165534]

Jim Knight: This is a matter for the Learning and Skills Council (LSC), who operate the Education Maintenance Allowance (EMA) for the Department for Children, Schools and Families (DCSF) and hold the information about take-up and payments under the scheme. Mark Haysom, the Council's Chief Executive, will write to the hon. Gentleman with the information requested and a copy of his reply will be placed in the House Library.

Letter from Mark Haysom, dated 26 November 2007:

I am writing in response to your Parliamentary Question that asked; "How many learners in programme-led apprenticeships have received an education maintenance allowance."

By mid November 2007, 5,811 learners in programme-led apprenticeships have received one or more Education Maintenance Allowance (EMA) payments during the 2007/08 academic year.

EMA take-up data showing the number of young people who have received one or more EMA payments during 2004/05, 2005/06, 2006/07 and to date in 2007/08 is now also available on the LSC website, at the following address:

http://www.lsc.gov.uk/providers/Data/statistics/learner/EMA_take_up.htm

Education: Assessments

Mr. Laws: To ask the Secretary of State for Children, Schools and Families whether it is the policy of his Department to regard trends in examination results in England as reliable quantitative indicators of long-term changes in educational standards; and if he will make a statement. [163534]

Jim Knight: The Department has a public service agreement (PSA) to support its strategic objective to achieve world-class standards in education by raising the educational achievement of all children and young people. The proportion of young people who succeed in public examinations is one of the key performance indicators of this PSA. In this context it is important that exam standards are maintained, which is why the Qualifications and Curriculum Authority has rigorous procedures in place for ensuring consistency over time.

To ensure the reliability of the PSAs, each target is supported by guidance which sets out exactly how it will be measured. The Department is committed to ensuring that PSA targets are supported by rigorous performance information and in conjunction with the National Audit Office (NAO) has reviewed the data systems underpinning the former DfES PSA targets and is acting on these findings. A copy of the departmental report on progress towards meeting the Department's public service agreement (PSA) targets has been placed in the Library.

Faith Schools: Admissions

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of religious schools select pupils for admission by faith; and if he will make a statement. [175146]

Jim Knight: Schools are not allowed to select pupils for admission by faith. Schools designated as having a religious character under section 69 of the School Standards and Framework Act 1998 may give priority, when oversubscribed, to children on the basis that they are members of or practise their faith. We know that practices vary widely and that a number of schools with a religious character do not give priority on the basis of faith and others offer a proportion of places to children without reference to faith.

The priority given to faith applicants is not "selection" (as the term is used in education law) because it does not relate to academic aptitude or ability.

Family Courts

Kelvin Hopkins: To ask the Secretary of State for Children, Schools and Families what the average time was to complete a *(a)* private law and *(b)* public law case in the family courts in the latest period for which figures are available; and what the average cost was of each. [176157]

Bridget Prentice: I have been asked to reply.

In the county court, for the period April to November 2007, it took on average 33.12 weeks to complete a private law case and 55.02 weeks for a public law case. There are no data currently collected in the Family Proceedings Court (FPCs) on the average length of private law cases. In the FPCs the average duration of cases where a care or supervision order was made (April 2007 to November 2007) was 44.3 weeks. Between April and November 2007, 51 per cent. of care and supervision cases in FPCs and 39.6 per cent. of care and supervision cases in care centres were completed within 40 weeks.

The unit cost for private law applications (judicial and administrative costs) for financial year 2006-07 is £996 in the county courts and £1,232 in the Family Proceedings Courts. The equivalent figures for public law applications are £4,286 and £4,014. The average legal aid cost of private law matters is £2,790 and for public law matters is £5,961. No information is held centrally on average local authority costs.

Free School Meals: Greater Manchester

Graham Stringer: To ask the Secretary of State for Children, Schools and Families how many pupils on free school meals achieved five grade A*-C GCSEs in *(a)* Manchester and *(b)* Greater Manchester in each of the last three years. [170759]

Jim Knight: Information for Greater Manchester is not available. The figures for Manchester are:

	2003/04	*2004/05*	*2005/06*
Number of eligible pupils	1,925	1,957	1,974
Percentage of pupils on free school meals achieving 5 A*-C GCSE grades	27.0	30.9	32.3

These figures can be found in the following Statistical First Releases (SFRs):

2003/04: http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000564/index.shtml (Table 48)

2004/05: http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000640/index.shtml (Table 91)

2005/06: http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000693/index.shtml (Table 73)

Figures for the academic year 2006/07 have not yet been published and will be included in the SFR released in the week beginning 28 January 2008.

Free School Meals: North East Region

Mr. Kemp: To ask the Secretary of State for Children, Schools and Families what proportion of students in *(a)* the City of Sunderland and *(b)* the North East Region are eligible to receive free school meals. [175222]

Jim Knight: Figures from the school census 2007 show that the proportion of students known to be eligible to receive free school meals in maintained nursery, primary and secondary schools in Sunderland is 16.9 per cent., compared to 18.1 per cent. in the North East region. These figures include dually registered and boarding pupils.

General Certificate of Secondary Education

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) how many maintained mainstream schools did not submit any pupils for a foreign language GCSE in each year since 2002; [171030]

(2) how many pupils sat ICT GNVQ in each year since 2002, and how many of these gained A* to C grades; [171031]

(3) how many pupils sat Edexcel mathematics GCSE in each year since 2000; [171032]

(4) how many mainstream maintained schools did not offer *(a)* French, *(b)* German and *(c)* Spanish GCSE to pupils in each year since 2002; [171041]

(5) how many mainstream maintained schools offer only single science GCSE to pupils; [171042]

(6) how many mainstream maintained schools do not offer the three separate sciences at GCSE to pupils. [171043]

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families how many mainstream secondary schools have not entered students for a GCSE in *(a)* a modern language and *(b)* music in each of the last three years. [171461]

Jim Knight: The information can be provided only at disproportionate cost.

General Certificate of Secondary Education: Free School Meals

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of white British boys eligible for free school meals failed to obtain at least five GCSEs at any level in each year between 1996 and 2007; and if he will make a statement. [174196]

Jim Knight: The available information covers the proportion of pupils achieving 5 or more A*-C grades at GCSE or equivalent and are given in the table.

Percentage of white British boys eligible for free school meals who achieved five A-C grades at GCSE or equivalent[1], at maintained schools, 2002 to 2006*

	Percentage achieving 5 A-C grades*	*Percentage not achieving 5 A*-C grades*
2002[2]	16.1	83.9
2003	16.8	83.2
2004	18.3	81.7
2005	21.0	79.0
2006	24.0	76.0

[1] Based upon 15 year old pupils (age at start of academic year) for figures up to and including 2004. For 2005 onwards figures are based upon pupils at the end of Key Stage 4.
[2] Figures for 2002 relate to pupils classified as 'white' rather than 'white British'.

Data are sourced from the National Pupil Database which began in 2002. The latest figures relate to 2006 where 90.9 per cent. of white British boys eligible for free school meals achieved any passes (9.1 per cent. achieving no passes). These figures are published in Table 32 of SFR46/2006 "National Curriculum Assessment, GCSE and Equivalent Attainment and Post-16 Attainment by Pupil Characteristics in England 2005-06, (Provisional)" which can be found at

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000693/index.shtml.

Equivalent figures for 2006-07 will be published at the end of January 2008 as additional tables to SFR 38/2007 which can be found at

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000759/index.shtml .

General Certificate of Secondary Education: Kent

Mr. Laws: To ask the Secretary of State for Children, Schools and Families in how many secondary schools in Kent over 70 per cent. of pupils did not achieve five A*-C GCSEs, including English and mathematics, in the latest year for which figures are available. [175147]

Jim Knight: The information is available from the 2006 Secondary School Achievement and Attainment Tables in the House of Commons Library.

General Certificate of Secondary Education: North East Region

Mr. Kemp: To ask the Secretary of State for Children, Schools and Families what percentage of pupils in *(a)* the City of Sunderland and *(b)* the North East achieved more than five A* to C grades at GCSE in each year since 1997. [175223]

Jim Knight: The information requested is given in the following table.

Proportion of 15-year-old pupils[1] achieving five or more GCSEs at grades A-C at GCSE or equivalent—years 1997-2007 (Sunderland LA and the North East region)*

Year[2]	*Sunderland*	*North East region*
1996/97[3]	34.4	36.8
1997/98	32.3	37.1
1998/99	34.6	39.4
1999/2000	38.4	41.7
2000/01	39.2	42.5
2001/02	41.6	44.3
2002/03	44.1	46.8

Proportion of 15-year-old pupils[1] achieving five or more GCSEs at grades A-C at GCSE or equivalent—years: 1997-2007 (Sunderland LA and the North East region)*

Year[2]	Sunderland	North East region
2003/04[4]	44.2	48.7
2004/05	51.5	53.5
2005/06	54.9	57.3
2006/07	58.7	59.6

[1] Number of pupils on roll aged 15 at the start of the academic year, i.e. 31 August.
[2] Data for 2007 are provisional and final for all other years.
[3] Percentages from 1996/97 include GCSEs and GNVQs.
[4] Percentages from 2003/04 include GCSEs and other equivalent qualifications approved for use pre-16.
Source:
Secondary School Achievement and Attainment tables

Figures include achievements in previous academic years.

The increase in the proportion of 15-year-old pupils achieving five or more good GCSEs in Sunderland (24.3 per cent.) and the North East region (22.8 per cent.) compares favourably with a national increase of 15.2 per cent. over the same period.

General Certificate of Secondary Education: Standards

Mr. Laws: To ask the Secretary of State for Children, Schools and Families if he will list the *(a)* top 20 and *(b)* bottom 20 maintained secondary schools in England on the basis of the proposition of pupils obtaining five A* to C GCSEs in 2007, setting out in each case (i) GCSE performance, (ii) percentage of children eligible for free school meals, (iii) school type, (iv) local authority, (v) OFSTED classification and (vi) percentage of statemented children. [166030]

Jim Knight: This information is not available until the publication of the KS4 Achievement and Attainment Tables on 10 January 2008.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many and what proportion of secondary schools had fewer than *(a)* 10 per cent., *(b)* 20 per cent., *(c)* 30 per cent., *(d)* 40 per cent., *(e)* 50 per cent., *(f)* 60 per cent., *(g)* 70 per cent., *(h)* 80 per cent. and *(i)* 90 per cent., of pupils obtaining five A* to C grades in GCSEs (i) including English and mathematics and (ii) in all subjects in the latest year for which information is available; and if he will make a statement. [168199]

Jim Knight: Information on secondary schools and the pupils in each school achieving 5+ A*-C and 5+ A*-C including English and mathematics is included in the 2006 key stage 4 achievement and attainment tables. Full details of each school and the requested information can be found in the House of Commons Library. 2007 figures will be available from January 2008.

Norman Lamb: To ask the Secretary of State for Children, Schools and Families how many schools in each local education authority area had fewer than *(a)* 30 per cent. and *(b)* 40 per cent. of pupils achieving five passes at GCSE including mathematics and English in each of the last three years. [170290]

Jim Knight *[holding answer 3 December 2007]:* Information for each of the years individually is in the Library.

We have summarised the figures in the following table showing the number of schools in each local authority achieving fewer than *(a)* 30 per cent. and *(b)* 40 per cent. in all of the last three years.

These figures relate to maintained schools only. Schools without published results for each of the last three years are not included in the analysis.

To answer this question, figures for the academic years 2003-04, 2004-05 and 2005-06 have been used as the data for 2006-07 have not yet been published. Schools and colleges will get the chance to amend their results before the revised data are published in January 2008.

Schools with <30 per cent. and <40 per cent. 5+ A-C including English and mathematics 2004-2006*

LA number	LA name	<30 per cent	<40 per cent
937	Warwickshire	9	17
938	West Sussex	11	15

Mr. Laws: To ask the Secretary of State for Children, Schools and Families which secondary schools had less than 30 per cent. of pupils securing five A*-C GCSEs including mathematics and English in the latest reporting period, broken down by local authority; what percentage of pupils in each school (*a*) were eligible for free school meals and (*b*) secured five A*-C GCSEs, including mathematics and English; and whether specialist status had been achieved by each. [170790]

Jim Knight: The information required has been placed in the Library.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of students at Key Stage 3 achieved (*a*) no GCSE passes and (*b*) fewer than five GCSE passes in each year between 1996 and 2007. [174195]

Jim Knight: The information requested is contained in the following table.

Proportions of students achieving (a) no GCSE passes and (b) fewer than five GCSE passes: years 1996/97 to 2006/07[1] (provisional)[2]

Coverage: England

	Number of pupils[3]	Percentage who achieved: No passes at GCSE or equivalent[4]	Percentage who achieved: Fewer than five 45+ grades at GCSE or equivalent
15-year-olds			
1996/97[5]	586,766	7.7	13.6
1997/98	575,210	6.6	12.5
1998/99	580,972	6.0	11.5
1999/2000	580,393	5.6	11.1
2000/01	603,318	5.5	11.1
2001/02	606,554	5.4	11.1
2002/03	622,122	5.2	11.2
2003/04[6]	643,560	4.1	11.2
2004/05	636,771	3.6	11.0
2005/06	648,942	3.3	10.6
2006/07	656,667	2.7	10.1
Pupils at end key Stage 4			
2004/05	633,414	2.6	9.8
2005/06	645,931	2.2	9.5
2006/07	648,752	0.9	8.4

[1] Including attempts and achievement in previous academic years.
[2] Figures for 2006/07 are provisional, all other figures are final.
[3] Number of pupils on roll aged 15 at the start of the academic year or from 2004/05 end of Key Stage 4 figures are the number of pupils at the end of Key Stage 4 in that academic year.
[4] From 2003/04 this includes attempts in entry level qualifications which do not contribute towards A*-C or A*-G thresholds.
[5] Percentages for all years include GCSEs and GNVQs.
[6] Percentages from 2003/04 include GCSEs and other equivalent qualifications approved for use pre-16.
Source:
Secondary School Achievement and Attainment tables

Figures for pupils at the end of key stage 4 are only available from 2004/05 onwards.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of pupils failed in GCSE exams in (*a*) history, (*b*) geography, (*c*) mathematics, (*d*) French, (*e*) science, (*f*) physics, (*g*) chemistry and (*h*) physical education in each year from 1997 to 2007. [174197]

Jim Knight: The available information on GCSE exams is shown in the following table. The revised 2007 data will be available in SFR 01/2008 GCSE and equivalent examination results in England 2006-07 (revised) and will be published on the Department's website in January.

Percentage who did not achieve grades A-G: 1997 to 2007*

	History	Geography	Maths	French	Biological science	Physics	Chemistry	Other science	Physical education
2007[1]	2.5	2.4	4.4	0.8	0.7	0.7	0.2	5.9	0.4
2006	2.4	2.7	3.1	0.9	0.5	0.3	0.3	7.6	0.5
2005	2.6	3.1	3.2	1.2	0.5	0.3	0.4	4.5	0.6
2004	2.9	3.1	3.5	2.0	0.4	0.3	0.2	8.3	0.6
2003	3.1	3.3	3.9	2.2	2.8	0.4	0.3	5.9	0.8
2002	3.2	2.6	3.1	1.5	0.4	0.5	0.4	4.9	0.9
2001	5.2	2.8	3.3	3.9	0.5	0.5	0.4	4.1	9.2
2000	2.7	2.6	3.5	1.4	0.7	0.4	0.4	4.9	0.9
1999	3.1	2.9	3.8	1.3	0.6	0.5	0.4	5.0	1.1
1998	3.5	2.7	4.1	1.5	0.7	0.6	0.5	6.1	1.1
1997	3.40	3.2	4.4	3.1	0.8	0.7	0.8	6.9	3.0

[1] Based on 15 year-old pupils (age at start of academic year) with the exception of 2007 which are based on pupils at the end of KS4. [2] Provisional.

Grammar Schools

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many requests to open new grammar schools were received from each local authority in each year since 1997; what approval is needed from his Department to open a new grammar school; and if he will make a statement. [175148]

Jim Knight: Since September 1999 one new school, in Buckinghamshire, has been designated as a grammar

school. The school opened in September 1999 and was established in substitution for a closing grammar school. Information held on proposals to establish new schools made prior to September 1999 is not reliable and has therefore not been included.

Section 104 of the School Standards and Framework Act 1998 provides that no new additional grammar schools may be established. There are 164 designated grammar schools, and this number has remained constant since 1999. Section 104 provides that a new school may be designated as a grammar school only if it is established in substitution for a closing grammar school or schools.

Home Education

Annette Brooke: To ask the Secretary of State for Children, Schools and Families if he will issue new guidelines for local authorities on home education. [174166]

Jim Knight: We issued guidelines for local authorities on elective home education on 29 November 2007. A copy of the guidelines has been placed in the House of Commons Library.

International Baccalaureate

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many local authorities have one or more mainstream institutions offering the international baccalaureate. [174223]

Jim Knight: There are currently 61 maintained schools and colleges in England that are accredited to offer the international baccalaureate, based in 47 local authorities.

Languages: Education

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families what steps the Government have taken to improve standards of foreign language education in schools since 1997. [174159]

Jim Knight *[holding answer 18 December 2007]:* As the hon. Gentleman will be aware from my answer of 8 November, in 2002 the Government published the National Languages Strategy, with the overarching objective of improving the teaching and learning of languages across all phases of education. The Languages review, chaired by Lord Bearing and Lid King, the National Director of Languages, progressed this process further.

We have taken a number of steps to improve standards of foreign language education. This week we have confirmed in the Children's Plan that the review of the primary curriculum will examine how best to introduce languages as a compulsory subject in primary schools, which will include how standards can be assessed.

Standards in languages at key stage 3 are rising faster than in any other subject. The proportion of pupils achieving level 5 and above rose from 54 per cent. to 58 per cent. between 2006 and 2007, while the figure for those who achieved level 6 or above rose from 22 per cent. to 25 per cent. This improvement has been supported by the development of Strategic Learning Networks, enabling language teachers to work together and share good practice. The revised key stage 3 curriculum will be more relevant and engaging for young people and should continue this improvement in standards. Specialist language colleges receive additional money for outreach work with local schools, which can be used to improve standards at key stage 4.

The proportion of those pupils achieving an A*-C grade in a GCSE language subject has increased from 48 per cent. in 1997 to 66 per cent. in 2007.

The Languages Ladder/Asset Languages Scheme, introduced in 2005, complements existing qualifications and allows learners to progress at their own pace in one or more of the four language skills—speaking, listening, reading and writing. This allows pupils who may not previously have achieved a languages qualification to have their achievement recognised.

Finally, we have announced the development of a new diploma in languages to be introduced from 2011.

Languages: GCE A-Level

Mr. Laws: To ask the Secretary of State for Children, Schools and Families if he will require all maintained schools and colleges with sixth forms to offer modern languages to A-level; and if he will make a statement. [174265]

Jim Knight: We have no plans to do so. Choice of which subjects to offer at A-level is a matter for schools to determine. We were pleased to see a small increase in the number of pupils studying languages at A-level in 2007. This shows that young people choosing to learn languages at GCSE are enthusiastic language learners who are more likely to continue learning post-16.

Literacy: Teaching Methods

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what recent guidance has been given to schools on the use of synthetic phonics; and if he will make a statement. [174263]

Jim Knight: The strong emphasis we have placed on the use of systematic phonics through the renewed Primary Framework is supported by a range of guidance and training.

We have provided Letters and Sounds, a high quality phonics training manual developed by the Primary National Strategy with support from Jim Rose, free to all primary schools. To help schools implement this we have provided, and continue to provide, training and guidance to local authorities for dissemination to schools.

Through the Communication, Language and Literacy Development Programme we provide guidance for all those involved in early literacy development: teachers, teaching assistants, head teachers and LA staff. In addition to training and guidance we provide a dedicated site which addresses the key aspects of quality first teaching of early reading.

As part of consolidating a firm understanding of the principles which underpin excellent phonic work we have determined a set of core criteria that define the

key features of an effective systematic phonics teaching programme. These build directly on Sir Jim Rose's recommendations for

'high quality phonic work'

These, together with notes of guidance on how to apply them, are contained within Letters and Sounds and can also be accessed through our dedicated phonics site which provides an additional source of advice and information for schools and settings to draw on.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what guidelines he has issued to Ofsted on monitoring the implementation of the recommendations of the Rose review. [174289]

Jim Knight: The Department has not issued guidelines to Ofsted on this matter. It has however asked Ofsted to conduct reviews of both early reading provision in schools, and its coverage as part of initial teacher training. These are expected to take place in the coming year.

Lord Adonis

Mr. Laws: To ask the Secretary of State for Children, Schools and Families whether Lord Adonis attended the academies seminar on 1 November 2007; and if he will make a statement. [168191]

Jim Knight: The seminar on 1 November was attended by a number of officials and a range of stakeholders in the academies programme. No Ministers attended this meeting.

Mandarin: Teachers

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many teachers with a language specialism in Mandarin Chinese qualified in the last 12-month period for which figures are available. [174290]

Jim Knight: Data relating to the language specialisms of Initial Teacher Training (ITT) trainees are not collected centrally.

In 2005/06 there were two postgraduate ITT trainees who gained Qualified Teacher Status (QTS) and had an undergraduate UK degree in a subject related to Mandarin. One trainee had an undergraduate degree in applied languages and the other in Chinese (modern).

There are currently no ITT courses which specialise in Mandarin only.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Children, Schools and Families when he expects to reply to the letter of 16 October 2007 from the right hon. Member for Manchester, Gorton on Cedar Mount High School. [173127]

Jim Knight: I apologise that, due to an administrative oversight in the Department, you had not yet received a reply to your letter of 16 October 2007. A reply was sent on 10 December.

Personal Social and Health Education

Chris McCafferty: To ask the Secretary of State for Children, Schools and Families (1) what estimate he has made of the number of parents who opted their children out of personal social and health education in the latest period for which figures are available; [175205]

(2) what estimate he has made of the number of schools which did not include sex and relationships education in their personal social and health education curriculum in the latest period for which figures are available; [175206]

(3) how many *(a)* school nurses and *(b)* school nurses who teach sex and relationships education in schools there were in the latest period for which figures are available. [175207]

Jim Knight *[holding answer 17 December 2007]:* The Department does not collect data on the number of pupils withdrawn from personal, social and health education (PSHE). However, Ofsted's survey on SRE published in 2002 found that only 0.04 per cent. of pupils were withdrawn from the non-statutory aspects of SRE normally delivered through PSHE.

Similarly, the Department does not collect data or the number of schools who include SRE within PSHE, but departmental guidance on SRE (DfES, 2000) makes clear that schools should embed SRE within their programmes for PSHE.

In 2006 there were 1,129 school nurses with a school nurse qualification (an increase of 31.9 per cent. since 2004). Their involvement in the delivery of SRE is a decision for primary care trusts and individual schools. The Department recognises the unique contribution that school nurses make to SRE and encourages all those involved in classroom delivery to undertake the National PSHE Continuing Professional Development Programme. This accredited programme supports standards in the delivery of PSHE teaching including sex and relationships education.

Primary Education: Standards

Mr. Randall: To ask the Secretary of State for Children, Schools and Families what the levels of numeracy and literacy were among primary school leavers in *(a)* Uxbridge constituency, *(b)* each London borough and *(c)* England in each year since 1997. [171322]

Jim Knight: The information required is in the Library.

John Mann: To ask the Secretary of State for Children, Schools and Families what the five *(a)* highest and *(b)* lowest performing primary schools in England were in each of the last 10 years in terms of (i) Key Stage 2 SAT results and (ii) value-added measures. [175213]

Jim Knight: The information required can be found in the achievement and attainment tables held in the House of Commons Library.

Primary Education: Teachers

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what estimate his Department has made of the number of additional primary school teachers required in each of the next 10 years; and if he will make a statement. [169801]

Jim Knight: This Department is about to complete an exercise to forecast the number of teacher training places that will be needed during the next few years, and I will shortly be notifying these to the Training and Development Agency for Schools to enable it to begin allocating training places.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) what proportion of primary teacher trainees who gained Qualified Teacher Status (QTS) were shown as in service in the database of teacher records at the end of the financial year three years after they gained QTS for each year from 1998; [174269]

(2) what proportion of secondary teacher trainees, in each subject for which there are initial teacher training targets, who gained Qualified Teacher Status (QTS) were shown as in service in the database of teacher records at the end of the financial year three years after they gained QTS for each year from 1998. [174270]

Jim Knight: The information is not available in the format requested.

The following table provides the percentage of full and part-time teachers who entered local authority maintained sector service in England in the year after qualification in March 1998 and 2003 and were still in such service three years later, broken down by primary and for secondary by subject of initial teacher training.

Retention rate of full and part-time teachers who entered local authority maintained[1] sector service in England by the March after the year of their qualification[2], 1998 to 2003 and were still in service three years later in 2001 to 2006

	Three year retention rate (percentage)

TDA performance profiles.

Pupils: English Language

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many children of school age there are who are bilingual learners or have English as a second language, in each local authority. [174864]

Jim Knight *[holding answer 17 December 2007]:* The available information has been placed in the Library. This can be found in SFR 30/2007 "Schools and Pupils in England: January 2007 (Final)" which is available on the Department's website here:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000744/index.shtml

The table shows pupils by first language status; information on bilingual learners is not collected.

Pupils: Sight Impaired

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families in what formats educational material for visually impaired and dyslexic children are provided by his Department; how much has been allocated for provision of such material; and if he will make a statement. [174336]

Jim Knight: Local authorities and schools are funded to provide services for children with special educational needs (SEN). It is for local authorities and schools to determine how best to use resources to overcome barriers to achievement—including the provision of educational material in alternative formats where that is appropriate. The Education Act 1996 requires local

authorities, schools and early years settings to have regard to the SEN Code of Practice which provides advice on carrying out statutory duties to identify, assess and make provision for pupils' special educational needs.

Part 4 of the Disability Discrimination Act 1995 requires schools and local authorities to plan to improve access to the curriculum and written materials for disabled pupils over time. In addition, the new Disability Equality Duty introduced by the Disability Discrimination Act 2005 requires all public bodies including schools and local authorities to promote disability equality more widely.

The Department does not generally provide educational materials to children. However, we are currently working with a range of stakeholders including the RNIB and British Dyslexia Association, to look at ways of improving the provision of books and educational material in accessible formats.

School Leaving: Newcastle

Mr. Henderson: To ask the Secretary of State for Children, Schools and Families if he will make an assessment of the likely costs to the Newcastle local education authority of raising the school leaving age to 18. [174133]

Jim Knight: The estimated costs of raising the participation age were set out in the regulatory impact assessment (RIA) published alongside the Education and Skills Bill on 29 November 2007. Costs were projected to be around £800 million per cohort of young people but the economic benefits were estimated to be around £2,400 million on the same basis.

The RIA can be accessed at:

http://www.dcsf.gov.uk/publications/educationandskills/

and I have placed a copy in the Library of the House.

The Department has not made detailed economic projections at a local level. Demographic changes will vary between local areas, of course, as will the nature of demand from young people, and local authorities will need to use their own projections to plan accordingly.

The proposed legislation is for the education and training leaving age, not the school leaving age, to be raised to 18 years. This will be done in two stages, with the participation age not being raised to 18 until 2015.

Schools

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many competitions for new schools were won by *(a)* academies, *(b)* local authority schools and *(c)* other schools in each month since January 2006; and if he will make a statement. [167782]

Jim Knight: The following table shows the number of competitions won, in each month, by proposals for new academies and schools proposed by local authorities (LAs):

Decision date	*Competition*	*Winning school proposal*	
		Academy	*LA maintained school*
May 2007	Haringey		[1]
July 2007	Southampton (East) and Southampton (West)	2	
August 2007	Lincolnshire (Gainsborough)	1	

[1] Community school

There were no school competitions decided in 2006. The Lincolnshire and Southampton competitions were decided by the local authorities since they had not entered proposals of their own into the competitions; the Haringey competition was decided by the Schools Adjudicator.

A further four competitions are currently in progress in Salford, Devon, West Sussex and Cambridgeshire.

Schools: Finance

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how much deprivation-related funding is allocated to each school in Somerset; and if he will make a statement. [175152]

Jim Knight: Somerset's total Dedicated Schools Grant allocation for 2007-08 was £253.489 million: the amount of deprivation funding within this was 7.8 per cent. or £19.642 million. Somerset distributed £11.785 million or 60 per cent. of this deprivation funding through its formula on the basis of deprivation factors. Figures for each school in Somerset could be provided only at disproportionate cost.

Science: Teachers

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many and what proportion of science teachers in *(a)* primary schools and *(b)* secondary schools have a GCSE science qualification at grade C or above. [174222]

Jim Knight: The information requested is not collected centrally.

Information on the number of full-time teachers in service in secondary schools by the highest post-A-level qualification in the subject they teach is available from the Secondary School Curriculum and Staffing Survey (SSCSS), an occasional sample survey last conducted in 2002 and 2007. 2007 figures are expected to be published in spring 2008.

The following table provides the number of teachers teaching each subject area and the level of qualification in that subject in 2002, the latest information available.

Teachers in Service: Full-time teachers in maintained secondary schools: Highest post-A-level qualifications[1] held in the subjects they teach[2] to year groups 7-13, England

Total[7]	33 ± -	10 ± -	7 ± -	5 ± -	1 ± -	44 ± -	388.4

'-' = zero or less than 0.5.

[1] Where a teacher has more than one post-A-level qualification in the same subject, the qualification level is determined by the highest level reading from left (Degree) to right (Other Qual.). For example, teachers shown under PGCE have a PGCE but not a degree or BEd in the subject, while those with a PGCE and a degree are shown only under Degree.

[2] Teachers are counted once against each subject which they are teaching.

[3] Includes higher degrees but excludes BEds.

[4] Teachers qualified in combined/general science are treated as qualified to teach biology, chemistry, or physics. Teachers qualified in biology, chemistry or physics are treated as qualified to teach combined/general science.

[5] Teachers qualified in other/combined technology are treated as qualified to teach design and technology or information and communication technology. Teachers qualified in design and technology or information and communication technology are treated as qualified to teach other/combined technology.

[6] Information and Communication Technology is abbreviated as ICT and Personal Social and Health Education is abbreviated as PSHE.

[7] 'Other' not included in total percentages.

Source:
Secondary Schools Curriculum and Staffing Survey 2002.

Specialised Diplomas: Expenditure

Mr. Boswell: To ask the Secretary of State for Children, Schools and Families what expenditure from the public purse has been incurred to date by *(a)* the Learning and Skills Council, *(b)* the sector skills councils, *(c)* the Qualifications and Curriculum Authority, *(d)* the Gateway process and *(e)* his Department on (i) the diploma programme and (ii) individual diplomas. [173868]

Jim Knight: Expenditure on (i) the diploma programme by the Learning and Skills Council, the Sector Skills Council, the Qualifications Curriculum Authority, the Gateway process and the Department is set out in the following table.

	2005-06	2006-07	£ million 2007-08 (30 November)
LSC			
Sector Skills Council	1.847	6.217	5.533
QCA	1.14	6.86	8.76
Development costs	1.4	2.4	6.54

Expenditure on (ii) individual diplomas (including by the LSC) is zero as participation on diplomas has yet to start.

Teachers

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many *(a)* secondary and *(b)* primary Qualified Teacher Status (QTS) teachers were in service at any time during their first three years after gaining QTS in the latest period for which figures are available. [174271]

Jim Knight: The information requested is not collected centrally.

Vocational Training: Sunderland

Mr. Kemp: To ask the Secretary of State for Children, Schools and Families what steps his Department is taking to ensure that residents from the city of Sunderland will have the necessary skills to take advantage of jobs resulting from the Olympics in 2012. [175224]

Mr. Lammy: I have been asked to reply.

The Department for Innovation, Universities and Skills has a joint responsibility with the Department for Work and Pensions to maximise the employment and skills benefits for the UK arising from Games-related business. In the main, this will be achieved using existing initiatives such as Train to Gain, as we help employers in meeting their skill needs to design, build and deliver the Games, and encourage individuals to develop their skills so that they can compete for opportunities and progress within the labour market beyond 2012. To do this, we have initiated a programme of activities which are nation or UK-wide, rather than related to specific cities or regions. On the employer side, two cluster groups of sector skills councils are leading two areas: one to look specifically at the issues relating to the built environment and environmental improvements for the Games; and the other is looking at the staging and legacy aspects of the Games. Other specific employer-led initiatives include a programme of media training placements being developed by Skillset; the national skills strategy for hospitality, leisure, travel and tourism in England developed by People 1st; and the National Skills Academy for Construction centre on the Olympic site which the Prime Minister announced on 29 November. For individuals, initiatives include new advanced apprenticeships in sporting excellence; customer service and hospitality apprenticeships; and the LDA-led Personal Best Programme which is currently being piloted in London but will be offered nationally and is targeted at individuals furthest away from the labour market to improve skills and promote employability.

Within the Sunderland area itself initiatives include promoting business opportunities to Sunderland companies; engaging in discussions regarding the Cultural Olympiad; Sunderland venues registering as possible venues for pre-Games training camps; and Sunderland university has been involved in discussions concerning the north-east's regional cultural volunteering programme. The north-east's plans for the Games also include the development of a sport-related work force and making the most of the opportunities available for the key nine sectors in the regional economic strategy.

Young People: Disadvantaged

Grant Shapps: To ask the Secretary of State for Children, Schools and Families what funding he plans to allocate to Hertfordshire to assist young people with disadvantaged backgrounds; and if he will make a statement. [174465]

Jim Knight: Funding for young people with disadvantaged backgrounds is a component of the Dedicated Schools Grant. On 12 November I announced to Parliament the three year school funding settlement for 2008-11. In addition to the existing funding for deprivation in DSG allocations, a new deprivation indicator is being used to fund the Pockets of Deprivation Ministerial Priority. In 2008-09 funding for Hertfordshire is £3,896 per pupil, of which 7.5 per cent., or £292, is for educational disadvantage.

Further information on the new indicator, the local authority allocations for pockets of deprivation and the overall proportion of each local authority's DSG allocation for deprivation is on the Teachernet website at:

www.teachernet.gov.uk/dsg200811/

Youth Citizenship Commission

Mr. Paul Goodman: To ask the Secretary of State for Children, Schools and Families when the Youth Citizenship Commission referred to in the Governance of Britain Green Paper will be launched; who the members of the commission will be; when he expects the recommendations of the commission to be published; and if he will make a statement. [174088]

Ed Balls: We will be making an announcement on the Youth Citizenship Commission in the new year.

Written Answers to Questions

Monday 7 January 2008

COMMUNITIES AND LOCAL GOVERNMENT

Christmas

Malcolm Bruce: To ask the Secretary of State for Communities and Local Government (1) whether it is her Department's policy to use *(a)* incandescent light bulbs and *(b)* LED lights for festive decorations on departmental premises; [173490]

(2) what her Department's policy is on the selection of *(a)* real and *(b)* artificial Christmas trees for her Department's festive decorations; and how real trees are disposed of. [173532]

Mr. Dhanda: Communities and Local Government provides a real Christmas tree in the reception of its three HQ buildings. The trees are sustainably sourced, whereby for each tree harvested, another is planted. These are decorated using ultra-energy-efficient LED lights. The trees are disposed of sustainably by conversion to wood chips for composting and mulching.

Closed Circuit Television: Planning

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what permitted development rights exist for CCTV cameras *(a)* on a fixed pole and *(b)* affixed to a building. [176193]

Mr. Iain Wright: Part 33 of Schedule 2 to the Town and Country Planning (General Permitted Development) Order 1995 grants permitted development rights for the installation, alteration or replacement on buildings or other structures (such as walls, fences or poles) of CCTV cameras for security purposes, subject to specified limits on size, numbers and positioning. Part 33 does not apply to listed buildings. Nor does it give permitted development rights to poles or other structures specially constructed to hold cameras.

Community Relations

Andrew Rosindell: To ask the Secretary of State for Communities and Local Government what steps she has taken to improve community cohesion and integration since 2005. [175634]

Mr. Dhanda: When Communities and Local Government (CLG) was set up in May 2005, policy for community cohesion was one of the areas which transferred to the new Department. Since then, CLG has provided support for local areas experiencing challenges to cohesion and supported the independent Commission for Integration and Cohesion. We announced an initial response to the Commission in October, which included an additional £50 million funding to support local areas work to build cohesion over the next three years. We will announce a full response to the Commission shortly.

Community Relations: Chelmsford

Mr. Burns: To ask the Secretary of State for Communities and Local Government what steps she is taking to improve community cohesion in West Chelmsford constituency. [174983]

Mr. Dhanda: Both "Strong and Prosperous Communities" the Local Government White Paper and the Government's initial response to the Commission on Integration and Cohesion's final report, "Our Shared Future", recognise the need to respond to the community cohesion challenge faced by increasing change in local communities.

In the 2006 Best Value Survey West Chelmsford scored above the national average on the measure for cohesion ("the percentage of residents who agree that their local area is a place where people from different backgrounds get on well together"). The Department for Communities and Local Government is not undertaking specific cohesion work with West Chelmsford.

However within the new performance framework for local authorities and local authority partnerships there are mechanisms to monitor progress against the new single set of national indicators which includes indicators of community cohesion, and the new local area agreements offer the opportunity to identify priority improvement targets.

Departmental Conditions of Employment

Tom Brake: To ask the Secretary of State for Communities and Local Government how many and what proportion of posts in her Department were recategorised from back office to frontline posts as classified by the Gershon efficiency review in each year since 2004. [172249]

Mr. Dhanda: The Department for Communities and Local Government is committed to achieving work force reductions of 400 full-time equivalents by the end of 2007-08. This is a net target and no posts will be reallocated to the frontline as part of it.

Empty Property

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what changes she is making to the requirement for local authorities to have a register of empty homes returned to use. [176196]

Mr. Iain Wright: There is no statutory requirement on local authorities to hold a register of empty homes returned to use. However, local authorities are expected to take measures to reduce the number of homes that are left empty for long periods of time as part of their strategic housing role. Local authorities may therefore choose to keep information about empty homes in their area in the form of a register if this helps to facilitate their strategic approach.

English National Land Use Database

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how many hectares of derelict land are recorded on the English National Land Use Database, broken down by government office region. [176162]

Mr. Iain Wright: In 2006, the latest year for which figures are available, there were an estimated 17,850 hectares of derelict land and buildings in England. This is broken down by region as follows:

Region	*Hectares*
North East	1,130
North West	4,970
Yorkshire and The Humber	2,920
East Midlands	1,790
West Midlands	2,070
East of England	1,970
London	250
South East	1,260
South West	1,490
England	17,850

English Partnerships: Expenditure

Alistair Burt: To ask the Secretary of State for Communities and Local Government how much English Partnerships has spent since its establishment in each parliamentary constituency in England. [175546]

Mr. Iain Wright: English Partnerships' expenditure is not available at parliamentary constituency level as it records most of its expenditure by individual local authority. A breakdown of English Partnerships' spend in each local authority area since 2001-02 has been deposited in the Library of the House. Due to organisational changes, data prior to 2001 could be provided only at disproportionate cost.

As some expenditure is incurred at national level, a figure for national spend is included for completeness. This covers national investment in financial vehicles like the English Cities Fund, Priority Sites Ltd. and Networkspace; the purchase of national portfolios of land such as that from the NHS in 2005; and research.

Environment Protection: EU Law

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what plans she has to amend legislation to meet the requirements of the EU Directive on Environmental Impact Assessments. [176158]

Mr. Iain Wright: The Town and Country (Environmental Impact Assessment) (England and Wales) Regulations 1999 (SI No. 293) (the 1999 Regulations) are the principal regulations which apply environmental impact assessment (EIA) to development proposals. On 15 November 2000 they were amended to apply EIA to applications for review of conditions attached to mineral planning permissions.

We are currently planning to make two further amendments to the 1999 Regulations. The first will allow EIA to be applied at the reserved matters stage following the grant of outline planning permission

The second amendment will apply the requirements of the 1999 Regulations, as amended in 2000, to the few outstanding applications for initial review of old mineral permissions which pre-date 15 November 2000 and which are stalled because information to enable EIA to be carried out has not been provided. The effect of the new Regulations will be to allow new conditions to be attached to permissions to mitigate the environmental impact of mineral operations.

Fires: Chemicals

Mr. Jenkin: To ask the Secretary of State for Communities and Local Government what instructions were given by her Department's staff at the oxyacetylene fire incident on the A12 at Eight Ash Green on Friday 5 October 2007; whether her Department received any requests for the penetration of the oxyacetylene cylinder by high velocity rifle round; and if she will make a statement. [175549]

Mr. Dhanda: No instructions were given by Communities and Local Government (CLG) staff with regard to the oxyacetylene incident on the A12.

CLG did not receive any requests for the penetration of the oxyacetylene cylinder by high velocity rifle round.

Mr. Jenkin: To ask the Secretary of State for Communities and Local Government how many fire-fighters have been *(a)* killed and *(b)* injured by explosions caused by oxyacetylene cylinders in the last 10 years. [175553]

Mr. Dhanda: There have been no recorded deaths or injuries of firefighters following explosions of an acetylene cylinder in the last 10 years.

Mr. Jenkin: To ask the Secretary of State for Communities and Local Government on which occasions trunk road motorway or rail closures of more than three hours have been caused by fires involving oxyacetylene since such fires began to be recorded as fires of special interest; and if she will make a statement. [175554]

Mr. Dhanda: The information requested is not held centrally and could be provided only at disproportionate cost.

Floods: Maps

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what information the Ordnance Survey's Mastermap product holds on the flood risk of individual properties. [176186]

Mr. Iain Wright: None.

However a combination of OS Mastermap datasets such as topography, address and height data may be used by others, in combination with specialist information from other sources, to model flood risks down to individual properties.

Green Belt

Mr. Pickles: To ask the Secretary of State for Communities and Local Government with reference to the answer of 9 October 2007, *Official Report*, columns 563-4W, on green belt, what the loss in hectares of designated green belt was in each Government office region in each year since 1997 for which data are available, excluding additions to the green belt in the same period. [176453]

Mr. Iain Wright: The gross change in the number of hectares of green belt land that had green belt designation removed is not held centrally. This information could be obtained only at disproportionate cost.

Housing

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what *(a)* proportion and *(b)* number of first time buyers in (i) the United Kingdom and (ii) England and Wales purchased properties in the three or four per cent. stamp duty band in the most recent year for which figures are available. [176619]

Mr. Iain Wright: Data on first time buyers (FTBs) using a mortgage in the UK are available from the Regulated Mortgage Survey which is supplied to Communities and Local Government by the Council of Mortgage Lenders. The survey is a sample so data on the total number of FTBs are unavailable.

However the Council of Mortgage Lenders publishes figures on the total number of FTBs in the UK, but not for England and Wales. In order to estimate numbers of FTBs in the UK in each stamp duty bracket proportions calculated from the Regulated Mortgage Survey have been applied to the published figure of FTBs in the UK.

The number and proportion of first time buyers in the UK that purchased properties in the 3 and 4 per cent. stamp duty bands during 2006 is shown in the following table.

Number and proportion of first time buyers that purchased properties in the 3 or 4 per cent. stamp duty bands during 2006, UK

	3 per cent. stamp duty band	*4 per cent. stamp duty band*	*3 or 4 per cent. stamp duty bands*
Number	23,435	2,831	26,266
Percentage	5.8	0.7	6.5

Source:
Regulated Mortgage Survey and Council of Mortgage Lenders

As information on the total number of FTBs in England and Wales is not available, only the proportions in each stamp duty band can be derived from the Regulated Mortgage Survey.

The proportion of first time buyers in England and Wales that purchased properties in the 3 and 4 per cent. stamp duty bands is shown in the following table.

Proportion of first time buyers that purchased properties in the 3 or 4 per cent. stamp duty bands during 2006, England and Wales

	Percentage
3 per cent. stamp duty band	6.3
4 per cent. stamp duty band	0.8
3 or 4 per cent. stamp duty bands	7.1

Source:
Regulated Mortgage Survey

Housing: Carbon Emissions

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what assessment her Department has made of the range of the additional build costs of a zero carbon home in addition to Part L of the 2006 building regulations. [176617]

Mr. Iain Wright: I refer the hon. Member to the answer given to him on 11 December 2007, *Official Report*, column 545W and to the answer given to the hon. Member for Beckenham (Mrs. Lait) on 8 October 2007, *Official Report*, column 35W.

Housing: Cleethorpes

Shona McIsaac: To ask the Secretary of State for Communities and Local Government how many houses in multiple occupancy there were in Cleethorpes constituency in each year since 1997. [176871]

Mr. Iain Wright: The Department does not hold this information.

Housing: Finance

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what central Government public expenditure on housing was in each year since 1996-97; and what the forecast levels are for each of the next three years. [176191]

Mr. Iain Wright: Data on public expenditure by function are published annually in 'Public Expenditure Statistical Analyses'. The latest edition was published in April 2007 (Cm 7091) and includes data for years up to and including 2007-08. Spending plans for the three years 2008-09 to 2010-11 were published in 'Meeting the Aspirations of the British People: 2007 Pre-Budget Report and Comprehensive Spending Review' (Cm 7227). Annex D5 includes details of the Government's housing plans.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the planned expenditure is on the Housing Market Renewal Pathfinder Scheme in each of the next three years. [176229]

Mr. Iain Wright: The Housing Market Renewal Pathfinder Schemes submitted business plans in November 2007 for the period 2008-11. Ministers are currently considering these business plans and will announce specific funding allocations in the next few weeks. Total funding for the Housing Market Renewal programme for 2008-11 will be around £1 billion.

Housing: Low Incomes

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what her Department's definition is of affordable housing; and what changes have been made to the definition since May 1997. [176592]

Mr. Iain Wright: Affordable housing is defined in detail in Planning Policy Statement 3 Annex B. In essence it includes social rented and intermediate units provided to households whose needs are not met by the market. This excludes 'low cost market' housing for example, homes which do not remain affordable on resale.

The new definition was adopted because Government wished to ensure that developer contributions are used to help provide genuinely affordable housing for households in need over the long term.

Housing: Parking

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the recommended maximum limit is on the number of parking spaces for new residential developments following the publication of Planning Policy Statement 3. [176622]

Mr. Iain Wright: I refer the hon. Member to the answer I gave on 13 December 2007, *Official Report*, column 900W.

Housing: Prices

Mr. Pickles: To ask the Secretary of State for Communities and Local Government (1) what the average price was of a property purchased by a first time buyer in England in *(a)* 1996-97 and *(b)* the latest period for which figures are available; [176185]

(2) what the average price was of a property purchased by a first time buyer in each local authority area in England in the most recent period for which figures are available. [176199]

Mr. Iain Wright: Using data from the Regulated Mortgage Survey, the mix-adjusted average price of a property purchased by a first time buyer in 1997 for England was £58,391.

The mix-adjusted average price of a property purchased by a first time buyer for England in 2006, the last full-year for which data are available, was £155,089.

The mix-adjusted average price of a property purchased by a first time buyer in Q3 2007, the latest period available for England, was £173,134.

Influenza

Sarah Teather: To ask the Secretary of State for Communities and Local Government how many local authorities have made a contingency plan for responding to a influenza pandemic. [167161]

Gillian Merron: I have been asked to reply.

The Government do not formally collect information on the emergency plans and business continuity arrangements maintained by individual local authorities.

Part 1 of the Civil Contingencies Act 2004 establishes a statutory framework for civil protection activity at the local level. Under this legislation, all principal local authorities are required to maintain emergency plans and business continuity arrangements, informed by risk assessments, to ensure that they can mobilise an effective emergency response, and are able to continue to exercise their other functions during a full range of emergencies, including health emergencies. The legislation also requires local authorities and other key partners to exercise these plans. The performance of English local authorities against the duties set out in the Act is assessed by the Audit Commission as part of the comprehensive performance assessment.

Law and Order: Antisocial Behaviour

Stephen Hesford: To ask the Secretary of State for Communities and Local Government what assessment she has made of the effectiveness of the enforcement of the Government's antisocial behaviour legislation in problem areas; and if she will make a statement. [174008]

Mr. Coaker: I have been asked to reply.

The Home Office is responsible for policy on tackling antisocial behaviour. Earlier this year a survey of 1,000 practitioners was conducted to assess the impact of the Respect programme on local communities. The outcome was that:

92 per cent. of practitioners felt more was being done in their areas to tackle ASB compared with three years ago;

79 per cent. had the backing of their community in tackling antisocial behaviour;

73 per cent. felt the right kinds of tools and powers were available to them to tackle antisocial behaviour, and;

41 per cent. felt that better partnership/multi-agency approaches have made a difference in tackling antisocial behaviour.

We have appointed IPSOS Mori to undertake a qualitative study investigating the circumstances in which different antisocial behaviour interventions are most effective. The outcome is to be published in 2008. In the meantime three independent reports have confirmed our approach to tackling antisocial behaviour is working. These were the Home Affairs Select Committee report (2005), the Audit Commission report (May 2006) and the NAO report (December 2006).

Local Authorities: Standards

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what *(a)* targets and *(b)* performance indicators (i) English Partnerships and (ii) its successor agency is developing for local authorities. [176614]

Mr. Iain Wright: I refer the hon. Member to the answer I gave him on 12 December 2007, *Official Report*, columns 684-85W.

Local Authority Business Growth Incentives Scheme

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what changes the Government have made to the Local Authority Business Growth Incentives Scheme since its introduction; and what further changes her Department is planning. [176201]

John Healey: The Local Authority Business Growth Incentives Scheme was announced in the 2002 pre-Budget report and introduced in 2005-06, to reward local authorities for increasing their business rateable value base. The scheme was simplified in its second year by removing the ceiling on payments to local authorities.

A further change was made during 2007, in response to a challenge to the scheme under Judicial Review. As a result, additional year 1 and 2 payments were made to eligible local authorities in September 2007. These payments reflected increases in rateable value attributable to business expansion.

Following further consideration of the new legal challenges that have been made against the current Local Authority Business Growth Incentives Scheme and the inherent uncertainty that this causes to the remaining LABGI pot, the Government are today drawing local authorities' attention to their intention to re-consider all aspects of the approach used to distribute the remaining resources available for year 3 of the LABGI Scheme.

It should also be noted that the sum total of remaining LABGI resources available for distribution will be dependent on the amounts that may be required to meet any potential consequences arising from the court's decisions on the legal challenges for years 1 and 2 of the LABGI Scheme.

A further announcement will be made shortly.

Members: Correspondence

Mr. Harper: To ask the Secretary of State for Communities and Local Government how many letters her Department received from hon. Members and Peers in each session of Parliament since 1997. [174938]

Mr. Dhanda: The Cabinet Office, on an annual basis, publishes a report to Parliament on the performance of Departments in replying to Members/Peers correspondence. Information relating to 2007 will be published as soon as it has been collated. The report for 2006 was published on 28 March 2007, *Official Report*, columns 101-04WS. Reports for earlier years are available in the Library of the House.

National Identity Register

Mr. Philip Hammond: To ask the Secretary of State for Communities and Local Government what plans her Department has to make use of data on the national identity register when it is established; and what the estimated annual cost to her Department of that use is. [174031]

Mr. Dhanda: Communities and Local Government will be working with the Home Office prior to the introduction of the national identity scheme to establish how identity information held on the proposed national identity register might be used to provide easier access to services. It is too early in the process to establish the detailed costs and benefits.

Planning Permission: Aerials

Mrs. Lait: To ask the Secretary of State for Communities and Local Government if she will end the practice of deemed planning consent for mobile telephone masts where telecommunications companies do not receive any notification. [174764]

Mr. Iain Wright: We are currently reviewing the planning regulations governing the installation of mobile telephone masts contained in part 24 of schedule 2 to the Town and Country Planning (General Permitted Development) Order 1995 (as amended). The prior approval process, to which the hon. Member refers, is being considered as part of that review. Should our review result in any substantive proposals for change we will consult publicly on any options.

Planning: Finance

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how much her Department and its predecessor spent on research, consultancy and preparation costs for planning gains supplement. [176175]

Mr. Iain Wright: The Department has undertaken preliminary work to develop and explore the feasibility of a planning-gain supplement since 2004. This has included the publication of one consultation document alongside the 2006 pre-Budget report. The costs incurred have been borne by the Department as part of the normal policy development process.

Population: Tamworth

Mr. Jenkins: To ask the Secretary of State for Communities and Local Government what the density of population in the Borough of Tamworth, excluding the flood plain area, is expressed in acres per 100,000 people. [174713]

Angela Eagle: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 7 January 2008:

As National Statistician, I have been asked to reply to your question asking what the density of population in the Borough of Tamworth, excluding the flood plain area, is expressed in acres per 100,000 people (174713).

ONS does not have population density figures for the borough of Tamworth, excluding the flood plain area. However, population density figures for Tamworth Local authority are available expressed as persons per square kilometre. In mid-2006 the estimated population density for Tamworth local authority is 2,445 persons per square kilometre. These are the latest population density figures available.

Property: Databases

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what proportion of billing authorities have established a regularly-maintained link from their Local Land and Property Gazetteer to the National Land and Property Gazetteer. [176756]

Mr. Iain Wright: The National Land and Property Gazetteer is the responsibility of local government's Improvement and Development Agency (IDeA) and information on this is not held by central Government. Further information on the National Land and Property Gazetteer can be found on the internet at:

www.nlpg.org.uk

Schools: Finance

Mr. Lancaster: To ask the Secretary of State for Communities and Local Government whether funds raised by the Milton Keynes tariff on developers and landowners may be used for the capital funding of new schools. [175610]

Mr. Dhanda: Yes, the Milton Keynes Tariff makes a significant contribution towards the capital cost of new schools for the expansion areas in Milton Keynes and requires free land to be provided by the developers for school sites in these areas.

The precise amounts towards each school are set out in the Milton Keynes Partnership Committee annual business plan which also details other funding sources.

HOME DEPARTMENT

101 Calls

Jim Cousins: To ask the Secretary of State for the Home Department if she will place in the Library copies of letters sent by her Department to Northumbria police authority on the new 101 pilots. [168003]

Mr. McNulty *[holding answer 26 November 2007]:* The letters have now been placed in the House Library.

Jenny Willott: To ask the Secretary of State for the Home Department what estimate has been made by her Department of the level of funding required to roll out each of the 101 non-emergency number pilots under the second wave of the pilot project; and if she will make a statement. [172543]

Mr. McNulty: The Government decided not to proceed with the roll out of the second wave of the 101 single non-emergency number service in October 2006 pending further evaluation of the costs and benefits of the service in the existing five areas. The level of funding requested by each of the potential second wave areas to implement the 101 service was set out in proposals submitted by each police and council partnership at that time and was as follows:

	Partnership proposed implementation cost (£000)
Kent	2,635
Nottinghamshire	2,193
South Yorkshire	2,523
Dorset	1,530
London	10,601
Wiltshire	2,000
Lincolnshire	1,802
Leicestershire	1,972
Lancashire	2,525
Surrey	2,021
Cumbria	1,400
Essex	3,598
Wales	3,428
Hertfordshire	2,250
Total	40,518

Jenny Willott: To ask the Secretary of State for the Home Department how much has been committed by her Department for maintaining the national 101 telephony infrastructure; and if she will make a statement. [172544]

Mr. McNulty: The Home Office has committed £1 million per annum over the next CSR period to maintain the national 101 telephony infrastructure enabling local areas to maintain or develop their own locally funded 101 service.

Jenny Willott: To ask the Secretary of State for the Home Department how much has been allocated by her Department for each 101 non-emergency number pilot in each month since their initiation, broken down by relevant police force area; and if she will make a statement. [172545]

Mr. McNulty: From initiation to the current financial quarter, the Home Office has allocated the following funding amounts as agreed with each 101 partnership area to meet their specific implementation and operation requirements (allocations are based on those costs scheduled to be claimed for the periods set out rather than by each month):

Police force area	*31 December 2005 to 31 March 2006*	*1 April 2006 to 31 March 2007*	*1 April 2007 to 31 December 2007*
			£
Northumbria	958,300	2,481,133	841,323
South Yorkshire	403,798	1,343,899	744,437
Hampshire	1,633,500	1,068,567	1,147,424
Leicestershire	568,491	2,230,389	1,443,206
South Wales	1,065,224	2,568,124	1,977,420

Mr. Hoban: To ask the Secretary of State for the Home Department what the total cost of the non-emergency 101 telephone number pilots was. [173155]

Mr. McNulty: I refer the hon. Member to the answer given on 27 November 2007, *Official Report*, column 362W, to the hon. Member for Hornchurch (James Brokenshire).

Jim Cousins: To ask the Secretary of State for the Home Department how many calls there have been to the new 101 service in each of the local authority areas in the Northumbria Police Authority area *(a)* in total and *(b)* per head of population. [170301]

Mr. McNulty: As of 7 November 2007 there have been a total number of 248,949 calls made from the public to the 101 service in the Northumbria police authority area since the service was launched on 3 July 2006. From incident data created as a result of these calls, it is estimated that *(a)* the number of calls in total and *(b)* the number of calls expressed as a percentage of the population calling on an annualised basis in each of local authority areas in the Northumbria police authority area are as follows:

Local authority area	*Estimated number of calls received by Northumbria 101 for each LA area since launch*	*Estimated percentage of population (2001 Census) calling 101 on annual basis*
Alnwick	2,441	5.76
Berwick-Upon-Tweed	1,986	5.61
Blyth Valley	16,834	15.18
Castle Morpeth	5,266	7.87
Gateshead	32,631	12.51
Newcastle City	57,645	16.28
North Tyneside	34,815	13.31
South Tyneside	27,951	13.41
Sunderland	49,102	12.82
Tynedale	3,648	4.55
Wansbeck	16,631	19.94

Airwave Radio System

Lynne Featherstone: To ask the Secretary of State for the Home Department (1) if she will write to the Mayor of London and the Metropolitan Police Authority urging them to agree protocols with non-Home Office constabularies in London to allow them to access the Airwave Radio System; [173237]

(2) what guidance her Department has issued to chief officers of police with regard to making the Airwave Radio System available to non-Home Office constabularies; and if she will list those non-Home Office police organisations which *(a)* do and *(b)* do not have access to the Airwave Radio System. [173238]

Mr. McNulty: For a non-Home Office police force to gain access to the Airwave Radio System, they must make an application to the Office of Communications (Ofcom). If this is granted, the force concerned would then be in a position to communicate with the emergency services that also use the network.

The relevant local Home Office police force would then determine how they need to interoperate, basing this decision on national security assurance standards.

Non-Home Office police organisations that do have access to the Airwave Radio System are:

British Transport Police
Civil Nuclear Constabulary
Dover Port Police
Haringey Borough Parks Police
IPCC
Ministry of Defence Police
Scottish Police Forces
Scottish Police Services Authority

A comprehensive list of those non-Home Office police organisations without access to the Airwave Radio System is not available.

Alcoholic Drinks: Crime

Mr. Ruffley: To ask the Secretary of State for the Home Department what additional money has been made available to the police in the last 12 months for tackling alcohol-related crime in addition to alcohol misuse enforcement campaigns. [176107]

Mr. Coaker: In the past 12 months over £1,000,000 has been made available to the police in England and Wales for tackling alcohol-related crime.

Alcoholic Drinks: Misuse

Mr. Ruffley: To ask the Secretary of State for the Home Department how much additional funding has been made available to each police force specifically to tackle binge drinking and alcohol misuse in each year since the Licensing Act 2003 came into force. [176108]

Mr. Coaker: The Licensing Act 2003 came into force 24 November 2005. Since that time over £5.3 million has been made available to the police to tackle alcohol misuse.

Home Office alcohol enforcement campaigns are focused at the police basic command unit level. The allocation of funding from campaigns is based on a formal bid process and the number of operations conducted in any given campaign.

Animal Experiments: Scotland

Ms Katy Clark: To ask the Secretary of State for the Home Department (1) what proportion of the regulated procedures conducted in Scotland in 2006 under the Animals (Scientific Procedures) Act 1986 were performed in *(a)* public health authorities, *(b)* universities and medical schools, *(c)* NHS hospitals, *(d)* Government Departments, *(e)* other public bodies, *(f)* non-profit making organisations and *(g)* commercial organisations; [172528]

(2) what proportion of the regulated procedures conducted in Scotland in *(a)* 2005 and *(b)* 2006 under the Animals (Scientific Procedures) Act 1986 were carried out for (i) fundamental and applied studies other than toxicology and (ii) toxicity tests or other safety efficacy evaluation; [172540]

(3) how many *(a)* mice, *(b)* rats, *(c)* guinea pigs, *(d)* hamsters, *(e)* rabbits, *(f)* horses and other equids, *(g)* sheep, *(h)* pigs, *(i)* birds, *(j)* amphibians, *(k)* reptiles, *(l)* fish, *(m)* cats, *(n)* dogs, *(o)* New World primates and *(p)* Old World primates were used in regulated procedures conducted in Scotland under the Animals (Scientific Procedures) Act 1986 in 2006; [172623]

(4) what proportion of the project licences granted under the Animals (Scientific Procedures) Act 1986

that were in force in Scotland at the end of 2006 were in *(a)* mild, *(b)* moderate, *(c)* substantial and *(d)* unclassified severity bandings; [172624]

(5) how many of the regulated procedures conducted in Scotland in 2006 under the Animals (Scientific Procedures) Act 1986 involved *(a)* cats, *(b)* dogs, *(c)* rabbits, *(d)* horses and other equids, *(e)* New World primates and *(f)* Old World primates. [172635]

Meg Hillier: Comprehensive statistics of scientific procedures on living animals in Great Britain carried out under the Animals (Scientific Procedures) Act 1986 are published annually. Copies of the publication for 2006 (Cm 7153) can be found in the House Library.

The data are not collected, stored or presented in a way enabling them to be easily broken down between England, Wales and Scotland as the 1986 Act is administered by the Home Office for the whole of Great Britain (it is administered separately in Northern Ireland). However a special exercise has been undertaken to extract the information requested in relation to Scotland.

During 2006, in Scotland, universities and medical schools carried out 74 per cent. of the regulated procedures under the 1986 Act, Government Departments 1 per cent., other public bodies 16 per cent. and commercial organisations 9 per cent. Public health laboratories, NHS hospitals and non-profit making organisations did not carry out any regulated procedures.

During 2005, in Scotland, 83 per cent. of the regulated procedures under the 1986 Act were carried out for fundamental and applied studies other than toxicology and 17 per cent for toxicity tests or other safety efficacy evaluation. During 2006, in Scotland, 81 per cent. of the regulated procedures under the 1986 Act were carried out for fundamental and applied studies other than toxicology and 19 per cent. for toxicity tests or other safety efficacy evaluation.

During 2006, in Scotland, there were 239,593 mice, 48,519 rats, 1,915 guinea pigs, 711 hamsters, 2,625 rabbits, 211 horses and other equids, 10,573 sheep, 1,012 pigs, 10,680 birds, 336 amphibians, 73,548 fish, 31 cats, 886 dogs, 134 new world primates and 725 old world primates used in regulated procedures under the 1986 Act. No reptiles were used.

In Scotland, at the end of 2006, 37 per cent. of the project licences granted under the 1986 Act that were in force were in the mild severity banding, 59 per cent. in moderate, 2 per cent. in substantial banding and 2 per cent. were in the unclassified severity banding.

During 2006, in Scotland, there were 31 regulated procedures under the 1986 Act using cats, 1,252 using dogs, 6,151 using rabbits, 2,490 using horses and other equids, 163 using new world primates and 1,103 using old world primates.

Antisocial Behaviour Orders

James Brokenshire: To ask the Secretary of State for the Home Department when the rate of breach of antisocial behaviour orders in 2006 will be published. [173831]

Mr. Coaker: The latest data on breach of antisocial behaviour orders are due to be published in spring 2008.

Mr. Kemp: To ask the Secretary of State for the Home Department how many antisocial behaviour orders were issued in *(a)* the city of Sunderland and *(b)* the north east in each year since 2001. [175220]

Mr. Coaker: The information requested is provided in the following tables.

Number of ASBOs issued at all courts, as reported to the Home Office by the Court Service, by period and where restrictions are imposed within the local authority area of the city of Sunderland, up to 31 December 2005

1 January to 31 December each year	*City of Sunderland*
2001-01	
2002-02	2
2003-03	6
2004-04	18
2005-05	43
2001-05	69

Notes:
1. This local authority area table differs from criminal justice system area (cjsa) tables in that an issuing court can be outside the area in which the restrictions have been imposed. For example, an issuing court may be in Hampshire (cjsa) but restrictions apply solely to a local authority area within Dorset.
2. Previously issued data have been revised following joint Home Office/Court Service data reconciliation exercises.
3. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Source:
RDS-OCJR

Number of antisocial behaviour orders issued at all courts, as reported to the Home Office by the Court Service, in the north east region by year, January 2001 to December 2005

	2001	*2002*	*2003*	*2004*	*2005*	*Total*
North east region	22	29	55	133	260	499
Of which:						
Cleveland	4	5	14	28	60	111
Durham	9	8	16	31	27	91
Northumbria	9	16	25	74	173	297

Notes:
1. Previously issued data have been revised following joint Home Office/Court Service data reconciliation exercises.
2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Antisocial Behaviour Orders: Lincolnshire

Shona McIsaac: To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued in *(a)* Cleethorpes constituency and *(b)* Great Grimsby constituency in each year since their introduction. [176862]

Mr. Coaker: The information requested is shown in the following table.

Number of antisocial behaviour orders issued at all courts in the Humberside CJS area, as reported to the Home Office by the Court Service, April 1999 to December 2005

	Number
April 1999 to May 2000	0
June to December 2000	9
2001	4
2002	4
2003	10
2004	72
2005	137
Total	236

Notes:
1. Previously issued data have been revised following joint Home Office/Court Service data reconciliation exercises.
2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Assets Recovery Agency: Christmas

Mr. Maude: To ask the Secretary of State for the Home Department what plans the Assets Recovery Agency has to hold a Christmas party or parties in 2007. [175190]

Mr. Coaker: There will be no Asset Recovery Agency party. A number of groups of Asset Recovery Agency staff will organise their own Christmas functions.

Asylum

Mr. Clappison: To ask the Secretary of State for the Home Department with reference to the answer of 10 September 2007, *Official Report*, column 1930W, on asylum, what further information is being solicited from unsuccessful asylum claimants; how many such individuals have been contacted; when she expects to provide an update on the case resolution programme; what reports have been produced on the programme; if she will publish those reports; and if she will make a statement on her plans for dealing with unsuccessful asylum claimants subject to the case resolution programme in each year since the scheme began. [175267]

Mr. Byrne *[holding answer 18 December 2007]:* Cases are considered on an individual basis. The nature of any additional information required, therefore, will depend upon the circumstances of the particular case being considered.

The chief executive wrote to the Home Affairs Select Committee on 17 December 2007 about the progress made by the case resolution directorate. A copy of the letter is available in the House of Commons Library. As stated in the letter, we intend to report every six months on the number of files that have been concluded.

Tom Brake: To ask the Secretary of State for the Home Department how many asylum cases the Case Resolution Directorate is dealing with; how many of these have been brought by residents of London constituencies, broken down by constituency; and if she will make a statement. [175362]

Mr. Byrne: We have previously estimated that there are around 400,000 to 450,000 electronic and paper records, although this is difficult to assess accurately as many case records are duplicates or errors. This figure does not therefore equate to numbers of asylum applicants.

The information on the number of cases brought by residents of London constituencies, broken down by constituency is not available in the format requested.

We will provide updates on progress on the work of the Case Resolution Directorate on a six monthly basis to the Home Affairs Select Committee. The first of these was published on 17 December 2007 and announced that we have concluded 52,000 cases to date, of which two thirds were either removed or discovered to be duplicate files or errors.

Asylum: Deportation

Mr. Clegg: To ask the Secretary of State for the Home Department how many asylum seekers have been deported to *(a)* Sudan, *(b)* Burma, *(c)* Zimbabwe, *(d)* Iraq, *(e)* the Democratic Republic of Congo, *(f)* Sri Lanka and *(g)* Afghanistan in the last 12 months. [167026]

Jacqui Smith: The following table shows the number of asylum applicants, including dependants, removed to the listed countries between October 2006 and September 2007, inclusive.

Removals, voluntary departures and assisted returns[1] of asylum applicants[2], including dependants, to stated destinations, October 2006 to September 2007[3,4]

		Number of asylum applicants, of whom:		
Destination	Total removals October 2006 to September 2007	Persons refused entry at port and subsequently removed[5,6]	Persons removed as a result of enforcement action and voluntary departures[6,7]	Persons leaving under assisted voluntary return programmes[8]
Sudan	90	5	35	50
Burma	5	*	—	5
Zimbabwe	270	25	35	210
Iraq	690	20	100	565
Democratic Republic of Congo	150	35	85	30
Sri Lanka	515	130	195	190
Afghanistan	980	105	435	435

[1] Includes enforced removals, persons departing voluntarily after enforcement action had been initiated against them, persons leaving under assisted voluntary return programmes run by the International Organization for Migration and those who it is established have left the UK without informing the immigration authorities.
[2] Persons who had sought asylum at some stage.
[3] Figures are rounded to the nearest five (- = 0, * = one or two) and may not sum to the totals shown because of independent rounding.
[4] Provisional figures.
[5] Includes cases dealt with at juxtaposed controls.
[6] Including persons departing 'voluntarily' after enforcement action had been initiated against them.
[7] From January 2005 figures include persons who it has been established have left the UK without informing the immigration authorities. It is not possible to separately identify asylum applicants who left 'voluntarily' after enforcement action had been initiated from those that left as a direct result of the enforcement action, due to data quality issues. Excludes assisted voluntary returns. Since January 2004 figures include management information on the number of deportations. Figures include people removed under AVR-FRS (facilitated return schemes) in 2006.
[8] Persons leaving under voluntary assisted return programmes run by the International Organization for Migration. May include some cases where enforcement action has been initiated.

Asylum: Entry Clearances

Mr. Clappison: To ask the Secretary of State for the Home Department if she will give a break down of the categories under which discretionary leave to remain has been granted to asylum seekers in each year since 2003. [174009]

Mr. Byrne: The requested information can be obtained only by examination of individual case records, at disproportionate cost.

Aviation

Chris Huhne: To ask the Secretary of State for the Home Department (1) how many air miles were travelled by Ministers in her Department in each year since 2000; and what estimate she has made of the total amount of carbon dioxide emissions produced as a result; [172239]

(2) how many miles she and other Ministers in her Department travelled on short haul flights in the last 12 months; and what estimate she has made of the total amount of carbon emissions produced as a result of these flights. [172527]

Mr. Byrne: Since 1999 the Government have published a list of all overseas travel by Cabinet Ministers costing over £500. Information for the last financial year was published on 25 July 2007. Details for the current financial year will be published as soon as possible after the end of the financial year. From next year, the list will include details of overseas visits undertaken by all Ministers. All ministerial travel is undertaken in accordance with the Ministerial Code.

All central Government ministerial and official air travel has been offset from 1 April 2006. Departmental aviation emissions are calculated on an annual basis and subsequently offset through payments to a central fund. The fund purchases certified emissions reductions credits from energy efficiency and renewable energy projects with sustainable development benefits, located in developing countries.

In addition, offsetting the flights of Department for Environment, Food and Rural Affairs, the Foreign and Commonwealth Office, the Department for International Development, and the Prime Minister has been backdated to 1 April 2005.

A list of Government Carbon Offsetting Fund members, their emission figures and what activities they have offset through the fund is available online at: http://www.defra.gov.uk/environment/climatechange/uk/carbonoffset/government.htm

British Nationality: Overseas Residence

John Mann: To ask the Secretary of State for the Home Department how many holders of valid UK passports were *(a)* resident in the UK and *(b)* resident abroad at the most recent date for which figures are available. [168139]

Meg Hillier: In 2006-07 6.2 million passports were issued in the UK by the Identity and Passport Service and slightly over 400,000 outside the UK by the Foreign and Commonwealth Office. However, there are no records of where holders of valid British passports currently reside and records of numbers of passports issued only confirm that a person was present at the issuing location when the passport was issued and do not account for subsequent changes such as emigration or death of the passport holder.

Christmas

Malcolm Bruce: To ask the Secretary of State for the Home Department whether it is her Department's policy to use *(a)* incandescent light bulbs and *(b)* LED lights for festive decorations on departmental premises. [173500]

Mr. Byrne: Arrangements for the provision of such lighting are made locally.

Closed Circuit Television

Jessica Morden: To ask the Secretary of State for the Home Department what plans she has for future funding to police authorities to update CCTV schemes. [175295]

Mr. McNulty: On 6 December, my right hon. Friend the Home Secretary, announced the provisional police grant settlement for the next three years.

Closed Circuit Television: Bus Service

Mr. Boris Johnson: To ask the Secretary of State for the Home Department how many people were *(a)* arrested and *(b)* given anti-social behaviour orders (ASBOS) as a result of evidence from CCTV on buses in London in each year since 1997; and how many have been (i) arrested and (ii) given ASBOS as a result of the live CCTV pilot. [166945]

Mr. Coaker: The information requested is not centrally available.

Closed Circuit Television: Prosecutions

Mr. Ruffley: To ask the Secretary of State for the Home Department if she will make provision for closed-circuit television images to be copied for use by the police in criminal investigations. [176103]

Mr. Coaker: Most CCTV systems have some provision for images to be copied for use by the police in criminal investigations. Many of the digital CCTV systems currently in use do, from time to time, cause difficulties to some police forces. This issue has been highlighted in the National CCTV Strategy, published on 19 October 2007.

The Home Office Scientific Development Branch (HOSDB) has produced advice (available on their website) on the UK police requirements for digital CCTV systems. This guidance can significantly alleviate many of the problems that are being encountered. HOSDB are also working with the industry to influence the design of new digital CCTV systems which better map to current and future policing needs.

Corruption

Dr. Cable: To ask the Secretary of State for the Home Department when she expects to respond to the letter of 22 November 2007 from the hon. Member for Twickenham about bribery and corruption; what the reasons are for the time taken to reply; and if she will make a statement. [173219]

Meg Hillier *[holding answer 13 December 2007]*: I responded to the hon. Gentleman's letter of 22 November on 11 December, within the Home Office performance target for responses to ministerial correspondence.

Council Tax: Rates and Rating

Mr. Pickles: To ask the Secretary of State for the Home Department what the average Band D council tax was for each police authority in England and Wales in 2007-08. [176706]

Mr. McNulty: The information requested is shown in the following table.

Police precept (Band D) by police authority 2007-08

Police authority	£
Avon and Somerset	147.17
Bedfordshire	123.43
Cambridgeshire	149.40
Cheshire	116.03
Cleveland	158.10
Cumbria	171.09
Derbyshire	141.91
Devon and Cornwall	131.73
Dorset	156.51
Durham	135.72
Essex	116.46
Gloucestershire	179.49
Hampshire	125.37
Hertfordshire	130.17
Humberside	149.58
Kent	122.18
Lancashire	125.95
Leicestershire	138.96
Lincolnshire	131.58
Norfolk	164.88
Northamptonshire	170.21
North Yorkshire	185.40
Nottinghamshire	138.78
Staffordshire	160.15
Suffolk	137.34
Surrey	171.27
Sussex	122.67
Thames Valley	139.19
Warwickshire	145.90
West Mercia	157.66
Wiltshire	139.35
Average Shires	140.94
Greater Manchester	116.19
Merseyside	127.53
Northumbria	74.62
South Yorkshire	118.92
West Midlands	91.47
West Yorkshire	118.02
Average Mets	107.48
Average England (Exc. London)	133.22
Metropolitan	223.60
Average England (inc. London)	147.90
Dyfed-Powys	157.68
Gwent	159.94
North Wales	178.16
South Wales	132.74
Average Wales	153.03
Average England and Wales	148.21

English police authorities—DCLG Welsh police authorities—WAG

Crime: Essex

Mr. Amess: To ask the Secretary of State for the Home Department if she will make a statement on the trends in crime clear-up rates in *(a)* Southend and *(b)* Essex since 1997; and what representations she has received on this issue in each of the last five years. [174066]

Mr. McNulty: The detections figures for Essex police are shown in the following table.

Data for detections in Southend are available only from 2000-01. In April 2006, Southend became part of South Eastern BCU, and separate figures are no longer available.

Financial Year	Force detections	Force detection rate	Force sanction detections[1]	Force sanction detection rate[1]
1997	23,943	27		
1998/99[2]	27,542	29		
1999/2000[3]	30,503	30		
2000-01	27,708	26	22,249	21
2001-02	29,567	26	22,827	20
2002-03[4]	37,244	27	22,288	16
2003-04	39,748	28	24,189	17
2004-05	37,034	27	29,382	22
2005-06	40,384	31	34,596	26
2006-07	41,752	33	37,484	29

[1] Data for sanction detections are available only from 2000-01. A sanction detection is one which results in a charge or summons, caution, an offence being taken into consideration, a penalty notice for disorder or a cannabis warning.
[2] The Home Office Counting Rules for recorded crime changed with effect from April 1998. These brought new offences into the series with varying detection rates.
[3] Additional guidance on counting detections was implemented from 1 April 1999.
[4] The National Crime Recording Standard was introduced in April 2002. Data before and after that date are not directly comparable.

Southend Basic Command Unit (BCU)

Financial Year	BCU detections	BCU detection rate	BCU sanction[2] detections	BCU sanction detection rate
2000-01	4,760	33	4,095	28
2001-02	4,351	32	3,550	26
2002-03[3]	5,592	34	3,195	19
2003-04	5,006	29	3,637	21
2004-05	4,566	27	3,718	22
2005-06	5,237	32	4,235	26
2006-07[4]	8,280	35	7,496	32

[1] BCU data are available only from 2001-02.
[2] Data for sanction detections are available only from 2000-01. A sanction detection is one which results in a charge or summons, caution, an offence being taken into consideration, a penalty notice for disorder or a cannabis warning.
[3] The National Crime Recording Standard was introduced in April 2002. Data before and after that date are not directly comparable.
[4] Southend forms part of Essex South Eastern BCU with effect from April 2006, separate figures for Southend are no longer available.

Crime: Greater London

Andrew Rosindell: To ask the Secretary of State for the Home Department what assessment she has made of the trends in the number of *(a)* racial and *(b)* rape crimes reported in the Metropolitan Police Service results for October 2007 in the London borough of Havering. [176790]

Mr. Coaker: We have not published any crime statistics for October 2007 and therefore cannot make any public assessment.

Crime: Racial Violence

John Cummings: To ask the Secretary of State for the Home Department how many crimes of racial violence were reported in the Durham police authority area in each year since 2000; and how many resulted in conviction. [172765]

Mr. Coaker: The available information relates to offences of racially or religiously aggravated offences.

The statistics requested cannot be provided in the form requested since it is not possible to track individual offences to conclusion and therefore convictions cannot be directly related to the offences recorded. The recorded offences data given in table 1 are based on the number of crimes reported to and recorded by the police and are on a financial year basis. The convictions data in table 2 are based on the number of offenders convicted and are on a calendar year basis. Convictions figures are counts of offenders classified by their principal offence.

Table 1: Racially or religiously aggravated offences of violence recorded by the police in Durham

Number of offences

	Racially or religiously aggravated offences of:		
	Less serious wounding	Assault without injury[1]	Harassment
2000-01	5	4	34
2001-02	4	12	61
2002-03[2]	3	8	69
2003-04	14	12	107
2004-05	10	10	125
2005-06	24	13	196
2006-07	19	14	243

[1] Includes some assaults with minor injury prior to 2002-03.
[2] The National Crime Recording Standard was introduced in April 2002 and figures before and after that date are not directly comparable.

Table 2: Number of defendants found guilty at all courts for racially or religiously aggravated offences, Durham police force area, 1997-2006[1,2]

	Racially or religiously aggravated offences of:		
	Less serious wounding	Common assault	Harassment
1997	..	..	..
1998	..	..	..
1999	..	..	6
2000	3	2	12
2001	5	3	12
2002	1	4	14
2003	–	1	27
2004	3	5	24
2005	4	7	36
2006	–	2	46

[1] These data are provided on the principal offence basis.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Crimes of Violence

Mr. Pickles: To ask the Secretary of State for the Home Department what research her Department has conducted into the prevalence of violence between 9.00 pm and 5.00 am. [176439]

Mr. Coaker: The Home Office published a study in 2007 to determine the impact of the Licensing Act 2003 on violent crime, disorder and criminal damage.

The study (which will contribute to a larger Home Office evaluation to be published early 2008) analysed time stamped data and focused on the types of offences that can occur as a result of alcohol misuse and night-time disorder and to see whether the timing of offences had changed. A copy of the report can be found on the Home Office website:

http://www.homeoffice.gov.uk/rds/pdfs07/rdsolr1607.pdf

In addition, the Home Office also collects data via the British Crime Survey (BCS) on violent incidents. Relevant statistical information is as follows:

The 2005-06 BCS reported a reduction in the number of violent crimes committed in or around pubs and clubs in 2005-06 compared with 2004-05 at 17 per cent. from 22 per cent.

In 2006-07 victims believed the offender or offenders to be under the influence of alcohol in 46 per cent. of all violent incidents (at any time of day).

It is also worth noting that the feasibility of police forces flagging violent crime and disorder offences in the night-time economy is being examined as part of the regular annual data requirement review process by the Home Office and ACPO.

Crimes of Violence: Greater London

Andrew Rosindell: To ask the Secretary of State for the Home Department what estimate her Department has made of the levels of violent crime in London in the year ending in October 2008. [176792]

Mr. Coaker: According to the British Crime Survey, the most reliable indicator of long-term trends in violent crime, violence nationally fell by 35 per cent. between 1997 and 2006-07. Police-recorded violence against the person in London fell by 8 per cent. between 2005-06 and 2006-07. Estimates for 2007-08 are not available.

The Government are undertaking a wide-ranging programme of work to tackle violent crime. In London, Operation Trident was set up in 1998 in response to a string of what are often called 'black-on-black' shootings. It is a Metropolitan Police Service team dedicated to tackling gun crime within the black community. Community involvement has been seen as key to Trident's success from the outset, with the Trident Independent Advisory Group set up to harness public support and keep officers informed of community views. Trident is widely seen as a successful model and has been emulated in other cities. Adult Trident offences are falling.

The London Youth Crime Prevention Board is a partnership of senior figures from all of the key agencies, which is currently agreeing on a range of new pan-London measures to reduce the flow of young people into early criminality—including those who could go on to commit serious crime. The Board is exploring what more local authorities, schools and the criminal justice system might do to improve youth crime prevention across London. It will seek to instigate a number of changes before completing its work at the end of 2008.

Work on tackling domestic violence continues on a number of fronts. London is working to ensure that there are Multi-Agency Risk Assessment Conferences (MARACs) across London. This is an evidence-based approach which allows agencies to manage perpetrators and reduce risk to victims.

The Five Borough Alliance (5BA) was set up this year as a multi-agency response to gangs issues. The boroughs are Croydon, Greenwich, Lambeth, Lewisham and Southwark. 5BA run a range of programmes and further initiatives are being developed.

Demonstrations: Greater London

Jeremy Corbyn: To ask the Secretary of State for the Home Department which hon. Members have applied under the Serious Organised Crime and Police Act 2005 to demonstrate on College Green; and when each applied. [176875]

Mr. Coaker: The policing of demonstrations in the vicinity of Parliament is an operational matter for the Commissioner of Police of the Metropolis. As such, I have asked the Metropolitan police to collate the information requested by the hon. Gentleman. I shall write to the hon. Gentleman when that information is available.

Jeremy Corbyn: To ask the Secretary of State for the Home Department (1) whether news media organisations have applied to demonstrate on College Green; [176876]

(2) who applied for an application to demonstrate in Parliament Square in August 2007. [176877]

Mr. Coaker: The policing of demonstrations in the vicinity of Parliament is an operational matter for the commissioner of the Police of the Metropolis. As such I have asked the Metropolitan Police to collate the information requested by the hon. Gentleman. I shall write to the hon. Gentleman when that information is available.

Departmental Coordination

Mr. Hoban: To ask the Secretary of State for the Home Department what procedures are followed for authorising policies with significant financial implications for her Department, with partieular reference to the role of the finance director; and if she will make a statement. [164887]

Mr. Byrne: Budgets within the Home Office are planned and delegated on the basis of known priorities and pressures. In order to ensure a robust approach finance officials reporting to the Finance Director are engaged in policy development with significant cost implications to ensure policy proposals are affordable.

Significant projects and programmes are managed through a Group Investment Board chaired by the Director General of Finance and Commercial on which the Finance Director sits. In compliance with HM Treasury principles on delegated authority we seek clearance with the Treasury for projects and programmes above an agreed limit.

Departmental Procurement

Mr. Philip Hammond: To ask the Secretary of State for the Home Department whether the standard terms and conditions of purchase used by her Department in procurement of goods and services from the private sector prohibits the assignment of debt. [172317]

Mr. Byrne: The Home Department uses a range of different terms and conditions for purchasing goods and services depending on their complexity and value. Generally these do not contain an express provision prohibiting the assignment of debts by the contractor. This reflects the position that, as the purchaser, it is the Home Department making payments rather than the contractor. Home Department contracts normally contain a provision prohibiting the assignment of any part of the contract without obtaining the consent of the Department.

Deportation

Mr. Holloway: To ask the Secretary of State for the Home Department how many people in *(a)* Kent and *(b)* England who fraudulently obtained indefinite leave to remain were deported in the last 12 months. [173132]

Mr. Byrne: The information requested can be obtained only through the detailed examination of individual case files at disproportionate cost. The chief executive of the Border and Immigration Agency wrote a letter to the Home Affairs Committee on 20 November providing the most up-to-date and robust information regarding the deportation of foreign national prisoners. A copy of this letter is available in the Library of the House.

Deportation: EC Action

David Davis: To ask the Secretary of State for the Home Department what representations her Department has made in the Council of Europe on revision by international instrument of Article 3 of the European Charter of Human Rights as it applies in deportation cases. [164449]

Jacqui Smith: None. As I made clear when I wrote to the chair of the Joint Committee on Human Rights in August, the Government are not seeking to amend the text of article 3 of the European Convention on Human Rights.

Emergency Calls

John Battle: To ask the Secretary of State for the Home Department what progress has been made with plans to introduce a new national three digit non-emergency phone number for contacting the police; and if she will make a statement. [173131]

Mr. McNulty: The Home Office has established a national telephony infrastructure for the non-emergency policing and community safety phone number, 101, and has demonstrated the principles and benefits of this new service in five police and council partnership areas across England and Wales. The Home Office will not continue to directly fund these initial partnership areas from 14 February 2008 or to directly fund further roll-out in other areas. However, the Home Office will continue to provide funding to support the national 101 telephony infrastructure. This continued funding together with the lessons learned for improving local services from the initial areas, will enable and inform local police and councils who wish to develop their own locally funded 101 service.

Entry Clearances

Mr. Holloway: To ask the Secretary of State for the Home Department if she will make it her policy to revoke the status of a person granted indefinite leave to remain in the UK if it can be demonstrated that this status was acquired on a fraudulent basis. [173442]

Mr. Byrne: There is provision in both primary and secondary immigration legislation to revoke or invalidate indefinite leave to remain where this has been fraudulently obtained.

Essex Police Authority: Qualifications

Mr. Amess: To ask the Secretary of State for the Home Department what relevant specialist qualifications the chief executive of Essex police authority holds; what his or her career has been to date; what process was followed in his or her appointment; where the post was advertised; how many persons applied for the post; how many were short-listed for interview; how each was appraised; what criteria were adopted for each candidate; how many candidates were rejected; and if she will make a statement. [174059]

Mr. McNulty: The appointment of chief executives and their qualifications and experience is a matter for the individual police authority.

Mr. Amess: To ask the Secretary of State for the Home Department what relevant specialist qualifications each member of the Essex police authority holds; what the career of each has been to date; when each was appointed and by whom; what process was followed in his or her appointment; where the post was advertised; how many persons applied for the post; how many were short-listed for interview; how each was appraised; what criteria were adopted for each candidate; how many candidates were rejected; where Essex police authority is located; how much was spent by it on *(a)* office accommodation, *(b)* staff costs, *(c)* travel and subsistence and *(d)* staff bonuses in each year since 1997; and if she will make a statement. [174060]

Mr. McNulty: The appointment of police authority members, the experience and qualifications of their members and the expenditure of the authority are matters for the individual police authority. Essex police authority is located in Chelmsford, Essex.

Essex Police: Standards

Mr. Amess: To ask the Secretary of State for the Home Department what steps her Department is taking to improve the performance of *(a)* Southend Police and *(b)* Essex Police following the Police Performance Assessment 2006-07 produced by her Department and HM Inspectorate of Constabulary; and if she will make a statement. [174044]

Mr. McNulty: Assessments are made for all 43 police forces in England and Wales and in seven key areas. Forces are assigned the clear judgments "excellent", "good", "fair" and "poor" and—for three of these areas—a judgment of "improved", "stable" or "deteriorated" is also made.

Essex's assessment in each area was as follows:

Tackling crime—Good

Serious crime and public protection—Good

Protecting vulnerable people—Fair

Satisfaction and fairness—Fair

Neighbourhood policing—Fair

Local priorities—Good

Resources and efficiency—Good.

Essex's assessment for direction of travel was:

Tackling crime—Stable

Satisfaction and fairness—Stable

Resources and efficiency—Stable.

The Home Office and HMIC will continue to support forces to address the issues highlighted in the assessments.

Mr. Amess: To ask the Secretary of State for the Home Department what representations she has received on the performance of police in *(a)* Essex and *(b)* Southend in each of the last seven years; and if she will make a statement. [174067]

Mr. McNulty: I and my predecessors have received numerous representations regarding police forces in England and Wales. In addition, there have been formal reports published relating to the performance of the police service and of Essex police specifically. These can be found on the websites for Her Majesty's Inspectorate of Constabulary (HMIC) at:

http://inspectorates.homeoffice.gov.uk/hmic/inspections/

and the Home Office at:

http://police.homeoffice.gov.uk/performance-and-measurement/performance-ssessment/

The most recent police performance assessments were published in October 2007.

The latest HMIC publication regarding Essex police was the phase one Inspection Report (October 2007), and regarding policing in the Southend BCU in the BCU Inspection (September 2003) and Follow-Up Inspection (December 2004).

Firearms

Sarah Teather: To ask the Secretary of State for the Home Department how many firearms were *(a)* surrendered to and *(b)* seized by the police in each London borough in each year since 2001. [174817]

Mr. Coaker: The figures requested are not held centrally.

Firearms: Databases

Mr. Ruffley: To ask the Secretary of State for the Home Department if she will establish a central register for firearms *(a)* seized and *(b)* disposed of by police services in England and Wales. [176296]

Mr. Coaker: The Home Office does not collate information on the number of firearms seized by police forces. The new National Ballistics Intelligence Database, which will start being implemented this year, may provide an overall picture of firearms seizures in future.

Foreigners: NHS

David T.C. Davies: To ask the Secretary of State for the Home Department whether the planned identity card scheme will enable NHS managers to check the eligibility of non-EU citizens for NHS outpatient care. [168134]

Meg Hillier: ID cards issued under the UK Borders Act to non-EU citizens will record an individual's immigration status, indicating whether the person has limited leave to remain or indefinite leave to remain. It will not contain details of the individual's right to NHS services. Where a person has no recourse to public funds, the card will have the statement "no recourse to public funds".

The criteria for access to NHS services are defined by the NHS therefore it would be the health care provider's responsibility to confirm eligibility.

Forensic Science Service

John McDonnell: To ask the Secretary of State for the Home Department whether there is European legislation relating to the liberalisation of forensic science services. [173599]

Meg Hillier *[holding answer 13 December 2007]:* There is no European legislation specifically on the liberalisation of forensic science services. The procurement of such services is, however, governed by the same European legislation as governs the procurement of publicly financed services in general, which requires bidding to be open to suppliers in all EU member states, except where certain national security conditions apply.

John McDonnell: To ask the Secretary of State for the Home Department how much has been spent on the Forensic Science Service since it acquired the status of a Government-owned company in 2006. [173600]

Meg Hillier *[holding answer 13 December 2007]:* The Forensic Science Service has received no additional money from the Home Office since it was vested as a Government-owned company, other than through the provision of loans arranged prior to vesting and intended to support the transition from Executive Agency to GovCo. The loan in relation to their pension provision has been partially repaid, and the balance is expected to be paid by 2008-09. The Home Office receives interest on the outstanding loans and is eligible to receive dividends on its investment.

John McDonnell: To ask the Secretary of State for the Home Department what performance targets were set for the Forensic Science Service (FSS) in *(a)* 2006 and *(b)* 2007; and how the FSS performed against its targets in the most recent year for which figures are available. [173601]

Meg Hillier *[holding answer 13 December 2007]:* Since December 2005, the Forensic Science Service (FSS) has been established as a Government-owned company. It is no longer an Executive agency of the Home Office and thus no longer subject to the agency

target setting regime. Its establishment as a Government-owned company was designed to provide the FSS with the freedom, flexibility, structures and resources to better respond to customer needs.

Therefore, the Home Office as its shareholder does not set the FSS detailed performance targets as such. Instead it agrees an overall strategic business plan with the FSS. The business plan covers such matters as trading and operational performance, but as the FSS now operates in a competitive market, the details are commercially confidential. The FSS published a report and accounts covering its financial performance for the period since changing status, in August 2007. This was filed at Companies House, and copies were placed in the Libraries of both Houses.

Genetics: Databases

Mr. Ruffley: To ask the Secretary of State for the Home Department how many individuals have personal data relating to fingerprints or DNA stored on national police computers; and what percentage of these records relate to individuals who (*a*) have not committed a criminal offence and (*b*) are not suspected of any criminality. [166807]

Meg Hillier: 7.3 million individuals have fingerprint records stored on the national fingerprint system, Ident1, as at 31 October 2007. This includes records for England, Wales and Scotland. The number of these who have not been convicted of a criminal offence could be provided only at disproportionate cost.

An estimated 4,188,033 individuals had a DNA profile on the National DNA Database, of which 3,938,156 were sampled by police forces in England and Wales, as at 31 October 2007. In relation to the number of individuals who have not been convicted of any offence on the National DNA Database, I refer the hon. Member to the reply given to the hon. Member for Hornsey and Wood Green (Lynne Featherstone) on 13 December 2007, *Official Report*, columns 761-62 W.

Of those on the DNA Database, about 22,700 have provided a DNA profile voluntarily and the remainder had DNA taken under the Police and Criminal Evidence Act (PACE).

The Criminal Justice and Public Order Act 1994 amended PACE to allow samples to be taken if the person was charged with, or reported for summons, or convicted for a recordable offence, and allowed the samples and DNA profiles derived from these to be retained and speculatively searched against other samples and profiles held by or on behalf of the police, thus allowing the creation of the DNA database for use in criminal investigations. However, if the person was not prosecuted or was acquitted the samples and profiles had to be destroyed. The Criminal Justice and Police Act 2001 amended PACE to remove the requirement for destruction of samples following a discontinuance or acquittal, but specified that any samples and profiles that were retained could be used only for the purposes of the prevention and detection of crime, the investigation of an offence or the conduct of a prosecution. The Criminal Justice Act 2003 amended PACE to allow the police to take DNA and fingerprints without consent from anyone arrested for a recordable offence and detained in a police station.

People who volunteer to give a DNA sample include victims, witnesses, people with legitimate access to crime scenes, family members, and those responding to DNA intelligence-led screens. There are two options: consent to giving a sample of DNA to be used in a single investigation only which is then destroyed, and consent to giving a sample of DNA which will be added to the database and kept permanently.

Mr. Ruffley: To ask the Secretary of State for the Home Department how many (*a*) males and (*b*) females aged (i) under 14, (ii) between 15 and 24, (iii) between 25 and 34, (iv) between 35 and 44, (v) between 45 and 54, (vi) between 55 and 64 and (vii) over 65 years in each of the ethnic appearance category were registered on the National DNA Database in each period for which figures are available. [167013]

Meg Hillier: The information requested is supplied in the following tables which show the position for the UK, and for England and Wales, at 30 September 2007.

DNA database at 30 September 2007—age on load

Jenny Willott: To ask the Secretary of State for the Home Department for how many and what proportion of the DNA samples from the National DNA database that have been used for research projects undertaken using data from the National DNA database the permission of the donor has been obtained; and if she will make a statement. [167966]

Meg Hillier: The Police and Criminal Evidence Act (PACE) lays down that DNA samples and the profiles derived from them can only be used for the purposes of prevention and detection of crime, the investigation of an offence, the conduct of a prosecution or, since April 2005, for the purposes of identifying a deceased person. PACE does not require the permission of the person from whom the sample was taken for research to be carried out.

Requests for the release of profiles or samples must be approved by the National DNA Database Strategy Board. In the first instance requests are made to the Custodian of the NDNAD who provides the Board with details of the request together with their

observations on the merits of the request for the Board to consider. In accordance with the requirements of PACE, the Board does not approve any research unless it has clear operational benefit to the police.

Jenny Willott: To ask the Secretary of State for the Home Department how many DNA samples from the National DNA database have been used for each research project undertaken using data from the National DNA database to date; and if she will make a statement. [167967]

Meg Hillier: This information could be provided only at disproportionate cost.

Humberside Police Authority

Mr. Graham Stuart: To ask the Secretary of State for the Home Department (1) what the average waiting time was for a Criminal Records Bureau check in the Humberside police authority area in the latest period for which figures are available; and if she will make a statement; [175046]

(2) what steps her Department is taking to improve the performance of the Criminal Records Bureau in the Humberside police authority area; and if she will make a statement; [175047]

(3) how many outstanding Criminal Records Bureau checks there were in the Humberside police authority area on 10 December 2007; and if she will make a statement; [175048]

(4) how many Criminal Records Bureau checks were conducted in the Humberside police authority area in each of the last five years; and if she will make a statement. [175049]

Meg Hillier: Since the inception of the Criminal Records Bureau (CRB) in 2002 Humberside police have carried out 272,465 checks as part of the Enhanced Disclosure process. On 10 December they had 7,119 checks outstanding and the following table shows the annual breakdown of checks completed.

Calendar year	*Completed checks*
2002	20,978
2003	37,253
2004	47,648
2005	55,238
2006	56,105
2007	55,243

As you can see there has been a marked increase in the number of applications sent to the force which almost doubled during the first year.

During November 2007 Humberside police completed their part of the Criminal Records Bureau (CRB) Enhanced Disclosure process in an average of 29.1 days.

However average figures do not give an accurate indication of performance, since any force's performance can be affected by a number of factors; the volume of cases sent to a force to process in any given month, the number of staff available to process the checks and the IT resources on hand to forces. With these variables, performance can fluctuate within individual forces from one month to the next.

The CRB has been supporting those forces that have encountered problems in meeting their targets by a range of measures including the provision of additional resources, monitoring performance, providing demand forecasting data and assistance in introducing new IT initiatives. Within Humberside police the following steps have been taken in conjunction with the CRB to improve performance:

Increased resources have been made available to the force to support them in recruiting extra staff and obtaining new accommodation.

Specialist training has been provided at the Disclosure Unit.

An improvement plan has been implemented which shows a reduction in the workload between January and March 2007 to improve turnaround times following the escalation of cases within the force to the assistant chief constable.

Discussions are currently underway regarding taking part in the Police Volume Management Project—this would enable the CRB to complete checks on behalf of Humberside via remote access to Humberside's local intelligence systems.

Humberside police are implementing a new IT system on 31 January 2008 which will improve their current functionality while searching their local intelligence systems.

Identity Cards

Mr. Hoban: To ask the Secretary of State for the Home Department when the first identity cards are likely to be issued in the UK. [164800]

Meg Hillier: The Strategic Action Plan for the National Identity Scheme, published in December 2006, set out the Government's plans to provide more secure and reliable methods of proving identity, including the introduction of ID cards.

The plans are for the Border and Immigration Agency to begin issuing identity cards to foreign nationals from 2008 and for the Identity and Passport Service to begin issuing ID cards to British citizens from 2009.

Mr. Hoban: To ask the Secretary of State for the Home Department what proportion of the operational costs of the identity card and biometric passport scheme she estimates will be covered by fees charged for the cards and passports issued. [164855]

Meg Hillier: A detailed charging structure for the national identity scheme has yet to be determined and will need to be implemented through secondary legislation under section 35 of the Identity Cards Act 2006 that will require approval in both Houses of Parliament. However, it is expected that the running costs of the scheme will be recovered from fees just as they are now for passports.

Mr. Philip Hammond: To ask the Secretary of State for the Home Department (1) what estimate she has made of the cost of using *(a)* three separate databases for the identity card project and *(b)* creating a single database; [171877]

(2) what estimate has been made of the cost of including iris biometrics in passports and identity cards. [171878]

Meg Hillier: Providing any further breakdown of the estimated costs of the National Identity Scheme to that provided in the November cost report to Parliament would potentially jeopardise the ability of the Home Office to secure value for money from the recently commenced supplier dialogues for the procurement of services to operate the scheme.

I would refer the hon. Member to the latest cost report that may be found at:

http://www.ips.gov.uk/identity/publications-legislative.asp

Mr. Philip Hammond: To ask the Secretary of State for the Home Department to what the annual volume of products issued in table 4 of the November 2007 identity cost report refers; and whether a joint identity card and passport is counted as one product. [171886]

Meg Hillier: The November 2007 Cost Report sets out a future estimate of passports, identity cards, and "combination products", where an applicant would be issued with both a passport and identity card through the same application.

I would refer the hon. Member to the latest cost report that may be found at:

http://www.ips.gov.uk/identity/publications-legislative.asp

To provide a further breakdown between each of these three application types, when taken together with other cost estimates already placed in the public domain, would jeopardise the current negotiations with prospective suppliers under the National Identity Scheme.

Mr. Philip Hammond: To ask the Secretary of State for the Home Department pursuant to the answer of 20 November 2007, *Official Report*, column 678W, on identity cards: costs, why the estimate of passports issued in 2007-08 is different from the estimate listed in the last row of table 4 of the November 2007 identity card cost report. [171891]

Meg Hillier: The answer of 20 November 2007, *Official Report*, column 678W, on identity cards costs stated the estimated number of passports to be issued in 2007-08 as reported in the last Identity and Passport Service Business Plan (March 2007) and estimated at the time of publication of that document.

The Cost Report laid before Parliament in November 2007 contained the latest estimate of all products to be issued for each of the 10 years covered by the report.

Identity Cards: Foreigners

Ms Abbott: To ask the Secretary of State for the Home Department what assessment she has made of the likely effects of the introduction of mandatory identity cards for foreign nationals on access to services by foreign nationals; and if she will make a statement. [165932]

Mr. Byrne: A regulatory impact assessment was issued for the UK Borders Act 2007 (which contains the new biometric registration provisions) in May 2007. An equality impact assessment for the biometric registration provisions was also issued. Both can be downloaded from the Border and Immigration Agency's website.

The new identity cards for foreign nationals will make it easier for public service providers to confirm a person's eligibility to entitlements and for foreign nationals to access those services. This is because the new identity cards will replace the existing residence permits and other UK immigration status documents which can be subject to fraud. The new cards will be presented as a highly secure polycarbonate standalone card which will contain a tamperproof embedded chip. The face of the card will contain important biometric and biographical information—including the person's immigration status and entitlement to public funds in the UK.

Identity Documents

David T.C. Davies: To ask the Secretary of State for the Home Department how many people have been prosecuted for destroying their identity documents on arrival at a UK airport in each of the last five years. [175176]

Mr. Byrne: On 22 September 2004 section 2 of the Asylum and Immigration (Treatment of Claimants) Act came into force. Section 2 made failing to produce an immigration document, which satisfactorily establishes their nationality or identity, an offence. It does not differentiate between those who fail to produce an identity document or those who destroy an identity document on arrival.

From 22 September 2004 until 30 November 2007 Border Control Criminal Investigations Teams secured 1,222 convictions or cautions under section 2. Prior to this date the offence did not exist.

The data provided are based on locally collated management information, which may be subject to change and do not represent published national statistics.

Illegal Immigrants

Damian Green: To ask the Secretary of State for the Home Department what estimate she has made of the likely effect of the most recent extension of the Schengen area on the number of people attempting to enter the UK illegally; and if she will make a statement. [174754]

Mr. Byrne: The UK is not part of the Schengen area and has retained full national border controls. UK border controls are robust and can adapt flexibly to new challenges posed.

Immigrants: Catering

Mr. Dismore: To ask the Secretary of State for the Home Department what estimate she has made of the numbers of skilled restaurant staff *(a)* China and *(b)* South Asian restaurants need to recruit annually to maintain their businesses; and if she will make a statement. [163800]

Mr. Byrne: The Migration Advisory Committee (MAC) and the Migration Impact Forum (MIF) have been set up to help inform the development of immigration policy.

The Migration Advisory Committee will advise Government on where there are shortages in the economy which can sensibly be filled by migration. In particular it will produce shortage occupation lists for UK and Scotland for skilled employment. These lists comprise occupations where, in the MAC's view, there are shortages which can sensibly be filled by enabling employers to recruit migrants.

The Migration Impacts Forum will enable the Government to understand the wider impacts of migration on local areas and services.

Immigration Controls

Damian Green: To ask the Secretary of State for the Home Department what estimate her Department has made of the number of *(a)* public and *(b)* private sector organisations which are likely to apply for licences to sponsor migrants. [172957]

Mr. Byrne: No such break down has been estimated.

Immigration Officers

Damian Green: To ask the Secretary of State for the Home Department which *(a)* airlines and *(b)* airport operators have offered the Border and Immigration Agency financial assistance to pay for extra immigration officers; and how many such offers have been accepted. [163773]

Mr. Byrne: The airport operator at Heathrow funds the staffing of Fast Track Immigration Controls. Fast Track offers travellers selected by participating airlines a discrete channel to the Immigration Control. The decision about who receives a fast track 'ticket' for this service is not an immigration one. Further discussions are ongoing at Luton, Stansted and Gatwick with a number of airlines and airport operators who have offered additional financial assistance for Primary Arrival Control services. However, due to the commercial nature of these discussions the details of the organisations cannot be disclosed.

Immigration: Olympic Games 2012

Bob Spink: To ask the Secretary of State for the Home Department what steps are being taken to ensure Olympic athletes do not stay in the UK illegally after the 2012 Games. [174914]

Mr. Byrne *[holding answer 17 December 2007]:* Specific border security arrangements will be developed as part of the programme in order to manage the entry into and departure from the UK of Olympic athletes participating in the Games. All athletes competing in the Olympic Games and Paralympic Games must apply for Olympic accreditation in order to take part in the Games. The Border and Immigration Agency will work with the London Organising Committee for the Olympic Games and Paralympic Games to issue Olympic Identity and Accreditation Cards to all entitled persons.

Marriage to Partners from Overseas

Damian Green: To ask the Secretary of State for the Home Department what assessment she has made of the compatibility of the proposals in the consultation paper Marriage to Partners from Overseas with the European Convention on Human Rights. [174751]

Mr. Byrne: The consultation paper Marriage to Partners from Overseas was launched on 5 December 2007 and the consultation period runs until 27 February 2008. Following the consultation careful consideration will be given to the compatibility with the European Convention on Human Rights of the proposals taken forward.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for the Home Department when she expects to reply to the letter from the hon. Member for West Worcestershire on 1 November transferred from the Foreign and Commonwealth Office (MP/Auth Ref: B33561/7). [175477]

Mr. Byrne *[holding answer 18 December 2007]:* The Border and Immigration Agency wrote to the hon. Member on 12 December 2007.

Metropolitan Police: Impounded Vehicles

Tom Brake: To ask the Secretary of State for the Home Department how many vehicles in the Metropolitan Police area were impounded following reference to the motor insurance database in each of the last two years; and if she will make a statement. [175372]

Mr. Coaker: This information is not collected centrally. I understand from the Commissioner of Police of the Metropolis that in 2006 an estimated 10,000 and in 2007 an estimated 13,000 vehicles were seized.

Metropolitan Police: Motor Insurance Database

Tom Brake: To ask the Secretary of State for the Home Department how many times the Metropolitan Police accessed the motor insurance database in each of the last two years; and if she will make a statement. [175361]

Mr. Coaker: This information is not collected centrally. I understand from the Commissioner of Police of the Metropolis that over the two years 2006 and 2007 the data base has been accessed about 60,000 times.

Migration Impacts Forum

David Davis: To ask the Secretary of State for the Home Department which groups, public bodies and organisations have submitted reports to the Migration Impacts Forum. [169693]

Jacqui Smith: The purpose of the Migration Impacts Forum (MIF) is to provide a forum for regular and organised dialogue with frontline professionals outside central Government, focused on the wider impacts

associated with migration experienced by local areas. Membership of the MIF includes representatives from local authorities, voluntary and public sectors, the CBI and the TUC.

In preparing thematic presentations for MIF meetings, lead MIF members may choose to consult a range of local and national stakeholders and use a number of publications.

Papers presented at the MIF meetings can be found on the Border and Immigration Agency website.

Mr. Chanceless Takaruva

Rosie Cooper: To ask the Secretary of State for the Home Department what the residency status is of Mr. Chanceless Takaruva of Skelmersdale and his family (Home Office ref: T1095080). [174530]

Mr. Byrne: It would not be appropriate for me to comment on an individual case in the House. I wrote to my hon. Friend on 18 December 2007.

National DNA Database

Stephen Hesford: To ask the Secretary of State for the Home Department how many people with entries in the National DNA Database are resident in Wirral West constituency. [173623]

Meg Hillier: Information held on the NDNAD is available on a police force area basis but not a constituency basis. As at 6 December 2007, there were an estimated 107,208 individuals with a DNA profile on the National DNA Database (NDNAD) taken by Merseyside police. This figure is for people who had a DNA sample taken by Merseyside police, so in addition to residents of Merseyside, it includes people resident in other areas who had a DNA sample taken by that force, and excludes people resident in Merseyside who have had a sample taken by another force.

National Identity Register

David Davis: To ask the Secretary of State for the Home Department (1) when the Government expects to publish an updated implementation timetable for the National Identity Scheme; [166089]

(2) whether she expects the target to roll-out identity cards to British citizens by the end of 2009 to be met. [166091]

Jacqui Smith: The Government remain committed to the introduction of a National Identity Scheme.

The National Identity Scheme Strategic Action Plan was published in December 2006 outlining plans to begin issuing identity cards to foreign nationals from 2008 and to British citizens from 2009.

A copy of the National Identity Scheme Strategic Action Plan can be found at:

http://www.ips.gov.uk/identity/downloads/strategic_action_plan.pdf

An updated timetable for the implementation of the National Identity Scheme will be reported to Parliament and published in due course.

Offenders: Deportation

Mr. Malins: To ask the Secretary of State for the Home Department how many judicial recommendations for deportation of convicted criminals were *(a)* made and *(b)* carried out in each of the last two years. [166081]

Mr. Byrne: The information requested could be obtained only by a detailed examination of individual case records at disproportionate cost.

On 20 November the chief executive of the Border and Immigration Agency wrote to the Home Affairs Committee to provide the most recent information available on the deportation of foreign national prisoners. In this letter she advised that, for the calendar year 2007 and up to the first week of November, approximately 3,500 foreign national prisoners were deported or removed. A copy of this letter is available from the Library of the House.

Offensive Weapons

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what steps the Government has taken to reduce the number of dangerous weapons on the streets since 1997. [175259]

Mr. Coaker *[holding answer 18 December 2007]:* We have taken a range of legislative and preventative action to reduce the availability of guns, knives and other dangerous weapons since 1997.

In 1997, following the Dunblane tragedy, we introduced a ban on handguns.

In 2003, a national firearms amnesty resulted in nearly 45,000 firearms and over 1 million rounds of ammunition being handed in. In 2006, a national knives amnesty resulted in nearly 90,000 knives being handed in. Although we have never claimed that amnesties alone will solve the problem, they are one facet in a range of tactics which include tough enforcement, prevention and education work. We are currently exploring the possibility of a hand-in system for weapons which would fall short of an amnesty but still provide a conduit for people to remove weapons from circulation.

The Criminal Justice Act 2003 introduced a mandatory minimum sentence for possession of a prohibited firearm of three years' detention for 16 to 17-year-olds and five years' imprisonment for people aged 18 and over.

The Anti-social Behaviour Act 2003:

introduced a ban on self-contained gas cartridge guns;

raised the age limit for having an air weapon; and

made it an offence to have an air weapon or an imitation firearm in a public place without a reasonable excuse.

Subsequently, the Violent Crime Reduction Act 2006:

raised the minimum age at which a person can buy a knife from 16 to 18;

doubled the maximum sentence for possession of a knife in a public place without good reason from two to four years;

introduced a new offence of using someone to mind a weapon—where someone hands their weapon to another person to look after, they will no longer be able to escape prosecution for possession (and where a child is used, this will constitute an aggravating factor in determining sentencing);

banned the sale, manufacture and importation of realistic imitation firearms;

introduced tougher sentences for carrying imitation firearms (increased from a maximum of six months' imprisonment to 12 months);

further raised the age limit for having an air weapon (to 18);

required that air weapons only be sold by registered firearms dealers; and

introduced powers for school staff to search pupils for weapons (although schools can still call the police if preferred).

On 12 December 2007, we announced that, following a public consultation, we intend to ban the sale, import and hire of samurai swords.

In September 2007, the Tackling Gangs Action Programme (TGAP) was established, to focus targeted action in neighbourhoods of London, Birmingham, Manchester and Liverpool where gun crime and gangs are a particular problem. The Association of Chief Police Officers, Serious Organised Crime Agency and HM Revenue and Customs are fully engaged in this work. On 28 November, an action day focusing on firearms was held in the four TGAP cities, which resulted in 124 arrests.

Ongoing work also includes support for prevention and education work through a variety of educational packages and other projects such as the Urban Concepts 'Don't Trigger' anti-gun crime campaign.

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what steps the Government are taking to ensure young people are unable to purchase knives. [175260]

Mr. Coaker *[holding answer 18 December 2007]:* Section 43 of the Violent Crime Reduction Act 2006 amends section 141A of the Criminal Justice Act 1988, making it an offence to sell a knife to a person under the age of 18 years—up from 16 years. This came into force on 1 October 2007.

Mr. Ruffley: To ask the Secretary of State for the Home Department how many knives have been recovered in knife amnesty initiatives in *(a)* England and Wales and *(b)* each police force area in each of the last five years. [176113]

Mr. Coaker: A national knife amnesty was held from 24 May to 30 June 2006, resulting in the surrender of 89,964 items in England and Wales. A table showing the breakdown of items recovered by force area is as follows.

Figures for local weapon amnesties are not held centrally.

Knife amnesty—total items surrendered 24 May-30 June 2006

Force	Domestic	Non Dom	Weapons	Of interest	Total
Avon and Somerset	1,510	634	129	69	2,342
Bedfordshire	503	172	45	42	762
Cambridgeshire	982	188	465	0	1,635
Cheshire	1,241	457	287	55	2,040

Warwickshire	494	179	147	36	856
West Mercia	1,523	440	164	0	2,127
West Midlands	1,979	298	510	451	3,238
West Yorkshire	851	332	175	17	1,375
Wiltshire	894	177	120	9	1,200
Totals [2]	52,222	16,595	9,148	1,658	89,864

[1] Breakdown figures for Norfolk relate to items surrendered in first week only.
[2] Breakdown figures do not equal final total due to (1).
Note:
MPS has supplied a total only figure.

Passports

Damian Green: To ask the Secretary of State for the Home Department which countries do not issue passports that are capable of being read by electronic or automated passport readers; what estimate her Department has made of the number of countries likely to be issuing such passports when the e-border system becomes operational; and if she will make a statement. [163141]

Meg Hillier: There are a small number of states still issuing passports that are not machine readable. The e-Borders programme has ensured that its solution is

capable of processing such documents at both check-in and the immigration control.

In addition, from 2008, all visa applicants will be required to provide a 10-finger fingerprint scan and a digital photograph, as part of the application process when applying for a UK visa. Fingerprints and facial images are now in use in 125 countries and the global roll-out will be completed by, or before, March 2008. Nationals from approximately three-quarters of the countries identified as listed require a visa to travel to the UK. We are currently applying a Visa Waiver Test to all non-EEA countries by the end of 2007, with changes to the UK's visa regimes taking place over 2008-09. The Visa Waiver Test uses a range of criteria including the assessment of the level of security and integrity of each individual countries passport.

Furthermore, from 2008 onwards the UK will also start to introduce immigration documents for foreign nationals resident in the UK which will include fingerprints. Together, these measures will ensure that we can fix the identity of foreign nationals and thus check their entitlement to be in the UK.

Countries that do not currently have machine readable passports

Afghanistan
Algeria
Bahamas
Bangladesh
Bolivia
Botswana
Chad
Colombia
Congo
Cook Islands
Cote d'Ivoire
Democratic Republic of Congo
East Timor
Egypt
El Salvador
Equatorial Guinea
Eritrea
Gabon
Ghana
Guinea
Guinea-Bissau
Guyana
Kiribati
North Korea
Libya
Madagascar
Marshall Islands
Mauritania
Federated States of Micronesia
Morocco
Mozambique
Nauru
Nepal
Philippines
Sao Tome
Serbia
Solomon Islands
Somalia
Sudan
Turkey
Vanuatu
Montenegro
Laos
Turkmenistan.

Mr. Philip Hammond: To ask the Secretary of State for the Home Department what the reason was for the reduction in the forecast of future passport volumes in the November 2007 identity cards cost report; and for what reasons her Department expects customers to delay passport renewals. [171888]

Meg Hillier: The future prediction of passport demand is updated periodically by the Identity and Passport Service to reflect actual numbers of applicants. The November 2007 Cost Report included the most recent prediction of future passport volumes. This prediction had recently been updated to reflect lower than anticipated passport renewals. There could be a number of reasons for passport renewals being increasingly delayed by customers:

Other identity documents have been improved. In particular the introduction of the photo driving licence has been introduced in the last 10 years. This would be an alternative option for those who hold a passport for proof of identity reasons;

Last minute behaviour. To a certain extent, the travel industry encourages 'last minute' behaviour and it is reasonable to believe that customers also apply this behaviour to how they apply for passports. This behaviour has also been enabled by IPS Fast Track services which have improved to meet this demand since these were first introduced in 1996;

Changes in travel trends. Official statistics confirm that passenger journeys continue to increase, but whether this is the same number of people travelling more frequently is unclear. Hence the overall total demand for passports is difficult to predict with accuracy.

The latest Cost Report may be found at:

http://www.ips.gov.uk/identity/publications-legislative.asp

I would refer the hon. Member to that report.

Passports: Applications

Damian Green: To ask the Secretary of State for the Home Department how many interview centres for new passport applicants are operational. [171049]

Meg Hillier: As at 5 December 2007 36 Interview Offices dealing with first time passport customers are in live operations. We anticipate that 62 offices will be fully operational by end December 2007 with a further six opening by end February 2008.

Damian Green: To ask the Secretary of State for the Home Department how much her Department has spent on acquiring premises for passport application interview centres. [171050]

Meg Hillier: The Identity and Passport Service (IPS) contracted Mapeley Abl Provider Limited to acquire, fit out and service manage the interview office estate capability. Following a competitive tender a contract award notice (OJEC Ref 06/5 74-77058/EN) was published on 13 April 2006 which gave a total contract

value of £71.86 million (ex VAT). To the end of November 2007 IPS incurred costs of £35.33 million (ex VAT) against this contract and total life costs for the contract are not expected to exceed the published total. An additional £1.24 million (ex VAT) has been incurred by IPS on professional services in respect of design, assurance and legal advice in delivery of the estate.

Damian Green: To ask the Secretary of State for the Home Department how many staff have been recruited to work in passport interview centres. [171053]

Meg Hillier: As at 5 December 2007, 465 staff have been recruited to work in Interview Offices. We anticipate that we will reach the full complement of about 600 staff by February 2008.

Passports: Fraud

Damian Green: To ask the Secretary of State for the Home Department how many forged UK passports, including biometrics, have been detected and cancelled since November 2006. [169566]

Meg Hillier: Since November 2006 the Identity and Passport Service (IPS) has recorded the receipt of 1,172 passports which have been tampered with or in some way forged. All 1,172 passports have been cancelled. Over the same period the Borders and Immigration Agency (BIA) has detected 384 fraudulently used UK passports. The records collated by IPS and BIA do not distinguish between biometric and earlier types of passport.

Police

Mr. Jenkins: To ask the Secretary of State for the Home Department what the average length of service is of serving police officers in England. [174718]

Mr. McNulty: The information requested cannot be calculated from the centrally collected data within the police personnel statistics series. Length of service data are collected in the following time bands only for police officers: less than six months, six months to one year, one to two years, two to three years, three to four years, four to five years, five to 10 years, 10 to 15 years, 15 to 20 years, 20 to 25 years, 25 to 26 years, 26 to 27 years, 27 to 28 years, 28 to 29 years, 29 to 30 years, 30 to 31 years, 31 to 32 years, 32 to 33 years, 33 to 34 years, 34 to 35 years, and 35 years and over.

The length of service categories with the largest numbers of police officers have been given. There were approximately 25,000 full-time equivalent police officers in the 43 police forces of England and Wales with between five and 10 years service, approximately 21,000 with 15 to 20 years service and approximately 20,000 with 10 to 15 years service as at 31 March 2007.

Police: Cumbria

Tim Farron: To ask the Secretary of State for the Home Department how many serving police officers there were in *(a)* Cumbria and *(b)* Westmorland and Lonsdale constituency in each of the last 10 years. [175386]

Mr. McNulty *[holding answer 18 December 2007]:* Figures for Cumbria appear in the following table. Figures for Westmorland and Lonsdale are not collected centrally, as local area police personnel figures are collected at Basic Command Unit rather than constituency level.

Number of police officers in Cumbria: 1997-2007

	Police officers[1]
As at 31 March:	
1997	1,144
1998	1,164
1999	1,126
2000	1,084
2001	1,048
2002	1,100
2003	1,140
2004	1,222
2005	1,232
2006	1,230
2007	1,244

[1] All figures are full time equivalents (FTE) rounded to the nearest whole number. They exclude officers on maternity/paternity leave and career breaks.

Police: Influenza

Mr. Lansley: To ask the Secretary of State for the Home Department what assessment her Department has made of the likely effect of an influenza pandemic on the operational capacity of the police service. [175142]

Mr. McNulty: The National Policing Improvement Agency is working with the Department of Health to ensure that the appropriate guidance on pandemic flu is available to all police forces. It advises all police staff, and their families, about how they can protect themselves against the disease and prevent the spread of the infection.

The Government have not made an assessment of the operational capacity of the Police Service should a serious outbreak of pandemic flu occur as this would be a matter for individual Chief Constables.

Police: Legislation

Mr. Amess: To ask the Secretary of State for the Home Department what *(a)* statutory instruments, *(b)* departmental circulars and *(c)* other documents she (i) has issued and (ii) plans to issue in the next 12 months consequential to the provisions of police legislation passed since 1996. [174045]

Mr. McNulty: In the next 12 months I intend to lay before Parliament a number of statutory instruments regarding the Police and Justice Act 2006. In early 2008 I intend to lay four sets of regulations regarding the membership, functions and planning obligations of police authorities and in spring and autumn I intend to lay orders commencing various uncommenced provisions of that Act.

Since 1996 the Government have enacted 12 pieces of police legislation which have effect in England and Wales, and several Statutory Instruments consequential to these. 65 Home Office circulars have been issued in

regard to these acts. In relation to other documents consequential to these acts, these details are not kept centrally.

A document has been prepared with a full list of these statutory instruments and Home Office circulars, and will be placed in the Library of the House.

Police: Manpower

Sarah Teather: To ask the Secretary of State for the Home Department how many police officers worked in each London borough in the latest period for which figures are available, broken down by *(a)* ethnicity, *(b)* age and *(c)* sex. [167415]

Mr. McNulty: These breakdowns are not collected centrally at London borough level.

Mr. Hepburn: To ask the Secretary of State for the Home Department (1) how many police community support officers were employed in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England in each year since they were introduced; [174756]

(2) how many *(a)* police sergeants, *(b)* special constables and *(c)* traffic police officers were employed in (i) Jarrow constituency, (ii) South Tyneside, (iii) the North East and (iv) England in each year since 1997; [174750]

(3) how many police officers were employed in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England in each year since 1997. [175050]

Mr. McNulty: The available information is given in the following tables. Statistics for Jarrow constituency are not available centrally and figures for South Tyneside relate to the South Tyneside basic command unit.

Number of police officers and staff in South Tyneside, North-East region and England: 1997 to 2007

Table A: South Tyneside basic command unit (BCU)

	Police officers (FTE)[1]	Police sergeants (FTE)	Special constables (HC)	Traffic police officers (FTE)	Police community support officers (FTE)[1, 2]
31 March 2005	346	—	26	—	—
30 June 2005	—	—	—	—	13
31 March 2006	352	—	25	—	—
30 June 2006	—	—	—	—	12
31 March 2007	362	—	23	—	25

Table B: North East Region

	Police officers (FTE)[1, 3]	Police sergeants (FTE)[1,3]	Special constables (HC)[4]	Traffic police officers (FTE)[1, 5]	Police community support officers (FTE)[1]
31 March 1997	6,597	952	877	—	—
31 March 1998	6,767	966	708	—	—
31 March 1999	6,824	955	627	—	—
31 March 2000	6,750	942	617	—	—
31 March 2001	6,859	937	539	—	—
31 March 2002	7,004	959	475	—	—
31 March 2003	7,272	990	417	—	47
31 March 2004	7,459	1,004	335	—	156
31 March 2005	7,515	1,045	397	275	270
31 March 2006	7,485	1,084	445	333	296
31 March 2007	7,425	1,097	487	344	504

Table C: England

	Police officers (FTE)[1, 6]	Police sergeants (FTE)[1, 3]	Special constables (HC)[4]	Traffic police officers (FTE)[1, 5]	Police community support officers (FTE)[1]
31 March 1997	118,459	17,743	18,732	—	—
31 March 1998	118,184	17,585	17,159	—	—
31 March 1999	117,196	17,715	15,396	—	—
31 March 2000	115,323	17,438	13,512	—	—
31 March 2001	116,440	17,489	11,949	—	—
31 March 2002	120,074	17,518	10,897	—	—
31 March 2003	124,158	17,664	10,449	—	1,146
31 March 2004	129,691	17,868	10,359	—	3,309
31 March 2005	131,950	19,220	11,285	6,548	5,946

Table C: England

	Police officers (FTE)[1, 6]	*Police sergeants (FTE)*[1, 3]	*Special constables (HC)*[4]	*Traffic police officers (FTE)*[1, 5]	*Police community support officers (FTE)*[1]
31 March 2006	132,104	19,946	12,431	5,942	6,498
31 March 2007	132,474	20,736	13,221	5,832	12,856

'—' Figures not collected centrally.
[1] Full-time equivalents, rounded to the nearest whole number.
[2] Figures for PCSOs at ECU level for 30 June 2005 and 30 June 2006 were obtained via an ad hoc collection, and are not necessarily consistent with those for 30 March 2007.
[3] Excludes officers on career breaks and maternity/paternity leave prior to 2003 only.
[4] Head count figures (FTE figures not appropriate for special constables).
[5] Number of officers with the predominant function 'traffic' over the previous 12 months.
[6] Excludes officers on career breaks and maternity/paternity leave over whole period.

Police: Retirement

Mr. Jenkins: To ask the Secretary of State for the Home Department what the average age of retirement was for police officers in England retiring in the last 12 months; and what average pension is being paid to those officers. [174719]

Mr. McNulty: An average retirement age cannot be separately identified from the available data. The available data are the age on leaving the service within the following time bands only: 25 and under, 26 to 40, 41 to 55 and over 55. Information about the average pension being paid to officers retiring in a particular year is not held centrally. The size of an officer's annual pension depends largely on his or her pensionable pay, and length of pensionable service. Under the Police Pension Scheme 1987, a lump sum is not paid out automatically but only where the officer chooses to convert (commute) part of his or her pension into a lump sum. The size of a lump sum therefore depends on the officer's annual pension, the proportion of pension that the officer chooses to commute, and the commutation factor to be applied to the surrendered portion of pension in order to convert it into a lump sum. A typical officer, retiring after 30 years' service on a final pensionable pay of £34,080 (the 2006-07 pensionable maximum for an officer of constable rank outside London), would be entitled to a pension of £17,040 per annum and a lump sum of £85,200, based on the officer commuting the maximum possible proportion of his or her pension, and using the most substantial factor. Based on the available data, the indications are that the average pre-commutation pension would be in the region of £21,500.

Mr. Waterson: To ask the Secretary of State for the Home Department how many police officers were *(a)* offered early retirement schemes and *(b)* accepted early retirement schemes in each of the last 10 years. [175057]

Mr. McNulty: A police officer who is a member of the Police Pension Scheme 1987 is entitled to retire with an ordinary pension after 25 years' service, payable from the age of 50. An officer who is a member of the 1987 scheme can also retire with a full and immediate pension at any age once he or she has accrued 30 years' service. The earliest age from which this would normally be possible is 48½, given the minimum entry age of 18½ for the police service. Unless an officer becomes permanently disabled for police duty, and is required to retire on ill health grounds, there is no specific early retirement scheme. In order to qualify for an ordinary pension, officers must in all cases, however, provide the police authority with one month's notice of their intention to retire, or three months in the case of chief officer ranks, although it is at the discretion of the police authority to accept a shorter notice period. As it is a matter for local discretion, there are no centrally held data on its frequency of use.

Project Semaphore

Damian Green: To ask the Secretary of State for the Home Department which carriers provide both travel document information and passenger name record data under Project Semaphore. [174753]

Mr. Byrne: A number of carriers do provide both travel document information and other passenger information under Project Semaphore. The use of that data is operationally sensitive and it would not be appropriate for those details to be released.

Prosecutions: Driving Under the Influence

Angus Robertson: To ask the Secretary of State for the Home Department how many motorists were *(a)* stopped on suspicion of drink-driving and *(b)* prosecuted for drink-driving on UK roads last year. [175043]

Mr. Coaker: Information relating to Northern Ireland and Scotland is the responsibility respectively of the Northern Ireland Office and the Scottish Government.

Information on stops for suspected drink driving in England and Wales is not collected centrally. Available information relates to the number of screening breath tests and the number of prosecutions for driving after consuming alcohol or taking drug. In 2005, the latest period for which figures are available, there were 607,400 screening breath tests and 103,482 prosecutions. Data for 2006 will be available next year.

Public Order Act 1986

James Brokenshire: To ask the Secretary of State for the Home Department how many *(a)* prosecutions have been made and *(b)* convictions obtained for offences under sections 21 and 22 of the Public Order Act 1986 in the last three years for which figures are available. [174427]

Mr. Coaker: The information requested is provided in the following table.

Number of defendants proceeded against at magistrates courts and found guilty at all courts for offences under sections 21 and 22 of the Public Order Act 1986[1, 2], England and Wales[1, 2, 3]

	Distributing, showing or playing a recording intended or likely to stir up racial hatred. (Public Order Act 1986 S.21)		*Broadcasting or including a programme in programme service intended or likely to stir up racial hatred. (Public Order Act 1986 S.22)*	
	Proceeded against	*Found guilty*	*Proceeded against*	*Found guilty*
2004	—	—	—	1
2005	—	1	2	1
2006	—	—	—	2

[1] These data are provided on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] The found guilty column may exceed those proceeded against as a defendant can be found guilty in a different year, or for a different offence to the one for which proceedings are originally brought.

Court Proceedings Database, Office for Criminal Justice Reform, Ministry of Justice.

Sexual Offences

Mr. Ruffley: To ask the Secretary of State for the Home Department how many registered *(a)* sex offenders and *(b)* paedophiles were resident in each police authority area in each of the last five years. [176106]

Maria Eagle: I have been asked to reply.

Data on registered sexual offenders is published in local multi-agency public protection arrangements (MAPPA) Annual Reports which are available in the House Libraries and on the internet at:

www.probation.justice.gov.uk

These reports record that the number of registered sexual offenders in each police force area in England and Wales over the last five years is as follows:

Area	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*
Avon and Somerset	525	671	674	787	809
Bedfordshire	220	270	335	394	323
Cambridgeshire	282	322	353	387	407
Cheshire	390	429	474	537	577
County Durham	240	265	306	327	348
Cumbria	208	231	253	260	280
Derbyshire	459	479	554	628	609
Devon and Cornwall	637	725	808	879	920
Dorset	273	333	352	379	415
Dyfed-Powys	199	232	275	308	299
Essex	440	542	680	802	735
Gloucestershire	196	231	284	311	311
Greater Manchester	1,278	1,388	1,800	1,643	1,722
Gwent	278	319	365	391	406
Hampshire	849	999	1,035	1,118	1,190
Hertfordshire	225	280	328	428	400
Humberside	544	584	645	715	653
Kent	730	780	954	941	983
Lancashire	637	726	980	941	998
Leicestershire	413	484	508	543	534
Lincolnshire	250	328	380	401	414
London	2,085	2,272	2,657	3,113	3,151
Merseyside	657	791	941	970	975
Norfolk	416	484	547	637	546
North Wales	348	308	389	395	405
North Yorkshire	234	283	315	338	359
Northamptonshire	200	246	310	344	355
Northumbria	632	750	851	898	870
Nottinghamshire	607	651	708	712	747
South Wales	545	606	765	680	695
South Yorkshire	577	682	911	791	830
Staffordshire	365	458	538	627	676
Suffolk	279	309	368	393	413
Surrey	277	371	371	390	426
Sussex	553	581	752	804	789
Teesside	303	339	393	354	357
Thames Valley	563	763	822	936	982
Warwickshire	183	183	231	232	259
West Mercia	524	565	689	635	655
West Midlands	1,312	1,647	2,158	1,925	1,850
West Yorkshire	1,227	1,431	1,669	1,373	1,387
Wiltshire	255	234	266	316	356
Total	21,415	24,572	28,994	29,983	30,416

Data on the number of paedophiles are not collected as the term "paedophile" is not used in the criminal law. Instead, the law sets out various requirements, including registration, for those who are convicted or cautioned for a wide range of sexual offences. Some offences are defined by the age of the victim but for other offences the age of the victim is immaterial. The data in the annual reports include all registered sexual offenders.

Speed Cameras

Mr. Goodwill: To ask the Secretary of State for the Home Department what recent assessment has been made of the accuracy and consistency of the LTI 20-20 speed camera system. [174577]

Mr. Coaker: Under the provisions of the Road Traffic Offenders Act 1988 certain traffic law enforcement devices require type approval by the Secretary of State before evidence from them is admissible in court. Type approval is granted only to devices that comply with the specification laid down by the HO Scientific Development Branch (HOSDB) and successfully complete both field and scientific testing. The type approval process provides a public reassurance that a device is accurate, consistent and reliable. Three variants of the LTI 20.20 system were type approved in the 1990s. We are satisfied that the device merits its type approval and have seen no reason to conduct further assessments.

Speed Enforcement Operations

Mr. Laurence Robertson: To ask the Secretary of State for the Home Department what her Department's requirements are for the visibility and conspicuousness of speed enforcement operations; whether all police forces are subject to such rules; and if she will make a statement. [174660]

Mr. Coaker: Speed limit enforcement is an operational matter for individual chief officers of police. The law requires only that the speed limits should be correctly signed in accordance with the Traffic Signs Regulations and General Directions 2002 as amended.

The Department for Transport as the lead Department for road safety issued on 31 January 2007 new guidance for local authorities, police and other local partners on the deployment of speed and red light cameras. A copy of this has been placed in the Library and is also available on the Department's website at:

http://www.dft.gov.uk/pgr/roadsafety/speedmanagement/pdfdftcirc0107

This guidance sets out the Government's intention of high visibility speed enforcement and encourages the use of visibility and conspicuity rules which have been shown to reduce speeds and casualties at camera sites. It does not, however, restrict or fetter the discretion which the police have always had to enforce covertly anywhere at any time.

Stop and Search

Mr. Ruffley: To ask the Secretary of State for the Home Department how many stop and account forms have been issued since their introduction in each police force area. [172870]

Mr. McNulty: From 1 April 2005, police officers exercising stop and account powers in accordance with paragraphs 4.11—4.20 of the PACE Code of Practice on exercise by police officers of statutory powers of stop and search (Code A) have been required to maintain a record of each encounter. Issues relating to the quality and completeness of the 2005-06 figures mean they remain subject to further work before they can be published.

Stowaways

Mr. Evans: To ask the Secretary of State for the Home Department how many people were seized as stowaways in trucks in each of the last 10 years. [163094]

Mr. Byrne *[holding answer 12 November 2007]:* Only figures for 2001-06 are available. Illegal entry action is initiated against those people who are detected having entered or attempted to enter the country clandestinely. The following figures include those illegal entrants detected at ports of entry only.

	Total
2001	3,799
2002	5,666
2003	3,127
2004	4,284
2005	5,876
2006	7,552

Note
The data provided are based on locally collated management information, which may be subject to change and does not represent published national statistics.

The above figures represent those arriving within heavy goods vehicles at ports in the United Kingdom. Additionally, they include clandestines detected in France during 2001-03 in Coquelles and from 2004 in Calais, Coquelles and Dunkerque.

Terrorism

Mr. Mullin: To ask the Secretary of State for the Home Department (1) what criteria she uses to decide whether national or regional liberation movements should be proscribed organisations under terrorism legislation; [174585]

(2) for what reasons the Baluchistan National Liberation Army was proscribed as a terrorist organisation; and if she will make a statement. [174586]

Mr. McNulty *[holding answer 17 December 2007]:* The grounds for proscription as a terrorist organisation are set out in section 3 of the Terrorism Act 2000. They are that the Secretary of State believes the organisation to be concerned in terrorism. An organisation is considered to be concerned in terrorism if it:

(a) commits or participates in acts of terrorism,

(b) prepares for terrorism,

(c) promotes or encourages terrorism, or

(d) is otherwise concerned in terrorism.

If an organisation meets the criteria for proscription, the Secretary of State then has a discretion as to whether or not to proscribe. In exercising that discretion successive Secretaries of State have had regard to five factors in particular. They are:

1. The nature and scale of an organisation's activities
2. The specific threat that it poses to the United Kingdom
3. The specific threat that it poses to British nationals overseas
4. The extent of the organisation's presence in the United Kingdom
5. The need to support other members of the international community in the global fight against terrorism.

The Baluchistan Liberation Army was proscribed in 2006 because it met the criteria for proscription. In this regard I would refer the hon. Member to the Explanatory Memorandum to the Terrorism Act 2000 (Proscribed Organisations) (Amendment) Order 2006.

Terrorism: Olympic Games 2012

Bob Spink: To ask the Secretary of State for the Home Department what assessment she has made of the potential terrorist threat to the Olympic Games. [174851]

Mr. McNulty *[holding answer 17 December 2007]:* All threats to the Olympics Games, including the potential terrorist threat, are kept under regular review.

Violence Against the Person

Mr. Boris Johnson: To ask the Secretary of State for the Home Department what assessment she has made of the relationship between *(a)* recorded and *(b)* estimated actual levels of (i) violence against the person, (ii) rape, (iii) personal robbery, (iv) commercial robbery, (v) residential burglary, (vi) non-residential burglary, (vii) gun-related crime, (viii) motor vehicle crime, (ix) domestic crime and (x) racial crime in the most recent period for which figures are available. [171930]

Mr. Coaker: The precise information requested is not available. Estimates based on crimes covered by the British Crime Survey (BCS) and experienced by households, and adults living in such households, in England and Wales are routinely reported in the Home Office Statistical Bulletin Crime in England and Wales. The latest breakdown for the main offences covered by the BCS can be found at:

http://www.homeoffice.gov.uk/rds/pdfs07/hosb1107.pdf.

Latest estimates for commercial victims were reported in the Home Office report Crime against retail and manufacturing premises: findings from the 2002 Commercial Victimisation Survey and can be found at:

http://www.homeoffice.gov.uk/rds/pdfs05/rdsolr3705.pdf.

Visas

Mr. Hands: To ask the Secretary of State for the Home Department what assessment she has made of the effectiveness of the UK's implementation of the provisions of EU Directive 2004/38/EC, with particular reference to the charging of fees to those applying for spousal visas from outside the EU by UK Visas; and if she will make a statement. [174635]

Mr. Byrne: The UK has fully and correctly implemented EU Directive 2004/38/EC This directive sets out the rights of movement for EEA nationals and their family members around the EU. Applications for visas to enter and documentation confirming status in the UK are currently not chargeable cases as the directive prohibits a charge being levied where no charge is placed on our own nationals for a similar document. All other applications for entry clearance or leave to remain on the basis of marriage or a subsisting relationship must be accompanied by the appropriate fee.

TREASURY

Alcoholic Drinks: Death

Mr. Milburn: To ask the Chancellor of the Exchequer how many deaths from an alcohol-related underlying cause took place in *(a)* each nation of the UK, *(b)* each region of England and *(c)* Darlington in each of the last 10 years. [175157]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 7 January 2008:

As National Statistician, I have been asked to reply to your recent question asking how many deaths from an alcohol-related cause took place in *(a)* each country of the UK, *(b)* each region of England and *(c)* Darlington in each of the last 10 years. (175157)

The table attached provides the number of deaths with an alcohol-related underlying cause in *(a)* each country of the United Kingdom, *(b)* each government office region in England, and *(c)* Darlington unitary authority, from 1997 to 2006 (the latest year available).

Table 1: Number of deaths with an alcohol-related underlying cause of death[1], constituent countries of the United Kingdom, Government office regions in England, and Darlington unitary authority[2], 1997 to 2006[1]

Deaths (persons)

Area	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*

[1] Cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) for the years 1997 to 2000, and Tenth Revision (ICD-10) for 2001 onwards, for England, Wales and Northern Ireland, and ICD-9 for the years 1997 to 1999 and ICD-10 for the years 2000 to 2006 for Scotland. The specific causes of death categorised as alcohol-related, and their corresponding ICD-9 and ICD-10 codes, are shown in the following tables.
[2] Based on boundaries as of 2007.
[3] All figures are for deaths registered in each calendar year, in line with current guidance on disclosure of small area statistics.

Table 2: Alcohol-related causes of death—International Classification of Diseases, Ninth Revision (ICD-9)

Cause of death	*ICD-9 code(s)*
Alcoholic psychoses	291
Alcohol dependence syndrome	303
Non-dependent abuse of alcohol	305.0
Alcoholic cardiomyopathy	425.5
Alcoholic fatty liver	571.0
Acute alcoholic hepatitis	571.1
Alcoholic cirrhosis of liver	571.2
Alcoholic liver damage, unspecified	571.3
Chronic hepatitis	571.4
Cirrhosis of liver without mention of alcohol	571.5
Other chronic non-alcoholic liver disease	571.8
Unspecified chronic liver disease without mention of alcohol	571.9
Accidental poisoning by alcohol	E860

Table 2: Alcohol-related causes of death—International Classification of Diseases, Tenth Revision (ICD-10)

Cause of death	*ICD-10 code(s)*
Mental and behavioural disorders due to use of alcohol	F10
Degeneration of nervous system due to alcohol	G31.2
Alcoholic polyneuropathy	G62.1
Alcoholic cardiomyopathy	I42.6
Alcoholic gastritis	K29.2
Alcoholic liver disease	K70
Chronic hepatitis, not elsewhere classified	K73
Fibrosis and cirrhosis of liver (excluding Biliary cirrhosis)	K74 (excluding K74.3 to K74.5)
Alcohol induced chronic pancreatitis	K86.0
Accidental poisoning by and exposure to alcohol	X45
Intentional self-poisoning by and exposure to alcohol	X65
Poisoning by and exposure to alcohol, undetermined intent	Y15

Capital Gains Tax

Mr. Prisk: To ask the Chancellor of the Exchequer what estimate he made of the effect of proposed changes to capital gains tax on gross revenue raised by the tax when developing the proposals; and if he will make a statement. [175736]

Jane Kennedy: Estimates of the revenue effect to the Exchequer of proposed changes to capital gains tax are published in Table B4 of the 2007 pre-Budget report.

Car Allowances

Mr. Drew: To ask the Chancellor of the Exchequer (1) how much his Department has spent on the review of approved mileage allowance payments to date; which non-governmental individuals and organisations the review team has met since the 2007 Pre-Budget Report was published; what liaison there has been between the review team and *(a)* the Department for Transport and *(b)* the Department for the Environment, Food and Rural Affairs on this; and what discussions there have been between his Department and trades union representatives on the use of private cars for work purposes by public sector employees as part of the review; [174815]

(2) what account he plans to take of the levels of carbon dioxide emissions from vehicles when next amending the approved mileage allowance payments scheme; [174816]

(3) what the reasons were for the extension of the approved mileage allowance payments review; and whether the conclusions of the review will be included in the Budget Report 2008; [175161]

(4) what effect the increases in advisory fuel rates agreed by HM Revenue and Customs on 29 November 2007 will have on his Department's review of approved mileage allowance payments; [175162]

(5) whether his Department has conducted further research into the average mileage driven for work purposes since the 2007 Pre-Budget Report; [175163]

(6) whether the approved mileage allowance payments review will take into account the effect of rising fuel costs on workers who have to use their own cars for work purposes; [175164]

(7) what account has been taken of the needs of those who live in rural areas and have to use their car for work purposes in the approved mileage allowance payments review; [175165]

(8) whether he plans to use the approved mileage allowance payments review to incentivise the purchase of newer vehicles by employers; and what effect the review will have on the access of employees to a provided vehicle, with particular reference to those working in the care sector. [175212]

Angela Eagle: AMAPs cater for a wide range of car drivers and the rates are designed to take into account all relevant factors. They strike a balance between allowing the running costs of all cars, large and small and delivering the Government's environmental policy.

The Government wants to ensure that the tax system properly reflects and supports business activity, in addition to promoting fairness and environmentally friendly business travel. We intend to consider the framework of taxation of cars used for business travel as a whole and confirmed at PBR that we will make announcements on future policy in this area, including AMAPs, in Budget 2008.

As a matter of routine, HM Revenue and Customs has liaised with other relevant Government Departments. A range of stakeholder views has also been canvassed—including from industry and user group representatives—and the Government made it clear at PBR that it will continue to consider further representations in the approach to the Budget.

Car Allowances: Public Sector

Mr. Drew: To ask the Chancellor of the Exchequer what the Government's policy is on the tax treatment of the provision of cars for public sector employees. [175283]

Angela Eagle: The same tax rules apply to the provision of cars for all employees whether in the public or private sector.

Carers: Census

Jessica Morden: To ask the Chancellor of the Exchequer if he will ensure that no change is made in information requested about carers in the 2011 census return from that requested in the 2001 census return. [175296]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 7 January 2008:

As National Statistician I am replying to your recent question asking that no change is made in information requested about carers in the 2011 census return from the 2001 census return. (175296)

The value of the information on carers provided by the 2001 Census is well recognised. However, such a question is competing for space on the questionnaire with a number of other questions such as second residence, citizenship, year of entry, qualifications, industry, income and language.

Our current funding for the 2011 Census allows for 3 pages of questions per person. We are at present investigating the potential for obtaining increasing funding for a 4th page which would allow for the inclusion a question on carers.

A White Paper setting out the Government's proposals for the 2011 Census is scheduled to be published in autumn 2008. However, it will not be possible to confirm what questions and response categories are to be included in the 2011 Census until the consultation and question testing programme is complete and formal approval is given by Parliament in 2010.

Census

Mr. Pickles: To ask the Chancellor of the Exchequer (1) whether the European Commission or Eurostat will have access to the data collected by the 2011 census; [176378]

(2) what the timetable is for the census test and the publication of the conclusions from it; [176413]

(3) what research and work is being conducted by the Office for National Statistics into measuring multiple occupancy for the forthcoming census; [176419]

(4) whether the Office for National Statistics plans to use *(a)* the Ordnance Survey MasterMap product and *(b)* the National Land and Property Gazetteer in undertaking the next census as the address source for residential properties. [176421]

Jane Kennedy: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 7 January 2008:

As National Statistician and Registrar General for England and Wales I have been asked to reply to your recent questions asking (i) whether the European Commission or Eurostat will have access to the data collected in the 2011 Census; (ii) what the timetable is for the Census test and the publication of the conclusions from it; (iii) whether the Office for National Statistics plans to use *(a)* the Ordnance Survey MasterMap product and *(b)* the National Land and Property Gazetteer in undertaking the next Census as the address source for residential properties; and (iv) what research and work is being conducted into measuring multiple occupancy for the forthcoming Census. (176378, 176413, 176419, 176421)

As in previous censuses, statistics from the 2011 round of European censuses, including the UK Census, will be provided to Eurostat as part of a Programme to be agreed by the EU Statistics Programme Committee, on which, as National Statistician, I am represented. The statistics to be provided by each member state will be subject to appropriate National Statistics disclosure control measures that will protect the data from disclosure of any information that would identify an individual person or household.

A full Evaluation of the Census Test, which was carried out in May, will be published in spring 2008. An initial report on the results of an address checking exercise carried out as part of the Test—'The Coverage of address Registers for 2007 Census Test—Phase 1' is available on the National Statistics website at

http://www.statistics.gov.uk/census/2011census/CollectingtheInfo/testingevaluation.asp

ONS is carrying out further research in order to determine the best approach for ensuring that the 2011 Census is supported by the most complete and up-to-date address information. There is currently no single definitive national address register for England and Wales that fulfils Census requirements. For the 2011 Census there is a need to assess the two competing address products, Ordnance Survey's MasterMap Address Layer 2 (AL2) and the National Land and Property Gazetteer (NLPG). A final decision on the 2011 approach to create the initial address list will be made in 2009, on the basis of research of the address products, and ongoing discussions with suppliers about licensing costs.

A number of questions are being developed for the 2011 Census in England and Wales that will seek to collect information on multi-occupancy. These cover the type of accommodation and the extent of self-containment. ONS is developing a household frame for the 2011 Census, and will conduct a pre-Census address check, that will identify such addresses; so that the appropriate number of household forms are delivered to each address. Information from local authorities about areas with high levels of multiple occupancy will also be used to inform the enumeration methodology.

Child Benefit: Personal Records

Tom Brake: To ask the Chancellor of the Exchequer how many people whose data were on the child benefit discs have yet to be sent a letter of apology. [175366]

Jane Kennedy: HM Revenue and Customs have sent letters of apology to the vast majority of households where personal data relating to the child benefit recipient, their partner and their children were on the discs.

Mr. Gauke: To ask the Chancellor of the Exchequer on what date HM Revenue and Customs staff first searched premises of the National Audit Office looking for the missing computer discs. [176892]

Jane Kennedy: HMRC detection teams first searched the NAO offices at 151-157 Buckingham Palace Road on 14 November 2007.

Mr. Gauke: To ask the Chancellor of the Exchequer how many representations he received directly from banks requesting a postponement of the announcement of the loss of computer discs containing the personal data of child benefit claimants. [176893]

Jane Kennedy: I refer the hon. Member to the statement my right hon. Friend the Chancellor of the Exchequer made on 20 November 2007, *Official Report*, column 1102.

Kieran Poynter, chair of PricewaterhouseCoopers, is investigating HMRC's security processes and procedures for data handling.

The interim report was published on 17 December 2007 and is available in the Library of the House.

Julia Goldsworthy: To ask the Chancellor of the Exchequer how many calls have been received by the Child Benefit helpline since the loss of personal records by HM Revenue and Customs; and what the average length was of these calls. [176897]

Jane Kennedy: The number of calls, specifically relating to data loss, handled by the Child Benefit Helpline between 20 November and 18 December 2007 is around 71,000.

Over this same period the average call handling time for these calls, taken as the length of the conversation together with the time taken by the adviser to complete any resulting tasks, is around two and a half minutes.

Childbirth

Mr. Hancock: To ask the Chancellor of the Exchequer in which years since 1977 the number of live births in England exceeded the number of births in England in 2006. [176885]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 7 January 2008:

As National Statistician I have been asked to reply to your request to indicate in which years since 1977 the number of live births in England exceeded the number of births in England in 2006. (176885)

There were 635,748 births in England in 2006. This was exceeded in each of the years from 1987 to 1993.

Civil Servants: North East Region

Mr. Kemp: To ask the Chancellor of the Exchequer what proportion of civil service jobs in the north-east were at each grade in the latest period for which figures are available; and if he will make a statement. [174693]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 7 January 2008:

As National Statistician I have been asked to reply to your recent Parliamentary Question concerning what proportion of Civil Service jobs in the North East are at each grade. (174693)

Statistics on Civil Service employment, including regional statistics, are published in Civil Service Statistics, an on-line article available from the National Statistics website.

http://www.statistics.gov.uk/cci/article.asp?id=1885

The latest period for which the statistics are available is the year to September 2006.

Statistics on responsibility level by region are not published. In order to provide this information, an ad hoc analysis has been required. This analysis is based on the Mandate survey which currently provides approximately 90 per cent coverage of Civil Service departments and agencies.

Civil service—employees in the north-east by responsibility level, 30 September 2006

Responsibility level	*Full-time equivalents Percentage*
Senior civil service	0.2
Grades 6/7	2.1
Senior executive officer/higher executive officer	9.3
Executive Officer	20.7
Administrative officer/administrative assistant	66.2
Not known	1.5

Source:
Mandate

Please note that since 1 April 1996 all departments and agencies have had delegated responsibility for the pay and grading of their employees, except for those in the Senior Civil Service (SCS).

Departments and agencies have developed their own pay and grading systems, and it has become less appropriate to present statistics in terms of the previous Service-wide grades.

The distinction between non-industrial and industrial grades has also become less meaningful as departments and agencies have introduced their own grades.

Instead, the concept of broad 'responsibility levels' is used, in which departmental grades have been assigned to levels broadly equivalent (in terms of pay and job weight) to the former Service-wide grades and in recent years it has become necessary to amalgamate some of these broad levels further.

Employees on temporary promotion are reported at the higher level rather than at their substantive grade.

Climate Change

Rob Marris: To ask the Chancellor of the Exchequer what steps his Department *(a)* has taken and *(b)* plans to take by (i) 2012 and (ii) 2020 to adapt to the effects of climate change as they affect his Departmental responsibilities; and if he will make a statement. [165035]

Angela Eagle *[holding answer 6 December 2007]:* The draft Climate Change Bill, which has just been introduced into Parliament, proposes to set out a requirement for the Government to produce the first UK risk assessment on climate change within three years. Following this, it is proposed that the Government will update the risk report and programme on a five-yearly basis, with one informing the other.

In addition, the cross-Government Adaptation Policy Framework will set out the Government's overall intentions in relation to adapting to the effects of climate change.

As a result of the impacts of climate change, the annual costs of flooding to homes, businesses and infrastructure could increase. The Government announced in the 2007 comprehensive spending review that funding for flood and coastal erosion risk management across Government will increase to £800 million in 2010-11. The Government will also introduce an adaptation toolkit of £10 million per year to assist communities in adapting to change where constructing defences is not the most appropriate means of managing flood and coastal erosion risk.

Customs Officers: Job Satisfaction

Justine Greening: To ask the Chancellor of the Exchequer what assessment he has made of levels of staff satisfaction amongst customs officers in HM Revenue and Customs; and if he will make a statement. [174517]

Jane Kennedy: The latest staff survey figures for Her Majesty's Revenue and Customs are for summer 2007 and are available on the HMRC website.

Customs Officers: Manpower

Justine Greening: To ask the Chancellor of the Exchequer how many HM Revenue and Customs customs officers were employed combating *(a)* missing trader intra-community and *(b)* excise fraud in each year since 2003; and if he will make a statement. [174515]

Jane Kennedy: There are no separate group of staff identified as "customs officers".

The full-time equivalents (FYE) of staff employed to tackle missing trader intra-community fraud for 2005-06 to 2006-07 and fraud in alcohol, oils and tobacco for 2005-06 and 2006-07 are shown in the following table (figures for 2003-04 to 2004-05 are not available).

	MTIC	*Excise*
2003-04	n/a	n/a
2004-05	n/a	n/a
2005-06	691	3167
2006-07	1,410	3,201

Departmental Data Protection

Mr. Wallace: To ask the Chancellor of the Exchequer (1) how many officials in *(a)* his Department and *(b)* HM Revenue and Customs are responsible for monitoring and reviewing security arrangements to ensure that policy, standards and procedures for information security remain up-to-date; [169756]

(2) what dedicated security branches *(a)* the Inland Revenue and *(b)* HM Customs and Excise had; and how many officials were assigned to each of them; [169757]

(3) what dedicated security branches HM Revenue and Customs has; and how many officials are assigned to them. [169758]

Jane Kennedy: HMRC Security and Business Continuity is responsible for setting standards and policy, for providing specialist advice and guidance and personnel security vetting, and providing independent assurance on security business continuity within the Department. This central role is in addition to the responsibility of individual business units to maintain and monitor security arrangements.

At 1 December 2007 there were *(a)* 7.2 officials in HM Treasury's Group Security Unit and *(b)* 73 officials working in HM Revenue and Customs' Security and Business Continuity Team. In addition, it is the responsibility of each individual line manager to ensure that their staff follow the department's security procedures.

The Inland Revenue had a Departmental Security Unit comprising 41 officials.

HM Customs and Excise had a Departmental Security Unit comprising 50 officials.

The figures quoted are on the basis of full-time equivalent staff in post, rounded to the nearest whole number, as at 31 March 2005.

Departmental ICT

James Brokenshire: To ask the Chancellor of the Exchequer how many attempted hacking, suspected cyber attacks or other malicious computer security breaches were committed against the computer systems of *(a)* his Department and *(b)* HM Revenue and Customs in each of the last three years for which information is available; and if he will make a statement. [167990]

Angela Eagle: It is not in the interests of the UK's national security for departments to confirm whether they hold information about attacks against their IT systems. This would enable individuals to deduce how successful the UK is in detecting these attacks and so assist such persons in testing the effectiveness of the UK's IT defences. This is not in the public interest.

Departmental Public Expenditure

Mr. Letwin: To ask the Chancellor of the Exchequer pursuant to the Winter Supplementary Estimates (HC 29), if he will break down his Department's *(a)* main estimate and *(b)* winter supplementary estimate provision by subhead in (i) near cash and (ii) non-cash terms. [174985]

Angela Eagle: The following table sets out the near cash and non-cash elements of HM Treasury's 2007-08 Supply Estimates.

£000

Estimate	*RfR*	*Section*	*Near cash*	*Non cash*	*Net Total*
Main	1	A	120,692	6,916	127,608
	—	B	9,680	1,070	10,750
	—	C	3,305	0	3,305
	—	D	1,656	0	1,656
	2	A	19,000	0	19,000
	3	A	25,253	1,884	27,137
Winter	1	A	126,720	6,916	133,636

Estimate	R/R	Section	Near cash	Non cash	£000 Net Total
	—	B	9,680	1,070	10,750
	—	C	3,305	0	3,305
	—	D	1,656	0	1,656
	2	A	19,000	0	19,000
	3	A	31,793	3,835	35,628

Departmental Redundancies

Mr. Hoban: To ask the Chancellor of the Exchequer what the cost was of redundancies in his Department in the 12 months preceding *(a)* 30 June 2004, *(b)* 30 June 2005 and *(c)* 30 June 2006. [175335]

Angela Eagle: As provided in the answer given by the then Financial Secretary (John Healey) on 2 March 2007, *Official Report*, column 1574W, the costs of early severance and early retirement for the Department during the financial years 2003-04, 2004-05 and 2005-06 are as follows.

	£000
2003-04	2,926
2004-05	2,178
2005-06	973

Costs for the financial year 2005-06 have been restated to take account of programme early retirement costs, previously omitted in error. Reapportioned costs for 12-month periods, with a 30 June year-end, could be provided only at disproportionate cost.

Departmental Secondment

Mrs. May: To ask the Chancellor of the Exchequer how many secondments of staff were made *(a)* to and *(b)* from his Department in each year since 1997; which organisations staff were seconded (i) to and (ii) from; how many staff were seconded in each year; for how long each secondment lasted; and what the cost was of each secondment in each year. [167240]

Angela Eagle: The information requested is as follows:

(a) Secondments to the Department

Organisations who have seconded employees to the Department since 1997 are:

3i
Accenture
Army
Arthur Anderson
Audit Commission
Australian Department of Finance
Australian Treasury
Bank of England
Bechtel
BP
Brunswick Public Relations
BZW
Camden Council
Christian Action Research and Education
City of London
Clifford Chance
Competition Commission
Coopers/Lybrand
Deloitte Touche
Dilston Management
English Nature
Ernst and Young
Estonian Ministry of Finance
European Commission
Financial Services Authority
Health Development Agency
HM Forces
Housing Corporation
Institute of Financial Services
Institute of Fiscal Studies
IPPR

Save the Children
Slaughter and May
Social Market Foundation
Strategic Rail Authority
Tarmac
Thurrock District Council
Tidy Britain Campaign
Tresor
UBS Warburg
Women's Budget Group
Woodrow Wyatt LLP.

The number and average length of each secondment is as follows:

	Number of secondments	Average length
1997	14	1 year 7 months
1998	18	1 year 6 months
1999	13	1 year 7 months
2000	12	1 year 6 months
2001	11	1 year 3 months

	Number of secondments	Average length
2002	11	1 year 4 months
2003	14	1 year 7 months
2004	12	1 year 5 months
2005	15	1 year 2 months
2006	23	11 months

(b) Secondments from the Department

The Department has seconded employees to the following organisations:

3i
ABI
Accenture
Astra Zeneca
Azerbaijan Ministry of Finance
Bank of England
Barclays Bank
Barnados
BBC
British Cement Association
British Embassy Washington
Bromley by Bow Centre
Capita RAS

Vegan Society
Whitehall and Industry Group
Youth Justice Board.

The number and average length of each secondment is as follows:

Year	Number of secondments	Average length
1997	18	1 year 1 month
1998	11	10 months
1999	27	1 year 8 months
2000	10	1 year 5 months
2001	17	1 year 10 months
2002	12	1 year 10 months
2003	20	1 year 6 months
2004	12	1 year 9 months
2005	10	1 year 6 months
2006	15	1 year 2 months

Direct Debits

Mr. Maude: To ask the Chancellor of the Exchequer what guidance has been provided by *(a)* his Department and *(b)* the Financial Services Authority to banks and building societies taking part in the direct debit guarantee on whether (a) the explicit consent of customers is needed and (b) customers should be informed in writing when a supplier or company wishes to increase the amount that can be deducted from the customer's bank account by direct debit. [175169]

Angela Eagle: Neither the Government nor the Financial Services Authority provides guidance to banks and building societies on the direct debit guarantee. This guarantee is an industry-developed scheme, operated by all banks and building societies that take part in the direct debit scheme. The efficiency and security of the scheme is monitored and protected by banks and building societies.

Disposable Income

Jenny Willott: To ask the Chancellor of the Exchequer what the average UK household disposable income was in each of the last five years, broken down by region; what proportion of disposable income on average was spent on energy bills in each year; and if he will make a statement. [175533]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 7 January 2008:

As National Statistician, I have been asked to reply to your recent question asking what the average UK household disposable income was in each of the last five years, broken down by region; and what proportion of disposable income on average was spent on energy bills in each year (175533).

Estimates of average weekly household disposable income as well as expenditure on electricity, gas and other fuels appear in the ONS report "Family Spending". The latest report for 2005/06 was published on the National Statistics website on 18th January 2007 at http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=361. Family Spending is the annual report on the Expenditure and Food Survey (EFS), an annual survey of approximately 7,000 households in the UK.

Table 1 shows average weekly household disposable income for each region of the United Kingdom, while table 2 shows expenditure on electricity, gas and other fuels as a percentage of household disposable income for each of these regions.

Both tables show data which have been averaged over three years, which is consistent with the presentation of regional data in Family Spending. Estimates which are based on smaller regional sub-samples are subject to larger sampling error, and so an average over three years provides more reliable estimates of regional income and expenditure. Three year averages covering three different time periods have been provided. Data are not available for earlier periods on a consistent basis due to changes in survey methodology which coincided with the introduction of the Expenditure and Food Survey which replaced the old Family Expenditure Survey in 2001-02.

Household disposable income includes all income from wages and salaries, income from self-employment, income from investment, occupational pensions and social security benefits. All these incomes are recorded after the deduction of any income tax or national insurance contributions.

Table 1: Average weekly household disposable income[1,2,3]—Three year averages, United Kingdom

£ per week

	2001-04	2002-05	2003-06
UK	453	469	484
North East	385	382	382
North West	406	435	443
Yorkshire and the Humber	393	423	436
East Midlands	439	454	463

Expenditure and Food Survey, ONS.

Divorce

Steve Webb: To ask the Chancellor of the Exchequer if he will estimate the number of divorced women over pension age who divorced *(a)* aged under 30 years, *(b)* aged 30 to 39 years, *(c)* aged 40 to 49 years, *(d)* aged 50 to 59 years and (e) aged 60 years or over. [175579]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 7 January 2008:

As National Statistician I have been asked to reply to your request for the number of divorced women over pension age who divorced (a) aged under 30 years, (b) aged 30 to 39 years, (c) aged 40 to 49 years, (d) aged 50 to 59 years and (e) aged 60 years or over. (175579)

Population estimates by marital status are routinely available by age and sex. In 2006, there were an estimated 563,700 divorced women in England and Wales aged 60 and over. A breakdown of this figure by age at divorce is not routinely available. It could be provided only at disproportionate cost as women of pensionable age are not asked about their marital status history in large scale surveys and the census.

Employment

Danny Alexander: To ask the Chancellor of the Exchequer what the employment rate of *(a)* men and *(b)* women was in each region in each quarter of the last 10 years. [174729]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, 7 January 2008:

As National Statistician, I have been asked to reply to your parliamentary question about the employment rate of *(a)* men and *(b)* women in each region in each quarter of the last 10 years. (174729)

Seasonally adjusted estimates for regional employment rates are published each month in the Labour Market Statistics First Release. Please visit the following link;

http://www.statistics.gov.uk/downloads/theme_labour/LMS_FR_HS/WebTable18SA.xls

Estimates are taken from the Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

Danny Alexander: To ask the Chancellor of the Exchequer what the employment rate for *(a)* men and *(b)* women with fewer than five GCSEs at grade A to C or equivalent in each region was in each quarter for the last 10 years. [174882]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, 7 January 2008:

As National Statistician, I have been asked to reply to your parliamentary question about the employment rate of (a) men and (b) women with fewer than 5 GCSEs at A-C grade or equivalent in each region in each quarter of the last 10 years. (174882)

The attached table gives the percentage of people in the categories requested for the three month period ending June each year, from 2001 to 2007. Comparable estimates are not available prior to 2001.

The LFS estimates at this detailed level are only consistent with the UK population estimates published in February and March 2003 arid they do not incorporate the more recent population estimates that are used in the headline LFS series.

Estimates are taken from the Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

Working age population[1] in employment rate[2] with fewer than 5 GCSEs[3,4] April to June 2001-07: Government Office Regions, not seasonally adjusted

[1] Men aged 16-64 and women aged 16-59.
[2] Number of people in employment of working age, with fewer than five GCSEs as a percentage of all persons of working age with fewer than five GCSEs.
[3] Includes all those of working age in employment with qualifications below NVQ level 2, including those with no qualifications.
[4] Qualifications below NVQ Level 2 is equivalent to fewer than five GCSEs Note: Comparable data not available for 1997, 1998, 1999 and 2000.

Employment: Darlington

Mr. Milburn: To ask the Chancellor of the Exchequer what his estimate is of the *(a)* public expenditure consequences and *(b)* economic effects of measures introduced to increase employment in Darlington since 1997. [174885]

Angela Eagle: The number of people on the key out of work benefits in Darlington has fallen by 21.5 per cent. since 1997, and the employment rate has risen by 3.8 per cent. over the same period. At a national level, the Government now spend £5 billion a year less on unemployment benefits than in 1996-97. The success of the new deal has contributed to this saving, and the National Audit Office estimates that national income has grown by between £216 million and £360 million as a result of the new deal.

Employment: Disabled

Danny Alexander: To ask the Chancellor of the Exchequer what the employment rate for disabled *(a)* men and *(b)* women was in each region in each quarter of the last 10 years. [174883]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 7 January 2008:

The National Statistician has been asked to reply to your Parliamentary Question about the employment rate for disabled a) men and b) women in each region in each quarter of the last 10 years. I am replying in her absence. (174883)

The attached table gives the percentage of people in the categories requested for the three month period ending June each year, from 1999 to 2007. Comparable estimates are not available for 1997, 1998 and 2000.

The LFS estimates at this detailed level are only consistent with the UK population estimates published in February and March 2003 and they do not incorporate the more recent population estimates that are used in the headline LFS series.

Estimates are taken from the Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

Employment: Ethnic Groups

Danny Alexander: To ask the Chancellor of the Exchequer what the employment rate of *(a)* male and *(b)* female members of each ethnic minority was in each region in each quarter of the last 10 years. [174839]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 7 January 2008:

As National Statistician, I have been asked to reply to your Parliamentary Question asking what the employment rate of (a) male and (b) female members of each ethnic minority was in each region in each quarter of the last 10 years (174839).

Information in the form requested is not readily available and could only be obtained at disproportionate cost.

Employment: Lone Parents

Danny Alexander: To ask the Chancellor of the Exchequer what the employment rate of *(a)* male and *(b)* female lone parents was in each region in each quarter of the last 10 years. [174838]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 7 January 2008:

As National Statistician, I have been asked to reply to your Parliamentary Question about lone parent employment rates. (174838)

The information requested is given in the attached tables. The figures in the tables are estimates from the Labour Force Survey (LFS) for the three month period ending in June of 1997, 1999 and 2001-2007. This information is not available for every quarter of each year. Comparable estimates are not currently available for 1998 or 2000.

As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

Employment: Older Workers

Danny Alexander: To ask the Chancellor of the Exchequer what the employment rate of *(a)* men and *(b)* women aged over 50 years was in each region in each quarter of the last 10 years. [174840]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 7 January 2008:

As National Statistician I have been asked to reply to your Parliamentary Question about the employment rate of *(a)* men and *(b)* women aged over 50 was in each region in each quarter of the last 10 years. (174840)

Not-seasonally adjusted estimates for regional employment rates by age are published each quarter in the Labour Market Statistics Regional First Releases. For figures since quarter 3 2005 please visit the following link:

http://www.statistics.gov.uk/OnlineProducts/LMS_regional.asp

The attached table shows selected historical quarters and has been derived from the published tables. It shows the employment rate of men and women aged 50 to retirement age for the three month period ending June each year, from 1997 to 2007. These estimates are not-seasonally adjusted.

Estimates are taken from the Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

Employment rate of men and women aged 50 to retirement age by region

Enterprise Investment Scheme

Mr. Prisk: To ask the Chancellor of the Exchequer what estimate his Department has made of the number of businesses that will be affected by the changes in the Enterprise Investment Scheme as a result of the changes in capital gains tax. [175734]

Jane Kennedy: The 2007 pre-Budget report announced a reform of the capital gains tax regime for individuals. The reliefs available under the Enterprise Investment Scheme remain unchanged. The value of EIS reliefs for investors, and thereby the impact on investee companies, will depend on individual circumstances.

Mr. Prisk: To ask the Chancellor of the Exchequer how many companies used the Enterprise Investment Scheme *(a)* in 2005-06 and *(b)* in 2006-07; and how many have used it in total. [175735]

Jane Kennedy: National statistics on the number of companies that have issued shares under the Enterprise Investment Scheme, each tax year and in total, are published by HM Revenue and Customs at:

http://www.hmrc.gov.uk/stats/ent_invest_scheme/table8-1.xls

Published totals for 2005-06 and 2006-07 are currently incomplete because companies have up to three years to submit a return informing HM Revenue and Customs of a share issue under the scheme.

Excise Duties: Fuels

Mr. Greg Knight: To ask the Chancellor of the Exchequer if he will reduce duty on petrol and diesel to reflect recent changes in oil prices. [170309]

Angela Eagle *[holding answer 3 December 2007]:* Budget 2007 pre-announced fuel duty rates for three years for environmental reasons, to fund public services and provide certainty alongside the other tax reforms in that Budget. The Government keeps all taxes under review and will continue to monitor developments in the oil market.

Mr. Amess: To ask the Chancellor of the Exchequer if he will freeze the rate of fuel duty; what recent representations he has received about the issue; and if he will make a statement. [172469]

Angela Eagle: It is the Government's policy that fuel duty rates should rise each year at least in line with inflation as the UK seeks to reduce polluting emissions and fund public services. The 2007 Budget announced fuel duty rates for the next three years. The Treasury routinely receives a range of stakeholder views in the approach to the Budget and the Chancellor considers all relevant economic, environmental and social factors when deciding taxation policy.

Foreign Workers

Mr. Hayes: To ask the Chancellor of the Exchequer how many people born abroad have gained employment in the UK since 1997. [174395]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 7 January 2008:

The National Statistician has been asked to reply to your Parliamentary Question about the number of people who were born abroad and have gained employment in the United Kingdom since 1997. I am replying in her absence.

Between the second quarter of 1997 and the second quarter of 2007 there was an increase of 1.4 million foreign-born workers of working age in employment in the UK. The data to support this response was provided in PQ478 (Hansard ref 464 Column 1535) sent to Mr David Laws on 17th October 2007. This figure was also recently published in the Statistics Commission briefing 'Foreign Workers in the UK'

http://www.statscom.org.uk/C_1238.aspx.

The data for analysing migrant workers comes from the Labour Force Survey. The National Statistics method for estimating the number of migrant workers employed in the UK is based on the number of people at a given time who were born abroad, are of working age (16-64 for men, 16-59 for women), and in employment. This question has been answered on this basis.

It is important to bear in mind that the Labour Force Survey (LFS) is not designed to cover everyone who is present in the UK. The survey may undercount the numbers of people who were born overseas.

As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

Fuels: Prices

Mr. Dodds: To ask the Chancellor of the Exchequer what assessment he has made of the reasons for recent increases in the price of *(a)* heating oil, *(b)* petrol and *(c)* diesel; and if he will make statement. [174912]

Angela Eagle: The price of heating oil, petrol and diesel are influenced by a range of factors, including international crude oil prices, exchange rates, seasonal factors, level of stocks, refinery capacity, distribution costs and the degree of retail competition.

International oil prices have been high and volatile in recent years, more than doubling between 2004 and 2007, and this has been reflected in the retail prices of all fuels. The rise in prices has been due to a range of factors, notably strong and resilient global oil demand growth, tight refining and production capacity and geopolitical uncertainty in several key oil-producing countries. In 2007 Q4, additional factors including oil supply shortages have also contributed to increased crude oil prices.

Oil price is only one of these factors and there is typically a lag to changes in retail pump prices as retailers absorb temporary changes in oil prices in their profit margins.

Mr. Dodds: To ask the Chancellor of the Exchequer what percentage of the retail price of *(a)* heating oil, *(b)* petrol and *(c)* diesel is accounted for by tax. [174913]

Angela Eagle: Liability to pay fuel duty only applies to fuel refiners or producers. This is because the point at which the duty is paid is when the finished product leaves the refinery or production plant. Fuel duty is set at a fixed monetary value per litre rather than as a percentage of the retail price.

The duty rates that refiners and producers pay to HM Revenue and Customs were set out in Budget Note 53—http://www.hmrc.gov.uk/budget2007/bn53.htm—published by HMRC on 21 March 2007. As retail prices may vary so fuel duty expressed as a percentage of the retail price may also vary.

Government Departments: Property

Mr. Maude: To ask the Chancellor of the Exchequer pursuant to the answer of 6 December 2007, *Official Report*, column 1413W, on Government Departments: Property, how much *(a)* total floor area and *(b)* vacant space was recorded on the electronic property information mapping service database for each Government Department and agency in the most recent period for which figures are available. [174811]

Angela Eagle: The information requested has been placed in the Libraries.

HM Revenue and Customs' Data

Mr. Wallace: To ask the Chancellor of the Exchequer pursuant to the answer of 13 December 2007, to Question 172044 on HM Revenue and Customs' data, what guidance he has given to his officials on responding to parliamentary questions on data loss during the on going review. [175417]

Jane Kennedy: I have referred to the ongoing review where it is appropriate to do so.

Housing: Prices

Mr. Hayes: To ask the Chancellor of the Exchequer what the average *(a)* total and *(b)* percentage change in house prices was in each region in each month in 2007. [175791]

Angela Eagle: The information requested is available on the website of the Department of Communities and Local Government at:

http://www.communities.gov.uk/documents/housing/xls/table-590

http://www.communities.gov.uk/documents/housing/xls/table-592

Immigrants: France

Mr. Stephen O'Brien: To ask the Chancellor of the Exchequer what estimate he has made of the number of French nationals living in the UK. [172927]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 7 January 2008:

The National Statistician has been asked to reply to your question concerning the number of French nationals living in the UK. I am replying in her absence. (172927)

In the twelve months to December 2006, there were an estimated 118,000 French nationals living in the UK. This figure is based on the Annual Population Survey (APS) and, as with any sample survey, APS estimates are subject to a margin of uncertainty.

Insurance Companies

Mr. Austin Mitchell: To ask the Chancellor of the Exchequer if he will initiate an investigation into the use of captive insurance companies by accountancy firms. [175528]

Angela Eagle: The Government have no plans to establish such a committee.

Landfill Tax

Mr. Hurd: To ask the Chancellor of the Exchequer (1) how much of the revenue generated from landfill tax revenue in *(a)* 2005-06 and *(b)* 2006-07 has been allocated to the Business Resource Efficiency and Waste programme; [169403]

(2) what the total amount of landfill tax revenue was in *(a)* 2005-06 and *(b)* 2006-07; and how much of that revenue in each year was allocated to his Department; [169404]

(3) what estimate has been made of the likely income from landfill tax in *(a)* 2007-08 and *(b)* 2008-09; [169405]

(4) how much of the income from landfill tax in *(a)* 2007-08 and *(b)* 2008-09 has been allocated to the Business Resource Efficiency and Waste programme. [169406]

Angela Eagle: Landfill tax revenues are published on the Uktradeinfo website and are available at

http://www.uktradeinfo.com/index.cfm?task=bulllandfill

The value of the Business Resource Efficiency and Waste programme was £43 million in 2005-06 and £95 million in 2006-07.

Forecast landfill tax receipts for 2007-08 and 2008-09 are published in Table B8 of the 2007 pre-Budget report and comprehensive spending review available at

http://www.hm-treasury.gov.uk/media/F/9/pbr_csr07_annexb_305.pdf

DEFRA has allocated £125 million to the Business Resource Efficiency and Waste programme in 2007-08.

The comprehensive spending review allows for the continuation of funding for business resource efficiency. DEFRA has not yet announced allocations for 2008-09.

Migrant Workers

Mr. Frank Field: To ask the Chancellor of the Exchequer with reference to the answer to the hon. Member for Yeovil (Mr. Laws) of 19 October 2007, *Official Report*, columns 1353-55W, on migrant workers, how many of the 0.3 million additional UK born workers of working age in work between 1997 and 2007 had previously claimed benefit. [175299]

Jane Kennedy *[holding answer 18 December 2007]:* The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 7 January 2008:

As National Statistician, I have been asked to reply to your Parliamentary Question about how many of the 0.3 million additional UK-born workers of working age in work between 1997 and 2007 had previously claimed benefits. (175299)

The estimate of 0.3 million additional UK-born workers of working age between 1997 and 2007 was taken from the Labour Force Survey (LFS). The LFS does not collect information on whether a person was claiming benefit before they entered employment.

National Insurance Contributions

Mr. Waterson: To ask the Chancellor of the Exchequer how many people paid voluntary national insurance contributions in each of the last 10 years. [175055]

Jane Kennedy: Latest available figures from 1995-96 are shown in the following table.

National insurance class 3 contributions must normally be made before the end of the sixth tax year following the one for which they were due; but the time limit has been extended for the 1995-96 to 2001-02 tax years. Customers have up to 5 April 2010 to pay if they reach state pension age before 24 October 2004, or 5 April 2009 if they reach state pension age on or after 24 October 2004. Because of this the figures detailed are likely to increase, particularly the latest years.

In respect of tax year	*Contributors (thousand)*	*National insurance class 3 contributions (£ million)*
1995-96	322	60
1996-97	406	93
1997-98	367	92
1998-99	356	91
1999-00	335	90
2000-01	304	82
2001-02	285	78
2002-03	310	78
2003-04	276	71
2004-05	213	58
2005-06	110	39
2006-07	73	24

Note:
Based on a 1 per cent. sample extracted from the National Insurance Recording System on 13 July 2007.

Mr. Waterson: To ask the Chancellor of the Exchequer how many computer-generated letters were sent out by HM Revenue and Customs notifying a shortfall in national insurance contributions for the 2005-06 tax year; and how many were sent in error. [175056]

Jane Kennedy: To date HM Revenue and Customs (HMRC) has sent 2.41 million letters to customers advising them of a potential shortfall in their National Insurance contributions for 2005-06. It expects to issue a further 340,000 in January 2008.

A relatively small number of letters will have been sent in error but it is not possible to determine precisely how many.

Mr. Austin Mitchell: To ask the Chancellor of the Exchequer how much is payable in annual national insurance contributions by a person with gross annual earnings of *(a)* £12,000, *(b)* £24,000, *(c)* £50,000 and *(d)* £100,000 in 2007-08. [175529]

Jane Kennedy: The information requested is as follows.

Earnings[1]	*Employee national insurance payable (£)*
£12,000	745.80
£24,000	2,065.80
£50,000	3,410.64
£100,000	3,910.60

[1] Assumes that earnings are paid monthly and spread evenly throughout the year and the employee is in 'not contracted out' employment.

Mr. Waterson: To ask the Chancellor of the Exchequer what guidance his Department has provided to employers on whether employees should pay reduced national insurance contributions. [175607]

Jane Kennedy: HMRC does not provide specific guidance to employers on whether their employees should pay reduced national insurance contributions. The onus is on employees to give their employers a 'certificate of election' form. Without this certificate the employer must deduct full rate national insurance contributions.

Employers are advised to have a procedure in place to ensure employees notify them if they lose the right to reduced rate contributions, (for instance because of divorce or they have cancelled their election). The CWG2 'Employer Further Guide to PAYE and NICs'

http://www.hmrc.gov.uk/guidance/cwg2.pdf

and the E13 'Day to Day Payroll' guidance

http://www.hmrc.gov.uk/helpsheets/e13.pdf

provides information on what employers should do where a married women or widow is entitled to pay reduced rate contributions.

National Insurance Contributions: Females

Mr. Waterson: To ask the Chancellor of the Exchequer how many women paid reduced national insurance contributions in each year since 1977. [175608]

Jane Kennedy: I refer the hon. Gentleman to the answer given on 3 December 2007, *Official Report*, column 1034W.

Oil

Norman Baker: To ask the Chancellor of the Exchequer what studies have been *(a)* considered and *(b)* evaluated by his Department on the economic implications of the peak oil phenomenon; and if he will make a statement. [173878]

Angela Eagle: Government constantly monitor risks to the UK economy, including from energy-related developments, as detailed in the Energy White Paper (May 2007) and the Long-term Opportunities and Challenges for the UK (November 2006).

Government are aware of a wide range of academic and industry studies which look at future world oil supplies, including the peak oil phenomenon, and meets regularly with experts to discuss this and other oil market issues. The Government's assessment is that the world's oil resources are sufficient to prevent total global oil production peaking before 2030. This is consistent with the assessment of the International Energy Agency (IEA) in its 2007 World Energy Outlook (WEO).

Pay

Mr. Laws: To ask the Chancellor of the Exchequer how many people earn more than the minimum wage but less than £6.75 per hour; how many of those work in the *(a)* private and *(b)* public sector; and if he will make a statement. [174852]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, 7 January 2008:

As National Statistician, I have been asked to reply to your recent parliamentary question asking how many people earn more than the minimum wage but less than £6.75 per hour; how many of those work in the *(a)* private and *(b)* public sector. (174852)

Levels of earnings are estimated from the annual survey of hours and earnings (ASHE), and are provided for employees on adult rates of pay, whose pay for the survey period was not affected by absence. The ASHE, carried out in April each year, is the most comprehensive source of earnings information in the United Kingdom.

ASHE is not used to provide estimates of the numbers earning above the national minimum wage but less than £6.75 per hour, split by public and private sectors, but is used to make estimates of the proportions of employees in those categories. I attach a table providing that information.

Percentage of UK employees earning above NMW but below £6.75

	Percentage
All Employees	18
Public sector	11
Private sector	22

Figures have been calculated using hourly earnings excluding overtime and include employees on adult rates whose pay for the pay-period was not affected by absence. They apply to earnings at April 2007.

ASHE is not used to provide accurate estimates of the numbers earning above the national minimum wage but less than £6.75 per hour, split by public and private sectors, but is used to make estimates of the proportions of employees in those categories.

Prescription Drugs: Death

Mr. Hoyle: To ask the Chancellor of the Exchequer how many people died from *(a)* overdoses of prescription medicine, *(b)* adverse interactions of prescription drugs, *(c)* overdoses of herbal medicine and *(d)* adverse interactions of herbal medicines in the last 12 month period for which figures are available. [175410]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, 7 January 2008:

As National Statistician I have been asked to reply to your recent question asking how many people died from *(a)* overdoses of prescription medicine, *(b)* adverse interactions of prescription drugs, *(c)* overdoses of herbal medicine and *(d)* adverse interactions of herbal medicines in the last 12 month period for which figures are available. (175410)

The Office for National Statistics (ONS) reports annually on the number of deaths in England and Wales from drug-related poisoning. These figures relate to the number of deaths from poisoning with any drug or medicine or certified as drug abuse or dependence. The latest report was published on 28 November in Health Statistics Quarterly 36[1] and contained figures for deaths registered between 2002 and 2006. In 2006, there were 2,570 deaths from drug-related poisoning. Although all substances mentioned on the death record are collated for these deaths, it is not possible to ascertain whether the deceased was prescribed the substances mentioned. It is also not possible to ascertain whether a substance was a herbal preparation.

Deaths from adverse interactions to prescribed or herbal medicines are not available from ONS mortality records.

[1] Office for National Statistics' (2007) Deaths related to drug poisoning: England and Wales, 2002-2006. Health Statistics Quarterly 36, 66-72.

Revenue and Customs: Correspondence

Mr. Laws: To ask the Chancellor of the Exchequer what Tax Credit Office targets there are for responding to letters from right hon. and hon. Members; and how many letters received responses outside the target period in each *(a)* month and *(b)* quarter since 1 November 2006. [175158]

Jane Kennedy: HM Revenue and Customs has a target to respond to the majority of letters from right hon. and hon. Members within three weeks.

The number of letters that were not sent a reply within three weeks for the period requested is shown in the following table:

MP Letters

	15 working days
2006	
November	323
December	364
2007	
January	305
February	410
March	434
April	187
May	219
June	301
July	437
August	382
September	392
October	374

The TCO is working hard to improve the speed and quality of responses.

As the hon. Member is aware, the TCO is currently dealing with an administrative problem which has resulted in some delays.

Revenue and Customs: Data Protection

Mr. Burns: To ask the Chancellor of the Exchequer what estimate he has made of the cost of sending letters to the families affected by the recent loss of data by HM Revenue and Customs. [169767]

Jane Kennedy: For the year April 2006 to March 2007 HMRC handled approximately 300 million pieces of outgoing post at a cost of around £79 million.

The cost of sending letters to the families affected by the recent loss of data by HMRC is estimated at £2.25 million including postage costs.

Mr. Hoban: To ask the Chancellor of the Exchequer whether the Poynter Review will interview Ministers in his Department as part of its work. [173350]

Jane Kennedy: The Poynter Review will interview a range of relevant parties over the course of its work.

Mr. Hoban: To ask the Chancellor of the Exchequer what staff from *(a)* HM Treasury, *(b)* HM Revenue and Customs and *(c)* other Government Departments are working on the Poynter Review. [173361]

Jane Kennedy: No Government officials are working directly on the review.

Mr. Hoban: To ask the Chancellor of the Exchequer what estimate he has made of the cost of *(a)* deploying software and *(b)* implementing procedures to encrypt all data sent out of HM Revenue and Customs on compact disc. [173518]

Jane Kennedy: HMRC is currently assessing the costs of delivering longer term solutions.

On 20 November 2007 the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the Chair of PricewaterhouseCoopers.

The interim report was published on 17 December 2007 and is available in the Library of the House.

Mr. Willetts: To ask the Chancellor of the Exchequer what control HM Revenue and Customs (HMRC) has over the access to and use of data after it has left HMRC's computers and been sent to *(a)* the Student Loans Company, *(b)* the National Audit Office and *(c)* other institutions; and what records HMRC maintains of that use and access. [175751]

Jane Kennedy: HMRC protects its information by requiring bodies receiving data to seek HMRC consent before it may be used for certain purposes, or disclosed further. Controls may also be set out in memorandums of understanding, partnership agreements or other documents, defining the relationship between HMRC and the body receiving the data, including the specific procedures and protocols governing the use of information.

Once data has left HMRC it is the responsibility of the receiving body, including the Student Loans Company or National Audit Office, to ensure that any further use complies with the law including the Data Protection Act 1998 and the Human Rights Act 1998.

Revenue and Customs: Huddersfield

Mr. Sheerman: To ask the Chancellor of the Exchequer what assessment he has made of the environmental implications of relocating Huddersfield HM Revenue and Customs staff from local offices to Bradford. [175473]

Jane Kennedy: HMRC is committed to reducing its environmental footprint and will in part cut its direct energy consumption through the reduction in the office space it uses, releasing buildings it no longer needs for others to use and improving the energy efficiency of those offices it retains.

Where an office is earmarked for closure an assessment is made of the travel implications for current HMRC staff of journeys to alternative offices. For some, journeys may be longer or shorter but in no case is anyone required to relocate beyond reasonable daily travel.

Mr. Sheerman: To ask the Chancellor of the Exchequer what plans he has to reimburse staff from HM Revenue and Customs Huddersfield for increased travel costs as a result of having to relocate to the Bradford branch. [175474]

Jane Kennedy: Where HM Revenue and Customs staff face increased travel costs as a result of being required to relocate permanently to another office they will be given payment towards their additional travel costs for three years.

Revenue and Customs: Location

Mr. Sheerman: To ask the Chancellor of the Exchequer what plans he has to help those employees of HM Revenue and Customs who are unable to relocate to a different branch to find alternative employment. [175475]

Jane Kennedy: HMRC expects that most staff from offices that are planned for closure will be able to relocate with their teams to a new office.

Where it is agreed that it is not reasonable for individual members of staff, in their circumstances, to relocate, managers will discuss alternative options with them. These may include the provision of temporary work in their current location or a move to another business unit within HMRC. In addition HMRC will facilitate moves to other Government Departments where posts are available matching terms and conditions where they are not comparable to those in HMRC. A re-deployment workshop is also available for staff to help them maximise their prospects of finding alternative work, using a consultant to provide coaching on CV writing and interview techniques.

HMRC will continue to work with staff, managers and the departmental trade unions to seek alternative ways to ensure that HMRC staff are offered every opportunity to continue to work in the Department.

Revenue and Customs: Pay

David T.C. Davies: To ask the Chancellor of the Exchequer whether employees of HM Revenue and Customs involved in the collection of tax receive bonuses related directly or indirectly to the amount of tax revenue that they have been involved in collecting. [175492]

Jane Kennedy: HM Revenue and Customs employees do not receive payments related to the collection of revenue.

Revenue and Customs: Postal Services

Mr. Hoban: To ask the Chancellor of the Exchequer how much was spent by HM Revenue and Customs on *(a)* recorded post and *(b)* non-recorded post in each of the last five years. [173353]

Jane Kennedy: For the year April 2006 to March 2007, HMRC handled approximately 300 million pieces of outgoing post.

HMRC expenditure on recorded and non-recorded post since 2005 is:

	£	
	Recorded	*Non-recorded*
2005-06	513,706	78,563,963
2006-07	670,014	78,582,763
2007-08 (to 31 November 2007)	445,835	53,303,839

Sandstorm Report

Mr. Austin Mitchell: To ask the Chancellor of the Exchequer (1) with reference to the answer of 27 February 2007, *Official Report*, column 1300W, on the Sandstorm report, what plans he has to publish the Sandstorm report; [175536]

(2) to which *(a)* individuals and *(b)* organisations his Department provided access to (i) all and (ii) part of the Sandstorm report; [175537]

(3) with reference to the answer of 27 February 2007, *Official Report*, column 1300W, on the Sandstorm report, when his Department expects to make a definitive reply to Professor Prem Sikka of the University of Essex's request of 13 March 2006 under the Freedom of Information Act 2000 for publication of the Sandstorm report relating to the closure of the Bank of Credit and Commerce International; and what the reasons are for the time taken to respond. [175545]

Angela Eagle: A response has been provided to Professor Prem Sikka's request of 13 March 2006. The Treasury is currently considering this case in response to an internal review request made by Professor Sikka in September 2007 under the Freedom of Information Act. A decision will be reached shortly.

Security Clearances

Jim Cousins: To ask the Chancellor of the Exchequer whether his Department's contracts with courier and postal service providers include provisions requiring *(a)* security clearance for the employees of such providers and *(b)* a check on residence entitlement in the UK. [171490]

Jane Kennedy *[holding answer 6 December 2007]:* HM Revenue and Customs postal and courier service providers, as part of their recruitment policies, carry out employment checks to establish *(a)* criminal history record and *(b)* entitlement to work in the UK.

Smuggling

Justine Greening: To ask the Chancellor of the Exchequer what guidance is given to HM Revenue and Customs customs officers on the exercise of powers of arrest in relation to individuals from whom seizures of goods are made; and if he will make a statement. [175819]

Jane Kennedy: HMRC is not able to seize goods illegally.

HM Revenue and Customs officers engaged in operational customs work have powers of arrest under s.138 of the Customs and Excise Management Act 1979 and s.24(2) of the Police and Criminal Evidence Act 1984.

All officers involved in work areas that require them to exercise the power of arrest, including those involved in making arrests of individuals from whom seizures of illegal goods are made, receive training in arrest procedures, policy and relevant law as part of their core training for the role. In addition, standing instructions on arrest law

and procedure are maintained as a source of reference for all officers involved in works areas that require them to exercise the power of arrest.

Only staff who have received full training in relevant law and procedure are authorised to effect an arrest.

Justine Greening: To ask the Chancellor of the Exchequer how many seizures of illegal goods HM Revenue and Customs customs officers made in *(a)* ports, *(b)* airports, *(c)* rail terminals and *(d)* other locations in each year since 2004. [175820]

Jane Kennedy: The number of seizures of illegal goods is published in the HMRC and previously HM Customs and Excise Annual report.

The requested breakdown could be provided only at disproportionate cost.

Smuggling: Tobacco

Mr. Lansley: To ask the Chancellor of the Exchequer what his most recent estimate is of *(a)* the proportion of tobacco products consumed in the UK on which duty was not paid due to smuggling and fraud in each year since 1997 and *(b)* the resultant loss of income to the Exchequer. [174768]

Angela Eagle: Estimates for the market share of tobacco products that are supplied to the UK through smuggling and fraud, and the associated revenue loss to the Exchequer, are available from 2000 to 2001.

The latest estimates for the market share of illicitly supplied cigarettes and hand rolling tobacco and the associated revenue loss to the Exchequer (duty plus VAT) are estimated separately for 2001-02 to 2005-06 and are given in "Measuring Indirect Tax Losses—2007" published by HMRC in October 2007, which is available in the House of Commons Library. Estimates for 2000-01 are given in "Measuring Indirect Tax Losses—2006" which was published by HMRC in December 2006 and is also available in the House of Commons Library.

Social Security Benefits: Personal Records

Malcolm Bruce: To ask the Chancellor of the Exchequer for how long information on individuals who are claimants of any benefits or tax credits is stored after they cease to be claimants; and what measures are taken to destroy these records. [168560]

Jane Kennedy *[holding answer 29 November 2007]:* The child tax credit and working tax credit were introduced on 6 April 2003. HMRC currently hold records for tax credit claimants whether their claim has ceased or not, for making decisions on entitlement, administering payments; the recovery of overpayments and compliance purposes.

Records for Child Benefit claimants are deleted five years after the award of the youngest child in the family has ceased.

Spinal Muscular Atrophy

Mr. Donohoe: To ask the Chancellor of the Exchequer how many people died of spinal muscular atrophy in each year since 2001. [175290]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 7 January 2008:

As National Statistician I have been asked to reply to your recent question asking how many people died of spinal muscular atrophy in each year from 2001. (175290)

The table below contains numbers of deaths where the underlying cause was spinal muscular atrophy and related syndromes in England and Wales from 2001 to 2006, the latest year for which data are available.

Number of deaths from spinal muscular atrophy and related syndromes[1] in England and Wales, 2001 to 2006[2]

	Number
2001	1,479
2002	1,518
2003	1,520
2004	1,551
2005	1,616
2006	1,702

[1] The cause of death for spinal muscular atrophy and related conditions was defined using the International Classification of Diseases, Tenth Revision (ICD-10) code G12.
[2] Figures are for registrations of death in each calendar year.

Suicide

Mr. Vara: To ask the Chancellor of the Exchequer how many suicides there were in each 10 year age cohort in each of the last 10 years. [174841]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 7 January 2008:

The National Statistician has been asked to reply to your recent question asking how many suicides there were in each 10 year age cohort in each of the last 10 years. I am replying in her absence. (174841)

The table below contains numbers of suicides by age group in England and Wales from 1997 to 2006, the latest year for which data are available.

It is assumed that most deaths from injury/poisoning of undetermined intent at ages 15 and over are cases where the harm was self-inflicted but there was insufficient evidence to prove that the deceased deliberately intended to kill themselves. For this reason, ONS includes in its suicide statistics both those deaths from intentional self-harm, and those from 'injury or poisoning of undetermined intent.' The same cannot be assumed for deaths at ages under 15 and therefore deaths from injury or poisoning of undetermined intent are not included when examining suicide (intentional self-harm) in children. As there were no deaths in children aged under 13 with a suicide verdict for the period requested, the table shows the number of suicides in children aged 13 to 14, and the number of suicide and injury/poisoning of undetermined intent deaths in those aged 15 and over.

Number of deaths from suicide and injury/poisoning of undetermined intent, by age group, England and Wales, 1997 to 2006[1]

	Suicide[2]	*Suicide*[2] *and injury /poisoning of undetermined intent*[3]							
	Ages 13-14	*15-24*	*25-34*	*35-44*	*45-54*	*55-64*	*65-74*	*75-84*	*85 and over*
1997	2	590	1,111	942	857	516	389	286	123
1998	7	651	1,351	1,048	919	554	394	301	114
1999	2	550	1,205	1,115	900	574	429	326	134
2000	1	555	1,124	1,091	911	558	406	287	137
2001	5	506	1,031	1,047	917	594	376	291	129
2002	1	475	1,009	1,104	852	563	364	254	130
2003	2	492	954	1,141	847	598	347	302	115
2004	3	476	896	1,151	889	608	396	315	140
2005	3	445	830	1,131	930	633	338	260	135
2006	3	399	748	1,066	893	692	340	256	110

[1] Figures are for deaths registered in each calendar year.
[2] The cause of death for suicide was defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes E950-E959 for the years 1997 to 2000, and Tenth Revision (ICD-10) codes X60-X84for 2001 onwards.
[3] The cause of death for injury/poisoning of undetermined intent was defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes E980-E989 excluding E9 88.8 for the years 1997 to 2000, and Tenth Revision (ICD-10) codes Y10-Y34 excluding Y33.9 where the Coroner's verdict was pending for 2001 onwards.

Tax Allowances

Mr. Laws: To ask the Chancellor of the Exchequer what his latest estimate is of the number of people in the UK who are eligible to claim non-domicile tax status; and if he will make a statement. [163436]

Jane Kennedy: Information on how many individuals in the UK are eligible to claim non-domicile tax status is not available. However information is available on the numbers of individuals indicating non-domicile status on their self assessment (SA) returns. The last full year's data relates to 2004-05, in which there were 115,000 indicating non-domicile status. HMRC's live systems show the latest figure (as at August 2007) for 2005-06 is 114,000 individuals.

Tax Allowances: Motor Vehicles

Mr. Hancock: To ask the Chancellor of the Exchequer if he will introduce a fiscally-neutral scheme to *(a)* reward and *(b)* penalise manufacturers of motor vehicles according to vehicle *(i)* fuel efficiency and *(ii)* carbon dioxide emissions. [172307]

Angela Eagle: The Government have reformed Vehicle Excise Duty to provide fiscal incentives to consumers to choose lower emissions vehicles by introducing CO_2 emissions graduated rates for cars, a discount rate for early registered lower emissions vans and discount rates for reduced pollution buses and heavy good vehicles. Budget 2007 changes to Vehicle Excise Duty built on 2006 reforms, further sharpening the environmental signals to motorists to purchase more fuel-efficient vehicles and supporting development of the low-carbon market. The Government have also reformed Company Car Tax to provide further fiscal incentives for cleaner lower emissions choices.

In addition the UK will engage fully in negotiations on the European Commission's proposal to set vehicle manufacturers mandatory targets to reduce average CO_2 emissions from new cars. The Chancellor keeps all taxation policy under review as part of the Budget process.

Tax Havens

Mr. Austin Mitchell: To ask the Chancellor of the Exchequer if he will commission research on the levels of use of offshore tax havens by UK banks and the economic effects of that use. [175531]

Jane Kennedy: There are no plans to commission research on the levels of use of offshore tax havens by UK banks and the economic effects of that use.

Tax Yields

Mr. Meacher: To ask the Chancellor of the Exchequer what percentage of total tax revenue came from *(a)* income tax, *(b)* indirect taxes, *(c)* business taxes, *(d)* capital taxes and *(e)* other taxes in each year since 1980. [172983]

Jane Kennedy *[holding answer 10 December 2007]:* The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 7 January 2008:

As National Statistician I have been asked to reply to your Parliamentary Question asking what percentage of total tax revenue came from (a) income tax, (b) indirect taxes, (c) business taxes, (d) capital taxes and (e) other taxes in each year since 1980. (172983)

Detailed statistics about types of tax payable by UK residents to general government and the European Union for calendar years are published on a regular basis in table 11.1 of the annual ONS publication "United Kingdom National Accounts (The Blue Book)". The "Blue Book" was last published in June. However, the table was updated in the monthly "Public Sector Finances First Release", on both calendar year and financial year bases, published on 20 July. Differences between the figures in the "Blue Book" and Public Sector Finances are a result of differing revisions policies for the National Accounts and the Public Sector Finances; the latter are the more up to date. The table is not a regular feature of the First Release, although most of the figures themselves are updated every month. The data in the table below are consistent with the dataset for the "Public Sector Finances" published on 20 November 2007.

In answering this question total tax revenue has been defined consistently with the Total taxes and social contributions series in table 11.1. Similarly, Indirect taxes have been defined as Taxes on products and imports, and business taxes as Production taxes

other than on products plus non-household Taxes on Income. The financial year has been used because the UK adopts this as its fiscal base.

	A	B	C	D	E
1979-80	30.9	28.1	18.4	0.6	5.5
1980-81	30.6	27.4	18.8	0.6	5.9
1981-82	30.1	27.3	19.6	0.9	6.0

1999-2000	28.2	33.2	15.6	0.6	5.8
2000-01	29.2	32.4	15.0	0.6	5.7
2001-02	29.2	32.5	14.7	0.6	6.1
2002-03	29.2	33.4	13.6	0.6	6.4
2003-04	27.8	33.5	12.8	0.6	6.6
2004-05	28.1	32.5	13.5	0.7	6.6
2005-06	28.3	31.1	15.0	0.7	6.5
2006-07	28.5	31.0	15.1	0.7	6.3

A. Household income taxes as a percentage of total taxes and social contributions payable by UK residents.
B. Taxes on products and imports as a percentage of total taxes and social contributions payable by UK residents.
C. Production taxes other than on products plus non-household Taxes on Income as a percentage of total taxes and social contributions payable by UK residents.
D. Capital taxes as a percentage of total taxes and social contributions payable by UK residents.
E. Other taxes as a percentage of total taxes and social contributions payable by UK residents.

Taxation

Mr. Austin Mitchell: To ask the Chancellor of the Exchequer what his Department's estimate of the tax gap is; and what model his Department uses to estimate the gap. [175527]

Jane Kennedy: HM Revenue and Customs do not produce estimates for the total tax gap. The most recent estimate of the indirect tax gap is given in "Measuring Indirect Tax Losses—2007", published by HMRC in October 2007 and is available in the House of Commons Library.

There are currently no reliable estimates for the direct tax gap. However, HMRC published a discussion paper on the methodologies for estimating elements of the direct tax gap in October 2007. "Developing Methodologies for Measuring Direct Losses" is also available in the House of Commons Library.

Taxation: Domicil

Mr. Philip Hammond: To ask the Chancellor of the Exchequer what assumptions he made in estimating the revenue raised from modernisation of residence and domicile taxation in table B4, page 164 of the pre-Budget report, about *(a)* the number of non-domiciles who would pay the new £30,000 charge, *(b)* the gain from non-domiciles who choose to bring their tax affairs on-shore and *(c)* other factors, for (i) 2009-10 and (ii) 2010-11. [162314]

Jane Kennedy: The assumptions underpinning the proposed tax charge on remittance basis users, and the resulting figures, are set out in the consultation document 'Paying a Fairer Share: a consultation on residence and Domicile' which was published on 6 December.

Taxation: Pensioners

Mr. Waterson: To ask the Chancellor of the Exchequer how many people over the age of 65 were overtaxed by HM Revenue and Customs and the Inland Revenue in each year since 1997. [175067]

Jane Kennedy: Details of numbers of individuals who have overpaid are not available by age group.

Tobacco: Price Elasticity

Mr. Lansley: To ask the Chancellor of the Exchequer what recent assessment he has made of the price elasticity of demand for tobacco. [174769]

Angela Eagle: The latest assessment is in GES Working Paper 150 "The Demand for Tobacco Products in the UK" on the HMRC website.

Unpaid Taxes: Pensioners

Mr. Waterson: To ask the Chancellor of the Exchequer how many people over the age of 65 were issued bills for unpaid tax in each year since 1997. [175066]

Jane Kennedy: HM Revenue and Customs do not maintain details of unpaid tax for different age groups.

Voluntary Organisations: Finance

Mr. McGrady: To ask the Chancellor of the Exchequer what discussions he plans to have with his ministerial counterparts in the devolved institutions in Great Britain and Northern Ireland on funding over the next three-year comprehensive spending review period for the voluntary and community sector, with particular reference to projects to improve disadvantaged areas judged to be at risk of social exclusion. [175567]

Andy Burnham: In devolved areas of policy, it is for the devolved Administrations to determine their own priorities and policies within their block budgets announced in the 2007 comprehensive spending review.

Welfare Tax Credits: Overseas Residence

Mr. Clappison: To ask the Chancellor of the Exchequer what assessment he has made of the likelihood of tax credit claimants not telling HM Revenue and Customs when they take up residence abroad; how many tax credit claims were found to be invalid because a claimant has gone abroad in the latest period for which figures are available; what research has been carried out into the effectiveness of checks to protect against wrong or fraudulent claims by workers who have gone abroad; and if he will make a statement. [172848]

Jane Kennedy: The information requested is not available.

HM Revenue and Customs has robust strategies in place for tackling non-compliance including a range of checks throughout the life of each claim. And it continually refines and develops its processes to ensure it can tackle those who seek to claim awards to which they are not entitled, and respond quickly when new compliance risks are identified.

Written Answers to Questions

Tuesday 8 January 2008

DEFENCE

Armed Forces: Housing

Miss McIntosh: To ask the Secretary of State for Defence what recent representations he has received on the quality of accommodation for members of the armed forces in the UK. [169910]

Derek Twigg: Ministers have received a number of representations from right hon. and hon. Members and members of the public. For example, during the last six months 125 items of correspondence were received.

Defence: Ireland

Mr. Donaldson: To ask the Secretary of State for Defence what arrangements are in place to facilitate co-operation with the Irish defence forces following the decision to withdraw the UK defence attaché from the British embassy in Dublin. [174703]

Mr. Bob Ainsworth *[holding answer 17 December 2007]:* Alternative arrangements have been put in place to ensure that our relationship is maintained. The defence attaché Dublin is now the Director of Defence Diplomacy based in London; he has an important remit to fulfil the role of defence attaché on a non-residental basis. He and his team are working in close cooperation with the ambassador and his staff at the embassy. The Irish defence forces were consulted before these arrangements were put in place and are content with how the defence relationship is now being handled.

Departmental ICT

Mr. Gray: To ask the Secretary of State for Defence what his Department's original estimate was of the overall projected cost of the Defence Information Infrastructure; what his current estimate is of the overall projected cost; and if he will make a statement. [176095]

Derek Twigg: The Defence Information Infrastructure Programme is being delivered incrementally; the current approved costs for the on-contract Increments 1 and 2a (which support the Fixed environment) and 2b (which supports Deployed) are, rounded to the nearest £0.1 billion, £4.1 billion and £0.4 billion respectively, giving a total of £4.5 billion. This is within 3 per cent of original programme estimates at Main Gate.

Mr. Gray: To ask the Secretary of State for Defence what savings the Defence Information Infrastructure made in each of the last three years; and if he will make a statement. [176096]

Derek Twigg: The Defence Information Infrastructure Programme has delivered the £170 million efficiency savings projected at the Main Gate approval point for its first three years, comprising £40 million in financial year 2005-06; £80 million in financial year 2006-07 and £50 million projected in financial year 2007-08.

Departmental Recycling

Mr. Hayes: To ask the Secretary of State for Defence how much and what proportion of its waste his Department recycled in each of the last five years. [174421]

Derek Twigg: I refer the hon. Member to the answer I gave him on 18 December 2007, *Official Report*, column 1457W.

United Kingdom Hydrographic Office

Nick Harvey: To ask the Secretary of State for Defence why the his Department's review of the United Kingdom Hydrographic Office does not incorporate any of the recommendations made in the 2006 Office of Fair Trading report—The Commercial Use of Public Sector Information. [176700]

Derek Twigg: The Government published a response to the Office of Fair Trade report, Commercial Use of Public Sector Information, in June 2007. The recommendation for the United Kingdom Hydrographic Office to remain an Executive Agency financed through a Trading Fund took the response by Government fully into account.

United Kingdom Hydrographic Office: Standards

Nick Harvey: To ask the Secretary of State for Defence for what reason the decision was made to complete and publish his Department's review of the United Kingdom Hydrographic Office before the Government-commissioned review of Trading Funds, currently being carried out by Cambridge University, had been completed. [176699]

Derek Twigg: The conclusions of the United Kingdom Hydrographic Office structural and ownership options review have a direct impact on staff and international allies. For this reason the conclusions were announced at the earliest opportunity. The conclusion to remain a Trading Fund was not dependent on the outcome of policy considerations in pricing policy for public information.

SCOTLAND

Departmental Redundancies

Mr. Hoban: To ask the Secretary of State for Scotland what the cost was of redundancies in his Department in the 12 months preceding *(a)* 30 June 2004, *(b)* 30 June 2005 and *(c)* 30 June 2006. [175479]

David Cairns: All the staff in the Scotland Office are on loan from other Government Departments and redundancy issues are a matter for the parent Departments.

Regulation

Mrs. May: To ask the Secretary of State for Scotland for which regulators and inspectorates his Department has had responsibility in each year since 1997; what the budget was of each such body in each year; and what the cost to the public purse was of any restructuring of each such body in each year. [175305]

David Cairns: The Scotland Office was established on 1 July 1999 and is not responsible for any regulators and inspectorates.

WOMEN AND EQUALITY

Corporate Hospitality

David Simpson: To ask the Minister for Women and Equality on how many occasions she has accepted corporate hospitality in the last 12 months. [171313]

Barbara Follett: Ministers are required to notify their permanent secretary and it should be declared in the Register of Members' or Peers' Interests. Registration of hospitality would normally be required for hospitality over £600 in value for the Commons and £1,000 for the Lords. No notifications have been required since the Deputy Minister for Women and Equality took up her post.

INTERNATIONAL DEVELOPMENT

Basra Development Commission

Mr. Hague: To ask the Secretary of State for International Development (1) what development projects have been identified for funding by the Basra Development Commission; and if he will make a statement; [174171]

(2) how many officials from his Department are seconded to the Basra Development Commission; where these officials are based; and how much has been spent by his Department on the Commission. [174172]

Mr. Douglas Alexander: The Basra Development Commission (BDC) has not identified any development projects. So far one Commissioner has been appointed (Michael Wareing, international CEO of KPMG) and the Government of Iraq and Basra Provincial Council (BPC) are expected to appoint further Commissioners in the coming weeks. Moreover, the Commission's role will be to provide guidance and advice on economic issues, not to identify development projects.

No DFID officials have been seconded to the BDC. The Commission is expected to consist of several Commissioners and a small Secretariat. DFID has not allocated any funds specifically for expenditure on the BDC. Some logistical support for the Commission is being provided through existing DFID programmes for Basra, but no financial assistance.

Departmental Manpower

Tom Brake: To ask the Secretary of State for International Development how many and what proportion of posts in his Department have been recategorised from back office to frontline posts as classified by the Gershon efficiency review in each year since 2004. [172257]

Mr. Douglas Alexander: The Department for International Development (DFID) is committed to achieving work force reductions of 297 posts by the end of 2007-08. This is a net target and no posts have been reclassified under this initiative.

Sudan: Overseas Aid

Mr. Vara: To ask the Secretary of State for International Development how much aid was given to Sudan in each of the last five years; what conditions were attached to the aid provided; and if he will make a statement. [172037]

Mr. Thomas: DFID does not give funds directly to the Government of Sudan. DFID's aid to Sudan is primarily delivered as humanitarian assistance through civil society organisations and multilateral institutions and not subject to conditionality.

As with all DFID aid, however, monitoring arrangements are in place to ensure that it is spent as intended and achieves its objectives. NGO and UN partners monitor humanitarian assistance on our behalf to ensure it reached beneficiaries.

Information on UK aid to Sudan is available in the DFID publication "Statistics on International Development 2007". This publication is available online at www.dfid.gov.uk. Relevant figures are reproduced in the following tables.

Table 1: UK total bilateral gross public expenditure on development 2002-03 to 2006-07

	Sudan (£000)
2002-03	19,222
2003-04	24,663
2004-05	83,964
2005-06	117,114
2006-07	109,917

Table 2: Imputed UK share of multilateral official development assistance (ODA) 2001-05

	Sudan (£000)
2001	3,020
2002	2,650
2003	20,032
2004	6,892
2005	18,343

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Coal Fired Power Stations: Carbon Sequestration

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what representations he has received from industry on the *(a)* costs and *(b)* expected dates of retrofitting carbon capture and storage to new build coal fired power stations. [174685]

Malcolm Wicks: The Government have undertaken two formal consultations with industry on these matters. These are the 2005 Carbon Abatement Technology (CAT) Strategy and the 2006 HMT consultation on the barriers to CCS, the responses of which can be found on the HMT website:

http://www.hm-treasury.gov.uk./media/7/3/carbon_2_dr_freund.02.pdf

In addition, the Department for Business, Enterprise and Regulatory Reform has also held informal consultations on this matter with industry leading up to, and following, the launch on 19 November 2007 of the UK's CCS demonstration competition.

CULTURE, MEDIA AND SPORT

Alcoholic Drinks: Advertising

Mr. Lancaster: To ask the Secretary of State for Culture, Media and Sport if he will take steps to prohibit the advertising of alcohol in the cinema before films with a lower than 18 certificate. [176845]

Margaret Hodge: The Government take the issue of alcohol abuse among children and young people very seriously and as part of our national alcohol strategy, "Safe. Sensible. Social." we are reviewing the evidence on the relationship between alcohol price, promotion and harm.

Advertising regulations must be robust and based on best evidence. If new evidence emerged which clearly highlighted problems in relation to consumer harm caused by alcohol advertising, then the regulators would need to consider this fully and take appropriate action.

Climate Change

Rob Marris: To ask the Secretary of State for Culture, Media and Sport what steps his Department *(a)* has taken and *(b)* intends to take by (i) 2012 and (ii) 2020 in relation to adaptation to the effects of climate change as they affect his departmental responsibilities; and if he will make a statement. [166424]

Margaret Hodge *[holding answer 6 December 2007]:* My Department is carrying out a project to identify potential climate change impacts on our sectors. We started this work last June, in advance of the Climate Change Bill. We recognised that over the longer-term climate change may impose significant costs and challenges for the preservation of the country's historic environment, the design of new buildings and much of the sport and leisure infrastructure, such as public parks and playing fields. We are working closely with our sponsored bodies to explore mitigation and adaptation practices. Our findings will inform the targets for our next Sustainable Development Action Plan and our future climate change policy.

In connection with the 2012 Olympic Games and their legacy, the London 2012 Sustainability Plan—Towards a One Planet 2012—launched on 26 November, includes commitments that new permanent venues in the Olympic Park will respond to climate change challenges. These commitments also apply to the new parkland and will influence the development of the whole site.

Digital Switchover Help Scheme

Mr. Pickles: To ask the Secretary of State for Culture, Media and Sport what funding will be provided to local authorities to cover the cost of digital switchover of communal TV systems in local authority-owned properties. [176715]

James Purnell: Digital television services were first introduced in 1998. Since then local authorities with housing stock as well as other social and private sector landlords, have been taking action to provide residents with access to these services by ensuring that communal television systems are capable of relaying digital television services. No additional funding has been, or will be, provided to local authorities for the costs of modernising communal televisions systems.

Flags

Mr. Spellar: To ask the Secretary of State for Culture, Media and Sport when he expects to announce the results of the consultation on the rules on flying the Union Flag on public buildings. [176153]

Margaret Hodge: The Department for Culture, Media and Sport plans to publish the summary of responses to the consultation shortly and the Government response will follow.

Opinion Leader Research

Mrs. May: To ask the Secretary of State for Culture, Media and Sport pursuant to the written ministerial statement of 18 December 2007, *Official Report*, column 105WS, on the correction to written parliamentary Question 16520, what *(a)* discussions and *(b)* meetings his Department had with (i) the Central Office of Information and (ii) Opinion Leader Research while preparing (A) the answer to Question 165260 and (B) the written ministerial statement. [176953]

Margaret Hodge: An official from my Department had a telephone conversation with an official from the Central Office of Information (COI). The purpose was to confirm the facts given in the corrected answer and written statement. There were no meetings. There has been no contact with Opinion Leader Research.

S4C

Mr. Spellar: To ask the Secretary of State for Culture, Media and Sport if he will consider transferring responsibility for S4C to the Welsh Executive. [176149]

James Purnell: Broadcasting in the United Kingdom is a reserved matter and the Government currently have no plans to transfer responsibility for S4C to the Welsh Executive.

Television

Mrs. May: To ask the Secretary of State for Culture, Media and Sport (1) what criteria were used by the Central Office of Information to choose Opinion Leader Research to produce the qualitative research project on the BBC Trust and the television licence fee in December 2005; [176951]

(2) what the tendering process was for the qualitative research project on the BBC Trust and the television licence fee, produced by Opinion Leader Research in December 2005. [176952]

Margaret Hodge: The Department used the expertise of the Central Office of Information and its well established roster system to allocate the project.

Opinion Leader Research was selected for this project by the Central Office of Information from its roster as the most appropriate agency available to conduct this research, taking into account its previous experience, expertise, and most importantly, its capacity and availability for a project which needed to be completed within a short timescale.

The Central Office of Information sets up framework agreements with companies in a manner fully compliant with the procurement rules of the European Union. The framework agreements are advertised in the Official Journal of the European Journal and are refreshed on a regular basis.

Suppliers are appointed to the frameworks on the basis of their expertise, capability and value for money.

Tourism

Mr. Jamie Reed: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the number of *(a)* overseas and *(b)* UK tourists visiting (i) Cumbria and (ii) Copeland in the last five years. [175611]

Margaret Hodge: The following tables show (i) the number of overseas visits to Cumbria and (ii) the number of domestic overnight trips to the North West region for the latest years for which data are available.

Information on visits at constituency level by foreign and domestic tourists is not available.

Overseas Visits: Cumbria

	Thousand
2002	180
2003	199
2004	203
2005	210
2006	226

Source:
International Passenger Survey (ONS).

Domestic Overnight Trips by UK Residents[1]

	Million
2002	14.5
2003	16.0
2004	12.9
2005	15.3
2006	13.5

[1] The methodology for the UKTS changed in 2005 meaning that comparisons with previous years should be treated with caution. This change occurred as a result of concerns with the quality of 2004 data, which is thought to be an under-representation of the true position.

Source:
UK Tourism Survey (National Tourist Boards).

Mr. Jamie Reed: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the average length of stay by *(a)* domestic tourists and *(b)* foreign tourists visiting Copeland over the last five years. [175933]

Margaret Hodge: The tables show the average length of stay by (i) domestic overnight tourists in the North West region and (ii) overseas visitors in Cumbria for the last five years for which data are available.

Information at constituency level is not available.

Average number of nights spent by domestic tourists[1] *(2002-06)*

North West	*Average*
2002	2.7
2003	2.8
2004	3.0
2005	2.9
2006	2.8

[1] The methodology for the UKTS changed in 2005 meaning that comparisons with previous years should be treated with caution. This change occurred as a result of concerns with the quality of 2004 data, which is thought to be an under-representation of the true position.

International Passenger Survey (ONS)

Mr. Jamie Reed: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the proportion of the gross value added of Copeland that has been generated by domestic visitors over the last five years. [175934]

Margaret Hodge: Information on the proportion of the gross value added of Copeland generated by domestic visitors is not available.

However, the English regions "First Steps Tourism Satellite Account" report (August 2005) estimated that the contribution of tourism to the North West was £2.7 billion (2.75 per cent. of gross value added) in 2003.

Mr. Jamie Reed: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the number of visitor beds that were available in Copeland constituency in each of the last five years. [176727]

Margaret Hodge: Information on the latest estimates of bed spaces available in Copeland is shown in the table. Consistent figures for previous years are unavailable due to improvements to the method of recording accommodation stock that were implemented by Cumbria Tourism following a review in 2006.

Number of bed spaces in Copeland (April 2007)

Accommodation type	*Number of bed spaces*
Serviced accommodation	2,090
Non-serviced accommodation	4,872

Source:
Cumbria Tourism DMS files, April 2007

Mr. Jamie Reed: To ask the Secretary of State for Culture, Media and Sport what estimate his Department has made of the number of people in Copeland constituency who were employed in the tourism sector in each of the last five years. [176728]

Margaret Hodge: Information on employment in the tourism sector in Copeland is shown in the table.

Employment in the tourism-related sector[1] (2002-06)

Copeland	*Number*
2002	1,700
2003	1,800
2004	1,900
2005	2,100
2006	2,100

[1] Tourism-related jobs include employment in hotels, camping sites, restaurants, bars, activities of travel agencies, libraries, archives, museums, sporting activities and other recreational activities.

Annual Business Inquiry employee analysis, ONS

Mr. Jamie Reed: To ask the Secretary of State for Culture, Media and Sport what estimate his Department has made of the number of people who were involved in work-based training in the tourism sector in Copeland constituency in each of the last five years. [176729]

Margaret Hodge: The Learning and Skills Council (LSC) North West has provided data for each of the last three years on the number of people in work-based learning in Travel and Tourism and in Hospitality and Catering in Copeland, Cumbria and the North West. The LSC has also provided data on the number undertaking learning through Train to Gain since it was rolled out nationally in 2006. The LSC also holds data on the number of people in these areas undertaking learning in further education.

In 2004-05, 25 people were involved in work-based learning in Travel and Tourism and in Hospitality and Catering in Copeland, 259 people in Cumbria and 3,042 in the North West; in 2005-06, 17 people were involved in Copeland, 230 in Cumbria and 2,544 in the North West; and in 2006-07, 24 people were involved in Copeland, 238 in Cumbria and 2,254 in the North West. In 2006-07, seven people also started learning through Train to Gain in Copeland, 97 in Cumbria and 2,271 in the North West.

My Department expects data for 2002-03 and 2003-04 to become available shortly and I will write to the hon. Member separately with this information.

Mr. Jamie Reed: To ask the Secretary of State for Culture, Media and Sport whether his Department has made an estimate of the average spend per head of domestic tourists visiting Copeland in the last five years. [176758]

Margaret Hodge: The table shows average expenditure per head of domestic overnight tourists visiting the North West.

Information at constituency level is not available.

Average expenditure[1] of domestic overnight tourists[2] (2002-06)

	North West
2002	160
2003	163
2004	181
2005	167
2006	170

[1] Expenditure includes items such as package holidays, accommodation, travel to and from the destination and during the trip, services and advice, buying clothes, eating and drinking out, shopping, entertainment and other items relating to the trip.

[2] The methodology for the UKTS changed in 2005 meaning that comparisons with previous years should be treated with caution. This change occurred as a result of concerns with the quality of 2004 data, which is thought to be an under-representation of the true position.

International Passenger Survey (ONS).

TRANSPORT

Cars: Safety

Mr. Goodwill: To ask the Secretary of State for Transport what representations she has received on faulty bonnet catches on Renault Clios; and what discussions *(a)* she and *(b)* her officials have had with the manufacturers on a possible product recall. [175956]

Jim Fitzpatrick *[holding answer 7 January 2008]:* The Vehicle and Operator Services Agency (VOSA) is responsible for managing vehicle safety recalls in GB. VOSA has received two formal vehicle safety defect reports from customers alleging faulty bonnet catches on Renault Clios. VOSA does not record the number of customer contacts asking for information or advice but estimates that its Vehicle Safety Branch has handled 50 such enquiries in the last six months.

The Secretary of State has not met with Renault on this matter. VOSA does not keep a tally of the number

of discussions it has with a manufacturer. Officials at VOSA have worked closely with Renault since the bonnet opening incidents were first reported and I can confirm they have had numerous face-to-face meetings and telephone contacts with Renault UK and Renault Headquarters in France on this matter during the last two years.

Christmas

Malcolm Bruce: To ask the Secretary of State for Transport what her Department's policy is on the selection of *(a)* real and *(b)* artificial Christmas trees for her Department's festive decorations; and how real trees are disposed of. [173510]

Jim Fitzpatrick: The Department for Transport has no specific policy on this matter and both real and artificial Christmas trees are used on departmental premises. Real trees are purchased in accordance with Government procurement rules and are disposed of via recycling. Artificial trees are not disposed of and continue to be re-used every year.

Dartford Tunnel: Fees and Charges

Bob Spink: To ask the Secretary of State for Transport if she will make a statement on the Dartford Crossing charging regime for people in *(a)* Castle Point and *(b)* South Essex. [176035]

Ms Rosie Winterton: In April 2007 the Department announced that it would develop a local discount scheme for the Dartford-Thurrock River Crossing for consultation later in the year. A consultation on a discount scheme for local residents will be announced shortly.

Driving: Disabled

Mr. Jamie Reed: To ask the Secretary of State for Transport how many Blue Badge disabled drivers permits have been issued in Copeland over the last five years. [176642]

Ms Rosie Winterton: 7,165 disabled drivers permits (Blue Badges) were issued in Copeland in the five year period between 1 January 2003 and 31 December 2007.

Members: Correspondence

Mr. Harper: To ask the Secretary of State for Transport how many letters her Department received from hon. Members and Peers in each session of Parliament since 1997. [174943]

Jim Fitzpatrick: The Cabinet Office, on an annual basis, publishes a report to Parliament on the performance of departments in replying to Members/ Peers correspondence. Information relating to 2007 will be published as soon as it has been collated. The report for 2006 was published on 28 March 2007, *Official Report*, columns 101-04WS. Reports for earlier years are available in the Library of the House.

Metronet

Andrew Rosindell: To ask the Secretary of State for Transport which companies made up Metronet in the period before it went into administration. [176785]

Ms Rosie Winterton: Before going into administration, Metronet Rail BCV Ltd. And Metronet Rail SSL Ltd. were owned by the same consortium of five shareholders, each shareholder holding 20 per cent. of each company. These five shareholders are:

Bombardier
Balfour Beatty
Atkins
EDF Energy
Thames Water

Minimum Wage

Jon Trickett: To ask the Secretary of State for Transport how many London-based staff are employed by her Department on the national minimum wage. [175973]

Jim Fitzpatrick: The Department does not have any London based staff employed on the national minimum wage.

Motorways

Andrew Rosindell: To ask the Secretary of State for Transport what consultation will be undertaken with *(a)* local residents and *(b)* those with business premises between junctions 26 to 30 of the M25 motorway. [176783]

Mr. Tom Harris: A series of five public exhibitions on the proposals for the widening of the M25 from Junction 27-30 were held during November and December 2007 to support the publication of the Environmental Statement. The comment period ends on 7 February 2008.

Similar exhibitions will be held for the section from Junction 26-27 as part of the consultation for the M25 Junction 23-27 widening. It is currently proposed that the Environmental Statement for this section will be published in 2011-12.

Public Transport: Concessions

Tim Loughton: To ask the Secretary of State for Transport when she expects the Minister of State to reply to the letter of 21 November requesting a meeting with representatives from Worthing Borough Council to discuss the effect of the concessionary fares scheme in Worthing. [176804]

Ms Rosie Winterton: A reply has been sent to the hon. Member today.

Roads

Andrew Rosindell: To ask the Secretary of State for Transport when the M25 near Romford will be widened. [176784]

Mr. Tom Harris: The M25 near Romford will be improved as part of the M25 Junction 27-30 widening. Subject to the satisfactory completion of the necessary statutory processes and the availability of funding, the current proposed start of works for this section of widening is 2009-10.

Andrew Rosindell: To ask the Secretary of State for Transport when the M25 will be widened throughout its length. [176787]

Mr. Tom Harris: The current proposals for widening the M25 relate to the following sections:

Scheme	*Proposed start of works*	*Expected completion*
Junctions 1b-3	2008	2009
Junctions 5-7	2012	2015
Junctions 16-23	2009	2012
Junctions 23-27	2012	2015
Junctions 27-30	2009-10	2012

Andrew Rosindell: To ask the Secretary of State for Transport what plans there are to improve the M25 near the junction 27 (Romford) turn off. [176788]

Mr. Tom Harris: The M25 near Junction 27 will be improved as part of the Junction 27-30 widening. Subject to the satisfactory completion of the necessary statutory processes and availability of funding, start of works are planned for 2009-10.

Roads: Accidents

Mr. Jamie Reed: To ask the Secretary of State for Transport what estimate she has made of the percentage of road accidents within the Copeland area which were caused by drivers using hand-held mobile telephones in the last five years. [176644]

Jim Fitzpatrick: Information on the percentage of reported personal injury road accidents within Great Britain that had 'Driver using mobile phone' recorded as a contributory factor can be found in table 4b of the "Contributory factors to road accidents" article in "Road Casualties Great Britain" at:

http://www.dft.gov.uk/162259/162469/221412/221549/227755/rcgb2006v1.pdf

These data are not available at local authority level and are not available prior to 2005. The contributory factor 'Driver using mobile phone' includes 'hand held' and 'hands free' phones.

Roads: Repairs and Maintenance

Mr. Holloway: To ask the Secretary of State for Transport what the planned cost is of the road and road bridge due to replace the underpass connecting Down's Road and Hog Lane on the A2 trunk road in Gravesham. [176776]

Mr. Tom Harris: The estimated cost of the new Downs Road including the new bridge over the realigned section of A2 in Gravesham is £1.1 million.

Roads: Safety

Shona McIsaac: To ask the Secretary of State for Transport how much Government funding was provided for road safety schemes in *(a)* North East Lincolnshire and *(b)* North Lincolnshire in each year since 2001-02. [176864]

Ms Rosie Winterton: The Government have provided specific road safety grants of £372,868 for North East Lincolnshire council and £427,793 for North Lincolnshire council in 2007-08. The grants replaced a scheme, in operation from 2000-01 to 2006-07, for the local use of income generated by safety camera partnerships.

Central Government have provided financial support for local authorities to invest in road safety within the integrated transport block, which can be used for a wide range of investment in transport according to local authorities' policies and priorities. Typically local authorities spend about one fifth of their integrated transport block on road safety projects. The figures for North East Lincolnshire and North Lincolnshire are shown in table 1.

Table 1: integrated transport block

£ million

	N.E. Lincolnshire	*N. Lincolnshire*
2001-02	2.1	1.2
2002-03	4.7	2.2
2003-04	3.6	2.9
2004-05	3.22	3.156
2005-06	2.0	2.7
2006-07	2.185	1.67
2007-08	2.231	1.795

In addition local authorities receive support for road safety services via unhypothecated formula grant (including revenue support grant).

Written Questions

Susan Kramer: To ask the Secretary of State for Transport when she will answer Questions 169010 to 169015, tabled by the hon. Member for Richmond Park on 23 November 2007, on personal information. [175778]

Jim Fitzpatrick: I replied to the hon. Member on 17 December 2007, *Official Report*, columns 1169-70W.

COMMUNITIES AND LOCAL GOVERNMENT

A12: Fires

Mr. Jenkin: To ask the Secretary of State for Communities and Local Government when her Department received a request for the penetration by high velocity round of the oxyacetylene cylinder in the fire incident on the A12 at Eight Ash Green on 5 October; for what reasons the request was refused; and if she will make a statement. [175987]

Mr. Dhanda: I refer the hon. Member to the answer given on 7 January 2008 (PQ175549).

Boyhood to Manhood Foundation

Keith Vaz: To ask the Secretary of State for Communities and Local Government (1) when she expects to meet representatives from the Boyhood to Manhood Foundation; [173470]

(2) what discussions her Department has had with the Boyhood to Manhood Foundation in the last 12 months. [173471]

Mr. Dhanda: Officials from the Department have had several discussions with the Boyhood to Manhood Foundation and have also visited the foundation to observe and participate in frontline service delivery.

Community Relations: Religion

Andrew Rosindell: To ask the Secretary of State for Communities and Local Government what meetings her officials have had on combating violent extremism in Britain since 2005. [175633]

Mr. Dhanda: Communities and Local Government took on responsibility for the community-led response to violent extremism as part of the machinery of Government changes in May 2006. Since then, officials have met regularly with partners across central and local government and internationally, and a wide range of community stakeholders.

Council Tax: Empty Property

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what plans she has to reduce the council tax discount on empty homes. [176459]

John Healey: I refer the hon. Member to the answer I gave on 17 December 2007, *Official Report*, column 1132W.

Council Tax: Greater London

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the Band D council tax was on *(a)* the fire/police precept and *(b)* the GLA precept in London in each year since 1997-98. [176164]

John Healey: I refer the hon. Member to the answer I gave on 11 December 2007, *Official Report*, column 539W.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the change was in Band D council tax in each London borough in each year since 1997-98. [176745]

John Healey: Details of the percentage change in Band D council tax in *(a)* London and *(b)* each London borough in each year since 1997-98 are available on the Communities and Local Government website at:

http://www.local.odpm.gov.uk/finance/ctax/data/ctaxtimes.xls

Council Tax: Lee Valley

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether council tax precepts issued by the Lee Valley Regional Park Authority are subject to the capping regime. [176189]

John Healey: I refer the hon. Member to the answer I gave on 11 December 2007, *Official Report*, column 540W.

Departmental Data Protection

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what exchanges of personal data have taken place between her Department and local authorities in the last 12 months; and what physical or electronic media were used in each such exchange. [174546]

Mr. Dhanda: Communities and Local Government holds some anonymous and aggregated personal data relating to particular policy areas which is collected by local authorities. These are used to support the monitoring implementation and success of these policies. The data consist of information about individuals' personal attributes and circumstances and reasons for service provision but the individual cannot be identified.

These data are transferred to the Department either using a secure portal or via encrypted discs which are signed for on delivery. Like other Departments, we are currently carrying out a review of arrangements in relation to the sharing and holding of personal data and these specific arrangements will be reviewed as part of that process.

Departmental Standards

Mr. Pickles: To ask the Secretary of State for Communities and Local Government when the strategic objectives for her Department will be published, further to the publication of the Public Service Agreement delivery agreement for her Department. [176176]

Mr. Dhanda: The Department's Departmental Strategic Objectives (DSOS) were published as part of the CSR07 settlement announced on 9 October 2007. They are available via the CLG external website at:

http://www.communities.gov.uk/corporate/about/howwework/publicserviceagreements/

Empty Property: Fires

John McDonnell: To ask the Secretary of State for Communities and Local Government how many unoccupied domestic properties in England and Wales were damaged or affected by fire in each of the last five years for which figures are available. [176903]

Mr. Dhanda *[holding answer 7 January 2008]:* The information requested is in the following table.

Fires in unoccupied dwellings, England and Wales, 2002-06

	Number
2002	3,031
2003	2,827
2004	2,286
2005	1,592
2006	1,424

Note:
Data for 2006 are provisional. Excludes incidents not recorded during periods of industrial action in 2002 and 03.

EU Grants and Loans

Mr. Heathcoat-Amory: To ask the Secretary of State for Communities and Local Government how many people employed in her Department work on administering EU structural funds; and what the cost of such staff was in 2006-07. [176044]

Mr. Dhanda: Communities and Local Government employed a division of 28 people in 2006-07 to administer England's European Regional Development Fund (ERDF) grant programmes. The staff cost for that year was £1.2 million.

The division has been reorganised during 2007-08 and the number of staff employed is currently being reduced.

Fire Services

Mr. Dismore: To ask the Secretary of State for Communities and Local Government how many people were *(a)* on duty and *(b)* recalled in each fire and rescue service in the 72 hour period commencing 00:00 on 20 July 2007. [176808]

Mr. Dhanda: The information requested is not held centrally and could be provided only at disproportionate cost.

Fire Services: Contracts

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what minimum contractual periods are contained within the contracts for the *(a)* FireControl and *(b)* Firelink projects; and whether the contracts allow for early termination of the agreements. [176602]

Mr. Dhanda: I refer the hon. Member to the answer given on 12 December 2007, *Official Report*, columns 683-84W.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the timetable is for contracts to be finalised for the *(a)* FireControl and *(b)* Firelink projects. [176609]

Mr. Dhanda: I refer the hon. Member to the answer given on 12 December 2007, *Official Report*, column 683W.

Fire Services: Risk Assessment

John McDonnell: To ask the Secretary of State for Communities and Local Government how many project risks are listed for the *(a)* FireLink and *(b)* FireControl project; how many of these risks are rated as high or above; and what the risks rated as high or above are. [175564]

Mr. Dhanda *[holding answer 7 January 2008]:* There are 76 project risks on the Firelink Risk Register, of which some 20 per cent. are rated high or above. These risks are actively managed and mitigated in order to reduce their impact ratings. They fall into the following broad areas:

Contractor performance;

User acceptance;

Technical integration with other projects;

The ability of emergency services to develop joint procedures to maximise the potential of the network;

Sufficiency of network capacity;

Operational continuity of legacy systems until rollout of the whole programme is complete, and

continuity in consultancy support and capabilities.

There are 130 project risks on the FiReControl Risk Register, of which some 6 per cent. are rated high or above. These risks are actively managed and mitigated in order to reduce their impact ratings. They fall into the following broad areas:

Local/regional resource capacity/capability

Strategic change/impacts

Technical integration with other projects

Contractor performance

User acceptance.

Fires: Chemicals

Mr. Jenkin: To ask the Secretary of State for Communities and Local Government when her Department decided to consider whether to amend its guidance on the handling of fires involving oxyacetylene; what consultants have been employed on the matter; and when revised guidance will be published. [175986]

Mr. Dhanda: I refer the hon. Member to the answer given today (PQ175548).

Mr. Jenkin: To ask the Secretary of State for Communities and Local Government whether she plans to amend guidance to fire authorities on the handling of fires involving oxyacetylene; and if she will make a statement. [175548]

Mr. Dhanda: There are no plans to amend the current guidance to fire authorities on the handling of fires involving acetylene.

Mr. Jenkin: To ask the Secretary of State for Communities and Local Government when her Department began recording fires involving oxyacetylene as fires of special interest; and how many such fires have been recorded. [175555]

Mr. Dhanda: Communities and Local Government started to record reported incidents involving acetylene during March 2007, 30 incidents have been recorded to date.

Mr. Jenkin: To ask the Secretary of State for Communities and Local Government what research her Department has commissioned on the most effective ways of handling fires involving oxyacetylene. [175556]

Mr. Dhanda: In February 2007, Communities and Local Government published a review of research carried out in investigating how acetylene cylinders involved in a fire are dealt with by fire services around the world and in identifying gaps in existing knowledge. This review is published on the Department's website at:

http://www.communities.gov.uk/publications/fire/safetyacetylene

Greater London Authority: Buildings

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what estimate she has made of the financial liability the public purse will bear for the cost of City Hall at the end of the 25 year lease signed by the then Secretary of State for Environment, Transport and the Regions. [176737]

Mr. Dhanda: The Government have not made any estimate of the financial liability the public purse will have for the cost of City Hall at the end of the 25 year lease. Responsibility for the City Hall lease was transferred from the Secretary of State to the Greater London Authority in 2004.

Green Belt: South East Region

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what recommendations on *(a)* review and *(b)* removal of green belt designations have been made in the panel reports on the regional spatial strategies for the *(a)* South East and *(b)* East Midlands. [174539]

Mr. Dhanda: A summary of the policies in the draft South East and East Midlands RSSs and Panel Reports relating to the reviews of green belts are as follows:

South East

Policy CC10a, states that the existing green belt in the region will be retained and supported and the opportunity should be taken to improve their land-use management and access as part of initiatives to improve urban rural fringe. If there are any cases for small scale local review, these can be pursued through LDF process.

East Midlands

The panel report into the East Midlands regional spatial strategy, published on 28 November 2007 stated that the existing green belt which currently encircles Nottingham should be recast to protect only the area between Nottingham and Derby and therefore to remove areas north, east and south of Nottingham from the green belt. In reaching this conclusion the panel took into account the purposes and objectives of green belt in PPG2 and also the pressures for growth in and around the Nottingham conurbation.

Housing: Carbon Emissions

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what records her Department keeps of the number and location of zero carbon homes. [176171]

Mr. Iain Wright: The Government do not currently keep records of individual homes built to a zero carbon standard.

However, the Government are committed to making it mandatory for all new homes to have a rating against the Code for Sustainable Homes. Once this comes into force all code certificates which are issued will be logged on a central database and will indicate where homes have achieved the zero carbon standards and the location of those homes. Access to and use of this data is subject to existing data protection safeguards.

Local Authorities: Standards

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what changes have been made to best value performance indicators in the last three years in relation to recording and measuring user satisfaction with local authorities. [176165]

John Healey: Within the set of best value performance indicators, there are currently 12 indicators that are used to measure resident and user satisfaction. There were no changes to these best value performance indicators between 2003 and 2006.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether the Electoral Commission's proposed 13 performance indicators for local authority electoral registration departments will be in addition to the new 198 performance indicators for local authorities. [176200]

John Healey: The 198 national indicators announced on 11 October will be the only ones against which central Government will require local government, working on its own or in partnership, to report. The Electoral Commission is independent of central Government and has statutory powers to set performance standards for electoral registration officers and has consulted on a number of possible indicators on electoral registration which would be in addition to the Government's 198 national indicators.

The Government are committed to reducing the performance reporting and data collection burdens faced by local authorities. We will be working with the Electoral Commission as their proposals are developed and implemented to see how the exercise of the Commission's statutory powers could best be aligned with the Government's wider aims in this respect.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the timetable is for publishing *(a)* draft and *(b)* final best value performance indicator data for each local authority for 2006-07. [176746]

John Healey: Each local authority is required to publish data on its performance against best value performance indicators (BVPIs) as part of its best value performance plan (BVPP). Outturn data for 2006-07 were included in 2007-08 BVPPs, which authorities were required to publish by 30 June 2007. BVPI data published in BVPPs are audited by the Audit Commission, which makes the final audited data available on its website. Audited data for 2006-07 were published at http://www.audit-commission.gov.uk/performance/dataprovision.asp on 11 December 2007.

Local Government Finance

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what proportion of local government revenue expenditure will be locally financed in *(a)* 2007-08 and *(b)* 2008-09. [176228]

John Healey: In 2007-08, local authorities in England have planned to finance 25 per cent. of their revenue expenditure through council tax. Data for 2008-09 are not yet available.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government which specific grants to local government will *(a)* no longer be and *(b)* remain ring fenced. [176241]

John Healey: I refer the hon. Member to the answer I gave on 18 December 2007, *Official Report*, columns 1331-32W.

The following specific revenue grants will remain ring fenced:

AIDS Support
Aiming High for Disabled Children
Animal Health and Welfare Enforcement
Basic Command Units
Bus Challenge and Kickstart
City Challenge
Contact Point[1]
Counter Terrorism
Crime Fighting Fund
Dedicated Schools Grant
Early Years: Increasing Flexibility of Entitlement for 3-4 year olds
eCommon Assessment Framework
Ethnic Minority Achievement
Extended Schools—Academic Focused Study Support
Extended Schools—Subsidy
Extended Schools—Sustainability
Initial Police Learning and Development Programme
Learning Disability Campus Closure Programme
Making Good Progress
Music Grant

Supporting People[2]
Sure Start, Early Years and Childcare
Targeted Mental Health in Schools Grant
Targeted Support for Primary and Secondary Strategy
Urban Congestion
Waste Management Pilots
Youth Opportunity Fund

[1] The Department for Children, Schools and Families aim to include Contact Point in Area Based Grant from 2010-11. Area Based Grant is not ring fenced.

[2] Communities and Local Government aim to include Supporting People programme grant in Area Based Grant from 2009-10, dependent on pilots in 2008-09 not raising serious concerns.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether councils with above-average collection rates for *(a)* council tax and *(b)* business rates receive additional revenue as a consequence. [176615]

John Healey: I refer the hon. Member to the answer I gave on 18 December 2007, *Official Report*, column 1332W.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what proportion of the £5 billion of reduction in ring-fenced and specific grants by 2010-11 will be re-allocated to *(a)* Revenue Support Grant and *(b)* Area-Based Grant. [176623]

John Healey: I refer the hon. Member to the answer I gave on 13 December 2007, *Official Report*, column 899W.

Milton Keynes Partnerships: Public Appointments

Mr. Lancaster: To ask the Secretary of State for Communities and Local Government what the *(a)* procedures and *(b)* timetable are for the appointment of the new Chairman of Milton Keynes Partnerships. [175606]

Mr. Iain Wright *[holding answer 7 January 2008]:* The new independent chairman of the Milton Keynes Partnership will be appointed on merit following fair and open competition.

Although the chairman is not one of the appointments that the Commissioner for Public Appointments regulates, the appointments procedure will follow the principles set out in the Commissioner's Code of Practice.

The timetable to recruit a successor to the current chairman, Sir Bob Reid, will commence shortly and the aim is to have a new chairman in post by June 2008.

Neighbourhood Wardens: Finance

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how many of the 210 local authorities which received central Government funding for community/neighbourhood wardens are still funding the warden schemes. [176754]

John Healey: I refer the hon. Member to the reply I gave on 12 December 2007, *Official Report*, column 685W.

Neighbourhood Wardens: Young People

Mr. Pickles: To ask the Secretary of State for Communities and Local Government (1) how much funding is being provided to local authorities to run junior neighbourhood wardens in 2007-08; [176750]

(2) what guidance has been given to local authorities on setting up junior neighbourhood wardens schemes; [176748]

(3) what police and school records children must have in order to be eligible to become a junior neighbourhood warden; [176743]

(4) what the recommended minimum age is at which an individual can become a junior neighbourhood warden. [176741]

John Healey: Junior warden schemes have developed in some areas as part of existing neighbourhood warden initiatives.

Funding for warden schemes has now been pooled within area based grants. Local authorities now have flexibility to spend these resources in whatever way they see fit to deliver their local area agreement outcomes. Information is not collected at the centre about the number and type of schemes that are being supported through area based grants.

Communities and Local Government (CLG) has not issued specific guidance on how junior warden schemes should be set up and managed, however the action plan for community empowerment, which CLG published jointly with the Local Government Association in October 2007, included a case study of the Rochdale junior warden scheme, illustrating how young people can make a positive contribution to their communities.

Opinion Leader Research

Mrs. May: To ask the Secretary of State for Communities and Local Government how many contracts were awarded by her Department to Opinion Leader Research in each year since 1997; and in respect of each what was *(a)* the title and purpose, *(b)* the cost to the public purse and *(c)* the date of (i) tender, (ii) award, (iii) operation and (iv) completion and report to the Department. [165262]

Hazel Blears: The Department's financial systems show that no contracts for projects have been entered into with Opinion Leader Research (OLR) since May 2002. Records prior to that could be recovered only at disproportionate cost.

My Department recently arranged through the Central Office of Information (COI) for OLR to organise two citizens' juries, which took place on 10 and 11 December 2007 in London and Hull. This was a joint project between the Department for Communities and Local Government, and the Department for Innovation Universities and Skills. The purpose of the citizens' juries was to explore how the provision of English for Speakers of Other Languages can be focused to reach those areas and people in the greatest need, and how it can support community cohesion. The final cost, to be shared between the two Departments, will be about £78,000. COI went out to tender on 8 November 2007. OLR was selected as the preferred contractor on 16 November and awarded the contract on 30 November. OLR is due to make a final report at the end of January 2008.

Planning Permission: Public Buildings

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what planning applications her Department has submitted on requests for planning permission on its departmental properties in the last 12 months; for what buildings; and for what purpose. [176587]

Mr. Dhanda: I refer the hon. Member to the answer given on 11 December 2007, *Official Report*, column 554W.

Public Bodies: Data Protection

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what research her Department has *(a)* undertaken and *(b)* commissioned on the development of XML Schema for the sharing of data between public authorities. [176591]

Mr. Dhanda: I refer the hon. Member to the answer given on 18 December 2007, *Official Report*, column 1342W.

Regional Government: Ministers

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether her Department is the lead department co-ordinating the work of regional Ministers. [176526]

Mr. Dhanda: The network of regional Ministers operates under the joint chairmanship of the Secretaries of State for Communities and Local Government, and Business, Enterprise and Regulatory Reform; with officials from these departments providing a secretariat. The Network has regular meetings to discuss their work.

Regional Planning and Development: Finance

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how much funding her Department has provided to each of the Regional Centres of Excellence and Regional Improvement Partnerships. [176757]

John Healey: I refer the hon. Member to the answer I gave on 17 December 2007, *Official Report*, column 1158W.

Regional Planning and Development: Standards

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how many *(a)* indicators and *(b)* targets will be contained within each local area agreement; and whether these will be in addition to national indicators. [176192]

John Healey: A local area agreement can include any number of targets. A maximum of 35 targets will be negotiated with Government and become 'designated' by the Secretary of State. Designated targets will be subject to separate reporting requirements and different procedures should they need to be revised during the life of the LAA. The national indicators are not themselves included as part of the local area agreement, but each designated target will be set against one of the 198 national indicators.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agricultural Products: Exports

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what guidance is available to farmers on the rules on the export of agricultural products to *(a)* EU and *(b)* non-EU countries; and if he will make a statement; [174438]

(2) what guidance is available to farmers on the rules on the movement of livestock in restricted areas; and if he will make a statement. [174439]

Jonathan Shaw: A large amount of guidance for farmers on the export of agricultural products and livestock movements is available on the DEFRA website and from local animal health divisional offices.

Agriculture: Subsidies

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what effect there was on the level of expenditure on single farm payments made by the Rural Payments Agency in 2006-07 from the resizing of fields. [173857]

Jonathan Shaw: Payments are determined by the entitlements held by a customer which were based on the land area established and claimed in 2005. Therefore any increase in the size of a field would not change the expenditure unless the customer had sufficient entitlements to activate any claim on the increased area. During 2005 and 2006 the Rural Land Register was subject to a process of validation which in some cases resulted in field sizes changing. Where this impacted on individual claims, a process of reworking is under way, designed, where appropriate, to correct the land area and the number of entitlements established. Increase in land area may result in individual farmers being able to activate more entitlements. Effects on the level of expenditure of single payment scheme payments in 2006-07 cannot be determined until the evaluation of reworked cases, currently under way, is completed.

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with the Rural Payments Agency on making faster single farm payments to farmers who have been affected by the recent flooding; and if he will make a statement. [174275]

Jonathan Shaw: My right hon. Friend the Secretary of State and my noble and right hon. Friend Lord Rooker have regular meetings the Rural Payments Agency (RPA) chief executive, during which they confirmed then their support for the significant efforts being made by the Agency, in relation to the 2007 Single Payment Scheme, to make more full payments, to more farmers, earlier than under the 2006 scheme. The announcement by RPA on 10 December, that live testing of the payments system was under way, is an encouraging sign that the Agency is on track to meet its formal targets of making 75 per cent. of full 2007 scheme payments, by value, by the end of March and 90 per cent. by end of May 2008.

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how the amounts paid to farmers under the single farm payment scheme have been calculated; and if he will make a statement. [174276]

Jonathan Shaw: The annual payments made to English farmers under the Single Payment Scheme (SPS) are based on the total value of the entitlements on which a valid claim is made, with adjustments then made to reflect the application of reductions such as modulation and penalties for breaches of eligibility or cross-compliance rules.

The number of entitlements allocated to English farmers is in turn based on the number of eligible hectares that they declared on their application form under the 2005 SPS. The value of those entitlements under the 2005 scheme was calculated in two parts. First a flat rate per entitlement was established by dividing the total number of entitlements created in each English area into a sum representing 10 per cent. of the available funds. The remaining 90 per cent. of the available funds was then used to fund an individual reference amount for each farmer based on historic subsidy receipts. The value of each entitlement will be adjusted each year until 2012 to allocate a higher percentage of available funds to calculate the flat rate value. By 2012, the entire value of each entitlement will be based on a common flat rate amount in each area. Farmers may use the '2007 Entitlements Calculator' on the RPA website (www.rpa.gov.uk) to assist in the calculation of an approximate value of their entitlements for the 2007 scheme.

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how much the Government have paid in fines to the EU as a result of late payments made under the single farm payment scheme for 2005; what fines he expects the Government to have to make for late payments arising from 2006; and if he will make a statement. [174277]

Jonathan Shaw: DEFRA has included accruals totalling £63 million in its 2006-07 resource accounts in respect of late payment penalties imposed for SPS 2005, which has now been paid. A further £7 million was noted as a contingent liability in those resource accounts but no further amounts have been paid.

There will be no late payment penalties for SPS2006 as the Rural Payments Agency met the EC target of making 96.154 per cent. of payments by 30 June 2007.

Richard Younger-Ross: To ask the Secretary of State for Environment, Food and Rural Affairs what recent progress the Rural Payments Agency (RPA) has made in administering the single farm payment scheme (SPS); and whether the RPA has cleared all the claims that needed to be revisited for SPS 2005 and 2006 where errors had been generated. [174287]

Jonathan Shaw: I refer the hon. Member to the statement made by my right hon. Friend the Secretary of State on 18 December 2007, *Official Report*, column 107WS.

Animal Welfare Act 2006

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* convictions and *(b)* prosecutions there have been under the Animal Welfare Act 2006, broken down by offence; and if he will make a statement. [174483]

Jonathan Shaw: The Animal Welfare Act 2006 came into force in Wales on 27 March and in England on 6 April 2007. The figures for convictions and prosecutions for offences under the Act will not be available until the latter half of 2008.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects to bring forward secondary legislation under the Animal Welfare Act 2006 on *(a)* pet fairs, *(b)* wild animals in circuses, *(c)* cats, *(d)* dogs, *(e)* pet shops, *(f)* game birds, *(g)* animal boarding, *(h)* tethering of horses, *(i)* riding schools, *(j)* livery yards, *(k)* animal sanctuaries and *(l)* performing animals; and if he will make a statement. [174484]

Jonathan Shaw: During the Animal Welfare Act's passage through Parliament it became clear that hon. Members and peers wanted to give priority to a number of issues on which a commitment had been given for secondary legislation and/or codes of practice. These were wild animal acts in circuses, the welfare of racing greyhounds, pet fairs, the keeping of gamebirds, cats and dogs and non-human primates as pets. We anticipate introducing regulations and codes for these during the next three years, although following the publication of the recent report into the use of wild animal acts in circuses, it is necessary to give further thought as to how this matter is taken forward.

The Government remain committed to regulating animal boarding, livery yards, animal sanctuaries and performing animals as soon as possible subject to available resources.

I also refer the hon. Member to the reply I gave him on 29 November 2007, *Official Report*, column 610W.

Beef

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of the UK's beef consumption was sourced from the UK in the most recent period for which figures are available; and if he will make a statement. [173976]

Jonathan Shaw: In 2006 UK home-fed production of beef and veal accounted for 81 per cent. of the total new supply of beef and veal for use in the UK.

Birds: Imports

Mr. Morley: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effectiveness of the ban on wild bird imports on the illegal trade in wild birds. [172694]

Jonathan Shaw: There is currently a lack of information to form an assessment of the effect of the ban on illegal trade and the livelihoods of those trappers involved in developing countries. DEFRA has let a research contract to address this, which is expected to report early in 2008.

Bluetongue Disease: Disease Control

Lembit Öpik: To ask the Secretary of State for Environment, Food and Rural Affairs what measures are in place to prevent the insect-related spread of bluetongue. [174252]

Jonathan Shaw: DEFRA has been working in close partnership with the industry and stakeholders to develop the Bluetongue Control Strategy and has jointly been involved in raising awareness of this disease. It is our main objective to minimise the economic impact and spread of the disease.

The control measures set out in the Bluetongue Control Strategy are aimed at minimising disease spread. Movement of susceptible animals out of the control zones are banned except under licence (although animals can move freely within these zones).

DEFRA currently funds an extensive programme of research on bluetongue (including work on serotype 8) that supports disease control policies. This includes researching vector mitigation measures which may help protect animals against midges biting.

More information and guidance can be found on the DEFRA website, which is regularly updated with the latest developments and progress.

Canals: Expenditure

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the *(a)* economic and *(b)* other effects of public spending on canals with particular reference to effects on (i) regeneration, (ii) flood management and (iii) tourism and leisure. [174142]

Mr. Woolas: We fully recognise the economic, environmental and social benefits of the inland waterways and the role they can play in supporting Government objectives in health, recreation, regeneration, social inclusion, conservation of heritage and the environment. British Waterways has been involved in over £2 billion worth of urban and rural regeneration over the last decade and a further £7 billion of waterside regeneration is under way. Its canals also contribute to flood mitigation. In terms of tourism and leisure use, there were 268 million visits to British Waterways last year by boaters, anglers, cyclists and walkers.

DEFRA is working with British Waterways to agree a sustainable and affordable strategy for the waterways while maximising public benefits from the resources available.

Combined Heat and Power

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what feasibility studies have been carried out on potential growth of combined heat and power plants. [175423]

Mr. Woolas: A number of studies have been carried out on potential growth of combined heat and power plants in the UK. The most recent is the "Analysis of the National Potential for High-efficiency Cogeneration" which was prepared by AEA Technology to allow my Department to meet the reporting requirements of the EU cogeneration directive. This study is available on the DEFRA website.

Dangerous Dogs Act 1991

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 12 December 2007, *Official Report*, columns 700-1W, on the Dangerous Dogs Act 1991, how many attacks on people there were by dogs designated as dangerous under the Dangerous Dogs Act 1991 in each year since 1997 in London. [175389]

Jonathan Shaw *[holding answer 18 December 2007]*: I refer the hon. Member to table 2, 12 December 2007, *Official Report*, column 701W, citing the number of defendants proceeded against at magistrates courts in Greater London for offences under the Dangerous Dogs Act 1991 in each year from 1997 to 2006. We do not hold information on whether the dogs involved were held in contravention of the law.

Departmental Manpower

Mrs. May: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* men and *(b)* women are employed by his Department, broken down by civil service grade. [172688]

Jonathan Shaw: The latest published information on the gender breakdown of civil servants by Department is as at 30 September 2006 and is available in tables H at:

http://www.statistics.gov.uk/downloads/theme_labour/2006CivilServiceStatistics.pdf

and

http://www.statistics.gov.uk/downloads/theme_labour/CivilService2006TablesandCharts.xls

Departmental Parliamentary Questions

Mr. Harper: To ask the Secretary of State for Environment, Food and Rural Affairs how many staff work in his Department's parliamentary branch; and what proportion of their time is spent on dealing with *(a)* parliamentary questions and *(b)* correspondence from hon. Members and Peers. [174954]

Jonathan Shaw: There are eight members of staff in parliamentary branch, two of whom work solely on parliamentary questions.

Correspondence from hon. Members and peers is handled by the Department's customer contact unit.

Departmental Pay

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs how many people in his Department and its predecessors earned a salary over £100,000 in each year since 1997. [167191]

Jonathan Shaw: Details of the number of people in the Department who have been paid a salary of £100,000 or more, since 2002, are given in the following table. Data prior to 2002 are not centrally held and could be obtained only at disproportionate cost.

The information covers people in core-DEFRA and the following DEFRA Executive Agencies: Animal Health, Pesticides Safety Directorate, Veterinary Medicines Directorate, Marine Fisheries Agency, Government Decontamination Service, Rural Payments Agency, Veterinary Laboratories Agency, Central Science Laboratory and Centre for the Environment, Fisheries and Aquaculture Science.

	Number of people paid £100,000 or more
2002	8
2003	10
2004	12
2005	19
2006	20
2007	25

Departmental Public Expenditure

Mr. Harper: To ask the Secretary of State for Environment, Food and Rural Affairs what budget was planned for his Department in 2007-08; how much his Department has spent in the year to date; and what the projected expenditure outturn for the year is. [175013]

Jonathan Shaw *[holding answer 17 December 2007]*: DEFRA's budget (resource and capital DEL less depreciation) for 2007-08 is £3,617 million. It is for Ministers and the Department to manage its affairs during the year and to report on outturn to Parliament. The Department is currently addressing those pressures arising from the summer floods (£30 million) and the animal disease outbreaks (£35 million). However, action is being taken by the Department to manage down these cost pressures.

Departmental Publicity

Mr. Philip Hammond: To ask the Secretary of State for Environment, Food and Rural Affairs how many full-time equivalent staff are responsible for brand management and marketing in his Department and its agencies. [165237]

Jonathan Shaw: Within the Communications Directorate in core DEFRA there are 17 full-time members of staff involved in the management of corporate branding and marketing. This includes work undertaken on:

The Act on CO_2 campaign—which includes the Climate Change, the Act on CO_2 calculator, the Climate Change Champions, events, Waste and Sustainable Consumption and Production.

Food and Farming—which covers the Year of Food and Farming, Food partnerships, Farming Link, Animal Welfare, agricultural shows and events, animal disease prevention and personal food imports.

Natural Environment—which covers Biodiversity, Marine and Fisheries, Rural Affairs as well as land and water use.

Individual records of staff for DEFRA'S non-departmental public bodies, agencies and financially sponsored organisations are not held centrally and could be obtained only at disproportionate cost.

David Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs how much has been spent by his Department on advertising in the last 12 months. [167958]

Jonathan Shaw: For the financial year 2006-07, core DEFRA spent £568,728 on advertising.

Departmental Recycling

Mr. Hayes: To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* volume and *(b)* percentage of its waste his Department recycled in each of the last five years. [172514]

Mr. Woolas: My right hon. Friend the Secretary of State for Environment, Food and Rural Affairs (DEFRA) can confirm that his Department recycled the following amounts of waste in each of the last five years.

	Waste Recovered (tonnes)	*Percentage Waste Recovered*
2002-03	1,021	46
2003-04	2,560	55
2004-05	2,210	52
2005-06	2,429	47
2006-07	2,891	55

These figures represent waste that is recovered, which includes recycled, composted, reused or incinerated with energy recovery.

DEFRA has already exceeded the 2010 target of recycling 40 per cent. of waste and is on course to recycle 75 per cent. of all waste by 2020.

Environmental Information Regulations Provisions

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance his Department produced on whether environmental information regulations provisions apply to regional chambers. [176579]

Joan Ruddock: Regional chambers are not specifically mentioned in our current detailed guidance on the environmental information regulations (EIRs) (www.defra.gov.uk/corporate/opengov/eir/guidance/full-guidance/pdf/guidance-2.pdf) but this does make clear that all bodies which carry out functions of public administration and bodies that are under the control of a public authority and have responsibilities, exercise functions or provide public services relating to the environment are covered by the regulations. The guidance also explains that bodies can seek more detailed advice on the interpretation of the regulations from the DEFRA telephone helpline and a central e-mail address, though the final determination of the extent to which they are covered would be for the Information Commissioner and the Information Tribunal to decide.

Exhaust Emissions: Transport

Jo Swinson: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he has taken to encourage the European Commission to include carbon emissions from transport under the evaluative criteria for the European eco-label; and if he will encourage the Commission to promote water-borne freight as a means of cutting these emissions. [176093]

Joan Ruddock: The Government want to see reliable methods established for measuring the greenhouse gas emissions embodied in products (from the extraction, transport and processing of raw materials right through to the finished product) and we are actively supporting work by the British Standards Institution to enable this. The European Commission is also running a study on how carbon emissions "embodied" in products can be better reflected in future criteria under the EU ecolabelling scheme. Officials in my Department have had positive discussions with their counterparts in the Commission about the development of suitable methods for measuring these embodied emissions and the scope for wider improvements to the ecolabelling scheme to help focus on the key life-cycle impacts of particular types of product.

Farms: Utilities

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what obligation there is on utility companies to observe cross-compliance regulations when entering farm land; and if he will make a statement. [174452]

Jonathan Shaw *[holding answer 17 December 2007]:* Domestic legislation in England (SI 2005 No. 3459) provides for a claimant to be exempted from a cross compliance standard where the laying, construction or maintenance of a pipeline, cable or pylon under statutory authority is incompatible with meeting the standard (paragraph 4 (3)(a) and (b)). Ordinarily, if a claimant thinks such work might be incompatible with meeting a standard, in advance of the work being carried out, they should approach the Rural Payments Agency (RPA) for an exemption. This should safeguard the position of both the statutory undertaker and the claimant.

There will be emergency situations where such advance requests are not possible. In such circumstances, if a claimant finds the work was incompatible with a standard, they would be advised to write to RPA to safeguard their position.

Fisheries: Navy

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs for what reason the number of patrol days carried out by the Hunt class inshore patrol vessels, Island class offshore patrol vessels and River class offshore patrol vessels for the 2006-07 period stated in the answer of 10 December 2007, *Official Report*, column 61W, on Fisheries: Navy, were different to those stated in the answer of 22 November 2007, *Official Report*, column 1058W. [176275]

Jonathan Shaw: The answers of 22 November and 10 December both stated that the total number of patrol days carried out by patrol vessels of the Fishery Protection Squadron in 2006-07 was 845 days.

The answer on 10 December on behalf of the Secretary of State for Defence recorded 227 days by Island class vessels and 618 days by River class vessels. This should have read 227 days by Hunt class vessels.

The answer on 22 November on behalf of the Secretary of State for Environment Food and Rural Affairs recorded 225 days by Hunt class vessels and 620 days by River class vessels.

The difference in allocation of two days by the two departments resulted from a minor correction to records as a product of staff changes.

The minor statistical difference between departments has no impact on the payment or the performance of the Fisheries Protection Squadron during that period.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 22 November 2007, *Official Report*, column 1058W, on Fisheries: Navy, whether the unused contracted Royal Navy Fishery Protection Squadron patrol days may be *(a)* carried over to future years and *(b)* refunded to his Department; and if he will make a statement. [176276]

Jonathan Shaw: Unused patrol days cannot be carried over from one year to the next.

Fisheries: Protection

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 11 December 2007, *Official Report*, column 409W, on Fisheries: Protection, (1) whether the Ministry of Defence provides replacement vessels in the event of a Davit fault; and if he will make a statement; [176133]

(2) under what circumstances the Ministry of Defence would provide replacement vessels; what his definition is of extended time off task; and if he will make a statement; [176137]

(3) for how many patrol days a River class offshore patrol vessel would need to be unavailable for the Ministry of Defence to provide a replacement; and if he will make a statement. [176138]

Jonathan Shaw: There is no specific requirement for the Ministry of Defence to provide a replacement patrol vessel in the event of a Davit fault. It is difficult to be precise as to how many patrol days would need to be missed before a replacement vessel could be provided. Provision of a replacement vessel will depend on a number of operational factors including:

(i) the time that a River class vessel is off task or unable to undertake full operational duties;

(ii) the availability of a suitable replacement ship and crew with British Sea Fisheries Officers on board; and

(iii) the importance operationally at the time of having full fisheries patrol capability available.

Time off task is regarded as any time when the patrol vessel is not undertaking patrol activity at sea either because of routine stand-off or for other reasons, for example, technical problems.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs with reference to the answer of 23 July 2007, *Official Report*, columns 649-59W on Fisheries: Protection, whether the annual cost of the new contract with the Royal Navy Fishery Protection Squadron, beginning on 1 April 2008, will vary depending on the number of patrol days contracted in each year; and if he will make a statement. [176342]

Jonathan Shaw: The annual cost will depend on the number of patrol days delivered to the Marine and Fisheries Agency by the Royal Navy, the platform daily rate and an annual review of the daily rate.

Fixed Penalties: Greater London

Mr. Boris Johnson: To ask the Secretary of State for Environment, Food and Rural Affairs how many fixed penalty notices were *(a)* issued, *(b)* cancelled, *(c)* unpaid after 28 days, *(d)* unpaid and resulting in court action and *(e)* unpaid and resulting in no further action to date for (i) nuisance parking, (ii) abandoned vehicles, (iii) litter, (iv) street litter control, (v) litter clearance notices, (vi) graffiti, (vii) fly-tipping, (viii) inappropriate use of waste, (ix) dog fouling, (x) noise during the day, (xi) inappropriate disposal of chewing gum and (xii) noise at night in each London borough in each year since 1998. [172638]

Jonathan Shaw: Tables containing the number of fixed penalty notices issued in each London borough in each year since 1998 are available on the DEFRA website. I have arranged for copies of the tables to be placed in the Libraries of the House.

I am unable to say how many notices were unpaid after 28 days as DEFRA does not collect the information at that level of detail.

Flood Control

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made on implementing *(a)* a more holistic approach, *(b)* better management of risk, *(c)* land use planning, *(d)* integrated urban drainage management and *(e)* addressing coastal issues, as set out in Making Space for Water; and if he will make a statement. [171155]

Mr. Woolas: The Environment Agency has strategic overview of all flood and coastal erosion risk management. The coastal role has been announced and the role for inland flooding is being developed.

A range of projects ensure better management of risk, including improving and extending risk mapping and broadening approaches to risk management beyond the provision of defences.

The Department for Communities and Local Government (CLG) published Planning Policy Statement 25, (Development and Flood Risk) in 2006. The Environment Agency became a statutory consultee on planning applications where flood risk is an issue and the Secretary of State for CLG can call in applications where the planning authority is minded to approve an application against sustained Environment Agency objections.

DEFRA will review approaches to urban drainage as part of its new water strategy. This will take account of the independent Pitt review of the summer flooding

and the 15 integrated urban drainage pilot studies taking place around the country.

Further work is also taking place in developing tools to help coastal and other communities adapt to the challenges of climate change.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs whether his Department provides guidance to local authorities on standards of flood proofing for private properties; and if he will make a statement. [171964]

Mr. Woolas: The Government provide guidance to local authorities, among others, on standards of flood-proofing for private properties. Details are available via the DEFRA website and the planning portal.

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs what the lowest economic rate of return is for an approved flood defence project; and how many unapproved projects for which calculations had been made the projected rate of return was equal to or higher than that figure. [173539]

Mr. Woolas: The lowest ratio of economic benefits to cost for ongoing projects (excluding those exempt from prioritisation due to legal or other requirements) is 6.3. Medium term plan returns for all flood management operating authorities have recently been collated by the Environment Agency and these include 39 projects with a benefit to cost ratio in excess of this not currently approved for funding. It should be noted that the benefit cost ratio is only one of the issues considered in prioritising projects for funding and that the medium term plan includes projects in different stages of development, intended for funding up to 10 years into the future.

FloodRanger: Finance

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what funding has been provided by his Department for the development of FloodRanger by Discovery Software. [176580]

Mr. Woolas: I refer the hon. Member to the answer given on 10 December 2007, *Official Report*, column 31W.

Floods: Council Tax

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what requests the Environment Agency has made to local authorities to increase the council tax precept to pay for increased flood defences in the 2008-09 financial year. [176538]

Mr. Woolas: Grant in aid from DEFRA funds the majority of the Environment Agency's flood risk management activities (£436 million in 2007-08). The Agency may raise additional sums through levies on local authorities. These are set by Regional Flood Defence Committees (RFDCs) on which local authorities have a majority. Around £25 million is raised in levies nationally each year and they are used to fund locally important projects which do not have sufficient priority to be funded via DEFRA grant in aid. These levies are supported by the local government funding mechanisms operated by Communities and Local Government.

Levies are set by RFDCs in January each year and, while decisions have yet to be taken on their levels for 2008-09, the Environment Agency anticipates that the increase in local levies nationally for 2008-09 may be around 2.5 per cent., raising an additional £0.6 million.

Floods: Sewers

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of the effect of combined sewers on flooding; and what estimate his Department has made of the cost of *(a)* removing and *(b)* phasing out combined sewers. [175988]

Mr. Woolas: The Government's Foresight (2004) 'Future Flooding' report estimated that currently 80,000 properties are at very high risk from surface water flooding (10 per cent. annual chance), causing on average £270 million of damage each year.

Water and sewerage companies have a statutory duty under section 94 of the Water industry Act 1991 to ensure that their area is effectually drained. The water industry sponsors research on a range of projects related to sewerage systems and the organisation, UK Water Industry Research is, I understand, undertaking one specifically "exploring the cost benefit of separating surface water".

Floods: Thames Gateway

Alistair Burt: To ask the Secretary of State for Environment, Food and Rural Affairs (1) which areas in the designated Thames Gateway area are classified as flood plains; [175542]

(2) what percentage of land in the Thames Gateway area is flood plain; [175551]

(3) how many houses in the Thames Gateway area are expected to be built on a flood plain. [175552]

Mr. Woolas: The Thames Gateway regeneration zone runs alongside the Thames and Medway estuaries. A map showing the floodplain has been placed in the Library of the House.

Around 35 per cent. of the Thames Gateway lies within the tidal and fluvial floodplain. The standard of protection afforded by the defences to protect against tidal flooding in the main estuary is higher than anywhere else in the country. There are over 300 kilometres of defences and eight major tidal barriers which include the Thames barrier.

The Thames Gateway delivery plan has proposed 160,000 new homes for the Thames Gateway by 2016 but it does not dictate their exact location.

Fly-tipping

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs if he will place in the Library the data from Flycapture for the *(a)* number of fly-tipping incidents and *(b)* proportion of

incidents which involved household waste in each local authority in England in (i) 2004-05, (ii) 2005-06 and (iii) 2006-07. [176767]

Joan Ruddock: I am arranging for the information requested to be placed in the House Library.

Foot and Mouth Disease: Compensation

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how compensation related to foot and mouth disease has been distributed; and if he will make a statement; [174442]

(2) what compensation is available to farmers who lose livestock due to foot and mouth where the cause of the outbreak has been traced to leaks from the Pirbright centre; and if he will make a statement. [174441]

Jonathan Shaw: The Animal Health Act 1981 and Human Rights legislation requires that compensation is paid for animals compulsorily culled and property confiscated and subsequently destroyed to prevent the spread of disease. It requires that for foot and mouth disease (FMD), compensation is paid for all animals compulsorily slaughtered at the market value before the animal became infected. The farmers whose animals were culled have all received compensation on this basis.

Greenbelt

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what proposals Natural England have made to remove or change green belt protection. [176531]

Jonathan Shaw: Natural England has made no proposals to remove or change green belt protection.

Heathrow Airport: Noise

Justine Greening: To ask the Secretary of State for Environment, Food and Rural Affairs (1) whether *(a)* BAA, *(b)* Department for Transport officials, *(c)* Department of Transport Ministers and *(d)* other non-departmental staff were involved in the production of Putting noise on the map, airport maps relating to Heathrow airport published on 18 December 2007; and if he will make a statement; [176957]

(2) whether any of his Departmental staff who were involved in preparing the Putting noise on the map airport noise maps published by his Department on 18 December 2007, contributed to the Project for Sustainable Development of Heathrow within the Department for Transport; and if he will make a statement. [176959]

Jonathan Shaw *[holding answer 7 January 2008]:* The noise maps published on 18 December were produced by the operators of non-designated airports and by the Civil Aviation Authority for airports designated under section 78 of the Civil Aviation Act 1982. They were approved by DEFRA to ensure compliance with the Environmental Noise Directive. No DEFRA staff contributed to the Project for Sustainable Development of Heathrow.

Justine Greening: To ask the Secretary of State for Environment, Food and Rural Affairs what meetings his Department had with the Department for Transport on the outcome of the Putting noise on the map airport noise maps published by his Department on 18 January 2007, prior to the Government's launch of the Adding Capacity at Heathrow public consultation; and if he will make a statement. [176960]

Jonathan Shaw *[holding answer 7 January 2008]:* The Department for Transport is represented on the DEFRA Programme Board that oversees the implementation of the European Environmental Noise Directive (END) 2002/49 EC in England. The Programme Board meets regularly to monitor progress with noise mapping for major roads, rail, airports and major agglomerations.

The consultation document on Adding Capacity at Heathrow Airport drew attention to the requirements of the END directive for major airports to produce strategic noise maps. Given that Heathrow is a designated airport under section 78 of the Civil Aviation Act 1982, the noise map for Heathrow was produced by the Civil Aviation Authority not the airport operator.

Livestock: Disease Control

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with trading standards departments on the movement of livestock in restricted areas; and if he will make a statement. [174440]

Jonathan Shaw: Throughout the recent animal disease outbreaks, DEFRA has worked closely with the Local Authorities Coordinators of Regulatory Services (LACORS), which represents trading standards officers in local authorities. Trading Standards are updated on changes to movement restrictions by LACORS, which is a key operational partner that always participates actively in the National Disease Control Centre. They have been closely involved in changes to the movement regimes and have advised DEFRA on enforcement and licensing regimes.

Livestock: Transport

Lembit Öpik: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance he has issued on legislative requirements for farmers who wish to move livestock by road to take a written test on the welfare of animals during transport; and if he will make a statement. [174246]

Jonathan Shaw: Council Regulation (EC) No. 1/2005 on the protection of animals during transport and related operations came into force in January 2007. It is implemented in the UK by The Welfare of Animals (Transport) (England) Order 2006 and parallel legislation in Scotland, Wales and Northern Ireland. The regulation requires that by 5 January 2008 those that transport cattle, sheep, goats, pigs, horses and poultry by road on journeys over 65 km in connection with an economic activity must have passed an examination (set by independent examiners) on their competence.

Lembit Öpik: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment he has made of the *(a)* implementation and *(b)* enforcement of EC legislation on the welfare of animals during transport in EU member states; [174247]

(2) what assessments were made of the likely effects of the requirement for a written test on the welfare of animals during transport prior to its introduction; what the findings were of such assessments; and if he will make a statement; [174248]

(3) what criteria he has established to assess the contribution of the written test on the welfare of animals to *(a)* animal welfare and *(b)* road safety; and if he will make a statement. [174249]

Jonathan Shaw: In 2006, DEFRA conducted a public consultation on proposals for the implementation of Regulation 1/2005 in England (with the devolved Administrations conducting similar consultations in their territories). This was sent to over 1,400 interested organisations, key stakeholders and individuals and published on our website. For competence assessment, DEFRA proposed that assessment for short journeys under eight hours would be by means of a theory test with assessment for journeys over eight hours having an additional practical element for demonstration of animal handling and driving skills. None of the consultation responses necessitated deviation from the broad principles outlined. Consultation findings were sent to those who had responded and posted on our website.

The regulation's provisions relating to competence testing and certification do not come into effect until January 2008 and so it would be premature to conduct an assessment of the regulation at this stage. However, the regulation includes a provision for a Europe-wide review on its impact on the welfare of animals during transport in 2011. Early indications are that this is likely to be brought forward to 2009.

Lembit Öpik: To ask the Secretary of State for Environment, Food and Rural Affairs if he will bring forward proposals to exempt experienced drivers from the requirement to take a written test on the welfare of animals during transport; and if he will make a statement. [174250]

Jonathan Shaw: There are no proposals to exempt experienced drivers from the requirement to have their competence assessed. Such an exemption would be contrary to the requirements of Regulation 1/2005.

Livestock: Wales

Lembit Öpik: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with the Welsh Assembly Government on the movement to Wales of livestock ordinarily pastured on Welsh farms but temporarily pastured in the Shropshire bluetongue protection zone; and if he will make a statement. [174251]

Jonathan Shaw: DEFRA has worked closely with the Welsh Assembly Government and has had a range of discussions on this and a number of other issues concerning bluetongue.

It may be possible during a vector free period, should that be declared, to move animals out of the zone following pre-movement tests, at the farmers' expense.

The issue of whether to extend the bluetongue surveillance zone into Wales to enable free movement across the border is a devolved matter for the Welsh Assembly Government, but we are working closely to co-ordinate our disease control strategy to prevent the spread of bluetongue.

Nitrate Sensitive Areas

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what estimate he has made of the cost to the agricultural industry of the nitrate vulnerable zone consultation; [175227]

(2) what estimate he has made of the *(a)* financial costs and *(b)* environmental costs of proposals arising from the nitrate vulnerable zone consultation; and what assessment he has made of the compatibility of those proposals with other schemes to establish wintered cover crops. [175232]

Mr. Woolas: The regulatory impact assessment (RIA) published in support of the consultation on the implementation of the nitrates directive in England sets out my Department's assessment of the likely financial and environmental impacts of the proposed action programme measures.

The partial RIA estimates that the likely financial impact on agriculture of implementing the proposed measures would be within the range of £52.8 million to £105.5 million per year. This assumes that the action programme is applied within proposed nitrate vulnerable zones covering 70 per cent. of England, and costs would be higher if the decision is taken to apply the action programme to the whole of England. These costs could be reduced if DEFRA is successful in obtaining a derogation from the 170kgN/ha/yr whole farm limit for livestock manures—one of the more burdensome requirements of the proposals.

Estimates of the impact of the main measures on losses of pollutants from agriculture are provided in the following table.

	Percentage change in pollutant losses
Nitrate	-5.5 to -15.5
Phosphorus	0 to -4.5
Ammonia	0.2 to 2.0

This assessment does not cover all the action programme measures, and therefore the anticipated reduction in nitrate and phosphorus is expected to be greater.

My Department is aware of links between the proposed cover crops measure and the maintenance of overwintered stubbles, as required by some environmental stewardship agreements. Officials are working with stakeholders to ensure that implementation of this measure is compatible with the requirements of existing agreements.

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs on what basis areas are to be selected for inclusion in the nitrate vulnerable zone designations. [175228]

Mr. Woolas: The nitrates directive requires all known areas of land to be designated as nitrate vulnerable zones (NVZs) if they drain to:

surface freshwaters or groundwaters which contain or could contain, if preventative action is not taken, nitrate concentrations greater than 50mg/l; or

natural freshwater lakes, or other freshwater bodies, estuaries, coastal waters and marine waters which are eutrophic or may become so in the near future if protective action is not taken.

The document 'G1—Summary of methodology for identifying NVZs 2006', which is available on the DEFRA website, provides a description of how water quality monitoring data, collected by the Environment Agency from a network of monitoring points and boreholes, are assessed against the above criteria to identify nitrate-polluted waters, and how areas of land draining to these waters were identified for designation as NVZs.

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs whether Government grants will be available to meet the costs of implementation of proposals arising from the nitrate vulnerable zone consultation, with particular reference to winter slurry storage. [175229]

Mr. Woolas: No new central Government money will be made available to assist farmers with the costs of constructing any new or additional manure storage capacity required under the proposed action programme. This position was set out in the public consultation on the implementation of the nitrates directive in England.

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of the effect of ammonia emissions into the atmosphere from the additional winter slurry storage likely to result from proposals arising from the nitrate vulnerable zone consultation. [175230]

Mr. Woolas: The regulatory impact assessment and paper 'D5—Impact of the proposed NVZ Action Programme measures', published in support of the consultation on implementation of the nitrates directive in England, provide details of my Department's assessment of the likely environmental impact of the proposed measures. This is available on the DEFRA website.

It is estimated that the closed period for organic manure, which requires the storage of slurry over the autumn and winter, would increase ammonia emissions from agriculture by between 0.5 per cent. and 2 per cent. However, this is likely to be an overestimate as the assessment did not reflect the impacts of all the proposed action programme measures, some of which are expected to reduce ammonia emissions (for example, the incorporation of manure within 24 hours of application).

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the possible loss of habitat of overwintered stubbles as a result of proposals arising from the nitrate vulnerable zone consultation. [175231]

Mr. Woolas: The regulatory impact assessment, published in support of the consultation on the implementation of the nitrates directive in England, sets out my Department's assessment of the likely environmental impact of proposed Action Programme measures.

It is likely that one of the principal benefits of the proposed Action Programme would be improved natural habitats due to a reduction in the nutrient enrichment of waters and associated eutrophication.

My Department is aware of links between the proposed cover crops measure and the maintenance of over-wintered stubbles. Officials are working with stakeholders to ensure that implementation of this measure does not lead to the loss of habitat.

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effect of proposals arising from the nitrate vulnerable zone consultation on organic farms. [175233]

Mr. Woolas: The partial regulatory impact assessment and paper 'G4— Assistance on the partial RIA including extended Nitrate Vulnerable Zones', published in support of the consultation on implementation of the nitrates directive in England, provide details of my Department's assessment of the likely cost to all farmers of the proposed nitrates action programme measures. This document is available on the DEFRA website.

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he has taken to ensure that no additional requirement over and above those in the EU directive is being made in relation to proposals arising from the nitrate vulnerable zone consultation. [175234]

Mr. Woolas: The proposed action programme measures, as set out in our consultation on the implementation of the nitrates directive in England, represent what my Department considers as the best way to fulfil our obligations under the nitrates directive while maintaining a sustainable agricultural industry. The measures were developed to reflect good agricultural practice and the best available science.

Mr. Oaten: To ask the Secretary of State for Environment, Food and Rural Affairs what advice the Government have received from the Environment Agency on the proposed nitrate vulnerable zones directive. [175754]

Mr. Woolas *[holding answer 7 January 2008]:* The Environment Agency is the competent authority for the enforcement of the action programme established in England under the nitrates directive. The Environment Agency also advises the Government on technical and scientific issues regarding water quality and how this affects the designation of nitrate vulnerable zones.

The Environment Agency responded fully to DEFRA's recent consultation on proposals to implement the nitrates directive in England. The response is available to view on their website.

Produce Prices

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what recent assessment he has made of the trend in chicken *(a)* meat and *(b)* feed prices in the UK; and if he will make a statement; [173973]

(2) what recent assessment he has made of the trend in grain prices in the UK; and if he will make a statement. [173974]

Jonathan Shaw: The increase in UK grain prices reflects the rise in global wheat prices following two successive smaller world harvests and increasing demand for cereals for food, feed and fuel purposes. Current high grain prices, combined with policy changes such as the removal of the set-aside requirement for the 2008 harvest, will undoubtedly stimulate production and lead to a moderation of prices, but it may take a number of years to rebuild stocks to levels that markets are comfortable with, and periods of price volatility are likely to occur for the foreseeable future.

In the poultry (and pig) sectors, feed costs, and by implication, total production costs, are largely determined by world prices for cereals, oilseeds and other commodities (recognising that there is some limited scope to reformulate feed in response to relative price movements to reduce costs). The latest set of animal feed statistics contains details of the price of poultry feed up to June 2007 and can be found at:

http://statistics.defra.gov.uk/esg/statnot/mcompspn.pdf

Estimates of poultry feed costs through to September 2007, which will cover the period of significantly rising grain prices, are due to be published on 17 January 2008.

Weekly wholesale prices for poultry can be found at:

http://statistics.defra.gov.uk/esg/publications/amr/poultry_eggs.xls

but it should be recognised that these represent only a small proportion of the overall market.

A fuller and wider assessment of the rise in commodity prices can be found in our report "Implications of rising agricultural commodity prices" published at the end of September which can be found at:

http://statistics.defra.gov.uk/esg/publications/monthly%20brief/Annex%201%20Food%20and%20farming%20brief%20-%20impact%20of%20high%20commodity%20prices.pdf.

The first full set of farm income statistics, including an estimate of the income for specialist poultry farms, will be published at the end of January 2008.

Rural Payments Agency: Redundancy

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost has been of recent redundancies made by the Rural Payments Agency; and if he will make a statement. [174449]

Jonathan Shaw *[holding answer 17 December 2007]:* No compulsory redundancies have been made in the Rural Payments Agency since its creation in 2001. However the cost of the voluntary exit of staff during the Agency's recent Change Programme ending in 2006 has been £38.9 million.

Severn Estuary: Nature Conservation

Robert Key: To ask the Secretary of State for Environment, Food and Rural Affairs when the Severn estuary was notified to the European Commission as a candidate special area of conservation as defined under the Habitats Directive; and if he will make a statement. [175045]

Joan Ruddock: The Severn estuary was notified to the European Commission as a candidate special area of conservation, as defined under the habitats directive, on 31 August 2007.

Telephone Services

Julia Goldsworthy: To ask the Secretary of State for Environment, Food and Rural Affairs what information his Department has collected on the number of calls *(a)* received, *(b)* answered and *(c)* abandoned to phonelines operated by his Department and its agencies, broken down by subject matter of call. [173098]

Jonathan Shaw: Calls to RPA helplines can be split into two categories, single payment scheme (SPS) and animal traceability inquiries. They generally cover the following subject matter.

SPS

SPS—calls relating to farmers entitlement and claim for the scheme.

RLE—general advice on completing the RLE 1 form.

RLR—guidance on mapping queries.

Rural Stress—used by RPA staff and rural support groups when they want to make a referral.

Counterfraud—used by staff and public when they suspect that fraud is taking place.

Animal traceability

BCMS helpdesk—English and Welsh calls relating to the cattle tracing system.

Livestock ID—inquiries about identification of sheep, pigs and goats.

ETAS—used by ear tag manufacturers to log details of all orders processed and despatched to keepers.

WFA—provides an integrated access point to DEFRA and related agencies with the aim of helping to take the paperwork out of farming.

TSE—registers on-farm dead animals to be collected from the farm, brain-stem sampled and disposed of at a registered disposal site.

NFSS—registers farmers as members onto the national fallen stock scheme.

Details of calls received, answered and abandoned are detailed as follows.

	Calls received	*Calls answered*	*Calls Abandoned*
BCMS English	255,706	251,183	4,261
BCMS Welsh	10,805	10,225	497
Livestock ID	1,549	1,492	45
ETAS	7,275	6,840	161
TSE	260,883	247,110	13,426
TSE Sheep[1]	1,894	1,833	37

	Calls received	Calls answered	Calls Abandoned
TSE Collectors	5,243	5,111	104
WFA	8,265	7,568	637
NFSS	20,037	19,295	676
NFSS Collectors	3,908	3,789	107
RLE[2]	10,736	10,715	35
RLR	29,700	28,808	892
SPS	214,051	206,505	7,541
Rural Stress	488	437	51
Counterfraud	324	284	40
Total	830,864	801,195	28,510
Percentage abandoned	—	—	3.43

[1] TSE Sheep helpline went live on 9 October 2007.
[2] RLE calls diverted to the SPS helpline in September 2007.
Notes:
1. Figures provided are between 10 December 2006 and 9 December 2007.
2. Please note calls abandoned in the first 10 seconds are not counted in the abandoned total.

Waste Disposal: Fees and Charges

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs whether individuals on council tax benefit are expected to receive a full exemption from the proposed new charges for domestic rubbish collections. [176534]

Joan Ruddock: As stated in the Climate Change Bill, local authorities which pilot a waste incentive scheme must take account of disadvantaged groups.

It will be the responsibility of each local authority to decide whether individuals receiving council tax benefit (or any other groups) should be treated differently under a waste incentive scheme and, if so, how. My Department will work with stakeholders to develop guidance on this issue.

Wellbeing Indicators Group

Jo Swinson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what work the Wellbeing Indicators Group has undertaken; [171358]

(2) whether the Wellbeing Indicators Group has *(a)* a business plan and *(b)* objectives; [171359]

(3) what the *(a)* titles and *(b)* qualifications are of the academics on the Wellbeing Indicators Group; [171360]

(4) what role the Wellbeing Indicators Group has in the formulation of Government policy; what cross-departmental representation the group has; and if he will make a statement; [171361]

(5) how many *(a)* staff and *(b)* members the Wellbeing Indicators Group has; [171362]

(6) what the budget of the Wellbeing Indicators Group has been in each year since its inception; and if he will make a statement. [171363]

Mr. Woolas: The Wellbeing Indicators Group has provided technical advice and co-ordination on the establishment of measures of wellbeing for inclusion in the UK Government's sustainable development indicators, as committed to in the UK Government's Sustainable Development Strategy (2005) and in the UK Framework for Sustainable Development shared with the devolved Administrations.

The Wellbeing Indicators Group has agreed terms of reference.

Academic representatives on the Wellbeing Indicators Group are currently:

Tim Jackson—Professor of Sustainable Development at the University of Surrey; and also sits on the Sustainable Development Commission;

Paul Dolan—Professor of Economics at Imperial College, University of London;

Nic Marks MSc, MA—Founder of the Centre for Wellbeing at the New Economics Foundation.

The Wellbeing Indicators Group does not advise on policy formulation; its role is to advise on how well-being might be measured. Information on the use of indicators and concepts of well-being in policy can be found on the Government's Sustainable development website:

www.sustainable-development.gov.uk/what/priority/wellbeing/index.htm

The following central Government Departments and administrations have been represented in the Wellbeing Indicators Group:

Department for Environment, Food and Rural Affairs;

Department for Business, Enterprise and Regulatory Reform;

Department for Children, Schools and Families;

Department for Communities and Local Government;

Department for Culture, Media and Sport;

Department for Health;

Home Office;

Department for Innovation, Universities and Skills;

Department for Transport;

Department for Work and Pensions;

Office of National Statistics;

Scottish Government;

Welsh Assembly Government;

Northern Ireland Assembly.

DEFRA chairs and provides the secretariat for the Wellbeing Indicators Group, which principally involves two members of staff and accounts for only a small proportion of the time of each. There are around 25 individuals attending meetings or receiving papers.

The Wellbeing Indicators Group does not have its own budget allocation and cannot incur expenditure. The group's inception was in December 2006 and it has met five times.

Whales: Japan

Mr. MacDougall: To ask the Secretary of State for Environment, Food and Rural Affairs when he last met the Japanese ambassador to discuss the Japanese whaling fleet's intention to kill 935 minke whales, 50 fin whales and 50 humpback whales. [175264]

Jonathan Shaw *[holding answer 18 December 2007]:* I will shortly meet Japanese embassy officials to express the UK's outrage over Japan's plans to kill endangered whales in the Antarctic. I have had no recent discussions with the Japanese ambassador on this issue.

The UK has consistently criticised Japan for her lethal whaling operations that are authorised under

special permits (so called "scientific" whaling) and urged Japan to end its scientific whaling activities.

We are considering a high level diplomatic protest to the Japanese Government, following consultation with like-minded anti-whaling countries.

Whales: Romania

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs whether he has had discussions with the Romanian Prime Minister on Romania's possible membership of the International Whaling Commission; and if he will make a statement. [175297]

Jonathan Shaw: There have been no recent discussions with the Romanian Prime Minster on this issue. British embassies abroad will shortly deliver an updated version of the UK publication 'Protecting Whales—A Global Responsibility', endorsed by the Prime Minister and Sir David Attenborough, to all EU countries, which are not current members of the International Whaling Commission. This is to encourage them to join the effort to protect all cetacean species.

UK embassies and Ministers across Government will continue to lobby nations on this issue in the run-up to the next annual meeting of the IWC in Chile in June 2008.

Wind Power: Planning

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what responsibility the proposed Marine Management Organisation will have over planning consents for offshore wind turbines; and if he will make a statement. [174149]

Jonathan Shaw: The proposed Marine Management Organisation (MMO) would make development consent decisions, where the UK Government have responsibility, for offshore renewable energy projects capable of generating 100 megawatts or less of power.

The proposed Infrastructure Planning Commission (IPC) would determine applications for development consent for offshore renewable energy projects capable of generating more than 100 megawatts of power. The MMO will advise the IPC on these projects, including on conditions on developments, and will also monitor and enforce compliance.

Wind Power: Seas and Oceans

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what provision for wind farms he expects will be made in the draft Marine Bill; and if he will make a statement. [174150]

Jonathan Shaw: The draft Marine Bill will make specific provisions to streamline marine consents for renewable energy as set out in the Marine Bill White Paper. It will also provide a framework that will allow translation of Government policies and priorities, including, for instance, those on climate change and renewable energy generation, into decisions on marine development and protection.

CHILDREN, SCHOOLS AND FAMILIES

Adoption

John Battle: To ask the Secretary of State for Children, Schools and Families how many adoptions took place in each year since 1997. [174304]

Kevin Brennan: Statistical information on the total number of adoptions in England and Wales by age of child for the years 1995 to 2005 is included in Table 6.2b in the Statistics Series "Marriage, divorce and adoptions", Volume FM2, published by the Office for National Statistics. A copy of this publication is available on the National Statistics website at:

www.statistics.gov.uk/downloads/themepopulation/FM2no32/FM2 32.pdf.

The number of children entered into the Adopted Children Register following court orders made in 2006, and other relevant statistics was published on 8 November 2007 by ONS at:

http://www.statistics.gov.uk/CCI/nugget.asp?ID=592&Pos=1&ColRank=1&Rank=358.

Children in Care

John Battle: To ask the Secretary of State for Children, Schools and Families how many children were in care at the latest date for which figures are available in the age groups *(a)* 0 to five, *(b)* five to nine, *(c)* nine to 12 and *(d)* 12 to 16 years. [174305]

Kevin Brennan: The information is provided in table 1 as follows.

Table 1: children looked after at 31 March 2007 by age at 31 March[1,2,3]

Numbers

		Age at 31 March 2007 (years)				
	All ages	*0 to 4*	*5 to 8*	*9 to 11*	*12 to 15*	*16 and over*
All children looked after at 31 March 2007	60,000	11,800	8,300	8,800	19,300	11,800

[1] Source: SSDA903 return on children looked after.

[2] Figures exclude children looked after under an agreed series of short term placements.

[3] To ensure that no individual can be identified from statistical tables, we use conventions for the rounding and suppression of very small numbers. All numbers which appear in national tables have been rounded to the nearest 100 if they exceed 1,000 and to the nearest 10 otherwise. Numbers from 1 to 5 inclusive have been suppressed, being replaced in the table by a hyphen (-). It has been necessary to suppress other figures whenever it would be possible to calculate the value of a suppressed number by a means of simple arithmetic. The rule applied in these circumstances has been to suppress the next smallest data item provided its value is strictly less than 20.

Children: Counselling

James Brokenshire: To ask the Secretary of State for Children, Schools and Families which schools are participating in the peer mentoring and befriending scheme; and what criteria are being used to assess the effectiveness of this scheme. [173835]

Kevin Brennan: A list of schools who are participating in the Department's Peer Mentoring programme has been placed in the Library. This programme is managed on behalf of the Department by the Mentoring and Befriending Foundation.

Since 2006, the Department has been evaluating the impact of the Peer Mentoring programme through pilot projects in 180 schools. This two-year evaluation has been externally commissioned. Each school taking part in the pilot chose an outcome for their project, from the following list:

Improved academic performance or attainment;

Improved behaviour;

Improved attendance; and

Reductions in bullying.

The pilots are being evaluated against these outcomes.

Children: Day Care

Danny Alexander: To ask the Secretary of State for Children, Schools and Families what proportion of child care providers were registered with Ofsted in each region in each year since 1997. [174727]

Beverley Hughes: The information is not available in the form requested.

Since 2003 Ofsted has been responsible for the registration and inspection of child care providers. The table shows the number of providers registered with Ofsted each year.

Number [1,2] of registered child care providers for children under 8 years of age by type of care Government office region in England Position as at 31 March each year: 2003-07

	2003						2004

[1] Figures have been rounded to the nearest 10 if under 100, and to the nearest 100 if over 100.
[2] Data Source: Ofsted

Mr. Jamie Reed: To ask the Secretary of State for Children, Schools and Families how much funding was provided for child care within Copeland in each of the last 10 years. [175948]

Beverley Hughes: The data on funding for child care cannot be broken down by constituency. The information provided in the following table is for Cumbria local authority.

	Child care expenditure
1997-98	4.8
1998-99	11.4
1999-2000	12.5
2000-01	16.6
2001-02	18.3
2002-03	19.1
2003-04	27.5
2004-05	29.8
2005-06	33.7
2006-07	36.7
2007-08	41.0

Notes:
1. Extra funding through the School Standards Grant and Standards Fund is not included in the figures as it is not possible to identify how much of these grants are spent on the under 5s.
2. The data include Under 5s and Sure Start, Early Years and Childcare (Revenue and Capital) elements.
3. For the under 5s element included in the total three different funding methods existed between 1997-98 and 2007-08:
Prior to 2003-04, Early Education funding for four-year-olds was via School Spending Assessments (SSA). Places for three-year-olds in the private, voluntary and independent (PVI) sectors were funded directly via Nursery Education Grant (NEG). New three-year-old places created in the maintained sector were funded via SSA.
Between 2003-04 and 2005-06 LAs received funding to provide free nursery education for three and four-year-olds through the under-fives sub-block of their Education Formula Spending Share (EFSS).
From 2006-07 LAs receive funding for all three to 15-year-olds through the DSG. Funding for under 5s is not separately identified as it is up to local authorities to decide how to distribute their funding.
4. The Sure Start Early Years and Childcare data source is audited returns from the local authority. For years up to and including 2001-02, funding allocation have been quoted as audited data are not available.

Danny Alexander: To ask the Secretary of State for Children, Schools and Families (1) what his forecast is of his Department's spending on child care in each quarter to 2011, broken down by region; [176683]

(2) what the real term in his Department's spending on child care was in each quarter since 1997, broken down by region. [176685]

Beverley Hughes: The information available on forecast spending to 2011 is shown in the following table.

Expenditure forecasts

	£ million, cash terms
	Child care
2006-07	5,221
2007-08	5,747
2008-09	5,729
2009-10	6,230
2010-11	6,686

Notes:
1. Forecast data is not readily available below national level and is only available on an annual basis.
2. The data includes under-fives and Sure Start, early years and child care (revenue and capital) elements.
3. The data includes funding from 2008-09 for the additional 2.5 hours free entitlement for three and four-year-olds.
4. The under-fives element included in the total includes funding both from DCSF and other sources.

The information available on spending on child care since 1997 is shown in the following table.

	Cash		*Real terms*	
	Child care Expenditure	*GDP deflator (20 December 2007)*	*Child care expenditure*	*Increase from 1997-98*
1997-98	1,690	80.366	2,103	—
1998-99	1,944	82.400	2,359	256
1999-2000	2,223	84.063	2,644	542
2000-01	2,601	85.260	3,051	948
2001-02	3,165	87.301	3,625	1,523
2002-03	3,437	90.033	3,817	1,715
2003-04	3,760	92.642	4,059	1,956
2004-05	4,196	95.200	4,408	2,305
2005-06	4,673	97.211	4,807	2,704

Notes:
1. This information can only be provided at national level. The data is only available annually so it cannot be broken down by quarter.
2. The data includes under-fives and Sure Start, early years and child care (revenue and capital) elements.
3. The under-fives element included is for total expenditure on under-fives and will include funding both from this Department and other sources.
4. Figures have been adjusted in line with the latest GDP deflators (20 December 2007). 2006-07 has been used as the baseline.
5. 2005-06 figures are provisional.

Danny Alexander: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the average cost of child care in each quarter since 1997, broken down by region. [176684]

Beverley Hughes: The information is not available in the form requested. Data on the average hourly costs of child care from Ofsted registered providers is collected as part of the child care and early years providers survey. The figures on average hourly cost by region from the 2006 child care and early years providers survey are provided in the following table. Figures are not available for earlier years.

Average hourly fees charged by region

	Full day care	*Sessional*	*After school clubs*	*Holiday clubs*	*Childminders*
Overall average hourly fee	2.70	1.90	2.30	1.70	3.20
East Midlands	2.70	1.60	2.30	1.20	2.90
East	2.60	2.00	2.50	1.70	3.30
London	2.90	2.10	2.00	1.40	3.90
North East, Yorkshire and Humberside	2.60	1.60	2.30	1.30	3.00
North West	2.60	1.60	2.10	1.50	2.90
South East	2.80	2.20	2.40	1.60	3.40
SouthWest	2.80	1.90	2.30	1.50	3.10
West Midlands	2.70	2.40	2.40	1.20	2.80

The fees data collected in this survey should be treated with caution as the figures have been derived from a number of variables. In addition a large number of providers who responded to the survey were unwilling or unable to provide details on the fees they charged.

Danny Alexander: To ask the Secretary of State for Children, Schools and Families what definition of a child care place his Department uses. [176686]

Beverley Hughes: Child care in England is defined in legislation for the first time in Section 18 of the Childcare Act 2006. This defines child care as, "any form of care for a child" including "education ... and any other supervised activity" but excluding:

education or activities provided by a school for a pupil during school hours, unless that pupil has not yet started key stage 1 (thereby including nursery and reception classes);

care provided for a child by a parent, step-parent or person with parental responsibility; or any relative; or foster parent (local authority or private); or

care provided by a children's home, a care home, a hospital or a residential family centre, a young offenders' institution, a secure training centre, or a secure care home within any of those establishments.

Danny Alexander: To ask the Secretary of State for Children, Schools and Families how many child care places were available in each year since 1997, broken down by region. [176687]

Beverley Hughes: The information is not available in the form requested.

Since 2003 Ofsted has been responsible for the registration and inspection of child care providers. The table shows the number of places registered with Ofsted each year.

Number[1, 2] of registered child care places for children under eight years of age by type of care[3], Government office region in England: position as at 31 March each year 2003 to 2007

[1] Figures have been rounded to the nearest 10 if under 100, and to the nearest 100 if over 100.
[2] Data Source: Ofsted
[3] Excludes the number of child care places in creche day care.

Danny Alexander: To ask the Secretary of State for Children, Schools and Families (1) what forecast he has made of the number of child care places available in each year to 2011, broken down by region; [176688]

(2) what forecast he has made of the average number of hours of child care that will be taken up by a family using child care in each of the next 10 years, broken down by *(a)* income decile, *(b)* ethnicity and *(c)* region. [176693]

Beverley Hughes: Section 11 of the Childcare Act 2006, which came into force in April 2007, placed a duty on local authorities to complete a child care sufficiency assessment before April 2008. They will have to complete an assessment at least every three years, and keep it under review between assessments, especially where there are key demographic changes or as new data become available.

The assessment process will give local authorities the evidence and information they need to facilitate and shape a child care market that is flexible, sustainable and responsive to parents' needs. It will also help local authorities to develop their strategies for meeting the new duty to secure sufficient child care which will start in April 2008.

Danny Alexander: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the number of *(a)* one and *(b)* two parent families taking up child care places in each year since 1997, broken down by (i) income decile, (ii) ethnicity, (iii) region and (iv) family size. [176690]

Beverley Hughes: Estimates of the proportion of one and two parent families taking up child care places in the last year by household income, ethnic group, region and family size are available from the 2004 Parents' Childcare Survey[1] and these figures are provided in the following table. Estimates in this form are not available for earlier years.

[1] Childcare and Early Years Provision: A Study of Parents' Use, Views and Experiences, Research Report 723; DfES. Bryson, C., Kazimirski, A. and Southwood, H. (2006). This report is available at:

http://www.dfes.gov.uk/research/data/uploadfiles/RR723.pdf

Proportion of lone parents and couples that used child care in the last year by household income, ethnicity, region and family size

	Couples	*Percentage Lone parents*
Under £10, 000	75	81
£10,000-£19,999	82	88
£20,000-£31,999	88	92
£32,000+	92	88
White	89	86
Black and Minority Ethnic Groups	75	80
East Midlands	87	80
East of England	89	83
London	77	78
North East	87	96
North West	84	79
South East	93	90
South West	89	87
West Midlands	87	87
Yorkshire and the Humber	88	90
1 child	82	82
2 children	89	86
3 or more children	91	89
All families	87	85

Danny Alexander: To ask the Secretary of State for Children, Schools and Families what forecast he has made of the number of *(a)* one and *(b)* two parent families taking up child care places in each quarter in each of the next 10 years, broken down by (i) income decile, (ii) ethnicity and (iii) region, (iv) family size. [176691]

Beverley Hughes: Section 11 of the Childcare Act 2006, which came into force in April 2007, placed a duty on local authorities to complete a child care sufficiency assessment before April 2008. They will have to complete an assessment at least every three years, and keep it under review between assessments, especially where there are key demographic changes or as new data become available.

The assessment process will give local authorities the evidence and information they need to facilitate and shape a child care market that is flexible, sustainable and responsive to parents' needs. It will also help local authorities to develop their strategies for meeting the new duty to secure sufficient child care which will start in April 2008.

Estimates of the proportion of one and two parent families taking up child care places in 2004 by

household income, ethnic group, region and family size are available from the 2004 Parents' Childcare Survey[1] and these figures are provided in the following table.

[1] Childcare and Early Years Provision: A Study of Parents' Use, Views and Experiences, Research Report 723; DfES. Bryson, C., Kazimirski, A. and Southwood, H. (2006). This report is available at:

http://www.dfes.gov.uk/research/data/uploadfiles/RR723.pdf

Proportion of lone parents and couples that used child care in the last year by household income, ethnicity, region and family size

	Percentage	
	Couples	*Lone parents*
Under £10,000	75	81
£10,000-£19,999	82	88
£20,000-£31,999	88	92
£32,000+	92	88
White	89	86
Black and Minority Ethnic Groups	75	80
East Midlands	87	80
East of England	89	83
London	77	78
North East	87	96
North West	84	79
South East	93	90
South West	89	87
West Midlands	87	87
Yorkshire and the Humber	88	90
1 child	82	82
2 children	89	86
3 or more children	91	89
All families	87	85

Danny Alexander: To ask the Secretary of State for Children, Schools and Families how many hours of child care on average a family using child care received in each year since 1997, broken down by *(a)* income decile, *(b)* ethnicity and *(c)* region. [176692]

Beverley Hughes: The Parents' Childcare Survey collects information on hours of child care used by all children in the family in the last week. Details about number of hours of child care used in the last year are not collected as this would place too great a burden on respondents.

The 2004 Parents' Childcare Survey[1] estimated that on average each family using child care used 26 hours of child care in the week before their interview.

The average number of hours of child care used in the last week by household income, ethnic group and region is shown in the following table. Income deciles cannot be calculated as the income data are collected in bands rather than actual amounts.

Estimates in this form are not available for earlier years.

[1] Childcare and Early Years Provision: A Study of Parents' Use, Views and Experiences, Research Report 723; DfES. Bryson, C., Kazimirski, A. and Southwood, H. (2006). This report is available at:

http://www.dfes.gov.uk/research/data/uploadfiles/RR723.pdf

Average hours of child care used in the last week, among all families using child care, by household income, ethnicity and region

	Mean hours of childcare used
Under £10,000	26
£10,000-£19,999	28
£20,000-£31,999	24
£32,000+	27
White	26
Black and Minority Ethnic Group	27
North East	26
North West	27
Yorkshire and Humber	26
East Midlands	26
West Midlands	28
East	24
London	28
South East	27
South West	22
All families	26

Danny Alexander: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the average cost of an hour of child care from an Ofsted registered provider, broken down by region. [176694]

Beverley Hughes: Data on the average hourly costs of child care from Ofsted registered providers are collected as part of the Childcare and Early Years Providers Survey. The following table shows the estimated average hourly fees charged by Ofsted registered childcare providers by region, based on the 2006 childcare and early years providers survey.

Average hourly fees charged by region

	Full day care	*Sessional*	*After school clubs*	*Holiday clubs*	*Childminders*
Overall average hourly fee	2.70	1.90	2.30	1.70	3.20
East Midlands	2.70	1.60	2.30	1.20	2.90
East	2.60	2.00	2.50	1.70	3.30
London	2.90	2.10	2.00	1.40	3.90
North East, Yorkshire and Humberside	2.60	1.60	2.30	1.30	3.00
NorthWest	2.60	1.60	2.10	1.50	2.90
South East	2.80	2.20	2.40	1.60	3.40
SouthWest	2.80	1.90	2.30	1.50	3.10

Average hourly fees charged by region

	Full day care	*Sessional*	*After school clubs*	*Holiday clubs*	*Childminders*
West Midlands	2.70	2.40	2.40	1.20	2.80

The fees data collected in this survey should be treated with caution as the figures have been derived from a number of variables. In addition a large number of providers who responded to the survey were unwilling or unable to provide details on the fees they charged.

Departmental Aviation

Mr. Hayes: To ask the Secretary of State for Children, Schools and Families how much has been spent by his Department on international flights since it was established. [174351]

Kevin Brennan: Since 1999 the Government have published a list of all overseas travel by Cabinet Ministers costing over £500. Information for the last financial year was published on 25 July 2007. Details for the current financial year will be published as soon as possible after the end of the financial year. From next year, the list will include details of overseas visits undertaken by all Ministers. All ministerial travel is undertaken in accordance with the Ministerial Code.

Information in respect of flights taken by officials could be provided only at disproportionate cost.

Departmental Consultants

Jon Trickett: To ask the Secretary of State for Children, Schools and Families how much was paid in consultancy fees by his Department and its predecessors in each year since 1997. [171996]

Kevin Brennan: Historical figures are not available for the Department for Children, Schools and Families and could be provided only at disproportionate cost.

Figures for the Department for Education and Skills show that it spent £66.6 million on consultancy from 2005-06 to 2006-07. This figure comprises £7.6 million charged to administration budgets; and £59 million charged to programme budgets.

Figures for the Department for Education and Skills show that the following costs of consultancy were charged to administration budgets from 1997:

	£ million
1997-98	3.9
1998-99	5.0
1999-2000	3.7
2000-01	4.3
2001-02	5.0
2002-03	4.0
2003-04	4.7
2004-05	3.9
2005-06	3.5
2006-07	4.1

The costs of consultancy charged to programme budgets before November 2004 were not recorded centrally and could be provided only at disproportionate cost. The total cost of consultancy charged to programme budgets from November to March 2004-05 was £4.4 million, and from April 2005 to March 2007 was £59 million.

Departmental Information Officers

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many press officers are employed by his Department. [163211]

Kevin Brennan: The Department for Children, Schools and Families currently employs the full-time equivalent of 23 press officers. This team provides a 24 hour service to national, regional and specialist sector media.

Departmental Manpower

Tom Brake: To ask the Secretary of State for Children, Schools and Families how many and what proportion of posts in his Department were recategorised from back office to frontline posts as classified by the Gershon efficiency review in each year since 2004. [172248]

Kevin Brennan: The Department for Children, Schools and Families is committed to achieving its workforce reduction target, shared with the Department of Innovation, Universities and Skills, by the end of 2007/08. This is a net target and no posts will be reallocated to the frontline as part of it.

Mrs. May: To ask the Secretary of State for Children, Schools and Families how many *(a)* men and *(b)* women of each Civil Service grade are employed by his Department. [172730]

Kevin Brennan: The following table sets out how many men and women are employed in each civil service grade in my Department:

Grade	*(a) Men*	*(b) Women*	*Total*
Support Grade Band 1	9	6	15
Support Grade Band 2	35	11	46
Executive Assistant (EA)[1]	106	299	405
Executive Officer (EO) and equivalents	220	426	646
Higher Executive Officer (HEO) and equivalents	288	353	641
Senior Executive Officer (SEO) and equivalents	200	242	442
Grade 7 and equivalents	230	242	472
Grade 6	76	73	149
Senior Civil Service (SCS)	60	47	107
DCSF total	1,224	1,699	2,923

[1] The Department for Children, Schools and Families has recently merged the Administrative Assistant (AA) and Administrative Officer (AO) Civil Service grades into an Executive Assistant (EA) role.

Departmental Publicity

David Simpson: To ask the Secretary of State for Children, Schools and Families how much has been spent by his Department on advertising in the last 12 months. [167962]

Kevin Brennan: In 2006-07 the Department (then the Department for Education and Skills) spent £6.265 million on advertising as part of information campaigns. Additionally, the Department's spend in advertising vacancies at senior civil service level for the last financial year was £97,605.00. The costs for advertising vacancies below senior civil service level are not recorded in the same way and figures could be obtained only at disproportionate cost.

Departmental Sick Leave

David Simpson: To ask the Secretary of State for Children, Schools and Families how many staff in his Department have been *(a)* disciplined and *(b)* had their employment terminated as a result of a poor sickness record in each of the last five years. [163679]

Kevin Brennan: The information requested is as follows:

	Staff disciplined	*Employment terminated*
2006	1	1
2005	1	1
2004	2	1
2003	0	0
2002	0	0

Educational Psychology

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) what progress is being made on the implementation of recommendations from the Children's Workforce Development Council on the training of educational psychologists; [174592]

(2) what plans he has to ensure adequate numbers of educational psychologists over the next 10 years; and if he will take steps to ensure that their numbers do not fall below the current level; [174593]

(3) how many educational psychologists are employed by local authorities in England; [174595]

(4) what assessment he has made of the role of educational psychologists in the education system; [174733]

(5) whether agreement has been reached between his Department and the Local Government Association on funding for the training of educational psychologists. [174734]

Kevin Brennan: My noble Friend the Parliamentary Under-Secretary of State for Schools and Learners has signalled his support for the recommendations contained within the Children's Workforce Development Council's (CWDC) paper on educational psychologists (EPs), which identified a number of options for the future funding and administration arrangements in relation to the initial entry training of EPs.

We have asked the CWDC and the Local Government Association, as the representative body of the local authority employers, to take matters forward in terms of the funding and administration of trainee EP places/courses commencing in September 2008. Further information can be accessed via the CWDC website at:

www.cwdcouncil.org.uk/educationalpsychology

The full-time equivalent number of EPs in post in local authorities in England, as at January 2007, was 2,352, with 73 full-time vacancies. EPs are employed by local authorities, and it is for those authorities to determine how many to employ in light of their assessment of local needs and available resources, and to plan for future needs. It is not the role of the Department to undertake any manpower planning or funding assessment for this group of local authority employees.

EPs play an important role in assessing special educational needs and in helping to formulate support arrangements for children with a wide range of needs, including those with behavioural, emotional and social difficulties. The value of their contribution was confirmed in an independent study, conducted by the School of Education, University of Manchester, published by the Department on 31 August 2006. A copy of the report, "A Review of the Functions and Contribution of Educational Psychologists in England and Wales in light of Every Child Matters: Change for Children" (Research Report No. 792) was placed in the House of Commons Library, and can also be accessed via the Department's research website:

www.dcsf.gov.uk/research.

Further Education: Truancy

Michael Gove: To ask the Secretary of State for Children, Schools and Families what proportion of persistent truants went on to post-16 education in the latest period for which figures are available. [174205]

Kevin Brennan: The information requested can be provided only at disproportionate cost.

General Certificate of Secondary Education: Truancy

Michael Gove: To ask the Secretary of State for Children, Schools and Families what proportion of persistent truants gained five A* to C grades including English and mathematics in the last year. [174294]

Kevin Brennan: The information requested can be provided only at disproportionate cost.

Illegal Immigrants

Damian Green: To ask the Secretary of State for Children, Schools and Families how many illegal immigrants have been discovered working for his Department and its agencies in the last year for which figures are available. [170480]

Kevin Brennan: No illegal immigrants have been discovered working for my Department or its agencies.

Nurseries: Copeland

Mr. Jamie Reed: To ask the Secretary of State for Children, Schools and Families how many free nursery places have been provided within Copeland over the last five years. [175943]

Beverley Hughes: The available information is shown in the table.

The table provides information about the part-time equivalent number of free early education places filled by three and four-year-olds in Copeland parliamentary constituency area. Data are provided for 2004-07 only because data are not available at constituency level for 2003.

Number of part-time funded places[1, 2, 3] filled by three and four-year-olds, parliamentary constituency: Copeland, position in January

	Three-year-olds			Four-year-olds		
	Maintained nursery and primary schools[4]	*Other maintained and private, voluntary and independent providers[5]*	*Total three-year-olds*	*Maintained nursery and primary schools[6]*	*Other maintained and private, voluntary and independent providers[7]*	*Total four-year-olds*
2004	380	240	630	630	90	720
2005	400	250	640	610	90	690
2006	400	240	630	580	100	690
2007	390	270	660	600	90	690

[1] A place is equal to five or more sessions and can be filled by more than one child.
[2] Figures are rounded to the nearest 100 if they exceed 1,000 and to the nearest 10 otherwise.
[3] Prior to 2004, information on early education places was derived from returns made by local authorities as part of the nursery education grant (NEG) data collection exercise. These data were collected at local authority level, therefore, data for this parliamentary constituency for 2003 is not available.
[4] Headcount of children aged three at 31 December in the previous calendar year from the Schools Census.
[5] Part-time equivalent number of children aged three at 31 December in the previous calendar year from the Early Years Census and the Schools Census.
[6] Headcount of children aged four at 31 December in the previous calendar year from the Schools Census.
[7] Part-time equivalent number of children aged four at 31 December in the previous calendar year from the Early Years Census and the Schools Census.

The latest figures on early education places for three and four-year-olds in England were published in Statistical First Release (SFR) 19/2007 "Provision for children under five years of age in England: January 2007", available on my Department's website at www.dfes.gov.uk/rsgateway/

Pupil Exclusions

Mr. Randall: To ask the Secretary of State for Children, Schools and Families (1) what proportion of fixed period exclusions were given to pupils *(a)* with special educational needs and *(b)* entitled to free school meals in (i) secondary and (ii) primary schools in (A) Uxbridge constituency, (B) each London borough and (C) England in each year since 1997; [171482]

(2) what percentage of secondary school sessions were missed through unauthorised absences in *(a)* Uxbridge constituency, *(b)* each London borough and *(c)* England in each year since 1997. [171483]

Kevin Brennan: The requested information on fixed period exclusions can be provided only at disproportionate cost.

Information on unauthorised absence has been published, at school level, as part of the achievement and attainment tables. This can be found at:

http://www.dcsf.gov.uk/performancetables/

The latest available information on absence covers autumn term 2006 and spring term 2007 and includes information at national and regional level. This is published at:

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000756/index.shtml

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many *(a)* primary and *(b)* secondary pupils received a permanent exclusion in the last three years, broken down by age. [174220]

Kevin Brennan: The readily available information requested is shown in the table.

Maintained primary, secondary and special schools[1, 2]: Number of permanent exclusions by age, England, 2003/04 to 2005/06 (Estimates)[3]

	Number of Permanent Exclusions		
	2003/04	*2004/05*	*2005/06*
Number of exclusions			
Age[4]:			
4 and under	20	60	10
5	50	40	50
6	90	60	80
7	160	110	120
8	230	190	180

19 and over	*	0.00	0.00
Total	0.13	0.12	0.12

* = Less than 5, or a rate based on less than 5.
[1] Includes middle schools as deemed.
[2] Includes both maintained and non-maintained special schools.
[3] Figures relating to permanent exclusions are estimates based on incomplete pupil-level data.
[4] Age as at 31 August prior to start of academic year.
[5] The number of exclusions expressed as a percentage of the number (headcount) of pupils of each age in primary, secondary and special schools (excluding dually registered pupils in special schools) in January 2003.
Note:
Totals may not appear to equal the sum of component parts because numbers have been rounded to the nearest 10.

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many *(a)* primary and *(b)* secondary school pupils received a fixed period exclusion in the last three years, broken down by age. [174221]

Kevin Brennan: The information requested can be provided only at disproportionate cost.

The latest available information on the number of fixed period exclusions by age is shown in the table. This relates to local authority maintained secondary schools only and to the number of episodes of fixed period exclusion. Some pupils will have several episodes of fixed period exclusion during the academic year.

Maintained secondary schools[1, 2]: Number of fixed period exclusions by age—England 2005/06

[1] Includes middle schools as deemed.
[2] For the 2005/06 school year, information on fixed period exclusions from secondary schools was collected via the School Census for the first time (the Termly Exclusions Survey has been discontinued). For exclusions during 2006/07, information on fixed period exclusions will also be collected from primary and special schools. See Notes to Editors 2.
[3] Age as at 31 August 2005.
[4] Less than 5, or a rate based on less than 5.
[5] There were 143 exclusions for which gender and age was unclassified. These have been included in the total only.
[6] The number of exclusions expressed as a percentage of the number (headcount) of pupils of each age in secondary schools as at January 2006.
Note:
Totals may not appear to equal the sum of component parts because numbers have been rounded to the nearest 10.
Source:
School Census.

Mr. Hayes: To ask the Secretary of State for Children, Schools and Families how many exclusions there were of *(a)* boys and *(b)* girls from schools in England in each year since 1997. [174534]

Kevin Brennan: The information requested for permanent exclusions is shown in the table.

Information on fixed period exclusions was collected for the first time for the academic year 2003/04. The number of fixed period exclusions for maintained primary, maintained secondary and all special schools for 2003/04 and 2004/05 and the number of fixed period exclusions for maintained secondary schools only for 2005/06 are shown in the tables.

Maintained primary, secondary and special schools[1,2]: Number of permanent exclusions by gender—England, 1997/98 to 2005/06 (Estimates)[3]

	1997/98	1998/99	1999/2000	2000/01[3]	2001/02[3]	2002/03[3]	2003/04[3]	2004/05[3]	2005/06[3]

Termly exclusions survey.

Maintained secondary schools[1,2]: Number of fixed period exclusions by gender—England 2005/06[3]

	Fixed period exclusions		
	Boys	Girls	Total
Number of exclusions	248,950	94,750	343,840
Percentage of school population[4]	14.96	5.77	10.40

[1] Includes middle schools as deemed. [2] For the 2005/06 school year, information on fixed period exclusions from secondary schools was collected via the School Census for the first time (the Termly Exclusions Survey has been discontinued). For exclusions during 2006/07, information on fixed period exclusions will also be collected from primary and special schools. [3] There were 140 exclusions for which gender was unclassified. These have been included in the total only. [4] The number of exclusions expressed as a percentage of the number (headcount) of pupils of each age in secondary schools as at January 2006. # less than 5, or a rate based on less than 5. *Note:* Totals may not appear to equal the sum of component parts because numbers have been rounded to the nearest 10. *Source:* School Census.

Pupil Exclusions: Free School Meals

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils received a *(a)* fixed period and *(b)* permanent exclusion in the last 12 month period for which figures are available, broken down by (i) ethnicity and (ii) sex; and how many of each were in receipt of free school meals at the time of their exclusion. [174291]

Kevin Brennan: The readily available information is shown in the tables. The provision of further information on excluded pupils free school meal eligibility would involve disproportionate cost.

Maintained primary, secondary and special schools[1,2]: Number of permanent exclusions by ethnic group and gender[3], England, 2005/06 (Estimates)[4]

	Boys		Girls		Permanent exclusions[4] Total

School Census.

Pupil Referral Units

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the effectiveness of pupil referral units; and if he will make a statement. [173244]

Kevin Brennan: The effectiveness of pupil referral units is judged by the Office for Standards in Education (Ofsted) as part of the normal regime for the inspection of schools. Ofsted's latest annual report (2006/07) showed that 52 per cent. of pupil referral units were good or outstanding overall. 33 per cent. were satisfactory and 14 per cent. were inadequate.

Schools: Intimidation

Mr. Hayes: To ask the Secretary of State for Children, Schools and Families how many incidents of bullying occurred in schools in each local education authority area of England in each year since 1997. [167718]

Kevin Brennan: The requested information is not collected centrally.

Tables showing the number of permanent and fixed period exclusions in each local authority area by reason for exclusion have been placed in the library. This includes a category relating to bullying.

Schools: Sports

Mr. Jenkins: To ask the Secretary of State for Children, Schools and Families what steps his Department is taking to encourage more school students to participate in competitive sport; and what plans he has to take steps further to improve the rate. [173254]

Kevin Brennan: Increasing inter and intra-school sporting opportunities is a key component of the national school sport strategy, which is delivered jointly by the Department for Children Schools and Families and the Department for Culture Media and Sport.

The 2006-07 school sport survey showed that:

98 per cent. of schools held a competitive sports day,

58 per cent. of pupils were involved in intra-school competition, and

35 per cent. of all pupils were involved in inter-school competition.

Earlier this year the Prime Minister announced extra funding to extend the number of competition managers to at least 225 by the beginning of 2009. Competition managers are creating a stronger framework for competitive sport and working across primary and secondary schools to increase the amount of competitive sport they offer.

In addition we are introducing a new national school sport week, championed by Dame Kelly Holmes, to encourage all schools to run sports days and tournaments. This will build on the success of the UK School Games and its impact on motivating young people to take part in competitive sport.

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families what steps the Government has taken, to assist schools increasing participation in extra-curricular sports. [174160]

Kevin Brennan *[holding answer 18 December 2007]:* The Departments for Culture, Media and Sport, and Children, Schools and Families, are working together to deliver the National School Sport Strategy. The strategy's current aim is to increase the percentage of five to 16-year-olds participating in at least two hours a week of high quality PE and sport at school and, from 2008/09, the percentage of five to 19-year-olds participating in at least three further hours a week of sporting opportunities, in and out of school.

Secondary Education: Truancy

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the *(a)* absence rate and *(b)* unauthorised absence rate was in secondary schools with (i) up to and including 500 pupils, (ii) 501 to 1,000 pupils, (iii) 1,001 to 1,500 pupils, (iv) 1,501 to 2,000 pupils and (v) more than 2,000 pupils in the latest period for which figures are available. [174190]

Kevin Brennan: The information requested can be provided only at disproportionate cost.

Sure Start Programme: Copeland

Mr. Jamie Reed: To ask the Secretary of State for Children, Schools and Families (1) how much funding to support the work of Sure Start within Copeland has been provided over the last five years; [175944]

(2) how many families have accessed health and support from the Sure Start programme within Copeland over the last five years. [175945]

Beverley Hughes: The Sure Start Local Programme in Whitehaven, Copeland, received revenue and capital funding directly from the then Department for Education and Skills until March 2006. Since April 2006 revenue funding for all Sure Start Local Programmes (SSLPs) has been included in the General Sure Start Grant allocated to local authorities.

Funding for Copeland is therefore not allocated separately but is included in Cumbria county council's

General Sure Start Grant (from April 2008 the Sure Start, Early Years and Childcare Grant) which includes revenue and capital for Sure Start Children's Centres. Local authorities are responsible for allocating the children's centre funding that they receive from my Department to the Sure Start Children's Centres in their area. In 2006-07 this grant included £3,482,237 in ringfenced revenue funding to support five SSLPs in Cumbria. Cumbria county council, like all other local authorities with ringfenced SSLP funding, has the freedom to determine the level of resource for each individual SSLP in its area. The following table shows allocations for the five financial years between 2002 and 2007.

Cumbria Sure Start allocations

	Revenue			*Capital*	
	Copeland/Whitehaven	*All Sure Start local programmes in Cumbria*	*All Sure Start children's centres in Cumbria*	*Copeland/Whitehaven*	*All Sure Start children's centres in Cumbria*
2002-06[1]	3,294,487	–	831,214	332,196	3,051,844
2006-07[2]		3,482,237	2,353,801		2,277,971

[1] Figures for 'Copeland/Whitehaven' relate to the revenue and capital grant allocated directly to the Sure Start Local programme in Whitehaven for the four financial years between 2002 and 2006. Figures for 'All Sure Start Children's Centres in Cumbria' show revenue and capital funding for the two financial years between 2004 and 2006.

[2] The capital allocation for 'All Children's Centres in Cumbria' in 2006-07 includes capital funding for childcare sustainability and extended schools as well as Sure Start Children's Centres. The local authority had the flexibility to decide how much of this capital funding it spent on centres.

Data on the number of families accessing health and support services in Sure Start centres are not collected centrally. Sure Start Whitehaven was originally set up to support 706 children under four and their families, but when it became a Sure Start Children's Centre in 2005 its 'catchment area' was increased to support 900 children under five and their families. Cumbria county council has developed sixteen Sure Start Children's Centres, four of which (including the one based on Sure Start Whitehaven) are in the Copeland area. According to information from Cumbria county council these four centres serve 1,753 children under five and their families.

Truancy

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils in *(a)* primary and *(b)* secondary schools have been classed as persistent truants in each of the last 10 years for which figures are available. [174295]

Kevin Brennan: Data which enabled analysis of absence data to include information on persistent absentees were collected for the first time, from secondary schools only, for the academic year 2005/06. The information was published as part of SFR 11/2007 which can be found at:

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000718/index.shtml

The latest published data cover autumn term 2006 and spring term 2007 and include data for primary schools. This was published as part of SFR 36/11 and can be found at:

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000756/index.shtml

Written Questions

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families when he will reply to the questions *(a)* 168899 on services provided by Capita and *(b)* 165763 on CfBT Education Trust tabled by the hon. Member for Bognor Regis and Littlehampton on 21 November. [174731]

Kevin Brennan: I responded to parliamentary question 165763 on 21 November 2007, *Official Report*, column 952W and parliamentary question 168899 on 18 December 2007, *Official Report*, column 1254W.

PRIME MINISTER

Deborah Mattinson

Mrs. May: To ask the Prime Minister whether Deborah Mattinson has *(a)* a desk, *(b)* a telephone, *(c)* office facilities and *(d)* administrative support provided in No. 10 Downing street. [172751]

The Prime Minister: I refer the right hon. Member to the answer given to her by my right hon. Friend the Minister for the Cabinet Office (Edward Miliband) on 18 December 2007, *Official Report*, column 1285W.

Departmental Publicity

Mr. Philip Hammond: To ask the Prime Minister how much his Office spent on managing its corporate identity in the last 12 month period for which figures are available. [167343]

The Prime Minister: I refer the hon. Member to the answer given to him by my hon. Friend the Parliamentary Secretary for the Cabinet Office (Gillian Merron) on 7 January 2008, *Official Report*, column 86W.

WALES

Departmental Parliamentary Questions

Mr. Harper: To ask the Secretary of State for Wales how many staff work in his Department's parliamentary branch; and what proportion of their time is spent on dealing with *(a)* Parliamentary Questions and *(b)* correspondence from hon. Members and Peers. [174963]

Mr. Hain: My parliamentary branch consists of two full-time members of staff. Written parliamentary questions take up an estimated 30 per cent. of their time and correspondence an estimated 5 per cent.

Members' Correspondence

Mr. Harper: To ask the Secretary of State for Wales how many letters his Department received from hon. Members and Peers in each session of Parliament since 1997. [174930]

Mr. Hain: Correspondence statistics prior to 2005 can be provided only at a disproportionate cost. The figures for 2005 and 2006 are:

	January-December 2005	*January-December 2006*
Hon. Members	148	48
Peers	6	26

DUCHY OF LANCASTER

Charities: Student Unions

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster what guidance the Charity Commission has produced on political campaigning by student unions which have charitable status; and when it was last revised. [175168]

Gillian Merron: This is a matter for the Charity Commission as the non-ministerial Government Department responsible for the regulation of charities in England and Wales. The chief executive of the Charity Commission will write to the hon. Member and a copy of his reply will be placed in the Library for the reference of Members.

Delivery Services

Mr. Carmichael: To ask the Chancellor of the Duchy of Lancaster which companies are under contract to *(a)* the Cabinet Office, *(b)* the Prime Minister's Office and *(c)* the Leader of the House's Office to provide mail services. [170178]

Gillian Merron: The Prime Minister's Office and the Leader of the House's Office form an integral part of the Cabinet Office Estate. The vast majority of external mail services for the Cabinet Office are provided by Royal Mail. Commercial delivery services are used when a 'same day' service is required within the UK and for time sensitive international deliveries. There are no formal contracts with these companies.

Internal postal services are provided by the Cabinet Office's total facilities management provider (Ecovert FM). Following a competitive tendering exercise, the Cabinet Office entered into a total facilities management contract with Ecovert FM in April 2002 for a period of seven years, with the option to extend by a further three years.

Departmental Consultants

Jon Trickett: To ask the Chancellor of the Duchy of Lancaster how much was paid in consultancy fees by his Department in each year since 1997. [172083]

Gillian Merron: Expenditure on consultancy fees incurred in my Department in each year since 1997-98 can be found in the following table.

	£ million
1997-98	5.5
1998-99	7.4
1999-2000	10.2
2000-01	10.9
2001-02	16.9
2002-03	13.4
2003-04	15.9
2004-05	12.7
2005-06	22.0
2006-07	14.3

The increased costs in 2005-06 relate mainly to expenditure on shared services feasibility work, SCOPE cross-departmental information strategy, development of the Government Gateway and departmental capability reviews.

Emergencies: Floods

Miss McIntosh: To ask the Chancellor of the Duchy of Lancaster what plans the Government has to release a civil contingencies response to a severe flooding scenario. [174280]

Mr. Woolas: I have been asked to reply.

DEFRA's Lead Government Department Plan for flooding in England, which is published on the DEFRA website, draws on the arrangements in the Civil Contingencies Act 2004. At national level, flood events will be co-ordinated by DEFRA with escalation of serious flooding to Cabinet Office briefing room (COBR). The operational response is led by the police in Gold Command.

At the local level, responders are required to assess the risk of flooding and prepare contingency plans accordingly. Where required, the operational response is led by the police in conjunction with other emergency services, local authorities and others including the Environment Agency.

Russell Commission

Mike Penning: To ask the Chancellor of the Duchy of Lancaster (1) which organisations have received grants from the Russell Commission since March 2006; and if he will make a statement; [173625]

(2) what assessment he has made of the performance of organisations that have received grants from the Russell Commission since March 2006; and if he will make a statement. [173626]

Gillian Merron: I refer the hon. Member to the answer given by my hon. Friend the Parliamentary Secretary for the Cabinet Office (Phil Hope) on 3 December 2007, *Official Report*, column 849W.

Voluntary Organisations: Finance

Keith Vaz: To ask the Chancellor of the Duchy of Lancaster how voluntary organisations that help communities are informed of what funding is available to them. [176835]

Gillian Merron: Advice for third sector organisations on where to start looking for funding and finance opportunities is available on the Office of the Third Sector's website at:

http://www.cabinetoffice.gov.uk/third_sector/funding_finance_support/funding_finance_guidance.aspx

This site includes details on how third sector organisations can access advice and training to help them apply for funding, as well as providing links to useful documents including, "Guide to Government Assistance to the Third Sector", published by the Treasury in 2006. The site also includes links to external sources of information including the Government Funding Portal, an online resource that details central Government grants available to third sector organisations across all Departments, and to Directgov, which includes other useful information, including guidance on how to find local sources of funding.

JUSTICE

Electoral Register

Mr. Pickles: To ask the Secretary of State for Justice whether he plans to bring forward proposals for automatic voter registration to tackle under-representation by minority groups; and if he will make a statement. [176396]

Bridget Prentice: The Government want to ensure that every eligible elector is presented with the opportunity to register to vote through a simple and convenient registration process. However, at present the Government have no plans to introduce automatic electoral registration.

The franchise arrangements for elections in the UK vary by nationality. In practice, electoral registration officers would not be able to identify an individual's entitlement to vote in each type of election when they come into contact with the local authority because they would also require details of that person's age and nationality to ensure their franchise rights were correctly established. Current legislation also requires an elector to provide a signature when completing the annual canvass form or a rolling registration form. This is an important security requirement.

The Government want to protect the rights of every eligible person to participate in the UK's democratic process by ensuring complete, accurate and secure electoral registration. The Government continue to monitor electoral registration in the UK to ensure that this is being achieved.

Fraud: Elections

Mr. Pickles: To ask the Secretary of State for Justice if the Government will introduce the Northern Ireland system of individual electoral registration in Great Britain to tackle postal vote fraud. [176524]

Bridget Prentice: The Government agree with the principle of individual registration but is not yet convinced that it could be implemented in Great Britain (GB) without causing a significant number of eligible electors to fall off the register. Individual registration was introduced in NI in response to specific concerns about the integrity of the electoral register. Any new system of electoral registration in GB would need to be tailored to current circumstances, and in particular would need to address the challenge of under registration in GB, where an estimated 3.5 million eligible electors are not registered to vote.

The Government have taken extensive steps to tackle postal voting fraud. In the Electoral Administration Act 2006 the Government introduced a number of new measures to tackle postal voting fraud. These include:

Creating a new offence of falsely applying for a postal vote;

Requiring postal voters to provide their signature and date of birth, both when they apply for a postal vote and when they return their postal vote at an election; and

Imposing a duty on the Electoral Registration Officer to ensure electoral registers are accurate and comprehensive.

Health and Safety at Work etc. Act 1974

Harry Cohen: To ask the Secretary of State for Justice what the outcome has been of the examination of individual liability through the review of the Health and Safety at Work, etc. Act 1974, with reference to the statement of the Parliamentary Under-Secretary of State of 16 May 2007, *Official Report*, column 705, on corporate manslaughter and homicide. [171345]

Mrs. McGuire: I have been asked to reply.

The Government are keeping under review the need for further legislation placing duties on individual directors.

Following its review in 2006, the Health and Safety Commission took steps to strengthen the existing arrangements on directors' responsibilities for health and safety. The Commission will evaluate the impact on directors' behaviour of these steps in the context of wider developments such as the Corporate Manslaughter and Corporate Homicide Act, and advise Ministers.

Land Registry

Mr. Hancock: To ask the Secretary of State for Justice what his timetable is for the settlement of the pay award for 2007 for Land Registry staff; for what reasons the settlement has not yet been reached; what the timetable is for the 2008 settlement; and if he will make a statement. [175618]

Mr. Wills: Land Registry made a formal pay offer to the Unions on 21 December and is aiming to pay the award to staff in February 2008.

After the publication of the remit guidance preliminary meetings were held with the Unions to obtain their views on what Land Registry should request in its pay remit. The pay remit was initially submitted to the Treasury on 10 August 2007 and, after correspondence with Treasury officials, was resubmitted on 5 October 2007. Land Registry staff have been kept regularly informed of progress of the

pay review. Clearance of the pay remit was received from the Treasury on 3 December 2007. Meetings were then held with the Unions on 6 December, 11 December and 19 December.

Until the 2007 pay review is settled, Land Registry will continue to apply the rules agreed for the 2006 pay settlement that ended on 31 May 2007.

Land Registry is not in a position to confirm the timetable for the 2008 pay award. However, the target settlement date remains 1 June 2008 and Land Registry will do its utmost to work with the Unions to reach a conclusion as close to 1 June as possible.

Angela Browning: To ask the Secretary of State for Justice what the average cost to the Land Registry was of processing a land registry search for a domestic property in England for the purposes of a sale in 2006-07. [174019]

Mr. Wills: Land Registry is a trading fund and is required to recover the costs of its operation from fee income, together with a return on average capital employed, currently 3.5 per cent. In 2006-07 Land Registry dealt with 4.38 million official searches in England and Wales. It is not possible to distinguish whether these were on domestic or other types of properties. The estimated cost was £16.25 million, including the return on average capital employed of 3.5 per cent. This gives an average cost of £3.71 per transaction. It is important to note that this information is obtained from sampling exercises and is purely an estimate. Sampling exercises are carried out to inform the required level of Land Registry fees charged to customers. Currently, the fee charged for an Official Search of the Land Register for England and Wales is £3 if the application is made electronically or £6 if made by post or in person. Land Registry does not collect detailed information on resource utilization for non-electronic applications for its statutory land registration services as the administrative cost of doing so would be significant and would have to be passed on to its customers.

Prisoners: Drugs

Nia Griffith: To ask the Secretary of State for Justice (1) what the highest number was of drug-related offences committed by one individual in the latest period for which figures are available; [174737]

(2) how many offences were drug related, including those not charged but taken into account, in the latest period for which figures are available; [174738]

(3) what proportion of the total number of offences recorded in the last 12 months were drug related. [174740]

Mr. Coaker: I have been asked to reply.

Data collected centrally on recorded crime do not identify whether offences are drug related. We are unable to provide information on drug related offences committed by individuals or those taken into account. The recorded crime statistics do include the number of specific drug offences; there were 194,302 drug offences, in total, recorded in England and Wales in 2006-07.

Sexual Orientation Regulations 2007

Jo Swinson: To ask the Secretary of State for Justice how many claims of discrimination have been made under the Sexual Orientation Regulations 2007 to date. [172327]

Barbara Follett: I have been asked to reply.

We do not hold this data centrally, but to date we are not aware of any claims having been brought.

Voting Rights

Mr. Pickles: To ask the Secretary of State for Justice what plans he has to ensure that 100 per cent. of identifiers of postal votes are checked in election counts for the 2008 local and London elections. [176519]

Bridget Prentice: Returning officers are currently required to check personal identifiers on at least 20 per cent. of returned postal votes at elections though they have discretion to check a higher proportion, or all, of the returned postal votes. The Government have indicated in their response to the Electoral Commission's evaluation report 'The introduction of absent voting personal identifiers in England and Wales'(www.justice.gov.uk/publications/absent-voting-identifiers.htm) that they agree with the Commission that no changes to the legislation for the checking of identifiers at elections should be contemplated for implementation in England and Wales prior to 31 May 2008. It is therefore not planned to mandate 100 per cent. checking of returned postal votes at the elections scheduled for May 2008. The Government are committed to the principle that 100 per cent. of returned postal votes should be checked, and work with the Electoral Commission, electoral administrators and software suppliers in order to establish when it will be appropriate and safe to mandate 100 per cent. checking of returned postal votes.

Young Offenders

David Howarth: To ask the Secretary of State for Justice how many first time entrants to the youth justice system there were in 2006-07. [175996]

Beverley Hughes: I have been asked to reply.

Data collected from Youth Offending Teams in England and Wales, and verified by the Youth Justice Board, indicate that there were 93,730 first-time entrants to the criminal justice system during 2006-07.

WORK AND PENSIONS

Child Maintenance and Enforcement Commission

Mr. Wallace: To ask the Secretary of State for Work and Pensions what assessment was made of the likely responsibilities of the Child Maintenance and Enforcement Commission in determining changes in the numbers of officials employed by the Child Support Agency. [172721]

Mr. Plaskitt: Current staffing reductions in the Child Support Agency are part of the Department-wide headcount reduction targets, which relate to the period ending in March 2008. They are not linked to the set up of the Child Maintenance and Enforcement Commission, and the Commission has no responsibility for these reductions.

Child Support Agency: Payments

Julia Goldsworthy: To ask the Secretary of State for Work and Pensions how many requests were made for consolatory payments by the Child Support Agency in each year since 1997. [172828]

Mr. Plaskitt: The information requested is unavailable.

Children: Maintenance

Mr. Wallace: To ask the Secretary of State for Work and Pensions what procedures will be put in place to monitor the private child maintenance arrangements included in the Child Maintenance and Other Payments Bill. [172722]

Mr. Plaskitt: The Child Maintenance and Enforcement Commission's Information and Support Service will help parents to put in place effective private arrangements by providing information on how to review, renegotiate or re-establish arrangements if they break down. We expect the Commission will provide parents with a template enabling them to calculate, record and agree the terms of their arrangement between themselves. We recognise that maintenance arrangements can last for many years and therefore expect the Commission will also encourage parents to re-contact the Information and Support Service at any point if their arrangement breaks down. Help at this point may include supporting parents across to the statutory maintenance service for a more formal and enforceable arrangement.

We are also committed to evaluating how the objectives of the redesigned system are being met including looking at the numbers of effective voluntary arrangements. This will be through both qualitative and quantitative research as well as the use of surveys such as the Family Resources Survey.

Departmental Equal Opportunities

Stephen Hesford: To ask the Secretary of State for Work and Pensions what steps his Department is taking to *(a)* promote age diversity in the workplace and *(b)* enable older people to gain equal access to training opportunities. [171045]

Mr. Mike O'Brien: Since 2000, through our Age Positive initiative, we have been strongly promoting the business benefits of employing older people as part of a mixed age workforce.

Between May 2005 and October 2006 the DWP ran the 'Be Ready' National Guidance campaign to prepare employers for the introduction of workplace age discrimination legislation on 1 October 2006. The launch commenced with a mailing of basic information to 1.4 million employers. The campaign was designed both to raise awareness of age discrimination legislation, and to provide practical guidance to help employers become more age diverse in their employment practices.

The 'Be Ready' materials were developed with the support and advice of the Age Partnership Group, which consists of leading business and Government bodies including the CBI, TUC, Chambers of Commerce, CIPD, Institute of Directors, DBERR and ACAS. Many of the members and a number of key trade sector organisations worked with us to actively promote the materials through their own employer networks.

Through our Age Positive initiative we are continuing to promote to employers the benefits of employing older people as part of a mixed age workforce and the adoption of flexible work and retirement policies.

Opportunities for older people to learn new skills in a changing labour market are essential. We are working with the Department of Innovation Universities and Skills to consider how older workers can be better supported to stay in work.

There is a wealth of non-age related support already available which can benefit all workers, including older workers, and those seeking to return to the labour market. The level 2 entitlement, Train to Gain, Skills for Life, Information Advice and Guidance, New Deal for Skills and the development of Skills Accounts are all age neutral. Adult learning grant is also available to people over the age of 25. The LSC have allocated a further £16.7 million for adult apprenticeships in 2007-08 and Government will invest £90 million in total over the CSR period to support an additional 30,000 adult apprenticeship places.

Disability Living Allowance: Sight Impaired

Mr. Hancock: To ask the Secretary of State for Work and Pensions if he will make it his policy to pay the higher rate mobility component of disability living allowance to people with severe sight loss; and if he will make a statement. [176778]

Mrs. McGuire: To qualify for the higher rate mobility component of disability living allowance, a person must generally have a physical disablement which renders them unable or virtually unable to walk. I have met with representatives of the Royal National Institute for Blind People on their campaign to extend the higher rate component to certain people with severe sight loss. Officials from the Department are in discussion with the Royal National Institute for the Blind on the details of their proposals and the policy implications.

Employment

Chris Grayling: To ask the Secretary of State for Work and Pensions what estimate he has made of the number and proportion of people who were in temporary work and who were seeking permanent work in each year since 1997. [173893]

Angela Eagle: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 7 January 2008:

As National Statistician, I have been asked to reply to your Parliamentary Question about what estimate has been made for the number and proportion of people who were in temporary work who were seeking permanent work in each year since 1997. (173893)

Seasonally adjusted estimates for temporary employment levels and reasons for temporary working are published each month in the Labour Market Statistics First Release. Please visit the following link:

http://www.statistics.gov.uk/downloads/theme_labour/LMS_FR_HS/WebTable03.xls

These estimates are based on the respondent reason for taking up their present employment, rather than whether they are currently seeking permanent work. Estimates for those who are temporary employees and currently seeking permanent employment are not available.

Estimates are taken from the Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

Industrial Health and Safety: Influenza

Dr. Murrison: To ask the Secretary of State for Work and Pensions what assessment he has made of the obligations on employers under *(a)* the Health and Safety at Work Act 1974 and *(b)* other health and safety legislation to prepare for a potential influenza pandemic; and if he will make a statement. [172768]

Mrs. McGuire: In any influenza pandemic, employers will continue to have obligations under health and safety legislation. That legislation is sufficiently flexible to allow employers to tailor their risk assessments to an emergency situation without the need to disapply or suspend any of their responsibilities. The Heath and Safety Executive's website has information for employers to assist them in the event of a pandemic influenza.

Jobcentre Plus: Stroud

Mr. Drew: To ask the Secretary of State for Work and Pensions how many benefit recipients who *(a)* previously signed on at the Dursley Job Centre Plus and *(b)* are living in the area previously covered by that office now sign on at the Stroud Job Centre Plus office. [171008]

Mr. Plaskitt: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 8 January 2008:

The Secretary of State has asked Lesley Strathie to reply to your question concerning how many benefit recipients who *(a)* previously signed on at the Dursley Jobcentre Plus and *(b)* are living in the area previously covered by that office now sign on at the Stroud Jobcentre Plus office. This is something which falls within the responsibilities delegated to Ms Strathie as Chief Executive of Jobcentre Plus. I am replying in her absence as Acting Chief Executive.

I can confirm that there were 247 Jobseeker's Allowance customers signing with the Dursley office when it closed in March 2005. These customers were invited to register at four alternative Jobcentre Plus offices—Stroud, Gloucester, Kingswood and Yate.

There are currently 54 customers from the Dursley area claiming Jobseeker's Allowance. We are not able to identify those customers who registered at the Stroud office when Dursley closed or those who have since registered to sign on at Stroud.

I hope this is helpful.

Low Incomes: Council Tax

Mr. Laws: To ask the Secretary of State for Work and Pensions how many households in relative poverty were paying full council tax in the latest year for which information is available; and if he will make a statement. [172095]

Caroline Flint: The number of households in relative poverty paying full council tax is 2.7 million (before housing costs) and 3.0 million (after housing costs).

Notes:

1. The information shown is for Great Britain in 2005-06.

2. The income measures used to derive the estimates shown employ the same methodology as the DWP publication 'Households Below Average Income' series, which uses disposable household income, equivalised for household size and composition, as an income measure as a proxy for standard of living.

3. The figures are based on OECD equalisation factors.

4. The preferred measure of low income is by using a threshold of 60 per cent. of the contemporary median income. This is an internationally recognised measure.

5. Figures have been presented on both a before housing cost and after housing cost basis. For before housing cost, housing costs (such as rent, water rates, mortgage interest payments, structural insurance payments and ground rent and service charges) are not deducted from income, while for after housing cost they are. This means that after housing cost incomes will generally be lower than before housing cost.

6. The numbers are in millions rounded to the nearest 100,000.

Source: Family Resources Survey, 2005-06

Minimum Wage

Jon Trickett: To ask the Secretary of State for Work and Pensions how many London-based staff are employed by his Department on the national minimum wage. [175971]

Mrs. McGuire: There are no London-based staff employed by DWP on the national minimum wage. The pay scale minima for all DWP pay scales are set at a higher level.

Part Time Employment

Chris Grayling: To ask the Secretary of State for Work and Pensions what estimate he has made of *(a)* the number of people in part-time work, *(b)* the proportion of the workforce in part-time work and *(c)* the number of people in part-time work who are seeking full-time work in each year since 1997. [173913]

Angela Eagle: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 7 January 2008:

As National Statistician, I have been asked to reply to your Parliamentary Question about (a) the number of people in part-time work, (b) the proportion of the workforce in part-time work and (c) the number of people in part-time work who are seeking full-time work in each year since 1997. (173913)

The attached table gives the number and percentage of part-time people in employment. The information on people in part-time work who are seeking full-time work was provided in response to a previous PQ (ref 173892).

The LFS estimates at this detailed level are only consistent with the UK population estimates published in February and March 2003 and they do not incorporate the more recent population estimates that are used in the headline LFS series.

Estimates are taken from the Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

Number and percentage of part-time workers in employment, aged 16 and over, April to June 1997 to 2007—United Kingdom, not seasonally adjusted

Thousands, except where indicated

	Total in employment	*Part-time*	*Part-time workers as percentage of all in employment*
1997	26,356	6,700	25
1999	26,876	6,815	25
2001	27,438	6,989	26
2002	27,617	7,134	26
2003	27,863	7,270	26
2004	28,024	7,345	26
2005	28,193	7,288	26
2006	28,339	7,282	26
2007	28,434	7,318	26

Note:
Comparable data not available for 1998 or 2000.

ONS Labour Force Survey (LFS).

Pathways to Work

Stephen Hesford: To ask the Secretary of State for Work and Pensions what estimate he has made of the numbers moving from incapacity benefits into paid employment in *(a)* Wirral and *(b)* other Pathways to Work pilot areas; and if he will make a statement. [172580]

Mrs. McGuire: Wirral is part of the Liverpool and the Wirral Pathways to Work area and received the service provided by Jobcentre Plus from April 2006. To the end of April 2007, a minimum of 230 people moved from an incapacity benefit to employment in Wirral. In the same period, in other Pathways pilot areas a minimum of 12,530 people moved from an incapacity benefit to employment.

The Government's successful Pathways to Work programme has been running since October 2003 and rolled out over time to 40 per cent. of the country. The programme has achieved over 69,000 job entries. By April 2008 Pathways will be made available to the whole of Great Britain, with provider-led organisations contracted to deliver the service to the remaining 60 per cent. of the country.

Remploy

Adam Price: To ask the Secretary of State for Work and Pensions whether transitional funding will be provided to assist the transfer of ownership of the Remploy factories in *(a)* Treforest, *(b)* Ystradgynlais and *(c)* Brynamman. [171382]

Mrs. McGuire *[holding answer 4 December 2007]:* The Secretary of State made clear during his recent statement on the modernisation of Remploy that Remploy has been contacted by third parties interested in keeping some form of production or training at six of the sites due for closure—Lydney, Glasgow Hillington, St. Helens, Treforest, Ystradgynlais and Brynamman. The details of such negotiations are a matter for Remploy.

Social Security Benefits: Personal Records

Mr. Harper: To ask the Secretary of State for Work and Pensions what personal account data have been provided by his Department to the National Audit Office in the last 12 months. [167672]

Mrs. McGuire *[holding answer 26 November 2007]:* As required under the National Audit Office Act of 1983 and the Government Resources and Accounts Act 2000, the Department provides access to its records relating to the income, expenditure and liabilities appearing in its accounts. The National Audit Office has regular and routine access to all departmental records, including individual records which contain personal account data.

FOREIGN AND COMMONWEALTH OFFICE

British Council

10. **Chris Bryant:** To ask the Secretary of State for Foreign and Commonwealth Affairs how much grant-in-aid the British Council received in each of the last three years. [175900]

Dr. Howells: The British Council received grant-in-aid totalling £189,210,000 in financial year 2005-06, £188,124,000 in financial year 2006-07, and £192,803,000 in financial year 2007-08. These figures are final as reported in the British Council's annual reports, copies of which are available from the Library of the House.

Gaza

12. **Ann McKechin:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in Gaza. [175902]

Dr. Howells: We are concerned by the recent violence in Gaza, and call on all parties to restore order to the streets. There is a pressing need to re-open Gaza's crossings for people and goods.

We remain concerned by the humanitarian situation in Gaza. During 2007, the UK gave over £31 million in aid to the Palestinians. In December, we pledged $500 million over the next three years, and we were pleased at the response of the governments that attended the post-Annapolis Donors' Conference in Paris before Christmas when $7 billion was pledged.

Kosovo

13. **Gregory Barker:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in Kosovo. [175904]

Mr. Jim Murphy: The status quo in Kosovo is unsustainable. In the absence of agreement between the parties, the Government will continue strongly to support the Ahtisaari proposals for supervised independence as the way forward.

Lebanon

14. **Mrs. Moon:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government is taking to help Lebanon hold democratic elections. [175905]

Dr. Howells: The UK remains deeply concerned by the political crisis in Lebanon. It is essential for Lebanon's stability that a free, fair and constitutional Presidential election is held without delay. The UK has been working closely with international partners to resolve the crisis, particularly on the UN Security Council and in the EU. I visited Lebanon last month to encourage all parties to resolve their differences by peaceful and democratic means.

Iran

16. **Mr. Carmichael:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is on relations with Iran; and if he will make a statement. [175907]

Dr. Howells: Iran could be one of the world's great nations, but it needs to make a choice between engagement and co-operation with the international community, or continuing to refuse to abide by its international obligations which will only lead to further isolation. We urge the Iranian regime to make the right choice by suspending their uranium enrichment programme and honouring all of its international commitments including on human rights.

Climate Change

17. **Hugh Bayley:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the contribution of the EU to securing international agreement at Bali on action to tackle climate change. [175908]

Meg Munn: At Bali we reached an historic agreement. For the first time all countries agreed to start negotiations to achieve a global climate deal by 2009.

EU leadership was central. Last March EU leaders committed Europe to becoming the first low carbon major economy by setting ambitious targets for reducing EU greenhouse gas emissions; and they set out the key elements of the future framework, reflected in the Bali action plan.

Guantanamo Bay

18. **Mr. Laurence Robertson:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the US administration on Guantanamo Bay; and if he will make a statement. [175909]

Dr. Howells: The Government have held detailed discussions with the US Administration about five former UK residents held at Guantanamo Bay. Consequently, the US returned three of the men—Mr. Jamil El-Banna, Mr. Omar Deghayes and Mr. Abdennour Sameur—to the UK in December.

The US Government have so far declined our request for the release and return of Mr. Aamer and we are no longer in active discussions regarding his transfer to the UK. We are still discussing with the US the case of Mr. Mohammed. We continue to discuss the welfare of both men with the US.

Iraq

19. **Sarah McCarthy-Fry:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of progress made on redevelopment of Iraq's industrial base. [175910]

Dr. Howells: Redevelopment of Iraq's industrial sector after decades of conflict, sanctions, underinvestment, corruption and poor management is challenging. We welcome Iraqi efforts to improve infrastructure, pass key legislation, such as the Investment Law, and increase budgetary allocations to key Government Ministries eg Ministry of Industry and Minerals.

The UK and our partners continue to support investment, job creation and economic reconstruction through Provincial Reconstruction Teams, international compact, and UK-inspired Basra Economic Package.

Pakistan

20. **Mr. Gordon Prentice:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he will next meet the Prime Minister of Pakistan. [175911]

Dr. Howells: My right hon. Friend spoke to Prime Minister Soomro on 30 December to express condolences following the murder of Ms Benazir Bhutto and to express the UK's strong support to Pakistan in combating terrorism and for the country's continued transition to democracy. Although my right hon. Friend the Foreign Secretary has no immediate plans to meet Prime Minister Soomro they agreed to stay in close touch by telephone.

23. **Mr. Stewart Jackson:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in Pakistan. [175914]

Dr. Howells: I refer the hon. Member to the Statement on Pakistan made by my right hon. Friend the Foreign Secretary in the House on 7 January 2008, *Official Report*, columns 21-24.

24. **Tony Baldry:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in Pakistan. [175915]

Dr. Howells: I refer the hon. Member to the statement on Pakistan and Kenya made by my right hon. Friend the Foreign Secretary in the House on 7 January, *Official Report*, columns 21-24.

Burma

21. **Gordon Banks:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to increase diplomatic pressure on the Burmese regime. [175912]

Meg Munn: The United Kingdom is working closely with the United Nations, EU and regional neighbours to bring about diplomatic pressure for change in Burma. We support the United Nations Secretary-General's Good Offices mission, and have secured stronger EU sanctions. Our ambassador in Rangoon regularly raises our concerns with the Burmese Government. We urge Burma's regional partners and China to play a leading role in pursuing political reform in Burma.

Darfur

22. **Robert Neill:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent progress has been made in establishing a UN peacekeeping force for Darfur. [175913]

David Miliband: The AU-UN mission in Darfur (UNAMID) assumed authority on 31 December. We are working with the UN, key allies and troop contributing countries to ensure UNAMID is an effective force. UNAMID consists of over 9,000 personnel, out of an eventual strength of 26,000 when fully deployed. It will grow throughout 2008. We have urged the Sudanese Government to co-operate fully on all aspects of force composition and deployment.

Middle East

Lyn Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what account he takes of the need to ensure the security of Israel and its people and to reduce hardship among Palestinians in his middle east policy. [175906]

Dr. Howells: We understand Israel's security dilemma and recognise Israel's right to self-defence. However, Israeli actions must be consistent with international law and not cause suffering to innocent civilians.

In 2007, the UK gave £31 million in aid to the Palestinians and recently committed up to US$500 million over three years. Palestinian hardship and Israeli security can best be tackled through a political process that creates an economically and socially viable Palestinian state at peace with Israel.

Admiralty House: Official Residences

Mr. Pickles: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) for how long the right hon. Member for Ashfield had an official residence in Admiralty House while Minister for Europe; [176353]

(2) what the total value of payments made by his Department to the Cabinet Office were in respect of the residence of the right hon. Member for Ashfield in Admiralty House. [176354]

Meg Munn: I refer the hon. Member to the answer given by my right hon. Friend the then Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster (Hilary Armstrong) to the hon. Member for North-East Hertfordshire (Mr. Heald) on 6 November 2006, *Official Report*, column 860W. The Foreign and Commonwealth Office did not make any payments to the Cabinet Office in respect of the residence of my right hon. Friend the Member for Ashfield (Mr. Hoon) in Admiralty House.

Alberta Tar Sands

Mr. Gordon Prentice: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his Canadian counterpart on the environmental consequences of developing the Alberta tar sands; and if he will make a statement. [175660]

Dr. Howells: My right hon. Friend the Foreign Secretary has not had a discussion specifically on the environmental consequences of developing the Alberta oil sands with his Canadian counterpart. But my right hon. Friend the Foreign Secretary has spoken to his Canadian counterpart on a number of occasions to discuss wider environmental issues and the consequences of Climate Change. My right hon. Friend the Foreign Secretary last spoke to Foreign Minister Bernier of Canada at the UN General Assembly on 28 September 2007. He last spoke with Canadian Minister of the Environment, Mr. John Baird, on 16 November 2007. On both occasions the need to address environmental issues in Canada was discussed.

Antarctic

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has raised concerns with the Antarctic Treaty Secretariat on pollution from the sinking of a passenger cruise vessel in Antarctic waters. [176880]

Meg Munn: The UK has not raised any concerns with the Antarctic Treaty Secretariat on this issue as the Secretariat has no executive powers to take action. This is a matter for Treaty Parties. We have consulted experts from the British Antarctic Survey, whose initial view is that the environmental impacts from the vessel are likely to be minimal. The M/S Explorer used marine gas oil, which is a light non-persistent fuel. The ship sank in open water, some 50 nautical miles from the nearest point of land and any penguin or seabird colonies. There have been reports of fuel leakage, but this has been dissipating quickly and evaporating in the open water. HMS "Endurance" is due to arrive in Antarctica shortly and she will use swath bathymetry to accurately locate the position of the vessel on the seabed and report on any visible signs of pollution.

Tourism and cruise ship safety in Antarctica will be major discussion topics at the next Antarctic Treaty Consultative Meeting in Kiev in June 2008. The UK will continue to engage fully with other Treaty Parties in these discussions and will pursue its proposals for measures to strengthen the contingency plans of cruise ships in the Antarctic.

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he plans to make a territorial claim on Antarctica; and what advice he has received on potential conflicts with the Antarctic Treaty Act. [176881]

Meg Munn: The UK has no plans to make any new territorial claim on Antarctica; nor would it do so as that would be contrary to the Antarctic treaty.

The UK has not made any announcements, or final decisions, about any approach to the UN Commission regarding delineation of the outer limits of the continental shelf pertaining to the British Antarctic Territory. The UK will make its intentions known to the Commission prior to the deadline in 2009.

In making any decision to submit information to the UN Commission for the limits of continental shelf, we will of course respect our obligations under the Antarctic treaty and related agreements. We remain fully committed to the treaty, including its protocol on Environmental Protection 1991, which prohibits indefinitely all activity related to mineral resources, other than scientific research, within the treaty area.

Armenia: Genocide

Andrew George: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* discussions he has had with and *(b)* representations he has received from the Armenian Government on formally acknowledging the loss of life in Armenia between 1915 and 1923 as genocide. [175953]

Mr. Jim Murphy: The Armenian Government are aware of the Government's position on the events at the beginning of the last century in which so many ethnic Armenians' lives were lost. The Armenian Government have not made representations to the Government to change their position.

Bolivia

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs whether facilities were offered to Lord Ashcroft during his recent visit to Bolivia by the UK Embassy; and whether the Embassy incurred costs for entertaining him and his party. [176878]

Dr. Howells: Lord Ashcroft travelled to Bolivia as a member of the party of the visiting hon. Member for Sutton Coldfield (Mr. Mitchell). Our embassy in La Paz met and greeted the party at Cochabamba airport and booked (but did not pay for) travel arrangements from Cochabamba to La Paz and back. The ambassador provided accommodation at the residence for one night and hosted a lunch and a dinner for the party as part of their programme. The embassy also covered the costs of interpretation for meetings.

Foreign and Commonwealth Office guidelines recommend that British embassies overseas, as far as local conditions and circumstances allow, should offer the above facilities to the Leader of the Opposition, Opposition front bench spokesmen and the leaders of other political parties as a matter of course.

Bosnia

Mr. Sarwar: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his EU counterparts on the steps Serbia is taking to hand over those charged with the 1995 Srebrenica massacre for trial in the Hague; and if he will make a statement. [175584]

Mr. Jim Murphy: The issue of Serbia's compliance with its International Criminal Tribunal for the former Yugoslavia (ICTY) obligations arises regularly in ministerial and official-level contacts with EU partners. I discussed this with the then Chief Prosecutor of the ICTY when I met her on 15 October 2007. The EU General Affairs and External Relations Council conclusions of June 2007 recalled that the pace and conclusion of the negotiations on the stabilisation and association agreement would depend inter alia on Serbia's full co-operation with ICTY.

Brussels

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department spent on *(a)* travel to and *(b)* accommodation and hotels in Brussels in each of the last 11 years. [175437]

Meg Munn: This information is not held centrally and it would incur disproportionate cost for officials to collate this information.

Climate Change: EC Action

Mr. Weir: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effect of the Treaty of Lisbon, if ratified, on development of EU policy to tackle climate change. [175644]

Mr. Jim Murphy: At the Spring European Council in March 2007, EU leaders agreed that climate change and energy policies must be integrated to enable the EU to become the first high growth, low carbon global economy. This transition is essential to ensure economic, energy and climate security. The Treaty of Lisbon recognises climate change as an important strategic challenge and as a specific objective of EU policy. It provides a new legal base for the EU to act on energy security, liberalising energy markets and promoting energy efficiency and renewable energy, with the specific aim of preserving and improving the environment.

Democratic Republic of Congo: Armed Conflict

Mr. Sarwar: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effects of fighting in eastern areas of the Democratic Republic of the Congo on the people in the region; and what support his Department is providing to peace initiatives in those areas. [175513]

Meg Munn: The Government are gravely concerned at the situation in eastern Democratic Republic of Congo (DRC), which has severe humanitarian consequences, hinders development and has the potential to undermine

peace and stability in the region. It has led to around 375,000 people being displaced since December 2006 and a widespread problem of brutal sexual violence and other atrocities.

The UK is committed to finding a lasting solution to the violence. My noble Friend the Minister for Africa, Asia and the UN, the right hon. Lord Malloch-Brown, and other Ministers have spoken with leaders from the region urging them to look for a political solution to the problems affecting the east of the DRC. We are closely engaged with our international partners in efforts to bring the violence to an end.

Departmental Christmas Cards

Mr. Burns: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department spent on *(a)* Christmas cards and *(b)* postage of Christmas cards in 2007. [176916]

Meg Munn: Statistics on the expenditure on Christmas cards and the cost of postage of Christmas cards are not collected and could not be obtained without incurring disproportionate cost.

Departmental Data Protection

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on his Department's policy on the processing of personal data outside *(a)* the United Kingdom and *(b)* the European economic area. [176036]

Meg Munn: By the nature of its function, the Foreign and Commonwealth Office (FCO) must process personal data both within and outside the United Kingdom and the European economic area. Whether this is carried out by FCO officials or by commercial partners, FCO guidance is written to ensure that all personal data are handled in a way that complies with our obligations under UK law.

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs whether his Department or agencies accountable to his Department process personal data outside *(a)* the United Kingdom and *(b)* the European economic area. [176037]

Meg Munn: The Foreign and Commonwealth Office operates in countries around the world and consequently processes personal data outside both the United Kingdom and the European economic area. The main categories are: visa applications from foreign nationals; details of UK citizens requiring passport or other consular services; and Foreign and Commonwealth Office staff records.

Departmental Languages

James Duddridge: To ask the Secretary of State for Foreign and Commonwealth Affairs how many members of staff in his Department *(a)* speak Pashtun and *(b)* are training to speak Pashtun. [176085]

Meg Munn: Foreign and Commonwealth Office (FCO) staff records list 27 current staff who hold, or have held, a language qualification in Dari, Pashto or Farsi (the languages commonly spoken in Afghanistan and Iran).

11 FCO officials are currently studying either Pashto or Dari. The FCO is also seeking to recruit Pashto speakers as part of a current campaign seeking external candidates with skills relevant to the FCO.

Departmental Minimum Wage

Jon Trickett: To ask the Secretary of State for Foreign and Commonwealth Affairs how many London-based staff are employed by his Department on the national minimum wage. [175981]

Meg Munn: None.

EC Working Groups

Miss McIntosh: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had on the European Commission's working programme for 2008. [176847]

Mr. Jim Murphy: My right hon. Friend the Foreign Secretary has regular contact with the President of the European Commission and the College of Commissioners. During these contacts, they discuss a range of issues.

EU Development Policy

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the likely effect of the Treaty of Lisbon, if ratified, on EU development policy. [175665]

Mr. Jim Murphy: The Government believe that, if ratified, the Lisbon Treaty would enhance delivery of EU development policy. It should give EU aid greater coherence and effectiveness.

For the first time the treaty provides for a clear definition of the legal framework for development co-operation, humanitarian assistance and co-operation with third countries. It places the eradication of poverty as the overarching primary objective of development co-operation, which is consistent with the UK's own International Development Act. The treaty will also enhance the consistency of the EU's external relations and the coherence of all EU policies with development objectives.

The treaty also promotes efficient and timely decision-making by extending qualified-majority voting to humanitarian aid. The new position of High Representative of the Union for Foreign Affairs and Security Policy will also support better coherence and delivery of European external action, including development assistance.

Gaza: Trade

Annette Brooke: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the change in the volume of goods moved in and out of the Gaza Strip in the last 12 months. [176155]

Dr. Howells: The Government do not carry out their own assessments, but rely on information from other bodies including the United Nations Office for the Co-ordination of Humanitarian Affairs (UNOCHA). In November 2007, UNOCHA reported that there had been a 44 per cent. drop in the average number of food and animal feed trucks entering monthly into Gaza between the period January to May 2007 and the period June to October 2007.

The Government are extremely concerned by these reductions in imports and exports which are the result of the closure of Gaza's crossings. We call on all sides to assume their responsibilities in ensuring they reopen as soon as possible, and stand ready to provide appropriate assistance. My right hon. Friend the Secretary of State for International Development raised the closure of Gaza crossings and its humanitarian impact with the Israeli and Palestinian authorities during his visit in December 2007.

Further information can be found at:

http://www.ochaopt.org.documents/GazaStripHumaniotarianFactSheet_2006_11_28.pdf

Iran: Nuclear Power

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs whether his Department will produce an updated version of the January 2005 document, Iran's Nuclear Programme: A Collection of Documents, column 6443; and if he will make a statement. [174177]

David Miliband: The Foreign and Commonwealth Office will be looking to publish an updated version of the document in the first half of 2008.

Lebanon: Politics and Government

Roger Berry: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the security situation in Lebanon; and if he will make a statement. [175903]

Dr. Howells: The security situation in Lebanon remains unpredictable, with tensions running high over the election of a new President. Last month a bomb attack in Beirut killed General Francoise al Hajj and several others. We strongly condemn such attacks, which can only exacerbate tensions at an already difficult time. We urge all Lebanese parties to redouble their efforts to resolve the current crisis by peaceful and democratic means.

Members: Correspondence

Mr. Harper: To ask the Secretary of State for Foreign and Commonwealth Affairs how many letters his Department received from hon. Members and Peers in each session of Parliament since 1997. [174947]

Meg Munn: The Cabinet Office, on an annual basis, publishes a report to Parliament on the performance of Departments in replying to hon. Members'/Peers' correspondence. Information relating to 2007 will be published as soon as it has been collated. The report for 2006 was published on 28 March 2007, *Official Report*, columns 101-04WS. Reports for earlier years are available in the Library of the House.

Middle East: Peace Negotiations

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the likely long-term contribution to the Middle East peace process of the Annapolis conference; and what progress has been made in the peace process since the conference took place. [175663]

Dr. Howells: The parties to the Israeli-Palestinian dispute confirmed in Annapolis their agreement to engage in vigorous and continuous negotiations and to make every effort to conclude an agreement before the end of 2008.

We believe that Annapolis offers a genuine opportunity to make progress in the Middle East peace process.

However, there are always difficulties to overcome. But the Paris conference, on 17 December 2007 helped to raise international pledges of more than US$7 billion for the occupied Palestinian territories. As such, it represents a significant contribution to the peace process. It confirmed the unequivocal political support and commitment of international partners, including Arab countries, to support the economic development of the future Palestinian state.

James Duddridge: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 10 December 2007, *Official Report*, columns 161-2W, on Middle East: peace negotiations, how much has been spent on the *(a)* salaries, *(b)* travel costs and *(c)* other costs of the four members of staff who have been seconded to Mr Blair's team. [176080]

Dr. Howells: The Foreign and Commonwealth Office (FCO) has seconded: one Executive Officer equivalent; one Higher Executive Officer equivalent; and one Senior Civil Servant equivalent, to work in the right hon. Tony Blair's office. The FCO is funding their salaries. The Department for International Development has seconded one Principal Officer—grade six and is funding this salary, allowances and accommodation costs. It would not be appropriate to give salary details as to do so could reveal individuals' salaries.

Neither the FCO nor the Department for International Development is responsible for ongoing travel or incidental costs.

James Duddridge: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 10 December 2007, *Official Report*, column 162W, on Middle East: peace negotiations, if he will request the European Union to seek the publishing by the Quartet of details of Mr Blair's team, costs and funding. [176081]

Dr. Howells: The Government understand that the European Commission has provided €5 million to the UN Development Programme Trust Fund that inter alia supports the Quartet Representative's mission. It will be a matter for the Quartet to determine whether to publish details of Mr. Blair's team, costs and funding.

James Duddridge: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 10 December 2007, *Official Report*, columns 161-2W, on Middle East: peace negotiations, how much is available in the UN Development Programme Trust Fund; and what further sums the UK will be providing to the fund in the next 12 months. [176156]

Dr. Howells: The Government understand that the European Commission has provided €5 million to the UN Development Programme Trust Fund that inter alia supports the Quartet Representative's mission. The UK provided £400,000 to the UN Development Programme Trust Fund on 3 December 2007. The Government have no plans to provide further support at present but will keep under close review how they can best support Mr. Blair's work.

National Identity Register

Mr. Philip Hammond: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans his Department has to make use of data on the National Identity Register when it is established; and what the estimated cost to his Department of that use is. [174037]

Meg Munn: The Foreign and Commonwealth Office will be working with the Home Office, prior to the introduction of the National Identity Scheme, to establish how identity information held on the proposed National Identity Register might be used to provide easier access to the Foreign and Commonwealth Office's services for our customers. It is too early in the process to establish the detailed costs and benefits.

Nigeria: Oil

Mr. Sarwar: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the likely effect of the refusal by the Movement for the Emancipation of the Niger Delta to take part in peace initiatives in the Delta area of Nigeria on the safety of international oil workers. [175585]

Meg Munn: We call on all parties in the Delta to engage in dialogue towards a peaceful solution to the problems of the Delta. Nigerian President Yar'Adua has made resolution of the Delta crisis one of the main priorities for his term in office. Vice President Goodluck Jonathan has been specifically tasked with taking forward dialogue with a range of groups in the Delta and President Yar'Adua has also been personally engaged. In view of this, a Delta summit is intended to be held in early 2008, bringing together federal and state governments, militant groups and representatives from the local community. The UK has offered to support these efforts where we can add value.

Recently, the Government of Nigeria has demonstrated greater readiness to use the Joint Task Force (JTF), a combined military and civilian police force, to provide greater security in the Delta. The JTF was successful in stopping a particularly intense outbreak of gang violence in Port Harcourt in August 2007. We believe that both the increased dialogue and the use of the JTF have contributed to the fact that there has been a very significant reduction in the number of expatriate kidnappings since early October.

However, the risk of violence remains high and Foreign and Commonwealth Office (FCO) travel advice continues to advise against all travel to the Delta States of Bayelsa, Delta and Rivers, including Port Harcourt. It advises British nationals in these States to leave due to the very high risk of kidnapping and other armed attacks. The FCO also advises against all travel to riverine areas of Cross River State and against all but essential travel to Akwa Ibom State for the same reasons.

The FCO remains in close contact about security with international oil companies both through UK Trade and Investment and consular officials in Lagos, and through representatives in London and Abuja.

Palestinians: Politics and Government

Mr. Hollobone: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in the Palestinian territories. [176092]

Dr. Howells: We are working closely with our international partners to support the US-led process that was initiated at Annapolis. As both sides have made clear, it is for them to work out a solution. But the international community has offered its support and encouragement and the UK stands ready to help them move forward.

The UK, along with the rest of the international community, has always made clear its desire to work with those who are committed to peaceful progress in the region. President Abbas is the elected President for all Palestinians. Our priority is to support President Abbas and the legitimate Palestinian government led by Prime Minister Salam Fayyad as they try to restore law and order in the Occupied Palestinian Territories and promote development. We have made clear that we will respond to significant movement from Hamas.

Regulation

Mrs. May: To ask the Secretary of State for Foreign and Commonwealth Affairs for which regulators and inspectorates his Department has had responsibility in each year since 1997; what the budget was of each such body in each year; and what the cost to the public purse was of any restructuring of each such body in each year. [175302]

Meg Munn: The Foreign and Commonwealth Office (FCO) is not responsible for any Government regulator or inspectorate. The FCO conducts self-inspection through Resource Management Units attached to each geographical or functional Directorate.

Timor-Leste: Homicide

Mr. Don Foster: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will meet relatives of British citizens Brian Peters and Malcolm Rennie to discuss the finding of the Coroner of New South Wales in November 2007 on the deaths of Brian Peters, Malcolm Rennie and four others in Timor-Leste in October 1975; and if he will make a statement. [176810]

Meg Munn: I currently have no plans to meet with relatives of Brian Peters and Malcolm Rennie. Following the conclusion of the New South Wales coroner's inquest, Foreign and Commonwealth Office consular officials have been in contact with the families

of both men to update them on developments in December 2007, and will continue to liaise with them on any future developments.

Mr. Don Foster: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will discuss with the families of Brian Peters and Malcolm Rennie and their representatives the information issued by his Department on the deaths of Mr. Peters and Mr. Rennie in Timor-Leste in 1975 since that date; and if he will make a statement. [176811]

Meg Munn: In 2002, the Foreign and Commonwealth Office (FCO) documents relating to the incident were released exceptionally early to permit the relatives of Malcolm Rennie and Brian Peters to see at first hand what the FCO knew about the deaths. The FCO holds no further pertinent information. My hon. Friend the then Minister of State for Trade, Investment and Foreign Affairs (Mr. Mike O'Brien) met the relatives of Mr. Rennie and Mr. Peters in September 2003 and March 2004. In December 2007, FCO consular officials wrote to the families of both men to update them on developments following the conclusion of the New South Wales coroner's inquest.

Wilton Park

Mr. Pickles: To ask the Secretary of State for Foreign and Commonwealth Affairs how many conferences, events or away days have been held at Wilton Park on behalf of the *(a)* Deputy Prime Minister's Office, *(b)* former Office of the Deputy Prime Minister, *(c)* former Valuation Office Agency and *(d)* Department for Communities and Local Government since May 2001. [176352]

Meg Munn: Since May 2001 there have been no conferences, events or away days held at Wilton Park on behalf of the Deputy Prime Minister's Office, Office of the Deputy Prime Minister, Valuation Office Agency or Department for Communities and Local Government.

HOME DEPARTMENT

Animal Experiments

Mr. Hancock: To ask the Secretary of State for the Home Department if she will make it mandatory for holders of licences to use animals in scientific procedures to provide abstracts for publication on her Department's website. [176884]

Meg Hillier: The current form of application for a project licence under the Animals (Scientific Procedures) Act 1986 requests that applicants provide in their own words short abstracts of their research proposals to be displayed on the Home Office website. We publish the abstracts to contribute to greater openness, public understanding and debate about the use of animals in science and we actively encourage applicants to provide them. However, abstracts are provided on a voluntary basis and the applicants own the copyright. Compliance with this initiative has generally been good and abstracts have been displayed for 83 per cent. of the project licences granted since the beginning of 2006 to December 2007 and there are currently just over 1,110 published abstracts in total. I consider the current voluntary system to be both proportionate and to have achieved its objective and I have no plans to make the provision of abstracts mandatory.

Burglary: Greater London

Andrew Rosindell: To ask the Secretary of State for the Home Department what steps the Metropolitan Police Service is taking to reduce the number of *(a)* residential and *(b)* non-residential burglaries in Romford. [176791]

Mr. McNulty: This is a matter for the Commissioner of the Metropolitan Police.

Community Policing

Mr. Ruffley: To ask the Secretary of State for the Home Department how many special constables applied *(a)* successfully and *(b)* unsuccessfully to become full-time police officers in the last 12 months for which figures are available; and if she will make a statement. [176072]

Mr. McNulty: This information is not held centrally.

Community Policing: Humberside

Shona McIsaac: To ask the Secretary of State for the Home Department how many police community support officers there were in each division of Humberside police in each of the last three years. [176863]

Mr. McNulty: The information requested is shown in the following table.

Police community support officer strength (FTE)[1] in Humberside police force area by Basic Command Unit

Basic Command Unit	*30 June 2005[2]*	*30 June 2006[2]*	*31 March 2007[2]*
A Division (North East Lincs)	5	16	29
B Division (North Lincs)	5	15	31
C Division (East Riding of Yorks)	6	20	58
D Division (Kingston-upon-Hull)	6	34	76

[1] These figures are based on full-time equivalents that have been rounded to the nearest whole number, due to rounding there may be an apparent discrepancy between totals and the sums of constituent items. Figures include those officers on career breaks or maternity/paternity leave.

[2] 2006-07 is the first year that that police community support officer strength by Basic Command Unit has been collected centrally. Figures relating to 30 June are from an ad hoc collection taken by the Home Office Police Productivity Unit. These figures may not be directly comparable to the others in the table.

Emergency Calls: Hearing Impaired

Mr. Burns: To ask the Secretary of State for the Home Department if she will introduce a nationwide scheme to enable deaf people to send text messages to the emergency telephone number 999. [174335]

Mr. McNulty *[holding answer 18 December 2007]*: The telecommunications service providers, in discussion with the emergency services, have identified technical solutions for providing an emergency SMS for the deaf, and those with hearing or speech impairment. The mobile service providers are currently scoping a trial which will assess the technical feasibility of providing a service to mobile handsets which have been registered for the service.

The service will provide an alternative option for those who routinely use SMS and either do not use a text relay service or may be in circumstances where it is not available. It is anticipated that the trial will be conducted in the second half of 2008.

Entry Clearances: Employment

Mr. Clappison: To ask the Secretary of State for the Home Department what research she has *(a)* commissioned and (b) evaluated into the type of work undertaken in the UK by non-EU citizens who have obtained leave to enter as highly skilled or skilled workers; and what estimate she has made of the number and proportion of skilled workers who are working in the skill sectors relating to the skills on the basis of which they were given leave to enter. [162352]

Mr. Byrne: Highly skilled non-EU workers can apply to enter the UK under the highly skilled migrant programme (HSMP). HSMP migrants have free access to the labour market and are not given leave to enter to work in a specific skill sector. However, as part of our review of the HSMP changes we introduced last December, we have been collecting data on occupations self-reported by successful applicants extending their stay as HSMP migrants. Review data will be included in the impact assessment for tier 1 of the new points-based system which will be published before the tier is implemented this year.

Work permit system (for skilled workers)

Skilled non-EU workers with a job offer can apply to enter the UK under the work permit system. Under the terms of their leave, work permit migrants must remain with the employer who applied for their work permit. Should the migrant wish to switch employer, they will need to apply for a variation of leave and the new employer will need to obtain a work permit for them. This means that all work permit migrants should be working in the sectors relating to the skills on the basis of which they were given leave to enter.

We have previously released, in answer to a freedom of information request, data relating to approved work permit applications broken down by the 20 most frequent occupations.

The following table shows the number of approved work permit applications, broken down by the 20 most frequent occupations, from January 2004 to December 2005.

Occupation	*2004*	*2005*	*Total*
Nurse	29,185	22,406	51,591
Other manager-related occupation	14,697	14,795	29,492
Musician	12,769	12,783	25,552
Other health/medical occupation	13,585	9,758	23,343
Other IT related occupation	9,512	10,615	20,127
Software engineer	6,764	6,771	13,535
Chef	6,365	4,977	11,342
Other financial occupation	5,007	5,226	10,233
Teacher (school/college)	5,101	4,334	9,435
Other engineer occupation	4,223	5,037	9,260
Researcher	4,205	4,299	8,504
Doctor	4,392	3,842	8,234
Singer	3,083	2,769	5,852
Kitchen assistant (SBS)	4,290	508	4,798
Analyst programmer	2,486	2,122	4,608
System analyst	2,284	2,238	4,522
Technician (music)	2,062	2,138	4,200
Other hotel cat occupation	1,858	1,576	3,434
Dancer (other)	1,672	1,680	3,352
Manager (ent-related)	1,534	1,596	3,130
Total top 20	135,074	119,470	254,544
Others	45,666	41,186	86,852
Total	180,740	160,656	341,396

Note:
The number of approved work permit applications does not equal numbers of people entering the UK to work but includes, for example, extension applications and work permits issued for a change of employment.

Genetics: Databases

Mr. Ruffley: To ask the Secretary of State for the Home Department how many people had their DNA records removed from the police DNA database in each year since 2000. [167011]

Meg Hillier: The numbers of subject sample records removed from the National DNA Database (NDNAD) in each of the financial years from 2002-03[1] to date is given as follows. The figures provided are for subject sample records taken by police forces in England and Wales which were subsequently removed from the NDNAD. They do not include subject sample records taken by police forces in Scotland, the police service for Northern Ireland, Guernsey, Jersey etc. which were subsequently removed from the NDNAD.

[1] No accurate data are available for the years 2000-01 and 2001-02; some estimated information only is available for calendar years prior to 2002. In 2002, an NDNAD Management Information Database was created which captures details of all record 'transactions' including the removal of records and enabled the collection of this information.

	Number of subject sample records removed
2002-03	1,525
2003-04	321
2004-05	42

	Number of subject sample records removed
2005-06	136
2006-07	276
2007-08 (to date)	219

Mr. Vara: To ask the Secretary of State for the Home Department whether a Criminal Records Bureau check would return information on whether an individual's DNA was stored on the DNA database. [172033]

Meg Hillier: The Criminal Records Bureau has no responsibility for the DNA database. Therefore, it does not return information on whether an individual's DNA is stored on the DNA database.

Mr. Ruffley: To ask the Secretary of State for the Home Department what proportion of people whose DNA records are held on the National Police Database have *(a)* a criminal record, *(b)* been the subject of wrongful arrest and *(c)* been given a custodial sentence. [176111]

Meg Hillier: In relation to the proportion of people whose DNA records are held on the National DNA Database (NDNAD) who have a criminal record, I refer the hon. Member to the reply given to the hon. Member for Hornsey and Wood Green (Lynne Featherstone) on 13 December 2007, *Official Report*, column 761W. This gives figures for the number of persons with a profile on the NDNAD sampled by police forces in England and Wales who have a conviction, caution, formal warning or reprimand recorded on the PNC—i.e. who have a criminal record. No data are held centrally on the number of persons with a DNA profile on the NDNAD who have been the subject of a wrongful arrest. No recent data are available on the proportion of people whose DNA records are held on the National DNA Database (NDNAD) who have a conviction and who have been given a custodial sentence. These data could be obtained only at disproportionate cost.

Homicide

Mr. Graham Stuart: To ask the Secretary of State for the Home Department how many people were murdered in England in each of the last five years; and if she will make a statement. [176850]

Mr. McNulty: The following table of data relates to the number of homicides recorded by the police in England between 2001-02 and 2005-06. The figure for 2002-03 includes 172 victims of Harold Shipman.

There was a reduction of 11 per cent. in the number of homicides between 2001-02 and 2005-06. The new Make Communities Safer public service agreement (PSA), effective from April 2008, includes a target to reduce the most serious violence. Many of the actions required to achieve this objective will have an impact on a range of violent and sexual offences, but there will be a particular focus on homicide.

The Government are developing a wide-ranging programme of work to deliver the new PSA target, and will set out a new framework for tackling violence, based on the identification and management of risk and supporting victims to reduce harm, soon.

Currently recorded homicides[1] by police in England[2]: 2001-02 to 2005-06[3]

Year[4]	Number of offences
2001-02	770
2002-03	917
2003-04	764
2004-05	753
2005-06	683

[1] Homicide offences are shown according to the year in which police initially recorded the offence as homicide. This is not necessarily the year in which the incident took place or the year in which any court decision was made.
[2] As at 9 October 2006; figures are subject to revision as cases are dealt with by the police and by the courts, or as further information becomes available.
[3] Does not include homicides recorded by British Transport Police.
[4] Data for 2006-07 and revised data for the period 1996 to 2005-06 are scheduled to be released in late January 2008.

Human Trafficking

Mr. Steen: To ask the Secretary of State for the Home Department what the planned length of Operation Pentameter II was when it was launched; how long she expects it to continue; what progress has been made by the programme; and if she will make a statement. [175615]

Mr. Coaker: When Operation Pentameter 2 was launched on 3 October 2007 it was expected to draw to a conclusion in spring/summer 2008. This remains the position. The Operation has a number of phases. Intelligence gathering, forward planning and co-ordination of agencies began in July 2007. This in turn led to operational activity being undertaken, following which there will be a period of investigative and operational maintenance, which will include the processing of offenders and the continued support of victims. The precise length of the operational phase is not in the public domain for reasons of operational security.

The conduct of the operation will be evaluated on its completion and operational results will be published at that stage.

Illegal Workers

David T.C. Davies: To ask the Secretary of State for the Home Department how many people given Security Industry Authority (SIA) licences who were not legally entitled to work in the UK have worked for *(a)* the SIA, *(b)* the Border and Immigration Agency (BIA) and *(c)* companies contracted to work for the SIA or BIA. [175491]

Mr. Coaker: Since the commencement of statutory licensing for security operatives by the Security Industry Authority (SIA) there have been no cases of security staff licensed by the SIA found to be working without the right to work for the SIA, or the Border and Immigration Agency (BIA), or companies contracted to work for the SIA or BIA.

As my right hon. Friend the Home Secretary told Parliament on 13 December, the BIA is prioritising enforcement action in the security industry. As part of

this work, the BIA is working with their security sub-contractors to recheck the right to work of all their staff supplied to the BIA.

Members' Correspondence

Mr. Harper: To ask the Secretary of State for the Home Department how many letters her Department received from hon. Members and Peers in each session of Parliament since 1997. [174933]

Mr. McNulty: The Cabinet Office, on an annual basis, publishes a report to Parliament on the performance of Departments in replying to Members/Peers correspondence. Information relating to 2007 will be published as soon as it has been collated. The report for 2006 was published on 28 March 2007, *Official Report*, columns 101-04WS. Reports for earlier years are available in the Library of the House.

Personation

Mr. Pickles: To ask the Secretary of State for the Home Department what assessment she has made of the level of fraud arising from information on identity stolen from household waste bins. [176705]

Meg Hillier: The Government do not have this information recorded centrally.

We know from the police and other public and private sector partners on the Identity Fraud Steering Committee (IFSC) that personal details for use in identity fraud are obtained in a variety of ways. The IFSC has produced the website www.identitytheft.org.uk to advise the public on how to reduce the risk of becoming a victim of identity fraud, warning signs to look out for, and what someone should do if they do fall victim.

On 9 October 2007 the Attorney-General announced that funding had been approved for the proposals arising from the Government's fraud review. This includes the development of a National Fraud Strategic Authority, together with a National Fraud Reporting Centre, the establishment of the City of London police as the lead force on fraud, and proposals for measurement of fraud. These measures will help to tackle fraud in general and increase our understanding of the nature and extent of the problem.

Police Custody

Mr. Ruffley: To ask the Secretary of State for the Home Department what her policy is on the maximum distance persons in police custody should be transported between the place of arrest and a custody suite. [176059]

Mr. McNulty: The location of police custody facilities is an operational matter for the chief officer of police in each force area.

Police Custody: ICT

Mr. Ruffley: To ask the Secretary of State for the Home Department if she will make a statement on the development and provision of electronic custody systems for the police; when such systems are planned to be available; what the expected cost of such systems is expected to be; what the cost of their development to date has been; and what the original planned date for such systems to be available was. [176075]

Mr. McNulty: All police forces now have an approved electronic custody system. 40 police forces are 'live' at all sites. The remaining three police forces are 'live' in at least one site, but still in the process of implementation in their remaining sites. Implementation will be complete in all forces at all sites by mid-2008. The total cost of implementing the electronic custody systems is not available, as these systems have usually been implemented as part of a suite of other systems (including records management, case preparation and crime and intelligence). It was originally planned that all forces would be 'live' by 31 March 2006.

Although this target was not achieved, all these electronic custody systems are now providing a significant contribution to the reduction in bureaucracy in the police service and wider criminal justice system.

Police: Age

Mr. Boris Johnson: To ask the Secretary of State for the Home Department how many police officers in *(a)* England and *(b)* London were aged (a) 18 to 25, (b) 26 to 30, (c) 31 to 35, (d) 36 to 40, (e) 41 to 45, (f) 46 to 50, (g) 51 to 55, (h) 56 to 60, (i) 61 to 65 and (j) over 65 years in the last period for which figures are available, broken down by (i) sex and (ii) ethnicity. [175563]

Mr. McNulty: Figures collected by the Home Office on age of officer are broken down by four age groupings and appear in the following table for 31 March 2007. The collection does not extend to gender and ethnicity breakdowns.

Numbers of police officers[1] in post on 31 March 2007 by age group, London and England

	Age on 31 March 2007			
	25 and under	*26 to 40*	*41 to 55*	*Over 55*
London[2]	2,549	17,305	12,328	215
England	11,060	72,157	52,367	617

[1] Figures for police officers are on a head count basis, which means both full-time and part-time officers are counted individually as one officer. This differs from the main officer count which is on a full-time equivalent basis. The figures include officers on career breaks and maternity/paternity leave.
[2] Includes officers in both the Metropolitan police and City of London police

Police: Bureaucracy

Mr. Ruffley: To ask the Secretary of State for the Home Department what estimate she has made of the time it takes for a police officer to complete the stop and account form after detaining an individual. [176303]

Mr. McNulty: The Interim Report of the "The Review of Policing" published by Sir Ronnie Flanagan in September 2007 provides an example showing that the average time taken for completing and processing a stop and account form is 25 minutes. The pilot study carried out by British Transport police on the use of electronic hand held devices to record encounters showed that the average taken to complete and process a stop and account form was six minutes.

Police: Cost Effectiveness

Mr. Ruffley: To ask the Secretary of State for the Home Department what the Gershon efficiency savings to be achieved by the police were; and if she will make a statement on progress towards achieving efficiency savings by the police. [176302]

Mr. McNulty: The efficiency target set for the police service in the spending review 2004, taking into account the Gershon review, was for the 43 police authorities and forces in England and Wales to deliver aggregate value for money gains of 3 per cent. of net revenue expenditure per annum. Half of the total gains were required to be cashable, and forces and authorities were expected to achieve cumulative total gains of £1,060 million (£518 million cashable) over the four years 2004-05 to 2007-08.

As of April 2007 these targets have been achieved by the police service and are set out in the Home Office targets autumn performance report 2007 which is available in the Library of the House.

Police: Expenditure

Mr. Ruffley: To ask the Secretary of State for the Home Department how much was spent by the police in *(a)* England and Wales and *(b)* each police force area in each of the last five years on *(i)* stationery and *(ii)* IT equipment. [176311]

Mr. McNulty: The information for all police forces in England and Wales is not held centrally and could be obtained only at disproportionate cost.

Decisions on the distribution of resources are matters for the Chief Officer and the Police Authority.

Police: Plastics

Mr. Pickles: To ask the Secretary of State for the Home Department how many own-branded plastic bags *(a)* the Assets Recovery Agency and *(b)* the Serious Organised Crime Agency has procured in the last 24 months for which figures are available; and at what cost. [176704]

Mr. Coaker: None.

Police: Powers

Mr. Ruffley: To ask the Secretary of State for the Home Department pursuant to her Department's Modernising Police Powers, Review of the Police and Criminal Evidence 1984, Consultation Paper of March 2007; if she will list, in relation to street bail, the pilots of electronic stop and search records referred to in Chapter 3; and what the location was of each. [174224]

Mr. McNulty: The Explanatory Memorandum to the SI 2006/2165 sets out the provision for the use of electronic receipts for stop and search records to officers from the British Transport Police operating from offices in West Ham, Wembley and Hammersmith. The use of street bail is an operational matter for the chief officer of each force area and not subject to pilot studies.

Police: Rural Areas

Mr. Ruffley: To ask the Secretary of State for the Home Department if she will make a statement on policing in rural areas. [176058]

Mr. McNulty: I refer the hon. Member to the answer given on 26 November 2007, *Official Report*, columns 196-97W.

Proceeds of Crime

Mr. Ruffley: To ask the Secretary of State for the Home Department how much has been recovered under the Confiscation of Criminal Assets Act 2003 *(a)* in total and *(b)* in each police authority area, listed in descending order by amount recovered in each year since its introduction; and how much is in the process of being recovered. [176105]

Mr. Coaker: The total net amount of criminal assets recovered from 2003-04 to 2006-07 under the Proceeds of Crime Act 2002 and earlier legislation is £360.5 million.

The total value of confiscation orders and cash forfeiture orders obtained by each police authority in each of those years is set out in the tables placed in the House Library.

Enforcement of confiscation orders is not the responsibility of the police but is primarily a matter for Her Majesty's Court Service.

The total amount of confiscation orders and cash forfeiture orders obtained by all agencies in April-November 2007 is £172.26 million. These orders are in the process of being enforced, along with orders made in previous years.

Right to Gain Entry

Mr. Pickles: To ask the Secretary of State for the Home Department what the terms of reference are of the review into the right to gain entry; and whether the review will consider the right to gain entry by public authorities other than the police. [176499]

Mr. McNulty: The review will examine all powers of entry with a view to: producing a comprehensive list of powers of entry, inspection, search and seizure; considering a statutory framework for all such powers and scrutiny criteria for all proposed new powers; and development of information material for the public to raise awareness for businesses and individuals of their rights and remedies.

Terrorism

Mr. Kidney: To ask the Secretary of State for the Home Department what assessment the Government has made of the effect of *(a)* recent and *(b)* proposed anti-terrorism legislation on civil liberties and human rights. [174230]

Mr. McNulty: We believe that our recent and proposed counter-terrorism legislation is compatible with the European Convention on Human Rights. It will continue to be the case that all of our counter-terrorism

measures have to be set in the context of our general commitment to human rights and the protection of individual freedoms. We strive to achieve the appropriate balance between the measures necessary to deal with the very real threat to national security posed by terrorism and the need to avoid diminishing the civil and human rights of the population.

Terrorism: Control Orders

Mr. Kidney: To ask the Secretary of State for the Home Department how many people who have been acquitted of terrorism charges are subject to control orders restricting their movements. [174158]

Mr. McNulty: We are not prepared to say how many people who have been acquitted of terrorism charges are subject to control orders restricting their movements. This is because of the need to protect controlled persons' identities (most controlled persons are subject to an anonymity order imposed by the court which prohibits us from publishing information that would allow the public to identify him as being subject to a control order) and the national security sensitivity of individual cases.

HEALTH

Alcoholic Drinks: Misuse

Mr. Jim Cunningham: To ask the Secretary of State for Health what steps the Government has taken to raise public awareness of the harmful effects of binge drinking. [174572]

Dawn Primarolo *[holding answer 17 December 2007]:* The Government launched the "Know Your Limits" campaign in 2006, which targets binge drinkers. This campaign will be renewed in 2008 and will continue to challenge behaviour associated with drunkenness. The campaign has been supported by comprehensive public relations and stakeholder programmes, with sources of help and information provided via a new dedicated campaign website, as well as the Drinkline phoneline and a suite of new campaign literature.

Mr. Lansley: To ask the Secretary of State for Health how many finished consultant episodes relating to alcohol there were in each strategic health authority area in England for *(a)* patients aged under 18 years and *(b)* patients aged 18 years and over in each year from 1997-98 to 2006-07; and how many admissions to hospitals via accident and emergency departments in each strategic health authority area had an alcohol-related diagnosis for (i) those aged 18 years and over and (ii) those aged under 18 years in each of those years. [175037]

Dawn Primarolo *[holding answer 17 December 2007]:* The information requested has been placed in the Library.

Alcoholic Drinks: Young People

Mr. Jim Cunningham: To ask the Secretary of State for Health what steps the Government have taken to educate young people about the long-term effects of alcohol abuse since 1997. [169328]

Kevin Brennan *[holding answer 13 December 2007]:* I have been asked to reply.

The Government are committed to reducing substance misuse among young people, including that relating to alcohol. Educating young people about the long and short-term effects of alcohol misuse is a vital part of this.

Since 1997, efforts have been made to continually strengthen our approach to alcohol education in schools. The Department has issued several guidance documents to schools on drug (including alcohol) education. This includes 'Circular 4/95: Drug Prevention and Schools' and, in 1998, 'Protecting Young People: Good practice in Drug Education in Schools and the Youth Service'. In 2002, curriculum guidance on drug, alcohol and tobacco education was produced and issued to schools by the Qualifications and Curriculum Authority. Most recently, in 2004, the Department refreshed all existing guidance for schools by issuing a single document, 'Drugs: Guidance for Schools'. This made clear our intention for pupils to be educated about alcohol and its effects in primary school before drinking patterns become established and for this to be revisited in secondary school. It is important that our approach to alcohol education in schools is robust and, for this reason, next year, my Department will undertake a review into the effectiveness of alcohol education and we will strengthen our approach if necessary.

It is clear, however, that young people need more than drug education in school to inform them about the health harms associated with alcohol misuse. As part of the updated Alcohol Harm Reduction Strategy: Safe. Sensible. Social. (2007), the Department for Children, Schools and Families has convened a panel of paediatricians, psychologists and epidemiologists who will produce authoritative, accessible guidance about what is and is not safe and sensible in the light of the latest available evidence from the UK and abroad. This guidance will be issued to young people and their parents to help them make informed decisions about alcohol. Next year, we will also deliver a social marketing campaign in order to foster a culture where it is socially acceptable for young people to choose not to drink and, if they do, to do so later and more safely.

Baby Care Units

David Howarth: To ask the Secretary of State for Health how many finished consultant episodes were provided in specialist neo-natal units in England in each month since January 1997. [175248]

Ann Keen: The hospital episode statistics do not allow us to identify whether care has been provided in a particular type of unit or ward.

Breast Cancer: Screening

Mark Simmonds: To ask the Secretary of State for Health which primary care trusts use digital mammography for breast cancer screening; and if he will make a statement. [175575]

Ann Keen: We do not have this information in the format requested, however we do have it by breast screening programme centre. Exeter, Norwich, Manchester, Coventry, St Bartholomew's, St. Georges, Derby and Addenbrookes all use digital mammography for breast screening. Nationally this means that there are 31 digital mammography sets in the national health service breast screening programme, some are part of equipment evaluations.

The recently published Cancer Reform Strategy recommends that breast screening units should work with the NHS breast screening programme to develop business cases for digital mammography, that primary care trusts will need to give high priority to full implementation, with all units having at least one full-field digital mammography set by 2010. All women under 50 routinely screened should have Direct Digital available for assessment visits by 2010.

Miss McIntosh: To ask the Secretary of State for Health pursuant to the answer of 17 December 2007, *Official Report*, column 1196W, on breast cancer screening to Question 171702 of 17 December 2007, what assessment he has made of the reasons for Uttlesford's performance on breast cancer screening; and what steps he is taking to improve that performance. [176678]

Ann Keen: It is for strategic health authorities (SHAs) working in partnership with their primary care trusts (PCTs), local breast screening services and stakeholders to provide appropriate breast screening services for their local populations.

However, The East of England SHA has advised that a breast screening issue in West Essex, may have impacted on Uttlesford PCT (old PCT area) not reaching the 75 per cent. national aspirational standard for breast screening in that area.

The East of England SHA has advised that any backlog will be cleared by April 2008.

Cancer: Waiting Lists

Mark Simmonds: To ask the Secretary of State for Health if he will estimate the cost to the NHS of collecting the data used to monitor progress against his Department's cancer waiting time targets in 2007-08. [175573]

Ann Keen: The Department is unable to give an estimate of the cost incurred by the national health service in monitoring the waiting times targets. The NHS is funded to provide cancer services, and monitor local delivery of those services within the targets in the NHS Cancer Plan (2000), but local NHS organisations are not required to report these costs centrally.

Cervical Cancer: Screening

Mark Simmonds: To ask the Secretary of State for Health what estimate he has made of the time taken by each primary care trust to inform women of the results of their cervical smear tests; and if he will make a statement. [175572]

Ann Keen: The information requested is not collected, however we do know the time from the cervical sample being taken to the availability of the test result, shown in the following table.

Cervical screening programme: time from screening to availability of result by strategic health authority, SHA, and primary care trust, PCT, 2006-07

The Information Centre for health and social care

Childbirth

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many babies in England were born underweight in the most recent period for which figures are available; and what assessment he has made of the principal causes of babies being underweight at birth. [172918]

Ann Keen: In 2005-06, the latest year for which we have figures, 42,900 babies were born with birthweights of less than 2,500g. The major cause of low birthweight is low gestational age. This information is from "NHS Maternity Statistics, England 2005-06", a copy of which is available in the Library.

Dental Services: Portsmouth

Mr. Hancock: To ask the Secretary of State for Health if he will list NHS dentists in Portsmouth indicating which are registering new NHS patients. [162555]

Ann Keen: National Health Service Business Services Authority (NHSBSA) Dental Services Division (DSD) can only provide validated information on the number of NHS dental practices within a constituency offering NHS dental care only at disproportionate cost. Some NHS treatment attracts patient charges.

The number of dentists are available in Annex G of the 'NHS Dental Activity and Workforce Report, England: 31 March 2006'. A copy of this report is available in the Library.

Information is available at strategic health authority (SHA) and primary care trust (PCT) area in England 31 March 1997 to 31 March 2006.

Information is based on the old contractual arrangements. The report is also available on-line at:

www.ic.nhs.uk/statistics-and-data-collections/primary-care/dentistry/nhs-dental-activity-and-workforce-report-england-31-march-2006

The number of NHS dentists year ending 31 March 2007 are available in Table E2 of Annex 3 of the 'NHS Dental Statistics for England 2006-07 report'. Information is available at SHA and PCT area in England.

Since April 2006, patients no longer have to be registered with a dental practice to receive NHS care and treatment.

The closest equivalent current measure is the number of patients receiving NHS dental services ("patients seen") in a given area over a 24-month period, for that area. However, this is not directly comparable to the registration data for earlier years.

The numbers of patients seen in the 24 month periods ending 31 March 2006 and 31 March 2007 are available in Table C1 of Annex 3 of the 'NHS Dental Statistics for England 2006-07 report'. Information is available at SHA and PCT area in England.

A copy of this report is available in the Library and is also available at:

www.ic.nhs.uk/pubs/dental0607

Doctors: Housing

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 29 November 2007, *Official Report*, column 714W, on doctors: housing, if he will make available the minutes of the meetings with the Junior Doctors Committee on the provision of accommodation. [172008]

Ann Keen: The minutes have been agreed between the British Medical Association (BMA) and the four health Departments. The BMA has no objection to the

release of the extract from the Joint Negotiation Committee (Juniors) minutes. This information has been placed in the Library.

Drugs: Misuse

Sandra Gidley: To ask the Secretary of State for Health what assessment he has made of the likely effect of changes to the 2008 budget for the Young People's Substance Misuse service in Hampshire. [174010]

Kevin Brennan: I have been asked to reply.

No announcements have been made in relation to future budget allocations for Young People's Substance Misuse services. However young people and prevention are to be a key priority within the new Drugs Strategy, which is currently being developed in Government under the leadership of the Home Office and will be published in 2008.

Sandra Gidley: To ask the Secretary of State for Health what the 2008 budget is for the Young People's Substance Misuse service in Hampshire; and what the budget was in each of the last five years. [174011]

Kevin Brennan: I have been asked to reply.

(a) Consultation on the development of the new Drug Strategy which is due to be published in the new year concluded on 19 October 2007. Details of individual local authority funding allocations for the next financial year will be announced following publication of the Drugs Strategy.

(b) Funding allocations for the Young People's Substance Misuse service in Hampshire in the last five years are as follows:

	£
2007-08	911,015
2006-07	1,051,461
2005-06	1,059,508
2004-05	1,037,807
2003-04	127,803

Heart Diseases: Medical Equipment

Adam Afriyie: To ask the Secretary of State for Health what assessment he has made of the likely effect of the draft guidance on drug eluting stents proposed by the National Institute for Health and Clinical Excellence on the provision of *(a)* percutaneous coronary intervention and *(b)* coronary artery bypass grafting by the NHS if the draft guidance on drug eluting stents remains unchanged; what estimate he has made of the financial effect of any such change in provision; and if he will make a statement. [173950]

Ann Keen: The National Institute for Health and Clinical Excellence (NICE) is reviewing its October 2003 guidance on the use of drug-eluting stents for the treatment of coronary artery disease. NICE is currently considering the responses it has received from stakeholders during the recent consultation on its draft recommendations.

NICE expects to publish final guidance in March 2008 so it would be inappropriate to comment at this time.

Heart Diseases: Medical Treatments

Dr. Desmond Turner: To ask the Secretary of State for Health (1) what proportion of patients with coronary heart disease have been treated with *(a)* coronary artery bypass operations, *(b)* drug-eluting stents and *(c)* bare metal stents in each year since guidance on the use of coronary artery stents was issued by the National Institute of Clinical Excellence in 2003 in (i) England, (ii) each strategic health authority and (iii) each NHS trust; [165853]

(2) what proportion of patients with coronary heart disease have received *(a)* coronary artery bypass operations and *(b)* percutaneous coronary interventions in each year since guidance on the use of coronary artery stents was issued by the National Institute of Clinical Excellence in 2003 in (i) England, (ii) each strategic health authority and (iii) each NHS trust. [165854]

Ann Keen: It is not possible for the Department to answer these questions because of the way relevant data are collected. Hospital episode statistics (HES) data counts each period of admitted patient care under one consultant within one healthcare provider, known as an "episode". These figures do not represent numbers of actual patients, as a person may have more than one episode of care within a year.

The information provided in the following table is HES data showing the number of episodes that patients with a coronary heart disease diagnosis have had. This may be of interest to the hon. Member.

Count of finished consultant episodes with a diagnosis mention of coronary heart disease and a procedure mention of coronary artery bypass graft (CABG), percutaneous transluminal coronary angioplasty (PTCA) or insertion of prosthesis: Data for NHS Hospitals, England for 2003-04 to 2005-06

	Finished consultant episodes		
Procedure	*2005-06*	*2004-05*	*2003-04*
CABG	21,749	23,721	23,631
PTCA	55,559	50,062	41,470
Insertion of prosthesis into organ	44,190	37,425	30,938

Notes

Ungrossed Data

Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Finished Consultant Episode (FCE)

An FCE is defined as a period of admitted patient care under one consultant within one healthcare provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year.

All Diagnoses count of episodes

These figures represent a count of all FCE's where the diagnosis was mentioned in any of the 14 (seven prior to 2002-03) diagnosis fields in a HES record. ICD10 Diagnosis code used: Coronary Heart Disease = I20-I25

Assessing growth through time

HES figures are available from 1989-90 onwards. During the years that these records have been collected the NHS there have been ongoing improvements in quality and coverage. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series. Changes in NHS practice also need to be borne in mind when analysing time series. For example a number of procedures may now be undertaken in outpatient settings and may no longer be accounted in the HES data. This may account for any reductions in activity over time.

Data Quality

Hospital Episode Statistics (HES) are compiled from data sent by over 300 NHS Trusts and Primary Care Trusts (PCTs) in England. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.

All Operations count of Episodes

These figures represent a count of all FCE's where the procedure was mentioned in any of the 12 (four prior to 2002-03) operation fields in a HES record. A record is only included once in each count, even if an operation is mentioned in more than one operation field of the record. Procedure codes used (OPCS 4.2): CABG = K40-46 PTCA = K49-50 Insertion of Prosthesis into Organ = Y02.2

Hospitals: Consultants

Mr. Lansley: To ask the Secretary of State for Health if he will place in the Library copies of *(a)* the business case that his Department provided to HM Treasury in 2002 on the new contract for consultants and *(b)* HM Treasury's response to the business case. [170180]

Ann Keen: The business case for new contracts for national health service staff formed part of the discussions between the Department and HM's Treasury during the 2002 Spending Review, which concluded in July 2002. It is not the Government's practice to provide details of all such discussions.

Hospitals: Drugs

Mr. Barron: To ask the Secretary of State for Health what estimate he has made of the number of medication errors made in hospitals at each stage of the medication process in *(a)* accident and emergency departments and *(b)* other settings in hospital in the most recent period for which figures are available. [175411]

Ann Keen: The precise number of medication errors taking place in national health service hospitals is not known.

Comprehensive information concerning the number of patient safety incidents reported via the National Patient Safety Agency's National Reporting and Learning System was published in Patient Safety Observatory Report "Safety In Doses" in July 2007.

The report reviewed 60,000 medication incidents reported across the NHS between January 2005 to June 2006.

Information from this report concerning incidents from accident and emergency departments and acute hospitals is shown in tables 1 and 2.

Table 1: Medication incidents reported from accident and emergency (A&E) departments: January 2005 to June 2006

Stage of medication process	*Incidents*
Administration/supply of a medicine from a clinical area	1,278
Monitoring/follow-up of medicine use	100
Preparation of medicines in all locations/dispensing in a pharmacy	160
Prescribing	342
Other	56
Total	1,936

Table 2: Medication incidents reported from acute hospitals (not A&E): January 2005 to June 2006

Stage of medication process	*Incidents*
Administration/supply of a medicine from a clinical area	27,505
Monitoring/follow-up of medicine use	1,896
Preparation of medicines in all locations/ dispensing in a pharmacy	7,339
Prescribing	7,491
Other	886
Total	45,117

Mr. Barron: To ask the Secretary of State for Health what estimate he has made of the number of patients harmed by medication error in hospital in each of the last five years. [175412]

Ann Keen: The precise number of patients harmed by medication errors in hospital each year is not known.

However, the National Patient Safety Agency's national reporting and learning system (NRLS) receives reports of patient safety incidents of actual harm involving medicines.

All national health service hospital trusts in England and Wales were connected to the NRLS by January 2005. Since this date, the number of medication incident reports has increased as NHS reporting culture and methods have improved. Increasing numbers should not be interpreted as increasing numbers of incidents but rather an increase in the number of incidents that are reported.

	Number of NRLS reports involving medicines where harm has been reported
April 2004 to March 2005	1,106
April 2005 to March 2006	6,001
April 2006 to March 2007	9,702
April 2007 to November 2007	6,544
Total	23,338

Mr. Barron: To ask the Secretary of State for Health what estimate he has made of the number of patients who died as a result of medication error in hospital in each of the last five years. [175413]

Ann Keen: The following table provides information about reports to the national reporting and learning system (NRLS) about patients involving medicines.

	Number of fatal NRLS reports involving medicines
April 2004 to March 2005	12
April 2005 to March 2006	5
April 2006 to March 2007	27
April 2007 to November 2007	24
Date not available	17
Total	78

Mr. Barron: To ask the Secretary of State for Health what plans he has made to reduce the rate of medication error in hospitals; and if he will make a statement. [175414]

Ann Keen: The National Patient Safety Agency (NPSA) has issued a number of safer practice recommendations to the national health service during 2007 concerning high risk medicines and practices. The topics selected are informed or triggered by reports to the national reporting and learning system by the NHS.

Patient Safety Alerts

Safer practice with anticoagulants

Promoting safer measurement and administration of liquid medicines via oral and other enteral routes

Safer use of injectable medicines

Safer use of epidural injections and infusions

Reducing the risk of hyponatraemia with intravenous infusions in children

These were issued on 28 March 2007.

Rapid Response Reports

In addition to these alerts, the NPSA issued three rapid response reports on medication topics between June and September 2007 to alert the NHS to medication risks and actions to minimise them. These included:

risk of confusion between cytarabine and liposomal cytarabine;

risk of confusion between non-lipid and lipid formulations of injectable amphotericin; and

fire hazard with paraffin-based skin products on dressings and clothing.

Design for Safety Information

The NPSA has also issued design for safety booklets on a number of medication topics to promote safe design with pharmaceutical manufacturers, and dispensaries in both primary and secondary care.

Patient Safety Guidance From NICE and the NPSA

On 12 December 2007, the National Institute for Health and Clinical Excellence and the NPSA issued patient safety guidance on medicines reconciliation when patients are admitted to hospitals.

Implementation

The NPSA is working with the local organisations, the Healthcare Commission, and Healthcare Purchasers to ensure that these safe practice recommendations are implemented. Health care organisations are also recommended to produce a medicine management report annually to describe local risks with medicines and how these risks are being managed.

Mr. Barron: To ask the Secretary of State for Health what estimate he has made of the rate of medication error in hospitals at each stage of the medication process; and if he will make a statement. [175415]

Ann Keen: Estimates of the rates of medication errors in hospitals at each stage of the medication process have been made from published United Kingdom research. The results are not directly comparable and depend on the definition of medication error used in respective studies.

For example, most studies on medication errors during administration exclude the administration of injectable medicines and find an error rate of between 5-10 per cent. Where research have examined administration errors with injectable medicines, error rates of up to 49 per cent. have been reported.

Stage of medication process	*Estimates of rate of medication error (Percentage)*
Prescribing	1-11
Dispensing	1-2
Administration (and where appropriate preparation)	3.5-49
Monitoring	[1]

[1] No overall estimate.

Not all medication errors have caused or have the potential to cause harm. Those that are associated with harm are called adverse drug events.

Hospitals: Food

Mr. Jim Cunningham: To ask the Secretary of State for Health what steps the Government plan to take to improve the quality of food provided for patients in hospitals. [175593]

Ann Keen *[holding answer 7 January 2008]:* An appropriate diet, based on acceptable standards, requires good food with the right nutritional content, properly prepared and available when patients need it. The details of how that diet is provided are for local determination. Work to support trusts in delivering good food and nutritional care is provided via a wide range of mechanisms.

The national health service plan stipulated that dieticians should advise and check on nutritional values in hospital food. Nutritional information is available for all recipes in the national dish selector, and this can be used to assess local nutritional levels. Ingredients specifications for the recipes have been developed by the Purchasing and Supply Agency to ensure that wholesome, high quality and value-for-money ingredients are used.

The Food Standards Agency has published (voluntary) nutrient and food based guidance for major institutions. This guidance aims to assist caterers and consumers to achieve the Government's healthy eating recommendations. This advice feeds into the cross Government agenda on diet and food procurement. The Agency has also published example menus to assist caterers in meeting this guidance.

The quality of hospital food is measured annually via Patient Environment Action Team assessments. These showed an increase from 17 per cent. "good" in

2002 to over 46 per cent. "excellent" in 2007. (There was no "excellent" category in 2002, when a three-point scale was used).

To identify and deal with patients at risk, we have introduced protected mealtimes and have renewed the emphasis on nutritional screening. These two areas of work are being actively pursued by the National Patient Safety Agency.

My hon. Friend the Parliamentary-Under Secretary of State (Mr. Lewis) hosted two nutrition summits as part of his dignity in care work. A wide range of stakeholders attended. Following these summits, we launched the Nutrition Action Plan "Improving Nutritional Care" on 30 October 2007. There will be ongoing monitoring of how stakeholders and their work have contributed to the aims of the plan through a nutrition action plan delivery board. The delivery board will be accountable to my hon. Friend and will produce a progress report in summer 2008.

Hospitals: Infectious Diseases

Mr. Yeo: To ask the Secretary of State for Health how many hospital-acquired infections there were in *(a)* the West Suffolk Hospital, *(b)* the Walnuttree hospital, Sudbury and *(c)* the Newmarket hospital in the most recent period for which figures are available. [175581]

Ann Keen: Information is not available in the format requested as information is collected by national health service trust only. The following tables show the number of hospital acquired infections in West Suffolk Hospital trust for the three year period 2004-06 which is the latest data available.

	Name of NHS trust	
Number of Clostridium difficile reports for patients	*Cambridge University Hospitals NHS Foundation Trust*	*West Suffolk Hospitals*
Aged =65 years		
July to September 2006	99	107
October to December 2006	115	97
January to March 2007	143	99
April to June 2007	119	95
Aged 2-64 years		
April to June 2007	46	12

Industrial Diseases

John Mann: To ask the Secretary of State for Health what assessment he has made of the role of miners' welfares in combating diseases, with particular reference to chronic obstructive pulmonary disease. [174653]

Ann Keen: In the financial year commencing 1 April 2007 the Department gave £34,000 from their Section 64 scheme to the Coal Industry Social Welfare Organisation for them to provide personal, community and social support services to mining and ex-mining communities and their residents, for those with problems resulting from chronic obstructive pulmonary disease (COPD).

The Department is also currently developing a national services framework for COPD, which will result in national standards and markers of good practice. It will improve the quality of and access to COPD services, reducing inequalities and reduce health care utilisation costs.

The advice will pay particular attention to the need to reduce variations in outcomes, including those associated with ethnicity, social deprivation and social exclusion.

An expert reference group will produce advice for Ministers by January/February 2008. The COPD NSF will be published in 2008 with implementation at the start of 2009.

John Mann: To ask the Secretary of State for Health how many people have been diagnosed with chronic obstructive pulmonary disease in *(a)* Bassetlaw and *(b)* England; and what proportion of these worked in heavy industry such as mining. [174669]

Ann Keen: The quality and outcomes framework (QOF) part of the General Medical Services contract requires practices to record patients diagnosed with chronic obstructive pulmonary disease (OPD). The number of patients for practices in Bassetlaw for the financial year 2006-07 was 2,153. The corresponding figure for England was 765,806.

The number of people with COPD who work in heavy industry is not collected centrally.

Note:

Coverage of QOF

Patients will only contribute to the figures in QOF if they are registered with a general practice participating in QOF.

John Mann: To ask the Secretary of State for Health how many deaths there were as a result of *(a)* chronic bronchitis and *(b)* chronic obstructive pulmonary disease in the last year for which figures are available. [174677]

Angela Eagle: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 7 January 2008:

The National Statistician has been asked to reply to your recent question asking how many deaths there were as a result of (a) chronic bronchitis and (b) chronic obstructive pulmonary disease in the last year for which figures are available. I am replying in her absence. (174677)

The latest figures available refer to deaths registered in England and Wales in the calendar year 2006. There were 23,319 deaths with an underlying cause of chronic obstructive pulmonary disease[1], of which 230 had an underlying cause of chronic bronchitis[2].

[1] Selected using the International Classification of Diseases, Tenth Revision (ICD-10) codes J40-J44.

[2] Selected using the International Classification of Diseases, Tenth Revision (ICD-10) codes J40-J42.

John Mann: To ask the Secretary of State for Health what assessment he has made of regional variations in the prevalence of chronic obstructive pulmonary disease [174679]

Ann Keen: The quality and outcomes framework (QOF) part of the General Medical Services contract requires practices to record patients diagnosed with chronic obstructive pulmonary disease (COPD). The prevalence in each primary care trust (PCT) for the year 2006-07 are shown in the following table.

Chronic obstructive pulmonary disease unadjusted prevalence

Notes:
1.Coverage of QOF. Patients will only contribute to the figures in QOF if they are registered with a general practice participating in QOF.
2.The prevalence is the number of patients on the COPD register divided by the total number of patients expressed as a percentage.

Medicine: Animal Experiments

Mr. Hancock: To ask the Secretary of State for Health what steps were taken to ensure that the leaflets produced by his Department and the then Department of Trade and Industry, Where do medicines come from? contained a balanced assessment of the issues concerning the use of animals; and if he will make a statement. [175620]

Dawn Primarolo: The leaflet "Where do medicines come from?" was produced by the independent Coalition for Medical Progress (CMP). The CMP is an alliance of organisations from across the biomedical research community whose task is to address public reservations that arise over the use of animals in achieving advances in medicine. CMP aims to establish better communication between the biomedical research community and the general public in the United Kingdom. The Government fully support the aims of the CMP.

NHS: Information

Mr. Lansley: To ask the Secretary of State for Health when he intends the full national implementation of information prescriptions to take place. [175120]

Ann Keen: Information prescriptions are currently being piloted in 20 sites across England. Using the learning from the pilots we intend to implement information prescriptions nationally in 2008.

North Bristol Trust

Steve Webb: To ask the Secretary of State for Health what his plans are for the repayment of the one-off borrowing by North Bristol Trust as part of its financial recovery programme; and if he will make a statement. [173771]

Mr. Bradshaw *[holding answer 13 December 2007]:* We have agreed with the South West Strategic Health Authority (SHA) that the one off borrowing will be repaid in full to the Department, within the next five years. The SHA and North Bristol NHS Trust are currently constructing the details of the repayment.

North West Health Brussels Office: Expenditure

Mr. Pickles: To ask the Secretary of State for Health what the expenditure was of the North West Health Brussels Office in the last year for which figures are available. [176374]

Ann Keen: In 2006-07, the last year for which budgets are fully available, North West Health Brussels Office (NWHBO) received £163,800 from a range of North West Regional stakeholders including:

The NHS Public Health Networks of Greater Manchester, Cumbria and Lancashire, and Cheshire and Merseyside (each representing North West Primary Care Trusts).

North West Strategic Health Authority.

North West Regional Development Agency.

Health Protection Agency - North West.

Centre for Public Health - Lancaster University.

The NWHBO function in 2006-07 was managed by a regional stakeholder group and employment and financial matters were managed by Sefton primary care trust.

From April 2007, the service has been managed through a revised stakeholder group and commissioned on behalf of regional partners by Liverpool primary care trust.

Organs: Trade

Mr. Vara: To ask the Secretary of State for Health what assessment he has made of the extent of the illegal trade in human organs in the UK; and if he will make a statement. [175538]

Ann Keen: We have no evidence of an illegal trade in human organs in the United Kingdom. The Human Tissue Act 2004 makes it an offence to give or receive a reward for the supply, or offer of human material for transplantation. Most importantly it makes trafficking in tissue and cells for transplantation liable to a fine, imprisonment or both. All potential living donors are assessed by a Human Tissue Authority (HTA) trained and accredited independent assessor, who is required to specifically look for evidence of coercion, payment and reward. The HTA must also be satisfied that there is no evidence of payment or reward and that consent has been given before it can approve the transplant and will prosecute cases of commercial dealing or trafficking.

Prostate Cancer: Health Services

Mark Simmonds: To ask the Secretary of State for Health what recent progress has been made in implementation of the Prostate Cancer Risk Management programme; and if he will make a statement. [175508]

Ann Keen: The Prostate Cancer Risk Management programme (PCRMP) was introduced in 2002 to help general practitioners and practice nurses in advising men without symptoms of prostate cancer on the implications of having a public service agreement test.

The PCRMP empowers men to make an informed choice on whether or not to have a test based on their own lifestyles and values.

An evaluation of the PCRMP was funded by the Department to help inform the future direction of the programme and the PCRMP pack is currently being revised.

A consultation will be published in the spring, with the intention of launching the revised PCRMP packs in the summer of 2008. The revision will take full account of the results of the Prostate Cancer in Ethnic Subgroups study, which showed that black men are three times more likely to develop prostate cancer compared to white men, and the new National Institute for Health and Clinical Excellence clinical guideline, "Prostate cancer: diagnosis and treatment", which is due to be published in February 2008.

Radiotherapy

Mark Simmonds: To ask the Secretary of State for Health how many radiotherapy fractions were delivered by each primary care trust in each of the last three years; and if he will make a statement. [175576]

Ann Keen: We do not hold information centrally on the number of radiotherapy fractions that were delivered by each primary care trust in each of the last three years. The latest national information available is in the National Radiotherapy Advisory Group Report "Radiotherapy: developing a world class service for England" which the Department published in May 2007. The report sets out fractions per linac per year, averaged across a radiotherapy department, in paragraphs 45 and 46. It showed that the median radiotherapy centre gave 7,400 fractions per linac and on average 16 out of 39 centres delivered more than 8,000 fractions per linac. A copy of the report has been placed in the Library.

Skin Cancer

Mr. Lansley: To ask the Secretary of State for Health how many cases of melanoma have been reported in each primary care trust area in each year since 1997. [174681]

Angela Eagle: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 7 January 2008:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking how many cases of melanoma have been reported in each year since 1997, broken down by primary care trust area. (174681)

The latest available figures for newly diagnosed cases of cancer (incidence) for England are for the year 2004. Numbers of cases of melanoma in England by primary care trust in each year since 1997 are given in Table 1 below.

Table 1: Registrations of newly diagnosed cases of malignant melanoma of skin[1], persons, England and primary care organisations[2,3] within strategic health authority, 1997-2004

Table 1 Registrations of newly diagnosed cases of malignant melanoma of skin[1], persons, England and primary care organisations[2,3] within strategic health authority, 1997-2004

Area	1997	1998	1999	2000	2001	2002	2003	2004
Wiltshire	62	64	50	74	97	101	103	110

[1] Malignant melanoma of skin is defined as code C43 in the International Classification of Diseases, Tenth Revision (ICD-10)
[2] Based on NHS boundaries as of 2007
[3] Each primary care organisation (PCO) is listed under the strategic health authority (SHA) to which it reports. The 152 primary care organisations include 148 primary care trusts (PCTs), and four care organisations (COs).
[4] Numbers have been suppressed to protect patient confidentiality.

Office for National Statistics

Spinal Muscular Atrophy

Mr. Donohoe: To ask the Secretary of State for Health how many children were diagnosed with spinal muscular atrophy types *(a)* 1, *(b)* 2 and *(c)* 3 in each year since 2005. [175291]

Mr. Ivan Lewis: We do not collect that information centrally. However, NHS Direct estimates that one child in 25,000 will develop one of the three forms of spinal muscular atrophy and that one in 300,000 people will develop type four as an adult.

Thalassaemia: Screening

Lynne Featherstone: To ask the Secretary of State for Health (1) what support his Department is providing to clinicians to deal with patients identified as having *(a)* a sickle cell disease and *(b)* Thalassaemia through the National Screening Programme; [173235]

(2) with reference to the answer of 26 April 2007, *Official Report*, column 1263W, on blood: diseases, what progress his Department has made on the development and management of 10 managed clinical networks for Thalassaemia and sickle cell disease. [173538]

Ann Keen: The Department has been working with a range of key stakeholders to develop a model of 10 proposed managed clinical networks. The national health service plan set out a commitment to introduce new and effective screening programmes for women and children including a new national linked antenatal and neonatal programme for sickle cell and thalassaemia. The programme has now implemented newborn screening and 100 per cent. of newborn babies are now offered screening for sickle cell. Antenatal screening is expected to be fully implemented by spring 2008. The programme is expected to identify approximately 300 screen positive affected babies a year with sickle cell and haemoglobin variants from 559,098 babies across England. The benefits of this specialist care can then be managed in the right place with appropriate resources. The clinical network will build on existing expertise, to allow access to comprehensive care to be available across the country.

A working group has been established to oversee the roll-out of the managed clinical networks, and a number of centres have now been identified.

Supporting the national screening programme a number of recent initiatives to increase services for sickle cell and thalassaemia are now underway. These include:

Funding of training posts for registrars, nurse consultants and clinical scientists to increase the number of staff with specific haemoglobinopathy expertise.

Recognition by the Royal Colleges of the need to increase training in haemaglobinophies including changes to examinations and syllabus.

Funding for a database has been provided to track patients and the care they require.

Transplant Surgery: Waiting Lists

Mr. Vara: To ask the Secretary of State for Health pursuant to the answer of 4 December 2007, *Official Report*, column 1130W, on transplant surgery: waiting lists, how many people were on a waiting list for an organ transplant in each primary care trust area in each year since 2001, broken down by type of organ. [173069]

Ann Keen: This information has been placed in the Library.

Varicose Veins

Mr. Hands: To ask the Secretary of State for Health how many patients were treated for varicose veins by *(a)* vein stripping open surgery; *(b)* endovenous laser treatment, *(c)* radiofrequency ablation, *(d)* foam sclerotherapy and *(e)* using a vascular closure device in the NHS in each of the last five years, broken down by strategic health authority area. [174636]

Ann Keen: The information requested has been placed in the Library. Data for 2002-03 to 2005-06 are not directly comparable with data for 2006-07 because of changes and additions to the Office of Population Censuses and Survey's Classification of Surgical Operations and Procedure version 4 (OPSC4) codes and descriptions relating to varicose vein treatments.

Written Questions

Mr. Hancock: To ask the Secretary of State for Health when he will answer Questions *(a)* 162507, *(b)* 162508 and *(c)* 162555 tabled by the hon. Member for Portsmouth South on 8 November 2007. [175619]

Ann Keen: A reply was given to questions 162507 and 162508 on 7 January 2008, *Official Report*, column 101W, and to 162555 today.

TREASURY

Alcoholic Drinks: Young People

Mr. Amess: To ask the Chancellor of the Exchequer how many (*a*) males and (*b*) females under the age of 18 years in (i) Southend, (ii) Essex and (iii) England and Wales died as a consequence of excessive alcohol consumption in each of the last seven years for which figures are available. [177129]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 8 January 2008:

As National Statistician, I have been asked to reply to your recent question asking how many (*a*) males and (*b*) females under the age of 18 years in (i) Southend, (ii) Essex and (iii) England and Wales died as a consequence of excessive alcohol consumption in each of the last seven years for which figures are available. (177129)

The table attached provides the number of deaths of (*a*) males and (*b*) females under the age of 18 with an alcohol-related underlying cause in England and Wales from 2000 to 2006 (the latest year available). There were no deaths of persons under the age of 18 with an alcohol-related underlying cause in Southend-on-Sea unitary authority for these years, and one death in Essex county, a male, in 2000.

Table 1: Number of deaths with an alcohol-related underlying cause of death[1], males and females under the age of 18, England and Wales, 2000 to 2006[2]

	Deaths (persons)	
	Males	Females
2000	3	2
2001	1	0
2002	0	0
2003	5	0
2004	1	1
2005	1	0
2006	1	0

[1] Cause of death was defined using the International Classification of Diseases Ninth Revision (ICD-9) for the year 2000, and Tenth Revision (ICD-10) for 2001 onwards. The specific causes of death categorised as alcohol-related, and their corresponding ICD-9 and ICD-10 codes, are shown in the boxes below.

[2] Figures are for deaths registered in each calendar year.

Box 1: Alcohol-related causes of death - International Classification of Diseases, Ninth Revision (ICD-9)

Cause of death	ICD-9 code(s)
Alcoholic psychoses	291
Alcohol dependence syndrome	303
Non-dependent abuse of alcohol	305.0
Alcoholic cardiomyopathy	425.5
Alcoholic fatty liver	571.0
Acute alcoholic hepatitis	571.1
Alcoholic cirrhosis of liver	571.2
Alcoholic liver damage, unspecified	571.3
Chronic hepatitis	571.4
Cirrhosis of liver without mention of alcohol	571.5
Other chronic non alcoholic liver disease	571.8
Unspecified chronic liver disease without mention of alcohol	571.9
Accidental poisoning by alcohol	E860

Box 2: Alcohol-related causes of death - International Classification of Diseases, Tenth Revision (ICD-10)

Cause of death	ICD-10 code(s)
Mental and behavioural disorders due to use of alcohol	F10
Degeneration of nervous system due to alcohol	G31.2
Alcoholic polyneuropathy	G62.1
Alcoholic cardiomyopathy	I42.6
Alcoholic gastritis	K29.2
Alcoholic liver disease	K70
Chronic hepatitis, not elsewhere classified	K73
Fibrosis and cirrhosis of liver (excl. Biliary cirrhosis)	K74 (excl. K74.3-K74.5)
Alcohol induced chronic pancreatitis	K86.0
Accidental poisoning by and exposure to alcohol	X45
Intentional self-poisoning by and exposure to alcohol	X65
Poisoning by, and exposure to alcohol, undetermined intent	Y15

Capital Gains Tax

Mr. Pickles: To ask the Chancellor of the Exchequer what assessment he has made of the effect on the buy to let market and housing market of the new flat 18 per cent. rate of capital gains tax; and whether an impact assessment has been produced for this proposed tax change. [176436]

Jane Kennedy: The 2007 pre-Budget report announced a reform of the capital gains tax regime for individuals. From 6 April 2008, all disposals that attract capital gains tax will do so at a single rate of 18 per cent. The impact on investors will depend on their personal circumstances.

Child Benefit: Personal Records

James Brokenshire: To ask the Chancellor of the Exchequer how many officials of (*a*) HM Revenue and Customs and (*b*) other Departments or agencies have access to (i) the entire child support database and (ii) the entire child tax credit database. [167992]

Jane Kennedy: Child benefit and tax credits are both administered by HMRC.

On 20 November 2007 the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

The interim report was published on 17 December 2007 and is available in the Library of the House.

Malcolm Bruce: To ask the Chancellor of the Exchequer to what year the earliest child benefit case whose records were recently misplaced by HM Revenue and Customs dates back. [168559]

Jane Kennedy: *[holding answer 29 November 2007]:* The Acting Chairman of HM Revenue and Customs has written to all customers affected by the loss of child benefit data.

The missing data relates to the personal details of claimants, of child benefit and their children. Child benefit is payable in respect of a child who is under the

age of 16, or a person who is aged 16 or over but under 20 years where they are in qualifying full-time education or approved training.

Child benefit claimant records are deleted five years after the award of the youngest child in the family has ceased.

The information is not available in the format requested and is available only at disproportionate costs.

Mr. Amess: To ask the Chancellor of the Exchequer pursuant to his statement of 20 November 2007, *Official Report*, columns 1101-02, on HM Revenue and Customs (HMRC), how many of the individual records missing in the transfer of information from HMRC are former claimants of child benefit resident in Southend West constituency; what the policy is of HMRC for the storing of information of former claimants of child benefit; and if he will make a statement [169531]

Jane Kennedy: I refer the hon. Member to the statement given in the House by my right hon. Friend the Chancellor of the Exchequer on 20 November 2007, *Official Report*, columns 1101-04.

The missing information contains details of all child benefit recipients, including those in Southend West constituency.

Information on families receiving child benefit at 31 August 2006 by constituency and local authority are published as part of National Statistics and can be found in Tables 2 and 3 of child benefit statistics geographical analysis which are available on HMRC's website at:

http//www.hmrc.gov.uk/stats/child_benefit/geog-aug06.pdf

IT records for child benefit claimants are deleted five years after the award of the youngest child in the family has ceased.

Council Tax: Tax Yields

Mr. Pickles: To ask the Chancellor of the Exchequer whether the aggregated estimate for net council tax receipts for the UK, in Table B8 of the 2007 Pre-Budget Report and Comprehensive Spending Review, includes receipts from domestic rates in Northern Ireland. [176418]

Jane Kennedy: The figures for council tax receipts in Table B8 of the PBR/CSR document include Northern Ireland domestic rates.

Council Tax: Valuation

Mr. Pickles: To ask the Chancellor of the Exchequer for what purpose the dwellinghouse code valuation grouping was created by the Valuation Office Agency in its preparations for a council tax revaluation. [176427]

Jane Kennedy: No council tax revaluation is taking place, nor has the Valuation Office Agency created a dwellinghouse coding valuation grouping for one.

A coding system has been in use for over 30 years to simplify recording of domestic property attributes—this continues as part of the Agency's responsibility to maintain the 1993 lists.

Customs Officers: Labour Turnover

Justine Greening: To ask the Chancellor of the Exchequer what the staff turnover rate was for customs officers in HM Revenue and Customs in each year since 2000; and if he will make a statement. [174522]

Jane Kennedy *[holding answer 17 December 2007]:* The numbers of staff leaving HM Customs and Excise yearly between 1 April 2000 and 31 March 2005 are shown in the following table. After 1 April 2005, comparable figures are not available as no statistics are available for HM Customs and Excise as a separate Department.

	Number of leavers	*Rate (percentage)*
2000-01	1,657	7
2001-02	1,245	5
2002-03	1,198	5
2003-04	1,157	5
2004-05	1,301	5
2005-06	9,107	9
2006-07	9,631	10

Departmental Databases

Jo Swinson: To ask the Chancellor of the Exchequer how many confirmed security breaches of databases controlled by his Department occurred in each of the last five years; whether the breach resulted from internal or external action in each case; how many records were compromised on each occasion; and what estimate was made of the total number of records accessible to the individuals concerned. [173706]

Angela Eagle *[holding answer 13 December 2007]:* Except in exceptional cases, when it is in the public interest, it has been the policy of successive Governments not to comment on breaches of security.

Housing: Parking

Mr. Pickles: To ask the Chancellor of the Exchequer how many domestic dwellings in England have *(a)* one parking space, *(b)* two parking spaces and *(c)* three or more parking spaces according to the Valuation Office Agency's database of dwelling house codes and value significant codes. [176426]

Jane Kennedy: I refer the hon. Member to the answer given on 28 March 2007, *Official Report*, columns 1596-97W.

Housing: Valuation

Mr. Pickles: To ask the Chancellor of the Exchequer whether the Valuation Office Agency's assessment of the plot size of a residential property includes the area of a *(a)* garage space, *(b)* outbuildings and *(c)* garden inside the curtilage of the property as a whole. [176420]

Jane Kennedy: Yes.

Inheritance Tax: Tax Thresholds

Mr. Pickles: To ask the Chancellor of the Exchequer whether an impact assessment has been produced for the proposed changes to inheritance tax thresholds for married couples. [176435]

Jane Kennedy: Preliminary work identified that, in accordance with current guidance, an impact assessment was not required. In line with normal procedure, preliminary work is not published.

Inheritance Tax: Valuation

Mr. Pickles: To ask the Chancellor of the Exchequer what role the Valuation Office Agency plays in undertaking inheritance tax valuations. [176247]

Jane Kennedy: The Valuation Office Agency provides advice to Her Majesty's Revenue and Customs in connection with inheritance tax through the provision of valuations of land, buildings, lordships of the manor, growing crops, live and dead farming stock, plant, machinery and fixtures. At the request of HMRC the VOA also undertakes negotiations with taxpayers or their agents to resolve any differences of opinion on valuation matters.

Mr. Pickles: To ask the Chancellor of the Exchequer what the average capital value was of a domestic dwelling valued by the Valuation Office Agency for inheritance tax purposes, in each government office region area, in the last year for which figures are available. [176381]

Jane Kennedy: This information could be obtained only at disproportionate cost.

Mr. Pickles: To ask the Chancellor of the Exchequer how many homes the Valuation Office Agency valued for inheritance tax purposes in *(a)* England and *(b)* Wales in 2006-07. [176398]

Jane Kennedy: This information could be obtained only at disproportionate cost.

Irish

Mr. Hoban: To ask the Chancellor of the Exchequer how many Irish citizens are estimated to be resident in the UK; and what estimate he has made of the likely number in 2017. [174762]

Angela Eagle *[holding answer 17 December 2007]:* The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 8 January 2008:

As National Statistician, I have been asked to respond on behalf of the Chancellor of the Exchequer concerning your question about how many Irish citizens are estimated to be resident in the UK; and what estimate he has made of the likely number in 2017. (174762)

I would refer you to the answer given in the Official Report of 20 November 2007, Volume 467, Column 704.

Non-domestic Rates: Empty Property

Mr. Pickles: To ask the Chancellor of the Exchequer whether an impact assessment was conducted of the reduction of empty business rate relief on business properties. [176382]

Jane Kennedy: A Regulatory Impact Assessment considering the reform of Empty Property Relief in business rates was published on 11 May 2007 and can be found on the Communities and Local Government website.

Mr. Pickles: To ask the Chancellor of the Exchequer what estimate he has made of the number of businesses which will pay higher business rates as a consequence of the reduction in empty property business rate relief. [176383]

Jane Kennedy: No estimates are available.

Non-domestic Rates: Pigeon Racing

Mr. Pickles: To ask the Chancellor of the Exchequer whether HM Revenue and Customs recognises pigeon racing as a sport for business rates purposes. [176406]

Jane Kennedy: Sports clubs can qualify for mandatory business rates relief of 80 per cent. if they are registered charities or registered with HMRC as Community Amateur Sports Clubs (CASCs). However, it is for local authorities, not HMRC, to determine whether to exercise their powers to give up to 100 per cent. discretionary rate relief to non-profit making bodies including sports clubs that are not eligible for mandatory relief either as a charity or a CASC. It is also not for HMRC to decide which activities are eligible sports for the CASC scheme. Eligible sports are defined by Treasury Order, by reference to the Sports Councils' list of recognised activities. The list can be accessed at:

www.sportengland.org/index/get_resources/resource_ul.htm

Non-domestic Rates: Valuation

Mr. Pickles: To ask the Chancellor of the Exchequer on what date the Valuation Office Agency's Non-Domestic Referencing Manual was last updated. [176253]

Jane Kennedy: The Valuation Office Agency's Non-Domestic Referencing Manual was last updated on 15 October 2007.

Mr. Pickles: To ask the Chancellor of the Exchequer whether *(a)* the Valuation Office Agency and *(b)* HM Revenue and Customs has commenced the procurement process to develop an automated valuation model for non-domestic rates valuations. [176430]

Jane Kennedy: Neither *(a)* the Valuation Office Agency, nor *(b)* HM Revenue and Customs is intending to commence such a procurement process.

Northern Rock

Mr. Redwood: To ask the Chancellor of the Exchequer whether Northern Rock meets banking covenants on

(a) profitability and *(b)* cash flow on its borrowing from his Department and the Bank of England. [168528]

Kitty Ussher: On 14 September 2007 the Chancellor of the Exchequer authorised the Bank of England to provide a liquidity support facility to Northern Rock. A further facility with the Bank of England was announced on 11 October 2007. Extensive representations, warranties and undertakings govern the terms and conditions of the loans. The terms and conditions of the facilities are confidential.

Offshore Industry: North Sea

Norman Baker: To ask the Chancellor of the Exchequer what estimate he has made of the net cumulative contribution made to the British economy by North Sea oil and gas over the last three decades, expressed in 2007 prices. [173879]

Malcolm Wicks: I have been asked to reply.

North Sea oil and gas has made a huge contribution to the British economy over the last three decades but that contribution cannot be encapsulated as a single value in 2007 (or any other) prices. Between 1997 and 2006, the cumulative gross revenue of the UK upstream oil and gas sector, principally from sales of oil and gas produced from the North Sea, amounted to £761 billion in 2006 prices. Over the same period, cumulative operating costs of the sector amounted to £129 billion in 2006 prices. The cumulative total gross operating surplus of the UK upstream oil and gas sector between 1997 and 2006 was thus £632 billion in 2006 prices. The gross operating surplus of the sector is a little less than its gross value added (GVA), data for which go back only to 1985. GVA is the best single measure of a sector's contribution to Gross Domestic Product. Over the period 1997 to 2006, the UK upstream oil and gas sector spent a further £44 billion in 2006 prices on exploration and appraisal and £171 billion on capital expenditure (these and previous data come from the BERR Oil and Gas website—http://www.og.dti.gov.uk/information/bb_updates/appendices/Appendix7.htm). It also contributed £233 billion in 2006/07 prices to the Exchequer over the period 1977/78 to 2006/07 (source: BERR Oil and Gas website—http://www.og.dti.gov.uk/information/bb_updates/appendices/Appendix8.htm). None of these figures captures the overall net impact the sector has had on the economy.

OGC Buying Solutions

Justine Greening: To ask the Chancellor of the Exchequer what the ratio was between administrative costs and value for money improvements secured by OGC Buying Solutions in each year since 2003-04; and if he will make a statement. [170350]

Angela Eagle: The following table shows the ratio of administrative costs, which has been assumed to be total organisational operating costs, against value-for-money (VFM) improvements. These have been reported in the annual report and accounts 2006-07.

	2003-04	*2004-05*	*2005-06*	*2006-07*
VFM improvements (£ million)	152	321	412	516
Internal costs (£ million)	16	19	21	21
Ratio:				
Cost per £ VFM improvements	£0.105	£0.059	£0.050	£0.041

Personal Income: Cleethorpes

Shona McIsaac: To ask the Chancellor of the Exchequer what the average household income was in Cleethorpes constituency in each year since 1997. [176890]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 8 January 2008:

As National Statistician, I have been asked to reply to your recent question asking what the average household income was in the Cleethorpes constituency in each year since 1997 (176890).

Estimates of household income which include income from all sources such as earnings, benefits, pensions, and investment income, are generally based on household surveys. The largest of these is the Family Resources Survey which has an annual sample in the UK of around 28,000 households. This is sufficient to produce estimates of household income at national and regional level, but not for smaller areas. Statistics on earnings by employees are available for local authorities from the Annual Survey of Hours and Earnings (ASHE) which is an employer based survey.

The ONS has published estimates of household income for wards for 2001/02, and using a newer geographical classification—the medium layer super output areas—for 2004/05. There are no figures available for other years. The geographical boundaries and data sources used in producing the 2004/05 figures are different to those used for 2001/02 so they are not directly comparable. In particular, they cannot be used to provide an accurate measure of change over this period. Both estimates are based on a statistical model and are classed as experimental statistics—this means they have been developed in accordance with the principles set out in the National Statistics Code of Practice but have yet to be fully accredited as National Statistics. They are available through the Neighbourhood Statistics section of the ONS website.

Table 1 shows mean net equivalised incomes, both before and after housing costs, for Cleethorpes parliamentary constituency in 2001/02, and for the wards that made up the constituency. Table 2 shows just average incomes for Cleethorpes constituency in 2004/05. The estimates for 2004/05 are based on the super output areas which do not correspond to areas which are as easily recognisable 'on the ground' as wards. They are designed to be built up to form larger areas and so Table 2 shows only an average for the constituency as a whole. All of these figures for Cleethorpes and wards within Cleethorpes, either appear in the 'experimental' datasets described above, or have been calculated directly from them.

For comparison with these figures, both Tables 1 and 2 provide mean incomes for either Great Britain or the UK for the relevant years. These are based on the Households Below Average Income series derived from the Family Resources Survey, and are National Statistics. The Household Below Average Income series generally presents results based on median incomes, however mean incomes are presented here to be directly comparable with the small area statistics.

Table 1: Average weekly household income 2001-02[1]

£ per week

	Net weekly equivalised household income (before housing costs)[2]	*Net weekly equivalised household income (after housing costs)*[2]
Wards in Cleethorpes constituency		
Croft Baker	310	260
East Marsh[3]	250	200
Haverstoe	370	340
Sidney Sussex[3]	290	250
Waltham	370	350
Wolds	380	360
Barton	330	300
Ferry	350	320
Humberston and New Waltham	360	330
Cleethorpes[4]	340	300
Great Britain	390	340

[1] Figures rounded to the nearest 10.
[2] Housing costs include rent (gross of housing benefit), water charges, mortgage interest payments, structural insurance and ground rent and service charges.
[3] These wards are split between Cleethorpes parliamentary constituency and Great Grimsby parliamentary constituency.
[4] Based on an average of the ward incomes, weighted for the number of households in each ward.

ONS, Department for Work and Pensions.

Poynter Review

Mr. Gauke: To ask the Chancellor of the Exchequer what the timetable is for the *(a)* completion and *(b)* publication of the Poynter Review. [176891]

Jane Kennedy: An interim report was published on 17 December 2007 and is available in the Library of the House.

It is expected that the full review will be completed and published in the first half of 2008.

I also refer the hon. Member to the statement by my right hon. Friend the Chancellor of the Exchequer on 17 December 2007, *Official Report*, column 612.

Research and Development Tax Credit

Adam Afriyie: To ask the Chancellor of the Exchequer what the value was of research and development (R and D) tax credits paid to *(a)* small and medium sized enterprises and *(b)* larger companies in each year since the R and D tax credit was introduced. [176962]

Angela Eagle: Estimates of the annual cost of R&D tax credits are published as National Statistics on the HM Revenue and Customs website at:

http://www.hmrc.gov.uk/stats/corporate_tax/randdtcmenu.htm.

Revenue and Customs: Data Protection

Mr. Philip Hammond: To ask the Chancellor of the Exchequer what steps HM Revenue and Customs takes to inform private courier firms of the sensitivity of the contents of packages it employs them to deliver. [169888]

Jane Kennedy *[holding answer 3 December 2007]:* On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

The interim report was published on 17 December 2007 and is available in the Library of the House.

Mr. Willetts: To ask the Chancellor of the Exchequer what form of encryption algorithm is used to encrypt data sent *(a)* from the Student Loans Company to HM Revenue and Customs (HMRC) and *(b)* from HMRC to the Student Loans Company. [175752]

Jane Kennedy: I refer the hon. Member to the answer I gave on 18 December 2007, *Official Report*, column 1490W in response to earlier questions on the same subject.

Revenue and Customs: Manpower

Andrew Selous: To ask the Chancellor of the Exchequer how many staff work for the International Claims Processing Section of HM Revenue and Customs; and what its annual operating costs were in the last year for which figures are available. [174675]

Jane Kennedy *[holding answer 17 December 2007]:* It is not possible to isolate operating costs or the numbers of staff handling international claims work across HM Revenue and Customs.

Revenue and Customs: Powers

Mr. Pickles: To ask the Chancellor of the Exchequer what powers HM Revenue and Customs has to obtain information on estate agent transactions. [176389]

Jane Kennedy: HM Revenue and Customs have a range of powers to obtain information relevant to ascertaining liability to tax and other duties. Estate agents, like others, can come within the scope of these powers but there are no information powers specifically concerned with obtaining information on estate agent transactions.

Revenue and Customs: Prosecutions

Mr. Gauke: To ask the Chancellor of the Exchequer pursuant to the answer of 29 November 2007, *Official Report*, column 587W, on Revenue and Customs: prosecutions, how many of the 15 criminal prosecutions completed against HM Revenue and Customs staff for matters relating to their employment during 2006-07 related to *(a)* fraud, *(b)* fraud involving financial gain and *(c)* fraud involving financial gain relating to tax credits. [176797]

Jane Kennedy: Prosecutions are taken forward against the very small number of HMRC's 88,000 staff who abuse their position of trust.

Of the 15 criminal prosecutions reported on 29 November 2007, *Official Report*, column 587W:

Six prosecutions related to fraud involving financial gain

Six prosecutions related to fraud involving financial gain relating to tax credits.

The remaining three prosecutions related to charges of misfeasance in a public office.

Temporary Employment: Manpower

Mr. Byers: To ask the Chancellor of the Exchequer what the *(a)* number and *(b)* percentage of those in employment who were (i) agency workers and (ii) temporary employees was in each year since 1995. [174026]

Angela Eagle *[holding answer13 December 2007]:* The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 8 January 2008:

The National Statistician has been asked to reply to your Parliamentary Question about the (a) number and (b) percentage of those in employment who were (i) agency workers and (ii) temporary employees in each year since 1995. I am replying in her absence. (174026)

The attached table gives the number and percentage of people in the categories requested for the three month period ending June each year, from 1997 to 2007. Comparable estimates are not available prior to 1997 said for 1998 and 2000.

Estimates are taken from the Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

Number of people aged 16 and over who are temporary employees, April to June, 1997-2007, United Kingdom, not seasonally adjusted

Thousand, except where indicated

Three months ending June each year	*Total in employment*	*Temporary employees*	*Temporary employees as a percentage of total in employment*	*Temporary agency workers*[1]	*Temporary agency workers as a percentage of total in employment*
1997	26,356	1,739	6.6	235	0.9
1999	26,876	1,615	6.0	256	1.0
2001	27,438	1,652	6.0	268	1.0
2002	27,617	1,521	5.5	278	1.0
2003	27,863	1,422	5.1	246	0.9
2004	28,024	1,436	5.1	232	0.8
2005	28,193	1,371	4.9	253	0.9
2006	28,339	1,382	4.9	244	0.9
2007	28,434	1,427	5.0	275	1.0

[1] Temporary agency workers are included in the temporary employees total.

Note:
Comparable data not available for 1998 or 2000.

Source:
Labour Force Survey (LFS)

Valuation Office

Mr. Pickles: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the Valuation Office Agency's CT and Best Practice Process Maps. [176410]

Jane Kennedy: The Council Tax Process Maps and Best Practice guidance is contained in the Valuation Office Agency's "How2" toolkit. This is held in linked electronic formats within the Valuation Office Agency's main IT systems and can be viewed with full functionality only through the appropriate software package. To provide a copy in the Library could be done only at disproportionate cost.

Mr. Pickles: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the Valuation Office Agency's technical presentation entitled "The Dating Game". [176415]

Jane Kennedy: 'The Dating Game' is not a technical presentation. It is an exercise used for internal staff training purposes. A copy has been placed in the Library of the House.

Mr. Pickles: To ask the Chancellor of the Exchequer what use the Valuation Office Agency makes of intelligent addressing for valuation purposes. [176423]

Jane Kennedy: None.

Mr. Pickles: To ask the Chancellor of the Exchequer how much the Valuation Office Agency spent on purchasing floodplain polygons from the Environment Agency; and what use is made of the data for valuation purposes. [176424]

Jane Kennedy: The Valuation Office Agency was provided with floodplain polygon data at no charge. The data are not currently used for valuation purposes.

Mr. Pickles: To ask the Chancellor of the Exchequer whether the Valuation Office Agency has purchased a licence to use the pictometry product which Ordnance Survey sells on behalf of Blom Aerofilms Ltd. [176425]

Jane Kennedy: No.

Mr. Pickles: To ask the Chancellor of the Exchequer (1) what the average values are of coefficients for the Valuation Office Agency's value significant codes of *(a)* ZL, *(b)* ZI and *(c)* ZH for those sections of the country for which they are available; [176442]

(2) what the estimated weighted national averages of coefficients are for the Valuation Office Agency's value significant codes of *(a)* ZL, *(b)* ZI and *(c)* ZH; [176443]

(3) what the coefficients are for the Valuation Office Agency's value significant codes of *(a)* ZL, *(b)* ZI and *(c)* ZH, broken down by (i) time period, (ii) area and (iii) property type; and whether the dependent variables are calculated on a linear basis. [176445]

Jane Kennedy: The information is either not available or could be provided only at disproportionate costs.

Valuation Office: Cars

Mr. Pickles: To ask the Chancellor of the Exchequer how much the Valuation Office Agency spent on hire cars in the last financial year for which figures are available. [176429]

Jane Kennedy: The Valuation Office Agency spent a total of £637,028.80 (£542,666.69 excluding VAT) on hire cars in 2006-07.

Hire cars are used by the Agency as a cost effective alternative to paying a mileage rate for private car use on official business. The nature of VOA responsibilities necessitates considerable travelling to inspect and value properties.

Valuation Office: Cole Layer Trumble

Mr. Pickles: To ask the Chancellor of the Exchequer what effects the restructuring of HM Revenue and Customs Aspire contract has had on the commissioning of services from Cole Layer Trumble for the Valuation Office Agency. [176384]

Jane Kennedy: None.

Mr. Pickles: To ask the Chancellor of the Exchequer for what functions and business areas of the Valuation Office Agency Cole Layer Trumble have provided consultancy advice or support in the last 12 months. [176432]

Jane Kennedy: Over the past 12 months, Cole Layer Trumble has provided consultancy to the Valuation Office Agency on using automated valuation modelling techniques to support the Agency's functions relating to local taxation.

Valuation Office: ICT

Mr. Pickles: To ask the Chancellor of the Exchequer into which local authority areas the 10,000 localities that the Valuation Office Agency has established for developing the automated valuation model fall. [176388]

Jane Kennedy: All local authorities in England.

Mr. Pickles: To ask the Chancellor of the Exchequer what plans the Valuation Office Agency has to increase digitisation and computerisation of its records in relation to individual premises or properties. [176400]

Jane Kennedy: The VOA constantly reviews the way in which it holds its key records. Further digitisation or computerisation of its records will only be undertaken where it is considered to be both cost-effective and affordable.

Mr. Pickles: To ask the Chancellor of the Exchequer whether the Valuation Office Agency's information technology and data management systems are BS7799 compliant. [176411]

Jane Kennedy: Yes.

Mr. Pickles: To ask the Chancellor of the Exchequer whether funding has been agreed by his Department for the Valuation Office Agency to obtain a GIS system. [176438]

Jane Kennedy: The VOA has commissioned its IT partner to develop a Geographic Information System.

Valuation Office: Manpower

Mr. Pickles: To ask the Chancellor of the Exchequer how many full-time equivalent staff are employed by the Valuation Office Agency for undertaking work relating to *(a)* council tax valuations and *(b)* business rate valuations. [176249]

Jane Kennedy: At 2 January 2008, the VGA employed 4,037 full time equivalent staff of whom approximately 3,500 were engaged on council tax valuations and business rate valuations. As staff work flexibly across these local taxation activities, according to work demands, no further breakdown is available.

Valuation Office: Ordnance Survey

Mr. Pickles: To ask the Chancellor of the Exchequer what use the Valuation Office Agency makes of Ordnance Survey maps and datasets to calculate the plot sizes of residential properties. [176446]

Jane Kennedy: The Valuation Office Agency uses digital mapping tools, based on Ordnance Survey maps and datasets, to help determine plot sizes for residential properties.

Valuation Office: Rightmove

Mr. Pickles: To ask the Chancellor of the Exchequer whether the Valuation Office Agency plans to exercise the option in its contract with Rightmove.co.uk plc to extend the term for a further 12 months. [176422]

Jane Kennedy: It is not normal practice to disclose commercially sensitive information.

Valuation Office: Training

Mr. Pickles: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the Valuation Office Agency's eLearning module The Role of the AVM. [176405]

Jane Kennedy: This module was produced for internal staff training purposes in preparation for the (now postponed) council tax revaluation in England. It has been withdrawn from use.

Valuation Office: Travel

Mr. Pickles: To ask the Chancellor of the Exchequer how many tonnes of carbon dioxide were offset against travel by the Valuation Office Agency in the last year for which figures are available. [176416]

Jane Kennedy: This figure is displayed, along with further information about the GCOF, in the public domain on the Defra website at:

http://www.defra.gov.uk/environment/climatechange/uk/carbonoffset/government.htm

Valuation Office: Video Recordings

Mr. Pickles: To ask the Chancellor of the Exchequer what the titles were of the 25 internal videos produced for staff on the Valuation Office Agency's wide area network since October 2004. [176428]

Jane Kennedy: The information is as follows.

World Class Video Magazines—Spring, Summer and Autumn 2006

The Rent Service

Valuation: Licensed Premises

Mr. Pickles: To ask the Chancellor of the Exchequer whether section 825 of the Valuation Office Agency's Rating Manual Volume 5 has been updated in light of the Licensing Act 2003. [176248]

Jane Kennedy: The Rating Manual section on public houses, licensed restaurants and wine bars is being reviewed and comprehensively rewritten, and will incorporate all necessary charges.

Valuation: Shops

Mr. Pickles: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the Valuation Office Agency's zoning of shops handbook guidance. [176251]

Jane Kennedy: A copy of the Valuation Office Agency's zoning of shops handbook guidance—"It's all a question of zoning" has been placed in the Library.

VAT: Crown Dependencies

Mr. Stephen O'Brien: To ask the Chancellor of the Exchequer which categories of products illegal to market in the UK qualify for relief from value added tax under the Low Value Consignment Relief Scheme when imported for personal use from the Crown dependencies. [176949]

Jane Kennedy: Any goods which can legitimately be imported for personal use and which fulfil the relevant criteria, may benefit from the Low Value Consignment Relief scheme if the total value of the consignment does not exceed £18.

Mr. Stephen O'Brien: To ask the Chancellor of the Exchequer for what reasons personal imports from the Channel Islands of certain food supplements and herbal remedies which cannot be marketed in the UK directly are exempt from liability for value added tax (VAT) under the Low Value Consignment Relief Scheme; what assessment he has made of the impact of such exemptions on health food retailers and mail order companies in the UK; when he next plans to review his policy on such VAT exemptions; and if he will make a statement. [176950]

Jane Kennedy: Goods imported into the United Kingdom from the Channel Islands are subject to import VAT in the same way as goods imported from any country outside the European Union.

However, under European Community legislation, import VAT is not payable on commercial consignments, if the total value of the goods in the consignment does not exceed £18.

There is no prohibition on the importation of food supplements for personal use within the EC Food Supplement Directive, with the exception within the UK of Kava-Kava containing foodstuffs. Therefore UK Customs must apply the VAT exemption rules until the policy on the import of such goods is changed.

No assessment has been made on specific products imported under the Import VAT Accounting Scheme, but the scheme is very closely monitored taking into account the revenue consequences and the impact on the UK market.

VAT: Home Information Packs

Mr. Pickles: To ask the Chancellor of the Exchequer how much revenue has been collected by HM Revenue and Customs in VAT on home information packs. [176450]

Jane Kennedy: HM Revenue and Customs does not collect data on VAT from individual goods and services.

Written Answers to Questions

Wednesday 9 January 2008

OLYMPICS

Olympic Games 2012

Mr. Hoban: To ask the Minister for the Olympics pursuant to the answer of 27 November 2007, *Official Report*, column 294W, on Olympic Games 2012, if she will place in the Library copies of the financial updates for the last three months. [176154]

Tessa Jowell: I refer the hon. Member to my answer to the hon. Member for Henley (Mr. Johnson) of 13 December 2007, *Official Report*, column 767W.

LEADER OF THE HOUSE

Christmas

Mr. Burns: To ask the Leader of the House how much her Office spent on *(a)* Christmas cards and *(b)* postage of Christmas cards in 2007. [176924]

Helen Goodman: The Office of the Leader of the House of Commons spent £1,417.05 on charity Christmas cards in 2007. Oxfam, Women's Aid and the Samaritans were the charities supported.

The great majority of cards were sent by the internal mailing system and did not incur a postage charge to the Office.

Members: Allowances

Mr. Pickles: To ask the Leader of the House whether hon. Members will be eligible to use their additional cost allowance to pay for the costs of local authority charges for the collection of household rubbish. [176350]

Helen Goodman: Yes, provided it meets the rules given in the Green Book.

Official Engagements

Mrs. May: To ask the Leader of the House what *(a)* external and *(b)* internal appointments she had in each week of December 2007 in her capacity as (i) Leader of the House of Commons, (ii) Minister for Women and (iii) Lord Privy Seal. [177443]

Ms Harman: As with any Minister who has a broad portfolio I prioritise my work accordingly.

Regional Ministers: Written Questions

Mr. Pickles: To ask the Leader of the House if she will make it her policy to allow written parliamentary questions to be tabled directly to each of the Ministers for the Regions in their capacity as a regional minister. [176256]

Helen Goodman: I refer the hon. Gentleman to my answer given to the hon. Member for Lewes (Norman Baker) on 22 October 2007, *Official Report*, column 1W.

CULTURE, MEDIA AND SPORT

Departmental Sustainable Development

John McDonnell: To ask the Secretary of State for Culture, Media and Sport whether his Department is on course to meet the commitment in the sustainable operations on the Government estate targets *(a)* to source at least 10 per cent. of its electricity from renewables by 31 March 2008 and *(b)* to increase recycling figures to 40 per cent. of waste by 2010. [176904]

Margaret Hodge: The Department has been supplied with 100 per cent. renewable electricity under the OGC Buying Solution contract since January 2006. The Department introduced a new waste management system into its Cockspur street offices in January 2007. The average monthly recycling rate is 59 per cent.

Entertainments: Tickets

Mr. Amess: To ask the Secretary of State for Culture, Media and Sport what recent discussions he has had with representatives of *(a)* music concerts, *(b)* music festivals, *(c)* sporting events and *(d)* theatres on unscrupulous ticket resales; when such discussions took place; and if he will make a statement. [177118]

Mr. Sutcliffe: DCMS Ministers have not had any recent specific discussions with stakeholders on this subject, pending publication of a Select Committee report on ticket touting which is due 10 January 2008.

Gambling

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what representations he has received from industry bodies on the effect of the entry into force of the Gambling Act 2005 on *(a)* internet gambling and *(b)* other aspects of the gambling industry; and if he will make a statement. [176813]

Mr. Sutcliffe: The implementation of the Gambling Act 2005 which came into force on 1 September 2007 was the subject of extensive consultation with industry and others.

Ministers and officials continue to hold meetings and correspond with organisations including the Remote Gambling Association on many aspects of the remote and terrestrial gambling industry.

Legacy Trust UK: Finance

Greg Clark: To ask the Secretary of State for Culture, Media and Sport how much of the £40 million endowment to Legacy Trust was provided by *(a)* his Department, *(b)* Big Lottery Fund and *(c)* the Arts Council. [170151]

James Purnell *[holding answer 3 December 2007]*: The £40 million endowment for the Legacy Trust is made up of a £6 million grant from DCMS, £5 million from the Arts Council England (ACE), £5 million from the Big Lottery Fund (BiG), and £24 million from the Millennium Commission (which has since been transferred to BiG). The DCMS contribution is ring-fenced for the UK School games.

Legacy Trust UK: Pay

Greg Clark: To ask the Secretary of State for Culture, Media and Sport what the board members of Legacy Trust UK will be paid. [170150]

James Purnell *[holding answer 3 December 2007]*: The board members of the Legacy Trust do not get paid. They can claim expenses.

Television: Licensing

James Duddridge: To ask the Secretary of State for Culture, Media and Sport how much was spent on administering applications for black and white television licences in the last period for which figures are available; and how many staff hours were required for this purpose. [176262]

James Purnell: This is a matter for the BBC. I have, therefore, asked the BBC's head of revenue management to consider the question raised by the hon. Member and to write to him direct. Copies of the reply will be placed in the Libraries of both Houses.

NORTHERN IRELAND

Provisional IRA

9. **Mr. Robathan:** To ask the Secretary of State for Northern Ireland what recent assessment he has made of levels of violence perpetrated by members of the Provisional IRA. [175924]

Mr. Woodward: The IMC reported in November 2007 that they believed PIRA was not involved in terrorist or other illegal activities, was fully committed to pursuing the political path and would not be diverted from it.

Requisitioned Land

10. **Gordon Banks:** To ask the Secretary of State for Northern Ireland what proportion of land requisitioned for security purposes before 8 May has been returned to the original landowners. [175926]

Mr. Woodward: As a result of the Government's security normalisation programme the majority of land that was requisitioned for security purposes in Northern Ireland has now been de-requisitioned and handed back to the land owners.

Fuel Smuggling

11. **Mr. Dunne:** To ask the Secretary of State for Northern Ireland what recent discussions he has had with the police authorities in Northern Ireland and the Republic of Ireland on fuel smuggling; and if he will make a statement. [175927]

Paul Goggins: While my right hon. Friend the Chancellor of the Exchequer has lead responsibility in respect of revenue fraud, law enforcement agencies in Northern Ireland work closely together through the Organised Crime Task Force. There are good levels of co-operation across agencies locally and on a cross border basis to tackle fuel smuggling.

Drug Smuggling

12. **Mr. Harper:** To ask the Secretary of State for Northern Ireland what recent discussions he has had with the police authorities in Northern Ireland and the Republic of Ireland on drug smuggling; and if he will make a statement. [175928]

Paul Goggins: I refer the hon. Gentleman to the answer I gave earlier to the hon. Member for Shrewsbury and Atcham (Daniel Kawczynski).

Dissident Terrorist Activity

13. **Mr. Wallace:** To ask the Secretary of State for Northern Ireland if he will make a statement on levels of dissident republican terrorist activity in the Province. [175930]

Mr. Woodward: The IMC report published on 7 November last year outlined the activities of all Loyalist and Republican groups.

The despicable attacks by dissident republicans on two PSNI officers and ongoing activities by these groups clearly demonstrate the continued danger they pose for the security situation in Northern Ireland.

Departmental Equal Opportunities

Philip Davies: To ask the Secretary of State for Northern Ireland how much has been spent by his Department *(a)* in total and *(b)* on staff costs on promoting equality and diversity in each of the last three years for which figures are available; and how many people are employed by his Department for this purpose. [173814]

Mr. Woodward: The following tables show the Department's spending on equality and diversity for the years requested:

(a) Spent in total

	Cost (£)
2004-05	145,124.30
2005-06	129,684.60
2006-07	102,551.43

(b) Spent on staff costs

	Cost (£)
2004-05	111,404.30
2005-06	107,826.60
2006-07	101,051.43

The Northern Ireland Office fully supports equality and diversity in the workplace and in the provision of services to the public. Equality and diversity is embedded into working practices across the Department and is not limited to certain staff. However, the Department does employ eight people who, among other duties, have responsibility for ensuring that the Department complies fully with equality legislation. Particular programmes in this three year period have included equality training for staff, an annual bursary for disabled staff and summer work placements for students from minority ethnic backgrounds.

Departmental Minimum Wage

Jon Trickett: To ask the Secretary of State for Northern Ireland how many London-based staff are employed by his Department on the national minimum wage. [175967]

Mr. Woodward: All Northern Ireland Office staff, both London-based and Belfast-based, are paid above the national minimum wage.

Departmental Training

Mr. Dodds: To ask the Secretary of State for Northern Ireland how much was spent by his Department on equality and human rights training in each financial year since 2002-03; and what percentage this represented of the total training budget. [168535]

Mr. Woodward: Equality underpins all aspects of departmental training, with modules included in the NIO induction programme. In addition, equality and human rights awareness feature across the range of NIO management and leadership programmes. Given the variety of departmental courses, it is not possible to quantify the amount spent on these elements in isolation.

Amount spent (£)

Financial year	*Equality*	*Human rights*	*Percentage of training budget*
2002-03	17,747	0	5
2003-04	24,768	0	7
2004-05	19,117	8,000	2
2005-06	13,671	3,000	1
Total	76,303	11,000	—

DEFENCE

Art Works

Nick Harvey: To ask the Secretary of State for Defence how much his Department spent on art work in each year since 2001 *(a)* in total and *(b)* for its London headquarters. [176837]

Derek Twigg: The sum of £232,000 (excluding VAT) was spent on purchasing works of art in 2004-05 for the London headquarters of the Ministry of Defence. No other works of art have been purchased since 2001 for the London building.

The Meteorological Office—a Trading Fund of the Ministry of Defence—spent £279,092 on works of art for its new building in Exeter in 2003 and 2004.

Accurate information on expenditure on art in other Defence Agencies, Top Level Budget areas, Trading Funds, Joint Headquarters, single Service Commands and military units is not held centrally and could be provided only at disproportionate cost.

Christmas

Malcolm Bruce: To ask the Secretary of State for Defence whether it is his Department's policy to use *(a)* incandescent light bulbs and *(b)* LED lights for festive decorations on departmental premises. [173504]

Derek Twigg: No specific requirements have been set for this type of lighting.

Contracts

Mr. Gerald Howarth: To ask the Secretary of State for Defence if he will place in the Library copies of all price indices used by his Department in variation of price clauses in fixed price contracts. [176291]

Mr. Bob Ainsworth: I will arrange for copies of the most recent Monthly Price Indices booklet and Quarterly Foreign Price Indices booklet to be placed in the Library of the House.

Together, these publications contain all of the price indices commonly used in MOD fixed price contracts.

Departmental Finance

Mr. Gerald Howarth: To ask the Secretary of State for Defence what his Department's *(a)* US dollar and *(b)* euro general accounting rate was in each financial year since 1997-98. [176292]

Derek Twigg: For the financial years 1997-98 to 2000-01, the GAR was based solely on the weighted average of the forward contract purchases:

	Accounting rate	*Accounting rate*
1997-98	Dm2.1958/£	$1.5205/£
1998-99	Dm2.7353/£	$1.6137/£
1999-2000	Dm2.7546/£	$1.6269/£
2000-01 (to December 2000)	Dm3.0065/£	[1]$1.6086/£
2000-01 (from January 2001)	€1.5372/£	[1]—

From the financial year 2001-02 onwards, the GAR has been based on the weighted average of all forward and spot purchases, adjusted monthly if necessary. The ranges of rates used for each year are shown in the following table:

	Range of rates	Range of rates
2001-02	€1.6176-€1.6250/£	$1.4350-$1.4568/£
2002-03	€1.5790-€1.6114/£	$1.3885-$1.4785/£
2003-04	€1.4910-€1.5650/£	$1.5142-$1.7500/£
2004-05	€1.4250-€1.4350/£	$1.5700-$1.7000/£
2005-06	€1.4300-€1.4500/£	$1.7300-$1.7800/£
2006-07	€1.4000-€1.4100/£	$1.8200-$1.8900/£

Departmental Pay

Mr. Philip Hammond: To ask the Secretary of State for Defence how much his Department and its agencies spent on end-of-year bonus payments in each of the last five years. [171547]

Derek Twigg: The number and value of annual appraisal related bonuses paid to members of the senior civil service (SCS), to fixed term appointees and to civil servants below the level of the SCS covered by the MOD main pay deal (excluding trading funds), over the past five years, are listed in the tables one to three as follows.

Table 1: bonuses paid to senior civil servants

	Number of bonuses paid	Value of bonuses paid (£)
2007-08	186	1,325,700
2006-07	181	1,178,500
2005-06	184	918,000
2004-05	136	711,737
2003-04	140	701,221

Table 2: bonuses paid to fixed term appointees

	Number of bonuses paid	Value of bonuses paid (£)
2007-08	[1]13	286,699
2006-07	10	73,191
2005-06	10	65,586
2004-05	14	112,329
2003-04	13	86,531

[1] There are four outstanding bonus payments still to be agreed.

Table 3: end of year bonuses paid to staff below the level of the SCS

	Number of bonuses paid	Value of bonuses paid (£)
2007-08	52,193	39,695,110
2006-07	46,463	36,197,006
2005-06	38,766	37,962,800
2004-05	36,043	29,312,275
2003-04	27,497	20,203,875

Departmental Visits Abroad

David Simpson: To ask the Secretary of State for Defence how much his Department spent on overnight accommodation for Ministers overseas in the last year. [171339]

Derek Twigg: Details of the cost of overseas travel, including the cost of travel and accommodation are contained in the Overseas Travel by Cabinet Ministers list. The latest list for the period 1 April 2006 to 31 March 2007 was published on 25 July 2007. Details for the 2007-08 financial year will be published as soon as possible after the end of the financial year. All travel is made in accordance with the Ministerial Code.

RAF Machrihanish

Mr. Alan Reid: To ask the Secretary of State for Defence which bodies his Department has consulted on the future of RAF Machrihanish; and if he will make a statement on the future of the base. [176996]

Derek Twigg: No final decision has been made on the future of the former RAF Machrihanish. However, Defence Estates has consulted the Scottish Executive, Highlands and Islands Enterprise and Highlands and Islands Airways Ltd. and has responded to approaches from a number of potential developers on a without prejudice basis.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Animal Welfare

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how many improvement notices have been issued under section 10 of the Animal Welfare Act 2006, broken down by the issuing authority; and if he will make a statement. [176147]

Jonathan Shaw: Figures on improvement notices issued under section 10 of the Animal Welfare Act 2006 are not held centrally.

Fireworks: Environment Protection

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance his Department and its agencies have given to local authorities on the environmental effects of municipal (*a*) bonfires and (*b*) firework displays. [176546]

Jonathan Shaw: DEFRA has not published guidance specifically for local authorities on the environmental effects of bonfires and firework displays. However, the Department does publish advice to the public when air pollution is expected to be high, most recently prior to the weekend before 5 November 2007. This advice was published on 2 November in the form of a press release which advised that, while air pollution has fallen significantly in recent years, certain occasions such as bonfire night can see higher than average levels. Those with heart and lung disease, as well as those with asthma, were advised to spend less time outdoors and to use their medication where necessary. Those without such illnesses should not have been affected by the high pollution.

Fisheries: Enforcement

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 5 December 2007, *Official Report*, column 1272W, on Fisheries: Enforcement, for what reasons the number of hours of aerial surveillance tasked have been reduced since 1997; and if he will make a statement. [176127]

Jonathan Shaw: The number of flying hours were reduced because of the introduction of satellite monitoring to all fishing vessels over 15 metres. The constant provision of data showing the activity of the majority of the UK fleet by the satellite monitoring system reduced the need for aerial surveillance.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs if he will break down by subheading his Department's planned budget for fisheries enforcement in each of the next five years; and if he will make a statement. [176141]

Jonathan Shaw: The budget for fisheries enforcement for the next five years has not yet been set. The budget for the period covered by the comprehensive spending review is currently being considered as part of the Department's business planning process.

Fisheries: Protection

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 11 December 2007, *Official Report*, column 409W, on Fisheries: Protection, whether replacement vessels were provided between 15 and 19 June 2007 when the three River Class offshore patrol vessels were recalled due to a Davit fault; whether his Department or the Marine and Fisheries Agency incurred any extra costs; and if he will make a statement. [176134]

Jonathan Shaw: No replacement vessels were provided between 15-19 June 2007 when the three River Class offshore patrol vessels were recalled due to a Davit fault. No extra costs were incurred.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 11 December 2007, *Official Report*, column 409W, on Fisheries: Protection, if he will provide the Marine and Fisheries Agency with the resources required to implement the European rules on electronic recording and reporting of fishing activities; and if he will make a statement. [176135]

Jonathan Shaw: Funding and resources to the Marine and Fisheries Agency to deliver electronic recording and reporting of fishing activities are being considered as part of the Department's business planning process.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 11 December 2007, *Official Report*, column 409W, on Fisheries: Protection, whether the Marine and Fisheries Agency or his Department will incur extra costs if vessels are required in the event that one or more River Class offshore patrol vessels are experiencing extended time off task; and if he will make a statement. [176136]

Jonathan Shaw: No extra costs will be incurred.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how much the new contract with the Royal Navy Fishery Protection Squadron, beginning on 1 April 2008, will cost in each of the next five years; and if he will make a statement. [176140]

Jonathan Shaw: From 1 April 2008 the Ministry of Defence will charge for the service at a platform daily rate of £8,425. The platform daily rate will be assessed annually to take account of factors such as inflation and increases or reductions in costs. The Marine and Fisheries Agency and the Fisheries Protection Squadron will continue to review the platform days in the light of operational needs. The cost to the Agency in future years will therefore depend on the work to be done by the Squadron and the annual review of the daily rate.

Fishing Catches

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the commercial value of all fish stocks discarded by UK-registered vessels in *(a)* UK waters and *(b)* non-UK waters in the latest period for which figures are available, broken down by fish stock; and if he will make a statement. [176145]

Jonathan Shaw: There are no current estimates of the value of discarded fish by UK vessels nor of the value of discards in UK waters.

However, to give some perspective on the issue of UK discards, recent Centre for Environment, Fisheries and Aquaculture Science (CEFAS) research undertaken among the UK fleets working in Area VII (the western English channel, Western Approaches, Bristol channel and Irish sea) estimated that the annual value of the landings from these fleets is about £70 million. The research suggests that of an estimated 72 million tonnes of fish caught some 35 per cent. was discarded.

This cannot however be prorated to an equivalent monetary value. Fish are discarded due to lack of suitable markets, because they are below minimum legal sizes or because they are marketable but over-quota. The following tables show the main species discarded in Area VII by species by the two main fishing gears used (beam trawl and otter trawl); many of the discards are of fish with low or no value.

The discard rates will in turn vary with area and by year in line with changes in the annual management measures which apply.

10 most discarded species and significant commercial species by English and Welsh registered beam trawlers

Numbers (x10⁶)

Rank	*Common name*	*Latin name*	*Annual mean*	*Range*	*Percentage discarded*
1	Gurnards	*Trigla spp.*	9.9	6.4-14.9	82 (4.6)
2	Common Cuttlefish	*Sepia officinalis*	7.9	1.4-13.4	58 (0.5)
3	European plaice	*Pleuronectes platessa*	7.2	0.6-23.4	43 (11.4)
4	Dab	*Limanda limanda*	6.8	2.7-15.2	97 (1.1)
5	Lesser-spotted dogfish	*Scyliorhinus canicula*	6.4	5.0-8.5	99 (0.6)
6	Poor cod	*Trisopterus minutus*	5.2	3.8-6.8	100 (0.0)
7	Dragonets	*Callionymidae*	4.9	3.2-6.1	100 (0.1)

10 most discarded species and significant commercial species by English and Welsh registered beam trawlers

			Numbers (x10³)		
Rank	*Common name*	*Latin name*	*Annual mean*	*Range*	*Percentage discarded*
8	Whiting-pout (Bib)	*Trisopterus luscus*	4.7	3.4-6.3	75 (5.2)
9	Whiting	*Merlangius merlangus*	2.2	0.6-3.4	83 (2.7)
10	Megrim	*Lepidorhombus whiffiagonis*	1.5	0.4-2.4	30 (3.0)

10 most discarded species and significant commercial species by English and Welsh registered otter trawlers

			Numbers (x10³)		
Rank	*Common name*	*Latin name*	*Annual mean*	*Range*	*Percentage discarded*
1	Dab	*Limanda limanda*	6.2	3.0-14.0	96 (1.9)
2	Gurnards	*Trigla spp.*	5.2	1.3-11.1	70 (5.1)
3	European plaice	*Pleuronectes platessa*	3.6	1.8-6.3	60 (3.4)
4	Lesser-spotted dogfish	*Scyliorhinus canicula*	3.5	2.3-5.1	75 (7.3)
5	Whiting	*Merlangius merlangus*	3.1	1.1-4.6	68 (3.1)
6	Boar fish	*Capros aper*	2.4	0.1-6.0	100 (0.0)
7	GT Silver Smelt	*Argentina silus*	2.8	0.0-8.3	100 (0.0)
8	Poor cod	*Trisopterus minutus*	2	0.8-3.3	100 (0.0)
9	Horse-mackeral (Scad)	*Trachurus trachurus*	1.8	0.5-3.5	81 (8.3)
10	Dragonets	*Callionymidae*	1.6	0.2-3.3	100 (0.1)

Fly Tipping

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs which waste collection authorities did not provide data for Flycapture for 2006-07; and for what reasons. [176765]

Joan Ruddock: The Royal borough of Kingston upon Thames was the only waste collection authority that did not supply data to Flycapture, the national fly-tipping database, in 2006-2007. No reason was given for its failure to do so.

My officials have encouraged the borough to fulfil its legal obligation and it is recording data on Flycapture for this financial year.

Home Information Packs

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what representations the Environment Agency made to the *(a)* former Office of the Deputy Prime Minister and *(b)* Department for Communities and Local Government on whether home information packs should include information on (i) contaminated land reports and (ii) flood risk, as a required element. [176550]

Mr. Woolas: The Environment Agency provided representations in responses to the Office of the Deputy Prime Minister's consultations on 'Reforming the Home Buying and Selling Process in England and Wales: Contents of the Home Information Pack' (July, 2005) and on the 'Home Information Pack Draft Regulations' (January, 2006), and a 'Memorandum to the Select Committee of the Office of the Deputy Prime Minister: Housing, Planning, Local Government and the Regions' pre-legislative Scrutiny of the Draft Housing Bill (May, 2003).

The Environment Agency also put representations forward on the Searches (Environment) Working Group set up under the Home Information Pack Component Project Board and had various other meetings and correspondence with relevant officials regarding content of Home Information Packs.

Plastics: Recycling

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs what records his Department holds on the facilities available nationally for the recycling and processing of *(a)* non-bottle-shaped and *(b)* bottle-shaped plastics; and if he will make a statement. [175617]

Joan Ruddock *[holding answer 8 January 2008]:* My Department does not hold records of the facilities available for processing non-bottled-shaped or bottle-shaped plastics.

However, the Government-funded Waste and Resources Action Programme (WRAP) works closely with the plastics industry and has some broad information on the facilities available nationally. I have asked WRAP officials to write to you with further details.

Recycling

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs if he will place in the Library the data from WasteDataFlow showing the *(a)* final destination of materials sent for recycling, *(b)* tonnage sent for recycling and *(c)* quantity sent for recycling but rejected/disposed of by each local authority in England in 2006-07. [176769]

Joan Ruddock: I have arranged for the information requested to be placed in the Library of the House.

TRANSPORT

Cycling: Accidents

Mr. Drew: To ask the Secretary of State for Transport how many cyclists have died in road accidents in each of the last five years. [177630]

Jim Fitzpatrick: The information requested is available from table 6 of the 'Road Casualties Great Britain: 2006 annual report'. Copies of the report have been deposited in the Libraries of the House. This table can also be found on the Department's website at the following address.

http://www.dft.gov.uk/172974/173025/221412/221549/227755/285672/WebTables120.xls

Driving Tests

Mr. Leech: To ask the Secretary of State for Transport when she plans to publish the consultation paper on driver training and testing. [175817]

Jim Fitzpatrick: In February 2007 we announced a fundamental overhaul of driver testing and training. We are working to bring proposals forward for consultation and hope to publish this soon.

Heathrow Airport

Adam Afriyie: To ask the Secretary of State for Transport whether the proposed third runway at Heathrow airport is planned to have the capacity to accommodate *(a)* Boeing 747-100 Jumbo jets, *(b)* Boeing 747-400 Jumbo jets, *(c)* Boeing 747-800 Jumbo jets, *(d)* Boeing 787 Dreamliners, *(e)* Airbus A350s, *(f)* Airbus A340s and *(g)* Airbus A380 aircraft (i) taking off and (ii) landing. [177061]

Jim Fitzpatrick: The 'Adding Capacity at Heathrow Airport' consultation document states that a third runway would be used for a range of aircraft types, but not the largest four-engined wide body aircraft. This is required to allow a balanced use of aircraft across three runways.

This view is based on an assessment of the typical operational configurations of each aircraft type taking account of expert opinions from aircraft manufacturers, NATS and airlines operating at Heathrow.

This assessment indicates that under typical operating configurations it would not be practicable for the Airbus A340, Boeing 747 (all variants) and the Airbus A380 to take-off from a third runway but that it would be technical feasible for some of A340 variants to land on a new runway, dependant on weather conditions and the landing weight of the aircraft. It would not be possible under maximum landing weights.

Based on available technical data, it is assumed that the new generation twin-engined aircraft, the Boeing 787 and the Airbus 350, could use a third runway for both landings and take-offs.

Heathrow Airport: Public Participation

Justine Greening: To ask the Secretary of State for Transport how many households have been sent the Adding Capacity at Heathrow Airport Summary consultation document, broken down by *(a)* non-London borough local authority and *(b)* ward; and if she will make a statement. [177159]

Jim Fitzpatrick: Over 217,000 households around the airport were sent a copy of the Heathrow consultation summary and response form. Approximately 48,800 of these were to addresses in non-London borough local authorities. By local authority area, the break down is as follows:

Local authority	*Delivery addresses*
Bracknell Forest	400
Runnymede	8,000
Slough	17,700
South Bucks	1,900
Spelthorne	3,500
Windsor and Maidenhead	20,500

By ward, the break down is as follows (all figures rounded to the nearest 100).

Ward	*Borough/district/ unitary authority*	*Delivery addresses*
Ashford North and Stanwell South	Spelthorne	200
Bray	Windsor and Maidenhead	100
Burnham Lent Rise	South Bucks	100
Castle Without	Windsor and Maidenhead	3,400
Chalvey	Slough	1,900
Cippenham Green	Slough	2,900
Cippenham Meadows	Slough	4,000
Clewer East	Windsor and Maidenhead	2,200
Clewer North	Windsor and Maidenhead	2,300
Clewer South	Windsor and Maidenhead	2,200
Colnbrook with Poyle	Slough	2,500
Datchet	Windsor and Maidenhead	2,100
Dorney and Burnham South	South Bucks	300
Egham Hythe	Runnymede	1,900
Egham Town	Runnymede	1,800
Englefield Green East	Runnymede	600
Englefield Green West	Runnymede	2,000
Eton and Castle	Windsor and Maidenhead	800
Eton Wick	Windsor and Maidenhead	1,000
Foxborough	Slough	2,900
Haymill	Slough	800
Horton and Wraysbury	Windsor and Maidenhead	2,100
Iver Village and Richings Park	South Bucks	700
Kedermister	Slough	100
Langley St. Mary's	Slough	1,500
Old Windsor	Windsor and Maidenhead	2,100
Park	Windsor and Maidenhead	2,200
Staines	Spelthorne	<50
Stanwell North	Spelthorne	3,200
Thorpe	Runnymede	1,600
Upton	Slough	1,100
Virginia Water	Runnymede	<50
Wexham and Iver West	South Bucks	700
Winkfield and Cranbourne	Bracknell Forest	400

Motor Vehicles: Registration

Mr. Redwood: To ask the Secretary of State for Transport when the Government intends to amend the Road Vehicles (Display of Registration Marks) Regulations 2001 to permit the display of national flags and symbols on vehicle registration plates. [177146]

Jim Fitzpatrick: No date has been set to lay amending regulations.

Railway Stations: Birmingham

Mrs. Villiers: To ask the Secretary of State for Transport (1) when contracts will be let for work on the upgrade of Birmingham New Street station, as set out in Delivering a Sustainable Railway; [170745]

(2) what the funding package is for the upgrade of Birmingham New Street station, as set out in Delivering a Sustainable Railway, broken down by subheading; [170747]

(3) when she expects work to *(a)* start and *(b)* finish on the upgrade of Birmingham New Street station, as set out in Delivering a Sustainable Railway. [170754]

Mr. Tom Harris: £128 million of funding has already been committed to New Street in the recent White Paper 'Delivering a Sustainable Railway'. The city council has bid for up to a further £160 million from the Department, through the regional funding allocation.

A separate bid for £100 million has been made by Advantage West Midlands to the Department for Business Enterprise and Regulatory Reform.

There is also a package of funding from the City Council and from the private sector. The council's proposals for private sector funding are commercially confidential.

There is a clear case for improvements to New Street. The council and its partners have made great progress. They know that there are a few final important issues that they must resolve to ensure that plans for the funding and delivery stage are robust, given the significant amount of public funding requested.

The precise timing of contracts for construction is a matter for the council and for Network Rail once funding is in place. Their plans are for design to begin in early 2008, for construction to begin in early 2009 and be fully completed by 2014.

Everyone is working very hard, both within the region and within Government to ensure that decisions can be made as soon as possible.

Rapid Transit Systems

Mrs. Villiers: To ask the Secretary of State for Transport which light rail schemes she has visited since her appointment as Secretary of State for Transport. [164626]

Mr. Tom Harris: Although the Secretary of State has yet to pay a formal visit to a light rail system, as a Greater Manchester MP she has visited Manchester Metrolink. She has witnessed the success of the scheme in tackling transport problems in the region and is aware of the benefits that light rail systems can bring. I have kept her appraised of the schemes I have viewed and we meet regularly to discuss issues facing the industry system.

Road User Charging (Charges and Penalty Charges) (London) Regulations 2001

Mrs. Gillan: To ask the Secretary of State for Transport (1) if she will bring forward the amendments to the Road User Charging (Charges and Penalty Charges) (London) Regulations 2001, identified by her Department in 2003, which would make identical the position for rental and leasing companies on the rights to transfer liability where the hiring agreement is longer than six months in duration; what estimate she has made of the resources required to implement the amendments; and if she will make a statement; [176267]

(2) if she will take steps to ensure that the London Low Emission Zone enforcement procedure is not brought in before the rectifying amendments to the Road User Charging (Charges and Penalty Charges) (London) Regulations 2001 are made to allow rental and leasing vehicle companies to transfer liability to the hirer. [176268]

Ms Rosie Winterton *[holding answer 7 January 2008]:* The Department for Transport (DfT) and Transport for London (TfL) have now agreed which amendments to road user charging regulations will be taken forward. These include the rectifying amendments to the Road User Charging (Charges and Penalty Charges) (London) Regulations 2001. DfT and TfL have also agreed that further consultation is necessary due to the length of time which has elapsed since the initial consultation. We expect to be able to make available the resources necessary to progress the amendments in the next financial year.

The London low emission zone (LLEZ) is the responsibility of the Mayor of London and is being taken forward by TfL on his behalf, any decision to delay the introduction of or suspend the LLEZ is a matter for the Mayor. The Government remain committed to improving air quality and support the aims of the LLEZ.

Roads: Safety

Mr. Harper: To ask the Secretary of State for Transport for what reasons funding for the Specific Road Safety Grant (Capital) for Gloucestershire County Council will be reduced between 2009-10 and 2010-11. [177232]

Jim Fitzpatrick: The Specific Road Safety Grant has been allocated to local authorities using a consistent formula based on road safety needs (the number of casualties over the 1994-98 period in the local authority area), and a qualitative assessment of their road safety delivery and future plans.

To ensure a smooth transition, from the previous safety camera netting-off arrangements, to the needs-based formula, the amount of funding awarded to those authorities with a strong road safety need gradually increases over the next few years, while funding for

those with a lesser need is gradually reduced. In this way, sudden large increases or reductions in funding are avoided. Gloucestershire county council's allocation reduces as they are deemed to have a lesser road safety need under the needs-based formula. A note explaining the allocation process, including how allocations have been increased or reduced as part of the smooth transition to the needs-based formula, is available on the Road Safety Grants section of the Department for Transport website at www.dft.gov.uk .

Salcombe Harbour

Mr. Steen: To ask the Secretary of State for Transport if she will categorise Salcombe Harbour as category C waters. [176998]

Jim Fitzpatrick: Salcombe Harbour is already categorised as Category C waters.

Shipping: Qualifications

Mr. Steen: To ask the Secretary of State for Transport if she will revise Merchant Shipping Notice MSN 1808 (M) to allow a suitable Royal Yachting Association qualification to be an alternative to the qualifying service time; and if she will apply that provision to smaller vessels carrying up to 100 passengers on inland and tidal category C waters. [176997]

Jim Fitzpatrick: Although possession of a Royal Yachting Association (RYA) qualification will not in itself reduce the required seatime, it is already the case that, in some specific circumstances, RYA qualifications are considered an acceptable alternative to a Boatmasters' Licence (BML) and the experience gained operating in the relevant area may be considered towards the service time required. This extends to all categories of BML including those necessary for Category C waters.

Surveying: Maritime and Coastguard Agency

Mr. Carmichael: To ask the Secretary of State for Transport (1) what account was taken of trends in *(a)* UK tonnage over the past five years, *(b)* world seaborne trade, *(c)* the need for security checks and *(d)* new flag state and ISM code requirements in deciding levels of resources and support for Maritime and Coastguard Agency surveyors; [177111]

(2) what account was taken of trends in UK registered ship tonnage when deciding the levels of frontline service staff, in particular the number of ship surveyors. [177112]

Jim Fitzpatrick: The Maritime and Coastguard Agency uses a risk based approach to review regularly the marine surveyor and administrative support resources deployed on maintaining ship safety standards, taking account of the changing nature of ships and the shipping industry.

The Agency also takes account of the need to implement safety and security requirements for UK registered and other ships, when considering the Agency's priorities for ship inspection and other work.

Thameslink

Mrs. Villiers: To ask the Secretary of State for Transport how much the Government have spent on *(a)* construction, *(b)* planning applications and *(c)* other costs relating to the Thameslink project since 1998. [175518]

Mr. Tom Harris *[holding answer 7 January 2008]:* The majority of costs from 1998 to date relating to the Thameslink project have been incurred by Network Rail (formerly Railtrack) with most of these costs associated with the development phase. This includes planning, design, environmental assessment and the secural of the necessary planning powers which were obtained in 2006 following two public inquiries. From 1998 to date Network Rail has spent approximately £230 million on this project.

In July 2007 I announced the commencement of the construction phase of the project. Substantive construction work is scheduled to commence by Network Rail in early 2009 following the completion of detailed design and the placement of construction contracts during 2008. Some preliminary construction work commenced at Luton airport in October 2007 although spend to date has been small.

In addition, prior to July 2005 strategic direction for this project was discharged through the Strategic Rail Authority (SRA) reporting to the Department for Transport. Since 1998 the SRA (and its predecessor OPRAF) spent approximately £5.9 million on external consultants to advise on the development phase of the Thameslink project. Following the abolition of the SRA in July 2005 the Department for Transport took over direct strategic direction of the project and since this date has spent a further £1.3 million on external consultants for the development phase.

Vehicle and Operator Services Agency

Kerry McCarthy: To ask the Secretary of State for Transport with reference to the answer of 23 July 2007, *Official Report*, column 767W, on Vehicle and Operator Services Agency, what progress has been made on the Vehicle and Operator Services Agency's study into the possible outsourcing of elements of its work. [177171]

Jim Fitzpatrick: Following presentation of a Preliminary Business Case to the DfT Board at the end of November 2007, the DfT Programme Team have been asked to complete further work by the end of February 2008 with the aim of recommending a preferred option. This would then be the subject of consultation if outsourcing is recommended.

Written Questions

Justine Greening: To ask the Secretary of State for Transport when she will provide a substantive reply to the request by the hon. Member for Putney for an internal review in relation to the Freedom of Information request of 11 June 2007. [173111]

Jim Fitzpatrick: I apologise that the internal review has taken longer than I would normally expect. This complaint is being treated with thoroughness and urgency and the hon. Member will receive a reply as soon as possible.

DUCHY OF LANCASTER

Departmental Data Protection

Jo Swinson: To ask the Chancellor of the Duchy of Lancaster how many confirmed security breaches of databases controlled by his Department occurred in each of the last five years; whether the breach resulted from internal or external action in each case; how many records were compromised on each occasion; and what estimate was made of the total number of records accessible to the individuals concerned. [173707]

Gillian Merron *[holding answer 13 December 2007]*: It has been the policy of successive administrations not to comment on security matters other than in exceptional circumstances when it is in the public interest to do so.

Departmental Public Consultations

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 20 November 2007, *Official Report*, column 682W, on departmental public consultations, if he will place copies in the Library of the *(a)* summary and *(b)* full findings of each such poll undertaken since 27 June 2007. [173145]

Gillian Merron: I refer the hon. Member to the answer I gave to him on 20 November 2007, *Official Report*, column 682W.

Public Participation: Incentives

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 5 December 2007, *Official Report*, column 1344W, on public participation: incentives, if he will place in the Library a copy of the report summarising the forum and giving the conclusions on public opinion. [174874]

Gillian Merron: The Leader of the House published "The Government's Draft Legislative Programme—Taking a Wider View", which included information about the Forum, on 14 November 2007 and a copy was placed in the Library.

INTERNATIONAL DEVELOPMENT

Christmas

Mr. Burns: To ask the Secretary of State for International Development how much his Department spent on *(a)* Christmas cards and *(b)* postage of Christmas cards in 2007. [176922]

Mr. Malik: DFID has spent £3,320.56 on 7,100 Christmas cards and envelopes in total.

It is not possible to disaggregate the cost of posting Christmas cards from DFID's overall postage costs. Not all cards would be sent by post: some might be sent by Foreign Office bag to overseas contacts, or sent by the internal Government mail system.

Grants

Lynne Featherstone: To ask the Secretary of State for International Development how much his Department has allocated in 2007-08 and 2008-09 for grant schemes for *(a)* schools links, *(b)* higher education links, *(c)* general community twinning and *(d)* health links. [176800]

Mr. Malik: Subject to resource allocation decisions for 2008-09 (due to be taken as part of this year's business planning round), indicative programme allocations for each of the areas aforementioned are:

£

	2007-08	*2008-09*
(a) Schools links		
DFID Global School Partnerships (DGSP)	2,700,000	To be confirmed[1]
(b) Higher education links		
Development Partnerships in Higher Education (DELPHE)	2,000,000	3,000,000
(c) General Community Twinning		
Commonwealth Local Government Forum (CLGF) Good Practice Scheme	277,000	[2]700,000 (provisional)
DFID linking scheme (new—DFID intends to commence a new scheme in 2008 to enable linking between community groups in order to create higher levels of development awareness. Funding levels yet to be finalised.)	Not applicable	Yet to be confirmed
(d) Health Links		
Project support to Tropical Health and Education Trust (THET) under the Civil Society Challenge Fund	190,000	200,000

[1] The contract for the DGSP programme is currently being re-tendered and the precise budget for 2008-09 will be confirmed at the conclusion of this competitive process.
[2] This funding has been provisionally agreed for the continuation of the CLGF good practice scheme, subject to negotiations.

Iraq: Reconstruction

Mr. Hague: To ask the Secretary of State for International Development pursuant to the answer of 3 December 2007, *Official Report*, column 915W, on Iraq: reconstruction, (1) how many projects have been completed in Iraq for each of the last five years; and how many of these projects received the top score for success in meeting its objectives in the relevant project completion report; [172377]

(2) whether the annual output-to-purpose reports on reconstruction in Iraq focus only on projects which have been completed in that year; and if he will make a statement; [172378]

(3) if he will place a copy of the annual output-to-purpose report on reconstruction in Iraq for each of the last five years in the Library. [172379]

Mr. Douglas Alexander: DFID has completed 32 projects in Iraq since 2003. This includes projects which are part of our bilateral programme and assistance channelled through the multilateral agencies such as the United Nations and Red Cross. All our projects valued at £1 million and over are regularly scored and monitored. This includes project scoring mid-way through the project—an Output-to-Purpose Review (OPR)—and a Project Completion Report (PCR) which is produced when the project has come to an end.

The following table summarises the scoring of our completed PCRs since 2003.

	Number of projects completed	*Completely successful*	*Largely successful*	*Partially successful*	*Successful only to a limited extent*
2003	4	4	—	—	—
2004	11	4	4	3	—
2005	12	2	6	3	1
2006	2	—	—	2	—
2007	3	—	1	2	—

Projects and programmes are scored according to whether they achieved their intended objectives. This will depend on a number of factors such as the level of risk and the type of assistance being given.

There is no general output-to-purpose report on reconstruction in Iraq that I can place in the Library, since all OPRs and PCRs are project-specific.

Minimum Wage

Jon Trickett: To ask the Secretary of State for International Development how many London-based staff are employed by his Department on the national minimum wage. [175965]

Mr. Malik: The Department for International Development has no London or UK-based staff who are employed on or below the national minimum wage.

Regulation

Mrs. May: To ask the Secretary of State for International Development for which regulators and inspectorates his Department has had responsibility in each year since 1997; what the budget was of each such body in each year; and what the cost to the public purse was of any restructuring of each such body in each year. [175309]

Mr. Thomas: The Department for International Development is not directly responsible for any regulators or inspectors.

Tanzania: Overseas Investment

Mr. Gale: To ask the Secretary of State for International Development what discussions he has had with the UK high commissioner in Tanzania on court actions against UK investors in that country. [166007]

Mr. Thomas *[holding answer 26 November 2007]:* My right hon. Friend the Secretary of State met the UK high commissioner to Tanzania on his visit to Dar es Salaam on 26-27 November. He was briefed by the high commissioner about a specific court case against a UK investor.

JUSTICE

Custodial Treatment: Children

Susan Kramer: To ask the Secretary of State for Justice pursuant to the answer of 13 November 2007, *Official Report*, column 145W, on custodial treatment: children, how many children of age *(a)* 10, *(b)* 11, *(c)* 12 and *(d)* 13 years were held in custody in the same establishment as children aged 14 years or over in (i) 2004, (ii) 2005 and (iii) 2006. [175781]

Mr. Hanson: Young people between the ages of 10 and 13 who have been given a custodial sentence, and those aged 12 and 13 who are remanded to the care of a local authority with a requirement that they be kept in secure accommodation, are placed in secure children's homes or secure training centres. Secure children's homes accommodate boys and girls aged 10 to 14, girls up to the age of 16, and 15- and 16-year-old boys who are assessed as being particularly vulnerable. (Courts cannot order 10- or 11-year-olds to be placed in secure accommodation.)

Secure training centres accommodate young people aged 12 to 14, girls up to the age of 16 and boys aged 15 and over who are assessed as being particularly vulnerable.

Susan Kramer: To ask the Secretary of State for Justice pursuant to the answer of 13 November 2007, *Official Report*, column 145W, on custodial treatment: children, how many children of age *(a)* 10, *(b)* 11, *(c)* 12 and *(d)* 13 years were held in custody following incidents of assault in (i) 2004, (ii) 2005 and (iii) 2006. [175782][1]

Mr. Hanson: The following table shows that the number of young people aged from 10 to 13 in custody on remand or under sentence whose principal offence was assault as at 30 June in the three years in question. Young people in this age range are accommodated in either a secure children's home or a secure training centre. These data have been supplied by the Youth Justice Board.

Number of children aged 10, 11, 12 and 13 years were held in custody (admissions) following incidents of assault in 2004, 2005, and 2006

	2004		*2005*		*2006*	
Age	*Remanded*	*Sentenced*	*Remanded*	*Sentenced*	*Remanded*	*Sentenced*
10	0	0	0	0	0	0
11	0	0	0	0	0	0
12	8	4	22	3	5	3

1. *[Official Report, 20 February 2008, Vol. 472, c. 10MC.]*

Number of children aged 10, 11, 12 and 13 years were held in custody (admissions) following incidents of assault in 2004, 2005, and 2006

	2004		2005		2006	
Age	*Remanded*	*Sentenced*	*Remanded*	*Sentenced*	*Remanded*	*Sentenced*
13	35	15	24	20	12	12
Grand total	43	19	46	23	17	15

The data include the following offence types: assault occasioning actual bodily harm, assault with intent to resist apprehension or assault on a person assisting a constable, common assault, malicious wounding/ grievous bodily harm, violence against the person and wounding with intent to do grievous bodily harm.

Land Registry: Pay

Mr. Hancock: To ask the Secretary of State for Justice on what date the current pay agreement at HM Land Registry ended; what the reasons are for the time taken to reach a settlement for 2007; what the timetable for negotiations is for 2008; and if he will make a statement. [177369]

Mr. Wills: Land Registry made a formal pay offer to the Unions on 21 December and is aiming to pay the award to staff in February 2008.

After the publication of the remit guidance on preliminary meetings were held with the Unions to obtain their views on what Land Registry should request in its pay remit. The pay remit was initially submitted to the Treasury on 10 August 2007 and, after correspondence with Treasury officials, was resubmitted on 5 October 2007. Land Registry staff have been kept regularly informed of the progress of the pay review. Clearance of the pay remit was received from the Treasury on 3 December 2007. Meetings were then held with the Unions on 6 December, 11 December and 19 December.

Until the 2007 pay review is settled, Land Registry will continue to apply the rules agreed for the 2006 pay settlement that ended on 31 May 2007.

Land Registry is not in a position to confirm the timetable for the 2008 pay award. However, the target settlement date remains 1 June 2008 and Land Registry will do its utmost to work with the Unions to reach a conclusion as close to 1 June as possible.

Offenders

Mr. Kemp: To ask the Secretary of State for Justice what proportion of offenders in the North East reoffended in the latest period for which figures are available; and if he will make a statement. [175226]

Mr. Hanson: The National Statistics relating to reoffending do not include a regional breakdown. Figures for proven reoffending within two years by adults released from prison or starting a community sentence have been published for 2000, 2002, 2003 and 2004. The most recent data were published in the 2007 report, "Re-offending of adults: Results from the 2004 cohort" which is available online at:

http://www.homeoffice.gov.uk/rds/pdfs07/hosb0607.pdf

We have developed more timely area-based management information on a different basis from the National Statistics. These show for each of the 42 criminal justice system areas, the proportion of those on the probation caseload who reoffend within three months and are convicted within six months of the end of every quarter. These experimental statistics are circulated to probation areas four times a year.

Prisoners: Vocational Training

Mr. Hurd: To ask the Secretary of State for Justice when the Government last reviewed the relevance of vocational training in prisons to the skills needed in the job market. [174552]

Mr. Lammy: I have been asked to reply.

The Government reviewed the relevance of vocational training in prisons during the development and implementation of the Offenders' Learning and Skills Service (OLASS) in 2005. The Learning and Skills Council's document 'Developing the Offenders' Learning and Skills Service: the Prospectus' [September 2007] sets out a process for a full review of the vocational learning offer, by Criminal Justice Area, planned to begin in early 2008.

Prisons: Education

Mr. Hurd: To ask the Secretary of State for Justice how much has been spent on education and training in prisons since 1997. [175183]

Mr. Lammy: I have been asked to reply.

Since the transfer of offender learning and skills from HM Prison Service in 2001, the Department for Innovation, Universities and Skills' Offenders' Learning and Skills Unit (OLSU), and its predecessors, have spent the following on education and training in prisons:

Financial year	*Total spend (£ million)*
2001-02	57
2002-03	73
2003-04	116
2004-05	126
2005-06	151
2006-07	156

Mr. Hurd: To ask the Secretary of State for Justice what minimum standards apply to the provision of education, vocational training and work programmes for prisoners. [175184]

Mr. Lammy: I have been asked to reply.

The Learning and Skills Council (LSC) started to implement an integrated Offender Learning and Skills Service (OLASS) across England from August 2005. The LSC's providers are required to deliver the service set out in the 'Offenders Learning Journey' which specifies minimum standards for education and vocational training for prisoners. A separate version of the 'Offenders Learning Journey' specifies the service for those held in Young Offenders Institutions, where the Youth Justice Board requires that 90 per cent. of young people receive 25 hours a week of education, training and personal development activity.

HOME DEPARTMENT

Departmental Co-ordination

Mr. Hoban: To ask the Secretary of State for the Home Department whether the finance director in her Department is required to authorise policies with significant financial implications for the Department; and if she will make a statement. [164964]

Mr. Byrne: The finance director advises Ministers on the appropriate budget delegations to be set for business areas, consistent with the Home Office's overall budget. The finance director then works with business areas to ensure that policies are affordable within these delegated limits. I refer the hon. Member to the answer given on 7 January 2008, *Official Report*, column 268W, which summarises the Home Office's approach to policies with significant financial implications and the role of the finance director.

Homicide: Greater London

Andrew Rosindell: To ask the Secretary of State for the Home Department how many homicides there were in *(a)* Romford, *(b)* the London Borough of Havering and *(c)* London since 1997; and if she will make a statement. [176796]

Mr. McNulty: Information from the Homicide Index can only be broken down to police force area level. The following table of data relates to the number of homicides recorded by the Metropolitan and City of London police forces between 1997 and 2005-06.

Although the number of homicides in London is higher now than in 1997, there has been a reduction in each of the last two years. Moreover, the new Make Communities Safer Public Service Agreement (PSA), effective from April 2008, includes a target to reduce the most serious violence. Many of the actions required to achieve this objective will have an impact on a range of violent and sexual offences, but there will be a particular focus on homicide.

The Government are developing a wide-ranging programme of work to deliver the new PSA target, and will soon set out a new framework for tackling violence, based on the identification and management of risk and supporting victims to reduce harm.

Currently recorded homicides[1, 2] by police in London[3, 4], 1997 to 2005-06[5]

Year[1]	*Number of offences*
1997	156
1997-98	160
1998-99	143
1999-2000	172
2000-01	178
2001-02	179
2002-03	173
2003-04	189
2004-05	182
2005-06	177

[1] Homicide offences are shown according to the year in which police initially recorded the offence as homicide. This is not necessarily the year in which the incident took place or the year in which any court decision was made.

[2] As at 9 October 2006, figures are subject to revision as cases are dealt with by the police and by the courts, or as further information becomes available.

[3] Homicides recorded by City of London and Metropolitan police.

[4] Excludes homicides recorded by British Transport police.

[5] Data for 2006-07 and revised data for the period 1996 to 2005-06 are scheduled to be released in late January 2008.

Hunting: Arrests

Mr. Ruffley: To ask the Secretary of State for the Home Department how many *(a)* charges, *(b)* prosecutions, *(c)* convictions, *(d)* cautions and *(e)* fines there have been for breaches of the Hunting Act 2004 in each police force area since its enactment. [176114]

Mr. Coaker: Data for 2005 and 2006 showing the number of defendants proceeded against, found guilty, cautioned and fined under the Hunting Act 2004, broken down by police force area, are in the following table.

Number of defendants proceeded against at magistrates courts, found guilty at all courts and fined, and the number of offenders cautioned by the police of offences under the Hunting Act 2004, England and Wales, by police force area[1,2,3,4]

Police force area	*Proceeded against*	*Found guilty*	*Fined*	*Cautioned*
2005				
Merseyside	1	1	1	—
Northumbria	—	—	—	1
Thames Valley	2	2	2	—
Total	3	3	3	1
2006				
Cheshire	2	2	2	—
Durham	1	—	—	—
Essex	4	3	3	—
Humberside	4	—	—	—
Total	11	5	5	0

[1] These data are on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] The Hunting Act 2004 came into force in February 2005.

[4] Where police forces are not listed assume a nil figure.

Members: Correspondence

Jenny Willott: To ask the Secretary of State for the Home Department when she will reply to Question 167966, tabled by the hon. Member for Cardiff, Central on 21 November for answer on 26 November; and if she will make a statement. [175544]

Meg Hillier: The question was answered on 7 January 2008, *Official Report*, columns 280-81W.

Police: Pay

Mr. Ruffley: To ask the Secretary of State for the Home Department what *(a)* total and *(b)* average overtime payments were for police officers in each police force area in England and Wales for each year since 1997. [176062]

Mr. McNulty: Data on police overtime is produced by the Chartered Institute of Public Finance and Accountancy. Police Officer overtime for 1997-98 to 2006-07, broken down by police force areas, is shown in the table. The average overtime payment can be calculated by dividing the overtime payment by the official number of Police Officers for that year (using Home Office figures) and is shown in the table.

Data on police overtime is produced by the Chartered Institute of Public Finance and Accountancy. Police Officer overtime for 1997-98 to 2006-07, broken down by police force areas, is shown in the table.[2]

2. *[Official Report, 21 January 2008; Vol. 470, c. 14MC.]*

Overtime spend £000

CIPFA Police Statistics: Actuals 2006-07 to 1997-98 / Home Office Police Officer Numbers

Police: Retirement

Mr. Ruffley: To ask the Secretary of State for the Home Department what estimate she has made of the number of police officers who will retire in each of the next five years. [176070]

Mr. McNulty: The requested information can be estimated from the centrally collected data within the police personnel statistics series.

Police officers are eligible for retirement with an ordinary pension after 25 years of service. An ordinary pension is payable from age 50 unless the officer has completed 30 years of service, in which case he or she may retire with an immediate pension even if under the age of 50. Data for the number of police officers with 25 to 26 years, 26 to 27 years, 27 to 28 years, 28 to 29 years and 29 to 30 years of service are available.

Officers with less than 25 years of service may retire with an immediate pension between the ages of 55 and 60, depending on their rank and police force. Data for the number of police officers over the age of 55 are available.

We estimate that between 4,000 and 5,000 officers will retire with an ordinary, short-service or ill-health pension in each of the next five years.

Police: Standards

Mr. Ruffley: To ask the Secretary of State for the Home Department what percentage of calls were met within the target time adopted by the Metropolitan Police in each of the last three years, broken down by borough. [176071]

Mr. McNulty: The information requested on emergency call handling is published in the Annual Reports of Her Majesty's Inspectorate of Constabulary (HMIC). The data are available at the force level only, although the City of London's emergency calls are also dealt with by the Metropolitan Police Service (MPS). The MPS has adopted a target time of 15 seconds for responding to 999 calls.

The latest available data refer to the 2004-05 financial year, and can be found in Figure 8 of the HMIC Annual Report 2004-05. This publication is available via the Home Office website at

http://www.official-documents.gov.uk/document/hc0506/hc08/0842/0842.pdf

In 2004-05 86.4 per cent of calls were responded to within the MRS target time, in 2003-04 87.9 per cent were responded to and in 2002-03 the figure was 82.3 per cent.

Prosecutions: Driving Offences

Mr. Ruffley: To ask the Secretary of State for the Home Department how many *(a)* successful prosecutions, *(b)* cautions and *(c)* fixed-penalty notices there have been in relation to uninsured drivers (i) in total and (ii) in each police force area in each of the last 10 years; and what the average penalty was in each category. [176297]

Mr. Coaker: Available information taken from the Court Proceedings Database held by the Ministry of Justice for the offence of 'using a motor vehicle uninsured against third party risks', from 1997-2005 (latest available) is provided in the tables.

2006 data will be available later this year.

[1] An offence under the Road Traffic Act 1988 s. 143 (2).
[2] Magistrates courts data only. Fines given at the Crown court total nationally (England and Wales) less than 10 each year.
[3] As from 1 June 2003, 'driving a motor vehicle while uninsured against third party risks' became a fixed penalty offence.

Notes:
1. It is known that for some police force areas, the reporting of court proceedings in particular those relating to summary motoring offences may be less than complete.
2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their limitations are taken into account when those data are used.

Racially Aggravated Offences

Harry Cohen: To ask the Secretary of State for the Home Department what percentage of crimes recorded as racially motivated were perpetrated against asylum seekers in the last *(a)* year, *(b)* five years and *(c)* 10 years. [177042]

Mr. Coaker: The information requested is not available centrally. The Home Office collects and publishes data on the number of racially or religiously aggravated offences recorded by the police. However, no information is collected on the status of the victims of these crimes.

COMMUNITIES AND LOCAL GOVERNMENT

Casinos: Planning Permission

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Beckenham (Mrs. Lait) of 9 October 2007, *Official Report*, columns 556-7W, on casinos: planning permission, if she will place in the Library a copy of the Planning Inspectorate ruling for each of the eight appeals. [176260]

Mr. Iain Wright: Copies of the Planning Inspectors' decisions, referred to in the answer given to the hon. Member for Beckenham (Mrs. Lait) of 9 October 2007, *Official Report*, columns 556-7W, have been placed in the Library of the House.

Council Housing: Sales

Sarah Teather: To ask the Secretary of State for Communities and Local Government what percentage of income from the sale of council accommodation was used for the development of new council *(a)* housing and *(b)* affordable housing in each London borough in 2006-07. [168057]

Mr. Iain Wright: We hold no data which separately identify how the receipts from council house sales are used. Receipts from housing-related asset sales, including from right to buy, are subject to a 'pooling' regime whereby a proportion of the receipts come to central Government and a proportion is retained by the local authority. The proportion that comes to central Government is 75 per cent. for a dwelling or 50 per cent. for a non-dwelling asset such as housing land. The local authority is free to use the remaining 25 per cent. and 50 per cent. respectively for any capital purpose it sees fit, including the development of new council housing and affordable housing.

Audited data are currently only available for 2005-06, when pooled capital receipts in London totalled £319 million. Housing Corporation spend through the Affordable Housing Programme on affordable housing in London was £714.5 million for that financial year. Local authorities may also spend their own capital resources on provision of affordable housing, but separate figures are not available for this.

The following table shows Housing Corporation spend on the provision of new affordable housing for both social rented and low cost home ownership in London. The spend includes both new build and acquisition and refurbishment. It excludes spend on works (repairs/improvements) to existing registered social landlord stock.

London borough	Total (£ million)
City of London	2.5
Barking and Dagenham	12.9
Barnet	21.5
Bexley	13.5
Brent	24.3
Bromley	19.2
Camden	17.9
Croydon	34.5
Ealing	28.6
Enfield	24.2
Greenwich	22.1
Hackney	34.1
Hammersmith and Fulham	21.5
Haringey	26.6
Harrow	9.0
Havering	10.3
Hillingdon	17.1
Hounslow	30.9
Islington	25.3
Kensington and Chelsea	6.7

Lambeth	45.7
Lewisham	20.9
Merton	9.2
Newham	39.4
Redbridge	12.2
Richmond upon Thames	6.2
Southwark	39.0
Sutton	13.4
Tower Hamlets	38.9
Waltham Forest	14.5
Wandsworth	21.5
Westminster	24.9

Empowerment Champions

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the criteria were by which she decided which local authorities were to be named as empowerment champions. [176159]

John Healey: The 18 local authorities named as empowerment champions were selected because they demonstrated that improvements were being made to people's lives in their area through a number of specific empowerment initiatives, and that there were plans for further development action. They agreed to work with the Department to spotlight good practice, develop peer learning programmes and contribute to the development of national policy. The selections took into account the views of the Government offices for the regions and the importance of including all the English regions, a cross-section of political control, types of council, and types of community served, to ensure the widest relevance of the learning programmes developed through the network.

Empty Property

John McDonnell: To ask the Secretary of State for Communities and Local Government how many unoccupied domestic properties there were in England and Wales in each of the last five years for which figures are available. [176902]

Mr. Iain Wright *[holding answer 7 January 2008]:* The numbers of vacant dwellings are tabulated for England. The figures include long and short-term vacancies of less than six months.

	Snapshot date	Long term vacancies	Short term vacancies	Total for England
2002	1 November	375,600	382,500	758,100
2003	3 November	360,500	383,300	743,800
2004	1 November	318,600	395,300	714,000
2005	10 October	313,600	409,600	723,200
2006	9 October	318,400	429,700	748,200

Figures are available for England only.
Source:
Council Tax Base (CTB1) returns

Empty Property: Urban Areas

Andrew Gwynne: To ask the Secretary of State for Communities and Local Government what estimate her Department has made of the number of unoccupied flats and apartments in city centres. [177194]

Mr. Iain Wright: Information on vacancies by type of dwelling is not held centrally.

English Regions Network

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the *(a)* function and *(b)* purpose is of the English Regions Network. [176586]

John Healey: I refer the hon. Member to the answer I gave him on 17 December 2007, *Official Report*, column 1158W.

Greater London Authority Act 2007

Mr. Pickles: To ask the Secretary of State for Communities and Local Government which provisions of the Greater London Authority Act 2007 will come into force before May 2008. [176209]

John Healey: The Government intend to commence all the provisions of the Greater London Authority Act 2007 before the GLA elections on 1 May.

Green Belt

Mr. Pickles: To ask the Secretary of State for Communities and Local Government with reference to the answer of 9 October 2007, *Official Report*, columns 563-4W, on Green Belt, for what reasons green belt protection is not compatible with National Park designation. [176456]

Mr. Iain Wright: Green belt protection is not incompatible with National Park designation, although they have different purposes. The primary purposes of green belt are to prevent urban sprawl and prevent towns from merging, and to assist in urban regeneration by encouraging reuse of urban brownfield land, whereas the aims of the National Parks are to conserve and enhance the natural beauty, wildlife and cultural heritage of each park and

to promote opportunities for the understanding and enjoyment of their special qualities by the public. However, both provide particularly strong controls over development.

In relation to New Forest National Park, it was the decision of Hampshire county council and New Forest district council as part of their review of relevant development plans, to de-designate green belt land in the area of the National Park once the Park was created.

Housing: Disabled

Ms Hewitt: To ask the Secretary of State for Communities and Local Government what support her Department provides to local authorities to ensure that enough homes are available with appropriate adaptations to meet the needs of people using wheelchairs. [169925]

Mr. Iain Wright: The Department for Communities and Local Government funds local authorities with an annual grant of £121 million to help finance the Disabled Facilities Grant (DFG) programme (increasing to £146 million in 2008-09). The DFG programme helps around 37,000 disabled people each year by providing assistance with a wide range of housing adaptations, which helps to enable them to remain living independently in their home.

The Department has also set out proposals for the implementation of the Lifetime Homes Standards in our response to the consultation on the Code for Sustainable Homes. The standards significantly improve the suitability and adaptability of homes for people in wheelchairs as well as for other people whose circumstances undergo change. From 2011 all publicly funded housing will be built to the Lifetime Homes Standards, significantly increasing the provision of this type of accommodation.

Additionally, as part of their approach to planning and housing policy, local authorities are required to identify households with specific needs. The Department's Strategic Housing Market Assessment Practice Guidance explains how authorities can undertake such assessments. That includes identifying the number of people with disabilities who require adapted housing.

Housing: Green Belt

Anne Main: To ask the Secretary of State for Communities and Local Government what estimate her Department has made of the number of dwellings that were built in *(a)* St Albans District and *(b)* Hertfordshire on land (i) designated and (ii) previously designated as green belt in 2007; and what estimate it has made of the number likely to be built in each case under the proposed regional spatial strategies in each year of those strategies. [177023]

Mr. Iain Wright: The Department does not hold information in a format which would enable the number of dwellings built on designated, or previously designated, green belt in either St Albans or Hertfordshire to be readily identified. The Draft East of England Plan includes housing allocations for St Albans of 360 dwellings per annum to 2021 and, for Hertfordshire, 4,380 dwellings per annum to 2021.

The East of England Plan identifies a need for strategic green belt reviews at Hemel Hempstead, Welwyn Hatfield, Stevenage and around Harlow to permit those towns to develop further as Key Centres for Development and Change. It is not possible to predict the proportion of housing which may be built on land excluded from the green belt—that will depend on the Local Development Documents prepared by local planning authorities. However, the East of England Plan also contains a requirement that 60 per cent. of new homes should be built on previously developed land.

Land Use

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how many civil servants are assisting the hon. Member for Truro and St. Austell in his review of land use and planning. [176188]

Mr. Iain Wright: The secretariat support for the review currently consists of two full-time civil servants, but will draw upon the expertise of a range of officials from the Department for Communities and Local Government, the Department for Environment, Food and Rural Affairs and across Government, where applicable.

Local Government Finance

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether her proposals to introduce powers to ballot on spending decisions would involve *(a)* the council and *(b)* the public. [176738]

John Healey: I refer the hon. Member to the answer I gave him on 17 December 2007, *Official Report*, column 1152W.

Members: Pay

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether the hon. Member for Truro and St. Austell is receiving *(a)* payment from the public purse and *(b)* expenses for his review of land use and planning. [176197]

Mr. Iain Wright: In accordance with Cabinet Office guidance, the hon. Member for Truro and St. Austell is not receiving payment to conduct his review but is able to claim out-of-pocket expenses associated with the role.

Mortgages

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how many and what proportion of first-time buyers took out mortgages of 100 per cent. or more of the purchase price of the property in each year for which figures are available from 1997 to 2005. [176594]

Mr. Iain Wright: I refer the hon. Member to the answer I gave on 12 December 2007, *Official Report*, column 686W.

Non-Domestic Rates: Renewable Energy

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the average additional contribution is of a ground source heat pump to the rental value of a business premises in the assessment of its rateable value for business rates by the Valuation Office Agency. [176618]

John Healey: Where business premises are heated this will normally increase the rental, and therefore the rateable value, as compared to similar premises that are unheated. This will be the case whether the heating plant is of traditional design or a ground source heat pump is used.

However, it is not possible, at reasonable cost, to identify premises with ground source heat pumps and calculate the average addition for that portion of the rateable value attributable to ground source heat pumps.

Planning Permission: Fees and Charges

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what is the estimated change in revenue to be raised from the new planning charges system. [176561]

Mr. Iain Wright: The community infrastructure levy (CIL) proposals in the Planning Bill would empower local planning authorities (LPAs) and other authorities to levy a charge to help fund the infrastructure needed to support housing growth and other new development. LPAs would need to decide whether to introduce a CIL in their areas and the level at which it was set. The CIL has the potential to raise hundreds of millions of pounds of additional investment across England.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether *(a)* central Government, *(b)* regional planning bodies or *(c)* regional development agencies will receive revenue raised by the new planning charges. [176562]

Mr. Iain Wright: The community infrastructure levy (CIL) is a local mechanism designed to help fund the infrastructure needed to support the growth in housing and other new development. The charging authorities for the CIL will usually be local planning authorities (LPAs) but it may be appropriate for charging authorities to pass CIL revenue to other bodies to deliver infrastructure as is common under the current planning obligations regime. The Government will continue to work with stakeholders to develop the detail of how this could be achieved.

Planning: Retail Trade

Mr. Betts: To ask the Secretary of State for Communities and Local Government when she plans to publish changes to Planning Policy Statement 6; and whether she plans to consult on those changes. [175959]

Mr. Iain Wright: The Government's response to "Planning White Paper Consultation: Government response to consultation replies", which was published on 27 November 2007, reported that it remains our intention to consult on revisions to Planning Policy Statement 6: "Planning for town centres (PPS6)" early this year.

Public Expenditure

Mr. Pickles: To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of the Comprehensive Spending Review 2007 settlement letter from HM Treasury sent to her Department. [176557]

John Healey: Details of the DCLG's overall Comprehensive Spending Review 2007 settlement were published on 9 October 2007 as part of the 2007 pre-Budget report and Comprehensive Spending Review White Paper (Command Paper 7227). These were placed in the Library of the House at time of publication and can also be found on the HM Treasury website via

http://www.hm-treasury.gov.uk/pbr_csr/report/pbr_csr07_repindex.cfm

Further announcements of CLG programmes over the CSR period have been made following the CSR, including on 6 December 2007 as part of the provisional Local Government Finance settlement. Details of this can be found on the CLG website at:

http://www.local.communities.gov.uk/finance/0809/grant.htm

Regional Government: Manpower

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how many *(a)* communications, *(b)* marketing, *(c)* information and *(d)* press officers work for each regional chamber in England. [176747]

John Healey: The following table sets out the number of staff employed by each regional assembly whose work includes *(a)* communications, *(b)* marketing, *(c)* information and/or *(d)* press officer duties.

Regional assembly	*Number of staff*	*Notes*
East of England	1.5	(a) only
East Midlands	1	(a) and (d) only
North-east	0.2	(a) only
North-west	0.75	(a) (b) (c) and (d)
South-east	4	(a) (c) and (d) only
South-west	1.8	(a) (b) (c) and (d)
West midlands	1.5	(a) (b) (c) and (d)
Yorkshire and the Humber	1.5	(a) (c) and (d) only

Note:
Figures given are totals for full-time equivalent staff

Regional Planning and Development

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the status is of the National Spatial Address Infrastructure; and what the public expenditure has been on the scheme to date. [176753]

Mr. Iain Wright: I refer the hon. Member to the answer I gave on 12 December 2007, *Official Report*, column 548W.

Standards Board: Finance

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what annual financial saving is expected following the relocation from London to Manchester of the Standards Board. [176598]

John Healey: I refer the hon. Member to the answer I gave him on 18 December 2007, *Official Report*, column 1350W.

Supporting People Programme: Finance

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how much funding was allocated to the Supporting People budget in each year since its inception; and what the planned expenditure is in the next three years. [176217]

Mr. Iain Wright: I refer the hon. Member to the indicative allocations of funding for the next three years announced by my right hon. Friend the Minister for Housing on 6 December 2007, *Official Report*, column 81WS. Funding since the inception of the Supporting People programme in 2003 is set out in the table as follows:

	SP Grant (£ billion)
2003-04	1.814
2004-05	1.805
2005-06	1.715
2006-07	1.685
2007-08	1.696

UK Location Strategy

Mr. Prisk: To ask the Secretary of State for Communities and Local Government when she expects to publish the UK Location Strategy. [175656]

Mr. Iain Wright: The Government expect to publish Place Matters: The Location Strategy for the United Kingdom early this year.

UK Location Strategy: Geographic Information Panel

Mr. Prisk: To ask the Secretary of State for Communities and Local Government what steps the Geographic Information Panel has taken to engage the private sector in the development of the UK Location Strategy. [175653]

Mr. Iain Wright: Place Matters: The Location Strategy for the United Kingdom was developed by the United Kingdom Geographic Information Panel (GI Panel) during 2006 and 2007. Membership of the GI Panel was approved by the Minister responsible for the Panel in 2004, and is drawn from both public and private sectors, including a representative from the Association for Geographic Information representing the wider UK geographic information industry: over 50,000 companies and individual professionals from the private sector are represented on the Panel.

The GI Panel appointed consultants to co-ordinate dialogue with a wide range of contributors from across the UK geographic information industry and related interests, representing both public and private sectors. Several workshops were arranged to gather views and discuss areas of concern. In addition wider contributions were invited by the consultants via the GI Panel website.

These views were drawn together by the consultants to formulate the draft Strategy which was then reviewed and refined by the Location Strategy Development Group, drawn from members of the GI Panel, and finally agreed by the GI Panel itself.

UK Location Strategy: Ordnance Survey

Mr. Prisk: To ask the Secretary of State for Communities and Local Government what role the Ordnance Survey has in preparing the UK Location Strategy. [175654]

Mr. Iain Wright: Place Matters: The Location Strategy for the United Kingdom has been prepared and submitted to Ministers by the UK Geographic Information Panel (GI Panel).

Ordnance Survey currently provides the secretariat to the GI Panel. This role involves administrative support and preparation and circulation of documentation for consideration by the GI Panel and others as appropriate, including during preparation of the Location Strategy.

Vanessa Lawrence (Director General and Chief Executive of Ordnance Survey) is currently Chair of the GI Panel. She was planning to stand down in April 2007, but on the recommendation of the members of the GI Panel, the Minister reappointed her as Chair for a further period.

In this role she has chaired meetings of both the GI Panel and the UK Location Strategy Development Group drawn from the Panel. She has facilitated meetings of relevant parties during the preparation of the Strategy, and on behalf of the GI Panel, has submitted the Location Strategy to Ministers.

Urban Areas: Finance

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how much funding *(a)* her Department, *(b)* its predecessor and *(c)* the Government Office for the South West has provided for the sustainability of land use and transport in outer neighbourhoods project. [176174]

Mr. Iain Wright: I refer the hon. Member to the answer given by my right hon. Friend the Minister for Housing on 19 October 2006, *Official Report*, column 1424W. The situation has not changed since that time. The then ODPM contributed £35,000 to this project, which was part of a larger £1.75 million study being carried out by the Engineering and Physical Sciences Research Council (EPSRC).

No financial contributions were made by the Government office for the south-west.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan

Dr. Fox: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the statement by the Prime Minister of 12 December 2007, *Official Report*, column 305, on Afghanistan, if he will make a statement on the national solidarity programme in Afghanistan. [175481]

Mr. Douglas Alexander: I have been asked to reply.

In his recent statement on Afghanistan, the Prime Minister announced funding of £21.65 million for the next phase of the Government of Afghanistan's National Solidarity Programme (NSP). This reflects the UK Government's continued commitment to this important programme. The NSP has been running since May 2003 and has so far reached over 20,500 communities, providing over $400 million to support more than 31,000 development projects in the areas of agriculture, education, emergency response, health, irrigation, legal livelihoods, power, public buildings, rural development, transport, water supply and sanitation.

DFID has committed a total of almost £50 million to the NSP since 2003. We provided £17 million for Phase I (2003-06) and have made available up to £10.9 million for the roll-out of the NSP in Helmand (2006-09).

Afghanistan: Politics and Government

Mr. Blunt: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Prime Minister's oral statement of 12 December 2007, *Official Report*, column 303, on Afghanistan, what steps he plans to take to increase burden-sharing between partners and allies in relation to Afghanistan; and what assessment he made of the practicality of international policy on Afghanistan before his review of strategy. [175215]

Dr. Howells: According to the North Atlantic Treaty Organisation (NATO), key shortfalls in Afghanistan at present, which will need to be met by greater burden-sharing, are trainers/mentors for Afghan National Security Forces and helicopters. The UK has launched, as a means to help meet helicopter deployability shortfalls globally, including currently notably Afghanistan and Darfur, a helicopter initiative in both the EU and NATO which involves developing an inventory of helicopter assets of partners and determining which enabling capabilities are necessary to ensure deployability on operations. We are also looking at other innovative approaches, including the potential development of consortia of countries with the right mix of helicopters, enablers and funding.

In support of the Government of Afghanistan, we have always worked closely with the international community on the creation and implementation of international policy. Mechanisms such as the Joint Coordination and Monitoring Board are used to monitor the practical implementation of internationally agreed objectives, as detailed in the Afghanistan Compact agreed by international partners at the London conference in January 2006.

Committee of Permanent Representatives

Dr. Fox: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* A, *(b)* B, *(c)* I and *(d)* False B Points were presented to the Council from the Committee of Permanent Representatives in 2007. [176825]

Mr. Jim Murphy: This information is not held centrally and would be difficult and disproportionately costly to compile.

The Council Secretariat does not collect and publish details of the number of A and B points presented to the Council.

There is no formal differentiation between Ordinary B Points and False B Points. It follows that the Secretariat's records do not show False B Points.

I Points are not referred to the Council; members of the Committee of Permanent Representatives deal with this subject.

Departmental Languages

James Duddridge: To ask the Secretary of State for Foreign and Commonwealth Affairs in what roles his Department employs native Pashtun speakers. [176082]

Dr. Howells: Our embassy in Kabul and the UK-led Provincial Reconstruction Team in Lashkar Gah employ native Pashtun speakers in a variety of roles, including as special advisers, project managers, translators and office staff.

Embassies

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 10 December 2007, *Official Report*, column 159W, on embassies, what arrangements are in place to provide alternative consular services in the case of each of the embassies, high commissions and consulates closed since May 1997. [174844]

David Miliband: Where a non-sovereign post (British consulate or British consulate general) has closed, consular services will be provided by either the sovereign post (embassy or high commission), or the nearest non-sovereign post in the country concerned, possibly through an honorary consul.

Should a sovereign post close, an honorary consul supervised by a neighbouring post will normally be appointed. In some countries where we have no representation, under reciprocal arrangements, either an EU member state or a Commonwealth country that has representation in the country concerned may provide consular services in an emergency. Under article 20 of the treaty establishing the European Community, EU nationals in a country where their own state is not represented are entitled to consular protection from an embassy or consulate of another member state, on the same conditions as the nationals of that state.

Our provision of consular services in those posts closed since May 1997 is as follows.

Posts closed since 1997-98

	Country	*Post name*	*Status*	*Consular services*
1997-98	Colombia	Barranquilla	Consulate	Covered by the Bogota Embassy
1997-98	Switzerland	Zurich	Consulate General	British Vice-Consulate reporting to Berne
1998-99	Malaysia	Kuching	Consulate	Honorary Consul reporting to Kuala Lumpur
1998-99	Thailand	Chiang Mai	Consulate	Honorary Consul reporting to Bangkok
1999-2000	USA	Cleveland	Consulate	Honorary Consul reporting to Chicago
2000-01	Spain	Seville	Consulate	Honorary Consul reporting to Malaga
2003-04	Mali	Bamako	Embassy	British Embassy Liaison Office in Canadian Embassy reporting to Accra
2003-04	El Salvador	San Salvador	Embassy	Honorary Consul reporting to Guatemala City
2003-04	Honduras	Tegucigalpa	Embassy	Honorary Consul reporting to Guatemala City
2003-04	Nicaragua	Managua	Embassy	Honorary Consul reporting to San Jose
2004-05	Cameroon	Douala	Consulate	Honorary Consul reporting to Yaounde
2004-05	Portugal	Oporto	Consulate	Honorary Consul reporting to Lisbon
2005-06	Lesotho	Maseru	High Commission	Honorary Consul reporting to Pretoria
2005-06	Madagascar	Antananarivo	Embassy	Honorary Consul reporting to Port Louis
2005-06	Swaziland	Mbabane	High Commission	Honorary Consul reporting to Pretoria
2005-06	Cote d'Ivoire	Abidjan	Embassy	UK based staff stationed in US Embassy reporting to Accra
2005-06	Bahamas	Nassau	High Commission	Honorary Consul reporting to Kingston
2005-06	Paraguay	Asuncion	Embassy	Honorary Consul reporting to Buenos Aires
2005-06	USA	Dallas	Consulate	Covered by Houston
2005-06	USA	San Juan (Puerto Rico)	Consulate	Honorary Consul reporting to Atlanta
2005-06	Japan	Fukuoka	Consulate	Covered by Osaka
2005-06	Vanuatu	Port Vila	High Commission	Reciprocal agreement with New Zealand High Commission, covered from Suva
2005-06	Germany	Frankfurt	Consulate General	Honorary Consul reporting to Dusseldorf
2005-06	Germany	Stuttgart	Consulate General	Honorary Consul reporting to Munich
2005-06	Yemen	Aden	Consulate General	Covered by Sana'a
2005-06	Tonga	Nuku' alofa	High Commission	Reciprocal agreement with NZ High Commission, covered from Suva
2005-06	Haiti	Port-au-Prince	British Consulate	Covered by British Embassy in the Dominican Republic
2006-07	Australia	Adelaide	Consulate	Honorary Consul reporting to Melbourne
2006-07	East Timor	Dili	Embassy	Covered by Jakarta
2006-07	Germany	Hamburg	Consulate General	Honorary Consul reporting to Berlin
2006-07	Sweden	Gothenberg	Consulate General	Honorary Consul reporting to Stockholm
2006-07	St. Vincent and the Grenadines	Kingston	High Commission	Honorary Consul reporting to Bridgetown
2006-07	USA	Seattle	Consulate	Honorary Consul reporting to San Francisco

Iraq: Global Strategies Group

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government have employed the services of Global Strategies Group in *(a)* Iraq and *(b)* Afghanistan; and if he will make a statement. [162882]

David Miliband: The Government have not to date contracted the services of Global Strategies Group in either Iraq or Afghanistan.

The Government ensures that all contracts are subject to a rigorous selection process so that we obtain best value for money. Any company engaged by the Government needs to pass through a stringent and transparent procurement process in line with Public Procurement Guidelines and best practice.

Malaysia: Political Prisoners

Mr. Carmichael: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations his Department has made to the Malaysian Government on the imprisonment of Hindu Rights Action Force leaders P. Uthayakumar, M. Manoharan, V. Ganabatirau, R. Kenghadharan and T. Vasanthakumar under the Malaysian Internal Security Act. [176089]

Meg Munn: As yet, we have made no representations on these specific cases. However, we are considering these cases with our EU partners. The EU has previously expressed concern to the Malaysian Government about the use of the Internal Security Act.

Mr. Carmichael: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations his Department has made to the Malaysian Government regarding Malaysia's Internal Security Act, with particular reference to its provisions which allow indefinite detention without charge or trial. [176090]

Meg Munn: We are discussing with our EU partners recent arrests under the Internal Security Act. The EU has previously expressed concern to the Malaysian Government about the use of the Internal Security Act.

Maldives: Chagos Archipelago

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made in negotiations with the Maldives on maritime demarcations between Maldive territorial waters and those around the Chagos Archipelago; and if he will make a statement. [175823]

Dr. Howells: There is no overlap of territorial waters between the Maldives and the British Indian Ocean Territory.

A draft agreement on the boundary between the Maldives Exclusive Economic Zone (EEZ) and the British Indian Ocean Territory Fishery Zone was agreed at technical level in 1992, but it has never been signed and is not in force. Since 1992, the Maldives has replaced its 1976 legislation on the EEZ with Act No 6/96 dated June 1996. Notwithstanding the changes to this EEZ legislation, which introduces archipelagic baseline points, it seems to respect the boundary agreed in draft in 1992.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what use was made of the equidistance principle in determining the maritime boundaries between the Republic of Maldives and the United Kingdom territory of the Chagos Archipelago; and if he will make a statement. [175826]

Dr. Howells: The draft agreement reached in 1992, which would set out the maritime boundary between the Maldives Exclusive Economic Zone and the British Indian Ocean Territory Fishery Zone, is based entirely on the equidistance principle with no adjustment.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will place in the Library copies of the exchange of correspondence between the UK and the Republic of Maldives that led to the Memorandum of Agreement of 1993 on the Chagos Archipelago maritime delimitation line. [175827]

Dr. Howells: Representatives of the Government of the Republic of Maldives and the Government met in November 1992 to discuss the delimitation of the maritime boundary between the Maldives and the British Indian Ocean Territory. Disclosure of the minutes to this meeting, together with a copy of the draft agreement attached thereto, could only be made after consultation with the Government of the Maldives.

Maldives: Politics and Government

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations the UK has made to the Government of the Republic of the Maldives on human rights and the development of parliamentary democracy; and if he will make a statement. [175829]

Dr. Howells: I told the House on 17 October 2007, *Official Report*, columns 939-942, during a debate on Maldives that we understood the challenges the Maldivian Government face to adopt and implement multi-party liberal democracy that fully observes international human rights obligations.

Maldives has acceded to the International Covenant on Civil and Political Rights and is now a signatory to the six core UN human rights instruments. We welcome these developments. We have always made clear to the Maldivian Government the importance of meeting international obligations on human rights, including the full and transparent investigation of any human rights based allegations. We understand that a UN human rights adviser invited by the Maldivian Government are working with them on this.

When my right hon. and noble Friend the Minister responsible for Africa, Asia and the UN, the right hon. Lord Malloch-Brown, met President Gayoom of Maldives in July 2007, he underlined the need to keep the reform process on track and the importance of this year's elections being free, fair, inclusive and supported by the Maldivian people. In meetings with the Maldivian Foreign Minister, Abdullah Shahid, his deputy, Dhunya Maumoon, and with the Chairman of the opposition Maldivian Democratic Party, senior Foreign and Commonwealth Office officials have emphasised the need for good faith among all political parties and for all to redouble efforts to implement democratic change in Maldives.

Middle East: Peace Negotiations

Anne Milton: To ask the Secretary of State for Foreign and Commonwealth Affairs what meetings he and *(a)* Ministers and *(b)* officials in his Department have had in the last six months with officials from the Palestinian Authority to discuss progress on the Middle East peace plan; and if he will make a statement. [175565]

Dr. Howells: My right hon. Friend the Foreign Secretary visited Israel and the Occupied Palestinian Territories from 17 to 19 November 2007 and met President Abbas, and Prime Minister Fayyad of the Palestinian Authority (PA). On 10 and 11 December 2007, my right hon. Friend the Secretary of State for International Development called on the President, the Prime Minister and a number of Palestinian officials. On 18 December, President Abbas visited London and held meetings with my right hon. Friends the Prime Minister and the Foreign Secretary.

Officials at our Consulate General in Jerusalem have regular dialogue with a wide range of PA Ministers and officials.

Russia: Entry Clearances

Mr. Ellwood: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent changes have been introduced to the types of UK visas available to Russian citizens. [177148]

Dr. Howells: There have been no recent changes to the types of UK visa available to Russian citizens specifically. Generally, the various categories in which a person may apply to enter the UK are open to all non-European economic area nationals, regardless of their country of origin.

Saudi Arabia: Human Rights

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs on which occasions in the last 12 months he raised concerns about human rights in Saudi Arabia with *(a)* the King of Saudi Arabia, *(b)* members of the Government of Saudi Arabia and *(c)* non-governmental organisations in Saudi Arabia. [176874]

Dr. Howells: My right hon. Friend the Foreign Secretary has not raised human rights with either the King, members of the Saudi Government, or non-governmental organisations since coming to office on 27 June 2007. My right hon. Friend the Foreign Secretary has not visited Saudi Arabia and has not met the King.

Our ambassador in Riyadh raises human rights on a regular basis with the Saudi authorities as part of his day-to-day responsibilities.

Saudi Arabia: Punishment

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations were made to the King of Saudi Arabia on the recent threatened punishment of a 19-year-old female rape victim. [176879]

Dr. Howells: The Government raised the threatened punishment of a 19-year old rape victim with the Saudi authorities on several occasions, both before and after the case went to appeal. The Government also supported EU action co-ordinated by the German presidency in Riyadh.

In December 2007, King Abdullah granted a Royal Pardon to the victim.

Terrorism: Death

Mr. Ellwood: To ask the Secretary of State for Foreign and Commonwealth Affairs how many UK citizens have been killed as a consequence of terrorist acts overseas in each of the last 10 years. [177161]

Dr. Howells: Our records show that the number of UK citizens killed as a consequence of terrorist acts overseas since 1997 is as follows:

	Number
1997	7
1998	4
1999	0
2000	1
2001	82
2002	28
2003	5
2004	7
2005	18
2006	1
2007	0

These figures are for both British and dual British nationals. However, they do not include the number of British nationals in the armed forces or those working for private military security firms, who have been killed in Iraq or Afghanistan.

Turkey: Human Rights

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will seek to hold discussions with his Turkish counterpart on the observance of the human rights of the Assyrian minority living within Turkey. [177104]

Mr. Jim Murphy: We raise freedom of religion issues with the Turkish Government on a regular basis and meetings with members of the Assyrian minority are always included in the regional visits programme. In 2007, officials from our Embassy in Ankara visited Assyrian communities in Diyarbakir, Elazig and Mardin and His Royal Highness the Prince of Wales met Archbishop Mor Philoxenos Yusuf Cetin in Istanbul on 28 November 2007.

Turkey's overall human rights record is subject to intense scrutiny during EU accession negotiations, and advancement in the negotiations is measured against Turkey's progress in a number of areas, including the fundamental and cultural rights of religious and other minority groups in Turkey.

WORK AND PENSIONS

Carers: Finance

Mike Penning: To ask the Secretary of State for Work and Pensions what budget was allocated for carers and the carer's allowance in *(a)* Dacorum and *(b)* England in each year since 2001; and if he will make a statement. [165063]

Mrs. McGuire: Funding for carers in general is a matter for my right hon. Friend the Secretary of State for Health. For carer's allowance, which is paid for by DWP, no set budget is allocated. All claims that meet the conditions of entitlement are awarded. Details of expenditure on carer's allowance are in the following table.

Carer's allowance paid out in the local authority of Dacorum and in England

		£ million cash terms		*£ million in 2007-08 prices*	
	Status	*Dacorum*	*England*	*Dacorum*	*England*
2003-04	Outturn	1.6	876.1	1.8	975.5
2004-05	Outturn	1.7	912.8	1.8	989.0
2005-06	Outturn	1.8	958.8	1.9	1017.6
2006-07	Provisional outturn	1.8	996.8	1.9	1029.2

Notes:
1. All figures have been rounded to the nearest hundred thousand pounds.
2. Prior to August 2003, carer's allowance (CA) figures were based on those with entitlement only. This means that caseloads cannot be broken down by whether or not a case is in payment. As a result, CA figures are restricted to August 2003 onwards.
3. All figures are consistent with the 2007 pre-Budget report and comprehensive spending review.

Source:
Expenditure has been taken from departmental accounting systems and combined with 100 per cent. statistical data to identify the proportion of expenditure paid as carer's allowance in Dacorum and in England.

Child Support

Mr. Harper: To ask the Secretary of State for Work and Pensions how many and what proportion of Child Support Agency cases have been transferred from the original system to the 2003 system. [166314]

Mr. Plaskitt *[holding answer 20 November 2007]:* The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 9 January 2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many and what proportion of Child Support Agency cases have been transferred from the original system to the 2003 system.

The total number of cases being handled by the Agency at the end of September 2007 can be found on Table 1 of the September 2007 Quarterly Summary of Statistics. A copy of this is available in the House of Commons Library, or on the internet via the following link: www.dwp.gov.uk/asd/asd1/child_support/csa_quarterly_sep07.asp.

At the end of September 2007, 756,700 cases had transferred from the old computer system to the new computer system. 405,800 of these cases are currently being handled by the Agency. This represents 30 per cent of the total cases the Agency is currently handling. The remaining 350,900 cases are closed. Of the total cases transferred from the old computer system to the new computer system, the number which have then been transferred from an old scheme assessment to a new scheme assessment is 70,300. Of these, 69,400 are currently being handled by the Agency, representing 5 per cent of the total cases the Agency is currently handling. The remaining 900 cases are closed.

I hope you find this answer helpful.

Child Support Agency: Bolton

Anne Main: To ask the Secretary of State for Work and Pensions what proportion of staff at the Bolton Child Support Agency offices were employed *(a)* on permanent contracts, *(b)* on temporary contracts and *(c)* via an employment agency in each of the last three years; and if he will make a statement. [169334]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. member with the information requested.

Letter from Stephen Geraghty, dated 9 January 2007:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what proportion of staff at the Bolton Child Support Agency offices were employed (a) on permanent contracts (b) on temporary contracts and (c) via an employment agency in each of the last three years; and if he will make a statement. [169334]

The Agency contracted out the management of its clerical cases to Vertex Data Science Ltd in September 2006. They process this work on our behalf at the Bolton site. The decision to contract out the management of clerical work was always a short-term measure which allowed the Agency to increase the number of people focusing on other improvement work outlined in the Operational Improvement Plan, including reducing the number of uncleared applications and strengthening enforcement. The intention has always been to make the necessary changes to our IT to allow these cases to be maintained on the Agency's computer systems.

Vertex Data Science Ltd are therefore responsible for employing the necessary staff to deliver the service, under a contract which currently runs to September 2008. I can assure you however, that the procurement exercise undertaken to award the contract included a thorough evaluation of all recruitment and employment practices including HR policies, to ensure that they were compatible with those of the Department.

I hope you find this answer helpful.

Child Support Agency: Complaints

Keith Vaz: To ask the Secretary of State for Work and Pensions what the average time was for the Child Support Agency to resolve a complaint about their actions in 2006-07. [167813]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member.

Letter from Stephen Geraghty, dated 9 January 2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what the average time was for the Child Support Agency to resolve a complaint about their actions in 2006-07.

The Agency measures the proportion of complaints which were resolved, or which had a resolution plan agreed with the client, within 15 days of receiving the complaint. In the year to March 2007, 88 percent of both old and new scheme complaints met this standard.

I hope you find this answer helpful.

Children: Maintenance

Mr. MacNeil: To ask the Secretary of State for Work and Pensions how many absent parents in each constituency in Scotland have been transferred from the old to the new system of assessment by the Child Support Agency in each year since its introduction; and how many of these transfers were triggered by a new case involving the individual. [162753]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member.

Letter from Stephen Geraghty, dated 9 Januaryj2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many absent parents in each constituency in Scotland have been transferred from the old to the new system of assessment by the Child Support Agency in each year since its introduction; and how many of these transfers were triggered by a new case involving the individual. [162753]

The number of converted cases transferring from the old to the new system of assessment is provided in the attached table. When a new child support application is made, the case may have one or more links, through the parent with care or non-resident parent or their partners, to existing cases. If a link is established to one or more cases on the old computer system, then these cases will be transferred to the new computer system, along with any further cases that are linked to them.

We are not able to say how many converted cases were triggered by a new case involving the individual. Cases converted may be due to a link through the Non-Resident Parents partner.

A similar question was tabled by Mr Michael Weir MP on 12 October 2007 [PQ/07/158435], requesting the number of converted cases in Angus constituency and in Scotland. While answering your related question, an error was discovered in the response given to Mr Weir concerning the number of converted cases for 2006/07. The revised figures for Scotland are therefore included in this answer.

I hope you find this answer helpful.

The volume of converted cases by constituency in Scotland each year

West Aberdeenshire and Kincardine	10	10	10	20	10
West Dunbartonshire	20	20	30	30	20
Total Converted cases	540	820	1,420	1,760	680

Notes:
1. A converted case is classified as where a new scheme application can have a financial impact on an existing old scheme case, when either the non-resident parent or the parent with care on the new application is also the non-resident parent or parent with care on the existing case. In this situation, the old scheme cases in question will also be converted to the new scheme.
2. When a conversion is completed, it may reveal other links which also require conversion.
3. The latest available data is at September 2007.
4. This table revises information given in response to PQ458435 which overstated the volume of converted cases in Scotland in 2006-07 by 130.
5. Volumes are rounded to the nearest 10.
6. Totals may not sum due to rounding.

Dr. Tony Wright: To ask the Secretary of State for Work and Pensions how many non-resident parents have been asked by the Child Support Agency (CSA) to pay historical arrears from 10 years or more ago; what evidence is used by the CSA to establish the level of arrears; and how many people have been unable to pay within two years. [166664]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, 9 January 2008:

In reply to your recent parliamentary question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many non-resident parents have been asked by the Child Support Agency (CSA) to pay historical arrears from 10 years or more ago; what evidence is used by the CSA to establish the level of arrears; and how many people have been unable to pay within two years. [166664]

Information on how many non-resident parents have been asked by the Child Support Agency to pay historical arrears from 10 years or more ago or on how many people have been unable to repay maintenance due within two years is not available.

The Agency establishes the level of child support arrears based on the weekly liability of the non-resident parent for any period that payments have not been made. In many cases, as the non-resident parent may not have co-operated fully in the assessment of their maintenance liability, the Agency will proceed on the basis of the best information available in order to start maintenance flowing to the children involved.

In cases where the non-resident parent has initially provided enough evidence to assess the maintenance liability but has subsequently failed to comply or to keep the Agency informed of any relevant changes, arrears will accrue based on the last maintenance assessment. Although the non-resident parent can at any time supply information which may lead to a review of this maintenance assessment from the time that the new information is supplied, regulations do not allow the arrears already accrued to be recalculated. In addition, any support that the non-resident parent may have provided direct to their children and without the Agency's involvement, can only be counted as complying with the maintenance assessment, and therefore reducing the arrears, if the parent with care agrees.

In cases where the non-resident parent, assessed under the old rules, has not supplied enough information to assess the maintenance liability the Agency may apply an interim maintenance assessment. This assessment is likely to be set at a rate higher than the non-resident parent's maintenance assessment would have been had they cooperated with the Agency, but it nevertheless remains enforceable. The high level of the assessment is intended to provide an incentive to co-operate with the Agency and provide the information required to make a full maintenance assessment.

In cases where the non-resident parent, assessed under the new rules, is unable to supply enough information to assess the maintenance liability the Agency may apply a default maintenance assessment. A default maintenance assessment is used to ensure that at least some maintenance flows to the children although it tends to be set at a safe level, usually lower than a full maintenance assessment.

In both these cases, where a full maintenance assessment is not in force, the non-resident parent can at any time supply the relevant information which may lead to a review of the interim or default maintenance assessment and obtain a revised arrears calculation where appropriate. In the case of interim maintenance assessments, this can lead to a substantial reduction in arrears owed.

I hope you find this answer helpful.

Conditions of Employment: Mental Health

Mr. Harper: To ask the Secretary of State for Work and Pensions pursuant to the written ministerial statement of 27 November 2007, *Official Report*, columns 27-30WS, on mental health and employment, when he expects to publish a national strategy for mental health and work; and if he will make a statement. [169842]

Mrs. McGuire: On 27 November we announced our intention to develop a national strategy for mental health and employment. The strategy will ensure that there is a co-ordinated response across Government to the challenges faced by people of working age with mental health conditions, improving their employment chances.

We intend to appoint a stakeholder steering group, to be chaired by Dame Carol Black, the National Director for Health and Work, to oversee the development of the strategy. This steering group will be appointed in the new year and will then lead work on the development of the strategy which forms part of wider work on the health and employment agenda.

The expansion of the Improving Access to Psychological Therapies programme at a cost of £170 million over three years, together with the £13 million now made available by the DWP for additional support for GPs and employers, represents a considerable Government commitment to supporting those with mental health conditions. This is in addition to the funding already

committed to the roll-out of Pathways to Work, including the Condition Management programmes.

Mr. Harper: To ask the Secretary of State for Work and Pensions pursuant to the written ministerial statement of 27 November 2007, *Official Report*, columns 27-30WS, on mental health and employment, what the evidential basis is for his statement that substantial progress has been made in mental health and employment since 1997. [169948]

Mrs. McGuire: Mental health and employment has been a long-standing problem, requiring a long-term solution. We have made progress in putting in place the necessary structures and initiatives which are already helping people with mental health conditions both to obtain and to remain in work.

The latest employment rate for disabled people whose main health condition is mental illness, depression or anxiety is 22 per cent. (Labour Force Survey July-September 2007). The employment rate for this group has significantly improved since 1998 when the employment rate was around 15 per cent.

Since 1997, there has been a significant increase in the funding provided for mental health services. We now have 55 per cent. more consultant psychiatrists than we had in 1997, almost 70 per cent. more clinical psychologists and at least 20 per cent. more mental health nurses. In October 2007, the Department of Health announced the expansion of the Improving Access to Psychological Therapies programme at a cost of £170 million over three years.

Additionally, this Department has greatly increased the employment support it offers people with health conditions. Examples include the new deal for disabled people, including specialist individually tailored support and advice, as well as the piloting and continuing national roll-out of Pathways to Work, which includes the groundbreaking Condition Management Programmes.

Furthermore, from October 2008 incapacity benefits will be replaced by the new employment and support allowance, a more positive benefit offering additional support for customers in return for increased responsibility on them to engage with Jobcentre Plus. Underpinning the allowance will be a new medical test, the work capability assessment. The new assessment's test of mental health will be significantly improved compared to the current personal capability assessment, dealing better with the challenges faced by people with mental health conditions and learning disabilities.

Mr. Harper: To ask the Secretary of State for Work and Pensions pursuant to the written ministerial statement of 27 November 2007, *Official Report*, columns 27-30WS, on mental health and employment, how much his Department has spent on mental health services *(a)* in total and *(b)* as a percentage of departmental expenditure in each year since 1997. [169949]

Mrs. McGuire: Spending on mental health services generally, is a matter for my right hon. Friend the Secretary of State for Health.

This Department provides a range of services that provide help and support to people with mental health problems. These programmes are generally available to those with mental and/or physical health problems. It is not possible to break down programme expenditure by specific health condition.

Departmental ICT

James Brokenshire: To ask the Secretary of State for Work and Pensions how many attempted hacking or suspected cyber attacks or other malicious computer security breaches were committed against the computer systems of *(a)* his Department and *(b)* the Child Support Agency in each of the last three years for which information is available; and if he will make a statement. [167985]

Mrs. McGuire: It is not in the interests of the UK's national security for Departments to confirm whether they hold information about attacks against their IT systems. This would enable individuals to deduce how successful the UK is in detecting these attacks and so assist such persons in testing the effectiveness of the UK's IT defences. This is not in the public interest.

Departmental Labour Turnover

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what the percentage turnover of staff was in *(a)* his Department and *(b)* his Department's agencies in (i) the last 12-month period and (ii) the last 24-month period for which figures are available. [169045]

Mrs. McGuire: The percentage turnover of staff in the Department for Work and Pensions and its agencies for the 12-month period ending March 2006 and the 12-month period ending March 2007 is in the following table.

	Percentage turnover 12-months ending March 2007	*Percentage turnover 12-months ending March 2006*
DWP Overall	6.37	7.11
Jobcentre Plus	6.12	6.69
The Pension Service	7.46	8.68
Child Support Agency	8.79	8.70
Disability and Carers Service	4.62	5.89
The Rent Service	5.87	8.28
Appeals Service	n/a	9.48
Departmental Corporate Units	5.13	6.76

Note:
Appeals Service transferred to the Department for Constitutional Affairs on 1 April 2006.

Departmental Public Expenditure

Danny Alexander: To ask the Secretary of State for Work and Pensions what discussions he has had with the Chancellor of the Exchequer on the possibility of allocating savings made from the annual management expenditure budget to the departmental expenditure limit; and if he will make a statement. [169915]

Mrs. McGuire: My Department and HM Treasury have agreed that as savings in annual managed expenditure delivered by the Pathways to Work programme are demonstrated, HM Treasury will look to provide additional DEL funding to DWP to help fund further roll-out of the welfare reform agenda. Any such funding will be allocated through normal processes.

Employment

Chris Grayling: To ask the Secretary of State for Work and Pensions what estimate he has made of the number and proportion of people who were in part-time work and who were seeking full-time work in each year since 1997. [173892]

Angela Eagle: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 7 January 2008:

As National Statistician, I have been asked to reply to your Parliamentary Question what estimate has been made of the number and proportion of people who were in part-time work and who were seeking full-time work in each year since 1997 [173892].

The information requested is given in the table overleaf.

The figures in the table are estimates from the Labour Force Survey (LFS) for the three month period ending in June of 1997, 1999 and 2001-07. Comparable estimates are not currently available for 1998 or 2000.

As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

Labour Source Survey

Incapacity Benefits: Mental Health

Mr. Harper: To ask the Secretary of State for Work and Pensions how many people were in receipt of *(a)* incapacity benefit and *(b)* other out-of-work benefits as a result of mental health conditions in each year since 1997. [169950]

Mrs. McGuire: The available information is in the following table.

Incapacity benefit and severe disablement allowance claimants whose primary diagnosis is within the mental and behavioural disorders group of diagnoses, in Great Britain: as at May each year

	Number of claimants
1997	732,100
1998	787,500
1999	830,400
2000	869,750
2001	933,070
2002	980,670
2003	1,025,820
2004	1,065,520
2005	1,086,190
2006	1,092,910
2007	1,104,310

Notes:
1. These figures relate to people claiming incapacity benefit and not just people of working age.
2. May 1997 to May 1999 (inclusive) figures are uprated to WPLS totals and rounded to the nearest hundred.
3. May 2000 to May 2007 (inclusive) numbers are rounded to the nearest 10.
4. Incapacity benefit claimants include those receiving national insurance-credits only; some claimants may also receive income support.
5. Causes of incapacity are based on the International Classification of Diseases, 10th Revision, published by the World Health Organisation.

DWP Information Directorate 5 per cent. sample and 100 per cent. Work and Pensions Longitudinal Study

National Insurance: Foreign Workers

Mr. Clappison: To ask the Secretary of State for Work and Pensions (1) how many national insurance numbers were issued to *(a)* dependants of non-EU work permit holders, *(b)* non-EU students, *(c)* non-EU highly skilled migrants, *(d)* non-EU International Graduate Scheme participants, *(e)* non-EU Fresh Talent in Scotland Scheme participants, *(f)* non-EU working holidaymakers and *(g)* non-EU work permit holders since 1 January 2004, broken down by nationality; [162686]

(2) how many national insurance numbers were issued to non-EU citizens with leave to remain in the UK by virtue of *(a)* refugee status, *(b)* humanitarian protection, *(c)* discretionary leave and *(d)* leave under the backlog criteria between (i) 3 April 2002 and 31 December 2003 and (ii) 1 January 2004 to 5 April 2007; [162687]

(3) how many national insurance numbers were issued to *(a)* dependants of non-EU work permit holders, *(b)* non-EU students, *(c)* non-EU highly skilled migrants, *(d)* non-EU Fresh Talent Working in Scotland Scheme participants, *(e)* non-EU working holidaymakers and *(f)* non-EU work permit holders between (i) 3 April 2002 and 31 December 2003 and (ii) 1 January 2004 to 5 April 2007. [162688]

Mr. Plaskitt *[holding answer 12 November 2007]:* The information requested is not available.

Information on a foreign national's basis of stay in the United Kingdom is not held on NINO registrations database.

Pensions: Financial Assistance Scheme

Sandra Osborne: To ask the Secretary of State for Work and Pensions when he plans to report on the Young review on the Financial Assistance Scheme. [168136]

Mr. Mike O'Brien: The Young review was published on 17 December 2007.

Social Security Benefits: Personal Records

Danny Alexander: To ask the Secretary of State for Work and Pensions whether staff authorised to access the entire database for benefits administered by his Department are subject to criminal records checks. [167678]

Mrs. McGuire *[holding answer 26 November 2007]:* All prospective employees, including those who are authorised to access the databases containing benefits information, are required to complete a declaration as to whether they have any criminal records, prior to appointment. The Department carries out a percentage criminal records check of successful applicants.

HEALTH

Abortion

Mr. Amess: To ask the Secretary of State for Health what files are held by his Department on *(a)* the Abortion (Amendment) Bill of Session 1987-88 and *(b)* the Unborn Children (Protection) Bills of sessions (i) 1984-85, (ii) 1985-86 and (iii) 1987-88; and if he will make a statement. [172430]

Dawn Primarolo: There are two registered files held by the Department covering the Abortion (Amendment) Bill of Session 1987-88 and six files held by the Department on the Unborn Children (Protection) Bills of sessions 1984-85, 1985-86 and 1987-88.

Mr. Amess: To ask the Secretary of State for Health what files are held by his Department on the Abortion Act 1967; and if he will make a statement. [169534]

Dawn Primarolo: There are approximately 856 registered files held by the Department on different aspects of abortion policy and on the delivery of the services permitted under the Abortion Act 1967.

Alcoholic Drinks: Abuse

Mr. Jenkins: To ask the Secretary of State for Health what recent discussions he has had with the alcohol industry on new programmes to reduce binge drinking among young *(a)* men and *(b)* women; and if he will make a statement. [173261]

Dawn Primarolo: The Parliamentary Under-Secretary of State for the Home Department (Mr. Coaker) and I met representatives of the alcohol industry on 17 December 2007. We discussed among other matters, the independent review of the industry's social responsibility standards shortly to be commissioned by the Home Office. I updated the industry on the independent review of alcohol pricing, promotion and harm shortly to be commissioned by the Department. We discussed the possibility of voluntary action by the industry to restrict irresponsible alcohol promotions, including those which appeal to young people and agreed to continue discussions early in 2008.

The Government are working with the police, and the alcohol industry to prevent the sale of alcohol to under-18s. This includes the wider use of fixed penalty notices to staff who sell to under-18s, confiscation of alcohol from minors, working with the industry to improve premises management and training for bar staff to ensure that identification is requested and checked from anyone who looks under age. The recent Alcohol Misuse Enforcement Campaigns have shown that a united effort to crack down on binge-drinking, as well as the sale of alcohol to under-18s, can make a real impact. The industry expressed support for these actions.

Alcoholic Drinks: Misuse

Norman Lamb: To ask the Secretary of State for Health how many *(a)* adults and *(b)* children were admitted to accident and emergency departments in England as a result of drinking alcohol in the last (i) 12 months and (ii) five years, broken down by strategic health authority. [171689]

Dawn Primarolo: The information requested is not available in the format requested. Such information as is available has been placed in the Library.

Ambulance Services: Crimes of Violence

James Brokenshire: To ask the Secretary of State for Health how many assaults on ambulance staff have been committed in each of the last three years, broken down by ambulance trust. [173230]

Ann Keen: In April 2003 the National Health Service Security Management Service (NHS SMS) was created and assumed responsibility for tackling violence against NHS staff. The NHS SMS has collected data on the number of reported physical assaults on NHS ambulance staff in England in 2004-05, 2005-06 and 2006-07.

The number of physical assaults reported in the period 2004-05 to 2006-07, broken down by ambulance trust, is shown in the following tables:

Reported physical assaults on ambulance staff in England in 2004-05 and 2005-06

	2004-05	2005-06
Avon Ambulance Service NHS Trust	40	32
Bedfordshire and Hertfordshire Ambulance and Paramedic Service NHS Trust	23	23
Coventry and Warwickshire Ambulance NHS Trust	17	31

North West Ambulance Service NHS Trust	166
South Central Ambulance Service NHS Trust	38
South East Coast Ambulance Service NHS Trust	81

Reported physical assaults on ambulance staff in England in 2006-07

	2006-07
South Western Ambulance Service NHS Trust	47
Staffordshire Ambulance Service NHS Trust	11
West Midlands Ambulance Service NHS Trust	99
Yorkshire Ambulance Service NHS Trust	43
Totals	1,006

Note:
In 2006-07 reconfiguration reduced the number of ambulance trusts from 30 to 12.

Arthritis: Medical Treatments

Mr. Stephen O'Brien: To ask the Secretary of State for Health when he plans to publish the assessment of the availability of access to *(a)* anti-TNF medicines and *(b)* other biologic therapies for patients with rheumatoid arthritis; whether any overall assessment has been made of (i) access to and (ii) efficiency of rheumatoid arthritis medicines and therapies; and if he will make a statement. [175351]

Ann Keen: The Department has made no assessment of the availability of anti-TNF medicines, and other biologic therapies, for patients with rheumatoid arthritis. All primary care trusts in England and Wales are obliged to fund, from general allocations, anti-TNF therapy for those patients with rheumatoid arthritis who meet the clinical guidelines issued by the National Institute for Health and Clinical Excellence.

We are not aware of any overall assessment of access to, and the efficiency of, medicines and therapies for rheumatoid arthritis.

Assura Group

Ben Chapman: To ask the Secretary of State for Health if he will take steps to ensure that his Department collects and publishes information on *(a)* activities of the Assura Group throughout the NHS and *(b)* the expenditure of the Assura Group via polyclinics. [177160]

Mr. Bradshaw: This is not a matter for the Department. It is for primary care trusts to collect information, including details of locally negotiated contracts, on those providers delivering services on its behalf.

Baby Care Units: West Midlands

Ms Gisela Stuart: To ask the Secretary of State for Health how many neo-natal unit nurses there are in hospitals in the West Midlands. [175440]

Dawn Primarolo: Information relating to the numbers of neo-natal unit nurses requested is not held centrally by the Department.

It is for primary care trusts (PCTs) and strategic health authorities to analyse their local workforce needs and develop plans, in liaison with providers and service users, to deliver high quality, safe services and take action to secure the appropriate staff and skills to deliver these services.

The 2008-09 operating framework has reinforced neonatal services as a top national health service priority. In 2008-009, PCTs should aim to ensure that sufficient numbers of maternity staff and neonatal teams are in place to meet local needs.

The Department has sponsored research by the NHS National Workforce Projects, Royal College of Obstetricians and Gynaecologists and the Royal College of Paediatrics and Child Health to review the workforce in maternity, paediatric and neonatal services and to promote sustainable service models. This includes looking at the challenge of fully implementing the European Working Time Directive for doctors in training from August 2009. Findings will be published in 2008.

Blood Contamination

Mr. Robathan: To ask the Secretary of State for Health how many cases of *(a)* malaria and *(b)* other diseases apart from HIV and CJD were caused by blood transfusion in England between (i) 1980 and 1990 and (ii) 2000 and 2005. [174144]

Dawn Primarolo: There have been five cases of malaria transmission in England since the mid-1980s: in 1986 (two cases), 1994, 1997, and 2003. The National Blood Service (NBS) does not hold data on transmission of other infections prior to 1995.

For the years 2000 to 2005, the annual summaries of the NBS/Health Protection Agency Infection Surveillance Scheme record the following infections (excluding malaria) transmitted by blood transfusion for the United Kingdom (excluding Scotland):

Hepatitis A: two incidents (two infected recipients);

Hepatitis B: four incidents (four infected recipients);

Hepatitis E: one incident (one infected recipient); and

Bacteria: 16 incidents (16 infected recipients) including:

one incident of Bacillus cereus, one incident of Coagulase negative Staphylococci,

one incident of Enterobacter aerogenes, two incidents of Group B Streptococcus,

one incident of Morganella morganii, two incidents of Staphylococcus aureus and

eight incidents of Staphylococcus epidermidis.

Bone Diseases: Medical Treatments

John Mann: To ask the Secretary of State for Health if he will ensure that the issuing of final guidance by the National Institute for Health and Clinical Excellence (NICE) on the two anti-TNF treatments for ankylosing spondylitis is not affected by appeals relating to the anti-TNF treatment rejected by NICE. [175155]

Ann Keen: The National Institute for Health and Clinical Excellence (NICE) has received two appeals against its final appraisal determination on adalimumab, etanercept and infliximab for the treatment of ankylosing spondylitis. Final guidance will not be published until the appeals have been heard.

Funding for licensed treatments should not be withheld because guidance from NICE is unavailable. In December 2006, we issued refreshed good practice guidance which asks national health service bodies to

continue with local arrangements for the managed introduction of new technologies where guidance from NICE is not available at the time the treatment or technology first becomes available.

Bournemouth and Christchurch Hospitals NHS Foundation Trust: Finance

Mr. Ellwood: To ask the Secretary of State for Health what assessment he has made of the potential impact on the Bournemouth and Christchurch Hospitals NHS Foundation Trust of the removal of the specialist top-up funds paid to district general hospitals. [176646]

Mr. Bradshaw *[holding answer 7 January 2008]:* We have carried out an assessment of the potential financial impact for Royal Bournemouth and Christchurch NHS Foundation Trust. Based on the latest data available to the Department, we expect that their income for specialist activity in 2008-09 will be broadly similar to that in 2007-08.

Campylobacter

Dr. Gibson: To ask the Secretary of State for Health how many campylobacter infections were recorded in England in each of the last five years. [162911]

Dawn Primarolo: The following laboratory reports of Campylobacter infections were received in each of the last five years in England:

Year	*Total*
2000	54,698
[illegible]01	51,850
[illegible]02	45,513
2003	43,954
2004	41,853
2005	44,222
2006	43,795
Total	325,885

Cancer Patients: Administrative Delays

Tom Brake: To ask the Secretary of State for Health what targets there are for waiting times for cancer patients requiring diagnostic endoscopies; and what the average waiting time is for cancer patients awaiting diagnostic endoscopies in each hospital in the most recent period for which information is available. [174139]

Ann Keen: Patients referred with suspected cancer should wait no longer than two weeks to see a cancer specialist and no longer than 62 days, including all diagnostic tests, to commencing treatment.

A table showing the average waiting time for all patients waiting for endoscopies, has been placed in the Library. Data for cancer patients waiting for endoscopies is not collected centrally.

Cancer: Health Services

Mr. Lansley: To ask the Secretary of State for Health what the funding contribution of his Department as part of the consortium funding the infrastructure support for the five Public Health Research Centres of Excellence was as described in paragraph 2.59 of his Department's Cancer Reform Strategy; and what the other *(a)* organisations and *(b)* individuals contributing funds to the consortium were. [174886]

Dawn Primarolo: The United Kingdom Clinical Research Collaboration Public Health Research Centres of Excellence are funded by eight organisations that are together contributing a total of £21.15 million over a five-year period. The organisations concerned, and their individual financial contributions are:

	£ million
British Heart Foundation	2.5
Cancer Research UK	2.5
Department of Health	5
Economic and Social Research Council	2.5
Medical Research Council	3
Northern Ireland HSC	0.15
Wellcome Trust	5
Welsh Office of Research and Development	0.5

Mr. Lansley: To ask the Secretary of State for Health if he will place in the Library a copy of the commissioning brief issued by the National Institute for Health Research Health Technology Assessment programme, referred to in paragraph 3.36 of his Department's Cancer Reform Strategy. [175133]

Dawn Primarolo: Copies of the commissioning brief have been placed in the Library.

Cancer: Screening

Mr. Lansley: To ask the Secretary of State for Health what new equipment for genetic testing is coming on stream, as described in paragraph 2.41 of his Department's Cancer Reform Strategy, published on 3 December 2007; and how many tests for cancer genes have been carried out in each of the last four years. [174887]

Dawn Primarolo: The new equipment referred to in paragraph 2.54 of the Cancer Reform Strategy was funded through an investment of £18 million under the 2003 Genetics White Paper "Our Inheritance, our Future—realising the potential of genetics in the National Health Service". The funding has modernised and expanded genetics laboratory capacity through investment in automated and high volume technology. This includes automated DNA extraction systems, high throughput DNA sequencers and microarray readers. This increased funding has also allowed many of the processes in the laboratory such as, the amplification of DNA and liquid handling to be automated with the purchase of robotics. In addition, the improvements in both information technology hardware and software has lead to significant improvements in the time taken to analyse the data generated.

The Department does not collect data centrally on the numbers of genetic tests carried out for the purpose of identifying, or predicting the risk of developing, inherited forms of cancer.

Mr. Lansley: To ask the Secretary of State for Health where the seven pilot sites were established to develop new services for assessing genetic risk, as described in paragraph 2.50 of his Department's Cancer Reform Strategy; and when he expects the evaluation of the pilot sites being undertaken by the University of Nottingham to be published. [174888]

Dawn Primarolo: The Department co-funded the seven pilot sites in collaboration with Macmillan Cancer Support. The sites were:

South West London Cancer Network and joint cancer centres;

Yorkshire Regional Genetics Service, North Kirklees PCT and Bradford Hospitals NHS Trust;

Cancer Care Alliance (South Durham, Teesside and North Yorkshire);

South East London Cancer Network, Lambeth and Southwark PCT, specialist cancer services at Guy's and St. Thomas' Hospital and Guy's Regional Genetics Centre;

Poole PCT;

Somerset Coast PCT; and

Oldham PCT

The University of Nottingham is undertaking an evaluation of the organisational issues associated with the introduction of new types of service into the national health service, such as these cancer genetics services and other service development pilots funded under the 2003 Genetics White Paper. Its report is due in autumn 2008.

The individual cancer genetics service pilot sites are evaluating the effectiveness of their services and this evidence will contribute to the development of the guidance for commissioners referred to in the Cancer Reform Strategy (paragraph 2.53).

Cannabis: Misuse

Mr. Lansley: To ask the Secretary of State for Health how many finished consultant episodes resulting from the misuse of cannabis there were for *(a)* patients aged under 18 years and *(b)* patients aged over 18 years in (i) England and (ii) each strategic health authority area in each year from 1997-98 to 2006-07. [175143]

Dawn Primarolo: Information as requested is not collected.

Data on the National Drug Treatment Monitoring System (NDTMS) is only available from April 2004, with national data on under-18s available from April 2005.

The NDTMS does not monitor activity through 'finished consultant episodes'—the data relates to structured treatment activity for all those providing treatment for drug misuse and records those who attend specialist drug treatment services only.

The following data shows the number of individuals who received drug treatment for cannabis, and is broken down by SHA. There are separate figures for adults (over 18) and young people (under 18) in 2005-06 and 2006-07, and figures for over 18s only for 2004-05.

2006-07 data

England total

Total over 18s receiving treatment of cannabis was 16,685

Total under 18s receiving treatment of cannabis was 9,259

Data by strategic health authority (SHA)	*18 and over 18*	*Under 18*	*Total*

Carers UK: Finance

Tim Farron: To ask the Secretary of State for Health what funding his Department will provide to Carers UK in 2007-08. [177163]

Mr. Ivan Lewis: In 2007-08, Carers UK received core funding of £125,000 from the Department under section 64 of the Health Services and Public Health Act 1968. This is the second year of three year grant funding.

In addition, Carers UK received an additional £200,000 as one off grant funding to help build their capacity and enable them to respond to National Carers Strategy. In particular, the grant was awarded to allow them to engage with carers throughout the United Kingdom and ensure that their voice was heard in the process of developing the strategy.

Childbirth

Anne Milton: To ask the Secretary of State for Health what assessment he has made of the effect of the quality of the childbirth experience on *(a)* the incidence of intervention during labour, *(b)* the quality of the bond between parents and baby, *(c)* the success and duration of breast-feeding and *(d)* the incidence of post-natal depression; and if he will make a statement. [165444]

Dawn Primarolo: No such formal assessments have been made.

However, the Healthcare Commission published a report on 27 November of their survey of women's experiences of maternity care in England. The survey found that 89 per cent. of women rated the overall care received during labour and birth as 'excellent', 'very good' or 'good'.

All our policies are developed with the help and support of stakeholders and therefore clinical and user opinion is taken into account.

Chiropody: Waiting Lists

Anne Milton: To ask the Secretary of State for Health what the maximum waiting time target is for NHS chiropody services; and if he will make a statement. [174046]

Ann Keen: Chiropody treatment is included in the 18-week maximum waiting time target if a consultant-led service decides that chiropody is the best treatment to manage the patient's disease, condition or injury and avoid further interventions.

Detailed rules and definitions for the 18-week target are available at www.18weeks.nhs.uk

Other access to chiropody services is a matter for primary care trusts based on the assessed needs of their local population. Guidance is included in the national service frameworks for older people, diabetes, and long-term conditions, and the White Paper "Our health, our care, our say: a new direction for community services".

Chlamydia Infection

Mike Penning: To ask the Secretary of State for Health how many diagnoses of sexually transmitted Chlamydia infection there were in England in each year since 1997, broken down by *(a)* age, *(b)* strategic health authority area and *(c)* sex; and how many diagnoses were in (i) genito-urinary medicine clinics, (ii) other outpatient settings, (iii) inpatient settings and (iv) other healthcare settings in each year. [174053]

Dawn Primarolo: Currently data are only collected nationally on Chlamydia diagnoses in genito-urinary clinics (GUM) and in the National Chlamydia Screening Programme.

Information on the diagnoses of Chlamydia in GUM clinics by strategic health authority (SHA) level by age band and sex in each year since 1997 has been placed in the Library.

The total number of people who have been diagnosed with Chlamydia within the National Chlamydia Screening Programme by SHA since 2003-04 when the programme was launched, has been placed in the Library.

Chlamydia Infection: Screening

Mike Penning: To ask the Secretary of State for Health with reference to the answer of 17 October 2007, *Official Report*, columns 1163-64W, on Chlamydia infection: screening, what proportion of 16 to 24 year olds screened for Chlamydia tested positive. [174052]

Dawn Primarolo: The information requested has been placed in the Library.

Clinical Trials

Mr. Lansley: To ask the Secretary of State for Health what recent representations he has received from *(a)* the NHS, *(b)* manufacturers of pharmaceuticals and *(c)* other interested parties on the suitability of the regulatory system in the UK for conducting Phase III clinical trials; what the content of those representations was; and if he will make a statement. [175089]

Ann Keen: No specific representations have been received from any stakeholders regarding the suitability of the regulatory system in the United Kingdom for the conduct of phase III clinical trials. However, a wide range of stakeholder views were gathered at the October conference on the operation of the Clinical Trial Directive 2001/20/EEC, arranged by the European Medicines Agency on behalf of the European Commission. An action plan is being developed and will be subject to public consultation in due course

Doctors: Housing

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 29 November 2007, *Official Report*, column 714W, on doctors: housing; whether he plans to issue new guidance on accommodation for doctors not covered by existing contractual provisions. [172012]

Ann Keen: We have no plans to issue new guidance because all doctors are covered by existing contractual arrangements.

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 29 November 2007, *Official Report*, column 714W, on doctors: housing, whether *(a)* current Foundation Year 1 doctors, *(b)* Foundation Year 1 doctors for the year 2007-08 and *(c)* Foundation Year 1 doctors for the year 2008-09 will be covered by (i) existing contractual provisions and (ii) the guidance within the terms and conditions for employment for junior doctors on the application of charges for accommodation provided through hospital channels. [172627]

Ann Keen: Junior doctors are no longer statutorily required to be permanently resident for the better performance of their duties. Their terms and conditions for employment have remained the same. With regards to the contractual provisions this is a matter between the junior doctor and their employer.

Employment, Social Policy, Health and Consumer Affairs Council

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the Employment, Social Policy, Health and Consumer Affairs Council meeting, what assessment he has made of the effect the establishment of an EU-wide organ donation policy will have on regulation in the UK organ donation sector; what effect an EU-wide organ donation policy will have on *(a)* numbers and *(b)* types of organs, (i) entering and (ii) leaving the UK; and what steps he is taking to ensure the best outcomes for the UK from an EU-wide organ donation policy. [174519]

Ann Keen: No specific assessment has yet been made in the United Kingdom of the European Union Commission communication on organ donation and transplantation published in May 2007, to increase the number of high quality and safe organs available for transplantation. The ongoing House of Lords EU Sub-Committee G Inquiry will help inform this. In the meantime we continue to work with other member states to examine the need for an EU framework on quality and safety and how we can best work across the European Union to share good practice. We need to ensure that any additional requirements would add value but not significant cost to enable appropriate investment in initiatives to enable the greater identification and procurement of donor organs.

EU Law

Mr. Stephen O'Brien: To ask the Secretary of State for Health in which of his Department's areas of responsibility there is *(a)* an EU competence and *(b)* a shared competence between the EU and member states; which Ministers take responsibility for those areas; and what meetings those Ministers have had with (i) European Union officials, (ii) Ministers from other EU member states and (iii) European Commissioners to discuss those issues in the last 12 months. [172298]

Dawn Primarolo: I am responsible for departmental activities in relation to the European Union (EU). Prior to July 2007, these responsibilities were held by the Minister of State for Health Services (Rosie Winterton). The EU has competence under Article 152 of the EC treaty in relation to public health, although its powers in this area are expressly limited. Other treaty articles, such as the free movement provisions, which apply to medical goods, e.g. pharmaceuticals, professionals and services, and provisions on health and safety, also apply in the Department's areas of responsibility. In the past 12 months, Ministers have met on a number of occasions with European Commission officials, European Commissioners and Health Ministers from other EU member states to discuss EU health issues.

Exercise: Elderly

Kate Hoey: To ask the Secretary of State for Health what discussions he has had with his Ministerial colleagues on the promotion of physical activity to older people; and whether his Department is taking the lead on promotion of physical activity to older people. [175442]

Dawn Primarolo: The Department has an important role in promoting the benefits of physical activity for all as set out in the Chief Medical Officers report "At least five a week: Evidence on the impact of physical activity and its relationship to health". We have worked closely with other Departments, including the Department for Culture, Media and Sport, the Department for Children, Families and Schools and the Department for Transport to deliver the existing strategy for physical activity set out in "Choosing Activity: a physical activity action plan".

The Local Exercise Action Pilots, which took place across the English regions between 2003 and 2005, demonstrated that community-based interventions can be effective in promoting physical activity in older people. More recently, the Hull Swim for Health and three of the Everyday Swim pilots are evaluating the promotion of swimming when targeted towards older age groups.

We have also made £60 million ring-fenced funding (£20 million in 2006-07 and £40 million in 2007-08) available to approximately 30 council-led partnerships across the country as part of Partnerships for Older People Projects to evaluate innovative approaches to help older people to live healthy, independent and fulfilling lives for as long as possible.

HM Treasury has asked my right hon. Friend the Secretary of State for Culture, Media and Sport to develop a new strategy for Sport England. Ministers have also agreed to work closely over the next few months to ensure that all relevant Departments are working together to deliver a physical activity strategy for all. Any changes in responsibilities for policy on physical activity, including the promotion of physical activity to older people, would emerge from this work.

Foetal Tissue: Research

Mr. Amess: To ask the Secretary of State for Health if he will bring forward proposals for legislation to require individuals applying for a licence to undertake embryonic stem cell research to demonstrate that no alternatives exist; what recent representations he has received on the issue; and if he will make a statement. [174048]

Dawn Primarolo: The Human Fertilisation and Embryology Act 1990 provides that the Human Fertilisation and Embryology Authority (HFEA) may only license embryo research where the use of embryos is necessary for the purpose of that project of research.

In making this assessment, the HFEA takes account of the scope for the research to be undertaken by other means, including by way of stem cells derived from somatic (adult) cells or umbilical cords. The HFEA also refers embryo research applications for peer review, which considers if there are feasible alternatives to the use of embryos.

Genetic Counsellors

Mark Simmonds: To ask the Secretary of State for Health how many specialist genetic counsellors there were in each primary care trust in each of the last three years. [175159]

Ann Keen: Genetic counsellors are not identified as a separate professional grouping in the Department's work force data and so we do not have information on the number of genetic counsellors in primary care trusts. The majority of genetic counsellors work within regional genetic services which are based in tertiary centres.

The Department is funding an additional 50 trainee genetic counsellor posts through the genetics White Paper "Our Inheritance, Our Future: realising the potential of genetics in the NHS" (June 2003).

Genito-Urinary Medicine

Mike Penning: To ask the Secretary of State for Health what percentage of attenders at genito-urinary medicine clinics was recorded as not having been given an appointment within two weeks in each audit of genito-urinary medicine clinic waiting times undertaken by the Health Protection Agency since May 2004. [174054]

Dawn Primarolo: The genito-urinary clinic (GUM) waiting times audit collected data on waiting times for all GUM clinics in England for a period of one week every quarter. It ran from May 2004 to August 2007. All patients attending a GUM clinic with a new episode or registering for the first time were asked to complete the short questionnaire on waiting times. Data are presented on the proportion of attendees recorded as not having been offered an appointment within two weeks of each audit since May 2004.

Data on waiting times are now collected for all attendances of clinics through the Genito-urinary Medicine Access Monthly Monitoring (GUMAMM) data set. According to the equivalent data for October 2007 there were 4,470 attendees not offered an appointment within two weeks of contacting a clinic, 117,744 first attendances and 3.8 per cent. of attendees not offered an appointment within two weeks of contacting a clinic.

Number and proportion of attendees recorded as not having been given an appointment within two weeks of contacting the GUM clinic: results from one-week quarterly waiting times audit of GUM clinics in England

Date of one-week audit	*Number of attendees not offered an appointment within two weeks of contacting clinic*	*Number of attendees*	*Percentage of attendees not offered an appointment within two weeks of contacting clinic*

Haemophilus Influenzae

Harry Cohen: To ask the Secretary of State for Health whether the UK is affected by the decision by Merck to recall doses of haemophilus influenza type b (Hib) vaccine. [177039]

Dawn Primarolo: No. The recall of haemophilus influenzae type b vaccine produced by Merck does not affect the United Kingdom because the product recalled is not used in our UK national immunisation programme.

Health Education

Mr. Lansley: To ask the Secretary of State for Health what the evidential basis is for the statement in paragraph 3.52 of his Department's Cancer Reform Strategy that adopting a health-related social marketing campaign is *(a)* improving people's health and *(b)* reducing inequalities. [175131]

Dawn Primarolo: The Department commissioned a review—"It's our health!"—of social marketing and its potential application in the health arena.

The review was undertaken jointly by the National Consumer Council and the National Social Marketing Centre and reported in June 2006.

The review found examples of initiatives whose impact was enhanced by the systematic application of social marketing core concepts and techniques. Social marketing also helped to achieve behavioural goals and directly supported service development and reduced health inequalities.

An example used was:

Food Dudes (Bangor Food Research Unit at the School of Psychology, University of Wales Bangor, 1992 to present).

The initiative was to promote healthy eating in children.

The initiative greatly increased and sustained the quantity and range of fruit and vegetables consumed by children, especially those who ate least at the outset. Two projects found:

Children in a school in Brixton more than doubled their lunchtime consumption of fruit; and

Children in a school in Salford tripled their lunchtime consumption of vegetables.

Health Services: EU Law

Jon Trickett: To ask the Secretary of State for Health what progress has been made in negotiations on the proposed EU Directive on Cross-Border Health Care; and if he will make a statement. [175240]

Dawn Primarolo: The proposals from the European Commission regarding the provision of cross-border health services, which are expected to codify existing case law from the European Court of Justice, have not yet been published. The proposals will be subject to scrutiny by the House of Lords European Union Select Committee and the House of Commons European Scrutiny Committee. In future discussions on the proposal, the Government will work to protect the United Kingdom's interests.

Health Services: Infectious Diseases

Mr. Stephen O'Brien: To ask the Secretary of State for Health what evidence was taken into account in making the decision to implement leucodepletion in 1999 to prevent the risk of contracting vCJD through blood transfusions; and whether additional evidence will be required to inform decisions on implementing prion filtration. [174481]

Dawn Primarolo: Expert advice at the time suggested that prion infectivity could be associated with the white cells (leucocytes) in the blood. It was therefore considered prudent to minimise any risk by removing the majority of these cells (without detriment to the transfusion). Although introduced primarily as one way of reducing any risk of variant Creutzfeldt-Jakob disease transmission, leucodepletion has a number of other benefits. For example, there is evidence that it reduces some of the risks of adverse reaction to transfusion.

In respect of prion filtration, I refer the hon. Member to the answer given on 14 June 2007, *Official Report*, column 1298W, to the hon. Member for Kettering (Mr. Hollobone).

Health: Migration

Mr. Stephen O'Brien: To ask the Secretary of State for Health what assessment he has made of the effect on health inequalities of *(a)* migration and *(b)* poverty. [174314]

Dawn Primarolo: The impact of immigration on health is more directly reflected in the health status and the underpinning determinants of health of specific ethnic minority groups, than of immigration. In general, we know there is a strong link between ethnicity, deprivation and poor health, but it is also important to recognise that there is considerable diversity between different ethnic groups. No specific studies have been recently commissioned by the Department of the general impact of internal migration.

The impact of poverty including relative income, child poverty and fuel poverty on health status and so on health inequalities has long been recognised. Sir Donald Acheson's 'Inquiry into Inequalities in Health', which was commissioned by the Government, highlighted issues surrounding poverty and income, education, employment and environment. This approach reflected the scientific evidence that emphasised the interrelated nature of the causes of these inequalities. The Government's strategy 'Tackling Health Inequalities: A Programme for Action', set out the Government's response to these issues, including poverty.

Healthy Start Vouchers

Harry Cohen: To ask the Secretary of State for Health how many and what proportion of those eligible have taken up Healthy Start vouchers in *(a)* the Leyton and Wanstead constituency, *(b)* Redbridge, *(c)* Waltham Forest, *(d)* London and *(e)* England. [177075]

Dawn Primarolo: The number of women and children eligible for Healthy Start at any given point in time varies. However, we estimate that take-up of the scheme in England is currently approximately 87 per cent. This is equivalent to around 342,000 beneficiary households.

Information on take-up at local level is not yet available, but we are planning to extract information from the Healthy Start database at strategic health authority or primary care trust level later in 2008. This will enable us to provide feedback to the national health service on the impact of Healthy Start at local level to support local delivery of public health policies.

Hospitals: Infectious Diseases

Mr. Hands: To ask the Secretary of State for Health how many cases of catheter-related bloodstream infections occurred in the NHS in each of the past five years, broken down by strategic health authority area. [174638]

Dawn Primarolo: The Department does not collect data on catheter-related bloodstream infections centrally.

Human Embryo Experiments

Mr. Amess: To ask the Secretary of State for Health what files are held by his Department on the Human Fertilisation and Embryology Bill of Session 1989-90. [169605]

Dawn Primarolo: The Department holds approximately 30 file titles concerning the Human Fertilisation and Embryology Bill 1990.

Human Papilloma Virus: Vaccination

Tom Brake: To ask the Secretary of State for Health what recent assessment he has made of the effectiveness of the human papilloma virus *(a)* vaccination and *(b)* screening programme; and if he will make a statement. [174143]

Dawn Primarolo: Human Papilloma Virus (HPV) vaccines have been shown to be extremely effective in protecting women against the HPV strains that cause 70 per cent. of cervical cancers. The vaccine needs to be given before girls become exposed to the virus in order to provide protection.

The National Health Service Cervical Screening Programme is likely to continue for many years after the introduction of the HPV vaccine. This is because the vaccines only offer protection against 70 per cent. of cancer-causing HPV types, and it will be 13 years before the first 12-year-olds vaccinated will be eligible for cervical screening. Screening will also still need to be offered to women up to the age of 64 who will not have been vaccinated.

As part of the Liquid Based Cytology (LBC) pilot, which evaluated the use of the LBC technique in cervical screening, HPV testing as triage for women with mild or borderline test results was also piloted.

Following receipt of the positive independent evaluation of the HPV arm of the pilot, the Advisory Committee on Cervical Screening set up a dedicated working group to advise on how best to introduce HPV testing into the cervical screening programme.

As a result of this, a number of sentinel sites began triaging women with mild and borderline screening results in late 2007. Results from these sites will be known by 2009, at which point further roll-out can be considered.

In Vitro Fertilisation

Norman Lamb: To ask the Secretary of State for Health how many embryos from in vitro fertilisation programmes have been *(a)* donated to and *(b)* created for scientific research in each year since 1999. [177200]

Dawn Primarolo: The Human Fertilisation and Embryology Authority (HFEA) has informed me that its register indicates that only two embryos have been created specifically for research purposes and this occurred in 2001.

Virtually all the embryos used in research have been donated by patients who no longer wished to use them in their own treatment. The number of embryos donated for research purposes each year since 1999 is shown in the following table.

Embryos donated for research purposes since 1999

	Number of embryos donated for research
1999	5087
2000	5302
2001	4190
2002	4527
2003	3737
2004	3649
2005	4456
2006	3244

Source:
A long-term analysis of the HFEA register data 1991-2006, HFEA June 2007

Industrial Diseases

John Mann: To ask the Secretary of State for Health how many specialist consultants in the NHS there are who treat patients with *(a)* chronic bronchitis and *(b)* chronic obstructive pulmonary disease. [174678]

Ann Keen: The number of specialist consultants in the national health service who treat patients with chronic bronchitis and chronic obstructive pulmonary disease is not collated. However, such information is shown in the following table.

Hospital and community health services: medical staff within the cardiology and respiratory medicine specialties, England at 30 September 2006

		Number, headcount
	All staff	*Of which: consultant*
All specialties	93,320	32,874
Of which:		
Cardiology	2,056	752
Cardiothoracic surgery	717	240
Respiratory medicine	1,451	583

Source:
The Information Centre for health and social care Medical and Dental Workforce Census.

Influenza

Mr. Lansley: To ask the Secretary of State for Health (1) whether he has identified triggers at which point the use of antivirals in the event of an influenza pandemic becomes so great that the introduction of clinical prioritisation will be necessary; [174695]

(2) whether the Government intend to consult on proposals for the clinical prioritisation of antivirals in the event of the stockpile of antivirals becoming depleted, as stated on page 38 of his Department's National Framework for responding to an influenza pandemic. [175093]

Dawn Primarolo: The current antiviral stockpile should be sufficient to treat all who fall ill in a pandemic of similar proportions to previous ones in the 20th century but we recognise that prioritisation may need to be triggered if the clinical attack rate is higher than anticipated and/or antivirals are in greater demand than anticipated.

There is less likelihood of the need for prioritisation of antivirals as the stockpile is increased to reflect the potential for a higher clinical attack rate.

The Government have already consulted on the ethical principles underlying issues such as prioritisation, but their implications will need to be reviewed and updated in the light of emerging scientific and other information at the time of a pandemic. Further testing of the public's reactions to many issues in pandemic planning and decision-making will start with an engagement programme to facilitate this process, with the active participation of the public, beginning in the new year.

Mr. Lansley: To ask the Secretary of State for Health what means he has established to allow for the *(a)* assessment of the clinical attack rate of the first wave of a pandemic, *(b)* monitoring of the pandemic virus for genetic mutations which may affect the degree of protection and *(c)* monitoring of the pandemic virus for antiviral susceptibility, in between waves of a pandemic, as recommended on page 71 of his Department's National Framework for responding to an influenza pandemic, published on 22 November; and if he will make a statement. [174696]

Dawn Primarolo: For all three surveillance elements mentioned, international information exchange, led by the World Health Organisation (WHO), will play an important role. The United Kingdom is actively engaged in international surveillance work and planning via both the WHO and the European Centre for Disease Prevention and Control.

It is envisaged that some information allowing estimation of the possible UK clinical attack rate of the first wave of a pandemic will be obtained via the WHO from the country of origin of the pandemic. Once it is in the UK; it is planned that more detailed data on the first few hundred UK cases will be obtained via the pandemic influenza management system that is currently being developed. It is an extension of the Health Protection Agency's avian influenza database. This will allow more accurate estimates of the UK clinical attack rate. Analysis of calls to the Flu Line, combined with real time modelling, will continuously improve the accuracy of the estimate of the clinical attack rate as the pandemic progresses. Adaptation of existing surveillance systems and development of new systems is under consideration to further improve upon the clinical impact data available in the course of a pandemic.

Genetic analyses of the pandemic virus will be performed by the National Respiratory Virus Reference Unit in Colindale, which includes the WHO National Influenza laboratory. Analyses will be performed throughout the pandemic. The sampling schedule will change in the course of the pandemic. International information exchange, led by the WHO, will also provide valuable genetic monitoring information in the global course of the pandemic.

The UK is an active participant in the Neuraminidase Inhibitor Susceptibility Network which monitors susceptibility of neuraminidase inhibitors to influenza viruses found in the community. Influenza neuraminidase inhibitor antiviral susceptibility testing in the UK is provided at the National Influenza Centre in Colindale. Surveillance systems currently under consideration for use during a pandemic, are also being evaluated as to their potential to provide data on the proportion of antiviral treatment failures, both to inform on the potential development of a resistant virus and to improve on treatment regimes.

Sandra Gidley: To ask the Secretary of State for Health (1) what stockpiles of medicines have been available in each of the last three years for use in an influenza epidemic; [174724]

(2) when he intends to place orders for additional *(a)* antivirals and *(b)* antibiotics; and when he expects to have procured the intended numbers of each; [174748]

(3) for what reasons the Government plan to stockpile 14.7 million treatment courses of antibiotics; [174760]

(4) what role he proposes for NHS walk-in centres in the event of an influenza pandemic; [175025]

(5) which *(a)* organisation and *(b)* individuals his Department is consulting to (i) develop a suitable algorithm and (ii) produce model protocols/guidelines to allow the supply of oseltamivir during an influenza pandemic, as stated on page 102 of his Department's National Framework for responding to an influenza pandemic; when he intends the (A) algorithm and (B) model protocols/guidelines to have been finalised; and if he will make a statement; [175026]

(6) whether he intends the National Flu Line service, as described in his Department's National Framework for responding to an influenza pandemic, to be delivered through NHS Direct. [175027]

Dawn Primarolo: Antivirals are a key part of the Government response to an influenza pandemic, as stated in the National framework for responding to an influenza pandemic. We have stockpiled 14.6 million doses of Tamiflu, sufficient to treat 25 per cent. of the United Kingdom population. Owing to the logistical issues involved in building up such a large stockpile, supplies were delivered over a period between August 2005 and September 2006.

We plan to increase our stockpile of antivirals and antibiotics, but a precise timeline can not be given. This is because the procurement of the additional

countermeasures will be subject to normal commercial procurement procedures to ensure that we purchase these products at the best price and achieve value for money.

The Government are increasing their stock of antibiotics to treat the complications arising from an influenza pandemic. It will enable us to provide antibiotics for vulnerable symptomatic flu patients before secondary complications develop.

NHS Direct has been asked to lead on the development of the National Flu Line Service. The project team is working towards the delivery of the initial phase of the system by towards the end of 2008.

During a pandemic, national health service walk-in centres will be critical in continuing to provide fast access to health advice and treatment. They will continue to work alongside existing services in providing access to health advice, information and treatment of minor illnesses. Symptomatic patients will be encouraged to remain at home to limit spread of the influenza virus, and to contact the National Flu Line service as a first port of call.

The national clinical algorithm that will be used in the Flu Line Service to assess patients and determine their eligibility to antiviral treatment during a pandemic has been developed with the involvement of a wide range of stakeholders. These include expert clinicians and professionals from across the UK, representatives of specific health and social care services including the ambulance service, and representatives from the appropriate royal colleges. The algorithm is in the final stages of development and will be published shortly.

The protocol and guidelines that will allow the issuing of antiviral medicines have also been developed with input from a wide range of professionals, and are currently subject to public consultation as described in the 'Possible amendments to medicines and associated legislation during an influenza pandemic' consultation document. The protocol and guidelines will be finalised after the consultation period ends on 22 February 2008.

Mr. Lansley: To ask the Secretary of State for Health pursuant to the statement of 22 November 2006, *Official Report*, column 1350, on pandemic influenza, for what reasons the stockpiles of *(a)* antibiotics, *(b)* pre-pandemic vaccines and *(c)* antivirals announced in his statement differ to the sizes of stockpiles recommended by his Department's Pandemic Influenza Scientific Advisory Group in its subgroup on modelling: modelling summary published in November 2007. [174761]

Dawn Primarolo: The Scientific Advisory Group modelling sub-group summary does not recommend any specific stockpile levels. It summarises the outcomes of calculated simulations of several different situations taking a variety of counter-measures options, clinical attack rates and case fatality rates as scenarios.

The scenarios discussed in the modelling summary paper include stockpiles of antibiotics of 0.4 per cent. and 14 per cent., pre-pandemic vaccines of 2 per cent., 40 per cent. and 100 per cent., and antivirals of 25 per cent., 75 per cent. and 100 per cent. population coverage. The outcomes of simulations of these scenarios are taken into account, as well as a variety of important but non-scientific considerations, when deciding on the stockpile levels to be purchased.

Mr. Lansley: To ask the Secretary of State for Health what the evidential basis is for his statement that pandemic influenza plans are in place in most key sectors, as stated in paragraph 4.11.2 of his Department's National Framework for responding to an influenza pandemic. [175034]

Dawn Primarolo: All Government Departments are directly or indirectly involved in preparing for an influenza pandemic and play an active role in informing and supporting contingency planning in their areas of responsibility, including public and private sector organisations. Departments work closely with these sectors to promote business continuity management and facilitate robust and resilient planning to deal with a wide range of emergencies, including an influenza pandemic. To facilitate sectoral planning central Government Departments have issued guidance specific to pandemic planning, and regularly meet stakeholders to update them on the emerging situation and to provide advice.

The evidence that supports the statement that pandemic influenza plans are in place in most key sectors, as stated in paragraph 4.11.2, includes the following:

The National Capabilities Survey (NCS). The confidential survey goes out to organisations providing essential services; as well as local emergency responders, regional government offices and central Government Departments. This includes the private sector. The results of the last NCS survey in 2006, showed that, in the main, the essential services had well established business continuity plans, which were designed to prepare for, respond to, and recover from, a whole range of risks including an influenza pandemic. The NCS 2008 will give us a more detailed picture, by evaluating recent progress and exploring these issues in greater depth;

Exercise Winter Willow. Over 5,000 people from government, industry and the voluntary sector participated in Exercise Winter Willow, with a common aim to review and validate our preparations and plans for the major challenges that an influenza pandemic would bring. This was supported by a number of sector specific exercises; and

Stakeholder engagement. The Cabinet Office and other Government Departments meet regularly with representatives from public and private sector bodies (through the business forum and other ad hoc meetings) to review the development of plans and to disseminate good practice.

Mr. Lansley: To ask the Secretary of State for Health what the evidential basis is for his statement on page 32 of his Department's National Framework for responding to an influenza pandemic, that fuel supplies are expected to be maintained in the event of an influenza pandemic. [175035]

Dawn Primarolo: The Department for Business, Enterprise and Regulatory Reform (DBERR) continues to work closely with all its stakeholders in the fuel, energy, telecommunications and postal services sectors to ensure that they recognise the impact a pandemic would have on the United Kingdom and factor this into their business continuity plans so that any disruption to consumers is minimised.

We have continued to keep them up to date with Government policy and planning as set out in the National Framework. Should it become necessary, DBERR and industry, in consultation with other stakeholders, would introduce a range of measures to ensure that

essential supplies and services will be maintained. Planning by fuel suppliers is aimed at maintaining near-normal levels.

The results from the last National Capabilities Survey (NCS – a confidential survey which goes out to organisations providing essential services, including the private sector, as well as local emergency responders, regional Government offices and central Government Departments) in 2006, also showed that, in the main, the essential services had well-established business continuity plans, which were designed to prepare for, respond to, and recover from a whole range of risks including an influenza pandemic.

The NCS 2008 will give us a more detailed picture, by evaluating recent progress and exploring these issues in greater depth.

Critical national infrastructure industries also took part in the winter willow exercise in 2007.

Mr. Lansley: To ask the Secretary of State for Health what the evidential basis is for the statement that a high efficacy vaccine given to 75 per cent. of the population will eliminate further pandemic waves, as stated in paragraph 7.41 of the Cabinet Office's document "Overarching Government strategy to respond to pandemic influenza: analysis of the scientific evidence base." [175095]

Dawn Primarolo: The statement follows from epidemiological theory for a disease in which one infected person generally infects fewer than two or so others. This is understood to be likely for a future pandemic influenza based on previous pandemics and seasonal influenza, although the exact properties of such a virus cannot be known in advance.

Mr. Lansley: To ask the Secretary of State for Health what plans the Government have to procure a central stockpile of *(a)* aprons and *(b)* gloves for use by health and social care staff in the event of an influenza pandemic. [175271]

Dawn Primarolo: Used correctly, disposable gloves and aprons will increase protection and support good hygiene practice in primary and secondary health care. The quantities and type of products needed and the options for procuring them are currently under consideration.

Influenza Vaccines: Finance

Bob Spink: To ask the Secretary of State for Health (1) what the cost to the public purse has been of the provision of influenza vaccines in 2007-08; [174184]

(2) what representations he has received from the voluntary sector on the possible use of influenza vaccines returned by GPs or hospitals; [174185]

(3) what estimate he has made of the number of unused influenza vaccines that will be returned by GPs in the next 12 months; [174186]

(4) how many unused influenza vaccines were returned by *(a)* hospitals, *(b)* GPs and *(c)* other establishments in each of the last three years; and if he will make a statement. [174187]

Ann Keen: We estimate that the influenza vaccination programme costs about £150 million.

The Government do not purchase flu vaccine on behalf of individual general practitioners (GPs) or hospitals. GPs order their own supplies of flu vaccine from the supplier(s) of their choice based on the number of eligible patients on their register.

No representations have been received from the voluntary sector on the possible use of influenza vaccines returned by GPs or hospitals.

Information of the numbers of vaccines returned to manufacturers is commercially confidential.

Information on the number of unused influenza vaccines returned by hospitals, GPs and other establishments in each of the last three years is not held centrally.

Influenza: Disease Control

Mr. Spellar: To ask the Secretary of State for Health what steps his Department is taking to ensure that the purchase of disposable respirators and face masks for a possible flu pandemic will be sourced in the UK. [176150]

Dawn Primarolo: The purchase of disposable face masks and respirators will be done in accordance with European Union procurement legislation and will also take full account of the ability of manufacturers to supply the numbers of products needed, wherever they are located.

Influenza: Vaccination

Mr. Lansley: To ask the Secretary of State for Health what research has been commissioned by his Department since 1997 on the effectiveness of the seasonal influenza immunisation programme; and if he will place copies of this research in the Library. [166388]

Dawn Primarolo: Two research projects[1] have been commissioned by the Department to study the effectiveness of the influenza immunisation programme for health care workers. The first studied the effectiveness of vaccinating care staff in preventing illness among residents of care homes. The second study looked at how well the health care worker vaccination policy was being implemented and the attitudes of health care workers to flu vaccination. The papers have been published in the scientific literature, and a copy has been placed in the Library.

Information Centre for Health and Social Care

Mr. Stephen O'Brien: To ask the Secretary of State for Health on what dates since January 2007 the Information Centre for Health and Social Care has had discussions with the Prescription Pricing Division of the NHS Business Services Authority; and what the content was of such discussions. [174835]

Dawn Primarolo: This is a matter for the chief executive of the Information Centre for Health and Social Care.

Lyme Disease

Mr. Swire: To ask the Secretary of State for Health what estimate he has made of the number of people likely to have undiagnosed active Lyme disease; and what steps his Department will take to *(a)* identify these people and *(b)* raise awareness of Lyme disease and its symptoms among GPs. [176270]

Dawn Primarolo: The number of people with undiagnosed active Lyme disease has not been estimated in the United Kingdom.

The Department is not proposing to take steps to identify people with undiagnosed active Lyme disease. Those in whom infection is asymptomatic or has caused only mild or self-limiting symptoms and who do not consult a general practitioner (GP) are not identifiable. Those with active disease whose symptoms require them to seek a GP consultation will be diagnosed.

The Health Protection Agency (HPA) has published guidance for GPs and other clinicians on the diagnosis and treatment of Lyme Disease on its website and has also run various campaigns to promote awareness of Lyme disease among clinicians and the public.

The HPA's Lyme Disease Reference Laboratory provides an expert and freely available diagnostic service to GPs and other clinicians and has nationwide links to experts in infectious diseases, neurology, rheumatology and other specialties that have a particular interest in Lyme disease.

Mr. Swire: To ask the Secretary of State for Health what assessment he has made of the adequacy of blood tests as a tool for diagnosis of late-stage Lyme disease; and what other tools for diagnosis he is considering. [176271]

Dawn Primarolo: Blood testing to confirm late stage Lyme disease is undertaken for the national health service by the Health Protection Agency's (HPA) Lyme disease Reference Laboratory. This laboratory is fully accredited and the tests conform to the internationally agreed testing criteria for "Borrelia burgdorferi", the causative agent of Lyme disease, based upon stringent interpretation of serological test results. The testing is a two stage process: testing for the presence of antibodies to "B. burgdorferi" followed by specific immunoblot (Western blot) tests on all specimens that react in preliminary tests. The significance of the results are then carefully assessed in the light of the patient's clinical signs and exposure history to ticks. This two stage testing procedure is carried out by world-renowned experts at the HPA's Lyme disease reference unit and supports the clinical assessment to provide the most accurate diagnosis. These tests are freely available to clinicians in the NHS. A small group led by the Inspector of Microbiology reviewed the testing methodology in 2006 and we are satisfied that the tests available to the NHS are adequate for the diagnosis of late-stage Lyme disease.

Molecular diagnostic tests have been developed for detection of "B. burgdorferi" and can be a useful in particular circumstances such as a diagnostic test on joint fluids in patients with suspected chronic Lyme arthritis. Such tests are not yet considered useful as a routine diagnostic tool. Direct detection by culture of "B. burgdorferi" is not useful for the diagnosis of late-stage Lyme disease.

The Chief Medical Officer's Inspector of Microbiology undertook a thorough investigation in 2006 of unorthodox and unvalidated blood tests offered by some non-NHS practitioners to make a diagnosis of Lyme disease in patients with medically unexplained symptoms similar to those of late stage Lyme disease. He found such unvalidated tests wholly unsuitable for the diagnosis of late-stage Lyme disease. His report is available at:

www.dh.gov.uk/prod_consum_dh/groups/dh_digitalassets/@dh/@en/documents/digitalasset/dh_4138917.pdf

Medicine: Overseas Students

Norman Lamb: To ask the Secretary of State for Health whether medical students from non-European Economic Area countries undertaking postgraduate training will be able to complete their entire training in the UK; and if he will make a statement. [174337]

Ann Keen: Medical students from non-European Economic Area countries undertaking post graduate training will be able to complete their training subject to satisfactory progress and meeting all competition and eligibility requirements.

Mental Health and Employment

Mr. Harper: To ask the Secretary of State for Health pursuant to the answer of 5 December 2007, *Official Report*, column 1318W, on mental health and employment: meeting the challenge, what the average cost is of treating an individual for depression and anxiety disorders. [177241]

Mr. Ivan Lewis: Depression and anxiety disorders are treated in two main ways: by medication and through evidence-based psychological therapies such as cognitive behavioural therapies (CBT). No estimate has been made of the average cost per head of anti-depressants or other medication.

The London School of Economies' Centre for Economic Performance calculates that the average cost per head to deliver a course of CBT for depression or an anxiety disorder is £750. Additionally, the National Institute for Health and Clinical Excellence has calculated that the average cost of delivering a course of CBT to patients with post-traumatic stress disorder at 12 weeks after the traumatic event (the most cost-effective option) is £825.

The cost calculation for delivering CBT and other evidence-based psychological therapies used in implementing the Improving Access to Psychological Therapies (IAPT) programme is lower than the above figures because the IAPT model of care includes a wider range of evidence-based therapeutic approaches and delivery methods.

Mental Health Services: Greater London

Lynne Featherstone: To ask the Secretary of State for Health (1) what the rate of occupancy of psychiatric beds was in each London mental health trust in each of the last five years; and if he will make a statement; [176032]

(2) how many psychiatric beds there were in each London mental health trust in each of the last five years; and if he will make a statement. [176033]

Mr. Ivan Lewis: The information requested can be found in the following tables.

Not everybody who needs care for a mental health related problem needs a psychiatric bed—even in an emergency. We have developed a range of alternatives to in-patient acute beds. These include new models of practice, robust care pathways and supported accommodation or respite care in ordinary settings.

In-patient psychiatric activity has fallen over time as we have established more than 700 new mental health teams providing community based care as an alternative to acute in-patient care.

Average daily available beds, occupied beds and occupancy rate (occupied/available x 100 per cent.) for mental illness, learning disabilities, and total (mental illness + learning disabilities) in London area between 2002-03 and 2006-07

Department of Health form KH03

National Child Health Immunisation Board

Mr. Stephen O'Brien: To ask the Secretary of State for Health if he will place in the Library a copy of the minutes of the 15 October 2007 meeting of the National Child Health Immunisation Board. [176947]

Dawn Primarolo: I refer the hon. Member to the reply I gave him on 12 December 2007, *Official Report*, column 634W.

National Identity Register

Mr. Philip Hammond: To ask the Secretary of State for Health what plans his Department has to make use of data on the National Identity Register when it is established; and what the estimated annual cost to his Department of that use is. [174034]

Mr. Bradshaw: The Department will be working with the Home Office prior to the introduction of the National Identity Scheme to establish how identity information held on the proposed National Identity Register might be used to provide access to public services. It is too early in the process to establish the detailed costs and benefits.

NHS: Finance

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 5 December 2007, *Official Report*, column 1320W, on NHS: finance, (1) what the statutory minimum of public dividend capital is that a financially challenged trust is expected to repay annually; and what procedures are in place to report to Parliament the liability contingent upon a write-off of any part of the *(a)* principal and *(b)* interest on (i) public dividend capital and (ii) loans; [175346]

(2) what the statutory minimum repayment of cash support advanced to NHS trusts in the financially challenged trusts regime is; what his policy is on requiring such repayments; and if he will make a statement. [175347]

Mr. Bradshaw *[holding answer 18 December 2007]*: There is no statutory minimum payment for either public dividend capital dividends or capital. However, national health service trusts in receipt of public dividend capital are expected to make a dividend repayment currently set at 3.5 per cent. of the forecast average value of net relevant assets.

NHS trusts in receipt of working loans are expected to meet repayments in line with the agreed repayment schedule.

The period of the loan is agreed with each trust. NHS trusts make equal six monthly payments of principal over the period of the loan. Interest is payable six monthly on the outstanding balance. The interest rate is the relevant national loan fund rate for the day of the loan, and varies with the term of the loan.

NHS trust debt held by the Department may be written off by the Secretary of State. Such a write-off would constitute a loss to the Exchequer and would as

a consequence be reported in the Department's Resource Accounts. Any write-off exceeding £20 million requires HM Treasury approval. In such cases, in advance of the remission of debt, HM Treasury presents a minute to the House of Commons to give the particulars of the remission and to explain the circumstances.

The financing arrangements for financially challenged trusts are being considered as part of the review process for these trusts.

Nicotine Patches

Mr. Lansley: To ask the Secretary of State for Health what the evidential basis is for the statement on page 37 of his Department's Cancer Reform Strategy, that some primary care trusts have enabled pharmacists to supply nicotine replacement therapy through *(a)* voucher schemes and *(b)* patient group directions; and if he will list the primary care trusts which have done so. [174767]

Dawn Primarolo: In 2005-06, 2,522 community pharmacies in England were locally commissioned by the primary care trusts (PCTs) in the following table to provide national health service stop smoking services. We are aware that, as part of these services, some PCTs have enabled pharmacists to supply nicotine replacement therapy to patients and the public through voucher schemes and patient group directions but information on which PCTs have done so is not collected centrally.

PCTs contracting with community pharmacies to provide stop smoking services at 31 March 2007

Nurseries: Infectious Diseases

Andrew Stunell: To ask the Secretary of State for Health if he will consider issuing guidance on the notification of infectious diseases in nursery establishments. [176931]

Dawn Primarolo: The Health Protection Agency (HPA) has issued "Guidance on infection control in schools and other child care settings", which also includes nurseries. This guidance draws attention to the statutory duty of registered medical practitioners to report notifiable infectious diseases to the proper officer of the local authority under the Public Health (Control of Disease) Act 1984 and the Public Health (Infectious Diseases) Regulations 1988. It is available on HPA's website at:

www.hpa.org.uk/infections/topics_az/schools/default.htm

A copy has been placed in the Library.

Nurses

Dr. Stoate: To ask the Secretary of State for Health what guidance his Department has issued on the provision of cancer clinical nurse specialists. [174253]

Ann Keen: The Department has not issued any specific guidance on the provision of cancer clinical nurse specialists.

However, the Cancer Reform Strategy addresses the issue of clinical nurse specialists. The strategy, published on 3 December 2007, sets out the important role clinical nurse specialists have to play in improving the experience of people with cancer. It also noted that commissioners and providers should give particular consideration to the role of these nurses.

In addition, the National Institute for Health and Clinical Excellence has also identified clinical nurse specialists as core members of multidisciplinary teams in their Improving Outcomes series of cancer service guidance.

The Cancer Reform Strategy reiterated the need to fully implement this guidance across the national health service.

Dr. Stoate: To ask the Secretary of State for Health what discussions his Department has had with *(a)* professional and *(b)* patient representatives on the use of cancer clinical nurse specialists. [174255]

Ann Keen: The Department has had no discussions with professional and patient representatives specifically on the use of cancer clinical nurse specialists.

However, the issue of cancer clinical nurse specialists was discussed by a number of advisory groups during the development of the Cancer Reform Strategy. These groups included both professional and patient representatives. The strategy was published on 3 December 2007. It set out the important role the clinical nurse specialist has to play in improving the experience of people with cancer. It also noted that commissioners and providers should give particular consideration to the role of these nurses.

In addition, the National Institute for Health and Clinical Excellence has also identified clinical nurse specialists as core members of multidisciplinary teams in their Improving Outcomes series of cancer service guidance.

The Cancer Reform Strategy reiterated the need to fully implement this guidance across the national health service.

Obesity

Mr. Lansley: To ask the Secretary of State for Health how many finished consultant episodes relating to obesity there were for *(a)* patients aged under 18 years and *(b)* patients aged over 18 years in (i) England and (ii) each strategic health authority area in each year from 1997-98 to 2006-07. [175038]

Dawn Primarolo: The information requested has been placed in the Library.

Pregnancy

Ms Keeble: To ask the Secretary of State for Health what estimate he has made of the cost per live birth of *(a)* antenatal care, *(b)* childbirth and *(c)* post-natal care for the first year. [173591]

Ann Keen: The antenatal and post-natal costs requested are not collected centrally.

The following table shows the national average unit costs of different childbirth events, as calculated from costs reported by national health service trusts, NHS foundation trusts and primary care trusts (PCTs) through the 2005-06 Reference Costs collection exercise. Costs are in 2005-06 prices.

	£
Normal Delivery with complications	1,700
Normal Delivery without complications	1,000
Assisted Delivery with complications	2,100
Assisted Delivery without complications	1,400

	£
Caesarian Section with complications	3,200
Caesarian Section without complications	2,300

Notes:
1. Costs in the table have been rounded to the nearest £100.
2. The 2005-06 reference costs are the latest data available. Reference Costs collect data at finished consultation episode level by health care resource group (HRG).
3. HRGs are clinically meaningful groups of diagnoses and treatments that consume similar levels of NHS resources.
4. These data are for NHS trusts, NHS foundation trusts and PCTs combined, excluding excess bed days.

Prescriptions: Fees and Charges

Danny Alexander: To ask the Secretary of State for Health how many people received a penalty charge for fraudulently claiming free prescriptions in the most recent year for which figures are available; and what the average charge imposed was. [174797]

Ann Keen: In the year 2006-07, 25,029 people received a penalty charge in accordance with the Health Act 1999, section 122B.

Since 1 April 2005, the prescription charge penalty function has been a responsibility of primary care trusts. Detailed information on each penalty charge is not held centrally. The average penalty charge figure is not available and could be obtained only at disproportionate cost.

Respiratory Syncytial Virus

Sandra Gidley: To ask the Secretary of State for Health (1) what assessment his Department has made of trends in the rate of infection from respiratory syncytial virus in infants under the age of two in England in the last five years; and what steps he is taking to reduce the rate of infection among such infants; [174531]

(2) how many incidents of respiratory syncytial virus infection were recorded in *(a)* October 2007, *(b)* November 2007, *(c)* October 2006 and *(d)* November 2006. [174532]

Dawn Primarolo: Respiratory Syncytial Virus (RSV) activity, like flu, is seasonal and its severity varies from year to year. In the last five years the number of laboratory confirmed infections in children under two years of age has remained approximately constant, and has been lower than seen in previous years. 2006 was a particularly low year for the number of laboratory confirmed reports of RSV.

The reports received so far for 2007 are higher than for the same period last year but are not exceptional in terms of activity observed in some earlier years.

	Number of laboratory confirmed RSV specimens (all ages)[1]
October 2007	565
November 2007	[2]1,824
October 2006	150
November 2006	869

[1] Source: LabBase, Health Protection Agency. Data extracted by date of specimen
[2] Data for November provisional

Sandra Gidley: To ask the Secretary of State for Health what estimate he has made of the cost of compliance with the Joint Committee on Vaccinations and Immunisation guidance on respiratory syncytial virus at *(a)* national and *(b)* strategic health authority level. [174557]

Dawn Primarolo: These data are not held centrally. The Joint Committee on Vaccination and Immunisation estimated that their recommendation would mean that around 2,000 babies would receive palivizumab treatment.

Sandra Gidley: To ask the Secretary of State for Health what assessment he has made of the level of adherence within the NHS to guidance from the Joint Committee on Vaccinations and Immunisation on prophylaxis against respiratory syncytial virus for babies and infants; and whether guidance on immunotherapy for respiratory syncytial virus is included in the Green Book on immunisation. [174558]

Dawn Primarolo: No assessment has been made on the level of adherence within the national health service to guidance from the Joint Committee on Vaccinations and Immunisation (JCVI) on prophylaxis against respiratory syncytial virus (RSV) for babies and infants. Primary care trusts (PCTs) are responsible for the management of services and for specifying the level and quality of services provided. PCTs will in turn be held to account for their performance by the strategic health authority. Guidance on immunotherapy for RSV is not included in the Green Book on immunisation. The Green Book currently only provides advice on the national immunisation programme and vaccine-preventable diseases.

Sexually Transmitted Diseases: Disease Control

Mike Penning: To ask the Secretary of State for Health when he plans to launch the £50 million advertising campaign to tackle sexually transmitted infections announced on 26 November 2004. [174057]

Dawn Primarolo: The Department launched its "Condom Essential Wear" awareness campaign to prevent sexually transmitted infections in November 2006. Plans for the continuation of the campaign in 2008-09 and beyond are currently being drawn up.

Skin Cancer: Health Education

Mr. Lansley: To ask the Secretary of State for Health (1) when his Department initiated the SunSmart campaign; how much funding his Department has committed to the SunSmart campaign in each year since its launch; what anticipated expenditure on the SunSmart campaign is in each year until 2010-11; and if he will make a statement; [174682]

(2) what the evidential basis is for the statement in Box 6 of his Department's Cancer Reform Strategy, that the SunSmart campaign has *(a)* increased knowledge of the causes of skin cancer, *(b)* increased awareness of actions that can be taken to prevent skin cancer and *(c)* positively influenced behaviour change among defined target groups; and what the defined target groups are. [174694]

Dawn Primarolo: The SunSmart campaign was launched in March 2003. Cancer Research UK applied to the Department for funding under the provisions of S64 of the Health Services and Public Health Act 1968 for the campaign and received around £20,000 in 2003-04 and subsequently has received under the S64 provisions £72,000 for 2004-05, £145,000 for 2005-06, £150,000 for 2006-07 and £104,000 for 2007-08. Also provisionally and subject to the availability of funds approved by Parliament, Cancer Research UK will receive for the SunSmart campaign £110,000 for 2008-09, and £115,000 for 2009-10. The recently published Cancer Reform Strategy refers to a Government commitment to increased funding for skin cancer awareness programmes.

Evidence from the Office for National Statistics Omnibus survey has been used by the SunSmart campaign to gauge trends in sun protection knowledge, attitudes and behaviour. There is evidence of significant improvement in people's knowledge about specific risky behaviours. The campaign has targeted different high risk audience groups each year (for example teenagers and young adults in 2005).

Smoking: Health Services

Mr. Lansley: To ask the Secretary of State for Health what plans he has to extend the four-week follow-up period used to assess the effectiveness of NHS Stop Smoking services. [174770]

Dawn Primarolo: There are no current plans to extend the four-week follow-up period used to assess the effectiveness of national health service Stop Smoking services. Clinical research has shown that longer-term follow-up can be highly resource-intensive as it becomes more difficult and time-consuming to contact people as time passes and we do not wish to place an unnecessary burden on the services.

Specialist Nurses

Norman Lamb: To ask the Secretary of State for Health (1) what support his Department gives to specialist nurses for *(a)* multiple sclerosis, *(b)* epilepsy and *(c)* Parkinson's disease; and if he will make a statement; [174241]

(2) when he will issue best practice guidelines on the role of specialist nurses; and if he will make a statement. [174242]

Ann Keen: National health service organisations are responsible for the skill mix of their work force. They are best placed to assess the health needs of their local health community and must have the freedom to deploy staff in ways appropriate for local conditions.

Nurses caring for patients with neurological conditions such as multiple sclerosis, epilepsy and Parkinson's disease are vital to vulnerable groups of patients. The Department is working closely with the charities associated with these conditions to develop guidance for the NHS to ensure they can commission effectively and make best use of the skills of specialist nurses. The guidance will be published in spring 2008.

Spinal Muscular Atrophy

Mr. Donohoe: To ask the Secretary of State for Health how much the Government are spending on research into *(a)* neuromuscular diseases and *(b)* spinal muscular atrophy in 2007-08. [175292]

Dawn Primarolo: The information requested is not available.

Over the last 10 years, the main part of the Department's total expenditure on health research has been devolved to and managed by national health service organisations.

Details of individual NHS supported research projects including a number concerned with spinal muscular atrophy are available on the national research register at:

www.nrr.nhs.uk.

Implementation of the Department's research strategy "Best Research for Best Health" is resulting in an expansion of our research programmes and in significant new funding opportunities for health research. Four of the new Biomedical Research Centres formed this year will for example undertake research on neuromuscular disease; and the Research for Patient Benefit programme has funded two projects in this area.

The Medical Research Council (MRC) is one of the main agencies through which the Government supports biomedical research. The MRC, an independent body funded by the Department for Innovation, Universities and Skills, funds a wide portfolio of research on neuromuscular disease including two projects specifically concerned with spinal muscular atrophy.

Sunbeds

Mr. Lansley: To ask the Secretary of State for Health when his Department will begin gathering information on the *(a)* number and distribution of sunbeds and *(b)* the scale of sunbed use by minors, as described in paragraph 2.43 of his Department's Cancer Reform Strategy; what options his Department is considering for the regulation of the sunbed industry; and if he will make a statement. [174889]

Dawn Primarolo: The Department, working with stakeholders, will consider the best way to gather information about the number and distribution of sunbeds, and the scale of use by minors. The Department and stakeholders have considered a range of options for possible regulation of the sunbed industry. The Health and Safety Executive and the Department are continuing to assess how Leaflet INDG 209 might best contain information covering the use of automated tanning salons.

Vaccination

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) if he will publish copies of *(a)* correspondence with members of the Joint Committee on Vaccinations and Immunisation (JCVI) on Connecting for Health and *(b)* minutes of JCVI meetings at which Connecting for Health was discussed in the last 18 months; [171822]

(2) what concerns about the electronic care record system have been *(a)* communicated to him and *(b)* raised by the Joint Committee on Vaccination and Immunisation. [171824]

Dawn Primarolo: A copy of the correspondence between Professor Andrew Hall and the former Minister of State my right hon. Friend the Member for Don Valley (Caroline Flint), has been placed in the Library.

The Joint Committee on Vaccination and Immunisation (JCVI) discussed issues relating to NHS Connecting for Health at its meetings on: 15 February 2006, 21 June 2006, 18 October 2006, 14 February 2007 and 20 June 2007. These minutes are available on the JCVI website, and a copy of each set of minutes has been placed in the Library.

Sandra Gidley: To ask the Secretary of State for Health whether his Department plans to revise the Green Book on immunisation. [174559]

Dawn Primarolo: No decision has been taken on when to revise the Green Book published in 2006. The latest version is available on the Department of Health website at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_079917

Vaccination: Children

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) who is responsible for ensuring that children in *(a)* England, *(b)* London and *(c)* primary care trusts using the Child Health Interim Application system receive vaccinations; [171812]

(2) what statutory responsibilities *(a)* the NHS and *(b)* Government bodies have for vaccination programmes for children in England. [171816]

Dawn Primarolo: Responsibility for vaccination services lies with the primary care trust in England. The responsibility comes from the NHS Act 2006.

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) how many children in London are covered by primary care trusts using the Child Health Interim Application system; and how many of those have *(a)* received on time, *(b)* received late and *(c)* not received the vaccinations they are due; [171821]

(2) pursuant to the comments of the clinical director for NHS Connecting for Health on 27 February 2006, whether all children in the primary care trusts affected by problems with the Child Health Interim Application were offered vaccinations at the appropriate time within two months of 27 February 2006; and whether that process has continued. [172305]

Dawn Primarolo: The number of children in London primary care trusts (PCTs) covered by the Child Health Interim Applications systems is shown in the following table.

PCT	*Children aged five and under*
Barking and Dagenham PCT	15,831
Camden PCT	15,584
City and Hackney Teaching PCT	21,306
Haringey Teaching PCT	19,773
Havering PCT	14,744
Islington PCT	12,968
Newham PCT	25,842
Redbridge PCT	20,436
Tower Hamlets PCT	19,824
Waltham Forest PCT	19,984
Total	186,292

Source:
Population Statistics Database

Vaccination coverage for Barking and Dagenham PCT and Havering PCT together, for 2006-07 was 82 per cent. and for Newham PCT was 72 per cent. This information is available in the national health service immunisation statistics England 2006-07 and is available in the Library.

Information on vaccination coverage from the other seven London PCTs is not available centrally.

Mental Health: Employment

Mr. Harper: To ask the Secretary of State for Health pursuant to the Written Ministerial Statement of 27 November 2007, on mental health and employment: meeting the challenge, what funding beyond that in existing plans will be provided for support for people with mental health conditions to find and stay in work. [169957]

Mrs. McGuire: I have been asked to reply.

On 27 November we announced our intention to develop a national strategy for mental health and employment. The strategy will ensure that there is a coordinated response across government to the challenges faced by people of working age with mental health conditions, improving their employment chances.

We intend to appoint a stakeholder steering group, to be chaired by Dame Carol Black, the National Director for Health and Work, to oversee the development of the strategy. This steering group will be appointed in the new year and will then lead work on the development of the strategy which forms part of wider work on the health and employment agenda.

The expansion of the Improving Access to Psychological Therapies programme at a cost of £170 million over three years, together with the £13 million now made available by DWP for additional support for GPs and employers represents a considerable Government commitment to supporting those with mental health conditions. This is in addition to the funding already committed to the roll-out of Pathways to Work, including the Condition Management Programmes.

TREASURY

Child Benefit: Personal Records

Mr. MacNeil: To ask the Chancellor of the Exchequer what *(a)* assessment he has made of the utility and *(b)* estimate he has made of the cost to

the public purse of providing protective registration under the credit industry fraud avoidance system at no cost to those individuals whose data was contained on the discs lost between HM Revenue and Customs and the National Audit Office. [169208]

Jane Kennedy *[holding answer 29 November 2007]:* As My right hon. Friend the Chancellor of the Exchequer said in his statement to the House of Commons on 17 December 2007, *Official Report*, columns 612-14, the police have no reason to believe that the data have fallen into the wrong hands.

The acting chairman of HMRC has written to all customers affected confirming that banks and building societies have appropriate safeguards in place and advising customers on precautionary steps they may wish to take to further protect themselves, including regularly checking bank statements, and changing passwords if they contain personal data such as a child's name or date of birth.

The Government have also had discussions with a range of organisations, and is continuing to keep the matter of protection under review.

Council Tax: Scotland

Mr. Pickles: To ask the Chancellor of the Exchequer what settlements were reached on council tax between the Treasury and the last Scottish Executive administration. [176448]

Angela Eagle: The level of council tax in Scotland is set by Scottish local authorities.

Departmental Data Protection

Mr. Philip Hammond: To ask the Chancellor of the Exchequer on how many occasions in *(a)* his Department and *(b)* its agencies confidential data have been downloaded on to compact discs (i) without and (ii) with encryption in the last 12 month period for which figures are available; how many of those discs have been posted without using recorded or registered delivery; what procedures his Department has in place for the (A) transport, (B) exchange and (C) delivery of confidential or sensitive data; what records are kept of information held by his Department being sent outside the Department; what changes have been made to his Department's rules and procedures on data protection in the last two years; on how many occasions his Department's procedures and rules on data protection have been breached in the last five years; what those breaches were; what procedures his Department has in place on downloading confidential data on to computer discs before its transfer; what technical protections there are in his Department's computer systems to prevent access to information held on those systems which is not in accordance with departmental procedures; and if he will place in the Library a copy of each of his Department's rules and procedures on the protection of confidential data on individuals, businesses and other organisations. [168263]

Jane Kennedy: I refer the hon. Member to the statement given in the House by my right hon. Friend the Chancellor of the Exchequer on 20 November 2007, *Official Report*, columns 1101-04.

On 20 November, the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, chair of PricewaterhouseCoopers.

The review will cover the steps that should be taken to ensure any further measures are adhered to consistently by all staff. The interim report was published on 7 December 2007 and is available in the Library of the House.

I also refer the hon. Member to the remarks I made on 28 November 2007, *Official Report*, column 344, setting out the three key steps all staff in HMRC must now follow for bulk data transfers.

Further, as announced by the Prime Minister on 21 November 2007, *Official Report*, column 1179, the review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

Mr. Wallace: To ask the Chancellor of the Exchequer which Minister in his Department reviewed the formal document submitted by the Departmental Security/IT Officer following the risk assessment and risk management process for information security. [169755]

Jane Kennedy: Her Majesty's Revenue and Customs is operationally independent of Ministers. It is established by statute and run by a board of Commissioners who are responsible for operational matters.

The risk assessment and risk management processes for information security are kept under constant review by HM Revenue and Customs.

Mr. Wallace: To ask the Chancellor of the Exchequer on what occasions he has met the Departmental Security Officer who last carried out a periodic security review of *(a)* his Department and *(b)* HM Revenue and Customs in accordance with the manual of protective security. [169759]

Jane Kennedy: Treasury Ministers discuss a wide range of issues, including security, with officials in the Departments for which they are responsible.

Mr. Wallace: To ask the Chancellor of the Exchequer (1) when HM Revenue and Customs first carried out a risk assessment in accordance with section 0 (12) of the manual of protective security after its establishment; and when it last carried one out; [169760]

(2) when his Department carried out risk assessments in accordance with section 0 (12) of the manual of protective security over the last five years; [169761]

(3) when the last periodic review of security risks in *(a)* his Department and *(b)* HM Revenue and Customs took place in accordance with section 0 of the manual of protective security; [169762]

(4) when the last reassessment of risk was carried out by *(a)* his Department and *(b)* HM Revenue and Customs in accordance with section 0 (24) of the manual of protective security. [169763]

Jane Kennedy: Both HM Treasury and HM Revenue and Customs keep their security policies and procedures under constant review. They use the Cabinet Office Manual of Protective Security as the basis for ensuring that adequate and proportionate security measures are applied to protecting information, in all its forms, in their care. From that publication, they derive their own security policies and standards. Assurance activities test compliance with each Department's security policies and standards.

Mr. Hoban: To ask the Chancellor of the Exchequer (1) what internal reports on data security have been submitted to Ministers in his Department in the last five years; and on what date each was submitted; [173370]

(2) what *(a)* reports on and *(b)* reviews of data security in HM Revenue and Customs have been ordered by Ministers in the last five years; and on what date each was (i) ordered and (ii) received. [173371]

Jane Kennedy: Her Majesty's Revenue and Customs is operationally independent of Ministers. It is established by statute and run by a board of Commissioners who are responsible for its operations but answerable to Parliament through the Chancellor. Treasury Ministers discuss a range of issues and tasks relating to the administration of the Department with officials in the Departments for which they are responsible.

Mrs. Villiers: To ask the Chancellor of the Exchequer whether personal data for which his Department is responsible is *(a)* stored and *(b)* processed overseas; and if he will make a statement. [176012]

Angela Eagle: No personal data for which this Department is responsible is stored or processed overseas.

Mrs. Villiers: To ask the Chancellor of the Exchequer what obligations his Department and its agencies place on contractors in relation to the audit of personal data and IT equipment. [176470]

Angela Eagle: Contractors working for HM Treasury (HMT) and its agencies are required to agree to comply with Acceptable Use Policies prior to using any IT equipment or receiving access to network systems and the Government Secured Intranet. There are a number of contracts currently in use within HMT and its agencies. It is not possible to comment on each one individually, however HMT's General Terms and Conditions of Contract and the Model Contract Terms (produced by Office of Government Commerce) contain Data Protection Clauses, which require all contractors to be registered under the relevant parts of the Data Protection Act 1998 and to ensure that the applicable provisions of the Data Protection Act are complied with.

Mrs. Villiers: To ask the Chancellor of the Exchequer what audits his Department and its agencies have carried out in relation to personal data and IT equipment in each of the last 10 years. [176487]

Angela Eagle: HMT and its agencies undertake either a formal programme of audits each year or carry out internal reviews which incorporate audits of personal data (of the general public and employees) and IT equipment. The extent and focus of these audits is dependent on the specific terms of reference for each review and a large number of audits have been carried out each year in the last 10 years that relate to these areas.

Departmental Marketing

Mr. Pickles: To ask the Chancellor of the Exchequer how many branded plastic bags *(a)* HM Revenue and Customs, *(b)* the Valuation Office Agency and *(c)* his Department purchased in the last 24 months for which figures are available; and at what cost in that period. [176414]

Angela Eagle: There have been no purchases of branded plastic bags during the last 24 months within HM Treasury and the Valuation Office Agency, and while there have also been no purchases made by the central procurement directorate of HM Revenue and Customs, there is a possibility that a small insignificant number may have been purchased by local offices within HM Revenue and Customs.

Departmental Recycling

Mr. Pickles: To ask the Chancellor of the Exchequer what recycling scheme is in operation in each building operated by *(a)* his Department, *(b)* the Valuation Office Agency and *(c)* HM Revenue and Customs. [176408]

Angela Eagle: The information is as follows:

HM Treasury

As part of the waste management strategy for Treasury buildings, the majority of desk bins have been replaced by alternative receptacles placed throughout the buildings to encourage recycling. In addition, desk top recycler bins have also been provided to encourage better segregation and disposal of waste.

Paper, cardboard, glass, plastic, aluminium cans, redundant IT equipment and mobile telephones are recycled at all three sites. In addition, batteries are recycled at the Norwich office and organic matter is disposed of into compost bins and the compost then used on the gardens.

Waste is removed from sites by specialist waste contractors who recover any recyclable material from the general waste stream, with the balance sent to landfill.

Valuation Office Agency

VOA offices recycle confidential waste paper. Mapeley are the service provider for the majority of VOA offices, and on these sites, lamps will also be recycled. Mapeley are piloting several recycling schemes across HMRC sites and VOA offices will be included in this scheme where Mapeley are the service provider. In addition, local offices have set up their own recycling initiatives. It is expected that a more comprehensive recycling scheme will be rolled out across the VO estate in the next financial year.

HM Revenue and Customs

Mapeley and HMRC's service partners have a number of schemes in operation across the STEPs estate:

HMRC has a range of contracts in place nationally for confidential and restricted waste paper recycling.

Together with HMRC's service partner Mapeley, a recycling scheme is being implemented across 24 sites. Paper, cans and plastic are recycled in this scheme. This is a rolling programme which will be expanded to deliver a consistent service across the estate.

Mapeley also provided accommodation to HMRC through third party landlords, who provide various recycling schemes. Most of the schemes are not controlled by Mapeley. However, in partnership with British Land, Mapeley has implemented a wet and dry waste recycling scheme at Euston Tower, London and Southgate House, Gloucester.

Offices in and around London are serviced by a scheme run by Capital Waste.

HMRC also have a number of local initiatives started by local staff e.g. charity toner cartridge recycling schemes.

HMRC also have several other PFI providers who have various recycling initiatives in place.

Departmental Security Officer

Mr. Wallace: To ask the Chancellor of the Exchequer on what occasions he and his predecessor met the Departmental Security Officer of (*a*) his Department, (*b*) the Inland Revenue, (*c*) HM Customs and Excise and (*d*) HM Revenue and Customs in the last three years. [169734]

Jane Kennedy: Treasury Ministers discuss a wide range of issues, including security, with officials in the departments for which they are responsible.

EU Grants and Loans

Mr. Heathcoat-Amory: To ask the Chancellor of the Exchequer how many people employed in his Department work on administering EU structural funds; and what the cost of such staff was in 2006-07. [176045]

Angela Eagle: EU structural funds in the UK are not administered by the Treasury but by the appropriate managing authority.

Government Departments: Assets

Harry Cohen: To ask the Chancellor of the Exchequer what the total value of the fixed assets of all Government Departments is. [177065]

Andy Burnham: The National Asset Register, published in January 2007, provides details of the value of fixed assets held by Government Departments.

Harry Cohen: To ask the Chancellor of the Exchequer how much was realised from the sale of fixed assets by the Government in each of the last five years; and what the estimated total of such disposals for 2007-08 is. [177066]

Andy Burnham: Details of proceeds raised from the disposal of fixed assets is published at PBR (Ch. B), Budget (Ch. C) and in Public Expenditure Statistical Analyses (Ch. 5).

Government Departments: Property

Mr. Pickles: To ask the Chancellor of the Exchequer which public authorities on the Electronic Property Information Mapping Service have vacant space; and what the area or size of the vacant space is in each case. [176397]

Angela Eagle: A breakdown of actual vacant space area by Department, and this figure as a percentage of total space, has been outlined in the following table, as recorded on e-PIMS on 8 January 2008.

Parent Department	*Area of vacant space (m2)*	*Percentage of total space*
Cabinet Office	2524	1.59
Charity Commission	501	4.31
Communities and Local Government	4772	1.55
Crown Prosecution Service	983	0.66
Department for Business, Enterprise and Regulatory Reform	49549	5.50
Department for Children, Schools and Families	7766	4.41
Department for Culture, Media and Sport	4446	0.53
Department for Environment, Food and Rural Affairs	25837	4.27
Department for Innovation, Universities and Skills	35265	2.93
Department for Transport	16495	2.14
Department for Work and Pensions	112473	5.44
Department of Health	14066	2.77
Forestry Commission	203	0.50
HM Revenue and Customs	91	0.01
Home Office	2610	0.38
Ministry of Defence	2346	0.31
Ministry of Justice	13624	0.78
National Probation Directorate	4756	1.69
Ordnance Survey	2053	3.91
Parliamentary and Health Service Ombudsman	210	5.01
The Scottish Government	310	0.05
Treasury	14682	6.92

Mr. Pickles: To ask the Chancellor of the Exchequer whether the Electronic Property Information Mapping Service holds historic property data over time. [176437]

Angela Eagle: The Electronic Property Information Mapping Service holds data for each financial year from 2004-05.

HM Revenue and Customs: Delivery Services

Mr. Philip Hammond: To ask the Chancellor of the Exchequer how many items placed with mail carriers for delivery by HM Revenue and Customs in the last 12 months did not reach their intended destination. [169863]

Jane Kennedy: The information requested is not available.

HM Revenue and Customs: Security

Mr. Dai Davies: To ask the Chancellor of the Exchequer with reference to the answer to the hon. Member for Fareham (Mr. Hoban) of 29 October 2007, *Official Report*, column 995W, on HM Revenue and Customs: security, if he will disaggregate the 2,111 reported breaches of security recorded between HM Revenue and Customs' various offices. [169776]

Jane Kennedy: It would be inappropriate to disaggregate the information to the level of individual named offices. To do so could potentially impact on security at the individual offices.

International Monetary Fund: Gold and Foreign Exchange Reserves

James Duddridge: To ask the Chancellor of the Exchequer (1) what discussions the Government have had on the sale of gold by the International Monetary Fund; [176928]

(2) what representations the Government have received on the sale of gold by the International Monetary Fund. [176929]

Angela Eagle: Following the publication of the report of the Committee to Study Long Term Financing of the IMF in January 2007, which made a number of recommendations on the IMF's income model, including on gold sales, we expect the new IMF managing director, Dominique Straus-Kahn, to make a comprehensive proposal on IMF income and expenditure to the executive board ahead of the IMF spring meeting in April. Any proposed gold sales would require a 85 per cent. vote in favour by the members of the IMF. The UK Government believe that any sales of gold should take place in an orderly way, phased overtime, and within the bounds set by official sellers of gold in recent years so as to avoid disruption to the gold market.

Lyons Inquiry

Mr. Pickles: To ask the Chancellor of the Exchequer whether his Department will produce a formal response to the Lyons Inquiry on local government. [176386]

Angela Eagle: Treasury will not be issuing a formal response to the Lyons inquiry. Sir Michael Lyons report set out a wide-ranging analysis of local government and local government finance and many of his recommendations have, and will continue to, inform the ongoing development of Government policy.

Members: Correspondence

Mr. Carmichael: To ask the Chancellor of the Exchequer when he will reply to the letter from the hon. Member for Orkney and Shetland on his Department's consideration of preferential rates of fuel duty in rural and remote areas. [177117]

Angela Eagle: I have replied to the hon. Member.

Minimum Wage

Jon Trickett: To ask the Chancellor of the Exchequer how many London-based staff are employed by his Department on the national minimum wage. [175969]

Angela Eagle: All Treasury staff based in London are paid above the national minimum wage.

Mortgages: Interest Rates

Mr. Betts: To ask the Chancellor of the Exchequer whether the housing finance review will consider taxation barriers to the development of products that give interest rate protection; [175957]

(2) whether the Government plans to act on the recommendation of the Miles Report on the treatment of stand alone interest rate insurance as insurance for tax purposes; [175958]

(3) if the Government will take steps to consult industry on taxation barriers to the development of products that give interest rate protection, as stated in the Housing Green Paper. [175963]

Angela Eagle: A response to the Miles recommendation on the treatment of stand-alone interest rate insurance was given in Budget 2005 stating the Government stood ready to engage with firms considering entering the market. This is still the position and we welcome discussions with such firms.

The Housing Finance Review is also considering any remaining barriers to the efficient supply of mortgage finance. This includes investigating innovative financial products which help borrowers manage their housing-related risks. The review team remain engaged with the industry and will take into account their comments when making recommendations. The review will report its findings at Budget 2008.

Non-domestic Rates: Empty Property

Mr. Pickles: To ask the Chancellor of the Exchequer what estimate he has made of the *(a)* mean and *(b)* median change in business rates per empty property in the first full year of operation of the reduced levels of business rate tax relief for empty properties. [176392]

Jane Kennedy: No estimates are available.

Non-domestic Rates: Valuation

Mr. Pickles: To ask the Chancellor of the Exchequer if he will place the Valuation Office Agency's Ratings Cost Guide in the Library. [176393]

Jane Kennedy: I refer the hon. Member to the answer given to the hon. Member for Brentwood and Ongar (Mr. Pickles) on 17 October 2007, *Official Report*, column 1145W.

Northern Ireland: Fuel Laundering

Sammy Wilson: To ask the Chancellor of the Exchequer how many fuel laundering plants have been closed by HM Revenue and Customs and the police in Northern Ireland in the last 12 months; and how many arrests have been made in respect of these actions. [175929]

Jane Kennedy: In Northern Ireland, in the period January 2007 to date, a total of eight laundering plants have been dismantled by HM Revenue and Customs and five arrests were made in relation to these operations. HM Revenue and Customs are solely responsible for dealing with fuel laundering plants, and any that are initially detected by the Police Service Northern Ireland are immediately referred to HMRC for action.

Office of Government Commerce

Mr. Pickles: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the guidance note produced by the Office of Government Commerce on social issues in purchasing. [176447]

Angela Eagle: A copy of the information requested has been placed in the Library.

Mr. Pickles: To ask the Chancellor of the Exchequer what procurement guidance the Office of Government Commerce has produced for local authorities, on the purchase of receptacles for the collection of household rubbish. [176449]

Angela Eagle: The Office of Government Commerce has not produced specific guidance for local authorities on the purchase of receptacles for the collection of household rubbish.

Offshore Industry: North Sea

Norman Baker: To ask the Chancellor of the Exchequer what research his Department has carried out into the long-term economic impact on the UK of the reduction of oil and gas supplies from the North Sea. [173877]

Angela Eagle: The UK still has significant oil and gas resources. While some 37 billion barrels of oil equivalent (boe) have been produced to date, estimates of the hydrocarbons remaining to be produced from the UK Continental Shelf (UKCS) range from 16 to 25 billion boe[1]. As set out most recently in "Securing a sustainable future: a consultation on the North Sea Fiscal Regime", the Government are committed to maximising the economic recovery of hydrocarbons from the UK Continental Shelf.

[1] Source: May 2007 Energy White Paper, page 109.

Planning Gain Supplement

Mr. Pickles: To ask the Chancellor of the Exchequer how much *(a)* his Department, *(b)* the Valuation Office Agency and *(c)* HM Revenue and Customs has spent on research, consultancy and preparation costs for the Planning Gain Supplement. [176433]

Angela Eagle: The Treasury, HM Revenue and Customs, and Communities and Local Government have undertaken preliminary work to develop and explore the feasibility of a Planning-gain Supplement since 2004. This has included the publication of one consultation document alongside the 2005 pre-Budget report and three consultation documents alongside the 2006 pre-Budget report. The costs incurred have been borne by the respective Departments as part of the normal policy development process.

Private Finance Initiative: Expenditure

Mr. Meacher: To ask the Chancellor of the Exchequer how much public expenditure he estimates there will be as a result of private finance initiative programmes *(a)* in place and *(b)* planned in each year from 2008 to 2060. [176994]

Angela Eagle: The future profile of estimated unitary charge payments for signed PFI projects is published alongside each Budget and pre-Budget report. At PBR/CSR 2007 this projection was printed at Table 19 of PBR/CSR 2007: the economy and public finances – supplementary charts and tables. This document is available from the Treasury website at:

http://www.hm-treasury.gov.uk/media/2/B/pbr_csr07_economy907.pdf

This covers projects up to 2032-33; it is not possible to predict the payments for future projects, which have not yet been signed, as the value of the unitary charge payments is subject to negotiation during the procurement process.

Revenue and Customs: Data Protection

Mr. Evans: To ask the Chancellor of the Exchequer of how many UK citizens participating in witness protection programmes the data was on the two discs lost by HM Revenue and Customs. [172833]

Jane Kennedy *[holding answer 11 December 2007]:* It is not normal practice to comment on security matters relating to UK citizens participating in witness protection programmes.

Valuation Office

Mr. Pickles: To ask the Chancellor of the Exchequer what meetings the Valuation Office Agency has had with *(a)* the Valuation and Lands Agency (including its new successor agency), *(b)* the Scottish Assessor's Association and *(c)* the Irish Republic's Valuation Office, in the last 12 months; and on what dates. [176412]

Jane Kennedy: Representatives of the Valuation Office Agency and of the organisations listed meet regularly to discuss valuation issues and practices common to the public sector, inter alia in the light of evolving case law.

Valuation Office: Data Protection

Mr. Pickles: To ask the Chancellor of the Exchequer if he will place in the Library a copy of *(a)* the Valuation Office Agency's and *(b)* HM Revenue and Customs' internal staff handbook or guidance on data security. [176401]

Jane Kennedy: It is not appropriate to put documents detailing the precise internal security arrangements of specific Government Departments or Agencies into the public domain.

Valuation Office: Pay

Mr. Pickles: To ask the Chancellor of the Exchequer what the value was of bonuses paid to staff by the Valuation Office Agency in each of the last five years; and how many payments were made in each year. [176387]

Jane Kennedy: The number of staff awarded bonuses by the Valuation Office Agency and the aggregate value of the payments made in each of the last five years is listed as follows.

	Number of staff receiving bonus payments	*Total value of payments (£)*
2003	253	287,289
2004	282	321,486
2005	0	0
2006	0	0
2007	472	225,564

For 2005 and 2006 it introduced a recognition payments voucher scheme to recognise any instance of special effort or performance—over and above the normal day-to-day expectations for a person's role: such payments could be made at any time and were not linked to the pay system.

Valuation Office: Secondment

Mr. Pickles: To ask the Chancellor of the Exchequer how many staff have been seconded to the Valuation Office Agency in the last 12 months; from which outside bodies; and what the length is of each secondment. [176434]

Jane Kennedy: Two staff have been seconded to the VOA in the last 12 months:

one from the Australian Valuation Office for six months

one from the Hong Kong Rating and Valuation Department for six months

Mr. Pickles: To ask the Chancellor of the Exchequer how many staff have been seconded to the Valuation Office Agency from outside central Government in the last 36 months; from which outside bodies; and for what period of time. [176444]

Jane Kennedy: Five staff have been seconded to the Valuation Office Agency from outside central Government in the last 36 months.

Three staff from the Australian Valuation Office (two for six months each and one for five months).

Two staff from the Hong Kong Rating and Valuation Department for six months each.

Valuation Office: Training

Mr. Pickles: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the Valuation Office Agency's *(a)* eLearning dwelling house coding module and *(b)* Quick Guide to DWH Coding. [176403]

Jane Kennedy: A copy of *(a)* the e-learning dwelling house coding module will be placed in the Library of the House. The *(b)* Quick Guide to dwelling house coding is available on the Valuation Office Agency website at:

www.voa.gov.uk

Waste Disposal: Domestic Wastes

Mr. Pickles: To ask the Chancellor of the Exchequer whether the proposed new charge for the collection of household rubbish will be classed as a tax, for statistical purposes by *(a)* HM Treasury and *(b)* the Office for National Statistics. [177151]

Angela Eagle: The income collected under the waste reduction and recycling schemes proposed in the Climate Change Bill will be classified as taxation, in accordance with national accounts guidelines. Local authorities will, however, retain the income and will be required to use it to fund rebates to local residents.

INNOVATION, UNIVERSITIES AND SKILLS

Departmental Data Protection

Jo Swinson: To ask the Secretary of State for Innovation, Universities and Skills how many confirmed security breaches of databases controlled by his Department occurred in each of the last five years; whether the breach resulted from internal or external sources in each case; how many records were compromised on each occasion; and what estimate was made of the total number of records accessible to the individuals concerned. [174565]

Mr. Lammy *[holding answer 17 December 2007]*: Except in exceptional cases, when it is in the public interest, it has been the policy of successive governments not to comment on breaches of security.

Departmental Equality

Philip Davies: To ask the Secretary of State for Innovation, Universities and Skills how much has been spent by his Depaftment *(a)* in total and *(b)* on staff costs on promoting equality and diversity in each of the last three years for which figures are available; and how many people are employed by his Department for this purpose. [173838]

Mr. Lammy: The Department for Innovation, Universities and Skills was created in June 2007 and takes promoting equality and diversity extremely seriously. There are legal duties to promote disability, ethnicity, and gender equality which cover all civil servants. This means that all members of the Department have a responsibility for promoting equality, and contribute to this through their daily work. The Department believes that reducing inequality is the key to raising attainment and improving life chances for all learners. The staff and other budgets for the former DfES can be viewed through the Department's annual reports for the last three years.

In the former DfES, and now at DCSF, there is also a small unit of thirteen people dedicated to work on anti-discrimination law, and on Human Resources and

equality, and to mainstreaming equality. That unit also supports the work of DIUS. Resources allocated to that unit for staffing, and for other costs of promoting equalities, are as follows:

£

	Salary costs	Other related costs	Total
2007-08	514,067	167,463	681,530
2006-07	563,959	161,257	725,216
2005-06	580,421	94,690	675,111

We are considering the future organisation of and support for equality and diversity work with DCSF colleagues so that we can establish the future staffing requirements for DIUS. All employees are expected to consider how they can promote equality and diversity in their individual capacities and roles.

Departmental Parliamentary Questions

Mr. Harper: To ask the Secretary of State for Innovation, Universities and Skills how many staff work in his Department's parliamentary branch; and what proportion of their time is spent on dealing with (*a*) parliamentary questions and (*b*) correspondence from hon. Members and Peers. [174966]

Kevin Brennan: I have been asked to reply.

We have six members of staff who deal with the parliamentary business for my Department and the Department for Innovation, Universities and Skills. We do not keep a record of the proportion of staff time spent dealing with parliamentary questions.

Correspondence from hon. Members and Peers is not dealt with by the parliamentary team.

National Identity Register

Mr. Philip Hammond: To ask the Secretary of State for Innovation, Universities and Skills what plans his Department has to make use of data on the National Identity Register when it is established; and what the estimated cost to his Department of that use is. [174033]

Mr. Lammy: The Department for Innovation, Universities and Skills will be working with the Home Office prior to the introduction of the National Identity scheme to establish how identity information held on the proposed National Identity Register might be used to provide easier access to Department's services for our customers. It is too early in the process to establish the detailed costs and benefits.

Near Earth Object Information Centre

Lembit Öpik: To ask the Secretary of State for Innovation, Universities and Skills how much the Government have spent on the UK Near Earth Object Information Centre since January 1999; and if he will make a statement. [174282]

Ian Pearson: Funding for the Near Earth Object Information Centre based at the National Space Centre in Leicester began in 2001 with a budget of £300,000 over three years. During this period the Near Earth Object Information Centre provided guidance on NEO close approaches and undertook a promotional and outreach programme under the guidance of the British National Space Centre, (BNSC). In 2004-05 funding from BNSC was £25,000 a year—the level at which it currently stands.

Lembit Öpik: To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of the performance of the UK Near Earth Object Information Centre against its objectives since it was established; and if he will make a statement. [174283]

Ian Pearson: The Near Earth Object Information Centre is based at the National Space Centre in Leicester. Its principle role on behalf of Government has been to provide reporting on NEO close approaches, where appropriate working with the academic community and undertaking outreach activity including information services to schools, the public and the media.

Lembit Öpik: To ask the Secretary of State for Innovation, Universities and Skills how many regional Near Earth Object Information Centres have been set up since 2001; and if he will make a statement. [174284]

Ian Pearson: I understand that the Near Earth Object Information Centre at the National Space Centre in Leicester has a formal working relationship with three centres—in London, Edinburgh and Belfast.

Near Earth Objects: International Cooperation

Lembit Öpik: To ask the Secretary of State for Innovation, Universities and Skills if he will make it his policy to plan joint working with the US Administration to address the risk posed by Near Earth Objects; and if he will make a statement. [174286]

Ian Pearson: There are regular meetings between the US Administration, including the State Department and NASA, and UK authorities. There are no current plans to work jointly on Near Earth Objects but the planned exploration initiative between the Science Technology Facilities Council and NASA may provide an opportunity to do so in due course.

Vocational Education: Olympic Games 2012

Mr. Walker: To ask the Secretary of State for Innovation, Universities and Skills what initiatives his Department has launched to use the 2012 London Olympics as a vehicle for promoting upskilling and vocational learning; and who he has appointed to lead them. [170293]

Mr. Lammy *[holding answer 3 December 2007]*: We are using the games to drive forward the broader skills agenda to bring about systemic change and ensure a legacy that is felt long term not just in London but nationwide. In the main, this will be achieved using existing initiatives such as Train to Gain, as we help

employers in meeting their skill needs to design, build and deliver the games, and encourage individuals to develop their skills so that they can compete for opportunities and progress within the labour market beyond 2012.

On the employer side, two cluster groups of Sector Skills Councils are leading two areas: one to look specifically at the issues relating to the built environment and environmental improvements for the games; and the other is looking at the staging and legacy aspects of the games. Other specific employer-led initiatives include work by Go Skills with Transport for London to build and diversify their workforce; a programme of media training placements being developed by Skillset; the National Skills Strategy for hospitality, leisure, travel and tourism in England developed by People 1st; and the National Skills Academy for Construction centre on the Olympic site which the Prime Minister announced on 29 November. Individual's initiatives include new advanced apprenticeships in sporting excellence; customer service and hospitality apprenticeships; and the LDA-led personal best programme which is currently being piloted in London but will be offered nationally and is targeted at individuals furthest away from the labour market to improve skills and promote employability.

Vocational Training: Lincolnshire

Shona McIsaac: To ask the Secretary of State for Innovation, Universities and Skills how many Train to Gain places have been made available in *(a)* North East Lincolnshire and *(b)* North Lincolnshire. [176868]

Mr. Lammy: Train to Gain is a major aspect of the drive to create a demand-led service and does not generate places in the traditional sense. Through Train to Gain, employers can access the advice and support they need to help them identify and then meet the skills their businesses need to succeed. In the first year of its operation, there were a total of 498 learners funded through Train to Gain in the North East Lincolnshire Area and 708 in the North Lincolnshire Area.

Vocational Training: Standards

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what proportion of people who started training under Train to Gain failed to complete their course in the last period for which figures are available. [174367]

Mr. Lammy: According to latest figures from the Learning and Skills Council, based on individual learner records between April 2006 and July 2007 229,470 people started learning through Train to Gain. During this same period 12,024 people left their course with no achievement, this equates to 5.2 per cent. of all starts. However, ILR information is still being updated so this figure may change. In addition there will always be learners who are still on programme but are past their planned learning end date. These learners may well complete their programme of learning.

CHILDREN, SCHOOLS AND FAMILIES

A-level: Standards

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the evidential basis is for his statement in the answer of 8 October 2007, *Official Report*, columns 389-90W, on A-level: standards, that improvements in success rates at A-level are a result of additional public expenditure on *(a)* teachers, *(b)* support staff and *(c)* school buildings; and if he will make a statement. [163102]

Jim Knight: It is the remit of the Qualifications and Curriculum Authority to regulate the public examination system. Their reports on standards over time have shown that standards in A levels have been maintained. It therefore follows that improved successes must be down to improvements in schools and young people's hard work.

Ofsted report that standards of teaching are continuing to improve. This would not have been possible without the investment that has seen the numbers of regular full-time equivalent (FTE) teachers in the maintained sector in England rise from 400,300 in 1997 to 439,300 in 2007. In addition the number of support staff employed in our schools has more than doubled, with the latest figures showing that 308,200 FTE school support staff were employed in all maintained schools in England in January 2007. This represents a rise of 174,300 since 1997.

Furthermore, there is research to show that capital investment can lead to improved pupil performance and that investment is a strong leaver on pupil and teacher motivation. Details have been placed in the Library. The Government remains committed to improving educational achievement, and to providing capital funding to improve schools and raise standards, with support for capital investment in school buildings of £21.9 billion in total over the three years 2008-09 to 2010-11, including PFI credits.

Mr. Willetts: To ask the Secretary of State for Children, Schools and Families what proportion of children identified as gifted and talented have achieved three A grades at A-level in each of the last three years. [175712]

Jim Knight: The proportion of students aged 16 to 18 identified as gifted and talented in maintained schools who achieved three A grades at A level in 2006 was 29.6 per cent. The corresponding figure for 2007 was 29.1 per cent. These figures do not include young people attending post-16 institutions. National data on gifted and talented pupils have only been collected since 2006.

Assessments: Standards

Mr. Laws: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 12 December 2007, *Official Report*, column 717W, on assessments: standards, whether it is his policy that all Key Stage national tests should be marked at addresses within the United Kingdom; and if he will make a statement. [176733]

Jim Knight: The recruitment, training and management of external markers for national curriculum tests at key stages 2 and 3 is a matter for the Qualifications and Curriculum Authority. Markers of all national curriculum tests must have an address in the United Kingdom for delivery of scripts.

CfBT Education Services

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 21 November 2007, *Official Report*, column 952W, on CfBT, what services are provided to his Department by CfBT Education Trust. [169004]

Jim Knight: CfBT Education Trust provide the following services to the Department:

Managing the delivery of a range of services for gifted and talented learners aged four-19 and their educators; Providing subject specific support to schools for the foundation subjects to support teaching of the new secondary curriculum from September 2008;

Delivering the 'Out and About Package' of 'How to' guidance, resources and continuous professional development modules for teachers/the wider workforce and others.

Children in Care

Mr. Steen: To ask the Secretary of State for Children, Schools and Families (1) how many children in the care of local authority social services are *(a)* from the EU and *(b)* from outside the EU; [176124]

(2) how many children *(a)* were in the care of local authority social services, *(b)* came into care as unaccompanied asylum-seeking children and *(c)* have gone missing from care in each of the last three years. [176125]

Kevin Brennan *[holding answer 7 January 2008]*: Information on the number of children looked after by local authorities who *(a)* come from the EU and *(b)* from outside the EU, is not collected centrally by the Department for Children, Schools and Families (DCSF).

The number of children looked after who:

(a) were in the care of local authority social services at 31 March 2005 to 2007 was as follows:

	Number
2005	61,000
2006	60,300
2007	60,000

These figures account for all children looked after at 31 March, excluding children looked after under an agreed series of short-term placements.

(b) came into care as unaccompanied asylum-seeking children i.e. started to be looked after during each of the years ending 31 March 2005 to 2007 was as follows:

	Number
2005	1,800
2006	2,300
2007	2,100

(c) have gone missing from care during each of the years ending 31 March 2005 to 2007 was as follows:

	Number
2005	860
2006	890
2007	950

These figures account for all children looked after, excluding children looked after under an agreed series of short-term placements, and where a child was reported missing from his or her agreed placement on more than one occasion during the same year, he or she has been counted only once.

Communications Directorate: Standards

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the aims are of his Department's Communications Directorate; what targets have been set for it; and if he will make a statement. [176820]

Kevin Brennan: The aim of the DCSF Communications Directorate is to provide high quality, innovative communication activities to help deliver the Department's objectives. The Communications Directorate works with departmental colleagues, partners and stakeholders to ensure a clear understanding of children, schools and families policy among all audiences.

The Communications Directorate supports the Department's strategic objectives to:

1. Secure the wellbeing and health of children and young people.
2. Safeguard the young and vulnerable.
3. Achieve world class standards in education.
4. Close the gap in educational achievement for children from disadvantaged backgrounds.
5. Ensure young people are participating and achieving their potential to 18 and beyond.
6. Keep children and young people on the path to success.

Dance

Mr. Don Foster: To ask the Secretary of State for Children, Schools and Families if he will increase the priority given to dance in the Learning Outside the Classroom manifesto. [176817]

Jim Knight: The Manifesto vision is for every young person to experience the world beyond the classroom as an essential part of learning and personal development, whatever their age, ability or circumstances. More than 750 organisations, covering a range of activities from adventure and field studies to heritage and the arts, have signed up to this vision. Signatories include the Department for Culture, Media and Sport, and individual sports colleges.

We recognise the importance of young people having opportunities to perform and to see live dance. That is why one of our eight Manifesto sector partnerships is dedicated to Creativity and Arts, represented on the national advisory group by Arts Council England.

The Department is developing an Out and About package, which will include guidance, resources and continuing professional development. The Association of Physical Education has been invited to contribute. The review of access and provision to dance both within and beyond the curriculum, led by Tony Hall, the chief executive of the Royal Opera House, will also feed into the process.

Delivery Unit

Mr. Laws: To ask the Secretary of State for Children, Schools and Families which aspects of his Department's work programme he requested the Prime Minister's Delivery Unit to look at during his September meeting with the unit; and if he will make a statement. [166686]

Jim Knight: The Secretary of State has requested that the Prime Minister's Delivery Unit look at the academies programme, in addition to departmental public sector agreements.

Departmental Data Protection

Jo Swinson: To ask the Secretary of State for Children, Schools and Families how many confirmed security breaches of databases controlled by his Department occurred in each of the last five years; whether the breach resulted from internal or external sources in each case; how many records were compromised on each occasion; and what estimate was made of the total number of records accessible to the individuals concerned. [174566]

Kevin Brennan *[holding answer 17 December 2007]*: Except in exceptional cases, when it is in the public interest, it has been the policy of successive Governments not to comment on breaches of security.

Departmental Equality

Philip Davies: To ask the Secretary of State for Children, Schools and Families how much has been spent by his Department *(a)* in total and *(b)* on staff costs on promoting equality and diversity in each of the last three years for which figures are available; and how many people are employed by his Department for this purpose. [173845]

Kevin Brennan: The Department for Children Schools and Families is committed to an agenda to narrow inequality. Under the relevant legal duties all members of the Department have a responsibility for promoting disability, ethnicity, arid gender equality. Tackling inequality is central to raising attainment and improving life chances. Details of the Department's total resources are published in our annual reports. As a Department we also aim to be an exemplary employer, ensuring that all staff have an equal opportunity to meet their aspirations and realise their potential

In the former DFES, and now at DCSF, 13 people are dedicated to work on anti-discrimination law, mainstreaming a focus on equality into all policy making, and on achieving equality as an employer. The budget for this in 2007-08 is £681,530; broken down as: salaries £514,067; other related costs £167,463.

The budget for 2006-07 was £725,216 salaries £563,959; other related costs £161,257.

The budget for 2005-06 was £675,111 salaries £580,421; other related costs £94,690.

Departmental Parliamentary Questions

Mr. Harper: To ask the Secretary of State for Children, Schools and Families how many staff work in his Department's parliamentary branch; and what proportion of their time is spent on dealing with *(a)* Parliamentary Questions and *(b)* correspondence from hon. Members and Peers. [174953]

Kevin Brennan: We have six members of staff who deal with the parliamentary business for my Department and the Department for Innovation, Universities and Skills. We do not keep a record of the proportion of staff time spent dealing with parliamentary questions. Correspondence from hon. Members and Peers is not dealt with by the parliamentary team.

Education: Appeals

Andrew Rosindell: To ask the Secretary of State for Children, Schools and Families (1) how many appeals were made to the Independent Schools Adjudicator against decisions taken by local education authorities in each year since 2000; and how many of these appeals have been successful; [176338]

(2) how many appeals against decisions taken by the Essex Local Education Authority have been directed toward the independent schools adjudicator since 2000; [176681]

(3) how many appeals made to the independent schools adjudicator against decisions taken by the Essex Local Education Authority since 2000 have been successful. [176682]

Jim Knight: Under local decision-making arrangements in force from September 1999 to May 2007, local authorities decided statutory proposals for changes to school provision in their areas where there were no objections. There was no right of appeal against local authority decisions. Other proposals were normally decided by the local School Organisation Committee (SOC) unless the SOC failed to reach a unanimous decision. In these cases, the proposal passed to the adjudicator to decide. There was no right of appeal against SOC decisions until May 2003. From May 2003, it was possible for the proposers of a new school (other than the local Church of England or Roman Catholic diocesan bodies) and the governing body of a school (other than a grammar school) proposed for expansion to appeal to the schools adjudicator against decisions made by the local SOC.

Under the new local decision-making arrangements introduced from 25 May 2007, local SOCs have been abolished and decisions are taken by the local authority in most cases. The following may appeal to the schools adjudicator against local authority decisions: the local Church of England and Roman Catholic diocesan bodies; the proposers for a new school (other than in a school competition); the governors and trustees of a foundation or voluntary schools; the Learning and Skills Council where proposals relate to a school

providing education for pupils aged 14 or over; and the governing body of a community school (other than a grammar school) that is proposed for expansion.

There was one appeal to the schools adjudicator, against a decision made by a local SOC, between May 2003 and May 2007 and this was rejected. There has been one appeal against a decision by a local authority since 25 May 2007 and this was approved. Neither of these was to a decision made by Essex local authority.

Education: Assessments

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what response his Department has made to the recommendation from the General Teaching Council in 2006 that the Government should introduce a sample test of pupils in English schools on an annual basis across the whole curriculum; and if he will make a statement. [163455]

Jim Knight: We have no record of the Department being formally approached in 2006 by the GTC for a response to their recommendations about sample testing.

Tests have, and will continue to have, an important place in this Government's strategy for further raising standards. Tests provide an objective means of assessing all pupils on a consistent basis providing information on standards nationally, improving accountability and helping inform parents and teachers how individual pupils are progressing. This could not be achieved with sample testing.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many complaints his Department has received from *(a)* primary school head teachers, *(b)* secondary school head teachers and *(c)* further education colleges on the marking standard of external exam papers in the last 12 months. [163554]

Jim Knight: The Department has received two complaints from primary school head teachers, three complaints from secondary school head teachers and one complaint from a further education college on the marking standard of external exam papers in the last 12 months.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the average time taken was for A-level papers to be re-marked after the original marks had been appealed in each year since 2001, broken down by *(a)* subject and *(b)* examination board. [163557]

Jim Knight: This information is not held centrally. However, all awarding bodies must abide by common deadlines for handling appeals. These deadlines are sent out to schools and colleges in the Enquiries About Results (EAR) booklet which is published every year by the Joint Council for Qualifications (JCQ).

Data on remarking of exam papers back to 2003 can be found in the EAR report for the summer GCSE and A level exams series. These reports are published on the QCA's website at http://www.qca.org.uk/qca_5778.aspx.

Education: Copeland

Mr. Jamie Reed: To ask the Secretary of State for Children, Schools and Families (1) how many 16 to 18-year-olds were in full-time education within Copeland in each year between 1997 and 2007; [175946]

(2) how many 16 to 18-year-olds were not in full-time education within Copeland in each year between 1997 and 2007. [175947]

Jim Knight: The requested information is not available. The Department's estimates of local participation in education and training cannot be broken down to parliamentary constituency level, and only cover people of academic age 16 and 17[1]. However, we can provide estimates for the numbers and proportions of young people of academic age 16 and 17 who were in full-time education in Cumbria between 1997 and 2005. These are provided in the following tables:

[1]Academic age is defined as the age at the beginning of the academic year, 31 August

Number of 16 and 17-year-olds in full-time education in Cumbria

	1997	1998	1999	2000	2001	2002	2003	2004	2005
16-year-olds									
In full-time education	4,123	4,137	4,351	4,168	4,454	4,231	4,342	4,540	4,540
Not in full-time education	1,910	1,703	1,668	1,946	1,769	1,941	1,869	1,953	2,035
17-year-olds									
In full-time education	3,540	3,439	3,479	3,360	3,383	3,488	3,477	3,388	3,749
Not in full-time education	2,417	2,442	2,152	2,451	2,601	2,687	2,654	2,823	2,748
16 and 17-year-olds									
In full-time education	7,663	7,576	7,830	7,528	7,837	7,719	7,819	7,928	8,289
Not in full-time education	4,327	4,145	3,820	4,397	4,370	4,628	4,523	4,776	4,783

Proportion of 16 and 17-year-olds in full-time education in Cumbria

	1997	1998	1999	2000	2001	2002	2003	2004	2005
16-year-olds									
In full-time education	68	71	72	68	72	69	70	70	69
Not in full-time education	32	29	28	32	28	31	30	30	31

Proportion of 16 and 17-year-olds in full-time education in Cumbria

	1997	1998	1999	2000	2001	2002	2003	2004	2005
17-year-olds									
In full-time education	59	58	62	58	57	56	57	55	58
Not in full-time education	41	42	38	42	43	44	43	45	42
16 and 17-year-olds									
In full-time education	64	65	67	63	64	63	63	62	63
Not in full-time education	36	35	33	37	36	37	37	38	37

Participation of 16 and 17-year-olds in education and training is published in the Statistical First Release: Participation in Education, Training and Employment by 16 to 18-year-olds in England: 2005 and 2006 and Participation in Education and Training by 16 and 17-year-olds in each local area in England: 2004 and 2005, please see the following link:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000734/index.shtml

Free School Meals: Cleethorpes

Shona McIsaac: To ask the Secretary of State for Children, Schools and Families what percentage of children were in receipt of free school meals in each school in Cleethorpes constituency in the last period for which figures are available. [176889]

Jim Knight: The available information relates to the percentage of children who are known to be eligible (and are claiming) a free school meal, and is provided in the table.

Maintained primary and secondary schools: free school meal arrangements: January 2007: Cleethorpes parliamentary constituency

School name	LA number	Estab number	Number of pupils[1]	Number of pupils known to be eligible for free school meals[1]	Percentage of pupils known to be eligible for free school meals
Alterton Primary School	812	2,000	226	45	19.9
Barton St. Peter's CofE Primary School	813	3,057	269	41	15.2
Baysgarth School	813	4,491	912	144	15.8
Bowmandale Primary School	813	2,568	285	20	7.0
Bursar Primary School	812	2,943	189	28	14.8
Castledyke Primary School	813	2,940	275	72	26.2
Coomb Briggs Primary School	812	2,577	168	11	6.5
East Halton Primary School	813	2,116	42	3	7.1
East Ravendale CofE Primary School	812	3,060	107	9	8.4
Eastfield Infants' School	812	2,179	100	10	10.0
Eastfield Junior School	812	2,178	160	39	24.4
Elliston Infants' School	812	2,112	167	53	31.7
Elliston Junior School	812	2,184	217	72	33.2
Enfield (New Waltham) Primary School	812	2,145	130	*	*
Goxhill Primary School	813	2,118	229	17	7.4
Healing Primary School	812	2,154	306	8	2.6
Healing School, A Specialist Science College	812	4,084	789	27	3.4

School Census

Further Education

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) what proportion of young people remained in full-time education in the year after they ended compulsory schooling in each year since 1997; [176975]

(2) what proportion of young people remained in full-time education two years after they ended compulsory schooling in each year since 1997. [176976]

Jim Knight: Estimates for the proportion of young people of academic age 16 and 17 participating in full-time education in each year since 1997 are shown in the following table. Academic age is defined as age at the start of the academic year, 31 August, so young people of academic age 16 are in their first year after compulsory education, and those of academic age 17 are in their second year. The estimates are based on a snapshot at the end of the calendar year.

Percentage of young people in full-time education by academic age and year

	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006
Aged 16	70.2	70.2	71.8	71.0	70.8	72.0	72.1	73.8	75.8	76.1
Aged 17	58.7	58.5	59.7	60.0	58.5	59.0	59.9	60.5	62.7	65.0

GCSE: Tower Hamlets

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the most recent GCSE performance measures are for each secondary school in Tower Hamlets; and if he will make a statement. [163308]

Jim Knight: The information is in the Library and available on the DCSF website at:

http://www.dcsf.gov.uk/cgi-bin/performancetables/group_06.pl?Mode=Z&No=211&Base=b&Type=LA&Phase=1&Year=06

The data will be updated on 10 January with results from the 2006/07 exams.

General Certificate of Secondary Education

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) what the reasons were for the decision not to proceed with the GCSE pilots for embedding functional skills assessment within GCSE English and ICT; [164421]

(2) how much his Department spent on preparing for the GCSE pilots for embedding functional skills assessment within GCSE English and ICT. [164420]

Jim Knight: We think it is important that young people have specific recognition of their functional skills as part of their 14 to 19 study and achievement. The development work done by the Qualifications and Curriculum Authority ahead of the pilot which started in September was intended to look at the feasibility of different approaches.

The work done on the embedded assessment models following the initial trials highlighted the technical difficulties of getting both a discrete assessment of functional skills attainment and a GCSE assessment out of the same exam without losing some of the essential information that is important to awarding a consistent GCSE grade. On that basis it was agreed that it would not be useful to use further resource to pursue these models as part of the pilot.

It is not possible to disaggregate the specific cost of the work done on the embedded models as part of this work.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many (*a*) GCSEs, (*b*) GNVQs and (*c*) vocational GCSE examinations have been sat by school pupils in each of the last 10 years. [172811]

Jim Knight: The information required is in the following table:

	GCSEs	GNVQs	Vocational GCSEs
1997/98	4,626,700	6,989	
1998/99	4,718,300	11,364	
1999/2000	4,718,100	14,266	
2000/01	4,944,000	20,850	
2001/02	4,957,600	67,055	
2002/03	5,030,700	91,965	
2003/04	5,137,600	48,444	106,170
2004/05	5,053,600	67,559	141,114
2005/06	5,060,500	80,197	158,350
2006/07	4,633,000	64,808	146,993

Figures include GNVQ passes only.
Vocational GCSEs began in 2003/04.
Figures for 2006/07 are provisional. Schools get the opportunity to amend their results before the revised data is published in January 2008.
Note:
The figures for 2003/04 onwards relate to all pupils at the end of key stage 4. Figures before this relate to pupils who are 15-years-old at the start of each academic year, i.e. on 31 August.

General Certificate of Secondary Education: Standards

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what his most recent target is for the proportion of pupils achieving five A* to C GCSEs by 2020; and if he will make a statement. [176695]

Jim Knight: The Children's Plan, launched on 11 December, sets out a series of world class ambitions for what we can and should achieve for children by 2020. These include a goal that every young person should have the skills for adult life and further study, with at least 90 per cent. achieving the equivalent of five higher level GCSEs by age 19.

In drawing up the plan we listened to parents, teachers and professionals, as well as to children and young people themselves. They told us what they thought was working, and what more they thought needed to be done. Over the next year, we will be consulting widely on whether the goals in the plan represent the right national ambitions.

General Certificate of Secondary Education: Welfare Tax Credits

Mr. Frank Field: To ask the Secretary of State for Children, Schools and Families if he will estimate how many and what proportion of 15-year-olds, whose parents were claiming tax credits, attained five GCSE passes at A*-C, including English and mathematics in 2007. [177155]

Jim Knight: We do not hold the information required to answer this question. However, the Statistical First Release on pupil characteristics has information on free school meal eligibility. The link below provides this:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000759/index.shtml

Literacy: Lincolnshire

Shona McIsaac: To ask the Secretary of State for Children, Schools and Families how many and what percentage of children met the Government's literacy and numeracy targets in (*a*) North East Lincolnshire and (*b*) North Lincolnshire in each of the last five years. [176888]

Jim Knight: The Government have set ambitious public service agreement (PSA) targets for the proportion of pupils nationally that should achieve the expected levels for their age in English and mathematics at the end of Key Stages 2 and 3.

The expected level of achievement at age 11 (the end of Key Stage 2) is Level 4. The Government's PSA target is for 85 per cent. of pupils to achieve level 4 or above in English and mathematics by 2006 with this level of performance sustained to 2008.

The following table gives the percentage of pupils achieving level 4 or more in Key Stage 2 English tests in North East Lincolnshire, North Lincolnshire and all English maintained schools.

	North East Lincolnshire	North Lincolnshire	England maintained only
2002/03	69	73	72
2003/04	77	76	77
2004/05	79	79	79
2005/06	75	78	79
2006/07	77	80	80

The following table gives the percentage of pupils achieving level 4 or more in Key Stage 2 Mathematics tests in North East Lincolnshire, North Lincolnshire and all English maintained schools.

	North East Lincolnshire	North Lincolnshire	England maintained only
2002/03	72	70	72
2003/04	72	72	74
2004/05	75	75	75
2005/06	75	74	76
2006/07	75	76	77

The expected level of achievement at age 14 (the end of Key Stage 3) is Level 5. The Government's PSA target is for 85 per cent. of pupils to achieve level 5 or above in English and in mathematics by 2007 with this level of performance sustained to 2008.

The following table gives the percentage of pupils achieving level 5 or more in Key Stage 3 English tests in North East Lincolnshire, North Lincolnshire and all English maintained schools.

	North East Lincolnshire	North Lincolnshire	England maintained only
2002/03	61	69	69
2003/04	62	71	74
2004/05	69	71	74
2005/06	62	70	73
2006/07	67	72	74

The following table gives the percentage of pupils achieving level 5 or more in Key Stage 3 Mathematics tests in North East Lincolnshire, North Lincolnshire and all English maintained schools:

	North East Lincolnshire	North Lincolnshire	England maintained only
2002/03	62	72	71
2003/04	67	72	73
2004/05	69	75	74
2005/06	72	77	77
2006/07	69	76	76

Marriage Guidance: Expenditure

Andrew Selous: To ask the Secretary of State for Children, Schools and Families how much has been spent on (*a*) marriage support services, (*b*) research into causes of marital breakdown and (*c*) research into ways of preventing marital breakdown as a result of section 22 of the Family Law Act 1996 in each year since it became law, and what use he plans to make of this legislation in the future. [175671]

Kevin Brennan *[holding answer 7 January 2008]:* The recently published Children's Plan commits to the development of better proposals to support parents and children during and after family breakdown, but we have no current plans to use section 22 of the Family Law Act 1996. Funding for family support services including marriage and relationship support and parenting is currently provided through the Children, Young People and Families Grant programme, using section 70 of the Charities Act 2006.

Since 2006, the family policy element of the CYPF Grant programme funds 31 organisations, of which, 23 are strategic and eight are specific projects. The total grant given in this area since the policy responsibility passed by predecessors to this Department in 2003, is as follows:

	Total family policy grant funding £ million
2002-03	10.8
2003-04	10.8
2004-05	11.3
2005-06	11.3
2006-07	10.7
2007-08	9.69

[1] Machinery of government changes funding rationalisation

The remainder of the information requested can be provided only at disproportionate cost.

Members: Correspondence

Mr. Harper: To ask the Secretary of State for Children, Schools and Families how many letters his Department and its predecessors received from hon. Members and Peers in each session of Parliament since 1997. [174927]

Kevin Brennan: The Cabinet Office, on an annual basis, publishes a report to Parliament on the performance of Departments in replying to Members/peers correspondence. Information relating to 2007 will be published as soon as it has been collated. The report for 2006 was published on 28 March 2007, *Official Report*, columns 101-04WS. Reports for earlier years are available in the Library of the House.

Minimum Wage

Jon Trickett: To ask the Secretary of State for Children, Schools and Families how many London-based staff are employed by his Department on the national minimum wage. [175676]

Kevin Brennan: All London-based staff in the Department are employed above the national minimum wage level.

Primary Education: Class Sizes

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families how many children there were on average in infant classes in Hendon in (*a*) 1997 and (*b*) 2007, and if he will make a statement. [175449]

Jim Knight: The requested information is shown in the table.

Maintained primary schools in Hendon parliamentary constituency: Classes taught by one teacher: Position at January 1997 and 2007

	1997	2007
Number of pupils	3,662	3,860
Number of classes[1]	128	128
Average class size	28.6	27.2

[1] Includes middle schools as deemed.
Classes as taught during the one selected period in each school on the day of the census in January.
[2] Includes reception classes.
Source:
School Census.

Primary Education: Play

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the average time spent by children in Key Stage (*a*) 1 and (*b*) 2 on free play during the school day. [177220]

Kevin Brennan: I have made no estimate of the average time spent by children in Key Stages 1 and 2 on free play during the school day. This is a matter for individual schools to decide and data about their choices are not collected by this Department.

There is no prescription over how much time is spent teaching the primary national curriculum, provided that all the statutory content is covered during each Key Stage. Head teachers are free to design their own timetables and, once they are satisfied that they are meeting the statutory requirements of the national curriculum, they have the freedom to introduce other experiences and subjects such as free play to meet the needs and aspirations of their pupils.

Primary Education: Public Participation

Andrew Rosindell: To ask the Secretary of State for Children, Schools and Families in what circumstances local education authorities may be exempt from new

legislation requiring that a competition consultation phase be held for all new primary schools. [176336]

Jim Knight: Under section 7 of the Education and Inspections Act 2006, competitions are required for all new primary schools, including a statutory period of consultation, unless the Secretary of State has given his consent under section 10 of the Act for proposals to be published outside a competition.

Applications for consent are considered on their individual merits, taking into account the particular circumstances in each case. Guidance issued by the Department confirms that consent may be given to applications to establish a new primary school to replace closing infant and junior schools, and also to applications to establish a new school with a religious character to replace closing schools with the same character. The guidance also sets out the principal factors that will be considered for each application as follows: the contribution the school would make to local diversity, local standards, the prospect of other proposer interest, the urgency for the school to be in place, and any views expressed by interested parties.

Private Education

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) when he will publish the findings of his consultation on the transfer of responsibility for the regulation and registration of independent schools and non-maintained special schools; [175640]

(2) in respect of which independent schools his Department has concerns on governance and management; [175645]

(3) how many officials work in his Department's independent schools team. [175646]

Jim Knight: The analysis of responses to the consultation on the transfer of responsibility for the regulation and registration of independent and non-maintained special schools will be published within the next few weeks.

There is currently no regulatory standard relating to governance and management in independent schools and we do not therefore have details available in the format requested. However, failures to meet many of the regulatory standards often stem from systemic failures in management and leadership.

There are currently 18.2 full-time equivalent (FTE) posts in the Department's independent education and boarding team.

Pupils: Diabetes

Anne Milton: To ask the Secretary of State for Children, Schools and Families whether his Department has considered issuing guidance to local education authorities on best practice by schools in the management of diabetes among pupils. [176983]

Jim Knight: This Department has already issued guidance entitled "Managing Medicines in Schools and Early Years Setting".

This guidance, published in 2005 jointly with the Department of Health, specifically addresses what schools can do to help children with diabetes and other medical conditions. We also produced sister guidance in the same year, entitled "Including me: managing complex health needs in schools and early years settings".

Pupils: Discipline

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families what steps he is taking to improve discipline in the classroom. [177492]

Kevin Brennan: The proportion of schools judged by Ofsted to have inadequate standards of behaviour is at a historic low. But pupils' behaviour can be challenging, so we are implementing a major national programme to strengthen schools' capacity in this crucial area. This includes:

- giving schools access to high-quality behaviour management training materials and consultancy, curriculum materials to help develop pupils' social and emotional skills and practical guidance on dealing with bullying;
- providing extra funding for schools facing the greatest behaviour challenges;
- reinforcing the legal basis of school discipline by giving school staff a clear statutory power to discipline pupils;
- helping schools form partnerships with other schools to strengthen behaviour management;
- reinforcing parental responsibility by enabling schools and local authorities to make parenting contracts and seek court-imposed parenting orders relating to children's behaviour; and
- giving school staff a statutory power to search pupils for weapons and encouraging schools to become involved in Safer Schools Partnerships, which place police officers on school premises.

In addition, Ofsted have issued new guidance to inspectors providing rigorous descriptors of outstanding, good, satisfactory and inadequate standards of behaviour. Inspectors will mark down any school where a significant proportion of lessons is affected by low-level disruption.

Pupils: Exercise

Lynne Featherstone: To ask the Secretary of State for Children, Schools and Families what percentage of pupils in each London borough took part in two hours or more physical exercise during the school day in each week in each of the last five years; and if he will make a statement. [175561]

Kevin Brennan: The annual national school sport survey has been running for the past four years, but the survey has only collected data by local authority since 2004-05.

The following table sets out the percentage of pupils in each local authority taking part in at least two hours of high quality PE and school sport in a typical week for the last three years. Direct comparisons between local authorities are not appropriate as the number of schools in school sport partnerships, and the length of time they have been within partnerships, differs. Since September 2006, all maintained schools in England are within a school sport partnership.

Percentage of pupils taking part in two hours high quality PE and sport by London boroughs

	Two hour take up		
London borough	*2004-05*	*2005-06*	*2006-07*
Barking and Dagenham	55	58	80
Barnet	80	84	82
Bexley	70	75	86
Brent	64	81	83
Bromley	76	82	88
Camden	69	72	82
Croydon	61	70	82
Ealing	66	88	89
Enfield	72	77	87
Greenwich	71	71	78
Hackney	49	67	84
Hammersmith and Fulham	51	62	88
Haringey	54	80	89
Harrow	72	72	84
Havering	71	74	81
Hillingdon	61	74	82
Hounslow	76	78	82
Islington	58	75	88
Kensington and Chelsea	50	74	93
Kingston upon Thames	76	69	82
Lambeth	83	89	82
Lewisham	66	71	89
Merton	60	84	87
Newham	70	86	91
Redbridge	76	76	80
Richmond upon Thames	80	86	91
Southwark	67	72	87
Sutton	59	75	88
Tower Hamlets	60	62	81
Waltham Forest	69	63	87
Wandsworth	72	88	89
Westminster	55	72	87

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of pupils took part in at least two hours of high quality physical education and school sport each week in each year from 1995-96 to 2004-05; and if he will make a statement. [176818]

Kevin Brennan: The annual PE and School Sport Survey was introduced in 2003/04 and collects data relating to participation in PE and school sport. The percentage of pupils who took part in at least two hours of high quality PE and school sport each week is as follows:

	Percentage
2003/04	62
2004/05	69

Since 2004/05, the figures have increased further, so that the 2006/07 survey found that 86 per cent. of pupils take part in at least two hours of high quality PE and school sport a week. Prior to 2003/04, no data was collected relating to the amount of time spent on PE and school sport.

School Leaving

Bob Spink: To ask the Secretary of State for Children, Schools and Families if he will commission research on the likely effect of his policy of extending compulsory education to 18 years on the demand for capacity in (*a*) secondary schools, (*b*) stand alone vocational training establishments and (*c*) further education colleges. [175780]

Jim Knight: We were already planning on the basis of our existing aspiration for 90 per cent. participation among 17-year-olds by 2015. With compulsory participation, our modelling suggests that, nationally, this does not require a big expansion of places. We estimate that there will be around 15,000 more 16 and 17-year-olds in schools in 2015 than there are this year and all of this growth is accounted for by the already planned growth in academies, most of which will have sixth forms. In FE, we estimate that in 2013 13,000 additional places will be needed compared to this year, and in 2015 another 31,000 will be needed. We are not planning to commission any further research at this stage. Demographic changes will vary between local areas and local authorities will need to use their own projections to plan accordingly.

School Meals

Mr. Laws: To ask the Secretary of State for Children, Schools and Families when he expects to determine whether his Department has met its March 2008 target for take-up of school lunches; and if he will make a statement. [176696]

Kevin Brennan: In 2008, the SFT will undertake its third annual survey of school lunch take-up, and this will show if the target has been achieved.

Increasing the take-up of school lunches remains a priority for this Department and for the School Food Trust (SFT).

Schools: Carbon Emissions

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families what steps the Government are taking to support schools in reaching targets of zero carbon emissions. [175931]

Kevin Brennan: The Children's Plan, published in December 2007, set an ambition for all new school buildings to be zero carbon by 2016. A task force will be appointed to advise on how to achieve this ambition.

We are taking action now to reduce carbon emissions in new school buildings while we work towards zero carbon. About 200 projects in buildings schools for the future and the academies programme will benefit from an additional investment of £110 million over the next three years, with the intention of reducing carbon emissions by around 60 per cent. We have published guidance on the energy efficiency and renewable energy measures that can be applied to meet the target reduction.

These initiatives support our wider aim for all schools to be sustainable schools by 2020.

Schools: Closures

Andrew Rosindell: To ask the Secretary of State for Children, Schools and Families whether local education authorities are obliged to consult interested parties before deciding to close schools. [176339]

Jim Knight: Yes. Local authorities (LAs) are required by section 16 of the Education and Inspections Act 2006 to consult such persons as appear to them to be appropriate, having regard to guidance given by the Secretary of State. Guidance states that the Secretary of State considers that the interested parties who should be consulted include: the governing body; pupils; families of pupils; teachers and other staff and the trade unions who represent them at the school and at other schools who may be affected; MPs whose constituencies include the school or other schools that may be affected; the local parish or district council; other LAs who may be affected such as neighbouring authorities where there is cross-border movement of pupils; the local diocesan authority if the school has a religious character; any trust or foundation that provides the school; and any other interested party.

Where a rural primary school is proposed for closure section 16(1) places a statutory duty on the LA to consult parents of registered pupils, the district and parish councils and for any rural special schools, any LA that maintains an SEN statement for a pupil at the school and any other persons that appear to be appropriate.

Andrew Rosindell: To ask the Secretary of State for Children, Schools and Families how many school closures occurred in the Essex Local Education Authority in each of the last five years. [176680]

Jim Knight: The numbers of schools closed in Essex local authority in each of the last five years are given in the following table.

	Number of schools closed
2002	5
2003	7
2004	3
2005	1
2006	2
2007	6
Total	24

Schools can be closed for a number of reasons including: to meet demographic changes (population decline); as part of an amalgamation; to allow a Fresh Start school to replace a school in special measures; to allow a school with a religious character to replace a school without a religious character; or as part of another type of local reorganisation.

Schools: Finance

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) what the average percentage change to the devolved formula capital grant awarded to modernised schools was in each year since 1997; and if he will make a statement; [177215]

(2) what the expected percentage change to the devolved formula capital grant awarded to modernised schools will be in each of the next 10 years; and if he will make a statement. [177216]

Jim Knight: The Devolved Formula Capital grant (DFC) has been paid to schools each year since 2000-01. The distinction between modernised schools and schools not yet modernised comes into effect from 2008-09.

The following table sets out the absolute and percentage changes in DFC allocations from 2001-02 to 2007-08.

	£ million	*Percentage change*	*Percentage change cumulative*
2001-02	294	[1](17)	[1](17)
2002-03	438	49	37
2003-04	681	56	93
2004-05	777	14	107
2005-06	782	1	108
2006-07	957	22	129
2007-08	998	4	133

[1] reduction

While the overall trend is sharply up, there are significant differences in the percentage change year-on-year. These are caused by a number of factors which cannot be easily separated out. These are *(a)* changes in total pupil population *(b)* changes in the size of individual schools *(c)* changes in the total number of schools *(d)* increases in the formulaic allocation rates per school *(d)* abatement of DFC for schools in the Building Schools for the Future programme.

The rate of DFC per modernised school for the years 2008-09 to 2010-11 remains the same as for 2007-08. Future years from 2011-12 have not yet been allocated funding. DFC can be combined with other local authority funding, in accordance with local authority asset management plans. Excluding DFC, other local authority formulaic allocations made so far for the next spending review period are £1,659 million in 2008-09, £2,311 million in 2009-10, and £2,932 million in 2010-11.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what steps he expects schools and local authorities to take when their devolved formula capital grant allocation does not meet the estimated costs repair and maintenance; and if he will make a statement. [177217]

Jim Knight: Devolved Formula Capital (DFC) allocations are allocated direct to schools for capital improvement, determined at school level. It cannot be used for a revenue purpose. Normal repair and maintenance is a revenue expense, to be paid out of revenue allocations.

When planning to spend DFC, schools should discuss with local authorities what local authorities plan to spend on schools from their formulaic capital allocations. Where necessary, DFC can be combined with these other allocations, also any other funds raised locally, to ensure that total capital expenditure meets schools' needs.

Schools: Mergers

Andrew Rosindell: To ask the Secretary of State for Children, Schools and Families how many school mergers occurred within the Essex local education authority in each of the last five years. [176679]

Jim Knight: Since January 2003, there have been nine school mergers within the Essex local authority, all of which comprise an infant and junior closing with a replacement primary school opening in their place. These are set out, by year, in the following table:

	Number
2003	3
2004	1
2005	1
2006	1
2007	3
Total	9

Schools: Milton Keynes

Mr. Lancaster: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the funding required to provide the additional school places, whether through new school provision or extension of existing schools, identified as necessary by Milton Keynes council to meet the current and future needs of the local population. [176846]

Jim Knight: No estimate has been made by the Department of the capital funding required to provide the additional new places identified by Milton Keynes local authority to meet the current and future needs of the local population, because the detailed information required to make such calculations is held locally. It is for each local authority to prioritise total capital allocations from the Department, and other capital resources available locally, between new pupil places and existing schools. In addition to the capital allocations already made, the Basic Need Safety Valve is designed to help those few authorities where there is exceptional pupil growth for the period 2008-09 to 2010-11, and its allocation takes account of the cost of new pupil places.

So far as revenue funding through the Dedicated Schools Grant (DSG) is concerned, additional pupils in schools in Milton Keynes, as elsewhere, are counted in the January preceding the start of the financial year for which the allocation is made. Any revenue start up costs for new schools are met from each local authority's allocation of DSG.

Where an authority experiences an increase in pupil numbers between January and September in any year of more than 2.5 per cent. they will be eligible for exceptional circumstances grant, full details of which are available of the Department website at http://www.teachernet.gov.uk/docbank/index.cfm?id=11544 document 9, Paragraph 40.

Schools: Public Participation

Andrew Rosindell: To ask the Secretary of State for Children, Schools and Families which interested parties are eligible to make proposals during the newly introduced competition consultation phase for all new schools. [176337]

Jim Knight: Any person or body is free to bring forward proposals for a new school in response to a local authority's invitation to bid in a competition. We would particularly welcome proposals from local parents' groups, other successful schools and universities, the charitable arms of businesses and other voluntary groups, or combinations of these drawing on the strengths of each. We would also welcome proposals from faith groups where there is demand from parents for a faith based education.

Schools: Standards

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many schools have been categorised as *(a)* requiring significant improvement and *(b)* being in special measures in each term since May 1997; and which schools in each local authority were in each category at the latest date for which figures are available. [172085]

Jim Knight: This is a matter for Ofsted. HMCI Christine Gilbert will write to the hon. Member and place a copy in the Library of both Houses.

Letter from Christine Gilbert, dated 17 December 2007:

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for a response.

Table A below shows the number of schools that have been placed in special measures during each term from autumn 1997 to the end of summer term 2007. Table B lists the schools which are considered to require significant improvement (see explanation below). The numbers shown are for schools going into the categories each term, rather than a running total of those in the categories at any given time. The data provided runs from the autumn term rather than May 1997, because data that is collated by Ofsted is in full terms and complete academic years.

Please note that in September 2005, the inspection cycle was changed to three years and a new category of 'Notice to improve' was introduced, covering all schools considered to require significant improvement. These are schools which are performing significantly less well than they might reasonably be expected to given their circumstances. A school which is currently failing to provide an acceptable standard of education, but has the capacity to improve, will also be in this category.

Prior to September 2005 there were three categories of schools requiring significant improvement: 'Serious Weaknesses', 'Underachieving' and 'Inadequate Sixth Forms'. These categories are similar, although not identical, to the 'Notice to Improve' category insofar as they encompass all aspects of inadequacy not covered by 'Special Measures'. All schools in these categories have since been re-inspected under the revised Section 5 inspections framework.

Statistics showing schools in each local authority that are now in each category (up to 31 August 2007) can be found on the Ofsted website at www.ofsted.gov.uk, in the "Publications and Research—Statistics" section. These are very large documents, and best viewed online.

The school lists on these pages are produced each term. The data changes daily and some of the schools that have been placed in categories this term are still going through the moderation process and so their categorisation has not yet been published. The schools lists and data for the autumn term 2007 will be published on the Ofsted website at the end of January 2008.

A copy of this letter has been sent to Jim Knight MP, Minister of State for Schools and Learners and will be placed in the library of both Houses.

Table A: Schools placed in special measures in each term from autumn 1997 to summer 2007

	Primary	Secondary	Special	PRUs	Nursery	Total
Autumn 1997	81	13	9	2	0	105
Spring 1998	48	17	4	2	0	71

Table A: Schools placed in special measures in each term from autumn 1997 to summer 2007

	Primary	Secondary	Special	PRUs	Nursery	Total
Summer 1998	81	13	20	1	0	115
Autumn 1998	60	14	7	1	0	82
Spring 1999	43	4	4	1	1	53
Summer 1999	38	11	6	4	0	59
Autumn 1999	60	13	5	1	0	79
Spring 2000	70	15	6	4	0	95
Summer 2000	38	10	5	3	0	56
Autumn 2000	35	8	1	3	0	47
Spring 2001	27	11	6	1	0	45

Spring 2007	30	13	3	2	0	48
Summer 2007	45	7	2	1	0	55

Table B: Schools requiring significant improvement in each term from autumn 2005 to summer 2007

	Primary	Secondary	Special	PRU	Total
Autumn 2005	73	43	1	3	120
Spring 2006	77	42	0	6	125
Summer 2006	57	11	2	3	73
Autumn 2006	78	30	1	3	112
Spring 2007	49	34	2	2	87
Summer 2007	48	12	2	4	66

Secondary Education

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of qualifications awarded at Key Stage 3 in each of the last three years has been *(a)* academic and *(b)* vocational; and if he will make a statement. [172810]

Jim Knight: The information required is in the following table.

	2004/05	2005/06	2006/07[1]
Percentage of qualifications awarded that were academic[2]	95.8	94.9	94.4
Percentage of qualifications awarded that were vocational[3]	4.2	5.1	5.6
Total number of qualifications awarded	5,656,255	5,800,244	5,469,728

[1] Figures for 2006/07 are provisional. Schools get the opportunity to amend their results before the revised data is published in January 2008.
[2] Academic qualifications include: GCSEs, GCSE short courses, entry level qualifications, key skills, basic skills and AS levels.
[3] Vocational qualifications include: vocational GCSEs, GNVQs, VRQs, NVQs, NVQ language units and vocational AS levels.
Note:
These figures relate to all pupils at the end of key stage 4.

Secondary Education: Closures

Bob Spink: To ask the Secretary of State for Children, Schools and Families if he will make it his policy to impose a moratorium on secondary school closures until he has assessed the likely increased demand on secondary school places resulting from the extension of full-time education to 18 years; and if he will make a statement. [175779]

Jim Knight: School place planning is the statutory responsibility of local authorities (LAs) and the Secretary of State has no role. It is for each LA to determine whether to propose the closure of a secondary school and the final decision will be taken by the LA in most cases. An appeal to the schools adjudicator can be made in specific cases. Our modelling suggests that introducing compulsory participation for 16-year-olds in 2013 and 17-year-olds in 2015, does not require a big expansion

of places. We estimate that there will be around 15,000 more 16 and 17-year-olds in schools in 2015 than there are this year and all of this growth is accounted for by the already planned growth in academies, most of which will have sixth forms. In FE, we estimate that in 2013 13,000 additional places will be needed compared to this year, and in 2015 another 31,000 will be needed. Demographic changes will vary between local areas and local authorities will need to use their own projections to plan accordingly.

Specialised Diplomas: Assessments

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what assessment and examination arrangements will be used to assess student attainment in *(a)* the foundation diploma and *(b)* the higher diploma; and if he will make a statement. [176974]

Jim Knight: The diploma is a composite qualification made up of new and existing qualifications and therefore a variety of approaches will be used to assess student achievement at all levels. Assessment and examinations arrangements will be appropriate to the nature of the learning being undertaken, rigorous, reliable and fair.

Given the applied nature of the diploma, there will be a strong emphasis on controlled internal assessment, as well as external testing. The National Assessment Agency are currently working closely with the Qualifications and Curriculum Authority to develop a standardised approach to controlled internal assessment, to ensure the professional expertise of local assessors and set standards for high quality, rigorous assessment practice.

The diploma is graded at all levels. To achieve the overall diploma qualification, students will need to pass all components within the diploma, including the functions skills and additional and specialist learning, much of which is exam-based and externally assessed. Awarding Bodies have set out requirements for assessment and examination arrangements both for the new components of the diploma qualification (i.e. principal learning and project) and for existing qualifications that make-up the diploma.

Sure Start Programme: Finance

Derek Wyatt: To ask the Secretary of State for Children, Schools and Families what recent discussions he has had with Kent county council (KCC) on its ring-fenced funding for Sure Start; whether his Department and KCC have agreed that funding; and what mechanisms are in place to ensure that KCC spends that funding in accordance with criteria set down by his Department. [177243]

Beverley Hughes: My officials wrote to local authorities in August this year giving details of the ringfenced Sure Start, Early Years and Childcare Grant (formerly the General Sure Start Grant) for the next three financial years. The letter explained that the grant contained ringfenced funding that must be used for

> "services in Sure Start Local Programmes (SSLPs), and centres based on SSLPs, and cannot be used for new children's centres".

I had previously discussed funding levels for SSLPs with Kent county council (KCC) and the hon. Member for Sittingbourne and Sheppey in July in advance of these allocations being made. In December there was a conversation between a senior official in my Department and KCC in which it was confirmed that funding remains ringfenced to be used for SSLPs and children's centres based on SSLPs. The Grant has not yet been formally offered or accepted. A Memorandum of Grant will be issued to KCC for signature before the start of the next financial year that will set out the conditions attached to the Grant including details of the financial information that KCC are required to send to my Department. In addition the Sure Start, Early Years and Childcare Grant is audited annually by auditors appointed by the Audit Commission and audit returns are passed to my Department.

Teachers: Enfield

Joan Ryan: To ask the Secretary of State for Children, Schools and Families how many *(a)* primary and *(b)* secondary school teachers were employed in the London Borough of Enfield in each of the last 10 years. [177028]

Jim Knight: The following table provides the full-time equivalent number of regular teachers employed in Enfield local authority maintained nursery, primary and secondary schools in each January between 1998 and 2007, the latest information available.

Full-time equivalent regular teachers in local authority maintained schools in Enfield local authority, January of each year

	Nursery and primary	Secondary
1998	1,140	1,310
1999	1,130	1,350
2000	1,270	1,300
2001	1,180	1,310
2002	1,300	1,250
2003	1,270	1,430
2004	1,300	1,460
2005	1,310	1,520
2006	1,350	1,560
2007	1,370	1,550

Source:
Annual survey of teachers in service and teacher vacancies, form 618g.

Teachers: Pay

Jeremy Corbyn: To ask the Secretary of State for Children, Schools and Families what discussions he has had with CEA and the District Auditor on Islington teachers' salaries for the year 2003-04, notably their pension liabilities and related fiscal risks to the Government; and if he will make a statement. [176856]

Jim Knight: The Secretary of State has not held any discussions with CEA or the District Auditor about Islington teachers' salaries or pension liabilities and related fiscal risks to the Government for the year 2003-04. For the year in question, the District Auditor provided an unqualified certification in respect of the pension contributions payable to the Teachers' Pension Scheme relating to teachers in Islington.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Departmental Travel: Brussels

Kate Hoey: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much his Department and its predecessor spent on Eurostar tickets to Brussels in each of the last 11 years. [175435]

Mr. Thomas: Details of the amount spent by BERR, and previously by DTI, are only available for the period from June 2002 to date.

	£
June - December 2002	289,185
January - December 2003	529,566
January - December 2004	493,277
January - December 2005	624,281
January - December 2006	452,617
January 2007 to date	389,186

Christmas

Malcolm Bruce: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether it is his Department's policy to use *(a)* incandescent light bulbs and *(b)* LED lights for festive decorations on departmental premises. [173507]

Mr. Thomas: My Department uses incandescent lights for its festive decorations at the moment.

Malcolm Bruce: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what his Department's policy is on the selection of *(a)* real and *(b)* artificial Christmas trees for his Department's festive decorations; and how real trees are disposed of. [173534]

Mr. Thomas: My Department has four Christmas Trees on its Estate. Two of these trees are real and are recycled by our foliage company. One of the artificial trees is reused each year. The other artificial tree is hired from our foliage company and returned to them at the end of the hire period.

Defence Export Services Organisation: Manpower

Tom Brake: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many staff were employed by the Defence Export Services Organisation; how many of those have been transferred to UK Trade and Investment; and if he will make a statement. [175370]

Mr. Thomas: At the end of November 2007 the Defence Exports Services Organisation had 445 staff. When transferred to UK Trade and Investment on 1 April 2008, it will initially comprise approximately 240 posts.

Departmental Aviation

Mr. Hayes: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much has been spent by his Department on international flights since it was established. [174354]

Mr. Thomas: Since 1999 the Government have published a list of all overseas travel by Cabinet Ministers costing over £500. Information for the last financial year was published on 24 July 2007. Details for the current financial year will be published as soon as possible after the end of the financial year. From next year, the list will include details of overseas visits undertaken by all Ministers. All ministerial travel is undertaken in accordance with the Ministerial Code.

Information in respect of flights taken by officials could be provided only at disproportionate cost.

Departmental Correspondence

Jo Swinson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when the Minister for Postal Affairs will reply to the letter sent by Councillor Charles Kennedy of East Dunbartonshire Council on Kirkintilloch Post Office. [175605]

Mr. McFadden *[holding answer 7 January 2008]:* We believe that the last letter Councillor Kennedy wrote to this Department on Kirkintilloch Post Office was dated 20 April. We replied on 3 May.

Departmental Manpower

David Simpson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many *(a)* EU foreign nationals and *(b)* non-EU foreign nationals are employed by his Department. [168133]

Mr. Thomas: The information is not easily available and could be provided only at disproportionate cost.

Departmental Parliamentary Questions

Mr. Harper: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many staff work in his Department's parliamentary branch; and what proportion of their time is spent on dealing with *(a)* parliamentary questions and *(b)* correspondence from hon. Members and Peers. [174962]

Mr. Thomas: Three members of staff in the Department for Business, Enterprise and Regulatory Reform parliamentary unit work full-time dealing with parliamentary questions and it is estimated that the head and deputy head of the unit spend a combined 20 per cent. of their time on parliamentary questions when the House sits. Other staff within the Department handle correspondence work from hon. Members and Peers.

Departmental Public Expenditure

Mr. Letwin: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the Winter Supplementary Estimates (HC 29), if he will break down his Department's *(a)* main estimate and *(b)* winter supplementary estimate provision by subhead in (i) near cash and (ii) non-cash terms. [174990]

Mr. Thomas: The total non cash included in the main estimate for the Department for Business, Enterprise and Regulatory Reform was £225,378k and in the winter supplementary estimate, £293,636k. The breakdown between the near and non cash figures is included in the Part II Resource to cash reconciliation.

All expenditure on the main estimate for RfR2 was near cash; the breakdown of the RfR1 resource expenditure subheads between near cash and non cash is shown in the following table:

Sub head	Main estimate near cash (i) £ (000)	Main estimate non cash (ii) £ (000)	Winter supplementary estimate near cash (i) £ (000)	Winter supplementary estimate non cash (ii) £ (000)
A1	498	7,401		
A2	266,157	32,455

Departmental Recycling

Mr. Pickles: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recycling schemes are in operation in each building operated by his Department. [176366]

Mr. Thomas: My Department currently recycles paper, card, plastic, cans, and toners at the following buildings on our HQ Estate; 1 Victoria Street, Kingsgate House, Westfield House, St. Mary's House and Atholl House.

Additionally batteries are recycled at 1 Victoria Street, Kingsgate House and Atholl House.

Glass recycling has recently been added to 1 Victoria Street.

Departmental Redundancy

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the cost was of redundancies in his Department in the 12 months preceding *(a)* 30 June 2004, *(b)* 30 June 2005 and *(c)* 30 June 2006. [175340]

Mr. Thomas: Details of the costs of redundancies (including voluntary early retirements and severance) of staff leaving the former DTI (now the Department

for Business, Enterprise and Regulatory Reform) are not readily available in the format requested for the 12 month periods preceding (*a*) 30 June 2004 and (*b*) 30 June 2005 and the cost of preparing the answer would be disproportionate.

However the cost of voluntary departures for the period from April 2005 to June 2005 was £1.37 million and for the period July 2005 to June 2006 was £3.25 million.

Energy

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much was spent on legal costs associated with the judicial review of the energy review process. [175679]

Malcolm Wicks: The Government's legal fees incurred with respect to the Greenpeace judicial review were around £81,000. However, this does not include the costs of Greenpeace, which remain the subject of discussion, or of Government consideration of the amount of those costs.

Mr. Prisk: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of whether his Department will reach the target of 15 per cent. improvement in energy efficiency by 2010. [175961]

Mr. Thomas: Since 1999 my Department has made progress in energy efficiency by reducing the size of the property estate space by 46 per cent. with a decrease of 11.2 per cent. in energy consumption.

BERR will make further energy efficiency improvements by 2010.

Mr. Prisk: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what improvements his Department made in (*a*) 2005-06 and (*b*) 2006-07 towards the 15 per cent. improvement in energy efficiency by 2010. [175962]

Mr. Thomas: BERR are working toward achieving the energy efficiency targets expressed in the Sustainable Operations on the Government Estate (SOGE) framework. The targets set are to improve the energy efficiency of the buildings on the estate by 15 per cent in terms of KWH usage and that used per square metre by 2010-11.

The main strategy to improve energy efficiency is to reduce the physical size of the estate and the number of buildings. As a result the BERR estate has been reduced by 46 per cent with a decrease of 11.2 per cent in energy consumption since 1999 to 2000. This included the introduction of flexible desking throughout our main buildings on the basis of eight work stations for every 10 staff.

The Department has also implemented a number of energy efficiency initiatives since the target was published. In 1 Victoria Street this included a number of energy efficiency projects to improve lighting and environmental controls as well as occupant awareness. The Department has also undertaken a study into the use of localised micro-generation of energy on the estate. Energy efficiency is taken into account in any estate project undertaken and has included the introduction of energy minimising technology within the recent IT systems refresh.

Engineering: Research

Mr. Olner: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much the Government are proposing to spend on engineering research in (*a*) 2008, (*b*) 2009 and (*c*) 2010. [166266]

Ian Pearson: I have been asked to reply.

The Engineering and Physical Sciences Research Council (EPSRC), funded by the Government through the Science budget, invests in high-quality basic, strategic and applied research and related postgraduate training to maintain and develop a strong research base in engineering and the physical sciences; and to promote future economic development and an improved quality of life in the UK.

EPSRC has provided £257 million to support engineering research in 2007-08. This is expected to rise to £271 million in 2008-09, £277 million in 2009-10 and £284 million in 2010-11, depending on the quality of proposals received by EPSRC.

EU Grants and Loans

Mr. Heathcoat-Amory: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much and what proportion of the structural funds allocated to the UK under the 2000 to 2006 EC financial perspective have been paid out to date. [176047]

Mr. Timms: To the end of December 2007, approximately £9.5 billion of the United Kingdom's structural funds allocations under the 2000-06 financial perspective has been spent (paid to projects). This is some 83 per cent. of the overall allocation of approximately £11 billion. Expenditure by these structural funds programmes continues until 31 December 2008.

Exports: Renewable Energy

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the future export potential of each sector of the UK renewables industry. [175686]

Malcolm Wicks: My Department has not made any such estimate. However, the Government published 'UK Energy Excellence: an International Marketing Strategy for the UK's Energy Business' for the UK's energy sector (which includes renewables) on 17 December 2007. This is available from BERR's website at:

https://www.uktradeinvest.gov.uk/ukti/fileDownload/UKEnergyExcellenceBrochure.pdf?cid=412811.

Inward Investment

Mr. Clifton-Brown: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much inward investment was made to the UK for each £1 spent on attracting inward investment by UK Trade and Investment in the most recent period for which figures are available. [172138]

Mr. Thomas: We welcome the capital invested in the UK by foreign-owned companies. However, we do not collect comprehensive data about it. This is because we are seeking to attract companies in knowledge-driven sectors that bring in new technologies or management methods, so as to improve the UK's competitiveness and productivity over the long term. Injections of capital, though important, are less sustainable.

Minimum Wage

Jon Trickett: To ask the Secretary of State, for Business, Enterprise and Regulatory Reform how many London-based staff are employed by his Department on the national minimum wage. [175977]

Mr. Thomas: Across the Department for Business, Enterprise and Regulatory Reform, there are no London-based staff who are employed on the national minimum wage.

Mining: Sports

John Mann: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what meetings he has had with ministerial colleagues on the effect of the development of miners' welfares for participation in sports. [174651]

Malcolm Wicks *[holding answer 17 December 2007]:* I have had no such meetings.

New Businesses

Mr. Hepburn: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the number of new *(a)* small and *(b)* medium-sized businesses started up in (i) Jarrow constituency, (ii) South Tyneside, (iii) the North East and (iv) England in each year since 1997. [177062]

Mr. Timms: VAT registration data provide the only accurate indicator of the level of business start-up activity.

The number of new VAT registrations in Jarrow, South Tyneside, the North East and England are shown in the table for 1997 to 2006, alongside the total number of VAT registered businesses at the start of each year. Data for registrations and de-registrations in 2007 will be available autumn 2008.

Although only data for businesses of all sizes registered for VAT is published by BERR, it is estimated that the majority (97.9 per cent.) of these will be small (with fewer than 50 employees) and 1.7 per cent. will be medium-sized (with 50-249 employees).

New VAT registrations and start of year stock of VAT registered businesses

	New registrations				*Start of year stock*			
	England	*North East*	*South Tyneside*	*Jarrow*	*England*	*North East*	*South Tyneside*	*Jarrow*
1997	159,935	4,060	190	105	1,379,260	42,455	1,690	935
1998	160,360	4,105	185	95	1,414,080	42,720	1,715	945
1999	155,630	4,185	195	100	1,449,995	43,170	1,765	975
2000	157,815	4,275	175	100	1,476,330	43,680	1,815	980
2001	149,460	4,180	185	100	1,503,765	44,335	1,810	980
2002	155,770	4,390	205	115	1,521,285	44,520	1,830	990
2003	168,250	4,900	235	115	1,541,155	45,100	1,845	1,000
2004	160,565	4,460	195	100	1,574,270	46,240	1,900	1,020
2005	158,995	4,665	195	110	1,602,230	47,085	1,945	1,050
2006	159,315	4,630	210	125	1,635,845	48,280	1,990	1,080
2007					1,670,500	49,435	2,050	1,130

Source:
Business start-ups and closures: VAT registrations and de-registrations in 2006 available at: http://stats.berr.gov.uk/ed/vat/index.htm

Although the number of new registrations has fluctuated over the period, the total number of VAT registered businesses in Jarrow, South Tyneside, the North East and England has increased.

In Jarrow, the total number of VAT registered businesses has increased from 935 at the start of 1997 to 1,130 at the start of 2007, an increase of 195 (21 per cent.).

The total number of VAT registered businesses in South Tyneside has increased from 1,690 at the start of 1997 to 2,050 at the start of 2007, an increase of 360 (21 per cent.).

Post Offices

Mr. Pickles: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many post offices there are in each parliamentary constituency in the United Kingdom. [176333]

Mr. McFadden: Post Office Ltd. annually places in the Libraries of the House a list of all post offices in the network by parliamentary constituency. The list gives post office name, post town and post code.

Post Offices: Closures

Jo Swinson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what the length of the Government's outstanding lease on the Post Office building on Kerr Street, Kirkintilloch is; [175604]

(2) what procedures there are to deal with outstanding leases remaining on Government properties that have been vacated following closures of post office branches. [175603]

Mr. McFadden *[holding answers 7 January 2008]:* This is an operational matter for Post Office Ltd.

(POL). I have therefore asked Alan Cook, Managing Director of POL, to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Mr. Pickles: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what instructions his Department gave to Royal Mail on announcing details of Post Office closures in the month during the run up to the 2008 local elections in England and Wales. [176364]

Mr. McFadden: The normal purdah arrangements, set out in Cabinet Office guidance which has been observed by successive administrations of both parties for many years, take effect every year during local elections. The guidance clearly states that consultations should not be launched, and decisions relating to them announced, in an election period. This will apply to post office closure proposals and decisions from 7 April to 2 May in respect of the local elections to be held in England and Wales on 1 May 2008.

Postal Services

Dan Rogerson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the proportion of stamps which remained unfranked by the Royal Mail's mail management systems in 2006-07; and if he will make a statement. [176647]

Mr. McFadden *[holding answer 7 January 2008]*: This is an operational matter for which Royal Mail has direct responsibility. I have therefore asked the Chief Executive of Royal Mail, Adam Crozier, to provide a direct reply to the hon. Member. A copy of the response will be placed in the Libraries of the House.

Regional Development Agencies: Trade Unions

Mr. Pickles: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what grants were given by each regional development agency to trades unions in the last 24 months. [176361]

Mr. Timms: The following funding has been provided by RDAs to trade unions in the last 24 months:

RDAs	*Grants (£000)*	*Trade union*	*Project*
Advantage West Midlands	425	Unity Trade Union	Work force development project, ensuring individuals subject to redundancy were aware of skills in demand in their local area.
South East England Development Agency	3	National Farmers Union	Sponsorship support for the International Association of Horticultural Producers Conference 2007

The following funding has also been provided by RDAs in the last 24 months to the Trade Union Congress:

RDAs	*Grants (£000)*	*Project*
Advantage West Midlands	63	Improving workplace skills project
London Development Agency	115	Diversity works project
London Development Agency	216	Adult Learners Week fund
One North East	150	Working together project, to help local companies raise their profile
South West Regional Development Agency	591	Learning Works for All project. To increase regional cohesion of union led workforce development. To complement and enhance Learn Direct in Swindon and implementation of a union academy 2006-2009.
South West Regional Development Agency	28	Equality South West project, to support equal opportunities in the region
South West Regional Development Agency	3	Work force development project
South West Regional Development Agency	3	Support for Food and Drink Conference 2007.
Yorkshire Forward	67	Support to Yorkshire and Humber TUC to assist in the delivery of the regional economic strategy.

Regulatory Impact Assessments: Public Sector

Mr. Pickles: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether impact assessments are required for legislation or regulation that imposes costs on public authorities, but not the private sector. [176334]

Mr. McFadden: Any proposal affecting costs in the public sector requires an impact assessment unless the

costs fall beneath a pre-agreed threshold (generally £5 million) and the proposal is not likely to attract high levels of political or media interest. In cases where costs are small and there is limited interest, only a developmental/option stage impact assessment is necessary.

The official guidance on impact assessments, which was revised in the spring of 2007, is available at http://bre.berr.gov.uk/regulation/documents/ia/pdf/iag.pdf

Renewable Energy

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate his Department has made of the contribution of plant development under the renewables obligation in providing despatchable capacity for the United Kingdom's electricity grid. [175688]

Malcolm Wicks: According to the latest available figures, up to end 2006 plant development under the RO had contributed 2046 MW of despatchable capacity (comprising generation from large and small hydro, co-firing, landfill gas, municipal solid waste combustion, sewage sludge digestion and other biofuels and waste, but excluding wind and solar).

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate has been made of the likely system costs arising from the part-loading and increased maintenance of plant operating outside the balancing mechanism but affected by fluctuating power flows resulting from the renewables required to meet (*a*) current renewable electricity targets and (*b*) those likely to be required under the EU 20 per cent. renewables target for total primary energy. [175703]

Malcolm Wicks: This is an issue that is best directed at the generator companies themselves who may be able to provide specific information on costs. However, it seems likely that any additional maintenance costs incurred by conventional plant that is required to part-load or regulate its output will be reflected in the prices charged for reserve/balancing services. From work done by the UK Energy Research Council and others it is estimated that the balancing/reserve costs likely to be incurred in meeting the Government's current renewables target for 2010 would lie in the range of £0.2 to £2.9/MWh, which would equate to an increase in electricity prices of up to 0.06p/kWh.

It is too early to estimate what proportion of the UK contribution to the EU 20 per cent. target will come from any particular source of renewable energy and the impact that might have in terms of increased part-loading or maintenance costs incurred by conventional plant. Agreement has not yet been reached on the contribution that each member state will make towards the 20 per cent. target, but we will consult in 2008 on policy options to meet the UK'S contribution and publish our full UK renewable energy strategy the following spring once the EU directive has been agreed.

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate has been made of the likely change in overall system costs due to network expansion to support renewables required to meet (*a*) current renewable electricity targets and (*b*) those targets likely to be required under the EU 20 per cent. renewables target for total primary energy; and how much of the likely costs are attributable to the (i) transmission and (ii) distribution system. [175704]

Malcolm Wicks: In terms of investment in the transmission system, Ofgem have agreed £560 million specifically to connect new renewable generation in Scotland and the North of England, which will contribute to the delivery of the Government's 2010 renewable targets. In addition, the current Transmission Price Control, which covers the five year period up to March 2012, allowed a further £3.8 billion of investment to cover network refurbishment and the costs of accommodating new generators of all types. The Transmission Price Control Review (TPCR) also provides flexible funding for the connection of additional generation in excess of that assumed in its base allowances. This flexible mechanism will provide funding for additional renewable generation, as it comes forward.

Similarly, in terms of the distribution networks, Ofgem has sanctioned funding of some £5.7 billion over the five year period from 2005 to 2010 via the Electricity Distribution Price Control Review (EDPCR) to cover network refurbishment and development, including that associated with the connection of generation. The EDPCR also provides explicit schemes to help Government achieve their 2010 targets for renewable energy and for the connection of combined heat and power (CHP), including direct incentives for the connection of distributed generation and development of innovative connection schemes.

Looking beyond the timescale of the current transmission price control, it is too early to estimate what proportion of the UK contribution to the EU 20 per cent. target will come from any particular source of renewable energy and what the implications might be for the transmission and distribution systems. Agreement has not yet been reached on the contribution that each member state will make towards the 20 per cent. target, but we will consult in 2008 on policy options to meet the UK's contribution and publish our full UK renewable energy strategy the following spring once the EU directive has been agreed.

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate has been made of the change in system balancing costs of adding the non-despatchable generators to the UK portfolio required to reach (*a*) current renewable electricity targets and (*b*) those targets likely to be required under the EU 20 per cent. renewables target. [175705]

Malcolm Wicks: It is estimated that the additional annual balancing costs that are likely to be incurred in meeting the Government's current renewables target for 2010 would lie in the range of £0.2 to £2.9/MWh, which would equate to an increase in electricity prices of up to 0.06p/kWh.

It is too early to estimate what proportion of the UK contribution to the EU 20 per cent. target will come from any particular source of renewable energy and the impact that will have on overall balancing costs. Agreement has not yet been reached on the contribution that each member state will make towards the 20 per cent. target, but we will consult in 2008 on

policy options to meet the UK'S contribution and publish our full UK renewable energy strategy the following spring once the EU directive has been agreed.

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether an estimate has been made of the likely effect of renewable generation supported by the renewables obligation on the thermal efficiency of gas-fired electricity generation. [175706]

Malcolm Wicks: No such estimate has been made.

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what meetings *a* he and *b* his Ministers have held with representatives of manufacturers of components for the renewables industry in the last 12 months. [175707]

Malcolm Wicks: There have not been any meetings between *a* the Secretary of State for Business, Enterprise and Regulatory Reform or *b* other BERR Ministers and representatives of manufacturers of components for the renewables industry in the last 12 months.

However, BERR Ministers have had a number of meetings with representatives from the microgeneration industry, including trade associations and companies in the last 12 months.

Renewables Obligation

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps are being taken to reduce deadweight subsidy under the renewables obligation. [175690]

Malcolm Wicks: The document 'Reform of the Renewables Obligation'[1] sets out proposals to band the RO so more expensive renewable energy generation technologies, especially those at an earlier point in their development of technology and business model, are awarded more than projects in more economic technologies.

It is estimated that these proposals should lead to a deadweight cost reduced by £3.4 billion compared to the current model.

[1] http://www.berr.gov.uk/files/file39497.pdf

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the deadweight subsidy provided by the renewables obligation since 2002; and how much he expects such deadweight subsidy to total in the period up to 2027 assuming the obligation is not revised. [175691]

Malcolm Wicks: There has been no estimate of the deadweight subsidy provided by the renewables obligation since 2002.

If there are no changes to the current model the lifetime deadweight subsidy (defined as cost to the consumer less the resource cost) is estimated to be £9.1 billion. The assumptions on which this figure is based are set out in the report 'Reform of the renewables obligation: what is the likely impact of changes'[1] which was published alongside the recent consultation.

The changes proposed in the May 2007 consultation on 'Reform of the Renewables Obligation' are estimated to lead to a reduced deadweight cost of £3.4 billion compared to the current model.

[1] http://www.berr.gov.uk/files/file39039.pdf

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what his most recent estimate is of the cost to consumers of the renewables obligation in each year since 2002; and how much he expects it to be in each year until 2027. [175692]

Malcolm Wicks: We have not broken down the cost to consumers on an annual basis but the report 'Reform of the renewables obligation: what is the likely impact of changes'[1], which was published alongside the May 2007 consultation on reform of the renewables obligation (RO), gives a lifetime cost to consumers of £23.7 billion under the current model and £25.1 billion under a banded RO.

[1] http://www.berr.gov.uk/files/file39039.pdf

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the internal rates of return accrued by developers of renewable energy electricity generation projects under the renewables obligation in the technology sectors. [175693]

Malcolm Wicks: No such estimate has been made. However, the report by Ernst and Young 'Impact of banding the Renewables Obligation: cost of electricity production'[1] published alongside the May 2007 consultation on reform of the RO estimated the cost of capital likely to be required for projects using different technologies.

[1] http://www.berr.gov.uk/files/file39038.pdf

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps are being taken to limit the renewables obligation's cost to the consumer in circumstances where renewable technologies or developments cease to require support as a result of rising wholesale electricity prices or falling project capital expenditure. [175697]

Malcolm Wicks: Proposals to review bands were set out in the document 'Reform of the Renewables Obligation'[1].

The criteria to be taken into account in reviewing bands set out in that document include consideration of the full project costs (including the costs of scoping, planning, construction, grid connection, transmission charges etc.) and incomes (for example, due to the wholesale price of electricity, the avoided cost of schemes such as the EU ETS, landfill tax and the climate change levy etc.).

[1] http://www.berr.gov.uk/files/file39497.pdf

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps are being taken to limit the renewables obligation's cost to consumers once targets are met. [175698]

Malcolm Wicks: The Government have a target that 10 per cent. of UK electricity should come from renewable sources by 2010, subject to costs to the consumer being acceptable, with an aspiration to double this by 2020. This target will be revised pending the outcome of discussions with the Commission and other member states over achievement of the EU target to supply 20 per cent. of Europe's energy from renewable sources by 2020.

The UK is committed to implementing our share of this target in the most cost-effective way and will be consulting on policy measures to meet the target in 2008. The UK Renewable Energy Strategy will be published in spring 2009.

The renewables obligation is set at 10.4 per cent. of electricity supply for 2010, and we have announced our intention to let the obligation increase to a level equivalent to 20 per cent. on a headroom basis. The level of the obligation is not the same as a target, the obligation is set at a level of electricity supply from renewable sources just above that which we expect the market to deliver. The cost to consumers is given by the size of the obligation multiplied by the buy-out price. In the event that supply from renewable sources exceeded the obligation in a given year, for instance because of weather conditions, this would not add to costs for consumers.

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will estimate the effect on the balance of payments of imports of renewables development under the renewables obligation to date. [175772]

Malcolm Wicks: The value of imports related to renewables development since the introduction of the RO has not been recorded.

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will estimate the likely effect on the balance of payments of imports arising in relation to renewables development under the renewables obligation in the period up to 2027. [175773]

Malcolm Wicks: We do not have the data necessary to make such predictions.

Renewables Obligation: Carbon Emissions

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the expected cost per tonne of carbon dioxide emissions avoided under the renewables obligation in (*a*) 2010 and (*b*) 2020. [175701]

Malcolm Wicks: No estimates have been made for the cost per tonne of carbon dioxide emissions avoided for specific years. This is because the carbon saved in a given year cannot be solely attributed to resource spent in that year.

The report 'Reform of the renewables obligation what is the likely impact of changes'[1] which was published alongside the recent consultation on reform of the renewables obligation (RO) includes a figure for the cost effectiveness over the lifetime of the renewables obligation of £188/tC. In practice this represents an upper limit as investments under the RO may lead to continued emissions reductions beyond the RO's lifetime.

[1] http://www.berr.gov.uk/files/file39039.pdf

Renewables Obligation: Natural Gas

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the quantity of natural gas use avoided annually as a result of renewable developments under the renewables obligation (*a*) to date and (*b*) expected to be achieved by 2027. [175700]

Malcolm Wicks: No such estimates have been made.

For illustrative purposes the Government have published comparisons of the amount of generation from renewables expressed in terms of the natural gas required to generate that amount.

In 2006, renewables generation under the Renewables Obligation (RO) was approximately 14.5 TWh. The amount of gas used in generating this amount of electricity would be approximately 2.8 million tonnes of oil equivalent. This amount of gas is approximately 3.1 per cent. of total natural gas used in 2006.

The recent Energy White Paper projected around 52 TWh electricity supply from renewables in 2020, including that brought about as a result of the RO. Based on projected typical gas-fired plant efficiency in 2020, the amount of gas used in generating this amount of electricity would be approximately 9 million tonnes of oil equivalent. This amount of gas is approximately 9.7 per cent. of the total projected natural gas use in 2020.

Small Businesses: North East Region

Mr. Kemp: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps the Government are undertaking to promote small business start-up schemes among young people in the North East. [175221]

Mr. Timms: The Government's aim is to get a generation of young people to start thinking about the benefits of running their own business, and to recognise the positive impact that enterprising attitudes can have in every area of their lives.

We are doing this by:

- Funding Enterprise Insight's Make Your Mark campaign which promotes enterprise to young people aged 14 to 30;
- Supporting the UK's annual Enterprise Week;
- Promoting enterprise education for Key Stage 4 (14 to 16 years) pupils in schools;
- Supporting the National Council for Graduate Entrepreneurship to promote business start-up as a viable alternative to working for somebody else.

In the North East of England, funding to help make young people aware of business start-up opportunities is provided by One NorthEast. This includes the Future Entrepreneurs programme, providing approximately £3 million from 2005/06 to 2007/08, which aims to deliver enterprise education to young people aged five to 30, together with those individuals who influence young people such as teachers and careers advisers.

One NorthEast has also funded the Prince's Trust for both their 'Business Skills for Young People' and 'Beyond the Label' activities. Since 2005 investment in Prince's Trust activity from One NorthEast has been approximately £950,000.

Work is also under way to increase the capacity of universities in the region to support graduates with enterprise education and business start-up. Funding is available from One NorthEast to individual institutions, but is conditional on those institutions matching expenditure through their own Higher Education Innovation Fund (HEIF) submissions. The total funding allocated to this programme is: £1,700,000 (2006/07), £2,500,000 (2007/08), and £2,500,000 (2008/09).

As part of a larger Northern Way Project 117 secondary schools in the North East (both mainstream and special schools) have been directly funded. This has supported over 9,000 youngsters to date with more to come this school year. £1.3 million of Northern Way support has been awarded, with schools getting around £10,500 each to integrate enterprise into the curriculum.

Technology: Internet

Mr. Jim Cunningham: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what steps the Government have taken to encourage web-based technology development in the UK since 1997; [175590]

(2) how much the Government have spent on promoting the web-based technology industry since 1997. [175591]

Mr. Timms *[holding answers 7 January 2008]:* In view of the wide range of past and present Government activities involving an element of promoting web-based technology, it is not possible to provide precise expenditure figures without incurring disproportionate cost. However, my Department works closely with key stakeholders such as the Information Age Partnership (IAP) to help the Information and Communication Technology (ICT) sector address key issues impacting on its competitiveness, and the Government have provided significant funding for the development of technology in this area via European Framework programmes and more recently the Technology Strategy Board.

Since 1997, the Government have made considerable efforts to encourage the take up and use of ICT, including web-based technologies, by UK business. This was primarily through two major initiatives, the Information Society Initiative and UK online for business. The Government continues to look at how ICT can impact on productivity and social inclusion - most recently through the joint report with the IAP, 'Raising UK Productivity: unlocking the potential of Information and Communication Technology' published in June 2007.

We have also done much to promote the development of the broadband infrastructure, working in collaboration with the regions and Devolved Administrations and with industry. The UK has one of the fastest growing broadband markets in Europe, and continues to have the most extensive availability, with 99.9 per cent of households reported to be connected to broadband enabled exchanges.

UK Trade and Investment: Technology

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what support was given by (*a*) UK Trade and Investment and (*b*) the Renewables Trade Promotion Service to each technology sector in attending or holding trade events domestically and overseas in the last period for which figures are available. [175687]

Malcolm Wicks: Over the period April 2007 to March 2008, BERR, via UKTI and the RETPS will have supported 13 overseas trade missions and one inward mission. Of the 14 events, eight events covered all renewable technologies, three events were specific to wind energy, two events were specific to bioenergy, and one was specific to marine energy.

Unfair Commercial Practices Directive

Mr. Greenway: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what timetable he plans for the (*a*) publication, (*b*) consultation on and (*c*) implementation of the Unfair Commercial Practices Directive regulations. [175503]

Mr. Thomas: The Department of Trade and Industry consulted on draft Consumer Protection from Unfair Trading Regulations (CPRs) implementing the Unfair Commercial Practices Directive (UCPD) in May 2007. The draft CPRs reflect the outcome of two earlier consultations about implementing the UCPD. The first consultation paper was published in December 2005 and sought views in three areas: interpretation; enforcement; and simplification of existing legislation. The second consultation in December 2006 sought views on how to frame the criminal offences in the regulations implementing the directive.

I propose to lay the draft CPRs before Parliament shortly. If approved the regulations will come into force on 6 April 2008.

Union Modernisation Fund

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the cost to his Department was of administering the Union Modernisation Fund programme in each year since 2004. [173169]

Mr. McFadden: The cost of administering the scheme represents 5 per cent. of the funds managed.

	£
2005	63,573
2006	121,683
2007	176,027

Wind Power

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what estimate he has made of the quantity of (*a*) steel and (*b*) concrete required to build sufficient wind turbines to supply the energy needed to meet targets likely to be required under the EU 20 per cent. renewables target; [175674]

(2) what estimate he has made of the quantity of (*a*) steel and (*b*) concrete required to build and develop the infrastructure, including access roads, to service wind turbines needed to supply the energy needed to meet targets likely to be required under the EU 20 per cent. renewables target. [175675]

Malcolm Wicks: It is too early to estimate what proportion of the UK contribution to the EU 20 per cent. target will come from any particular source of renewable energy, and the impact that will have. Agreement has not yet been reached on the contribution that each member state will make toward the 20 per cent. target, but we will consult in 2008 on policy options to meet the UK's contribution and publish our full UK renewable energy strategy the following spring once the EU directive has been agreed.

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will estimate the number of days annually on which wind speed is too high for the generation of power from wind turbines in each area in which wind farms are located. [175775]

Malcolm Wicks: No such estimate has been made, but the likelihood of wind turbines shutting down due to high wind speed conditions is very rare.

Wind speed statistics are very location specific and vary from year to year. At any one typical UK wind farm location, wind speeds might be high enough to cause wind turbines to shut down for a few hours per year, more on a high wind speed site, fewer on a low wind speed site.

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many factories in the UK are capable of manufacturing the primary components of a 2MW wind turbine, including (*a*) masts, (*b*) hubs, (*c*) generators and (*d*) turbine blades. [176048]

Malcolm Wicks: We do not hold statistics on how many factories in the UK are capable of manufacturing the primary components of a 2MW wind turbine. However, we are aware of a number of UK factories with the capability of producing the primary components. In terms of masts we are aware of five companies with the capability, three companies for hubs, two companies for generators and two companies for blades.

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimated size of labour force is needed to maintain the number of wind turbines required to meet targets likely to be required under the EU 20 per cent. renewables target for total primary energy, what types of qualifications are likely to be required for such a labour force, and what projection he has made of the number of suitable personnel who will be available on the labour market in 2020 is. [176049]

Malcolm Wicks: It is too early to estimate what proportion of the UK contribution to the EU 20 per cent. target will come from any particular source of renewable energy, and the impact that will have. Agreement has not yet been reached on the contribution that each member state will make toward the 20 per cent. target, but we will consult in 2008 on policy options to meet the UK's contribution and publish our full UK renewable energy strategy the following spring once the EU directive has been agreed.

Wind Power: Tourism

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the effect on the level of tourism income of the installation of wind turbines in the countryside. [175774]

Malcolm Wicks: The Department has not made such an assessment. However, we are not aware of any evidence to suggest that the level of tourism income has been affected by the installation of wind turbines in the countryside.

The UK's first commercial wind farm at Delabole in Cornwall received 350,000 visitors in its first ten years of operation.

A MORI poll in Scotland (October 2002) showed that 80 per cent. of tourists would be interested in visiting a wind farm. Furthermore, wind farm developers are often asked to provide a visitor centre, viewing platforms and rights of way to their sites.

Written Answers to Questions

Thursday 10 January 2008

WOMEN AND EQUALITY

Equal Pay

Jo Swinson: To ask the Minister for Women and Equality whether an equal pay audit has been conducted for the Women and Equality Unit. [170512]

Barbara Follett *[holding answer 3 December 2007]*: The Women and Equality Unit ceased to exist on 26 July this year when the formation of the Government Equalities Office (GEO) was announced. However, the GEO did not become a new Department until the transfer of functions order went through on 12 October this year.

As a result, the GEO will be conducting its first equal pay audit in 2008.

The Women and Equality Unit (WEU) was not a stand alone Department so no separate equal pay audit was ever conducted for it. The WEU was located successively within the Department for Social Security (as the Women's Unit), the Cabinet Office, the Department of Trade and Industry, and the Department for Communities and Local Government. An equal pay audit was conducted by the Cabinet Office using spring 2002 data. This review is likely to have included WEU staff in the Cabinet Office at that time, although this can not be confirmed as the review does not specify units or individuals. The Department for Communities and Local Government is currently conducting an equal pay review using June 2007 pay data, and this will include WEU staff paid by that Department at that time.

Forced Marriage Unit

Mrs. May: To ask the Minister for Women and Equality how many alleged incidents of forced marriage have been reported to the Government's Forced Marriage Unit in each year since its establishment. [174506]

Barbara Follett: The Forced Marriage Unit was established in 2005 as the Government's one stop shop for dealing with forced marriage casework, policy and projects.

The Forced Marriage Unit receives 5,000 inquiries and handles approximately 300 cases a year. Subject to concerns about maintaining confidentiality, a new system to capture data on cases will be implemented next year.

INTERNATIONAL DEVELOPMENT

Bangladesh: Overseas Aid

Lynne Featherstone: To ask the Secretary of State for International Development pursuant to the answer of 10 December 2007, *Official Report*, column 469, on Bangladesh: overseas aid, what the estimated end of year financial position is for each country where his Department is active according to the latest expenditure forecast; and if he will make a statement. [175724]

Mr. Thomas: Indicative budgets for country programmes for 2007-08 were published in the Department for International Development's 2007 Annual Report published in May 2007 [HC 514]. We are planning to fully spend the budget allocations.

Lesotho: Overseas Aid

Mike Gapes: To ask the Secretary of State for International Development what representations he has received on the Lesotho Highlands Water project. [175728]

Mr. Thomas: The UK Government provided support to the Lesotho Highlands Water programme in 1987 and to the Highland Water scheme (Phase I and II) and the Lesotho Delegation of the Highlands Water Commission from 1999 to January 2005. Funding was mainly in the form of engineering technical assistance.

There have been no other interventions by the UK, nor have we received any representations since then.

Mike Gapes: To ask the Secretary of State for International Development what projects his Department has supported in Lesotho in the last three years; and if he will make a statement. [175729]

Mr. Thomas: The UK bilateral programme to Lesotho is approximately £5 million.

We have co-ordinated closely with the UN in Maseru in response to the current drought. DFID provided £500,000 through UNICEF to ensure people have access to clean water. We are also the largest donor to the UN Central Emergency Response Fund (CERF), which has allocated US $4.74 million to the humanitarian response.

The European Union's ninth European Development Framework (EDF 9) provided funds of €104 million to Lesotho between 2002 and 2007. DFID's imputed share of this is approximately 17 per cent. The key areas covered were: water and sanitation, road transport, macro-economic support and capacity building, HIV and AIDS, trade and regional integration.

The following table shows projects that DFID has supported in the last three years:

Name of programme	*Start to End dates*	*Sector*	*Funds (£000)*
Lesotho Revenue Authority: Phase 1	March 2002 to March 2006	Governance	3,200
Lesotho Justice Sector Development Programme	August 2003 to November 2007	Justice	2,100

Name of programme	Start to End dates	Sector	Funds (£000)
Lesotho Textile Project	February 2004 to February 2009	Trade	1,500
Lesotho Priority Support Programme: Job Creation/Food Security	April 2004 to May 2009	Trade Food Security	1,960
Lesotho Poverty Reduction Strategy Foundation Programme	September 2004 to November 2008	Governance Public Financial Management Support to Civil Society Donor Harmonisation Poverty Monitoring	5,000
Lesotho Priority Support Programme: HIV&AIDS Programme	November 2004 to May 2009	Health/HIV	1,800
Apparel Lesotho Alliance to Fight Aids	January 2005 to March 2007	Health/HIV	300
Support to Vulnerable Rural Households in Lesotho (FAO)	November 2005 to August 2006	Food Security	350
Lesotho Revenue Authority: Phase 2	September 2006 to March 2009	Governance	2,930
Potato Culture Project	February 2007 to September 2008	Science and Technology	55
Water, Sanitation, Hygiene (UNICEF)	October 2007 to March 2008	Humanitarian	500

Overseas Aid: Disease Control

Annette Brooke: To ask the Secretary of State for International Development how much of his Department's bilateral spending is directed towards *(a)* tuberculosis and *(b)* tuberculosis/HIV; whether the UK's strategy on HIV and AIDS for 2008 to 2012 will include a specific target on tuberculosis/HIV co-infection reduction; and what steps he plans to take to support an integrated response to tuberculosis and HIV in other countries. [177743]

Mr. Malik: DFID bilateral expenditure on HIV and AIDS activities in 2006-07 was £348 million and bilateral expenditure targeting communicable disease control, including tuberculosis, was £79 million. There is additional DFID spending on poverty reduction budget support and health system strengthening which help address all major causes of ill health, including TB and HIV. We are unable to systematically capture the amount spent on HIV/TB collaborative activities.

The UK's updated strategy on HIV and AIDS will include addressing TB/HIV co-infection. DFID strongly supports an integrated response to TB and HIV. We support this through a range of different channels including our support to international organisations and partnerships, such as the Global Fund to Fight AIDS, Tuberculosis and Malaria, the World Health Organisation, UNAIDS, the Stop TB Partnership and funding research into HIV/TB co-infection.

Annette Brooke: To ask the Secretary of State for International Development what steps he plans to take to facilitate the Global Fund to fight AIDS, tuberculosis and malaria reaching its target size of US$ 8 billion by 2010. [177744]

Mr. Malik: At the Global Fund Executive Board in April 2007, members acknowledged that the size of the fund would increase, dependent on high quality demand from countries and improved performance of the fund itself. Three scenarios of future demand had been prepared by the Secretariat, the highest one assuming that demand would rise more than fourfold by 2010, and that $8 billion per annum would be needed to support these new proposals and continue with existing programmes (representing $18 billion for the period 2008-10). The G8 noted the projected demands and pledged to work with the other donors to replenish the fund, and to provide long-term predictable funding based on ambitious but realistic demand driven targets.

Donor pledges and Secretariat projections now total $9.7 billion for the period 2008-10. This is a highly significant increase in resources, which allows the fund to support a substantial expansion of all ongoing programmes, and all of the new proposals which have been recommended by the Technical Review Panel, while still leaving over $750 million available for future proposals. Thus all the high quality demand for financing the current round of proposals has been met.

But the UK's own pledge goes beyond this. The UK has made an unprecedented long-term commitment over the eight years up to 2015, of up to £1 billion. Within this framework we announced a commitment of £360 million over the three year replenishment period, of which £30 million is subject to demand and results. This 20 per cent. increase in our commitment means that we have maintained our share of the total replenishment at about 7.5 per cent. In addition, we also pledged a further £640 million from 2011-15, providing the global fund is receiving good quality demand, continues to perform well and is demonstrating sustainable impact.

World Bank: Loans

Lynne Featherstone: To ask the Secretary of State for International Development what his policy is on *(a)* acceptable and *(b)* unacceptable conditionality for lending in relation to World Bank lending policy; and if he will make a statement. [175723]

Mr. Thomas: World Bank conditionality for lending must be in line with the Bank's policy. In 2004, the Bank abolished its use of prescriptive conditionality—the practice of pushing specific reforms. Following a review in 2005, it adopted the good practice principles on conditionality. These principles stress the importance of country ownership and commit the Bank to ensure that conditions are limited to those critical for the programme's success and are customised to individual country circumstances. In 2006, the Bank committed to avoiding conditions in sensitive policy areas such as privatisation,

unless they are critical to the effectiveness of a programme and there is clear evidence of ownership by the developing country government. The UK has made it clear to the World Bank that we expect all lending to respect the commitments it has made in the last few years.

Lynne Featherstone: To ask the Secretary of State for International Development what response he has made to the World Bank's review of Conditionality in Development Policy published on 15 November 2007; and if he will make a statement. [175726]

Mr. Thomas: The World Bank's 2007 report on Conditionality in Development Policy Lending incorporates findings from consultations in eight developing countries with governments and other stakeholders. It also draws on external studies and reports.

The report highlights continued improvements in the bank's practice on conditionality. The average number of conditions per bank policy-based operation in low-income countries fell from 32 in 1999 to 12 in 2006 and in 2007. There has also been a reduction in conditions in "sensitive areas" and the number of privatisation conditions is low. The consultations highlighted that the bank's practice has improved in respecting country ownership and increasing opportunities to debate policy options.

The report acknowledges there is room for improvement and makes further recommendations, notably the need to involve local counterparts more fully in policy formulation and analytical work, and the need to strengthen the use of poverty and social impact analysis by bank staff.

The findings of the report and the bank's commitment to further improve its performance in this area are encouraging. We continue to maintain pressure on the bank to ensure that it fulfils its commitments on the use of conditionality.

CULTURE, MEDIA AND SPORT

Departmental Recycling

Mr. Pickles: To ask the Secretary of State for Culture, Media and Sport what recycling scheme is in operation in each building operated by his Department. [176711]

Mr. Sutcliffe: The Department introduced a new waste management system at its Cockspur Street offices in January 2007. This includes the recycling of paper, cardboard, glass and cans. The scheme is currently being extended to its offices at Tottenham Court Road.

English Language

Damian Green: To ask the Secretary of State for Culture, Media and Sport how much his Department has spent on English language classes for staff in the last year for which figures are available. [177433]

Mr. Sutcliffe: In the last year, January 2007 to January 2008, the Department for Culture, Media and Sport has spent £0 on English language classes for staff. The Department has two staff currently participating in English language classes organised through Learn Direct but no financial costs will accrue.

National Identity Register

Mr. Philip Hammond: To ask the Secretary of State for Culture, Media and Sport what plans his Department has to make use of data on the National Identity Register when it is established; and what the estimated cost to his Department of that use is. [174038]

Mr. Sutcliffe: My Department will be working with the Home Office prior to the introduction of the National Identity Scheme to establish how identity information held on the proposed National Identity Register might be used to provide easier access to our services for our customers. It is too early in the process to establish the detailed costs and benefits.

SCOTLAND

Departmental Christmas Cards

Mr. Burns: To ask the Secretary of State for Scotland how much his Department spent on (*a*) Christmas cards and (*b*) postage of Christmas cards in 2007. [176911]

David Cairns: The information is as follows:

(*a*) The Scotland Office incurred no expenditure on Christmas cards in 2007 as an e-card and surplus stock from previous years were used.

(*b*) No separate record was kept of the expenditure on postage specifically for Christmas cards in 2007.

Departmental Pay

Sarah Teather: To ask the Secretary of State for Scotland pursuant to the answer of 3 December 2007, *Official Report*, column 746W, on departmental pay, how many of those earning over £100,000 were employed (*a*) as special advisers and (*b*) in a political role in each year since 1997. [177177]

David Cairns: Since 2003, the Government have published on an annual basis the number of special advisers in each pay band. For the most recent information, I refer the hon. Member to the statement made by my right hon. Friend, the Prime Minister, on 22 November 2007, *Official Report*, 147-51WS.

Information on the numbers and costs of special advisers prior to 2003 was provided at regular intervals and this information will be available in the Library of the House.

ELECTORAL COMMISSION COMMITTEE

Departmental Marketing

Mr. Pickles: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission how many branded plastic bags the

Electoral Commission has purchased in the last 24 months for which figures are available; and at what cost. [176495]

Peter Viggers: The Electoral Commission informs me that it purchased 1,000 branded carrier bags in July 2006 and 3000 in September 2006 at a total cost of £2,477.37 including VAT.

Electoral Register

Mr. Pickles: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what research the Electoral Commission has commissioned from NOP on electoral registration; and at what cost. [176492]

Peter Viggers: I refer my hon. Friend to the reply I gave him on 13 December, *Official Report*, column 768W.

Local Government: Norfolk

Mr. Pickles: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission whether the review by the Boundary Committee for England into restructuring of local government in Norfolk is a review under the (*a*) Local Government Act 1992 and (*b*) Local Government and Public Involvement in Health Act 2007. [176494]

Peter Viggers: Section 4 of the Local Government and Public Involvement in Health Act 2007 states that the Secretary of State may request the Boundary Committee to advise on any matter that relates to a proposal for unitary status. The 2007 Act also repeals the power of the Secretary of State under section 13 of the Local Government Act 1992 to request the Electoral Commission to recommend whether a structural or boundary change should be made in a specified area.

The Electoral Commission informs me that the Boundary Committee for England has not yet received any such request and that it has not yet commenced a review of local government in Norfolk. The committee has, however, carried out preparatory work following the announcement in July 2007 that the Secretary of State is minded to make such a request.

Local Government: Standards

Mr. Pickles: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission how many performance indicators the Electoral Commission is setting for local authorities. [176493]

Peter Viggers: I refer my hon. Friend to the reply I gave him on 13 December 2007, *Official Report*, column 767W.

TREASURY

Child Benefit: Personal Records

Mr. Gauke: To ask the Chancellor of the Exchequer on what date HM Revenue and Customs first informed the police of the loss of the computer discs containing the data of child benefit claimants. [176894]

Jane Kennedy: The former Chairman of HMRC, Paul Gray, asked the Metropolitan Police Service (MPS) to investigate the loss of the child benefit datadisks on 15 November 2007.

Council Tax Benefits: Scotland

Mr. Pickles: To ask the Chancellor of the Exchequer what account would be taken of a local income tax in Scotland when determining funding to be paid by the UK Government to Scotland for council tax benefit. [176496]

Andy Burnham: Council tax benefit is a reserved matter, funded by the Department for Work and Pensions. England, Scotland and Wales operate a council tax system. Council tax benefit is paid as a rebate to households, up to a maximum of their council tax liability. No benefit is payable to households that do not pay council tax.

Departmental Expenditure Limits

Dr. Fox: To ask the Chancellor of the Exchequer pursuant to the Winter Supplementary Estimates (HC 29), for what reasons he plans to transfer £70 million from voted capital DEL to non-voted near cash resource DEL; and if he will make a statement. [173758]

Andy Burnham: I refer the hon. Member to the answer given by the Parliamentary Under-Secretary of State for Defence and Minister for Veterans (Derek Twigg) on 7 January 2008, *Official Report*, column 40W.

Economic Situation

Mr. Gauke: To ask the Chancellor of the Exchequer what assessment he has made of when the last economic cycle concluded. [177604]

Angela Eagle: The Treasury's latest assessment of cyclical developments is set out in the 2007 pre-Budget report and comprehensive spending review (Cm 7227).

International Monetary Fund: Gold

James Duddridge: To ask the Chancellor of the Exchequer what assessment he has made of the economic implications of the sale of gold by the International Monetary Fund. [177507]

Angela Eagle: Any IMF gold sales would require a 85 per cent. vote in favour by the members of the IMF. The UK Government believe that any sales of gold should take place in an orderly way, phased overtime, and within the bounds set by official sellers of gold in recent years so as to avoid disruption to the gold market.

Personal Income: Yorkshire and Humber

Mr. Graham Stuart: To ask the Chancellor of the Exchequer what the median household income was in each parliamentary constituency in Yorkshire and the Humber in each year since 1997; and if he will make a statement. [174298]

Caroline Flint: I have been asked to reply as Minister for Yorkshire and the Humber.

The information is not available below the level of Government Office Region.

Revenue and Customs: Data Protection

Mr. Philip Hammond: To ask the Chancellor of the Exchequer how much PricewaterhouseCoopers will be paid to carry out the Poynter Review. [169997]

Jane Kennedy *[holding answer 3 December 2007]:* HM Treasury has entered into a contract with PricewaterhouseCoopers (PWC), that is commercially confidential.

Mr. Hoban: To ask the Chancellor of the Exchequer from which budget the cost of the Poynter Review is being met; and what estimate he has made of the total expected cost of the review. [173362]

Jane Kennedy: HM Treasury has entered into a contract with PricewaterhouseCoopers (PWC), that is commercially confidential.

Mr. Gauke: To ask the Chancellor of the Exchequer what security measures he has put in place to protect data exchanged via the HM Revenue and Customs website by contractors to file online returns under the construction industry scheme. [177605]

Jane Kennedy: HMRC has in place appropriate security measures to protect data exchanged via the HMRC website: these include measures to ensure authentication of access, encryption and a secure connection such as firewall technology to safeguard information received. Users of HMRC's e-services are required to confirm their identity using a unique user identification and password before they can access the Department's Construction Industry Scheme (CIS) Service. Additionally the system used encrypts all data to ensure any exchange via the Department is transmitted securely.

Mr. Gauke: To ask the Chancellor of the Exchequer what safeguards he has put in place to protect the data held by HM Revenue and Customs for the construction industry scheme. [177606]

Jane Kennedy: All data held by HMRC in respect of the construction industry scheme is subject to safeguards consistent with the Department's revised security guidelines.

Tax Allowances: Trade Unions

Mr. Tyrie: To ask the Chancellor of the Exchequer what guidance HM Revenue and Customs has produced on whether subscriptions to trades unions qualify for tax relief. [177520]

Jane Kennedy: HMRC provides guidance on the tax treatment of trades unions subscriptions paid by employees in its Employment Income Manual at EIM32885.

TRANSPORT

A303: Repairs and Maintenance

Mr. Ellwood: To ask the Secretary of State for Transport what funding is available from *(a)* central and *(b)* local government for road improvements to the A303 at Stonehenge in (i) 2007-08 and (ii) 2008-09. [177162]

Mr. Tom Harris *[holding answer 9 January 2008]:* There are currently no proposals for funding improvements to the A303 running past Stonehenge in 2007-08 or 2008-09. Following our announcement on Thursday, 6 December 2007, *Official Report*, columns 97-8WS on the A303 Stonehenge Improvement scheme, the Highways Agency will be investigating possible smaller scale measures to improve traffic flows and safety along this section of the A303.

The Department is also working with Department for Culture, Media and Sport and other stakeholders to investigate options for improving the environment around Stonehenge and improving visitor facilities. This work will include an assessment of the possibility of closing the junction of the A344 with the A303. Funding for possible small scale improvements to the A303 will be considered as part of this further work.

Crossrail Line

Mr. Pickles: To ask the Secretary of State for Transport (1) if she will place in the Library a copy of the Memorandum of Understanding between the Mayor of London and her Department on the Crossrail project; [176340]

(2) what liability *(a)* taxpayers from general taxation and *(b)* the London taxpayer, via the Greater London Authority, have for any cost-overruns from the Crossrail project; [176341]

(3) which public authorities will be responsible for bearing the cost of any overruns from the Crossrail project. [176372]

Mr. Tom Harris: I refer the hon. Member to the written statement made by the Secretary of State on 26 November 2007, *Official Report*, columns 133-34 WS and the answer given to the hon. Member for Wokingham (Mr. Redwood) on 30 October 2007, *Official Report*, column 1294W.

Driving Under Influence: Alcoholic Drinks

Mr. Ellwood: To ask the Secretary of State for Transport what steps the Government is taking to increase public awareness of the volumes and timings of alcohol consumption likely to result in reaching the maximum blood alcohol concentration permitted for driving on public roads. [177358]

Jim Fitzpatrick: The Department are spending about £3.5 million this year advertising against drink-driving. We have an advice leaflet, 'How Much Will Your Next Round Cost You?', which is available on-line at:

http://www.thinkroadsafety.gov.Uk/campaigns/drinkdrive/pdf/1184.pdf

Our advice has consistently warned drivers that it is not possible to calculate how much alcohol they can consume. We have included in our leaflet a warning about the persistence of alcohol impairment and the "morning after" effect.

Alcohol impairment is a complex matter. It is influenced by various factors, including the driver's gender, body mass, his or her state of health and level of fatigue; the confounding effects of drugs—legal and illegal; by the level of driving skills—including the effects of inexperience and old age; and by the amount and rate of alcohol consumption. Any level of alcohol impairs driving and our core message is "don't drink and drive".

Motorways: Accidents

Mr. Hancock: To ask the Secretary of State for Transport how many (*a*) deaths and (*b*) injuries resulting from accidents on motorways in Hampshire there were in each of the last two years, broken down on a junction-to-junction basis. [177326]

Mr. Tom Harris: The number of deaths and injuries resulting from accidents on the Highways Agency's motorways in Hampshire in each of the last two years is given, on a junction-to-junction basis, in the following table.

			2005		2006	
Road	*From*	*To*	*Killed*	*Injured*	*Killed*	*Injured*
M3	J4	J4A		11		9
	J4A	J5		29		36

Railways: Norwich

Dr. Gibson: To ask the Secretary of State for Transport if she will hold an investigation into disruptions to the service on the Norwich to London railway line (*a*) at Christmas 2007 and (*b*) throughout 2007. [177327]

Mr. Tom Harris: The Office of Rail Regulation has launched an investigation into Network Rail's management of engineering projects including the causes of the engineering overrun at Liverpool Street over Christmas and new year, and expect to announce their preliminary findings by 29 February 2008. We will not seek to pre-empt the Office of Rail Regulation by speculating on causes before the report is issued.

Dr. Gibson: To ask the Secretary of State for Transport how many and what proportion of train delays on the Norwich to London railway line were due to problems with overhead cables in 2007. [177328]

Mr. Tom Harris: The Department does not receive the information at this level of detail. Information about specific causes of delay is collected and processed by Network Rail. The hon. Member should therefore contact Network Rail's chief executive at the following address for a response to his question.

Iain Coucher
Chief Executive
Network Rail
40 Melton Street
London NW1 2EE

Railways: Repairs and Maintenance

Bob Russell: To ask the Secretary of State for Transport what steps she has taken to ascertain the reasons for the delay in the completion of works to the railway infrastructure near London Liverpool Street station over the Christmas and new year holiday period; and if she will make a statement. [177449]

Mr. Tom Harris: The Office of Rail Regulation (ORR), as the rail industry's economic regulator, monitors Network Rail's stewardship of the national rail network. The ORR has launched an investigation into the cause of this over-run and expects to publish its findings by the end February. It would be inappropriate to make a statement before the report is published.

Railways: Safety Measures

Martin Horwood: To ask the Secretary of State for Transport pursuant to the answer of 29 November 2007, *Official Report*, column 600W, on railways: safety measures, if she will place in the Library the full research data from which the review referred to was compiled, with particular reference to the test data reviewed in section 9.4 of the report. [177242]

Mr. Tom Harris *[holding answer 9 January 2008]*: The research referred to in the question was commissioned by the Rail Safety and Standards Board (RSSB). RSSB has no plans to publish any material relating to hammers. Having reached the conclusion that escape through windows of passenger trains should not be encouraged, RSSB concluded that the work on hammers should cease. There is therefore no final report or validated set of data relating to hammers. The final report on the overall approach to passenger containment, to which the hon. Gentleman refers in his question, is available on the RSSB website at:

www.rssb.co.uk

The Department for Transport does not have any of the data requested.

Railways: Swindon

Mr. Drew: To ask the Secretary of State for Transport what the timescale is for a decision to be taken on the re-doubling of the Swindon-Kemble line. [177629]

Mr. Tom Harris: I understand Network Rail has consulted rail industry parties on possible changes to the Swindon to Kemble line. However, this is an operational matter for Network Rail, as the owner and operator of the national rail network. The hon. Member should contact Network Rail's Chief Executive at the following address for a response to his question.

Iain Coucher
Chief Executive
Network Rail
40 Melton Street
London NW1 2EE

Roads: Safety

Mr. Harper: To ask the Secretary of State for Transport by what process a road safety grant, provided for by section 1 of the Road Safety Act 2006, is awarded to a local authority or any other body. [177230]

Jim Fitzpatrick: Section 1 of the Road Safety Act provides powers for Government to make payments to local authorities or any other authority or body for meeting the costs of measures for promoting road safety.

There is no single mechanism for award of grant under this legislation, but in the case of Road Safety Partnership Grant, bids for grant are invited to address specific road safety issues and priorities, and are then assessed against project criteria. Grant is awarded to those bidders who best satisfy the project criteria and road safety priorities.

It is envisaged that the powers under this legislation will also be used to award grants associated with road safety trials or demonstration projects. In such cases, grant will be awarded to authorities or bodies on the basis of their particular experience of a road safety issue, or its solution.

Trains: Standards

Mr. Hancock: To ask the Secretary of State for Transport if she will request Passenger Focus to conduct a study into passenger comfort on Desiro Class 450 trains; and if she will make a statement. [177333]

Mr. Tom Harris: The Secretary of State will not request Passenger Focus to conduct a study as the independent study which was commissioned and funded by South West Trains was reviewed by Passenger Focus. The findings of this report are available on the South West Trains Website:

www.southwesttrains.co.uk

West London Line: Railway Stations

Mr. Hands: To ask the Secretary of State for Transport what estimate she has made of the total cost of the proposed West London Line train station at Imperial Wharf. [177378]

Mr. Tom Harris: The provision of a new station at Imperial Wharf was agreed between the local authority and the developer as part of the wider development of the area. The costs of the station are therefore not a matter for the Department for Transport but for the local authority.

LEADER OF THE HOUSE

Communications Allowance

Mr. Tyrie: To ask the Leader of the House pursuant to the answer of 18 December 2007, *Official Report*, column 1225W, on the communications allowance, why the allowance is being increased by the retail prices index rather than the consumer prices index. [177597]

Helen Goodman: The communications allowance is uprated annually from 1 April in line with the RPI for the preceding December. This is in accordance with the MEC report on the allowance (HC 319, 2006-07) which was approved by the House on 28 March 2007. This is the same as the uprating procedures for IEP and ACA.

Mr. Tyrie: To ask the Leader of the House pursuant to the answer of 18 December 2007, *Official Report*, column 1225W, on the communications allowance, what representations she has received supporting an increase in the communications allowance by more than the rate of inflation; and what assessment she has made of such representations. [177598]

Helen Goodman: I have received no such representations. The communications allowance is uprated each year in line with the retail prices index. This follows the recommendations of the report of the Members Estimate Committee (HC 182, 2006-07) which was approved by the House on 28 March 2007.

Mr. Tyrie: To ask the Leader of the House pursuant to the answer of 18 December 2007, *Official Report*, column 1225W, on the communications allowance, what the aggregated budgeted expenditure on the communications allowance is expected to be in 2007-08. [177599]

Helen Goodman: The communications allowances was introduced in April 2007 and set at £10,000 per annum for each hon. Member, with the possibility of adding money transferred from staffing and IEP incidental expenses provision. The maximum spend from the basic allowance in one year is therefore £6.46 million. The Members Estimate Committee, in its report on the communications allowance (HC 319, 2006-07) assumed similar take-up to the other allowances. As noted in the report, this equates to a likely total annual cost of the allowance of about £6 million. Currently spending on the communications allowance is running below this level.

Departmental Data Protection

Mrs. Villiers: To ask the Leader of the House what audits her Office has carried out in relation to personal data and IT equipment in each of the last 10 years. [176490]

Helen Goodman: Following a machinery of government change the Office of the Leader of the House of Commons falls under the auspices of the Cabinet Office on this issue.

My hon. Friend the Member for Lincoln (Gillian Merron) will be answering in due course and will also answer on behalf of the Office of the Leader of the House of Commons.

DEFENCE

Annual Army Abstracts

Dr. Fox: To ask the Secretary of State for Defence if he will place in the Library copies of the Annual Army Abstracts published since 1997. [174478]

Derek Twigg: No. The Annual Army Abstract report is restricted management as it may disclose sensitive personal information and redacting historical information could be done only at disproportionate cost.

Armed Forces: Deployment

Mark Pritchard: To ask the Secretary of State for Defence what recent assessment his Department has made of the adequacy of the rest and recuperation arrangements for armed forces personnel during their deployment on operational tours. [177844]

Mr. Bob Ainsworth: A number of studies on the future size and disposition of United Kingdom armed forces on operations are currently ongoing. This work will include an assessment of the adequacy of welfare provision in the long term and any changes will be announced in due course. In the meantime, the current arrangements for rest and recuperation will continue to apply as per our previous correspondence.

Armed Forces: Divorce

Patrick Mercer: To ask the Secretary of State for Defence what his policy is on the provision of support to the former spouses of service personnel following marriage breakdown. [178624]

Derek Twigg: I refer the hon. Member to the answers I gave him on 17 December 2007, *Official Report*, column 1024W, and 17 December 2007, *Official Report*, columns 1029-30W, which described much of the support available to all members of service families experiencing relationship difficulties.

A former spouse of a service person who no longer lives in the service community will receive support from local authorities or devolved administrations who have statutory responsibilities for appropriate services. Also, service charities will often become, or remain, involved in supporting needy cases, including the former spouses of service personnel. For example, SSAFA-Forces Help operates Stepping Stone Homes as transitional assistance specifically for the separated or divorced former dependants of service personnel.

Armed Forces: Housing

Mr. Wallace: To ask the Secretary of State for Defence if he will break down by married accommodation location the married service personnel based at (*a*) Woolwich, (*b*) Wellington Barracks, (*c*) Hounslow and (*d*) Windsor. [177560]

Derek Twigg: The information is not held in the format requested.

Staff working in London are entitled to be housed within 90 minutes travel time (using public transport) of their permanent duty station. Therefore there is no direct linkage between the married accommodation at each of the sites and the basing of service personnel at those sites. However, the numbers of service family accommodation at each of the requested locations is as follows:

	Number
Woolwich	260
Wellington Barracks	33
Hounslow	117
Windsor	454

Personnel living at these locations may work at other London locations, and conversely personnel who are posted there may be housed elsewhere.

Armed Forces: Uniforms

Mr. Donaldson: To ask the Secretary of State for Defence what the reasons were for the decision to change the abbreviated description for UK armed forces for badging and identification purposes while deployed from UK to GBR. [174702]

Mr. Bob Ainsworth *[holding answer 17 December 2007]*: In 2004, NATO's Standardisation Agreement 1059 (STANAG 1059), which provides agreed Letter Codes for Geographical Entities, was amended to replace the previous two letter country code with three letter codes based on those used by the International Organisation for Standards (the ISO 3166-1 standard). As a result, the standard NATO letter code for the United Kingdom changed from UK to GBR.

Army: Statistics

Dr. Fox: To ask the Secretary of State for Defence if he will place in the Library copies of the monthly Defence Analytical Services Agency British Army Statistics Report issued since April 1997. [174479]

Derek Twigg: No. The Defence Analytical Services Agency British Army Statistics report is restricted management as it may disclose sensitive personal information and redacting the historical information could be done only at disproportionate cost.

Army: Labour Turnover

Dr. Fox: To ask the Secretary of State for Defence what the *(a)* total outflow and *(b)* voluntary exit rate was of (i) officers, (ii) other ranks and (iii) all personnel in the Army in each month since January 2006. [177531]

Derek Twigg: Army figures for total outflow and voluntary exit rates broken down by officers and other ranks since January 2006 can be found in Tri-Service Publication (TSP) 5 — 'Trained Outflow to Civil Life'. Monthly figures show the number of personnel who have outflowed in the previous 12 month period. TSP 5 is published monthly and all publications can be found at:

http://www.dasa.mod.uk/natstats/tsp5/tsp5tab5.html

Copies of TSP 5 are available in the Library of the House and at:

www.dasa.mod.uk

Athena: Finance

Dr. Fox: To ask the Secretary of State for Defence how much funding the United Kingdom provided to the Athena provisional financing scheme in each year since 2004. [177521]

Des Browne: The UK does not participate in the Athena provisional financing scheme.

Dr. Fox: To ask the Secretary of State for Defence what the EU's Athena budget was in each year since 2004; and what percentage of that budget was provided by the United Kingdom. [177525]

Mr. Bob Ainsworth: The information requested is provided in the following table:

	Athena budget (£ million)	*UK share (percentage)*
2004	8.615	17.28
2005	41.474	18.07
2006	30.199	17.57
2007	19.457	17.02
2008	21.861	17.23

The budget agreed for 2008 does not yet include the costs of a planned EU-led military operation in Chad and the Central African Republic. The 2008 Athena budget will be increased as necessary once a budget for that operation has been approved.

Defence Analytical Services Agency: Forecasts

Mr. Gerald Howarth: To ask the Secretary of State for Defence if he will place in the Library copies of *(a)* the Defence Analytical Services Agency's (DASA) monthly price index booklet, *(b)* DASA's quarterly price index forecasts, *(c)* DASA's quarterly foreign price index, *(d)* DASA's negotiators' briefing pack issued in 2007 and *(e)* the DASA electronic price indices query tool. [176290]

Derek Twigg: I will arrange for copies of the Monthly Price Indices booklet, Quarterly Foreign Price Indices booklet and the Negotiators Briefing Pack(s) published in 2007 to be placed in the Library of the House.

I am withholding copies of the DASA Price Indices UK Quarterly Forecast as their release would, or would be likely to, prejudice commercial interests.

Similarly, I am withholding the electronic price indices query tool as its release would, or would be likely to, prejudice commercial interests.

Defence Aviation Repair Agency: Vector Aerospace

Mr. McGovern: To ask the Secretary of State for Defence what the basis was for the decision to sell the DARA Helicopter, Rotary Wing and Components business in Almondbank on to the Canadian company Vector Aerospace. [176802]

Mr. Bob Ainsworth: I refer my hon. Friend to my previous answer on 13 December 2007, *Official Report*, column 773W, to the hon. Member for Gosport (Peter Viggers).

European Defence Agency: Finance

Dr. Fox: To ask the Secretary of State for Defence what the projected budget is for the European Defence Agency in *(a)* 2008-09, *(b)* 2009-10 and *(c)* 2010-11. [177523]

Mr. Bob Ainsworth: The European Defence Agency budget for 2008 is €32 million; there are no budget figures for 2009 and 2010.

Iraq: Peacekeeping Operations

Nick Harvey: To ask the Secretary of State for Defence (1) how many medical personnel were hired by his Department under private contract to work in (*a*) Afghanistan and (*b*) Iraq in each of the last three years; and what the cost of hiring such staff was; [176838]

(2) which private companies his Department uses to hire medical personnel for service in Iraq and Afghanistan; [176839]

(3) if he will break down by specialisation those medical personnel hired by his Department under private contract to work in Afghanistan and Iraq. [176840]

Derek Twigg: The Defence Medical Services Department employs civilian medical locums to work at UK medical facilities on deployed operations through Frontier Medical (a division of Exploration Logistics Group plc).

The following table provides the total number of individuals who have been employed over the past three complete financial years and up to 15 December of this financial year. Not all of these individuals deployed at the same time. For example, during the financial year 2006-07, at any one time, up to two intensive therapy unit nurses and two emergency nurses were deployed as civilian locums in Iraq by the Defence Medical Services.

Financial year	Specialism	Operation	Number of individuals employed as civilian locums	Cost £ million
April 2004 to April 2005	Intensive Therapy Unit and Emergency Nurses	Telic (Iraq)	50	1
April 2005 to April 2006	Intensive Therapy Unit and Emergency Nurses	Telic (Iraq)	50	1.1
April 2006 to April 2007	Intensive Therapy Unit and Emergency Nurses	Telic (Iraq)	54	1.155
April 2007 to 15 December 2007	Intensive Therapy Unit and Emergency Nurses	Telic (Iraq)	26	0.87
	Neurosurgeon; Intensive Therapy Unit and Emergency Nurses	Herrick (Afghanistan)	4	0.21

Kenya: Peacekeeping Operations

Mr. Ellwood: To ask the Secretary of State for Defence how many UK military personnel are based in Kenya; and what their roles are. [177310]

Mr. Bob Ainsworth: 65 UK military personnel are based in Kenya, undertaking a wide variety of roles. These include: providing advice and assistance to the British high commissioner; helping build Kenyan and regional capacity to manage and conduct peace support operations; providing high quality mine action training; and liaising with Kenyan authorities over the planning and execution of British Army exercises.

RAF: Labour Turnover

Dr. Fox: To ask the Secretary of State for Defence what the (*a*) total outflow and (*b*) voluntary exit rate was of (i) officers, (ii) other ranks and (iii) all personnel in the RAF in each month since January 2006. [177535]

Derek Twigg: RAF figures for total outflow and voluntary exit rates broken down by officers and other ranks since January 2006 can be found in Tri-Service Publication (TSP) 5 'Trained Outflow to Civil Life'. Monthly figures show the number of personnel who have outflowed in the previous 12 month period. TSP 5 is published monthly and all publications can be found at:

http://www.dasa.mod.uk/natstats/tsp5/tsp5tab5.html

Copies of TSP 5 are available in the Library of the House and at:

www.dasa.mod.uk

Royal Navy: Labour Turnover

Dr. Fox: To ask the Secretary of State for Defence what the (*a*) total outflow and (*b*) voluntary exit rate was of (i) officers, (ii) other ranks and (iii) all personnel in the Royal Navy in each month since January 2006. [177530]

Derek Twigg: Royal Navy figures for total outflow and voluntary exit rates broken down by officers and other ranks since January 2006 can be found in Tri-Service Publication (TSP) 5 'Trained Outflow to Civil Life'. Monthly figures show the number of personnel who have outflowed in the previous 12 month period. TSP 5 is published monthly and all publications can be found at:

http://www.dasa.mod.uk/natstats/tsp5/tsp5tab5.html

Copies of TSP 5 are available in the Library of the House and at:

www.dasa.mod.uk

Sierra Leone and the Balkans: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence with reference to the answer of 11 June 2007, on Sierra Leone: peacekeeping operations, what progress has been made on reconciling casualty data for operations in (*a*) Sierra Leone and (*b*) the Balkans since May 2007. [162225]

Derek Twigg: Work on reconciling casualty data for operations in Sierra Leone and the Balkans is continuing. I will write to the hon. Member when the work is complete and place a copy of my letter in the Library of the House.

Substantive answer from Derek Twigg to Liam Fox:

I undertook to write to you in answer to your Parliamentary Question on 19 November 2007 (Official Report, Column 486W) about the progress made on reconciling casualty data for operations in Sierra Leone and the Balkans since May 1997. I trust you will also accept this letter as a reply to your letter of 13 December on the same subject.

I can now confirm the current position in respect of both the Sierra Leone and Balkans casualties is as follows:

Fatalities

As at 10 June 2006, a total of 72 British Forces personnel had died while serving in the Balkans since the start of operations in 1992. This information can be found at:

http://www.mod.uk/DefenceInternet/FactSheets/OperationsFactsheets/BalkansBritishFatalities.

During the operations in Sierra Leone between 2000 and 2002, five UK Armed Forces personnel died whilst deployed: one was killed in action, three died in operational accidents and one died of natural causes. This information is not available via the public websites.

Non-fatal casualties

I can also confirm that the notifiable casualty (NOTICAS) data on Very Seriously Injured (VSI) and Seriously Injured (SI) for Operations in the Balkans and Sierra Leone since January 2001 have now been verified and validated.

Between January 2001 and April 2007, there were four VSI and 13 SI casualties in the Balkans. This data is published on the MOD Website at:

http://www.mod.uk/DefenceInternet/AboutDefence/CorporatePublications/DoctrineOperationsandDiplomacyPublications/OperationsinTheBalkans/TheBalkanCasualtyTable.htm

Between 1 January 2001 and 30 July 2002, there were no VSI or SI casualties on operation in Sierra Leone.

Non-fatal casualty data prior to 2001 have not been examined and could only be captured centrally and verified at disproportionate cost.

I am placing a copy of my letter in the Library of the House.

Warships

Dr. Fox: To ask the Secretary of State for Defence what percentage of *(a)* Royal Navy and *(b)* Royal Fleet Auxiliary ships are in each readiness category, broken down by ship type. [177537]

Mr. Bob Ainsworth: I am withholding the information requested as its release would, or would be likely to, prejudice the capability, effectiveness and security of the Armed Forces. My predecessor wrote to my hon. Friend the Member for New Forest, East (Dr. Lewis) on 6 March 2007 explaining in detail the Department's policy on releasing such information. A copy of his letter is available in the Library of the House.

Weapons: Testing

Harry Cohen: To ask the Secretary of State for Defence what records his Department holds on *(a)* the testing of weapons in space by other Governments over the last 10 years, *(b)* the volume of debris in low earth orbit which relates to such testing and *(c)* the potential effects of such debris; and if he will make a statement. [177043]

Mr. Bob Ainsworth: We have no evidence suggesting that any state has conducted tests of space-based weapons in the past 10 years. China conducted a successful anti-satellite (ASAT) missile test against its own space asset on 11 January 2007, but the missile itself was ground launched and hence, not stationed in space. The UK has expressed its concern to China about the potential impact of the additional debris this ASAT test created.

The British National Space Centre (BNSC) conducts regular assessments of the volume of space debris in orbit and the potential threat this poses to UK assets.

WORK AND PENSIONS

Carbon Monoxide: Alarms

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what guidance his Department has issued to the Health and Safety Executive on annual testing of carbon monoxide alarms. [175657]

Mrs. McGuire *[holding answer 7 January 2008]:* The Health and Safety Executive (HSE) regulates domestic gas safety and provides Ministers with information in this area. In its public advice to domestic gas consumers, HSE recommends that carbon monoxide alarms are fitted and used according to manufacturers' instructions.

Child Maintenance and Enforcement Commission: ICT

Jim Cousins: To ask the Secretary of State for Work and Pensions whether the existing IT contract between his Department and EDS—Electronic Data Systems—will be transferred to the Child Maintenance and Enforcement Commission (CMEC); and whether it is open to CMEC to seek to renegotiate this contract. [169006]

Mr. Plaskitt: The contract between the Department and EDS contains clauses that cover the possibility of future changes in our organisation. These clauses will be used to ensure that the Child Maintenance and Enforcement Commission will be able to continue to make use of EDS services in the same way that the Child Support Agency does now.

It will be for the Commission to determine its future arrangements for the provision of IT services. Should the Commission wish to renegotiate the EDS contract, however, it would have to do so in conjunction with the Department as the contract is at a departmental level.

Child Maintenance: Arrears

Danny Alexander: To ask the Secretary of State for Work and Pensions what estimate he has made of the *(a)* amount and *(b)* proportion of child maintenance arrears that are uncollectable; and if he will make a statement. [173590]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 10 January 2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and pensions, what estimate he has made of the amount and proportion of child maintenance arrears that is uncollectable; and if he will make a statement. [173590]

The latest estimate of the amount and proportion of child maintenance arrears that is uncollectable is set out in notes 5 and 6 to the Client Funds Accounts as published in the Agency's Annual Report and Accounts 2006-07. This was laid before Parliament on 3 December 2007 and copies were placed in the House of Commons Library. A copy can also be found on the internet via the following link: http://csa.gov.uk/en/PDF/reports/arep0607.pdf

I hope you find this answer helpful.

Children: Maintenance

Mr. Paul Goodman: To ask the Secretary of State for Work and Pensions what the policy of the Child Support Agency is on British fathers paying child maintenance to non-British mothers resident in the UK. [168396]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 10 January 2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions what the policy of the Child Support Agency is on British fathers paying child maintenance to non-British mothers resident in the UK. [168396]

The Agency will make a maintenance calculation provided the parent with care, non-resident parent and the qualifying child are all habitually resident in the United Kingdom. The nationality of the parents does not affect this policy.

A person is habitually resident if he/she is ordinarily resident and has been for an appreciable period. While each case is different, the Agency has to take account of the person's circumstances and intentions as follows:

the person's normal centre of interest or connections to a particular place;

the length, continuity and purpose of residence in the United Kingdom;

the length and purpose of any absence from the United Kingdom; and

the nature of the person's work.

I hope you find this answer helpful.

Julia Goldsworthy: To ask the Secretary of State for Work and Pensions pursuant to the answers of 27 November 2007, *Official Report*, columns 328-29W, on children: maintenance, how many individuals received a consolatory payment from the Child Support Agency in each year since 1997; what the average value of payment was in each year; and how much was paid in total in consolatory payments in each year. [172827]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 10 January 2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, pursuant to the Answers of 27th November 2007, Official Report columns 328-9W on children: maintenance how many individuals have received a consolatory payment from the Child Support Agency in each year since 1997; what the average value of payment was in each year; and how much was paid in total in consolatory payments in each year. [172827]

Information on the number of individuals who receive consolatory payments is not available. However, the total number of consolatory awards, the average value of each payment the total amount paid is provided in the table below. Information prior to December 2001 is not available.

	2001-02	2002-03	2003-04	2004-05	2005-06	2006-07
Total number of consolatory awards made	8,335	8,435	5,891	9,001	9,208	9,194
Consolatory payments (£ million)	0.696	0.661	0.406	0.782	0.669	0.666
Average (£)	83.56	78.36	68.92	86.88	72.66	72.44

I hope you find this answer helpful.

Christmas

Malcolm Bruce: To ask the Secretary of State for Work and Pensions (1) whether it is his Department's policy to use (*a*) incandescent light bulbs and (*b*) LED lights for festive decorations on departmental premises; [173491]

(2) what his Department's policy is on the selection of (*a*) real and (*b*) artificial Christmas trees for his Department's festive decorations, and how real trees are disposed of. [173514]

Mrs. McGuire: It is not the policy of this Department to provide Christmas trees, incandescent light bulbs or LED lights for festive decorations on departmental premises.

The vast majority of the Department's estate has been sold (freehold, feuhold and long leasehold interests) or transferred (short leasehold interests) to Land Securities Trillium via a PFI private finance initiative contract known as PRIME. DWP pays a unitary charge in return for fully serviced accommodation.

Community Care Grants: Elderly

Andrew Selous: To ask the Secretary of State for Work and Pensions what percentage of community care grants were awarded to pensioners in the most recent period for which figures are available. [174670]

Mr. Plaskitt: In October 2007 in Great Britain the percentage of community care grant initial awards made to pensioners was 10.6 per cent.

Note: Initial awards do not include awards made after review.

Source:

DWP Social Fund Policy, Budget and Management Information System

Departmental Aviation

Mr. Hayes: To ask the Secretary of State for Work and Pensions how much has been spent by his Department on international flights in each year since 1997. [174355]

Mrs. McGuire: DWP was formed in 2001 and therefore has details of spend on international flights only from February 2002. The information is provided in the following table.

	£ Total
February 2002 to January 2003	600,572
February 2003 to January 2004	639,783
February 2004 to January 2005	703,189
February 2005 to January 2006	878,605
February 2006 to January 2007	652,620
February 2007 to October 2007	454,849

Departmental Buildings

Danny Alexander: To ask the Secretary of State for Work and Pensions what progress his Department is making in its programme to rationalise its head office outside central London and maximise the flexible use of space in line with the Working Without Walls report. [174891]

Mrs. McGuire: The Head Office Estate programme originally included 27 buildings (outside those buildings in central London) and plans to retain 11 buildings, with the remainder being vacated and disposed of by 2009. DWP has so far completed the vacation and disposal of nine of the smaller offices outside London, with staff being re-housed in those larger DWP buildings designated for retention.

DWP is taking the opportunity with each programme change to introduce flexible working, where it does not already operate. DWP is also finalising preparations for its first 'Pathfinder' in flexible working which is planned to commence in Leeds in February 2008. The start date is linked to the rollout dates for the DWP Telephony programme which will deliver improved phone systems that provide staff with the ability to use their designated extension number from wherever they are sitting.

Departmental Correspondence

Mr. Harper: To ask the Secretary of State for Work and Pensions how many letters his Department received from hon. Members and Peers in each session of Parliament since 1997. [174945]

Mr. Plaskitt: The Cabinet Office, on an annual basis, publishes a report to Parliament on the performance of departments in replying to Members/Peers correspondence. Information relating to 2007 will be published as soon as it has been collated. The report for 2006 was published on 28 March 2007, *Official Report*, columns 101-04WS. Reports for earlier years are available in the Library of the House.

Departmental Data Protection

Alistair Burt: To ask the Secretary of State for Work and Pensions if he will place in the Library a copy of the recently published letter from his Department to council revenue and benefit offices suspending data exchanges on security grounds; and if he will make a statement. [171239]

Mrs. McGuire *[holding answer 4 December 2007]*: A copy of Housing Benefit and Council Tax Benefit Bulletin number U3/2007 which was issued on 21 November has been placed in the Library.

Departmental Location

Mr. Jack: To ask the Secretary of State for Work and Pensions how many of his Department's staff will be moving to the Peel Park site in the next six months; how many are working there; and how many will be located there by 1st April 2008. [165759]

Mrs. McGuire: There are currently 160 DWP staff at Peel Park.

Under current plans and assumptions, there will be 759 moving in between now and 31 March 2008. This would therefore bring the total to 919 DWP staff by 1 April 2008.

Departmental Public Expenditure

Mr. Letwin: To ask the Secretary of State for Work and Pensions pursuant to the Winter Supplementary Estimates (HC 29), if he will break down his Department's (*a*) main estimate and (*b*) winter supplementary estimate provision by subhead in (i) near cash and (ii) non-cash terms. [174987]

Mr. Plaskitt: Near-cash and non-cash are essentially used as departmental expenditure limit (DEL) budgetary control concepts and are not specifically identified with voted resources in estimates. However, we have been able to break down net total resources for each section in the Part II: Subhead detail table of our main [and winter supplementary] estimates in the following table.

£000

		Main estimate 2007-08			Winter supplementary estimate 2007-08		
Subhead Line		Near-cash	Non-cash	Total	Near-cash	Non-cash	Total
R1R1	*DEL*

Departmental Recycling

Mr. Hayes: To ask the Secretary of State for Work and Pensions what his Department's policy is on recycling. [174399]

Mr. Plaskitt: Targets for sustainable operations on the Government estate require DWP to improve its environmental performance across a range of activities. During 2006-07 the Department recycled 67 per cent. of its waste, exceeding the specific target to recycle 40 per cent. of waste by 2010 and placing us in a strong position to meet the 2020 target to recycle 75 per cent. of our waste.

The Department's sustainable development policy statement commits the Department to maximise recycling wherever possible. Working with our estates partners, Land Securities Trillium, we have concentrated on our major waste streams and have rolled out 'total paper recycling' across the whole estate. We are now exploring how this scheme can be further enhanced and extended to improve performance further.

Mr. Hayes: To ask the Secretary of State for Work and Pensions how much and what proportion of its waste his Department recycled in each of the last five years. [174430]

Mr. Plaskitt: DWP waste figures, as reported in Sustainable Development in Government reports up until 2005-06, are provided in the following table. The figures shown for 2006-07 will be reported by the Sustainable Development Commission early in 2008.

	Total waste (tonne)	Waste recycled (tonne)	Waste recycled (percentage)
2002-03[1]	17,480	10,413	60
2003-04[2]	22,057	11,758	53
2004-05	30,116	15,348	51
2005-06	28,089	14,782	53
2006-07	22,365	14,881	67

[1] Figures for 2002-03 include information on waste generated from buildings on the former DSS estate only. Information on waste generated from buildings on the former Employment Service estate are not available.

[2] Figures for 2003-04 include information for the whole year on waste generated from buildings on the former DSS estate, and for one quarter only for waste generated from buildings on the former Employment Service Estate.

Departmental Sustainable Development

John McDonnell: To ask the Secretary of State for Work and Pensions what sustainability appraisal his Department has conducted of its recent relocation annoüncements; and what the outcome of the appraisal was. [172982]

Mrs. McGuire *[holding answer 10 December 2007]*: The Department for Work and Pensions Head Office Estate (HOE) Programme undertook a diversity and equality assessment in each of the geographical areas in which closures were proposed which also addressed sustainability issues. The assessment showed that rationalisation would provide:

Impacts on the Environment

More conference and meeting facilities (including video conferencing) reducing the need to travel;

The city centre sites generally have good public transport links;

Good workspace practice enables the estate to better support the Department's core business while reducing resource usage and cost; and

The buildings that are being closed are generally of a lower standard of accommodation than the buildings being retained once refurbished e.g. Peel Park, one of the retained sites in the North West has been accredited with ISO 14001 Environmental Management System.

Impacts on Society

Improved working conditions for Departmental staff;

Greater access to quiet rooms and open plan workspace thereby breaking down barriers, increasing staff morale and improving communication; and

Many of the retained sites have gym facilities, nursery and holiday play schemes operating and additional facilities such as Prayer Rooms, contemplation and nursing mother rooms.

In addition, the HOE Programme must also satisfy the DWP requirement to help to deliver the objectives of the 3rd UK Strategy for Sustainable Development and the programme team work proactively with others to ensure appropriate compliance is achieved including expert review of design proposals where appropriate.

Employment Schemes: Lone Parents

Danny Alexander: To ask the Secretary of State for Work and Pensions pursuant to his Department's publication Ready for Work, what forecast he has made of *(a)* the likely number of work focused interviews which will be attended by lone parents in each quarter until 2011, broken down by (i) region, (ii) ethnicity and (iii) family size, *(b)* the annual cost of providing such work focused interviews, *(c)* the number of additional staff needed to provide such work focused interviews and *(d)* the cost of such additional staff in each quarter until 2011. [176945]

Caroline Flint: The full information requested is not available. The Impact Assessment published alongside the publication "Ready for Work: full employment in our generation" presented our current estimates of the impact of the proposals on the number of lone parents on benefits and costs. Work is ongoing on detailed implementation plans.

Employment Schemes: Young People

Mr. Frank Field: To ask the Secretary of State for Work and Pensions for how long a person under 25 years old must *(a)* have not been in education, employment or training and *(b)* have been claiming jobseeker's allowance to qualify for accelerated entry to the new Gateway. [176854]

Caroline Flint *[holding answer 7 January 2008]*: The proposals are to fast track those aged 20 and over to the new Gateway if they have spent a large proportion of the previous two years in receipt of jobseeker's allowance. Those aged under 20 who have not had time to build up two years of benefit history will be fast tracked to the new Gateway on the basis of how much time they have previously spent not in education, employment or training or in receipt of jobseeker's allowance. Precise qualifying criteria for both age groups have yet to be determined. These arrangements will be mandatory.

Subject to capacity, Jobcentre Plus will also give voluntary early access to the new Gateway to other disadvantaged groups.

Financial Assistance Scheme: Standards

Mr. Kidney: To ask the Secretary of State for Work and Pensions what recent assessment he has made of the effectiveness of the administration of the financial assistance scheme in making timely payments to those who qualify for assistance under the scheme. [173785]

Mr. Mike O'Brien: A review was carried out during this year by Mercers Human Resource Consulting which reported back in August that the process of gathering data to operate the financial assistance scheme (FAS) is fit for purpose and is managed in a satisfactory manner.

They also concluded that delays in obtaining high enough quality data are sometimes due to problems for trustee's administrators and insurance firms being able to supply information.

As of 18 December 2007 3,665 people were receiving assistance payments from the financial assistance scheme and £11,786,114 has been paid out. This compares to the same time last year when 675 members were receiving assistance totalling £2,003,227.

Housing Benefit

Mr. MacNeil: To ask the Secretary of State for Work and Pensions what steps his Department plans to take to improve the administration of housing benefit by local authorities. [175328]

Mr. Plaskitt: Since 2002-03, housing benefit and council tax benefit (HB and CTB) administration has improved significantly. In 2002-03, the national average for the time taken to deal with new claims to HB and CTB was 55 days, with the worst 15 per cent. taking an average of 99 days. These worst 15 per cent. performing authorities have made the greatest improvements in 2006-07 by processing claims in 54 days. In 2006-07, the national average had improved to 33 days.

Complaints to the local government ombudsman regarding HB and CTB administration have also fallen by 72 per cent. between 2000-01 and 2006-07 from 4,028 to 1,121 complaints. In 2006-07, HB and CTB administration accounted for only 6 per cent. of complaints, compared to 21 per cent. in 2001-02.

We will continue to monitor local authorities' performance, engaging where appropriate with the poor performers and will continue to provide consultancy support and good practice on all aspects of HB and CTB administration.

We are continually taking steps to simplify the system to make it easier for local authorities to administer the scheme, for example, the roll-out of the local housing allowance from April 2008 is a more straightforward and transparent way of calculating entitlement to housing benefit in the private sector. We have also developed a new IT link which passes information about DWP benefits straight to the computers of housing benefit/council tax benefit staff. These initiatives will help in the administration of the scheme.

Incapacity Benefit: East of England

Mr. Spring: To ask the Secretary of State for Work and Pensions how many people in *(a)* the East of England and *(b)* Suffolk claiming incapacity benefits had drug or drink dependency as their primary medical conditions in each of the last five years. [174154]

Mrs. McGuire: The available information is in the following table.

Number of incapacity benefit/severe disablement allowance claimants in east of England and Suffolk, who have alcoholism or drug abuse as their main disabling condition

	East of England		*Suffolk*	
Quarter ending	*Alcoholism*	*Drug abuse*	*Alcoholism*	*Drug abuse*
May 2003	1,890	2,270	180	200
May 2004	2,020	2,400	170	190
May 2005	2,110	2,520	190	200
May 2006	2,230	2,590	200	210
May 2007	2,400	2,640	240	220

Notes:
1. Figures are rounded to the nearest 10.
2. Totals may not sum due to rounding.
3. Causes of incapacity are based on the International Classification of Diseases, 10th Revision, published by the World Health Organisation.
4. All IB/SDA claimants in east of England and Suffolk who have alcoholism or drug abuse as their main disabling condition are working age.

DWP Information Directorate 100 per cent Work and Pensions Longitudinal Study

Industrial Health and Safety

Paul Rowen: To ask the Secretary of State for Work and Pensions how many *(a)* incidents and *(b)* complaints were (i) reported to and (ii) investigated by the Health and Safety Executive in each of the last four years. [173797]

Mrs. McGuire: The information requested is as follows:

(a) The numbers of Incidents reported to HSE (i.e. those reportable under RIDDOR – reporting of injuries, diseases, and dangerous occurrences regulations), and the number of these incidents which meet the Health and Safety Commission's (HSC) investigation selection criteria and which are investigated, in each of the last four years are as follows:

	All HSE Reportable RIDDOR Incidents	*Numbers investigated meeting HSC's selection criteria*
2003-04	148,592	5,288
2004-05	141,740	4,890
2005-06	138,848[p]	4,677
2006-07	134,418	5,567

(b) The numbers of complaints reported to HSE, and investigated, in each of the last four years are as follows:

	Total number of complaints reported	*Total number investigated*[1]
2003-04	24,404	22,528
2004-05	22,794	21,633
2005-06	21,074	19,675
2006-07	18,865	18,540

A majority of complaints are investigated by Complaints Officers and not HSE Inspectors. Dependent on the seriousness of the nature of the complaint it may be referred to an inspector to investigate.

Industrial Health and Safety: Criminal Proceedings

Paul Rowen: To ask the Secretary of State for Work and Pensions how many *(a)* enforcement notices have been served and *(b)* prosecutions have been initiated by health and safety inspectors under health and safety at work legislation in each year since 2002-03. [173796]

Mrs. McGuire: The information requested is as follows:

(a) The total number of enforcement Notices issued by the HSE – the Health and Safety Executive – since 2002-03 are:

	Total number of Notices issued
2002-03	13,324
2003-04	11,335

	Total number of Notices issued
2004-05	8,471
2005-06	6,593
2006-07	8,071
2007-08[1]	3,885

[1] Half year figures.

Figures up to and including 2006-07 are based on published HSE annual statistics, the 2006-07 is the provisional figure.

The 2007-08 figure is the numbers issued in the first half of this year, and this is also a provisional figure.

(b) The total number of prosecutions initiated (i.e. specific charges laid) by HSE since 2002-03 are:

	Total number of prosecutions initiated
2002-03	1,659
2003-04	1,720
2004-05	1,320
2005-06	1,056
2006-07	1,141
2007-08[1]	561

[1] Half year figures.

Figures up to and including 2006-07 are based on published HSE annual statistics, the 2006-07 is the provisional figure.

The 2007-08 figure is the number of specific charges laid before the courts in the first half of this year, and this is also a provisional figure.

Jobcentre Plus: Interpreters

Julia Goldsworthy: To ask the Secretary of State for Work and Pensions (1) what interpreter services are available to support Jobcentre Plus *(a)* interviews and *(b)* telephone calls; [173273]

(2) which Jobcentre Plus materials are available in languages other than English, broken down by language. [173274]

Caroline Flint: The administration of Jobcentre Plus is a matter for the chief executive, Lesley Strathie. I have asked her to reply to the hon. member.

Letter from Lesley Strathie, dated 10 January 2008:

The Secretary of State for Work and Pensions has asked me to reply to your questions about what interpreter services are available to support Jobcentre Plus (a) interviews and (b) telephone calls, and which Jobcentre Plus materials are available in languages other than English broken down by language. This is something, which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Jobcentre Plus recognises that additional support may be required to enable people who do not have English as a first language to gain access to our services, (a) when contacting us by telephone, or (b) attending an interview.

We provide this additional support through the:

(a) DWP Telephone Interpreting Service, currently contracted to "thebigword". This service allows immediate access to interpreters for callers to our Contact Centre networks, for example when making new claims to benefits or applying for National Insurance Numbers.

(b) Face to Face Interpreting, including access to interpreters available through our partnership working with the Voluntary Sector, and local community and customer representative groups. We may also use staff with relevant language skills, or customer's friends and relatives, where the customer has indicated that this is their preferred method of language support.

Jobcentre Plus currently produces its suite of customer information leaflets (providing details of benefits and entitlements, and our mandatory Welfare to Work programmes) in English, Welsh and in the following ethnic languages:

Arabic

Bengali

Chinese (Some titles only available on request, due to file size)

Gujurati

Punjabi

Urdu (Some titles only available on request, due to file size)

This information is also available as online electronic-only files that can be downloaded or printed as required.

Information in Somali and Vietnamese is also available in audio format on request.

The languages offered are based on analysis of UK demographic data.

I hope this is helpful.

Marginal Tax Rates

Mr. Hoban: To ask the Secretary of State for Work and Pensions what estimate he has made of the marginal deduction rate experienced by a lone parent, local authority tenant, with two children under 11, with child care costs, working 36 hours per week at adult rate minimum wage. [173347]

Caroline Flint: The Department considers the issue of marginal deduction rates (MDRs) within the wider context of making work pay. It is not possible to calculate the MDR in this particular example because it would require assumptions to be made about rent levels and child care costs as well as issues such as disability. More generally, the number of families facing MDRs in excess of 70 per cent. has fallen by 545,000 since before Budget 1998.

The Government provide a broad range of support for lone parents that focuses on ensuring that work pays, that barriers to employment are addressed and that lone parents are made aware of the employment opportunities available to them.

The in-work credit (IWC) is currently being piloted in 22 Job Centre Plus districts and will be rolled out nationally from April 2008. The IWC further increases the financial benefit from a move into employment and is helping lone parents move away from benefit dependency. This, combined with tax credits and the national minimum wage, means that most lone parents are likely to be significantly better off in work.

National Identity Register

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what plans his Department has to make use of data on the National Identity Register when it is established, and what the estimated cost to his Department of that use is. [174050]

Mrs. McGuire: DWP will be working with the Home Office prior to the introduction of the national identity scheme to establish how data held on the proposed National Identity Register might be used to provide easier access to DWP benefits and services for our customers. It is too early in the process to identify estimated costs and benefits.

National Insurance Fund

Alan Simpson: To ask the Secretary of State for Work and Pensions what assessment he has made of the effect of employers paying employee pensions contributions at the reduced rate on national insurance fund revenue in the last three years. [173578]

Mr. Mike O'Brien: The information is in the following table.

Cost of contracted-out rebate

£ billion

	Tax year					
	2004-05		*2005-06*		*2006-07*	
Type of scheme	*Employer*	*Employee*	*Employer*	*Employee*	*Employer*	*Employee*
Occupational DB	4.6	2.1	4.8	2.2	5.0	2.3
Occupational DC	0.1	0.3	0.1	0.3	0.1	0.3

Note:
1. Rebate expenditure for all years is estimated and based on the latest available contracting-out data in 'Second Tier Pension Provision'.
2. Figures are for the UK and expressed in cash terms.
3. The cost of paying the rebate will be balanced in the longer term by a reduction in the cost of the additional state pension.

Source:
Department for Work and Pensions

Occupational Pensions

Chris Grayling: To ask the Secretary of State for Work and Pensions how many occupational pension schemes have fully wound up since 1997; how many are in the process of winding up; and what the total membership of such schemes was in each year since 1997. [173750]

Mr. Mike O'Brien: I refer the hon. Member to the answer given to him on 29 October 2007, *Official Report*, column 764W.

Occupational Pensions: Financial Assistance Scheme

Mr. Kidney: To ask the Secretary of State for Work and Pensions (1) what plans he has to change the proportion of pension payments made to occupational pension scheme members who make claims to the financial assistance scheme; and what the timescale is for such changes; [173781]

(2) what assessment he has made of the findings in the Young report on changes to the proportion of pensions payable in cases involving the financial assessment scheme. [173786]

Mr. Mike O'Brien: The Findings of the Young Review, released on Monday 17 December 2007, has indicated we are able to increase our commitment to the financial assistance scheme for pension scheme members who have lost their pension since April 1997 to April 2005 from 80 per cent. to 90 per cent. of their expected pension, in addition I have also announced that we will now pay all members from their normal scheme retirement age subject to a lower age limit of 60.

We are keen to ensure that members do not wait any longer than is absolutely necessary for increased payments. We are considering the changes that will require legislation in order to bring the new FAS benefits into effect.

We will bring forward some legislative changes as part of the Pensions Bill currently before Parliament

The full scheme will only be in place when the regulations made under any new powers are in force; we intend to make sure this happens as soon as possible.

Pensioners: Macclesfield

Sir Nicholas Winterton: To ask the Secretary of State for Work and Pensions how many and what percentage of pensioners in Macclesfield constituency claimed pension credit at the latest date for which figures are available. [172060]

Mr. Mike O'Brien: Population estimates from the Office for National Statistics are not available on a constituency basis, so the question has been answered for Macclesfield local authority.

As at May 2007 5,290 households in Macclesfield were receiving pension credit which represents 14 per cent. of the pensioner population.

There were 6,190 individual beneficiaries of pension credit in Macclesfield in May 2007.

Notes:

1. Household recipients are those people who claim pension credit either for themselves only or on behalf of a household.

2. The number of individual beneficiaries includes both claimants and their partners, some of which may be under 60 years of age.

3. Pensioner population includes all those people aged 60 or over based on the Office for National Statistics (ONS) mid-2006 population estimates.

4. Household recipients and individual beneficiaries data is rounded to the nearest 10.

DWP Work and Pensions Longitudinal Study 100 per cent. data

Pensions

Steve Webb: To ask the Secretary of State for Work and Pensions with reference to the answer of 1 October 2007, *Official Report*, column 2376W, on pensions, for what reason his Department's Resource Accounts 2006-07, page 104, give the number of letters sent to pensioners between September 2004 and September 2005 as 414,427; and if he will make a statement. [173770]

Mr. Mike O'Brien: As stated in the answer of 1 October 2007, *Official Report*, column 2376W, on pensions, the Pension Service contacted 470,000 pensioners in the target group of 632,000 up to the end of the project in April 2006.

The figure of 414,427 pensioners stated in the Deficiency Notices paragraph (note 39 of the Department's Resource Accounts 2006-07) refers to the number of pensioners contacted between the period September 2004 to September 2005. The figures quoted therefore relate to different periods and this is the reason for the difference.

Mr. Waterson: To ask the Secretary of State for Work and Pensions how many people have opted to contract out of the state second pension since its introduction. [175064]

Mr. Mike O'Brien: Since its introduction on 6 April 2002, around five million people have contracted out of the state second pension into either a personal pension, a stakeholder pension or an occupational pension. This figure is an estimate and based on a 3 per cent. sample of the national insurance records system database.

Pensions: Fraud

Mr. Waterson: To ask the Secretary of State for Work and Pensions what steps his Department is taking to prevent the fraudulent use of deceased pensioners' details; and if he will make a statement. [175061]

Mr. Plaskitt: DWP has specific processes in place to help ensure that deceased pensioners' details are not used for fraudulent purposes within the tax and benefit systems.

When a person dies, DWP is notified of the registered death by the Office of National Statistics for deaths in England and Wales, the General Registrar's Office (Scotland) for deaths in Scotland and the General Registrar's Office (Northern Ireland) for deaths in Northern Ireland.

When a death is notified, the date of death is recorded on the DWP customer information system (CIS) which in turn notifies the benefit systems in order to end payment of pensions and benefits. Local authorities are also notified for housing benefit and council tax benefit purposes.

CIS will also notify the HMRC national insurance recording system (NIRS) of this date of death for tax purposes.

Once an account held on CIS has a date of death inserted, there are specific checks in place to ensure that all access to deceased accounts for tax and benefit purposes is legitimate. There will often be some legitimate access to a deceased national insurance account held on CIS if, for example, the surviving spouse claims pensions based on their late partner's national insurance contributions.

This process helps protects the tax and benefit system from fraudulent attack using deceased pensioners' details. Processes are also in place, and will be utilised in the new year, to notify the Identity and Passport Service of deaths in order to prevent fraudulent use of a deceased person's identity to obtain, or use, a passport in the deceased person's name.

Pensions: National Insurance Contributions

Kelvin Hopkins: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of individuals who will reach state pension age between now and April 2010 with 30 years or fewer national insurance contributions or credits. [172159]

Mr. Mike O'Brien: The latest information available indicates that at the end of the financial year 2003/04 there were around 1.8 million people due to reach state pension age before the 6 April 2010 who had not yet accrued more than 30 qualifying years for basic state pension.

Notes:

1. Figures refer to people who are estimated to be resident in the UK in 2003-04.

2. Entitlement to basic state pension depends on a number of factors including the number of qualifying years accrued, home responsibilities protection and the spouse's contribution record.

Source:

Lifetime Labour Market Database 2, 2003-04.

Pensions: Private Sector

Chris Grayling: To ask the Secretary of State for Work and Pensions what estimate he has made of the proportion of private sector employers who offered any pension to employees in each year since 1997 for which data is available. [173751]

Mr. Mike O'Brien: I refer the hon. Member to the answer given to him on 29 October 2007, *Official Report*, column 764W.

Poverty

Mr. Laws: To ask the Secretary of State for Work and Pensions when he will publish estimates of the number of people living in poverty in 2006-07; and if he will make a statement. [174853]

Caroline Flint: The Department for Work and Pensions will publish poverty estimates for 2006-07 in the next Households Below Average Income report in spring 2008.

Social Fund

Julia Goldsworthy: To ask the Secretary of State for Work and Pensions pursuant to the answer of 6 December 2007, *Official Report*, columns 1508-09W, on the social fund, what definition his Department uses of serious risk to health and safety in relation to crisis loan applications. [173811]

Mr. Plaskitt *[holding answer 13 December 2007]*: There is no specific definition.

However the social fund Directions state that:

"... a social fund payment may be awarded to assist an applicant to meet expenses (except those excluded by these directions)

(a) in an emergency, or as a consequence of a disaster, provided that the provision of such assistance is the only means by which serious damage or serious risk to the health or safety of that person, or to a member of his family, may be prevented;"

Therefore the applicant has to meet three requirements; the need must have arisen as a result of a disaster or emergency; it must constitute a serious risk to the health and well being of the applicant or a member of their family and there must be no other means of meeting the need.

The decision maker will consider carefully the circumstances of the applicant and should interpret the phrase, "serious damage or serious risk to the health or safety of that person" and "in an emergency, or as a consequence of a disaster," in a broad common sense manner that includes consideration of both physical and mental health.

Andrew Selous: To ask the Secretary of State for Work and Pensions what progress is being made on achieving a single independent review of social fund claims. [174668]

Mr. Plaskitt: There are no plans currently to change the discretionary social fund review process. This consists of an internal review and, for those still dissatisfied with the outcome of their application, an independent review by a social fund inspector at the Independent Review Service.

Andrew Selous: To ask the Secretary of State for Work and Pensions what percentage of calls were connected to the social fund in the most recent period for which figures are available. [174671]

Mr. Plaskitt *[holding answer 17 December 2007]*: The information requested is not available.

Social Fund: Applications

Andrew Selous: To ask the Secretary of State for Work and Pensions how many people asked for a face to face interview about a social fund application and were not offered this in the latest month for which figures are available. [174648]

Mr. Plaskitt: The information requested is not routinely collected and could be obtained only at disproportionate cost.

Social Security Benefits

Chris Grayling: To ask the Secretary of State for Work and Pensions what *(a)* on-flow and origin, *(b)* off-flow and destination and *(c)* stock figures for (i) jobseeker's allowance, (ii) incapacity benefit (not credits only), (iii) severe disablement allowance, (iv) income support with incapacity benefit credits and (v) income support, broken down by statistical group, were for each of the last 36 months for which figures are available. [162114]

Mr. Plaskitt *[holding answer 12 November 2007]*: Information for on-flow origin and off-flow destination is not available. The available information has been placed in the Library.

Chris Grayling: To ask the Secretary of State for Work and Pensions how many people on incapacity benefit or severe disablement allowance started their claim since 1997. [173894]

Mrs. McGuire: A total of 1,846,470 claimants, who were included in the incapacity benefit or severe disablement allowance caseload in May 2007, have started their claim since 1997. Of these, 1,836,660 claimants were of working age.

Social Security Benefits: Christmas

Lembit Öpik: To ask the Secretary of State for Work and Pensions (1) what assessment he has made of the effect on Post Office counters of the 2007 arrangements for paying benefits which would otherwise fall due over the Christmas period; [174227]

(2) what the earliest date is on which benefit payments which would otherwise fall due over the Christmas period may be paid; and if he will make a statement; [174228]

(3) if he will bring forward the earliest date on which benefit payments which would otherwise fall due over the Christmas period may be paid; and if he will make a statement. [174229]

Mr. Plaskitt: The Department has always ensured that when customers are due payments on a national public holiday when most banks and financial institutions are closed, they have access to their money in advance.

We normally advance payments to the last banking day before the Christmas holiday, which last year fell on 24 December. Post Office Ltd. had been aware for some time of these arrangements and had assured us that branches would be able to cope with the anticipated volumes.

However, Post Office Ltd.'s own decision to close at lunch time on the Monday raised concerns about customers' ability to get their money that day. Post Office opening times are operational matters for Post Office management.

Although Post Office Ltd. has provided further assurances that they would be able to cope, including with lunch time closing, we have decided that, where it is technically possible to do so, we will advance payments to 21 December last year. This means that every pensioner will receive their payment before Christmas and around three quarters of pensioners will be paid on 21 December. Some customers will still need to collect their money on the Monday and others may choose to do so. Post Office Ltd. has made clear that everyone who wants their money that day, will be able to get it.

Eight out of 10 of the Department's customers are paid into bank accounts and will be able to access their money from their bank on the Monday, or whenever they want from cash machines over the Christmas period.

Social Security Benefits: EU Nationals

Danny Alexander: To ask the Secretary of State for Work and Pensions (1) what estimate he has made of the likely increase in the number of claimants of *(a)* disability living allowance (care component), *(b)* attendance allowance and *(c)* carer's allowance after 5 April 2008 when they become exportable within the european economic area; [175505]

(2) what estimate he has made of the likely additional costs of *(a)* disability living allowance (care component), *(b)* attendance allowance and *(c)* carer's allowance after 5 April 2008 when they become exportable within the european economic area; [175506]

(3) what estimate he has made of the likely number of staff needed to handle extra cases of *(a)* disability living allowance (care component), *(b)* attendance allowance and *(c)* carer's allowance after 5 April 2008 when they become exportable within the european economic area. [175507]

Mrs. McGuire: As I reported in my statement of 13 December 2007, *Official Report*, column 68WS, we are

still involved in ongoing discussions with the European Commission to clarify the extent of the Government's responsibilities following the judgment in the European court on 18 October 2007. Until we understand the full implications of the judgment we cannot estimate the additional costs, staffing requirements or the number of additional customers.

Danny Alexander: To ask the Secretary of State for Work and Pensions pursuant to the written ministerial statement of 13 December 2007, *Official Report*, column 68WS, on Disability Benefits (European Court of Justice), what matters he expects to be discussed in future meetings between officials from his Department and European Commission officials on European legislation on the exportability of benefits. [175516]

Mrs. McGuire: In its judgment of 18 October 2007, the European Court of Justice decided to remove the care component of disability living allowance, attendance allowance and carer's allowance from the list of non-exportable 'special non-contributory cash benefits' in Annex IIa to the EC Regulation 1408/71. The Court decided that these benefits should be classified as sickness benefits (as defined by Regulation 1408/71). We are working with the European Commission to clarify how our disability benefits, which are long term residence-based benefits, fit into a regime originally designed to cover short-term contributions-based sickness benefits.

Danny Alexander: To ask the Secretary of State for Work and Pensions pursuant to the written ministerial statement of 13 December 2007, *Official Report*, column 68WS, on disability benefits (European Court of Justice), what legal advice his Department sought ahead of the European Court of Justice's judgment; and at what cost. [175517]

Mrs. McGuire: In addition to legal consideration by internal legal advisers, Her Majesty's Government instructed external counsel to represent the United Kingdom in the proceedings before the European Court of Justice at a cost of approximately £19,000.

Social Security Benefits: Overseas Residence

Chris Grayling: To ask the Secretary of State for Work and Pensions what assessment he has made of the effects on the payment of benefits to UK citizens resident elsewhere in the EU of the judgment of the European Court of Justice in case C299/05 on 18 October. [173942]

Mr. Plaskitt: I refer the hon. Member to the statement I made on 13 December 2007, *Official Report*, column 68WS.

State Retirement Pensions

Mr. Pickles: To ask the Secretary of State for Work and Pensions what the basic state pension was for *(a)* couples and *(b)* single households, excluding other benefits and special payments in each year since 1997-98, in cash terms. [176245]

Mr. Mike O'Brien: The information is in the following table.

	Basic state pension for pensioner couple (£)	*Basic state pension for single pensioner (£)*
1997-98	99.80	62.45
1998-99	103.40	64.70
1999-2000	106.70	66.75
2000-01	107.90	67.50
2001-02	115.90	72.50
2002-03	120.70	75.50
2003-04	123.80	77.45
2004-05	127.25	79.60
2005-06	131.20	82.05
2006-07	134.75	84.25
2007-08	139.60	87.30
2008-09	145.05	90.70

Note:
There are no singles or couples rates as such, the basic state pension is an individual benefit, although the category A rate is commonly referred to as the singles rate, and the combination of the category A and category B rate is commonly referred to as the couples rate.

Unemployment

Mr. Martyn Jones: To ask the Secretary of State for Work and Pensions how many households include no one in full-time employment; and what steps he has taken to tackle worklessness in the last five years. [175373]

Caroline Flint: The available information is shown in the following table.

Working-age households in which no one works full-time, United Kingdom, April-June 2007 (not seasonally adjusted)

	Number	*Percentage*
Workless households	2,980,000	16.2
Households with employed persons in which no one works full-time	1,673,000	9.1
All households in which no one works full-time	4,653,000	25.3

Notes:
1. A working-age household is a household that includes at least one person of working age (male aged 16-64 or female aged 16-59).
2. Estimates have not been adjusted for households with unknown economic status.
3. Base for percentages excludes households with unknown economic status.
4. As with any sample survey, estimates from the Labour Force Survey are subject to a margin of uncertainty.
5. Variables used: HNFTIME, HEACOMB, RELHRP6.

Source:
Labour Force Survey household dataset

The percentage of households in which all inhabitants of working age are in employment has risen from 54.5 per cent. in 1997 to 57.9 per cent. in 2007. Through our active labour market policies we have achieved a record number of people in employment, an increase in the employment rate, and the lowest claimant unemployment level since 1975. There are now a million lone parents in work for the first time ever.

We have taken forward an ongoing programme of welfare reform over the last five years and are determined to go further still. Our command paper "Ready for work: full employment in our generation", published on 13 December 2007, sets out further

measures to increase employment opportunities for disadvantaged people and to support them in taking up those opportunities.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Regional Income

Mr. Jamie Reed: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of the gross value added of the Copeland area was dependent upon the farming industry in the latest period for which figures are available. [175940]

Jonathan Shaw: We are not able to provide data for the area of Copeland alone so the figures given are for the region of West Cumbria. This is made up of Copeland, Allerdale and Barrow-in-Furness, with Copeland covering just under half of the total area.

For the region of West Cumbria the agricultural industry accounted for 2.1 per cent. of gross value added in 2005.

Agriculture: Subsidies

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of England's comparative performance against *(a)* other EU member states, *(b)* Wales and *(c)* Scotland in making payments under the 2007 single payment scheme. [175614]

Jonathan Shaw: We have relatively little data at this stage on 2007 SPS payments made by other EU member states. However, all parts of the UK have either met or are on course to meet their targets. This includes England, where figures published by RPA for the end of December showed that full SPS payments amounting to over £497 million had been made to nearly 50,000 claimants. With payments having been initiated a month earlier than for the last scheme year, the Agency is currently on track to meet its targets for 2007 SPS of making 75 per cent. of the total value of payments by the end of March 2008 and 90 per cent. by the end of May 2008.

Mr. Jamie Reed: To ask the Secretary of State for Environment, Food and Rural Affairs what the total value is of single farm payments made to farmers within Copeland since the payments began. [175935]

Jonathan Shaw: Detailed analysis of the total value of single farm payments made to farmers within Copeland since the payments began is not available. Once the remaining scheme payments have been completed, a decision will be taken on the level of detail that will be published.

Mr. Jamie Reed: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of single farm payments owed to farmers within Copeland for *(a)* 2005-06 and *(b)* 2006-07 has not yet been paid. [175936]

Jonathan Shaw: Detailed analysis of the percentage of single farm scheme owed to farmers within Copeland for 2005-06 and 2006-07 is not available. Once the remaining scheme payments have been completed, a decision will be taken on the level of detail that will be published.

Avian Influenza: Pigeons

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if he will relax restrictions on pigeon flights arising from measures to combat avian influenza. [175287]

Jonathan Shaw: It is inappropriate to relax restrictions designed to mitigate the risks of introducing or spreading avian influenza in the face of uncertain evidence about the potential role that racing pigeons might play.

DEFRA's Veterinary Risk Assessment takes account of all available evidence, including evidence that pigeons can be susceptible to this disease. In particular, a study by the European Food Safety Authority in 2006 concluded that pigeons may have the potential to act as a 'bridging' species between waterfowl and poultry. It is likely that the susceptibility of pigeons to avian influenza, and the clinical picture caused by infection, is strongly associated with genetic and biological variations between different strains of the virus.

There is research available which suggests that pigeons have limited susceptibility to some virus strains (mainly isolated some years ago), but other more recent publications[1] suggest the contrary and demonstrate that recently isolated strains of HPAI H5N1 could infect pigeons. This later study indicates that pigeons may be asymptomatic carriers of avian influenza virus.

Pigeons could also spread AI mechanically through infective material on their feet and feathers, and there is potential, especially in long races, for pigeons to land and mingle with wild birds while still on the continent.

Pigeon races can still take place in the absence of avian influenza cases on the near continent. However, good biosecurity, record-keeping and notification requirements must be followed.

[1] Yu et al, Emerging Infectious Diseases Vol. 13, No. 5, May 2007

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if he will consider the merits of taking steps to review the status of the Channel Islands in relation to restrictions on pigeon flights arising from measures to combat avian influenza. [175288]

Jonathan Shaw: Avian influenza can potentially be a fast spreading disease so it is important that we have robust measures in place to mitigate the risks. Therefore, we require any birds from outside the British Isles attending any type of bird gathering to first be resident in the British Isles for 28 days, to allow time for any clinical signs of disease to become evident. This mitigates the risk that birds might be infected when they enter the British Isles but are not yet showing clinical signs; that is, they are incubating the disease. When birds are gathered together it provides a high risk of dissemination of infectious disease should it be present.

The geographical position of the Channel Islands means they are closer to continental Europe than the

UK mainland, making it illogical to treat the Islands differently from France. For these purposes the islands are considered to be part of continental Europe rather than the British Isles. We therefore do not permit birds from the Channel Islands to attend gatherings in the British Isles without first being in the British Isles for 28 days. We have no plans to change this requirement.

Aviation

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs how many air miles were travelled by Ministers in his Department in each year since 2000; and what estimate he has made of the total amount of carbon dioxide emissions produced as a result. [172267]

Jonathan Shaw: DEFRA came into being in June 2001. From information held centrally, and for the period April 2006-September 2007 inclusive, ministerial air travel totalled £112,118 miles with an associated carbon dioxide emissions figure of 66,021 Kg/CO_2. Information for the period(s) prior to April 2006 could be provided only at disproportionate cost.

DEFRA Ministers attend meetings abroad for the purpose of representing the UK Government, and for furthering international dialogue. Where possible and appropriate, video conferencing is utilised as an alternative to air travel.

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs how many air miles were travelled by (*a*) the Secretary of State and (*b*) Ministers in his Department on short haul flights over the last year; and what estimate he has made of the total amount of carbon dioxide emissions produced as a result of these flights. [172454]

Jonathan Shaw: Since 1999 the Government have published a list of all overseas travel by Cabinet Ministers costing over £500. Information for the last financial year was published on 25 July 2007. Details for the current financial year will be published as soon as possible after the end of the financial year. From next year, the list will include details of overseas visits undertaken by all Ministers. All ministerial travel is undertaken in accordance with the Ministerial Code.

All central Government ministerial and official air travel has been offset from 1 April 2006. Departmental aviation emissions are calculated on an annual basis and subsequently offset through payments to a central fund. The fund purchases certified emissions reductions credits from energy efficiency and renewable energy projects with sustainable development benefits, located in developing countries.

In addition, offsetting the flights of Department for Environment, Food and Rural Affairs, the Foreign and Commonwealth Office, the Department for International Development, and the Prime Minister has been backdated to 1 April 2005.

A list of Government Carbon Offsetting Fund members, their emission figures and what activities they have offset through the fund is available online at:

http://www.defra.gov.uk/environment/climatechange/uk/carbonoffset/government.htm

Mr. Hayes: To ask the Secretary of State for Environment, Food and Rural Affairs how much has been spent by his Department on international flights in each year since it was established. [174357]

Jonathan Shaw: DEFRA came into being in June 2001. From information held centrally the core-Department's expenditure on domestic, continental and inter-continental flights for the period April 2006-November 2007 inclusive is:

	£
Domestic	296,937
Continental	841,271
Inter-Continental	1,372,694

Since 1999 the Government have published a list of all overseas travel by Cabinet Ministers costing over £500. Information for the last financial year was published on 25 July 2007. Details for the current financial year will be published as soon as possible after the end of the current financial year. From next year, the list will include details of overseas visits undertaken by all Ministers. All ministerial travel is undertaken in accordance with the Ministerial Code.

All central Government ministerial and official air travel has been offset from 1 April 2006. Departmental aviation emissions are calculated on an annual basis and subsequently offset through payments to a central fund. The fund purchases certified emissions reductions credits from energy efficiency and renewable energy projects with sustainable development benefits, located in developing countries.

In addition, offsetting the flights of Department for Environment, Food and Rural Affairs, the Foreign and Commonwealth Office, the Department for International Development, and the Prime Minister has been backdated to 1 April 2005.

A list of Government Carbon Offsetting Fund members, their emission figures and what activities they have offset through the fund is available online at:

http://www.defra.gov.uk/environment/climatechange/uk/carbonoffset/government.htm

Other information on the core-Department's flights expenditure prior to April 2006 could be provided only at disproportionate cost.

Bats: Protection

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what his Department's responsibilities are for bat protection; and if he will make a statement. [176148]

Joan Ruddock: As required by the European Habitats Directive, all species of bat and their roosts are afforded protection under regulation 39 of the Conservation (Natural Habitats, &c.) Regulations 1994. The principal offences address deliberate capturing, injuring or killing; deliberate disturbance; damaging or destroying a breeding site or resting place; and possessing, transporting, selling or exchanging live or dead specimens. Section 9 of the Wildlife and Countryside Act 1981 also affords protection against intentional or reckless obstruction of access to

places of shelter or protection; disturbance whilst in occupancy and sale activities, including advertisement for the purpose of sale.

Where justified, exceptions to the legislative protection can be authorised under licences issued by Natural England.

DEFRA also acts as the UK focal point for the Agreement on the Conservation of Populations of European Bats, also known as the Eurobats Agreement. This Agreement seeks to protect all 45 species of bats identified in Europe, through legislation, education, conservation measures and international co-operation with other range states. The UK Government was instrumental in establishing the agreement and acts as the depositary to it.

Carbon Emissions

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs whether the Government Carbon Offsetting Fund differentiates between domestic and international flights. [176169]

Mr. Woolas: Emissions from domestic and international flights are calculated differently where the air travel data available allow. Calculation factors for short, medium and long-haul flights are taken from DEFRA's Greenhouse Gas conversion factors for company reporting, available on the DEFRA website.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what methodology is used by the Government Carbon Offsetting Fund to calculate the distance travelled to require one tonne of carbon dioxide equivalent to be offset. [176570]

Mr. Woolas: The Government Carbon Offsetting Fund (GCOF) uses the DEFRA greenhouse gas conversion factors for company reporting to calculate emissions from air travel per kilometre.

GCOF also employs a radiative forcing multiplier of two to account for the additional impacts of emissions at altitude. Figures are presented in the form of CO_2e (equivalent). Air travel distances are reported in kilometres by individual GCOF participants.

Cattle

Mr. Letwin: To ask the Secretary of State for Environment, Food and Rural Affairs what types of ear tag for cattle were shown to be most effective in the most recent survey of tags by his Department. [174915]

Jonathan Shaw: No recent survey of cattle ear tags has been carried out by this Department.

Christmas

Mr. Philip Hammond: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department and its agencies have spent on Christmas *(a)* cards, *(b)* parties and *(c)* decorations in each of the last five years. [171438]

Jonathan Shaw: The information is not held centrally and could be provided only at disproportionate cost.

Clean Neighbourhoods and Environment Act 2005

Lembit Öpik: To ask the Secretary of State for Environment, Food and Rural Affairs whether he plans to review the premises excluded from section 102 of the Clean Neighbourhoods and Environment Act 2005, with particular reference to transport-based premises; and if he will make a statement. [175601]

Jonathan Shaw: I have no current plans to review the premises excluded from section 102 of the Clean Neighbourhoods and Environment Act 2005.

Transport operators are obliged to provide adequate lighting to ensure the health, safety and security of their employees, customers and others. Artificial lighting is needed outside at night.

The transport premises exempted either tend to operate in a 24-7 environment or are places where essential maintenance takes place during the night due to the need to ensure that vehicles and the infrastructure is operational during the day. It is not open to the transport industry, without causing disruption to the wider economy, to switch operations to the daytime. In such cases, it is far more resource intensive to mitigate against light escaping into the atmosphere than is the case with other commercial premises where much of the activity will be carried out indoors and the question of light pollution can be addressed through adequate blinds.

Where artificial lighting is required for operational, security and safety reasons in transport premises, it is in the public interest for Parliament to recognise this in the form of exemptions and to put beyond doubt that, in such circumstances, artificial lighting is not a statutory nuisance.

The prime objective of extending the statutory nuisance provisions to include artificial lighting is to deal with local sources of bright light which cause annoyance to local residents, such as domestic security and decorative lighting. The existence of the transport exemptions does not affect the Act's effectiveness against this sort of problem.

Delivery Services

Mr. Carmichael: To ask the Secretary of State for Environment, Food and Rural Affairs which companies are under contract to his Department to provide mail services. [170165]

Jonathan Shaw: DEFRA has Framework Agreements in place with Royal Mail and Amtrak for UK and International mail services. The Government Despatch Service is also used.

Departmental Buildings

Andrew Stunell: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of new buildings approved by his Department were built to the Building Research Establishment Environmental Assessment Method *(a)* very good and *(b)* excellent standard in each of the last five years; and what the construction cost of those buildings was. [172283]

Jonathan Shaw: The Secretary of State can confirm that the Department for Environment, Food and Rural Affairs (DEFRA) approved four new buildings through the period 2003-07. Of these 25 per cent. achieved very good and 75 per cent. achieved excellent under the Building Research Establishment Environmental Assessment Method (BREEAM) methodology, the very good rated project was a high containment laboratory complex.

DEFRA is unable to provide full construction cost breakdown for these projects at this time as all developer/contractor cost information is not held centrally.

These details will be provided to the right hon. Member for Hazel Grove by 25 January 2008.

In addition to the above DEFRA completed five number major refurbishments through 2003-07 and of these 40 per cent. achieved very good and 20 per cent. achieved an excellent rating under the BREEAM methodology.

Departmental Data Protection

Jo Swinson: To ask the Secretary of State for Environment, Food and Rural Affairs how many confirmed security breaches of databases controlled by his Department occurred in each of the last five years, whether the breach resulted from internal or external sources in each case, how many records were compromised on each occasion, and what estimate was made of the total number of records accessible to the individuals concerned. [173659]

Jonathan Shaw: Except in exceptional cases, when it is in the public interest, it has been the policy of successive Governments not to comment on breaches of security.

Departmental Pay

David T.C. Davies: To ask the Secretary of State for Environment, Food and Rural Affairs how many Departmental employees were paid *(a)* over £60,000 and *(b)* over £100,000 per annum, inclusive of bonuses, in the most recent financial year for which figures are available. [173104]

Jonathan Shaw: In the 2006-07 financial year 290 staff were paid between £60,000 and £100,000 and 28 staff were paid over £100,000 per annum, inclusive of bonuses.

This data relates to staff in core-DEFRA and those Agencies covered by the core-Department's reward arrangements (Animal Health, Pesticides Safety Directorate, Veterinary Medicines Directorate, Marine and Fisheries Agency and Government Decontamination Services).

Bonuses are used to reward excellent performance during the year, and are based on a judgment of how well an individual has performed relative to their peers. Performance related pay schemes encourage high attainment because bonuses have to be earned each year. They help drive high performance in departments and agencies and support better public service delivery.

Departmental Procurement

Mr. Philip Hammond: To ask the Secretary of State for Environment, Food and Rural Affairs whether the standard terms and conditions of purchase used by his Department in procurement of goods and services from the private sector prohibit the assignment of debt. [172320]

Jonathan Shaw: Yes, the standard terms and conditions of purchase used by the Department in procurement of goods and services from the private sector include a prohibition against assignment. This is a common provision where one party does not wish to deal with a third party it has not chosen to deal with as the other contracting party.

Departmental Public Expenditure

Mr. Letwin: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the Winter Supplementary Estimates (HC 29), if he will break down his Department's *(a)* main estimate and *(b)* winter supplementary estimate provision by subhead in (i) near cash and (ii) non-cash terms. [174050]

Jonathan Shaw: Near-cash and non-cash are essentially used as Departmental Expenditure Limit (DEL) budgetary control concepts and are not specifically identified with voted resources in estimates. However, we have been able to break down net total resources for each section in the Part II Subhead detail table of our Main Estimate and Winter Supplementary Estimate as follows:

Part II Subhead — Main Estimate

£'000

		Non-cash	Near-cash	Net total resources
	Spending in Departmental Expenditure Limits (DEL)			
	Central Government spending			
A	Animal Health and Welfare		301,914	301,914
B	Environment		1,104,082	1,104,082
C	Sustainable Farming Food and Fisheries		88,313	88,313
D	Natural Resources and Rural Affairs		343,119	343,119
E	Departmental Operations	23,712	204,867	228,579
F	Rural Payments Agency EC Funded		2,297,122	2,297,122
G	Rural Payments Agency running costs		157,882	157,882
H	Rural Payments Agency other	82,400		82,400
I	Other executive agencies	29,438	106,811	136,249
	Support for local authorities			
J	Environment		144,537	144,537

Part II Subhead Main Estimate

		Non-cash	Year cash	£000 Net total resource
K	Rural Payments Agency EC Funded	0	4,992	4,992
	Spending in Annually Managed Expenditure (AME)			
	Central Government spending			
I	Environment	55,680		55,680
	Non-Budget			
M	Environment		692,778	692,778
N	Sustainable Farming Food and Fisheries		9,341	9,341
O	Natural Resources and Rural Affairs		199,654	199,654
P	Departmental Operations		24,899	24,899
Q	Rural Payments Agency EC Funded			
R	Other executive agencies			
	Total for Estimate	191,150	5,680,361	5,871,511

Part II Subhead Winter Supplementary Estimate

		Non-cash	Year cash	£000 Net Total Resource
	Spending in Departmental Expenditure Limits (DEL)			
	Central Government spending			
A	Animal Health and Welfare		262,119	262,119
B	Environment		919,763	919,763
C	Sustainable Farming Food and Fisheries		82,314	82,314
D	Natural Resources and Rural Affairs		328,861	328,861
E	Departmental Operations	34,712	216,053	250,765
F	Rural Payments Agency EC Funded	0	2,297,207	2,297,207
G	Rural Payments Agency running costs	27,815	244,224	266,039
H	Rural Payments Agency other	82,400		82,400
I	Other executive agencies	32,115	107,455	139,570
	Support for local authorities			
J	Environment		144,537	144,537
K	Rural Payments Agency EC Funded		4,992	4,992

Part II Subhead Winter Supplementary Estimate

		Non-cash	Year cash	£000 Net Total Resource
	Spending in Annually Managed Expenditure (AME)			
	Central Government spending			
I	Environment	55,680		55,680
	Non-Budget			
M	Environment		692,930	692,930
N	Sustainable Farming Food and Fisheries		9,341	9,341
O	Natural Resources and Rural Affairs		200,207	200,207
P	Departmental Operations		24,899	24,899
Q	Rural Payments Agency EC Funded			
R	Other executive agencies			
	Spending in Departmental Expenditure Limits (DEL)			
	Central Government spending			
S	LocalArea Agreements		118,621	118,621
	Total for Estimate	226,642	5,656,573	5,883,215

Departmental Redundancy

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost was of redundancies in his Department in the 12 months preceding (*a*) 30 June 2004, (*b*) 30 June 2005 and (*c*) 30 June 2006. [175342]

Jonathan Shaw: Information is not readily available to provide an accurate and timely answer to this question in line with the periods requested. I can confirm that for the most closely aligned financial years the cost of redundancies within my Department were:

Year to 31 March each year	£
2004	496,650.30
2005	555,157.35
2006	221,494.97

Departmental Sustainable Development

Mr. Prisk: To ask the Secretary of State for Environment, Food and Rural Affairs how many (*a*) new build and (*b*) refurbishment projects in 2005-06 met the targets under the Framework of Sustainable Development on the Government Estate. [175950]

Mr. Woolas: In its 2006 annual report on Sustainable Development in Government, the Sustainable Development Commission (SDC) reported 15 new build and 16 refurbishment projects incorporated a full

range of Sustainable Development considerations. The information was compiled from information returned by Departments. The SDC's report is available on its website at:

http://www.sd-commission.org.uk/sdig2006

Dredging: Norfolk

Dr. Gibson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effect of offshore aggregate dredging on sea defences and erosion along the East Anglian coastline on the Norfolk economy; what his policy is on the future of offshore aggregate dredging; and if he will make a statement. [175602]

Jonathan Shaw: Dredging of marine minerals in English waters is carefully controlled under the Environmental Impact Assessment and Natural Habitats (Extraction of Minerals by Marine Dredging) (England and Northern Ireland) Regulations 2007. Currently, the area licensed for extraction in the UK is only 1 per cent. of the sea bed. The actual area dredged is even smaller, equating to less than 15 per cent. of the licensed area.

All marine minerals dredging proposals are subject to an environmental impact assessment and must be accompanied by an environmental statement and coastal impact study. Dredging will only be permitted if conservative modelling and assessments indicate that no significant harm will occur to the marine environment and the coastline. As the dredging proceeds, such assessments are routinely checked through monitoring.

The recently published Marine Aggregate Extraction summary report (Marine Aggregate Levy Sustainability Fund, 2007) concluded that, based on recent research, modelling and field studies, almost all marine aggregate extraction areas are too far offshore to have any effect on the coastline.

The Government wish to see indigenous mineral resources developed and utilised within a framework of sustainable development. Marine dredging of sand and gravel makes a significant contribution to the supply of aggregate to the construction industry, and is important for beach nourishment as well as flood and coastal defence schemes, particularly along the north Norfolk coasts. In 2006 the total marine aggregate production from the UK was 24.3 million tonnes, with 33 per cent. (8 million tonnes) derived from the east coast.

Early Retirement

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 29 November, *Official Report*, column 616W, on early retirement, what estimate he has made of the cost to his Department of the early retirement schemes being offered to staff; and if he will make a statement. [173413]

Jonathan Shaw *[holding answer 11 December 2007]*: The total cost of early departure schemes being run by this Department during financial year 2007-08 is estimated at £47 million.

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 29 November, *Official Report*, column 616W, on early retirement, what the grades are of those members of staff who have (*a*) been offered and (*b*) accepted early retirement. [173414]

Jonathan Shaw *[holding answer 11 December 2007]*: Pursuant to the answer of 29 November 2007, *Official Report*, column 616W:

(*a*) (i) the grades of staff to whom voluntary early retirement (VER) was offered in the six months to 27 November 2007 are as follows:

	Number
Support Grade Band 1	2
Support Grade Band 2	8
Administrative Assistant	4
Administrative Officer	35
Executive Officer	27
Higher Executive Officer	21
Plant Health and Seeds Inspector II	1
Senior Executive Officer	20
Senior Professional Technical Officer	2
Grade 6	8
Grade 7	30
Senior Civil Service	3
Total	161

(ii) of those listed at (*a*) (i), the grades of staff who accepted VER offers are as follows:

	Number
Support Grade Band 1	2
Support Grade Band 2	8
Administrative Assistant	3
Administrative Officer	25
Executive Officer	24
Higher Executive Officer	18
Plant Health and Seeds Inspector II	1
Senior Executive Officer	19
Senior Professional Technical Officer	2
Grade 6	7
Grade 7	30
Senior Civil Service	3
Total	142

(*b*) (i) the grades of staff to whom voluntary early severance (VES) was offered in the six months to 27 November 2007 are as follows:

	Number
Support Grade Band 1	5
Support Grade Band 2	10
Administrative Assistant	11
Administrative Officer	50
Personal Secretary	3
Senior Personal Secretary	1
Executive Officer	69

	Number
Higher Executive Officer	49
Higher Executive Officer (Development)	1
Plant Health and Seeds Inspector II	1
Senior Executive Officer	16
Grade 6	1
Grade 7	13
Total	230

(ii) of those listed at (*b*) (i), the grades of staff who accepted VES offers are as follows.

	Number
Support Grade Band 1	5
Support Grade Band 2	10
Administrative Assistant	9
Administrative Officer	46
Personal Secretary	3
Senior Personal Secretary	1
Executive Officer	63
Higher Executive Officer	47
Higher Executive Officer (Development)	1
Plant Health and Seeds Inspector II	1
Senior Executive Officer	12
Grade 6	1
Grade 7	11
Total	210

Figures on acceptances have been amended to reflect acceptances which have taken place since the date of the reply on 29 November 2007 *Official Report*, column 616W, referred to.

EU Emissions Trading Scheme

Lynne Featherstone: To ask the Secretary of State for Environment, Food and Rural Affairs what his estimate is of the revenue which will be obtained from auctioning of allowances under Phase II of the European Emissions Trading Scheme in each year over the period of the scheme; what proportion of this revenue he expects will be spent on schemes (*a*) to reduce carbon dioxide emissions and (*b*) to mitigate the effects of global warming; and if he will make a statement. [175656]

Mr. Woolas: Under the terms of the EU ETS Directive 2003/87/EC the total number of allowances auctioned cannot exceed 10 per cent. of the number allocated during Phase II. We plan to auction 7 per cent. of allowances in Phase II of the EU Emissions Trading Scheme (ETS), amounting to approximately 85 million allowances, plus those allowances from installations that close during Phase II and any unused surplus from the New Entrant Reserve (NER).

The Government's spending priorities are not in general, determined by the way in which the money is raised. The spending review process ensures that resources are allocated efficiently to deliver Government objectives and ensures priorities receive the increased levels of funding, as set out in the comprehensive spending review (CSR).

The CSR increases DEFRA's budget by 1.4 per cent. in real terms, from £3,508 million in 2007-08 to £3,960 million. This increase allows the Government to allocate substantial resources to tackle climate change including the Environmental Transformation Fund, and increased resources for flood defences to help the UK adapt.

Farmers: Copeland

Mr. Jamie Reed: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the number of farmers in Copeland who have diversified into other business areas in the latest period for which figures are available. [175932]

Jonathan Shaw: Results from the Survey of Labour, Machinery and Diversification on Agricultural and Horticultural holdings 2005 for diversification in Copeland are given in the following table. These exclude businesses independent from the farm which do not use farm resources.

Farms which undertook diversification activity in 2005

	Percentage
Copeland	20
England	21

The survey sample consisted of around 40 thousand farms in England, of which around 100 farms were from Copeland.

Note, these figures are likely to underestimate the levels of diversification since farmers tend to only record large diversification activities and may not record some activities due to the complexities of defining diversification.

Fisheries: Quotas

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 21 November 2007, *Official Report*, column 865W, on Fisheries: Quotas, on what Quota Management Change Programme proposals his Department was prepared to consult in autumn 2007; if he will place a copy of drafts in the Library; and if he will make a statement. [176139]

Jonathan Shaw: As noted in my answer of 21 November to the hon. Member, DEFRA and the devolved fisheries administrations had been planning to consult on the findings of the Quota Management Change Programme (QMCP) in autumn 2007. When the Scottish Executive announced its withdrawal from the QMCP in June 2007, the draft consultation document was incomplete, with some further work required which would have been carried out before the planned autumn consultation. Subsequent developments have in any case overtaken certain aspects of the draft proposals. In these circumstances, the publication of the draft document in its present form would be misleading and unhelpful.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects to make changes to the management and quota arrangements for the 10 metre and under fleet; and if he will make a statement. [176144]

Jonathan Shaw: I refer the hon. Member to the answer given on 12 December 2007, *Official Report*, column 703W.

Floods: Cleethorpes

Shona McIsaac: To ask the Secretary of State for Environment, Food and Rural Affairs what steps have been taken to prevent flooding in Cleethorpes constituency; and what plans he has for additional steps to be taken. [176865]

Mr. Woolas: The Environment Agency has been developing a long-term strategy for the management of tidal flood risk around the Humber estuary over the next 100 years. This strategy has recently been completed and will be launched on 7 March 2008.

The Environment Agency has completed a number of improvements to flood defences in the last five years in advance of the aforementioned strategy. This includes improvement works to the concrete defences at Stallingborough in 2002 at a cost of £2.2 million, improvements to the earth embankments at Barton on Humber in 2005 at a cost of £3.4 million and new pumps and electrics at Butts Road Pumping Station in 2007 at a cost of £0.165 million.

In 2007, the Environment Agency commissioned a system of flood warning sirens in the Grimsby and North Cleethorpes area. These will be sounded if the Environment Agency issues a 'severe flood warning' for extreme tidal conditions.

Floods: Compensation

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make representations to Severn Trent plc to grant compensation to Gloucestershire residents who were without mains water for a substantial period of time following the July floods. [177678]

Mr. Woolas: Under the GSS (Guaranteed Service Standard) automatic right to compensation is not available to those Severn Trent customers that found themselves without water. This is because compensation is not payable if the disruption is caused by severe weather conditions (including flooding). Nonetheless, Severn Trent Water has put in place a community recovery fund of £3.5 million to support a range of projects in Gloucestershire. This payment was made on a voluntary basis and will come from company profits rather than customers' bills.

Research carried out and reported by Consumer Council for Water found that most residents recognise that the flooding and subsequent loss of water supply to over 140,000 households was unprecedented and that the majority are not seeking compensation. Instead they are seeking a clear commitment from Severn Trent that the company will invest to protect its infrastructure.

Floods: Insurance Companies

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs if he will include representatives of insurance companies in the work of local flood forums. [175667]

Mr. Woolas: For emergency planning purposes, the principal mechanism for local multi-agency co-operation is the Local Resilience Forum; Local Flood Forums and Groups are independent of Government and free to liaise with whomever they choose. However, advice given on insurance issues to Local Resilience Forums and local responders on emergency situations is contained in National Recovery Guidance.

At the national level, Government work closely with the Association of British Insurers with the mutual aim of ensuring continued widespread availability of flood insurance cover.

Floods: Warnings

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what plans he has to review the flood warning system operated by the Environment Agency, including the most appropriate form of warning given; and if he will introduce an opt-out system of flood warning registration. [175669]

Mr. Woolas: I refer the hon. Member to Sir Michael Pitt's Interim Report on the 2007 floods, to which the Secretary of State responded to on 17 December.

Foot and Mouth Disease: Cumbria

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the loss in income to farmers in Westmorland and Lonsdale constituency as a consequence of the 2007 foot and mouth disease outbreaks. [175363]

Jonathan Shaw: DEFRA's current estimate of the economic cost to the UK livestock sector of the movement restrictions and the ban on exports imposed as a result of foot and mouth disease is over £100 million. Disaggregated estimates of the cost to farmers in individual constituencies have not been made.

Mr. Jamie Reed: To ask the Secretary of State for Environment, Food and Rural Affairs whether he has made an assessment of the impact of the recent foot and mouth disease outbreak on the agricultural economy of (*a*) Cumbria and (*b*) Copeland. [175949]

Jonathan Shaw: DEFRA's current estimate of the economic cost to the GB livestock sector of the movement restrictions and the ban on exports imposed as a result of foot and mouth disease is over £100 million. Disaggregated estimates of the cost to farmers in individual counties and constituencies have not been made.

Groundwater: Monitoring

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what the procedure is for monitoring groundwater levels; how frequently such monitoring is carried out; and what plans he has to increase the frequency. [175666]

Mr. Woolas: The Environment Agency monitors groundwater levels from over 6,400 boreholes across England and Wales. These boreholes are monitored at frequencies ranging from every 15 minutes by automation to manually, either quarterly or half yearly.

The frequency of monitoring at any particular borehole is determined by the way in which the data is used and the hydro-geological setting from which it is being collected.

Warm Front Scheme: Finance

John Mann: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of the total costs of all Warm Front schemes were material costs in the last 12 months for which figures are available. [177639]

Mr. Woolas: Between 1 December 2006 and 30 November 2007, 25.58 per cent. of the total costs for the Warm Front scheme were material costs.

John Mann: To ask the Secretary of State for Environment, Food and Rural Affairs in how many and what proportion of cases the cost of Warm Front work recommended exceeded the available grant *(a)* in Bassetlaw and *(b)* nationally in the latest period for which figures are available. [177747]

Mr. Woolas: Since June 2005, 16.94 per cent. of households in England which received assistance through the Warm Front scheme were asked to pay an excess contribution.

Over the same period 22.33 per cent. of households in Bassetlaw which received Warm Front assistance were asked to pay an excess contribution.

Irish Sea: Pollution

Chris Ruane: To ask the Secretary of State for Environment, Food and Rural Affairs what pollution incidents there were involving more than 0.01 tonnes of spillage in the Irish Sea in each year since 2003; on what date each occurred; what size the spillage was; and which company *(a)* reported and *(b)* was responsible for each incident. [176661]

Jonathan Shaw: The Environment Agency's pollution incident database shows that there were 237 recorded incidents on or close to the Irish Sea coast between 2004 and 2006. These cover a range of incident types and severities. Not all of these spillages or releases will have entered the waters of the Irish Sea.

Chris Ruane: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment he has made of the effect of tribulyte tin from ships on the marine environment in the Irish Sea. [177056]

Jonathan Shaw: The Centre for Environment, Fisheries and Aquaculture Science (CEFAS), together with colleagues in the Department of Agriculture and Rural Development for Northern Ireland and the Fisheries Research Services in Scotland have carried out studies on the effects of tributyl tin (TBT) on dogwhelks in the seas around the UK, including the Irish sea. The results, based on surveys between 1994 and 2003, show that effects on reproduction only appear to be significant within a few hundred metres from point source discharges of TBT.

Chris Ruane: To ask the Secretary of State for Environment, Food and Rural Affairs what procedures are in place to monitor the effect of the tribulyte tin from ships on the marine environment in the Irish Sea. [177511]

Jonathan Shaw: The Centre for Environment, Fisheries and Aquaculture Science (CEFAS), together with colleagues in the Department of Agriculture and Rural Development for Northern Ireland and the Fisheries Research Services in Scotland have carried out studies on the effects of tributyl tin (TBT) on dogwhelks in the seas around the UK, including the Irish sea. The results, based on surveys between 1994 and 2003, show that effects on reproduction only appear to be significant within a few hundred metres from point source discharges of TBT.

In the UK, approval for use of tributyl tin as a biocide in antifouling systems, granted under the Food and Environment Protection Act (FEPA) or the Control of Pesticides Regulations (COPR), was revoked by the Health and Safety Executive in 2003.

Chris Ruane: To ask the Secretary of State for Environment, Food and Rural Affairs when his next OSPAR quality status report on the Irish Sea is due; and if he will make a statement. [177512]

Jonathan Shaw: The main joint working on the state of the Irish sea is carried out within the framework of the Oslo and Paris (OSPAR) Convention for the Protection of the North East Atlantic, where regular assessments are done, information gathered by the various organisations is brought together and assessments are made and published in the OSPAR quality status report (QSR). The last QSR was published in the year 2000, and included a regional report on the Celtic seas. The next QSR will be published in 2010.

Meat: Imports

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what mechanisms are in place to ensure that meat is not imported from countries which are experiencing problems with foot and mouth disease; and if he will make a statement. [174709]

Jonathan Shaw: Controls on imports of meat are laid down in European Community legislation. Imports are permitted from certain countries where foot and mouth disease (FMD) is present, but only where the disease is restricted to specific areas. In such cases, imports are only permitted from parts of the country that are free of disease or under strict conditions to ensure the meat does not come from any animal that may have come in contact with FMD before, during or after slaughter. These provisions are in line with guidelines established by the Office International des Epizooties (OIE), the world animal health organisation.

All meat imported from third countries must be accompanied by appropriate veterinary certification. It must enter at designated Border Inspection Posts where checks are carried out to ensure that import conditions have been met. All consignments are subject to identity and documentary checks and at least 20 per cent. of consignments undergo a physical check.

If an EU country experiences an outbreak of FMD, meat from that country can only be traded if it meets certain conditions laid down in Community law in relation to the origin and/or processing of the meat. Community law also allows Member States to take appropriate safeguard action, which may include a ban on imports of meat from all, or parts of, EU and third countries where FMD is present.

Members: Correspondence

Mr. Harper: To ask the Secretary of State for Environment, Food and Rural Affairs how many letters his Department received from hon. Members and Peers in each session of Parliament since 1997. [174935]

Jonathan Shaw: On an annual basis the Cabinet Office publishes a report to Parliament on the performance of Departments in replying to Members' and Peers' correspondence. Information relating to 2007 will be published as soon as it has been collated. The report for 2006 was published on 28 March 2007, *Official Report*, columns 101-04WS. Reports for earlier years are available in the Libraries of the House.

Mushrooms: Compost

John Mann: To ask the Secretary of State for Environment, Food and Rural Affairs how many mushroom composting plants there are in England. [174710]

Jonathan Shaw: There are three firms in England producing spawned compost for mushroom growers.

National Identity Register

Mr. Philip Hammond: To ask the Secretary of State for Environment, Food and Rural Affairs what plans his Department has to make use of data on the national identity register when it is established; and what the estimated cost to his Department of that use is. [174040]

Jonathan Shaw: DEFRA will be working with the Home Office prior to the introduction of the national identity scheme to establish how identity information held on the proposed national identity register might be used to provide easier access to DEFRA's services for our customers. It is too early in the process to establish the detailed costs and benefits.

Recycling: Domestic Wastes

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion and volume of household waste collected for recycling was sent *(a)* overseas and *(b)* to China, for processing in the latest period for which figures are available. [176573]

Joan Ruddock: Where non-hazardous wastes (such as separated recyclables) are exported, they are generally subject only to commercial controls and not to the prior notification and consent procedures which apply to exports of hazardous wastes. Precise data on the amounts and destinations of exported recyclables are not, therefore, available.

However, HM Revenue and Customs' indicative overseas trade statistics indicate that, of the waste metal, paper, plastic and glass cullet and their associated scraps exported from the UK in 2006, 19 per cent. were destined for China. The tonnages for China that year were estimated at 2,400,000 against a figure for all exports of 12,700,000.

Recycling: Standards

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of performance against targets set for local authorities on recycling and composting, in each year since 2000-01. [176572]

Joan Ruddock: Recycling and composting targets for household waste were set for each local authority in England for 2003-04, 2005-06 and 2007-08. Performance against the targets is measured by adding together recycling and composting rates under best value performance indicators 82a (household waste the local authority sends for recycling) and 82b (waste sent by the authority to composting or anaerobic digestion).

261 (66 per cent.) authorities met or exceeded their individual targets in 2005-06; while in 2003-04, 224 authorities (57 per cent.) met their individual targets.

Individual local authorities best value performance indicators are available on the Audit Commission website (www.audit-commission.gov.uk) or via the Communities and Local Government's best value website (www.bvpi.gov.uk). Statistical data relating to national recycling performance are available on the DEFRA website. England's household recycling and composting rates for years from 2000-01 are as follows:

	Percentage
2000-01	11.2
2001-2	12.5
2002-3	14.5
2003-4	17.8
2004-5	22.5
2005-6	26.7
2006-7	30.9

Rural Payments Agency: Christmas

Mr. Maude: To ask the Secretary of State for Environment, Food and Rural Affairs what plans the Rural Payments Agency has to hold a Christmas party or parties in 2007. [175189]

Jonathan Shaw: The RPA does not organise or subsidise Christmas Parties for its staff. Should teams or sections decide to mark the season together, they are organised and paid for locally by the staff themselves.

Rural Payments Agency: Expenditure

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of the Rural Payments Agency's income was spent on *(a)* administration and *(b)* payments to farmers in each of the last two years; and if he will make a statement. [174278]

Jonathan Shaw: The RPA's income was expended on running costs and scheme expenditure. The following figures are as reported in the Rural Payments Annual Report and Accounts, but rounded.

	2006-07		2005-06	
	£ million	Percentage	£ million	Percentage
Net running costs	228	10.3	239	9.5
Scheme expenditure	1,998	89.7	2,279	90.5
Total expenditure	2,226		2,518	

The majority of scheme expenditure is funded by the European Commission under CAP schemes.

The above excludes schemes which are administered by other agencies but for which RPA is the paying agency. It also excludes payments made by other UK paying agencies which RPA funds as the UK funding body.

Seas and Oceans

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with the Secretary of State for Communities and Local Government on the effect of the proposals in the Planning Bill on *(a)* the proposed Marine Bill and *(b)* the marine environment; and if he will make a statement. [176146]

Jonathan Shaw: DEFRA Ministers and officials have worked closely with the Department for Communities and Local Government on the development of both the Marine and Planning Bills. We will continue to do so during their passage through Parliament to ensure that our proposals for new legislation are coherent and compatible.

Both Bills seek to promote the Government's policy of sustainable development in the marine environment.

Sewers

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what plans he has to simplify the infrastructure and division of responsibilities between the responsible agencies in relation to drains and drainage. [175672]

Mr. Woolas: I refer the hon. Member to the response I gave on 17 December 2007, *Official Report*, column 1008W.

Sheep Meat: Exports

Mr. Goodwill: To ask the Secretary of State for Environment, Food and Rural Affairs what rules his Department has set for the export of lamb carcases with mesenteric fat attached. [175954]

Jonathan Shaw *[holding answer 7 January 2008]:* There are no additional export rules relating to lambs with mesenteric fat attached.

No immediate public health concern is attached to carcases dressed this way, provided both the lamb and the fat have been produced hygienically in accordance with European legislation, and passed as fit for human consumption after post mortem inspection.

Waste Disposal: Domestic Wastes

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what estimate *(a)* his Department and *(b)* the Waste and Resources Action Programme has made of the number of waste collection authorities in England that use (i) sacks and (ii) wheelie bins for collecting residual household waste; [176540]

(2) what guidance *(a)* his Department and *(b)* the Waste Resources Action Programme has given to local authorities on the use of barcodes on receptacles for household rubbish; [176166]

(3) what procurement guidance *(a)* his Department and *(b)* the Waste Resources Action Programme has produced for local authorities, on the purchase of receptacles for the collection of household rubbish. [176576]

Joan Ruddock: No estimate has been made by my Department or by the Waste and Resources Action Programme (WRAP) on the receptacles used by waste collection authorities in England to collect residual household waste. Decisions on the best way to collect waste are a matter for local authorities, not central Government.

Section 46 of the Environmental Protection Act 1990 empowers local authorities to specify the number, size, construction and maintenance of their waste receptacles, what can be placed in each, and also where and when they should be placed for collection.

WRAP provides general guidance and support to local authorities on their waste collection services and procurement. However, neither WRAP nor DEFRA has issued specific procurement guidance on the purchase of receptacles for household waste or the use of barcodes on receptacles for household rubbish.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance *(a)* his Department and *(b)* the Waste Resources Action Programme has given to local authorities on whether the disposing of domestic rubbish in a municipal litter bin constitutes an offence. [176543]

Joan Ruddock: Neither DEFRA nor the Waste and Resources Action Programme (WRAP) have produced guidance on the legality of disposing of household waste in municipal litter bins.

There is a range of powers available to local authorities to ensure waste is dealt with legitimately. The Government encourage authorities to make good use of the powers available to them, taking account of local circumstances and priorities.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs which waste collection authorities in England, according to records held by (*a*) his Department and (*b*) the Waste Resources Action Programme, have (i) no side waste collection policies and (ii) closed lid collection policies with regard to the collection of household waste. [176545]

Joan Ruddock: Neither my Department nor the Waste and Resources Action Programme (WRAP) hold the records requested.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what plans he has to allow charges for householders using civic amenity sites to dispose of household residual waste. [176566]

Joan Ruddock: The Government have no plans to allow charges for householders using civic amenity sites to dispose of household residual waste.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs how many fixed penalties were issued for (*a*) putting domestic rubbish in the wrong container, (*b*) leaving domestic rubbish out on the wrong day and (*c*) overfilling a wheelie bin with domestic rubbish in the last year for which figures are available. [176567]

Joan Ruddock: DEFRA does not hold the information requested. Data provided by each local authority in England includes details of the number of fixed penalty notices issued in respect of waste receptacle-related offences generally. These figures are not broken down further into specific types of offence.

Data for 2006-07 (the most recent available) are available from DEFRA's website.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what research and statistical data gathering has been conducted by the Waste Resources Action Programme into the proportion and volume of household rubbish collected for recycling that is not recycled. [176583]

Joan Ruddock: The Waste and Resources Action Programme (WRAP) has conducted no research or statistical data gathering into the proportion and volume of household rubbish collected for recycling that is not recycled. Though data collection has improved significantly in recent years, there is currently no available data to show how big the discrepancy is between waste being accepted at a recycling plant and that amount actually being recycled. DEFRA estimates the gap to be small.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the additional revenue to be raised from new bin taxes on family homes. [176589]

Joan Ruddock: No additional revenue will be raised from waste incentive schemes because local authorities must return any revenue they raise to residents, through rebates for those producing low levels of waste.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs which waste collection authorities have expressed an interest in taking part in the pilots for the new proposed household rubbish collection tax. [177154]

Joan Ruddock *[holding answer 9 January 2008]:* My Department is currently considering the appropriate process for waste collection authorities to express an interest in running a pilot waste incentive scheme. Timings for this process will be subject to parliamentary progress on the Climate Change Bill. In the meantime, we continue to encourage and welcome authorities making enquiries on the implications of the legislation.

Waste Disposal: Fees and Charges

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what guidance his Department has issued to local authorities on charging charity shops for waste disposal; and if he will make a statement; [176532]

(2) what steps his Department is taking to stop the over-charging by local authorities of charity shops for collecting and disposing of waste from their shops. [176585]

Joan Ruddock: Regulation 4 of the Controlled Waste Regulations (CWR), generally referred to as schedule 2, states that one of the types of household waste for which an authority can make a charge for collection is that from 'premises occupied by a charity and used for charitable purposes'. Authorities cannot charge for the disposal of waste classed as household waste.

The CWR, as they pertain to waste, have not changed since 1992. However, it has recently come to DEFRA's attention that there is an inconsistent approach to councils' interpretation of these regulations. In the light of this, in October 2007, DEFRA wrote to all waste authorities in England clarifying its interpretation of the regulations and their waste data reporting duties. A copy of this letter is available on the DEFRA website at:

www.defra.gov.uk

Waste Disposal: Radioactive Wastes

Mr. Jamie Reed: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects his Department to make a formal response to the recently concluded public consultation on managing radioactive waste safely. [175937]

Mr. Woolas: The Secretary of State for Environment, Food and Rural Affairs announced the publication of the 'Summary and Analysis of Responses to the Consultation on Managing Radioactive Waste Safely; A Framework for Implementing Geological Disposal', in a written statement to the House on 10 January 2008.

The consultation responses will be considered in developing the details of the next stages of the implementation process. This will be set out in a White Paper to be published in the first half of this year.

Water: Nitrates

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of the sources of nitrates found in water; and if he will make a statement. [173978]

Mr. Woolas: The paper 'D1 — Nitrates in water: the current status in England (2006)', published in support of the consultation on implementation of the nitrates directive in England, details DEFRA's assessment of the sources of nitrogen in surface waters in England.

The source of nitrates found in water, in England, is shown in the following table:

Source	*kt N/yr*	*Percentage*
Agricultural land	330	60.6
Sewage treatment works	175	32.1
Non-agricultural land	23	4.1
Direct industrial	9.5	1.8
Septic tanks	3.9	0.7
Direct deposition	2.1	0.4
Combined storm overflows	1.9	0.3

DUCHY OF LANCASTER

Government Departments: Contracts

Mrs. May: To ask the Chancellor of the Duchy of Lancaster what rules are in place for deciding which outsourced Government projects should be put to open tender. [176836]

Angela Eagle: I have been asked to reply.

All Government procurement, including for outsourcing, operates within a legal and policy framework based on the EU procurement rules and the Government's policy of securing value for money.

The EU rules comprise the EU procurement directives and the EU treaty. Procurements valued above certain thresholds, starting at around £90,000, must meet the requirements of the EU directives, and must be subject to open competition following advertisement in the *Official Journal of the European Union*. In addition, the EU treaty principles, which govern all procurement regardless of the value, require that public purchasing is conducted in a transparent and open manner. This normally requires a level of advertising proportionate to the value of the contract.

Government policy, as set out in Managing Public Money, is to achieve value for money (VFM) for all purchases. VFM is usually achieved through competition by means of open tendering procedures.

Honours: Criminal Investigation

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster (1) which external law firms or barristers were paid from the public purse for legal advice to employees in connection with the police inquiry into honours; [164214]

(2) what the timetable is for the Government to publish the cost of the legal advice for employees in connection with the police inquiry into honours. [164215]

Norman Lamb: To ask the Chancellor of the Duchy of Lancaster what the total legal costs incurred by the Government were in respect of advice to (*a*) Ministers and (*b*) officials with regard to the inquiry into cash for honours. [171123]

Edward Miliband: Following his evidence session before the Committee on 13 November, the Cabinet Secretary and head of the home civil service submitted a memorandum to the Public Administration Select Committee on the provision and cost of legal advice provided to civil servants in connection with the Metropolitan police inquiry into allegations of cash for peerages. The Select Committee has now published the memorandum and I have placed a copy in the Library of the House.

JUSTICE

Cemeteries

Andrew Gwynne: To ask the Secretary of State for Justice what plans he has to change the law on burials, with particular reference to the re-use of graves; and if he will make a statement. [177193]

Bridget Prentice: On 5 June 2007, my right hon. and learned Friend the Member for Camberwell and Peckham (Ms Harman) announced that we would introduce measures to allow local authorities to re-use graves in their cemeteries and make other improvements to burial law as and when opportunities arose. We are currently preparing detailed proposals for re-using old graves and will make a further announcement in due course. This will of course be subject to public consultation.

Civil Proceedings: Custodial Treatment

Mr. Boswell: To ask the Secretary of State for Justice how many people are in prison for (*a*) non-payment of fines, (*b*) civil debt and (*c*) other civil matters; and if he will make a statement. [177608]

Maria Eagle: In 2006, the last year for which information is available, 1,904 persons were imprisoned for the non-payment of fines. In the same year a total of 4,734 persons were imprisoned for non criminal matters in the Crown and magistrates courts. This figure cannot be broken down to show those imprisoned for civil debt or other civil matters.

The figures for those imprisoned as a result of orders made in the County courts are not available.

Courts: Colchester

Bob Russell: To ask the Secretary of State for Justice pursuant to his answer of 19 November 2007, *Official Report*, column 507W, on courts: Colchester, when in 2008 he expects the outline business case for a new courthouse at Colchester to be (*a*) completed and (*b*) submitted for approval; on what date he expects building work to (i) commence and (ii) be completed; and if he will make a statement. [177638]

Maria Eagle: The outline business case for the new courthouse in Colchester is planned to be *(a)* completed and *(b)* submitted for departmental approval during March 2008. Subject to departmental and HM Treasury approval and subsequent statutory approvals, it is planned for the building work to (i) commence during summer 2009 and, (ii) with a construction completion estimated to be summer 2011.

Departmental Corporate Hospitality

David Simpson: To ask the Secretary of State for Justice on how many occasions he has accepted corporate hospitality in the last 12 months. [171393]

Mr. Straw: Chapter 7 of the Ministerial Code sets out the rules on the registration of hospitality. As Secretary of State for Justice, I have not received any corporate hospitality which requires registration under section 7.24 of the code.

Driving Offences: Convictions

Mr. Ellwood: To ask the Secretary of State for Justice how many *(a)* women and *(b)* men were convicted for drink driving offences in England and Wales in each of the last 10 years. [177359]

Maria Eagle: Available information held on convictions for driving under the influence of alcohol or drugs from 1996 to 2005 (latest available) is provided in the following table.

The data provided cover both drink and drugs offences combined, as they cannot reliably be distinguished separately.

Findings of guilt at all courts for driving etc. after consuming alcohol or taking drugs[1] by gender, England and Wales, 1996 to 2005

	Number of offences	
	Female	*Male*
1996	7,750	87,956
1997	8,425	91,777
1998	8,509	84,607
1999	8,409	80,955
2000	8,457	77,372
2001	8,401	76,341
2002	9,512	80,973
2003	10,112	83,589
2004	10,765	85,473
2005	10,849	82,869

[1] Data cover summary offences of driving etc. after consuming alcohol or taking drugs (which cannot reliably be distinguished separately).

Notes:

1. It is known that for some police force areas, the reporting of court proceedings in particular those relating to summary motoring offences, is less than complete.
2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative systems generated by the courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Legal Aid Scheme: ICT

Mr. Dunne: To ask the Secretary of State for Justice when the online computer system for reporting legal aid claims by solicitors was originally planned to come into operation. [175639]

Maria Eagle: The Legal Services Commission intended the system to come into operation in late October/early November, in order to support the introduction of the new civil and family fees schemes.

The system is currently suspended due to technical problems but the LSC is working hard with its technical partners Oracle and Steria to resolve these problems as soon as possible.

Prison Service

Mr. Bellingham: To ask the Secretary of State for Justice how many briefings have been presented to Ministers on the Tasker inquiry; what the date of each briefing was; how many pages were contained in each written briefing; and if he will make a statement. [175625]

Maria Eagle: My predecessor, the hon. Member for Bradford, South (Mr. Sutcliffe) received an oral briefing prior to a meeting with the hon. Member for North-West Norfolk (Mr. Bellingham) which included the Tasker inquiry. It has not been possible to establish the date. I received an oral briefing on 30 July 2007, covering parliamentary questions from the hon. Member about the enquiry.

I and my predecessors have received numerous written background briefings accompanying draft parliamentary questions, but the high number of questions involved means that it would involve significant disproportionate cost to establish the number and length of these briefings.

Mr. Bellingham: To ask the Secretary of State for Justice how many investigations carried out by the Prisons and Probation Ombudsman since 2001 have been conducted by staff who used to work for HM Prison Service; and if he will make a statement. [175628]

Maria Eagle: It is a matter for the Prisons and Probation Ombudsman to determine his staff. Staff who work in the office of the Prisons and Probation Ombudsman have been recruited from a wide variety of employment backgrounds, including some having previously worked for HM Prison Service and the probation service. It is right that the office has a good mix of experience across its cadre of investigators in particular, including having operational knowledge of the organisations which can be subject to investigations. This mix is kept under review. Detailed information on the precise numbers of staff, present and past, who have carried out investigations for the PPO since 2001 and have previously worked for HM Prison Service, could be obtained only at disproportionate cost.

Mr. Bellingham: To ask the Secretary of State for Justice how many *(a)* full-time, *(b)* part-time and *(c)* casual staff employed by the Prisons and Probation Ombudsman have previously been employed by HM Prison Service; and if he will make a statement. [175631]

Maria Eagle: It is a matter for the Prisons and Probation Ombudsman to determine his staff. Staff

have been recruited from a wide variety of employment backgrounds, including some having previously worked for HM Prison Service and the probation service. It is right that the office has a good mix of experience across its cadre of investigators in particular, including having operational knowledge of the organisations which can be subject to investigations. This mix is kept under review. Detailed information on the precise numbers of staff, full or part time, who have been employed by the prisons and probation ombudsman and previously employed by HM Prison Service is not held centrally and could be obtained only at disproportionate cost.

HOME DEPARTMENT

Asylum: Social Security Benefits

David T.C. Davies: To ask the Secretary of State for the Home Department whether asylum seekers who are given leave to remain in the UK because their files have been lost are entitled to backdate benefits claims. [175997]

Mr. Byrne: There is no policy to grant leave to remain to asylum seekers on the grounds that their file has been lost. All cases are considered on their merits, according to existing law and policy.

Chinese Community: Greater London

Mr. Dismore: To ask the Secretary of State for the Home Department by whom and for what reasons television and other media were invited to attend the raid in Chinatown on 11 October; and if she will make a statement. [162698]

Mr. Byrne: The media were invited to observe the work being undertaken by the Border and Immigration Agency to combat illegal working and to enforce the UK's immigration laws. The media have accompanied the agency on a number of operations in the London and South East region in the last few months.

Departmental Manpower

Tom Brake: To ask the Secretary of State for the Home Department how many and what proportion of posts in her Department have been recategorised from back office to frontline posts as classified by the Gershon efficiency review in each year since 2004. [172255]

Mr. Byrne: The Home Office is committed to achieving work force reductions of 2,327 posts by the end of 2007-08. This is a net target and no posts will be reallocated to the frontline as part of it.

Departmental Minimum Wage

Jon Trickett: To ask the Secretary of State for the Home Department how many London-based staff are employed by her Department on the national minimum wage. [175972]

Mr. Byrne: There are no London-based staff employed by the Home Office or its agencies on the national minimum wage.

Departmental Public Expenditure

Mr. Letwin: To ask the Secretary of State for the Home Department pursuant to the winter supplementary estimates (HC 29), if she will break down her Department's *(a)* main estimate and *(b)* winter supplementary estimate provision by subhead in (i) near cash and (ii) non-cash terms. [174992]

Mr. Byrne: Near cash/non cash splits relate to departmental expenditure limit resource budget controls and are not compatible with supply estimates which relate to voted resource expenditure. Voted expenditure for the Home Department at the winter supplementary estimate 2007-08 is some £922,944,000 higher than the resource budget departmental expenditure limit. A high level reconciliation between the different bases is provided within the estimate.

The following table assigns non-cash within resource budgets to the related subhead at the main estimate 2007-08 and the winter supplementary estimate 2007-08. All other provision is near cash.

£000

Subhead		Main estimate	Winter supplementary estimate
C	Criminal Records Bureau	717	717
D	Counter Terrorism and Intelligence	21,319	16,719
F	Criminal justice reform	16,338	0
G	National Offender Management Service HQ	383,983	0
H	Prisons - private sector	23,720	0
I	Prisons - public sector	(4,900)	0
J	Probation HQ	457	0
K	Border and Immigration Agency	72,136	72,446
L	Identity and passport Service	22,563	44,563
M	Central services	3,439	(15,528)
W	Independent Police Complaints Commission	2,626	2,626
X	Security Industry Authority	2,583	2,583
Y	Serious and Organised Crime Agency	16,016	16,016
AA	National Policing Improvement Agency	29,780	29,780
AB	Youth Justice Board	3,000	0
AC	Criminal Injuries Compensation Authority	(3,740)	0
AD	Criminal Cases Review Commission	513	0
AE	Office of the Immigration Services Commissioner	110	0
		590,660	169,922

Frontiers: Security

Mr. Paterson: To ask the Secretary of State for the Home Department what discussions her Department has had with the Irish government on the introduction of the e-borders system in Great Britain; and what the outcome of those discussions was. [168405]

Mr. Byrne: As outlined in our 'Securing the UK Border' strategy, March 2007, we are reviewing the rules and operation of the common travel area to explore how border security can be strengthened. The results of that review will be announced in due course.

The e-Borders contract includes provision for the supply of data on passengers and crew travelling by air and sea between the Republic of Ireland and the UK.

The governments of the United Kingdom and Republic of Ireland continue to work closely together at every level and keep each other informed of operational, policy and legislative issues, including the implementation of the e-Borders programme, which is a key part of the Government's plans for securing our borders.

Mr. Paterson: To ask the Secretary of State for the Home Department when she first informed the Secretary of State for Northern Ireland of plans to introduce an e-borders system. [168413]

Mr. Byrne: The concept of e-Borders, in the context of proposals to obtain passenger and crew data in from carriers for screening by the border agencies in advance of travel, was first articulated in the Government's White Paper 'Secure Borders, Safe Haven' (CM 5387) published in February 2002.

Mr. Paterson: To ask the Secretary of State for the Home Department what representations she has made to the Irish government on adopting an e-borders system compatible with the UK system. [168414]

Mr. Byrne: We continue to work closely with the Government of the Republic of Ireland at ministerial and official level on the implementation of the e-Borders programme. Discussions are ongoing at all levels on sharing best practices and procedures to enable sufficiently compatible systems.

Identity Management Public Private Forum

Damian Green: To ask the Secretary of State for the Home Department when she will publish the report of the Crosby review of identity management. [175659]

Andy Burnham: I have been asked to reply.
